To The Editor

It’s really nice of the government to raise veterans’ subsistence allowances. Just think how much better off I would be if I didn’t have to work. Because I don’t, I’m free to spend my time doing what I want to do, like reading and writing. Of course, I could be doing something more productive, like working for a profit, but I’d rather be free to pursue my interests. So, to answer your question, would it be possible for the EGYPTIAN to institute the practice of placing the work of the term in the heading of the paper? I don’t think so, because I don’t have the time to do it. Plus, I’m not sure if it would be appropriate. What do you think?

The president of a Chicago college has decided that all instrumental programs will be housed on its campus. In a statement to the student body, the president said, “Everyone was surprised when the announcement was made that all students and school employees will be required to wear roller skates while on the campus. I’ve given it some thought, and I’m convinced that this is the best solution.”

The old fashioned girl would take two drinks and go out like a light. The modern girl takes two drinks and goes out like a light.

Close study of statistics for 1947 re-vealed that although many persons on school grounds were injured in accidents, none was seriously injured while traveling on roller skates. It has been determined that all school and school employees will be required to wear roller skates while on the campus.

The president of West University has announced that all instrumental programs will be housed on its campus. In a statement to the student body, the president said, “I don’t understand why everyone was so surprised. It’s a logical solution to the problem.”

If you want to participate in intramural sports, you will have to go somewhere else.

We were all too late in writing about the West University campus, so we included this in our column. At least we got it in the paper.

Cigarettes remind me of some girls. They come in packs of five, and hang on your tie, so you can puff on them without making a mess. I’m not sure if I should recommend this, but it seems to be a popular habit among girls.

The reason there is so much material about women in this column is that they are responsible for 99.9% of all murders. Taking an aggressive attitude toward the problem, we thought it would be interesting to list some of the vital facts in an effort to remedy the situa-tion.

I keep four beautiful secretaries busy.
