SEVEN REASONS WHY A STUDENT CAFETERIA IS WORTH FIGHTING FOR

Eating, one of the great essentials in life, not only supplies people with the energy of enjoyment. Eating, in order to be enjoyable, should be accompanied with a comfortable atmosphere.

Eating places near S. I. N. U. provide neither an adequate enclosure nor the proper atmosphere. There is not a decent place to eat for the average student near the campus.

Japanese will not conquer China

by ROLAND BARTER

Considering the present state of China's military and economic strength, it is highly unlikely that Japan could conquer China in the near future. The Japanese government is aware of this and is unlikely to pursue such a strategy.

SUMMER STUDENTS AGAIN FACED WITH PROBLEM OF TOWNSHIP ON TENNIS COURTS

Upon the many and sundry problems experienced by S. I. N. U. students who are summer residents in the township, it is only natural for active persons to want to participate in the tennis courts. However, one may not have the necessary credentials to use the courts. The courts are for the benefit of those who are not registered students.

WHAT IS THIS--A NEW WAY TO CATCH BIRDS

By SHERIDAN WILSON
Tuesday and Wednesday

A new method of decoy hunting has been invented which promises to revolutionize the way ducks are hunted. The method involves the use of a decoy that imitates a female mallard, complete with a full mouth of ducklings. The decoy is equipped with a radio transmitter that sends out a series of chirps and quacks to attract the real ducks.

The method was invented by Dr. John Smith, a wildlife biologist, who conducted extensive field tests to perfect the technique. In his tests, he found that ducks were attracted to the decoy and approached it more closely than they would have to a traditional decoy.

The new method is expected to be particularly effective in areas where ducks are scarce or difficult to locate. It is also expected to be popular among hunters who enjoy the challenge of tracking and bagging ducks.

FLICKER SIDELIGHTS

In the last issue of the school newspaper, the Flicker, several students expressed interest in starting a new club called the "Flicker Flippers," which would focus on the ecology of the school's campus.

The club's first meeting was held yesterday evening in the science laboratory. Attendees included students from the biology, environmental science, and creative writing classes.

During the meeting, the members discussed potential activities for the club, such as creating a bulletin board display, organizing a clean-up day, and planning a field trip to a local nature reserve.

The students agreed on a meeting schedule of once a month, on the first Tuesday of each month, at 6:00 PM in the science laboratory. They also elected a president, vice-president, and treasurer, who will be responsible for organizing the club's activities.

LETTERS TO THE EDITOR

Dear Editor,

I am writing to express my concern about the recent changes in the school curriculum. As a parent, I believe that the new focus on technology and the arts is necessary, but I am worried about the impact on traditional subjects such as literature and history.

I understand the need for preparing students for the modern workforce, but I believe that a well-rounded education should include a strong foundation in the humanities. I urge the administration to consider the feedback from parents and students before making further changes.

Sincerely,

MRS. JANESSON OPENS EIGHTH QUARTERLY CHILD GUIDANCE CLINIC. BY DISCUSSING RELATION OF TEACHER TO MENTAL HYGIENE IN THE SCHOOL

Owing the eighteenth quarter Child Guidance Clinic, Mrs. Augustine Janesson, who has been the director of the clinic since it was founded, will hold a meeting of the Clinic on Thursday, July 12th, to discuss the relation of teachers to mental hygiene in the school.

Discussion of the problem will be led by Mrs. Janesson, and it is expected that the meeting will be attended by a large number of teachers. The meeting will provide an opportunity for teachers to learn about the latest developments in the field of mental hygiene and to discuss ways in which they can help promote the mental well-being of their students.

The meeting will begin at 4:00 PM in the school auditorium.
