Last Game Could Be Real 'Shocker'

Edwardsville Student Poll Wants Sports

Should the Edwardsville campus have an intercollegiate athletic program? "Yes," is the resounding answer given by students polled recently, the Alchetra, the Edwardsville campus newspaper, reported.

While most of them agreed that for the present it would be impractical to consider football, they indicated they would favor such intercollegiate sports as track and field events, golf, tennis, wrestling, basketball, gymnastics, soccer and fencing.

''I think intercollegiate athletics are a must,'" one student said. "A campus this size should have them. If we don't, I think the talent we have in this area will be lost.''

Other students said:

"There are a lot of good athletes in the high schools in this area, and they want to pursue a career in sports. They could come to sit, but there's usually a probability of going somewhere where they can participate in intercollegiate sports."

One student said, "I played football in high school and there aren't too many other things I would consider a lot of interest in sports in this area."

With all the junior colleges starting, there should be a lot of competition in this area."

"I think we ought to have intercollegiate athletics at Edwardsville,'" another student said. "There would be more interest in the school. There are a lot of kids who had them in high school, and when they get here, they miss them.''

One slightly dissenting student said, "I feel that academic studies should come first, but I wouldn't like to see football on the Edwardsville campus."

Wichita Is Tough On Home Boards

The Salkis will be hoping to close their regular season on a successful note at Wichita State tonight. A 'Shocker.' The Salkis will be out for victory No. 14.

The Shockers have experienced surprising difficulties starting the season as one of the top five teams in the country after a 100-24 upset of Michigan. Since then the Shockers have faltered and now stand at 14-9 for the season-third behind Cincinnati and Bradley in the Missouri Valley Conference.

Included in their nine defeats is a stunning 89-66 loss to Southern, which helped elevate the Salkis into national prominence over Christmas.

That game was played on the SIU court, where the Salkis are almost unbeatable. But this game will be played at the Wichita Fieldhouse, where the Shockers have phenomenal success. This year they have played only one home game: before fewer than 10,000 persons.

The high-scoring Shockers will probably go with their winning lineup similar to the one they used here in December. This would include Jamie Thompson and Warren Armstrong at forwards, with Melvin Redd guard center and Kelly Pete and Lillard Harris at guards.

The powerful Kansas junior, leading scorer with an average of about 33 points, might be the one breaking the mold of an average margin of 20 points.

Reed and Pete are both averaging about 13 points and several Saskatchewan guards. Redd is the big man on the squad at about 6-6, 205 pounds, solid 6-1 guard, is tough on both defense and offense. Lillard Harris is averaging about 20 points, but may be lifted for 5-10 John Cris, a fancy ball-handler.

The early loss to the Shockers was the beginning of the end. It had won four straight before meeting the contest and has played only a little better than .500 ball since.

Q's, A's of Service Test Given

Here are some pertinent questions and answers about the new Selective Service college qualification tests:

Q. Who can take the test?
A. Any student enrolled in college or any youth who plans to enter college in the fall.

Q. What does the test mean?
A. It will not keep a youth out of the service. But the results will be used by local draft boards to help them determine who can receive a 2-S college deferment.

Q. What is the passing grade?
A. No passing grade has been determined. Local boards will use the scores, along with information about class ranking, to decide on a deferment.

Q. Why should anyone take the test?
A. Because it will supply the draft board with more information on which to base its deferment decision.

Q. Where will the test be given?
A. The national Selective Service office will determine the locations in Illinois during the next several weeks.

Q. When will the test be given?

(Continued on Page 15)
Spring Advisement Deadline Nears

At the present time advisers have openings for students who either missed their previously scheduled appointment or did not have one. If students postpone their preregistration until the last week, there may not be sufficient appointments available. Students are reminded that there is no time set aside for presently scheduled students to register at the beginning of spring term. All students must preregister.

Mathematics Fraternity Plans Meeting Today

Pi Mu Epsilon, mathematics fraternity, will meet at 8 p.m. today in Room 210 of the Wham Education Building. The program will include a film, "Kakeya Problem." All members and interested persons are invited.

TEAMWORK—SIU's Little Grassy Facilities wants to put students in the driver's seat of this team and wagon during camp sessions this summer. Of 130 students to be hired for summer work, three will be needed for horseback riding and team driving. Interviews are under way at the SIU Arena.

Gemini Space Films To Be Shown Today

Two films of Gemini space missions, and a speech, will be presented by Arthur H. Bay, senior engineer of McDonnell Aircraft Corporation's Space Laboratory, at 7 p.m. today at Shrock Auditorium.

The films are "What It's Like Outside," showing Major White's extravehicular activity, and "Gemini 7: Roundtrip Filmed From Gemini 6." Bay has been employed by McDonnell for 6 1/2 years and is associated with the aircraft and spacecraft systems testing. The Spacecraft Laboratory is responsible for testing a Gemini spacecraft under altitude conditions prior to delivery to the National Aeronautics and Space Administration.

Panel to Discuss Business Ethics

"Why Ethics Are Ineffective in Business Today" will be discussed at 7:30 o'clock this evening in Muckelroy Auditorium.

Panel members will include Arthur E. Prell, director of the Bureau of Business Research, Lewis E. Hahn, research professor of philosophy, Leonard G. Hillemann, associate professor of journalism; the Rev. Edward L. Holton, pastor of the First Methodist Church; and Golde E. Warren, lecturer in management.

The panel will be moderated by Wavert, a question-and-answer period will follow.

The event is being sponsored by the Student Chapter of the Society for the Advancement of Management. The public is invited.

SIU- Wichita Game to Be On WSIU at 7:55 Today

"Saluki Warm-Up" at 7:45 will provide the background information on tonight's basketball game between SIU and Wichita State. The play-by-play begins at 7:55 p.m. on WSIU Radio.

Other programs:

8 a.m. The Morning Show
12:30 p.m. News Report
2 p.m. This Week at the United Nations
3:05 p.m. Concert Hall: Handel, Concerto in C minor for Organ and Orchestra; Schumann, Symphony No. 4 in D flat major, Op. 38; Bartok, String Quartet No. 5.
3:30 p.m. News Report
6 p.m. Music in the Air.

Technical Seminar Will Discuss Fuel

T. F. McDonnell, manager of the research section of the Ohio Matheson Plant of Marathon, will speak at the School of Technology Seminar at 4 p.m. today in Room 110 of the University Center.

McDonnell will talk on "Specialized Aspects of Solid Propellant Technology." Coffee will be served prior to the talk in Room 113 at 7-27.

Lauchner to Speak At Club's Meeting

The Industrial Education Club will meet at 9 p.m. Wednesday in Biscuit Auditorium in the Agriculture Building.

The speaker for the meeting will be Julian H. Lauchner, dean of the School of Technology, on the topic of "Challenges of Technological Education."
Safety Measures Urged for Cycles

The quiet figure of a human being with one foot placed on the street with a crumpled and twisted motorcycle, the background is not a very pleasant sight. This very situation prevailed twice last week at SIU and on numerous other occasions earlier this school year.

Whether it is through accident or carelessness does not matter to the lives and the lives of many young people. These injuries involved in the accident have been scarred for years to come. Unfortunately, it will continue to happen, the same as the Associated Press and Injuries on the nation’s highways in auto accidents each year.

What can be done, if anything? It is up to you, the cyclists, to be prepared to avoid such accidents.

Recently the Carbondale Senate approved a list of safety measures recommended for the motorcycle operator. These measures should not become mandatory University policy, but a personal program for each cyclist. The Senate recommendation should insist in the cyclist the potential dangers of the accident, when precautions could be taken.

First, a polished and reflective helmet. A helmet, as recommended by the Senate and almost everyone, will not always prevent injuries, but in a car accident, it will increase the chance of escape from all the injuries in an accident.

Second, a motorcycle isn’t much of a match for a four-wheel vehicle, Consider the average stopping distance, speed, impact and protection of a car as compared to a cycle. What about the visibility at night? Put yourself in the driver’s position looking for a single tail light and a cyclist wearing no reflective clothing.

Motorcycles can be worlds of fun and they have just as many accidents as a car. In addition they are a more economy means of transportation, and for most undergraduate students in SIU, it is the only means of transportation around campus.

Our purpose is not to condemn motorcyclists, but rather to encourage cycle operators to be alert to the potential dangers and available precautions.

Remember, use your judgment in operating a cycle, wear a helmet, bright clothing, wash for the other fellow and maybe you won’t be the next victim waiting for the ambulance.

Big-Mouthed Cassius Clay

Is Not Welcome in Illinois

Cassius Clay’s antidraft outburst brought much criticism from many people. Among these is a letter signed by a group that raised $150,000.00 to get him into Iceland.

"The letter," according to one report, "is an attempt at impersonating and disgusting," Cerner requested that the Illinois State Athletic Commission not request the March 29 bout between Clay and Feurich in Chicago.

A few days later, Arty, Ge, William G., Clark disclosed that the match could not be held legally in Illinois because the commission which was sponsor­
ing the fight lists only two members.

Illinois state law says that such an organization must have at least 50 members.

Regardless of the legal basis for not holding the fight, the question still remains as to whether or not Illinois is de­

serving of the unfortunate oppor­
tunity of inflicting Clay, even for one night.

Clay, unable to wear a uni­
form either because of his black Muham­
man’s obligation or failure to pass the intel­
ligent test, does not qualify to descend on Illinois, bring­
ing with him his childish out­
burst, big mouth and un­
patriotic attitude.

Illinois doesn’t need any­
thing that badly.

Boys Find Way Out of Draft

The boys at Ann Arbor have come up with a unique thought to get out of the draft.

In a full page ad in the Michigan Daily, they asked the girls to help to fill in the blanks.

Recognition of intellectual development should not be indepen­
dent upon a grade point, Cassius Clay, mentioned in the mi­

lamentation should not be deter­

mined by chance standing. De­

spite the questionable val­

idity of these assertions, male students in the lower half of their college class stand to be inducted.

"To overcome this unfor­
tunate situation, we need your

assistance. By sacrificing your academic averages you will allow a greater proportion of males to enter the upper half of their class.

"This is not an attack upon intellectualism, study, learn, grow. We merely ask that you withhold your knowledge in examinations," the boys said.

"For the above boys, and for a new group who like men around the place, it might be effective. Even more than that, it might, by the imagination, will use it as an excuse when the grades go home."
$5.5 Million Addition Slated

Center's Facilities Will Be Expanded

By John Epperheimer

The addition on the south end of the University Center will probably extend about 200 feet toward the new Physical Science Building and provide several new facilities and a south entrance to the building.

Clarence "Doc" Dougherty, director of the University Center, explained plans and plans for the addition after the completion of exterior facilities when he appeared before the Campus Senate Thursday night.

Dougherty said many of the plans date to 1959 and would have to be revised when funds are made available.

Dougherty presented three possible plans, designated A, B and C. The original stud­ies also generally favored the planning commission's plan B, and he devoted most of the explanation to that.

Plan A, which Dougherty favored, would provide about 100,000 square feet of floor space and would cost around $5.5 million.

Under that plan, an excavation and a two-story addition would extend more than 200 feet south of the present building.

The addition would provide a south entrance and make the University Center a central axis for campus. Dougherty said presently the three entrances to the Center are carrying too much traffic in the same places and the additional entrance would alleviate this problem.

Escalators would be installed at each end of the building running from the entrance to the top floors. Those would take much of the traffic congestion out of the main corridor on the ground floor.

In the basement part of the addition would be a "rathskeller," according to Dougherty. He said the function and the design of the room have not yet been determined, but would be a "different mood" from the rest of the building.

The rathskeller would be a place to stay all afternoon and would be open late at night," Dougherty said. It would be designed to take the load off some present facilities, he added.

On the ground floor, location of the bookstore and the Olympic Room would be switched, with the bookstore extending all the way to the Oasis lounge.

The offices and activity rooms displaced by the bookstore would be moved to the upper floors, Dougherty explained.

The River Rooms would be removed, as would the dinner room alongside the Oasis. The Chris would expand into those areas.

The cafeteria would expand out to the end of the addition, approximately doubling the present area.

On the first floor, an auditorium would be constructed in the addition on the south part of the building.

A table service dining room would be located on the west side of the floor, with a public lounge and a "reservable" dining room. The River Rooms would also be on the first floor, along with the present ballrooms and administrative offices.

Also on the first floor would be a work-study lounge. Dougherty said it is hoped that this could be a place where students could take a "cup of coffee and a book" and stay all afternoon. There students could spread out books and papers or consult with other students and still be comfortable, Dougherty said.

Adjacent to this lounge would be a work-study area which might contain equipment for lectures.

In the second floor would be the offices displaced by the bookstore and formerly located on the ground floor. Like many of the proposed facilities, the style and architecture of these offices have not been determined, Dougherty said.

A multipurpose lounge is also planned for the second floor. A music listening room would be provided in the lounge and also a periodicals reading room.

The lounge could also be used for teas and receptions, or for four to six different programs.

On the top floor would be an all-purpose room which could be used for displays, dances or parties.

Gemini Astronauts Killed
In Jet Crash at St. Louis

ST. LOUIS (AP) — U.S. astronauts Elliot M. See Jr. and Charles A. Bassett II, the primary crew of the planned Gemini 9 space flight, were killed Monday when their jet plane crashed into the building housing their space capsule.

Their backup crew for the flight scheduled this summer, Air Force Lt. Col. Thomas P. Stafford and Navy Lt. Comdr. Eugene A. Cernan, landed their T38 supersonic trainer safely minutes later at the nearby St. Louis Municipal Airport.

All four were flying to the McDonnell Aircraft Corp. plant here for space training in a space simulator machine when the plane carrying See and Bassett crashed in a light fog. McDonnell builds the Gemini spacecraft and Phantom jet fighter planes.

The bodies were found from the wreckage after the plane, also a T38 trainer, glanced from the roof of McDonnell's space center and then exploded into flames on parking lot.

The Gemini 9 space capsule was still in the building about 500 feet from the impact point. It was being readied for shipment to Cape Kennedy, Fla. Also in the building is the experimental line for jet fighters used in Vietnam.

Twelve persons working in a McDonnell engineering office were injured, none seriously. Some were knocked from their chairs when the plane hit the roof directly above them. One man suffered a broken ankle.

It was not learned whether See, 39, or Bassett, 34, were piloting the two-seat plane. Stafford, who rode Gemini 6 into space when it rendezvous with Gemini 7 last December, was piloting the second plane.

Both planes had left the McDonnell engineering office Monday for an instrument landing at Houston, Tex.

The cause of the crash, which cut the U.S. space team to 31 astronauts, was not learned.

The plane was approaching for an instrument landing at the municipal airport in what the Weather Bureau described as light fog. Fog rain and snow were falling. The Weather Bureau said visibility was 11/2 miles and the ceiling was 800 feet.

"It was standing on a near-by parking lot when I heard the plane come," said Ken Stovall, 33, of Ferguson, Mo., a St. Louis suburb.

"I looked and saw he was banked over quite sharply at an angle and his approach to the ground was much too steep. I do some flying myself, privately, so I know," Bassett added. "I watched him go into the corner of the building and I knew the pilots didn’t have a chance."

One of the construction workmen on another McDonnell building next to the crash site reported "a series of quick booms and then flames" where the plane struck the roof. Then it shut off the top of the building.

See, a native of Dallas, Tex., was a Navy pilot from 1953 to 1956. He was awarded a bachelor’s degree in aeronautics by the University of Texas in 1962. Bassett, a native of Dayton, Ohio, was graduated from Texas Technological College at Lubbock after attending Ohio State University. He later did graduate work at the University of Southern California and entered the Air Force in 1962.

BOATING IN VIET NAM—A motor-powered, pot-shaped aluminum boat manned by a South Vietnamese Special Forces team put to sea last week on a secret mission to search for a downriver near the Cambodian border as its occupants fired toward the back of which the Viet Cong guerrillas had been sniping at them.

55 Arrested in U. of I. Raid;
Tactics Investigated by Mayor

SPRINGFIELD (AP) — Secretary of State Paul Powell voiced regret Monday that local authorities were not notified before state agents raided a University of Illinois campus tavern to check on driver’s licenses.

Mayor Emerson V. Dexter of Champaign, who came to Springfield to discuss the matter with Powell, said he was convinced the state investigators were acting legally.

“There were a lot of things we didn’t understand,” Dexter added. He said his office and Champaign police will cooperate with Powell’s office in any future crackdown.

More than 200 persons were arrested over the weekend time of the raid. Five persons were charged and the driver’s licenses flowing from the tavern are being examined for forgeries.

Security Surrounds
Royal Jet Flight

LONDON (AP) — Princess Margaret and her husband, Lord Snowdon, took off for Hong Kong Tuesday in a jet plane that had not been kept under security wraps at London Airport throughout the night. The royal depart­ure went off smoothly.

The British Overseas Airways Corp. said the unusual security precautions were taken as a result of threats, that turned out to be hoaxes, in two previous recent royal flights.

One was an anonymous telephone call that a bomb was in a plane carrying Queen Eliza­beth II and Prince Philip to the Caribbean Feb. 1 and the other a threat to poison water on an airliner taking Margaret to the United States last No­vember.

The princess and Lord Snowdon are on a special pro­motion trip to open British Week in Hong Kong.

Britain Will Choose New Government

LONDON (AP) -- Britain will choose a new government in national elections March 31. Prime Minister Harold Wilson named the date Monday night in a calculated gamble to keep his Labor party in power until 1971.

The announcement from No. 10 Downing St. ended weeks of speculation and mounting pressure on Wilson from his faction to call an election as long as while Labor seemed likely to win. It also brought the Conservatives — underdogs in the betting — a fighting chance to fill out the complement of a working majority of only three to Wilson's side. Wilson's poll superiority is based on a majority of 151, with 314, Conservatives and 130 nonvoting members of the House of Commons. The main campaign theme probably will be a replay of the 1964 race, when the chief issue was which party could do the better job of modernizing Britain.

If electing a Labor government 15 months ago with a tiny margin, British voters appear to indicate they hadn't really made up their minds. Polls that have given Labor the edge of the fence hope this campaign will yield a clear-cut result.

Parliament will be dissolved March 10 and the election campaign will last until March 31. Wilson's government has a working majority of only three votes in the present House of Commons. The lineup is Labor 314, Conservatives 302, Liberal 9 and 3 nonvoting members of the speaker's panel. Two vacancies, one from each party, fill out the complement of 630 seats.

After 15 months of walking a political tightrope anchored to this fragile majority, Wilson probably feels he has pushed his luck far enough.

Ghana Unveils Jungle Camp; Red Teachers

ACCRA, Ghana (AP) -- Ghana's new revolutionary government unveiled a secret jungle "freedom fighters" camp Monday.

It was said Red Chinese instructors helped train 133 African cadets there from South Africa, Rhodesia and other countries.

Newsmen taken on a tour of the camp found a handful of African trainees plus a dozen instructors, most of them Ghanaian soldiers.

The instructors said they were paid by the Bureau of Africa of a calculating which was run personally by ousted President Kwame Nkrumah.

The camp commander, former Regimental Sgt. Maj. Finsemia Bazabarini of the Ghana army, told newsmen "about 13 Chinese came here to train us."

Bazabarini said the camp, originally set up in western Ghana, was moved to its present site 130 miles north of Accra in October, 1964.

150 Union Construction Men Riot at Downtown Miami Site

MIAMI (AP) -- About 150 union members, including pipefitters, bricklayers, carpenters and electrical workers, marched throughout the downtown construction project Monday. Six were hospitalized and 14 others arrested.

Police said the 150-odd men, who blocked an entrance where the union's headquarters are located, caused a bloody riot at a downtown construction project Monday. Six were hospitalized and 14 others arrested.

Police said the union members were protesting a reduction in their wages and benefits, which they claimed were being reduced to a level lower than that of nonunion workers.

One of those hospitalized suffered a deep stab wound in the shoulder.

The battle involved members of the International Brotherhood of Electrical Workers and Local 487 of the International Union of Operating Engineers.

"I doubt if we got all those really actively involved, but we sure got those who were going at it so hard that they didn't hear us come!"

The main campaign theme probably will be a replay of the 1964 race, when the chief issue was which party could do the better job of modernizing Britain.

If electing a Labor government 15 months ago with a tiny margin, British voters appear to indicate they hadn't really made up their minds. Polls that have given Labor the edge of the fence hope this campaign will yield a clear-cut result.

Parliament will be dissolved March 10 and the election campaign will last until March 31. Wilson's government has a working majority of only three votes in the present House of Commons. The lineup is Labor 314, Conservatives 302, Liberal 9 and 3 nonvoting members of the speaker's panel. Two vacancies, one from each party, fill out the complement of 630 seats.

After 15 months of walking a political tightrope anchored to this fragile majority, Wilson probably feels he has pushed his luck far enough.

The films are "Blueprint for Progress" and "Her Big Day."

Married Students, Staff

Agreement Made for Apartment Project

An agreement to build a 304-unit apartment project for married students has been made between the SIU Foundation and the Scholz Consumers Construction Co., of Chicago. The project is also designed for staff members with moderate incomes.

The apartments are to be built on a 40-acre site southwest of the campus, near the Carbondale city reservoir. It will be financed through a 40-year, four million dollar loan from the Federal Housing Administration to the foundation.

The foundation will act as mortgagee and lease the apartments to SIU through the loan payoff period. The financing arrangement, made possible through a provision of the Urban Renewal Act, is the first of its kind to a University and has been closely followed by other schools in the nation.

Scholz was one of four firms to submit proposals on the project after earlier bids had been turned down by SIU because they exceeded per-apartment estimates.

Although the Scholz base proposal—304 apartment units at $10,871 each—was higher than another one, SIU architects and business affairs analysts recommended it because it conformed most closely to such requirements as operating and maintenance costs, attractiveness, feasibility, FHA acceptability and space per unit. The lowest bid was $9,026 each, but architects pointed out that ranges, refrigerators and a community service building were not included.

Scholz's plan calls for 40 two-story masonry and brick apartment buildings containing 198 two-bedroom apartments, 88 three-bedroom apartments, and 18 two-bedroom units designed for handicapped occupants. Also included is the community building, boat and trailer storage facility and parking for 490 cars. The architect is Illinois and Page of Chicago.

Details of the agreement, leading to construction contracts, remain to be worked out.

Emery to Discuss Role of Geologist

John A. Emery, Sullivan, Mo., chief geologist for the Meramec Mining Co., will speak here again today in cooperation with the Department of Geology.

He will speak at 9 a.m. session of the economic geology class in Barracks H-8. Northwest of the Agriculture Building.

He will speak on "Geology and Mining of the Pea Ridge Iron Ore Body of Missouri," a tremendous deposit of high-grade iron ore.

Both sessions are open to all interested persons.

Test of System By Civil Defense

There will be a test of the public warning system for Civil Defense at 10:30 a.m. today.

The test will consist of a one-minute steady blast for the Civil Defense alert signal, and a two- or three-minute series of abort blasts for the Take Cover signal.

This test will be conducted the first Tuesday of each month. Since it is the beginning of the severe weather season, students and faculty are urged to become familiar with these signals.

Allstate is Interviewing for Insurance Trainees in Claims, Supervision, Underwriting, Sales, and Data Processing.

Interviews will be held by appointment at your Placement Office on Tuesday, March 1

The Allstate Insurance Trainee Program seeks men who want to translate their college success into successful business careers. You may be one of the new who will get ahead by accepting responsibility, being willing and able to make intelligent decisions, and by knowing how to work well with others.

If you are one of these new ALLSTATE is looking for, there is a place for you, regardless of your academic training, as an INSURANCE TRAINING. The training period includes rotation assignments in various departments from a minimum of six months to a maximum of two years. At ALLSTATE the emphasis is on YOU. See your Placement Office today for additional information concerning ALLSTATE-INVITATION TO A CAREER.

1000 YEAR

THE SHERWIN-WILLIAMS CO.
Here's How SIU Trumped the Aces

He's surrounded, but it's two more for George McNeil.

Dave Lee looks for his teammate George McNeil.

Lee tries and misses and the game went into overtime.

At this point it looked like a cinch.
And How the Crowd Responded

Photos By Hal Stoelze And Ling Wong
Freshman Salukis Contribute To SIU's Victory Over Aces

Southern's freshman basketball team contributed a 77-70 victory to SIU's perfect showing against Evansville Saturday night. It was the Saluki freshmen's season to finish 13-2. Southern's domination of both the offensive and defensive backboards was one of the keys to the victory over Evansville.

The Salukis outrebounded their opponent 44-33. Chuck Benson was both high scorer and leading rebounder for Southern. He scored 26 points and grabbed 11 rebounds.

Brent Garrett and Willie Griffin each had 16 points, Gene Watson 10 and Leon Brown eight points.

Dave Weeks of Evansville led all scorers with 29 points. Weeks also led his team in rebounds with six.

Both teams shot slightly over 50 per cent from the field. Southern made 17 more shots than Evansville because of its rebounding superiority. The half score was 39-30 in favor of SIU.

Southern made 15 of 29 free throw shots and Evansville made 10 of 13.

Scholarship Football
Meeting Announced

Head football coach Ellis Ring has announced that all scholarship football players must report to a meeting to be held at 1 p.m. Saturday in Room 130 of the Arena.

If winning is fun, then the members of Southern's men's gymnastics team must be having a ball.

None of the members on the present team have seen Southern lose a regular season dual meet. Even Coach Bill Meade, who is expected to win his class in the national meet, has had only one team loss in his time as a member of the team. Southern's last loss was a 175-150 defeat to Missouri that year.

The record remained unchanged last weekend as Southern scored a 192.80-170.90 win over Northeast Louisiana State Friday night and followed it up with a 187-154.25 victory Saturday over Louisiana State.

While Southern was running its winning streak to 49, Frank Schmitz was also keeping his unbeaten record intact.

Schmitz has now completed 33 times this season in his three events—free exercise, trampoline and long horse—and has yet to taste defeat.

Schmitz turned in winning scores against Northeast of 9.05 in free exercise, 9.6 in trampoline and 9.7 in long horse.

Against Louisiana State, Schmitz did a little better with a 9.3 in free exercise, 9.55 in trampoline and a 9.5 in long horse.

Schmitz, however, had plenty of help from his teammates, notably Paul Mayer. The sophomore had his best two meets of the season, with three second places in free exercise, side horse, parallel bars, and a third place on long horse against Northeast.

Mayer followed this performance against LSU with a first-place finish on side horse with a 9.0 and three seconds in free exercise, long horse and parallel bars.

Fred Dennis kept up his winning ways on rings with a first-place score of 9.35 against Northeast and 9.25 against LSU. Dennis was also second both times on the high bar.

Rick Tucker was first on high bar against the Tigers of LSU, but in the preceding meet he dropped to a second-place tie with Dennis. All-around performer Larry Ludmer took first that night with a 9.25 score.

Ron Harstad was another winner for Southern as he captured first place on parallel bars both nights with scores of 9.35.

Mike Boepler rounds out Southern's list of winners with a 9.0 in free exercise against Northeast.

Good supporting roles were turned in by Dale Hardt, Brent Williams and Tom Cook. Hardt was second to Schmitz both nights on the trampoline, while Davis was third on the trampoline both times, second once and third once on the long horse.

Cook had a second and a third-place finish on the rings.

Southern's single event men, Hutch Dvorak and Steve Whitlock, in free exercise, did not make the trip.

Trainer Spackman Writes 2 Books

Robert R. Spackman, SIU athlete trainer, has recently completed two books on warm-up exercises and strength exercises.

The books are "Conditioning for Baseball" and "Conditioning for Basketball." Charles E. Thomas of Fort Lauderdale, Fla., will publish the books. Both will be on sale at the end of March or early in April.

The books contain complete 12-month conditioning programs including warm-up exercises and strength exercises.

The purpose of the program is to provide the players with complete and specific exercises relative to his position on the team, and give him a year-round conditioning program to follow.

Dutch Masters Gain In Faculty Bowling

The Dutch Masters were the only team in the Faculty-staff Bowling League to take advantage of Counseling and Testing's second loss of the season in Monday's competition.

The four-point victory by Dutch Masters moved them into a tie for third place with VT.

The Southern Player tied the second high series, but could only win one point as the leaders tramped them with high-series.
Salukis Defeat Aces in Overtime 80-75

O'Neal Pulls Down 21 to Lead Attack Against Evansville

By Bob Rehnke

Phew! For the first time in 18 years, Southern has beaten Evansville twice in the same season. Despite the task as the Salukis were forced into overtime before their 80-75 victory over the arch-rival Aces, South's lead was built by as many as 16 points midway through the last half before the Aces staged a come-back to tie the game for the first time at 58-58 with 2:02 to go and sent the game into overtime. Despite the close final score, the Salukis were never behind and were tied only twice, one of which was at the end of the regular time and in the first minute of the overtime.

In the overtime, George McNeill, who had been held to a pair of free throws in the second half, poured in all four of Southern's 13 points. He wound up with 24, and Boyd O'Neal played one of his better games against the Aces as he took over the record of 16 rebounds and led the Salukis with 25 points.

Moorhead Defeats Matmen 17-15

The 17-15 defeat that Moorhead (Minn.) State handed the SIU Matmen Saturday was just a reverse of an earlier meeting. The Matmen won over the Minnesota matmen at the Oklahoma State Invitational.

At the previous meet, SIU won five points when the 191-pounder, Moorhead State by default, and SIU won 11-1. In Saturday's match at Moorhead, SIU's 167-pounder, George McNeill, took the fall that would be a default because of a knee injury.

The SIU Matmen brought Moorhead up from a 12-9 deficit to take the lead in scoring at 13-12. They didn't hold the lead long, though, for SIU won the period's last two to make it up to Moorhead, at 14-15.

The weight class decision: 133-pounder, with Bill Billberg of Moorhead declassing the Salukis' big Bob Roop, 7-4, to give the Minnesota three points and a decision, with the final score of 19-14.

The results:

Who's, What's, Of Draft Test

(Continued from Page 1)

A. On May 14, May 24 and June 3.

Q. How do you apply for the test?

A. Send for application to the nearest ARPS office, Miller 259 E., Erle St., Chicago, before April 30. The local draft board will send you, on request, an explanation of the test. Applicants are to report to SIRO Science Research Associates, Science Research will then call you to give you the date and when to take the test.

Q. How much does it cost?

A. Nothing.

Q. How long is the test?

A. The test is given in three hours and a maximum of three hours will be allowed to complete the test.

Q. Where can a student get more information about the test?

A. The local draft board.

Larry Humes played his usual role as Evansville's leading scorer as he tallied 20 points followed by 19 with Watkins and Kingston with 12. Both Watkins and Humes made only Nine of 22 shots from the field and, in picking up their totals, that was started their comeback in the final nine minutes when they found them selves down 64-49. With Humes and Watkins leading the way, Evansville rammed in 15 straight points while holding Southern scoreless for over five minutes to tighten the score to 64-63 with 4:21 remaining.

115; Ford of Moorhead declassing Sarosky, 4-2.
115; Ford of Moorhead declassing Sarosky, 4-2.
117; Kehl of Moorhead declassing Magoon, 6-2.
130; Baron of SIU declassing S. Truesdale, 13-17.
137; Styvens of Moorhead declassing Pfluegman, 1-2-147; Floor of SIU declassing Redfield, 3-1.

115; Ford of Moorhead declassing Sarosky, 4-2.
152; Kuenzemann of SIU declassing Gonzaborowski, 8-0.
155; Falla of SIU declassing Gunderson, 9-6.
177; Appleton of SIU declassing Liskcz, 10-4.
180; Piegas of Moorhead declassing Roop, 4-2.

Boyd O'Neal, in leading the Salukis, was just a reverse of an earlier meeting. The Matmen won over the Minnesota matmen at the Oklahoma State Invitational.

With O'Neal, McNeill and Clarence Smith leading the way, the Salukis got to taking the lead as early as 32 seconds into the first half as it held a 30-29 lead at the intermission. The Salukis had led by as many as 14 points in the middle of the first half.

With O'Neal, McNeill and Clarence Smith leading the way, the Salukis got to taking the lead as early as 32 seconds into the first half as it held a 30-29 lead at the intermission. The Salukis had led by as many as 14 points in the middle of the first half.

The victory over the rival Aces will be played in the Arena. The Rejcsts advanced to the semifinals with a 67-45 victory over the Beadle Boys, on the highly regarded Shogran.

The scoring:

Southern: O'Neal, 25; McNeill, 24; Smith, 14; Johnson, 6; Lee, 5; Goi, 4; and Bechdel, 2.

Evansville: Humes, 30; Watkins, 19, Kingpin, 12; Pratt, 8; Adams, 5, and Riggins, 1.

Intramural Cage Journey to Begin

The intramural basketball tournament moves into the semifinal round Wednesday night with the Hotshots playing the Hawks at 6:30 on the Grandstand court, and the Abbott Rabbies at 9:15, both games will be played in the Arena.

The Rejecs advanced to the semifinals with a 67-45 victory over the Beadle Boys.

In the overtime, George McNeill, who had been held to a pair of free throws in the second half, poured in all four of Southern's 13 points. He wound up with 24, and Boyd O'Neal played one of his better games against the Aces as he took over the record of 16 rebounds and led the Salukis with 25 points.
Trackmen Score 2-Front Gains In Meets in Canada and Indiana

Part of the track team had outstanding performances over the weekend in Winnipeg, Canada, while the rest of the squad tied Notre Dame for second place in the Central Collegiate Conference at South Bend, Ind.

The conference was won by Western Michigan.

At South Bend, the Salukis won four events, paced by George Woods, who set a meet and fieldhouse record at 61 feet, his fourth record to be set this year.

An SIU school record fell when Robin Coventry won the 300-yard dash in 31.2 seconds. Other SIU first-place winners who helped give the Salukis their best performance so far at the Central Collegiates were high jumpers Tom Ashman and Mitch Dushbury, who tied with a height of 6 feet, 7½ inches.

The fourth event won by SIU was the 440-yard dash, won by Gary Carr.

Valuable points were picked in the 600-yard run, with Jerry Pendrick finishing second in 1:13.6, and in the broad jump, with John Vernon finishing third for SIU in a leap of 23 feet and one-half inch.

Al Ackman of SIU took third in the 1,000-yard run with a time of 2:14.2, and Joe Janezic picked up a fifth place for SIU in the high jump event.

In Winnipeg, three SIU trackman, Ian Sharpe, Oscar Moore and Jeff Dushbury, had fine individual performances at the All-Star Collegiate meet held there Saturday.

Sharpe set a meet record by winning the triple jump at 47 feet, 5 inches, and also won the broad jump event in 22 feet, 9 inches.

Oscar Moore of SIU placed second in both the mile and the two-mile events, in times of 4:11.8, and 8:58, respectively. Dushbury placed third in the 1,000-yard run at Winnipeg, with a time of 2:13.7.

Team scores were not kept; only individual performances were judged.
