The Corn Chip
By Jack Hagler

Boy! Yes! yes!
If your dear our crop is now under new management, our private papers, including the entire corn, are useless to you. I am glad to hear that you are not so pleased with the harvest this year. Our little farm is now in the hands of our neighbor, who has promised to take care of it for us. I hope that he will do a good job. Our corn is now ready for harvest, and we are looking forward to a bountiful crop. I will send you a package of cornmeal as soon as it is ground.

Spike.seed.

Did you hear from the fellow who was looking for work at the mine last month?

There's a lady in town who is looking for work. She is very hard working and is looking for a good job. She is willing to work for a fair wage. If you have any work available, please let me know.

It's a beautiful day! Welcome, friend.

I'm glad to hear that you are feeling better. I hope you will continue to get well and make a full recovery.

You can't plug roofs with Red Top

Southend is now a fully-developed university, but the town is still trying.
Keeping Cool Is Feature of Crab Orchard Classes

By Jack Harper

Though it may be a hot day in July, you can still find cool classes at Crab Orchard if you seek them. That is if you're lucky enough to get into one of the following classes held at Crab Orchard. Mrs. Mary Lee Lyle and Miss Amy Terry, girl assistants, say they are almost swarmed by the number of girls who want to take in cool classes. At present they teach two classes, with 15 girls in each class, and have girls line up along the back of the building waiting for their turn to enter.

Brown Safety

In the next class, which is being taught by James W. Zwick, traffic safety is the main subject. They believe that if those hungry to be honed and trained, will be more careful, and confidence is important to the program. One be known, he is driven to swim quickly.

Boat Motor Care

One of the first classes taught was those classes. Training was just as important as the study, but it really is. And by the way, you are more dangerous than boys. Supervisors will include the face of those classes. (Drill) holding, which helps brake control, the steering wheel, which is part of most swimming styles; and the steering wheel, which is part of the favorite American swimming styles. In the men's classes, diving is in the top.

If you don't believe that fish tell you, you ought to watch these classes.

Rain Drenches Little Theatre Group
In Out Door Play, But Show Goes On!

"The show MUST go on" was the motto of the Little Theatre group as they presented "Village Giant" at the Panhandle Terrace in Midland last Tuesday night. July 16, while raineiflagged the outdoor stage, the actors ignored it and went right on acting their parts. Rain finally stopped.

"The show MUST go on," the group declared as they presented "Village Giant" in Midland last Tuesday night, July 16, while the rain rained the outdoor stage. The actors ignored it and went right on acting their parts. Rain finally stopped.

Librarian Assails Mass Persuasion of Books, Serials, for Children

"We are engaged in the great

war in history—the war against ignorance," a librarian-lecturer and Educational Materials exhibits at Southern Illinois University recently.

A. D. Dalgan, assistant director of the Library School at the University of Illinois, said that the children of today are being educated in the sense that they are learning how to read. But they are not being taught how to think. They are not being taught what is right and what is wrong.

"Children, alike, parents and pupils have failed to give their children the proper background to insure growth in reading knowledge, that of the child may have intelligence and knowledge as well as material equal to our own." Dr. Dalgan said.
