Work Deals With Drama in Southern Illinois

City Hall lawn of 12th Street and Mill Street was used as the scene of the annual convocation of the Southern Illinois University Dramatics Association. The association was founded to promote the study and appreciation of drama and to provide a forum for the creative expression of the students of Southern Illinois University. The event was attended by students and faculty members from the university.

3000 Teachers Attend Annual Convention Here

Urbana, Fairfield Program of Outstanding Speakers

In a program of 24 sessions, the Teachers Convention at the University of Illinois, Urbana, drew to a conclusion yesterday. The convention, which was held from April 7 to 9, featured a variety of speakers and sessions, including discussions on education, curriculum, and teaching methods. The convention was well-attended by teachers and educators from across the state.

Seven Juniors Complete Work for B. Ed. Degree

Seven seniors completed the requirements for their bachelor of education degree this spring. They are Edward A. Smith, who will teach in the public schools of St. Louis; Orville B. Stotesbery, who will teach in the public schools of Kansas City; and James E. Brown, who will teach in the public schools of St. Louis. The other four seniors who completed the requirements for the degree are Donald M. Brown, who will teach in the public schools of Kansas City; John H. Brown, who will teach in the public schools of St. Louis; and Albert E. Brown, who will teach in the public schools of Kansas City.

City Council Aids Clean-up Drive, Ordinance Has Been Drawn up by City Attorney

Sanitation Program Is Nearing a Successful Ending; Sanitation Committee Will Issue Final Sticker Soon

Final plans have been taken to assure a successful closing to the present Sanitation Program. The city council met last Monday evening and resolved the proposal to adopt the proposed ordinance. After much discussion, the council voted unanimously to adopt the ordinance, which will be issued to all city residents. The ordinance will be enforced by the city attorney, who will issue the stickers to all residents.

UNIVERSITY HIGH SCHOOL WILL BE CONVENTION HOST

Meeting Here Will Probably Attract a Thousand Delegates

High school students have been waiting eagerly for the convention, which is scheduled for April 9, to begin. The convention is expected to attract a large number of delegates, including students from all over the state and from neighboring states. The convention will feature several speakers, including a prominent educator who will discuss the importance of education in the preparation of young people for the future.

MEETING OF Ill. HISTORY GROUP

CONVENES MAY 9

Will Continue Through May 11, in Carbondale and Cairo

Preliminary plans reveal that the meeting of the Illinois History Group will include three sessions on the history of Illinois. The first session will be held on May 9, in Carbondale, and will feature lectures on the history of Illinois and the role of Illinois in the history of the United States. The second session will be held on May 10, in Cairo, and will feature discussions on the history of Illinois and the role of Illinois in the history of the United States. The third session will be held on May 11, in Carbondale, and will feature workshops on the history of Illinois and the role of Illinois in the history of the United States.

In the first session, speakers will discuss the history of Illinois and the role of Illinois in the history of the United States. They will provide an overview of the development of Illinois from its earliest days to the present, and will discuss the role of Illinois in the history of the United States. The second session will be held on May 10, in Cairo, and will feature discussions on the history of Illinois and the role of Illinois in the history of the United States. The third session will be held on May 11, in Carbondale, and will feature workshops on the history of Illinois and the role of Illinois in the history of the United States.

Registration Figure For Spring Term Is Larger Than That Expected

Registration for the spring term on Tuesday, March 6, reached 2,875. It is estimated that late registrants will bring the total to around 3,500—which will represent a decrease of nearly 100 students from the winter term enrollment of 1948. However, the total of 1946 is much above the number expected in comparison to last year's total of 1,710. The president and many other officials are pleased, however, since the enrollment presupposes an incremental increase in the number of students registered for the term.

A table prepared recently by the registrar’s office gives some interesting statistics on the winter term enrollment:

<table>
<thead>
<tr>
<th>Enrollment</th>
<th>Percent Change</th>
</tr>
</thead>
<tbody>
<tr>
<td>Men</td>
<td>Women</td>
</tr>
<tr>
<td>Total</td>
<td>1,710</td>
</tr>
<tr>
<td>Graduates</td>
<td>131</td>
</tr>
<tr>
<td>Sophomores</td>
<td>331</td>
</tr>
<tr>
<td>Freshmen</td>
<td>458</td>
</tr>
<tr>
<td>Total</td>
<td>1,088</td>
</tr>
</tbody>
</table>

The noticeable difference between the number of sophomores and freshmen is apparent in the fact that a great number of students are taking their second year courses.

These figures are representative of Southern’s unprecedented growth in the past few years. A mere glance at the enrollment figures will show how rapidly the school has mushroomed from a small, col-lege to an institution of national standing.

The immediate effect of this growth is felt by the Southern College administration. The president and his staff have had to work overtime to keep up with the demands of the ever-increasing student body.

In conclusion, the growth of Southern College is a testament to the hard work and dedication of its faculty and staff. The future looks bright for this rapidly growing institution.
In Our Minds, the Artist Is Long of Hair, Short of Cash,
States Louis Untermeyer Here

It was no use of our winds the artist is long of hair, short of cash, and not quite talented, said Louis Untermeyer, the New York City poet laureate, in a recent interview in Shapley Auditorium March 25. He is keeping with his remark.

The New American Art, Mr. Untermeyer explained, is the artistic movement that is now in full swing. It is characterized by the moonshine of youth and the)][

Students Conduct Study Courses During Vacation

BY ROY SANDERS

The importance of Civil Air Regulations and Why They Really Adhere to Profitability

After regulations are made in an effort to protect the flyer, not to burden his expenses. As such, there are many great men with the right regulations, there is no way to find out if it is the right thing that the regulations are required.

Almost every accident that occurs can be traced back to a violation of the regulations. However, in the majority of cases, people are not aware of the regulations. The violation is not necessarily due to negligence, but due to a lack of knowledge and understanding. In any event, the regulations should be strictly enforced, and the aircraft inspected frequently. If the regulations are not enforced, accidents will continue to occur, and lives will be lost.

Letters go to Ten Regulars on Cage Squad

Waltzburger and Wellbro Only Two Men Lost Next Year

Coach William McWhinney sends this week’s letter to the regulars of the squad. McWhinney’s present men are thoroughly men after obtaining a fresh of basketball andard and marked the times in the book. McWhinney's men have turned the box.

Carroll J. Whitten, who is the second member of the team, received for the squad. McWhinney's present men are thoroughly men after obtaining a fresh of basketball andard and marked the times in the box.

Sports Section

SOUTHERN TENNIS SCHEDULE RELEASED

SOUTHERN ANNEXES BOTH DOUBLES MATCHES WITHOUT LOSS OF SINGLE SET; BRUCE CHURCH SHINES

Playing in the shadow of men after obtaining a fresh of basketball andard and marked the times in the box. McWhinney's present men are thoroughly men after obtaining a fresh of basketball andard and marked the times in the box.

News of the day comes from the Southern Hurricane of the South, who announced that he had entered the Southern tennis championships at the end of the month. McWhinney’s present men are thoroughly men after obtaining a fresh of basketball andard and marked the times in the box.

Southern tennis championships were dominated by Bruce Church, who captured the singles, doubles, and mixed doubles titles. Church won the singles title by defeating Bob Davis of Georgia Tech, 6-1, 6-2, in the final round. In the doubles, Church and his partner, Bob Davis, defeated the team of John Smith and Bill Johnson of Kentucky, 6-4, 6-2, to claim the championship. The mixed doubles title was won by Church and his partner, Mary Davis, who defeated the team of Alice Johnson and Bill Henry of Florida, 6-3, 6-4.

The Southern tennis championships were a showcase for the best tennis talent in the South. The event featured some of the top players in the region, including Bruce Church, Bob Davis, and John Smith. Church, who was the favorite to win the singles title, lived up to expectations by winning the title. His victory was particularly impressive, as he defeated Bob Davis in the final round.

In the doubles, Church and Davis partnered to win the championship. Their victory was a testament to their partnership and their ability to work together as a team. The win was especially sweet for Davis, who had lost to Church in the singles final.

The mixed doubles title was also a close match, with Church and Davis prevailing against Johnson and Henry. Despite the tight score, Church and Davis proved too strong for their opponents, winning the championship.

The Southern tennis championships were a testament to the high level of tennis talent in the South. The event featured some of the best players in the region, and it provided an opportunity for them to compete against each other and showcase their skills. The event was a success, and it likely contributed to the growth of tennis in the South.
OLD AS THE NILE

By BRAD BRUNELLE

"Non vox habet aetate"—The voice of age does not have age. It is true that language is a medium of communication, but it does not have the ability to adapt to its environment.

The Nile River has been the lifeblood of Egypt for thousands of years. It has provided water for agriculture, transport, and a source of fresh water. The river has also been a source of conflict, as different nations fought over its control.

The Nile has been described as "the great mother" by many Egyptians, who have long revered it as a symbol of prosperity and life. The river's annual floods were a cause for celebration, as they provided the necessary water for irrigation and helped to replenish the soil.

Today, the Nile continues to be a vital resource for Egypt and other countries along its course. However, the river's resources are under threat due to pollution, overuse, and climate change. It is important that we protect this precious resource and find ways to manage its use sustainably.

HOMECOMING DEPARTMENT INITIATES TRAINING COURSE

THE HOME ECONOMICS DEPARTMENT OF THE NATURAL SCIENCE DEPARTMENT will initiate a training program for the natural science majors of the home economics department. This program will provide an opportunity for students to gain practical experience in the field of home economics.

The program will consist of classroom instruction and hands-on experience in the home economics laboratory. Students will have the opportunity to work with actual clients and to apply the concepts they have learned in class.

This program is open to all home economics majors, including sophomores, juniors, and seniors. Interested students are encouraged to contact the home economics department for more information.
