SIU Junior Killed as Car Hits Tree

**Exam Stand-In Proves Failure**

The Office of Student Affairs announced that suspensions for two freshmen men until next winter term because one paid the other to take examinations for him. A student official, Joseph R. Gorman, 18, of Western Springs, substituted for Richard Goodman, 18, of Alhambra, N.Y., on at least two occasions.

Goodman said he was having trouble in the chemistry class. His old instructor had heard of students substituting for each other on tests.

The office said Gorman and Goodman talked it over, and Goodman agreed to take the tests for an undisclosed sum.

The instructor told officials he was not surprised, a women's residence division, Sigma Pi, was the winner last term this year. The contest went to Bowyer Hall, added this year for the first time, according to the judges.

Noise and Mecca Dorm were given honorable mention ris said that both the quality and quantity showed improvement over the past. These have been a important function for the Sigma Greek by en- courageing better news coverage of organizational activities on and off campus.

**Injured Campanian Crawls Quarter Mile to Get Help**

Joseph C. Napoli, who crossed a fractured pelvis for a quarter mile from the one-car accident that claimed the life of a pledge brother, was reported in fair condition Tuesday at Doctors Hospital.

Napoli, 22, a sophomore from Du Quoin, was brought to the hospital in a fractured and possible internal injuries from the accident in which William R. Wegener, 22, a junior from Jacksonville, was killed.

Both are Phi Kappa Tau, social fraternity pledges.

The Jackson County coroner's office said that Wegener apparently was killed instantly in the accident on the Old Route 13 near Murphysboro.

The coroner's office said the road curved left, but the automobile, driven by Wegener, went straight, smashing against a tree.

The car hit the tree head-on with most of the impact on the passenger side, according to the coroner.

Napoli, member of the gymnastics team, was thrown clear. The accident occurred between 2:30 and 3:15 Tuesday. By the time Nanni re- sponded to the call, Wegener had dragged himself to a farm house four-tenths of a mile away, it was about 6 a.m.

Wegener is survived by his parents; a brother, Guy, 21, a student at the University of Illinois; and a sister, Carolyn, 19.

Funeral arrangements are incomplete.

The Office of Student Affairs said records show Wegener had taken the automobile home or May 17. An office spokesman said that the car could only have been authorized.

**Philly Sig, Bowyer, 'Angels' Win Egyptian Scrapbook Contest**

First place honors for the 1964 Egyptian Scrapbook Contest went to a men's social fraternity, the Psi Kappa Tau. The contest was held at the State Armory and the Belvedere Hotel, and the judges for the contest were: D. E. Howard, Bratton, and Richard G. Browne.

Psi Sig, Bowyer, 'Angels' Win Egyptian Scrapbook Contest

The Student Council passed a bill recommending that students be charged $30 for admission to fall and winter athletic events at a special meeting Monday night.

Dave Davis, chairman of the Finance Committee, pre- sented the bill. The recommendation will be sent to the University of Illinois, director of student affairs, and other University officials.

The bill also allows students to purchase a season ticket for $6, or a $3 fee for fall quarter events and $5.50 for winter athletic events.

Micken, Grant Sworn In Council OKs 50 Cent Fees For Games in Fall, Winter

**State Board OKs 2 SIU Contracts**

Two contracts for training programs at SIU were approved Tuesday by the State Board of Higher Education.

One is for $1,564,000 from the U.S. Department of Labor for retraining of 1,000 "hard core" unemployed persons in southern Illinois.

The other contract is for $25,000, Corral, the training of 100 city unemployed persons in Senegal and Nigeria.

At its meeting in Chicago, the state board approved a plan for retraining of 1,000 "hard core" unemployed persons in southern Illinois.

The plan was presented by Howard W. Gavan, chairman of the Illinois Board of Trustees.

Gavan said training programs are already in progress in both states. The plans are expected to cost $25,000. The plans are expected to cost $25,000 for the first year, $12,500 for the second year, and $5,000 for the third year.

The plan for retraining of 1,000 "hard core" unemployed persons in southern Illinois was approved by the Illinois Board of Trustees.

Qualified individuals will be trained in the following areas:

- Agriculture
- Manufacturing
- Construction
- Transportation
- Health Care

The plan is expected to cost $25,000 for the first year, $12,500 for the second year, and $5,000 for the third year.

Revisions to the student government constitution were passed. Also the $30,000 alloca- tion to the Daily Egyptian was released from escrow.

Dick Moore, retiring student body president, and Ger- ron Ross, student body vice president, each administered the oath to the office to his successor. Pat Micken, presi- dent elect and Don Grant, newly elected vice president, Moore announced that the Ka advisory board had se- lected Craig Samer as contact editor and Bob Drinan as man- aging editor. Drinan held the same position this past year.

Ken Mucker, Fran Lang- ston, Irv Rhodes, Dan Held- man, Dan Parker and Richard Grawg were appointed to next year's judicial board.

For the men's division, Sigma Kappa won the first place plaque last year. In the service organization division, Angel Flight took first place, The Baptist Student Union scrapbook was given honorable mention by the judges.

The awards will be formally presented to the winners this fall at the Freshman Talent Show.

Contest Chairman Pat Mor- ris said that both the quality and quantity showed improve- ment from last year. The contest served as a fund raising for the Sigma Greek by en- courageing better news coverage of organizational activities on and off campus.

Who Hanged 'Hall' And Who Is He?

A black-faced dummy of a man named 'Prof. Hall' hung in effigy Tuesday in front of the Baptist Student Foundation.

Across the campus hung the remains of a dummy of Thomas Pointe's 'dime head,' which had been hanged two years earlier.

The exterior of the Baptist Foundation had also been dec- orated with booby traps which were draped from guide wires and ropes.

A Harral Hall is the busi- ness manager of Joyce-Dorel which is a Baptist men's hous- ing unit located just behind the Foundation. However, there are no "Hall's" on the SIU faculty.
Steam to Cool Will Surpass Steam to Heat SIU Campus

Steam to cool should surpass steam to heat some time next year on the SIU campus, Willard Hart, SIU associate architect, estimated.

"Next summer, when the SIU Alumni Family Vacation Camp at Little Grassy Lake, which has been filled the past two years, will be extended from two to four weeks," Hart said.

Just in case you are wondering how hot steam can cool a building, the steam, moving into the building's air-conditioning equipment, activates a salt solution, lithium bromide, which is the refrigerant that cools the water running through the building's pipes.

With the University campus expanding at a rapid rate, the power plant, the source of the steam, has had to expand, too. One new boiler of 80,000 pounds-per-hour capacity has been in operation since March and a second one of the same size will be placed in service soon.

The week of May 21 the Erie Air Works, of Erie, Pa., low with a bid of $33,000, the Communications 33,000-pound steam generating units with two more of 80,000 - will be ready.

Because of limitation of facilities, only 100 persons can be accommodated per week, and reservations are accepted on a first-come basis.

"The alumni family camp has grown in size, features popular each year in its six years of existence, the professor of geology, executive director of the SIU Alumni Association, will manage a four-week program will start Aug. 2 and Aug. 3.

The families can camp for one or more weeks. This year they will be placed in the building's air-conditioning equipment, with the heat that cools the water running through the building's pipes.

The time has come, most roommates soon will be saying, to speak of many things of snakes and bottles and stolen street signs and how to get rid of such things.

Time was when a college student going home for the summer vacation, which may be out of the bottom of a suitcase. Not any more. The days of the quiet coin stamp and rock collections are gone, according to a male student who lives in Small Group Housing. The louder, the bigger, the uglier the object, the better.

And those precious "little things" that used to be a lot when they were "acquired" during the course of a year, are suddenly become as heavy as a squadron of overcoats. They call the college of a student packing to go home.

SIU coeds, off-campus, of course have a collection of liquor bottles.

Bottles, Rugs, Signs Now in Vogue

As Collections Take on New Look

A young married couple deserves an award from the Humane Society. They collected a collection of pets to rival any menagerie. At the latest count they have, among other things, a junior from Lon­don, Ky., has been named Sweetheart of Theta Xi social fraternity. She is a member of Sigma Sigma Sigma social sorority.

More Boilers on Way

SIU's Department of Music has announced its third annual summer program for pre-college students, on the Carbondale campus July 5 through Aug. 28.

The program will include a full schedule of musical activities, rehearsals and a final concert of the band, chorus and orchestra and a piano recital, both public and private lessons, introductory courses in music theory and a class in voice and piano.

The faculty will include visiting educators who are outstanding musicians and leading music educators. Among the conductors will include Doug Steensland of the Elgin High School, band. Dr. Steensland was a former Student from the Indiana State Teach­ers College, and Dr. Walter Roddy of the Home­wood Flossmore High School, music.

Activities:

 Few Meetings Slated On Eve of Exams

The Saluki Flying Club will be taking reservations for the flight to the World Fair from 10 a.m. to 2 p.m., in Room C of the University Center.

The Judo Club will meet at 7 p.m. in the Home Economics Building.

The Saluki Flying Club will meet at 7 p.m. in Room C of the University Center. Good Archery will be held

Weekend Preview Of Singin' Safari

The cast of "Singin' Safari," the SIU student musical show that will tour the Caribbean this summer, will present a preview of the show at Proscenium One this weekend.

There will be two shows Friday and Saturday nights at 8 p.m. and 10:30 p.m., and Sunday at 8:30 p.m. Only, tickets are available at the University Center information desk for $1 each.

The cast of "Singin' Safari" is scheduled to leave on June 14 for a five-week tour of the Caribbean. They will perform at military bases in such places as Panama, Guatemala, Puerto Rico, and the Bahamas.

The show is centered around musical variety and everyone involved is in the act.

The show will feature Rich Bennett, Nathan Garnor and Patty Wahle doing a takeoff on "How the West Was Won." A fourth act is Frank Reed doing a flamenco dance.

3 Students Honored At Music Program

Three SIU students received music awards Sunday at the annual recital of Mu Phi Epilson, professional music sorority, and Phi Mu Alpha, professional music fraternity. The awards were the first to be presented by the Department of Music in the college.

Margaret Ann Bartels received the St. Louis County Auditorium Mu Phi Epilson Music Award. Miss Bartels was selected by the music department for outstanding leadership, scholarship, and musicianship. She is the president of the sorority.

The Sterling Achievement Award went to Rachael Calhoun for outstanding scholarship, professional activities and activities in the sorority. She is a past president of Mu Phi Epilson.

Larry Sledge received the Floyd Wakeland Memorial Award for outstanding ability in the field of conducting and vocal pedagogy and for demonstrating a spirit of cooperation and service to the university and showing promise leadership as a music educator.

Freshman Convocation

Credit Offered Tonight

Students who need to pick up extra Freshman Convocation credit can do so by attending the Carbondale Piano Club program to be held at 7 p.m. tonight in the Morris Library Auditorium, at 8 p.m. in the Women's Gym.

The Society of Speleological Sociologists will meet at 8 p.m. in Room E of the University Center.

Perishing Rifles will meet at 9 p.m. in Room 115 of Wheeler Hall.

Carbondale Lists

Summer Activities

The Carbondale Summer Program will be conducted by the Carbondale Park District from June 15 through Aug. 7.

The program will consist of supervised activities for school-age children including swimming, tennis, indoor gym, art, crafts and other activities.

The summer program is a combined effort of school districts 95 and 165 and the city recreation commission.

There will also be a day camp program at City Reservoir Park that will include nature activities, outdoor cooking, hiking, crafts and other activities.

The program deals with a search for traces of the lost Conquistadores in the Sierra Madre. The search uncovers such things as armor plate and helmets, which were found in a lost cave.

Other highlights:

5 p.m. What's New: A demonstration of the expansion of metals and liquids shows how to make a thermometer.

5:30 p.m. Tennessee Holiday: Film feature.

6 p.m. Encore: Concert.

7 p.m. Preface to Politics: State delegations and the individual delegate examined—what he is and what he does at a convention.

8 p.m. Custom: Casual: The John Coltrane Quartet—One of the leading modern jazz groups in the United States.

5:30 p.m. "The Marriage of Figaro": This is a replay of a video tape production by the SIU Opera Workshop.

Channel 8 Show Will Feature Lost Mexican Conquistadores

"Tarahumara Trail" will be featured on Bold Journey at 5:30 p.m., today on WSUI-TV.

The program deals with a search for traces of the lost Conquistadores in the Sierra Madre. The search uncovers such things as armor plate and helmets, which were found in a lost cave.

U.S. Officials Told Of Viet Nam Uturn

HONOLULU—Some of the U.S. officials winding up a top-secret mission to Vietnam on Southeast Asia were reported to Tuesday to feel the determination to save Viet Nam has stopped.

However, it was understood this feeling was not wholly shared by others in the group of senior civilian authorities and military leaders who had been studying the situation behind closed doors.

Secretary of State Dean Rusk, Secretary of Defense Robert S. McNamara, and a plane load of key policy makers planned to leave Tuesday night for Washington after two days of intensive discussion at a Pacific command headquarters.

Recommendations will be handed to President Johnson for final decision the proposals began to take shape in the first day of the policy review, but their substance was kept secret.

In addition to an exhaustive intelligence briefing, the conference heard reports from Associate Secretary of Defense Henry Cabot Lodge on the trend of events in South Viet Nam, and similar evaluations from U.S. diplomats stationed in Thailand and South Viet Nam whose Communist-threatened countries the United States is pledged to preserve.

It still was not clear to U.S. officials here whether the pro-Communist Pathet Lao intend to push beyond the Plaine des Jarres in Laos. That Pocket Lao conquest of the plain, and the rout of neutralist troops, helped create a crisis atmosphere surrounding South Viet Nam, and stimulated a call for a conference on the issue of a policy review ordered by Johnson.

In South Viet Nam, the Communist Viet Cong capitalized on the confusion and disorganization stemming from two military coups. They stepped up their attacks on hamlets, and their terror tactics in general.

But now, some informants said, there are signs this situation is "taming off" to use an expression popular in the Pentagon.

**Redef Are Allowed To Leave Viendiane.

VI T EN I A N T E, Laos—A spokesman for the premier’s office said Tuesday Prime Minister Souvanna Phouma has agreed to let the last two Pathet Lao representatives in his coalition government leave this administrative capital for territory controlled by the Pathet Lao.

The mission also covers four or five sides and about 100 bodyguards of the two men—the public works secretary, Souk Vongsaue, and the economy secretary, Khamsone Tounthal, deputy Premier Prince Souphanouvong. Souvanna’s half-brother who is titular head of the coalition, last Sunday requested the withdrawal of all his men residing in Viendiane.

The Pathet Lao headquarters is in Kham Khay, in northeastern Laos near the Plaine des Jarres. The plain is now wholly in the hands of Red troops as a result of a May offensive that drove out the neutralists of Gen. Kong Le.

Diplomats here said the departure of the Pathet Lao officials may mean a formal break between the Pathet Lao and the coalition, which was formed in June 1962.

Diplomats of five nations—the United States, Britain, Canada, South Viet Nam and Thailand—arranged consultations at the British Embassy on the crisis.

**Russia Sells 5 Planes.

MOSCOW—Soviet authorities today said Red China has finally put up five Soviet passenger planes, rather than French-built planes.

**U.N. Congo Forces Alerted To Halt Advancing Tribesmen.

LEOPOLDVILLE, the Congo—Reconnaissance were assembled Tuesday by the U.N. Command and the Congo-Congolese army for action in Kivu Province where advancing rebel tribesmen threatened the city of Bukavu.

U.N. sources in Leopoldville said 100 Nigerian troops of the U.N. force, Congo forces that had been alerted for possible strike 1,000 miles east from Leopoldville to Bukavu.

Government sources said Maj. Gen. Joseph Mobuto, the Congo army commander in chief, planned to send an infantry battalion north to Kivu from Karagwe.

Bukavu’s European colony of 500 whites was reported panic-stricken at a report that the United Nations planned to withdraw civilian personnel from the city of 80,000 people. Aircraft reportedly spotted across 200 rebel warriors—fierce pygmies—mowing north along the road to Bukavu. The 5-foot tribesmen are armed with bows and arrows, spears, clubs and machetes, plus some modern automatic weapons, according to five Congolese army companies Tuesday near the town of Kangelela, 100 miles south of Bukavu.

Gannon Soustic, an extremist who has close ties with Communist Chinese insurgents in Africa, delivers the rebels from headquarters in the neighboring kingdom of Bunthi.

**224 Scots Stricken By Typhoid Fever.

ABERDEEN, Scotland—The government ordered an official inquiry Tuesday into the typhoid epidemic that so far has stricken 224 persons in Aberdeen. One patient died, and 10 other suspected cases in crowded hospitals and reports of other cases are under investigation in parts of the country.

The Aberdeen outbreak is the worst to hit Britain since 1957.

**Indian Nonalignment Policy To Continue, Shastri Pledges.

NEW DELHI, India—Lal Bahadur Shastri, born to poverty in a land where poverty is a way of life, pledged Tuesday day as the nation’s new leader to build "a new social order" for India.

And answering the question world capitals have been asking, he promised to continue the nonaligned foreign policy laid down by his predecessor, the late Nehru.

The moderate Socialist, thrust into leadership at the age of 59, outlined his hopes and goals to a news conference after a triumphant appearance before Parliament.

Earlier in the day, the ruling Congress party members of Parliament unanimously named him successor to Nehru, in automatic designation as prime minister. He will take the oath of office later this week. A close associate of Nehru, this will climax a career in which Shastri joined Gandhi’s campaign for independence at the age of 17.

Weeping as he recalled Prime Minister Nehru’s death last Wednesday, Shastri told television viewers, "socialism is our objective."

In his speech he concentrated on the domestic problems: India’s biggest enemies, poverty and unemployment.

Congressmen came from President Johnson and other world leaders. Even Pakistan, an enemy since the birth of India in 1947, offered to cooperate.

Shastri is trying to reach a settlement of their disputes, such as the right to independence.

Wearing the simple white homespun garb of the party leader, Shastri addressed the Congress party, the 5-foot, 2-inch Shastri met reporters under the arch of his New Delhi home.

He will begin his term spelled out in detail his foreign policy, he told reporters: "We cannot afford to be afraids of be served with any power bloc."

DALLAS, Tex.—A June 19 show-case hearing in open court has been scheduled to determine whether Jack Ruby’s death was a suicide.
Keeping Up With the Joneses

Other cities do it, why shouldn’t we?

Centralia, Salem, Mount Vernon, Peoria, Decatur, Alton and Mascouche all have one thing in common that Carbondale doesn’t—a city manager.

Many towns throughout this state and the nation are rapidly joining the ranks of those functioning under a city manager form of government. The reason for this surge in the manager system’s popularity is a simple one—the many success stories that are being circulated.

Nearly every time a community votes in a city manager system, the town’s situation improves vastly. Many towns save substantial sums of money.

The savings are made possible through central organization and elimination of each of a municipality’s departments. With only one man in charge of the city’s functions, there are no cases of department heads’ duties overlapping. Conflict and confusion are replaced with a tightly knit group of all city departments functioning in one unit instead of five different ones.

One man, not five departments heads, is in charge of purchasing. One man can view the situation in all departments at one time—his vision is not limited to one department as is currently the case. With this advantage he can make moves which will be the most beneficial to all departments concerned.

The plan is working elsewhere—why not try it here? Salem, with a population of approximately 5,000, has had a city manager for about five years. The mayor today expresses praise for the system and the manager’s activities are regulated by the council.

Several towns can tell a success story of how the town was in debt and along came a city manager who put the community back onto a sound basis.

About 3,000 towns in the United States have this system and daily more are planning to bring the matter before the voters.

Officials in these towns feel the manager system is the most efficient method of city operation.

The city manager plan is here to stay.

Grassy to Be Site for Swim School

SIU’s Little Grassy Lake will be the site of a Red Cross aquatic school June 7-17.

Edward J. Shea, chairman of water safety of the Jackson County chapter of the American National Red Cross, said the SIU aquatic school is one of 23 ten-day training sessions to be held by the Red Cross this summer.

Shea, chairman of SIU’s Physical Education Department for Men, said the purpose is to increase the number of qualified instructors in swimming, life saving, boat safety, and first aid to participate in Red Cross chapter safety programs and to serve as swim and waterfront directors at summer camps, beaches, and schools.

An elective course in handicapped swimming will be offered.

Persons interested in attending the school may write or call the Department of Physical Education for Men for application forms.

Shea said the Jackson county chapter expects to have two scholarships available for qualified persons in swimming, life saving, and water safety.

GOP Purges 6 for ‘Disloyalty’; Slate of 118 Candidates Named

SPRINGFIELD — “Purge” and “recess.”

These were the key words describing the legislative nominating conventions in Illinois after their opening sessions Monday.

The Republicans came up with the names of 118 candidates for the State House of Representatives in the fall election. In so doing, they “purged” six incumbent members on complaints of disloyalty to the party.

On the Democratic side, the delegates convened to nominate their slate of 118, but recessed to allow committees to draw up a list. The Democrats will reconvene when the committee has completed its work, and Chairman James A. Roman sets the date for the resumption of the convention.

Charles A. Percy, the GOP candidate for governor, led a successful fight to deny nomination to six Republicans who have been identified with the West Side bloc in the General Assembly.

“I think the net gain is very great,” he told newsmen. “We have a whole new mood in Illinois politics. I think people want to see a party that does not cover up its dirty linen but gets it out in the open and washes it.”

The GOP convention approved the nomination of 70 incumbent House members and the balance of newcomers. This part of the slate was widely regarded as a “blue ribbon” package for presentation to the voters in the fall.

Democratic leaders have been considering marching this Republican “ribbon” with some of their own, according to reports from the convention.

The GOP purge was not accomplished without side effects; Percy drew a scattering of “boos amid applause, and the action was denounced by its victims.

The nominations chosen in convention will run at-large in November, because of the failure to reach agreement on reapportionment of the State House of Representatives. The candidates for the State Senate will run from their own districts, because they were not affected in the reapportionment question.

Gauguin Biography Enriched
By His Own Insights, Ideas

In a recent review of a Toulouse-Lautrec exhibition currently being held at the Wildenstein Gallery in New York, I took issue with an attitude implicit in the catalogue. In my opinion, it seems to me a common guilt with the biography of Lautrec by Henri Perruchot, "which goes to length to convince us of his [Gauguin's] repugnance as the consequent unnaturalness of his existence" and thus its relationship to the development of the artist.

This bias does not seem to have been carried by Perruchot. Gauguin is sharply criticized, and the book is by no means apologetic. But it scarcely needs the dubious benefits of the "romantic tragi-comedy" which in the matter of fact, the impression dominates the book, the sensitive shifting between life and the aesthetic development of the painter, the reader free to use the book as a good story, to try a little amateur art criticism. A vacation as a spectator at the inception of the modern art, barbaric, Gauguin's own pronouncements are rich with insight for us into the evolution and birth of this style.

"My latest works are going well, and the assy! I think you will see in them a personal note or rather the affirmation of my previous researches, the synthesis of form and color..."

Reformation in California

Educator Assails Dewey Disciples

A few years ago a new figure appeared on the scena in California. Max Rafferty was born in New Oxford, Massachusetts, and graduated with the Doctor of Education degree from Harvard University. After a few years of teaching and administration, he has taken place in California. He has been co-ordinator of the State Department of Education for the past several years. He has worked closely with the educational associations and has published numerous professional and educational journals.

This recent opus, with its vaguely disconcerting title, What They Are Doing to Your Children, is mostly a highly weighted "issuete" of his pronounced as dangerously anti-intellectual and subversive. The Conservatives took him to their collective bosom, and he was elected in spite of the opposition of large numbers of teachers, school administrators, and laymen.

Southern to Battle Youngstown
In NCAA Regional Competition

The Midwest NCAA college division regional opens Thursday with Southern's baseball team meeting Youngstown University in the first game at 10:30 a.m. and Mt. Union College meeting Union College at 3 p.m. in the second game at Jackson, Tennessee.

The Youngstown Penguins are a formidable opponent in this regional. The Midwestern champion has the best record in the four team-field, 21-2. Mt. Union may be able to take tomorrow's first-round action.

The Midwest region --with champions crowned up to the regional level-- is comprised of a nine state area including Wisconsin, Michigan, Ohio, Illinois, Indiana, Kentucky, Tennessee, Mississippi and Alabama. Only Illinois, Ohio and Tennessee are represented in this year's regional, so each team has a chance of opening first round play with his ace on the mound. Vincent has not been beaten in regular season action (10-0) but faces a challenge back with Johnny Hotzel (9-0) in the second game.

If the Salukis win tomorrow's game, they will advance to the championship game of the Mr. Union-Union game Friday at 3 p.m.

The Salukis seem ready but might be handicapped by a hand injury to starting centerfielder John Siebel. Siebel bruised the hand against St. Louis Saturday and sat out most of the second game against the Lancers.

Siebel, who is now third on the hitting list with a .333 average, was out of Monday's practice session and may not be back in time for the regional.

Siebel cannot start, Martin intends to use Monty Knight, who hasn't played too much this year, in the second game's center field spot. Martin said that Vincent would be in center field in the second game if Siebel isn't ready by then.

9 Others Reprimanded

4 in Melon Affair Receive Deferred Suspension Action

The Office of Student Affairs also recommended that letters of reprimand be sent to nine other players who were fined in the incident and to the fraternity itself for lack of supervision at a fraternity function. The four on deferred suspension are James G. Hughes, 18, a freshman from Belle- ville; Arthur W. Lushee, 19, a freshman from Quincy, George McCready, Jr., of Dayton, and Joseph G. Nappi, 23, a sophomore from Columbus, Ohio.

The fourth is hospitalized with a fractured pelvis and possible internal injuries suffered in a one-car crash early Friday night. Carbon- dale police arrested 26 pledges at Crab Orchard Lake early Saturday. The original charge of theft was reduced to trespassing, to which 13 of the pledges pleaded guilty. They were each fined in Circuit Court $25

plus $5 costs. In addition, the court ordered that Pick's be paid $510 restitution and that the fraternity offer a formal apology to Pick's.

The nine other pledges who were fined and new letters of reprimand were James M. McGinnis, Everett J. Kelly, Richard Godman, who suspended Tuesday for paying for. the melon incident. The four eligible to return are Oliver H. Dorn, Richard G. Bening, Vincent C. Stahl, and James G. Wilson.

The Office of Student Affairs recommended that no action be taken against 17 pledges. Nappi for unauthorized use of an automobile during the watermelon incident.

2 Swimmers Win Eligibility
For National Athletic Group

Two students, Alfred G. Edward and Robert G. Cunningham, have become eligible for membership in Sigma Delta Delta, national honorary academic fraternity, according to Ronald K. Rooster, faculty advisor, professor of physical education for men, who is the faculty advisor for the group.

In order to qualify for eligibility in the fraternity, which is comprised of The United States, a boy must meet three requirements. The only other SIU students are members of the organization.

Four SIU student swimmers were on the SIU varsity, Warren Stahl, Stahl, a football player, and Warren Blevin, a former track man became members in June.

Both Cunningham and Edwards, who are swimmers on the SIU varsity, broke chapter records for eligibility. Cunningham swam the 100 in .53 seconds, threw a baseball 278 feet and hit 5 feet, 3 inches in the high jump.

Edwards turned in a time of 14 hours in the handstand and 30 seconds in the back flip.

Qualifications are: 100-yard dash (10.5), 120-yard low jump (6 feet, 7 inches), high jump on a height-weight classifica- tion, broad jump 17 feet, 16-pound shot put 20 feet or weight classification. In addition, 20- or 20-foot rope climb, four out of five shots or 12 seconds; baseball throw 20 feet, football punt 130 feet; 120-yard hurdles in 14.5 seconds; 100-yard 20 feet; mile run six minutes; front handspinning, hand-stand 30 seconds or on a plate 160 average for three games; fence vault (chain), 10 feet; and floor exercise in 570 points.

Stahl holds the point total lead in the SIU chapter with 523 points. Cunningham is in second place with 507 points.
SIU Group Explores Ideas for Better Southern Illinois

Mississippi Valley Organization Tackles Giant Problems

Think of long-range studies of resource development and population and lagging economy; and you're fairly close to the mind of Charles Colby, SIU's resource development and assets of the area.

Unlike research leading to a new rocket or pill, the thinking and observations of people at MVI leads to thoughts, ideas, methods and projections the end products.

Formed in 1957 to study Southern Illinois—the island between the Mississippi, Ohio and Wabash Rivers—MVI has published an impressive list of documents.

Studies such as gravel flow and siting in area streams and rivers and the location of limestone deposits have come from years of study, writing and conferences with federal, state and local planning agencies.

Charles Colby has directed the MVI group since it started. He is a graduate of the University of Chicago where he taught for 33 years. His son, Steven, works under him.

Colby was asked to organize the investigations by President Delyte W. Morris after publishing his Pilot Study of the Southern Illinois in 1956.

"Our plan was twofold," Colby said. "We wanted to study the Mississippi River from its source to its mouth and provide a seminar for interested faculty at SIU," he said.

Investigations have "made us realize we are not just studying the Mississippi River but a broad area from the Great Lakes to the Gulf of Mexico," he said.

"The river flows through seven distinct regions—the dairy belt, corn belt, etc. or mineral area, etc. and the complicated economy of the Mississippi Delta," Colby said.

As Colby puts it, men of many careers, including geology, mineralogy, forestry and social science are attempting to determine the assets of the area as well as the liabilities and how to turn them into assets.

This is true research rather than applied research, Steven Colby said. "There is a time lag between an idea and the actual implementation of from 10 to 15 years," he said.

MVI studies are "pointing toward better use of the area's natural and human resources," the senior Colby said.

"When MVI first started, Illinois had a shortage of dairy farmers," Colby said.

MVI has another function too. "The SIU faculty would teach themselves to death if they didn't have a chance to refresh themselves by studying something that interested them," Colby said.

"A number of faculty members and graduate students are assigned areas of study each summer."

"Our next step involves getting financial support from some foundation," Colby said. "We can support men for study during the summer, but not during the whole year. MVI needs money so men can work on a job until it is finished," he said.

Problems that need solving attract Colby. "Southern Illinois has changed from a simple to a complex area with problems," he said. "That is the kind of place where I like to work."

The BIG Inch

The BIG Inch—lonesome by itself, but when incorporated into a DAILY EGYPTIAN classified, it is mighty big. Let's see, 1 inch times 9500 (that's our circulation) is 9500 inches. At a rate of only $1.00 for 20 wards, that's nearly 9500 inches for $1.00!

Who will need your 9500 inches? Students just like you—faculty members just like you—families just like yours—people just like the people you know.

You can plainly see that if you have something for sale, a service to offer or have merely lost your favorite roommate, the DAILY EGYPTIAN's the best place to look.

Better place your ads today, but hurry, deadlines are 2 days prior to publication at noon, except for Tuesday's paper which is noon Friday. Call 453-2354 for details.
