But Have Safe Holiday
Editor's Opinions

"That's What Christmas Means to Me."--Page 10

The title of the popular Christmas song is symbolic in each of us, in one way or another. Individuals celebrate Christmas in individual ways...

C. Notion of charity. Much of our expanding population has wafted here from the countries which promoted the modern commercial way of the season by combining the Christian form of worshiping the birth of Christ. Others celebrate His birth in a more spiritual form, but Christianity is certainly a natural trait of Christmas.

H. Holiday. It is everybody the Yorkshire man marks a sign to the usual routine. It is more than just a holiday—it's a special time of year. The time when warlike become more friendly, when friends become better friends. M. Rooms. Especially students find the Christmas season a perfect time to return to old friends. Parties are frequent during the holiday season and remain at a constant state of hand. It's because Christmas is always a good time to be a damsel.

B. Death. Many people take this time of year to look back on the old year and evaluate what has happened. The coming year holds a greater added luxury which intrigues all of us. The Christmas season is a perfect time for revisiting old things.

E. Hoping. And who doesn't want until the last two days to say "There is no sure thing." There is a sure thing in our story of Christmas. It is to look to the new year. As we remember the old year always holds the unknown and many people take a look at the next season waiting for what the next season has in store.

Coroner's Jury Rules On Jordan Death

By Roger Maurer  Cincinnati Post

The news was up and remembered late in the morning of a Sunday that "he was a remarkable young man." The fact is, it was on the losing end of a head-on collision Thursday night at 8:30 a.m. in the Cincinnati County Hospital. Jordan was killed and five people injured in the accident when a car driven by another car left the road. Jordan's death was announced to the coroner's office by the Cincinnati County Hospital. Jordan, who had been a student at the University of Cincinnati, was pronounced dead at 9 a.m. at St. Mary's General Hospital in Cincinnati.

Solid opportunities with solid state devices

A big past with Western Electric's job in manufacturing the "new art" products that are changing the communication of tomorrow. It is a challenge to see the new possibilities for the future with solid state devices, such as solid state power amplifiers and solid state power amplifiers.

You'll be with a company that is expanding nationwide. We are looking for ambitious college graduates in electrical engineering, mechanical engineering, and industrial engineering to join our team. Our company offers competitive compensation packages, career growth opportunities, and a positive work environment.

WSIU Gets UPI News Wire

WSIU’s studio radio news will broadcast on the southern Illinois news wire.

A United Press International news wire will be broadcasted on the southern Illinois news wire.

The station will be on the air from 1 p.m. to midnight seven days a week. This WSIU sign-off is at 1 a.m. Monday through Friday, and at 11 a.m. on weekends.

Expanded News Coverage

Additional news coverage will enable the station to provide one and two Diamond Newsmakers a day, along with several news commentaries and features throughout the week. Sports coverage will also be expanded on WSIU, thanks to the wire service.

The expanded schedule will also accommodate several other new programs, including additional programs and features.

According to Clltton B. Natah, WSIU faculty advisor, the better service to the community of the FM station is part of the plan.

Future Grad Students Apply For Tests

Southern students contemplating graduate studies should apply soon for the Graduate Record Examination, which will work to determine their prospective academic standing and determine if they are a good fit for graduate admissions.

Future Grad Students will present their scores, and be notified of their acceptance or rejection.

Students should apply to graduate schools by the deadline of tomorrow, January 15.

At the moment, several 19th century scientists were conducting experiments that would eventually lead to the discovery of another element. John Dalton proposed a theory of atomic structure in 1808, and later in the same year, Henry Cavendish performed an experiment to measure the density of air. These experiments laid the groundwork for future discoveries in chemistry.

Moore Talks On Europe Study

Liberal lawyer and author Howard Zinn, a professor of English at the University of Massachusetts at Amherst, will speak on "The Imperialism of Europe and the Role of the European Union in International Relations" at 7:30 p.m. today in the Student Center.

Zinn, whose books include "A People's History of the United States," will focus on the role of Europe in the world and its relations with the United States. He will also discuss the economic and political effects of European Union policies on the global economy.

Zinn is known for his critical analysis of American foreign policy and his advocacy for social justice. His works have been widely acclaimed for their clarity and accessibility, making them popular among both students and general readers.
