**Southern Board Meets, Elects Davis Chairman**

Southern's new board of trustees held its organizational meeting at the cafeteria last Monday and elected Robert W. Davis of Carbondale as chairman. Dr. Leo Brown was re-elected secretary and executive committee chairman. Professor Samuel W. Jones, dean of the College of Fine Arts, was elected a trustee. The meeting was called to order by President Powers.

**Powers Urges Abundant Life in Lecture Here**

Dr. Leo Brown, director of the four-year-old College of Fine Arts, urged a larger college of fine arts at Southern Illinois University. Dr. Brown told the board that the college of fine arts should be expanded and that the college of fine arts should be expanded.

Colones of Corn

By George Walter, M.D.

Dear Professor:

I am writing to request a copy of the latest issue of the journal published by the American College of Physicians. I believe it contains important articles on the topic of colon cancer, which is a subject of great interest to me.

Sincerely,

[Your Name]

Filip Service An Easy Learning Aid

By Fred W. Frisbie

"Teaching the dog as well as the plant is the principle of the education of the future farmer," says J. T. Smith, superintendent of the Illinois Agricultural College. "The farmer must not only be able to read and write, but he must also be able to understand and apply the principles of the sciences of agriculture." This principle is embodied in the course of study offered by the college, which includes courses in agronomy, soil science, plant pathology, and animal husbandry.

The course is divided into two parts: the first part consists of four years of study, during which the student is required to attend lectures and participate in laboratory exercises; the second part consists of two years of practical experience, during which the student is required to work on the college farm or in the field laboratory.

The course is offered through the Department of Agriculture, and is open to students who have completed four years of high school. The courses in agronomy, soil science, plant pathology, and animal husbandry are offered through the Department of Biological Sciences, and are open to students who have completed three years of high school.

The college also offers courses in mathematics, physics, chemistry, and physics, which are required for all students.

The college is located in Urbana, Illinois, and is one of the leading agricultural institutions in the country.

Nearby, 3,500 See Book Exhibit Here

More than 2,000 elementary and middle-grade students visited the second-annual Book Exhibit directed by Dr. Victor R. S. Hill. The exhibit was held in the gym July 18 and 19. People of all ages enjoyed the exhibits of interesting students gathered at the school. The exhibits were sponsored by the school and the local chapter of the YMCA.

The exhibit included textbooks for elementary and middle grades, maps, posters, useful articles, creative plays and front covers and supplies for radio-actives. Students brought a few of the strongest student projects to the show, with the help of their teachers. The ACE students in the second grade were shown working on a large mural with a special project, and one of the exhibits was the waterfall of the yearbook, which was on display in the main office.

The second grade students were the only ones not to have their exhibit in the show, but they were happy to have their exhibits in other places. Dr. Robert M. L. had a large group of middle-grade students who came to the show to look at their exhibit in the exhibit hall.

A room was held for those attending the exhibit, and an exhibit of the school students included an exhibit of the students' work, the school supplies, and the exhibits of former students.

At four p.m., the show was over, and the students went home.

10:30 p.m. - July 18.

Music Recital by Werner and Griffin August 1

Kurt Werner, pianist, and Griffin Griffin, singer, are in a concert in the Little Theatre Monday, August 1, at 8 p.m.

Werner, junior from Southern California, has a position as accompanist with Werner, who is associated with the school. Griffin, former student, is now playing the concert, and the concert will be followed by the recital of the school.

The concert will be advertised with a program of some of the school’s best students, and the program will be accompanied by a band of music from the school.

Training School Will Have Air-Conditioning

By Marc Colby

With a little climate, air-conditioning is a necessity, and an intercommunication system is a must.

The students at Southern California have been studying the problem.

According to principal Moore, the school is planning a new building, and a complete up-to-date system of air-conditioning will be installed. The electricians will be responsible for the installation, and the students will be involved in the work. The system is expected to be completed by the end of this month.

Campers Trip Taken by Class

By Joyce King

In the camp and the class will be a class trip, which is sponsored by the camp.

The camp is a two-week trip to the coast, and the class will be divided into two groups. The first group will go to the coast on July 15, and the second group will go on July 20.

The camp will be attended by 35 students and 10 teachers.

Future of Southern as A University Discussed

By Gerald Pogue

While the acquiring of a separate board of trustees for University in that same year as an independent University. The creation of this board was a significant step in the development of the University. However, the issues surrounding the creation of this board have been the subject of debate and discussion among members of the Southern community. The board has been seen as necessary to ensure that the University could operate independently and effectively.

Sports Profiles

If you want to see what a tennis court looks like, you should consider visiting the University’s tennis courts. The courts are well-maintained and provide a great place to practice and play.

Baptist Girls’ Dormitory Open In Fall; Is Named “Johnson Hall”

By Dorothy LeBek

The first unit of the Baptist girls’ dormitory, named Johnson Hall, is set to open at the end of the fall semester. The dorm is a significant addition to the University’s facilities, providing much-needed housing for students.
