‘Music Under The Stars’ To Be Presented Saturday

Southern’s return to summer music and dances, the 14th annual Under The Stars, will be presented this Saturday evening at 8 p.m.

The musical extravaganza will begin at 7:30 p.m., featuring appearances by the Carbondale Civic Band, directed by Andrew Schultz, and the McGill-McIntyre Band directed by Jerry Ware. The program will also feature vocalists, as well as a variety of other music and dance performances.

On Sunday, May 8, the 14th annual Under The Stars will be held at the Illinois State Fairgrounds. The event features a variety of music and dance performances, as well as a variety of arts and crafts vendors.

It's Col. Tunnel In Missouri!

Robert W. Younger, Chancellor of the Southern Illinois University, Carbondale campus, announced that the Col. Tunnel in Missouri will be named in honor of Chancellor Younger.

The tunnel was named in recognition of Younger’s contributions to the University and the community. Younger has served as Chancellor of the University for the past 18 years.

Younger, who is also a graduate of the University, said, “I am honored to be named after this beautiful tunnel. It is a fitting tribute to my time here.”

The Col. Tunnel, which is located in southern Missouri, is a major transportation route for the region. Younger has been an active supporter of the tunnel and its continued development.

The naming ceremony will take place on Friday, May 9, at 10 a.m. in the University’s Great Hall.

IOP Construction: Trenching of Illinois 105

The Illinois Department of Transportation (IDOT) is currently working on the trenching of Illinois 105 in the Carbondale area.

The project is expected to be completed by the end of June. The IDOT has estimated the cost of the project to be around $5 million.

The trenching project will improve the road’s capacity and safety for drivers. The road is a major thoroughfare for the Carbondale area. The project is expected to be complete by the end of June.

The project will also include the installation of sewer lines and the addition of sidewalks. The project is expected to be complete by the end of June.

The IDOT has estimated the cost of the project to be around $5 million.

**The Editors’ Opinions**

**Opposition on Shaky Ground**

Southern Illinois in general and SIU in particular have both a great stake in the outcome of the pending Senate reform Bill.

It would appear that there is little opposition to the bill in Southern Illinois, since the bill itself is literally a joint project of the Centennial Commission, the Senate, and the House of Representatives. However, it does not appear that there is any opposition to the bill in the Senate, since it has been passed by both houses of the Legislature without a single dissenting vote.

The bill should be no news in the world for those interested in Senate reform. The bill’s main features are: the strengthening of the Senate’s power to conduct committees and the creation of a new type of committee, the Senate Select Committee, which will have the power to investigate any matter before the Senate and to report on it.

The bill has been met with little opposition in the Senate, and it is likely to be signed into law by Governor Thompson. However, the bill’s provisions may be challenged in the courts, and it is possible that the Senate may be forced to reconsider the bill if it is not successfully challenged.

The bill is a step in the right direction, but it is not the complete solution to the problems of Senate reform. The Senate is not the only body that needs reform, and the bill’s provisions do not address all of the problems that exist in the Senate. However, the bill is a start, and it is to be hoped that the Senate will continue to work towards a complete solution to the problems of Senate reform.

**The Many Buildings of the Home**

The many buildings of the Home are a constant reminder of the many sacrifices made by those who built and maintained them. The buildings are a symbol of the hard work and dedication of those who worked to create a place of comfort and refuge for those in need.

The buildings are not just a place for those in need to access services, but they are also a place for those in need to learn and grow. The buildings are a source of hope and a symbol of the community’s commitment to those in need.

**The Good and the Bad**

A new exhibit at the Good and the Bad, located in the University of Illinois Campus, offers a unique perspective on the history of the city. The exhibit features a collection of photographs, artifacts, and documents that highlight the city’s past, present, and future.

The exhibit is divided into several sections, each focusing on a different aspect of the city’s history. The sections include: the city’s early years, the industrial revolution, the rise of the city as a center of commerce, and the city’s present-day challenges.

The exhibit is a must-see for anyone interested in the city’s history. It provides a rich and comprehensive overview of the city’s past, present, and future, and it is a testament to the city’s resilience and adaptability.

**The Homecoming of the Race**

The Homecoming of the Race, held at the University of Illinois, was a memorable event that brought together alumni, students, and faculty from throughout the country.

The event was kicked off with a parade through the city streets, followed by a football game at the stadium. The game was a thrilling match, with both teams playing with great heart and determination.

The Homecoming of the Race was a wonderful event that brought together alumni, students, and faculty from throughout the country. It was a wonderful opportunity to celebrate the city’s rich history and its vibrant culture.

DM Debate Finals Tonight

The finals of the second annual IM Debate Finals will be Saturday, May 31 at 8:00 p.m. in the Peoria Room.

Five judges will be used in determining the winners. Dr. C. Haynes Teller, dean of the School of Communications will present the first place trophy in the preliminaries which will be conducted Sunday.

Defending the affirmative in the final round will be Jan Fuglson and Linda Adaco. The negative side of the question will be represented by the team to Charles Roswell and John B. Rippon. The proposition is maintaining, that the Federal Government should assume 100 percent of major agricultural programs.
Saluki Win In 15th After Losing On One-Hit, 1-0

A two-run rally in the top of the first inning carried the Salukis to an extra-game win over the Missouri State Bears in 15 innings, 1-0.

Chapman pitcher Miles Jeffries, who as a starter in the opener, struck out 13 in the game, went the entire nine innings and third extra inning, while allowing just five hits.

The two runs came in the bottom of the first, when Missouri State third baseman Ben Davis hit a two-run home run to right field off Chapman reliever Ben Johnson.

The Bears scored their only run of the game in the top of the ninth inning, when Chapman reliever Josh Roeder hit a two-run home run to left field to tie the game at 1-1.

The game was a pitching duel between Jeffries and Missouri State starter Alex Miller, who allowed five hits and one run in nine innings.

Chapman relief pitcher Ben Johnson allowed one hit in three innings of work, while Missouri State reliever Ben Davis allowed two hits in three innings.

The game was stopped after the ninth inning due to darkness, and resumed at 11 a.m. on Tuesday.

The Salukis are now 21-10 overall and 6-4 in the Valley Conference, while Missouri State is 18-13 and 4-6 in the conference.

Next up for the Salukis is a three-game series against the Southern Illinois Salukis at 1 p.m. on Friday.
