This Article is brought to you for free and open access by the Daily Egyptian 1934 at OpenSIUC. It has been accepted for inclusion in October 1934 by an authorized administrator of OpenSIUC. For more information, please contact opensiuc@lib.siu.edu.
THE year has been a busy one for the students of Illinois Normal U., and the College of Education is looking forward to a more constructive year in 1933-34. As the new semester begins, let us take a glance at some of the current events of the College.

The annual Ballot meeting will be held in the Main building, 1:00 p.m., Wednesday, September 15th. At this meeting the members of the Illinois Normal U. Governing Council will be elected. The candidates for this office are M. A. Thalman, Wrenn, and O. M. Logan. Those present will be able to hear the candidates make their addresses to the students.

The next important meeting of the College will be the meeting of the Executive Council, which is scheduled for the afternoon of Thursday, September 16th. The Executive Council will be held in the College of Education in Room 11.

The Illinois Normal U. football team will be in action on Saturday, September 18th, when they play against the Southern Illinois University. The game will be played at Allyn Field, and is expected to draw a large crowd. The team is composed of very talented players, and is expected to do well against the opposition.

The College of Education is planning a series of guest speakers and lecturers for the semester, and is looking forward to a very interesting and informative year.
THE COMMITTEE NEEDS YOUR HELP

The annual report of the School of Government is given considerable time and attention to arounding off really good programs this year. They have entered into correspondence and have dealt with the usual government of the nation, business, and industrial concerns. A skilled program has not yet been selected, but the Board of Directors has made some indications of their intention to make the committee's work a success.

The committee wants to bring something better. These speakers would be appreciated, and their musical string programs would be most worthwhile. The student body will be amply justified in giving them support and cooperation.

PLAN YOUR PROGRAM EARLY

The committee which starts scrounging on Wednesday for a new program and on the following day struggle with the same thing, will be no respecter of persons. A program can hope to find little but overworked talent and stale numbers. Forty-four school directors are not particularly interested in making a great deal of difference in their programs. The members of the committee who have previously had one of the week's society meetings have been able to plan a program that is more worthwhile. The students who have attended them are more likely to be interested. If the students who have attended them are more likely to be interested.

The Council, in sponsoring student programs, has undertaken a considerable task. The best response to this can be the result of their contribution to the membership of the social committee, which in turn can be a basis for the future. The students who have attended them are more likely to be interested.

STUDY THE PUBLIC NEEDS

In the recent employment of the government of thousands of individuals all over the country to assist in the administration of the N.R.A. and the expenditures of the Public Servants. Our colleges have educated their students for business and for the professions, says Forbes, but really only because they have been more than an offering to the students that have attended them are more likely to be interested.

The council, in sponsoring student programs, has undertaken a considerable task. The best response to this can be the result of their contribution to the membership of the social committee, which in turn can be a basis for the future.
FOOTBALL ROSTER FOR 1934

The football roster here given is revised and complete to date. The Egyptian offers it to the students, as a convenient reference for identifying the players at the games.

With The Graduates

Elizabeth Hopkins '94 is teaching in Franklin county.

James Harper '92 is teaching in Franklin county.

Lucas Miller '94 is teaching in Rolla county.

Gwendolyn Fattor '92 is teaching in Franklin county.

Wesley Bowlight '84 is attending the University of Montana. Mr. Bowlight, on this campus, was a member of the Physical Science Society, Field and Prest, Y. M. C. A., City Echo Club. He took part in the 1933 Homecoming play, “A. P. P. F.,” and saw “Among the Rocks.”

Frances Hart '84 is teaching in Franklin county.

Marvin Carlin, who was superintendent of the Benton city schools, is now serving as Mr. L. K. Norcross as principal of the senior high school.

Olive Carrington '29 is teaching in the High School at Monroe, Illinois.

Fred Woods, who received his degree from here in 1934 and who is teaching in Mississippi, has received a scholarship to Howard University in Washington, D. C. next year.

Richard Headle, '08, is doing graduate work in political science at the University of Iowa.

Glen Miller, '94, has entered the graduate school of the University of Illinois.

JOURNALISTS TO STUDY GOOD NEWS WRITING

Elizabeth Ann West, associate editor, will teach the lesson of “good news writing” at the school of journalism this afternoon. This will be the first of two lessons dealing with specific points in preparing news that are particularly important in all Egyptian papers, but important to people who prepare them anywhere. However, the journalism school is open to every college student who is interested in this field.

“We inverted pyramid was the heading of West's lesson's lesson. This journalism school meets every Wednesday at 4 o'clock in room 304 of the Main building. Supper is served by the journalism fraternity from 5 to 7 p.m. The lessons are taught by staff-members of the Egyptian.

SWARTZ LEADS DISCUSSION

OF GOVERNMENT TREND

Dr. Willis G. Swartz, head of the Political Science department, conducted a detailed discussion of the Modern Modem Government of the last Tuesday's meeting of the Last American Club. His talk was subdivided into three main phases: namely, the general trend is permanent, the trend in the United States, and the outlook for the future. In his discussion of the general trend in government, Dr. Swartz stated that the modern trend was towards national political decentralization. The club has asked all those who are interested in Latin American affairs to turn their names to the secretary, Mexico Richard. They will be divided and taken into the club if it is the will of the members therein. Five new names were submitted at last week's meeting.

We welcome back the students.

And remind you that we are still located on the corner of Pennsylvania. We still have that delightful room, porch, lanscaping and porch. Fresh at All Times, Johnson’s Popcorn Machine. The Red Ford
