Wanted: More Engineers

While Southern sought for years to get permission to establish an engineering school, most people failed to realize that what the request really amounted to was permission to issue engineering degrees.

As Ralph O. Gallington, acting chairman of the applied science department pointed out last week after Gov. Kerther signed the bill authorizing the school, most people failed to realize that what of the bill authorizing the already industrialized area can and does draw from degree.

Gallington pointed out that the student body of some 9,000, that only two candidates for the presidency of the student government should emerge, and one of these should be a Greek. With all the Greek cry about being campus leaders and the like, it would almost seem that more than one Greek candidate might give the independent a chance to win. This would be best to a bit of luck. If an individual fraternity or sorority is interested enough in electing one of its own to high office in the student government, yet they seem to have the opportunity. A little healthy campaigning might give the Greeks a shot in the arm, not to mention what it might do for the present deplorable reputation the student government.

This writer is a Greek, and proud to be one. It is the only apparent apathy on this campus, he said that his treat- ment is not representative of many of his classmates. A college with about 2,500 students, the student council elections always brought forth three or four, and more often five or six candidates, saying perhaps they have it right.

Greek Questions

Fellow Indifference

To the Editor of the Egyptian:

Having read the notices of the forthcoming campus elections and having watched the Greeks with interest since my arrival on campus in September, I cannot help but give forth a few candid— and probably unpopular—opinions.

It seems pathetic that the student body of some 9,000, that only two candidates for the presidency of the student government should emerge, and one of these should be a Greek. With all the Greek cry about being campus leaders and the like, it would almost seem that more than one Greek candidate might give the independent a chance to win. Challenger Northern Illinois and defending champion South- ern Illinois play a three-game series this weekend at DeKalb that could decide the Inter-State Conference baseball title.

The two clubs go into action scheduled for the league crown, Northern with a 6-2 record, and Southern with a 3-1 showing.

Coach Ale Marvin’s Salukis suffered their first conference defeat this year when they dropped the second game of a doubleheader with Illinois State Saturday 6-4. Southern capped a single game Friday, 9-8, and Saturday’s top half, 7-3. SIU’s regular season record stands at 7-2.

Last season Northern’s Hus- kies won 11 out of 20. This sea- son is a different story Al- ready they possess a 10-2 mark.

From Sunday School To The Met ...The Story Of Marjorie Lawrence

By Mickey Sparks Klaus

Staff Reporter

Some years ago in an Australian bush church, a yellow-haired five-year-old girl made her public debut singing "O Holy Night" at a Sunday school concert. This same little girl will later become a prima donna in the world's greatest opera houses. Her name was Marjorie Lawrence.

After winning a singing contest in Australia, Miss Lawrence traveled to Paris to study under Madame Cecile Gilly, a voice teacher with international reputation. Later she made her first real debut singing the part of Elizabeth in Wagner's "Tannhauser." At Monte Carlo.

Sang to World

Since those days, Marjorie Lawrence has been around the world several times, entertaining for troops in the South Pacific during the Second World War, and enjoying the status of prima donna during the Second World War. She is now a visiting professor at SIU.

"Opera workshops, such as the one we have here on campus, give young singers the opportunity to study and develop their talents. Europe is no longer a must for those who would study voice. Some of the best teachers here in the United States," said Miss Lawrence, during an interview in Shryock Auditorium Saturday night before rehearsals for "Carmen."

This opera will be presented during Spring Festival Honored By French

The famed singer wears the "Legion of Honor," a medal presented to her by the French government for services performed in the Pacific during the War. It is a replica of a larger medal which is worn only for state functions.

Fricken With Polio

The attractive blonde was stricken with po lio during her 1911 honeymoon in Mexico City, lives with her husband, Dr. Thomas King, in Hot Springs, Ark. "I'm retired now," said the doctor, "my wife is my only patient."

"I guess my favorite role was that of "Selome" in the opera written by Strauss. I also enjoyed doing the Wagnerian roles, 'love teaching," said the visiting professor, who first taught at Tulane University in New Orleans.

Miss Lawrence hopes someday to produce two operas yearly at Southern and to tour Southern Illinois with an opera company. Her presence at Southern and her work with the workshops has attracted nation-wide interest. An article on the SIU workshops is to be printed in the magazines "Opera News." and "Music Journal."

Dear Dr. Frood: I've been reading a great deal about automated teaching devices. How long will it be before we come up with machines to replace professors?

Dear Professor: Just as soon as they get one that can rap the knockers of a sleeping student, give humiliating answers to foolish questions and give surprise tests whenever it happens to be in a bad mood.

Dear Dr. Frood: In the four years I've been at this college I've done some pretty horrible things. I am guilty, for instance, of ______ into and around the home of Professor ______. I'm also ashamed of ______. The Board of Regents, and completely in ______. The campus policeman's. But the worst thing I did was ______. I hid some money ______. Can I, in good conscience, even accept a diploma from dear old ______?

Dear Dr. Frood: Don't you think it's wrong for a boy and girl to marry while they're still in school?

DEAR SOC.: Yes, they should at least wait until recess.

The HANDLEWRITING is on the WALL, says Dr. Frood. Or, more exactly, on the blackboard. It's an old, old, old blackboard everywhere: "College students smoke more Luckies than any other regular." Why is this statement showing up on college blackboards? Because I am paying agents to put it there. For you must remember that Luckies are the cigarette with taste—the emphatic toasted taste. Try a pack of Luckies today.

CHANCE TO LUCKIES and get some taste for a change!
