LASING HATFIELD TO BE FIRST CONCERT ARTIST, TO APPEAR OCTOBER 15

Increase in enrollment and in campus activities, membership in fraternities has been the most significant accomplishment of the fall term. The Interfraternity Council has grown by two new houses and the Mono-house National, the oldest fraternity on campus, has added three more pledges. New students have been welcomed into the various groups and the social activities have been the most successful in recent years.

The Student Government is proud of the new members added to its ranks during the fall term. The Student Senate has been reorganized and is working hard on a number of projects. The Student Body Association has also increased its membership and is planning a number of activities for the coming year.

The Student Council has been working on several projects, including the organization of a new fraternity and the revision of the student handbook. The Student Activities Committee has been working on the planning of the annual fall dance and the student government has also been involved in the planning of the annual fall dance.

THE CASE FOR STUDY DEFERMENT

By Associated College Press

The cause of the draft-dodging college student is the subject of a public announcement by the presidents of the University of Chicago and the University of Illinois.

Addressing the general public and local draft boards, Dr. James M. Meacham of Chicago, and Dr. John J. Furman of Illinois, called for the cooperation of all college students in deferment in the interests of national defense.

The joint statement of the presidents read: "We believe that students can be granted only for students in those fields in which there is a recognized shortage, such as medicine.

"However, in the absence of student deferments, there is a serious threat to the supply of doctors in the United States. For this reason, we urge that all students defer in order to perform military service."

THREE COLLEGE NYA STUDENTS ON CRAB ORCHARD JOBS

BRIGHAM, UT. Sept. 6—Three students from the Brigham Young University who performed work on the Crab Orchard project, are now employed in various positions in the university's Agricultural Engineering Department. They are: Vincent M. Hays, of Layton, Utah, and Michael W. Kaiser, of American Fork, Utah.

The three students were chosen to work on the project because of their experience in the field. Hays has been employed as an assistant in the Agricultural Engineering Department since 1960 and Kaiser has been employed since 1961.

In addition to their work at the university, Hays also works part-time as a consultant to the Utah Farm Bureau. Kaiser is employed full-time at the university.

CONCERNING Mr. MacPhail

BY NORMA SPARKS

In the office of the Dean of Men, Mr. MacPhail, Hawaii, a young man approached the dean and asked why he had not received a letter from the dean. Mr. MacPhail explained that he had not received the letter because he had been out of the office for the past two weeks.

He went on to say that he had been contacted by a group of students who were interested in starting a new club. He stated that he was willing to support the club, but that he needed more information before he could make a decision.

The students were encouraged to present their proposal to the dean and to discuss it with him. Mr. MacPhail expressed his willingness to work with the students and to help them develop a successful club.

The dean also noted that he was interested in the proposed club and would be willing to provide guidance and support to the students. He stated that he was looking forward to meeting with the students and hearing their ideas.
