MEYER’S LECTURE IS SCHEDULED FOR MONDAY, FEB. 12

GERMAN YOUTH LEADER HAS BRILLIANT PAST EXPERIENCES

Negotiations with Egger Meyer, leader of the German Youth Movement, were completed by the local chapter of the A.A.U.W. at the close of last week, with the result that Mr. Meyer will lecture here on February 12. The event is scheduled for eight o’clock that evening, in the Shryok Auditorium, and following the speech, "As a German Youth Leader," Committee House for Mr. Meyer will be held at the Delta Sigma Pipsilon house.

Mr. Meyer, born in Berlin, Julia, and political think is, in an excellent position to evaluate accurately the political condition of the present-day Nazism. A native of Greater Hamburg, Germany, he has had contact with movements of students for many years. At the age of six, he attended a school known as the German Gymnasium, and his education was sponsored by parents who encouraged modern system of education, and when he was 14 began his affairs related with the German Youth Movement. For the last two summers as a member of the foreign staff of the American College, he has instructed Americans travelling in Europe on themes related to the subject of his address.

Proceeds of the lecture, to which the admission will be 25 cents, will be for the student loan fund maintained by the A.A.U.W., Mr. Meyer having been requested to conduct the college money covering his expenses for an entire year. It is the purpose of the four groups that the projects of the Association are undertaken.

Scott and Baumann Build Model Stage For Y. M. Comedy

Barbara Jane Scott, assisted by Karl Baumann, has constructed a realistic and life-like model of Young Men’s Christian Association’s vivacious comedy of manners which the Y. M. C. A. will present at the meetings of February 22-23 at the Y. M. C. A. Auditorium. As devised by Miss Scott, the Hay Fever set will represent the interior of an English drawing room and dark paneled walls. The set is being built in daily rehearsals. Honor Fraternity Plans to Sponsor Press Conference

The Southern Illinois State Teachers’ Association will sponsor a press conference to be held on the campus this Friday evening. The conference will be attended by members of the press from Carbondale, Harrisburg, and other nearby communities.

Schools of Six Counties Will Be Invited to Attend

With training for its members, the Phi Alpha Sigma and the Alpha Xi Delta chapters will be invited to attend the conference. Both chapters are members of the Phi Alpha Sigma chapter, which is the national honorary society for students in the field of education.

In view of the fact that the conference will be the first of its kind held here, it is hoped that the attendance will be as large as possible. Invitations will be issued to all secondary schools in Jackson County and surrounding counties (Franklin, Williamson, Perry, Union, and Randolph). No restrictions will be made concerning the number of delegates from each school, and even though those schools which do not have regular publications are being invited to attend the event, only a very nominal registration fee will be charged. A tentative idea of the effect of the conference will be to help those high school pupils who are interested in the field of education.

Basketball Teams For College Women Practice Regularly

Interscholastic for basketball women not under way until after the Christmas vacation and is now in the fourth week of practice in the girls' gymnasium.

About forty-two freshman girls have reported to Miss Frances Ethridge for basketball practice, and four teams should be built from this material, to compete in the class tournament.

No not-so-humans have come out for the upperclass team as for the freshman team, but about thirty-two sophomores, ten juniors, and ten seniors have signed up. It was hoped that there might be separate junior and senior teams in the tournament, unless more girls report for these teams, the upperclass coach, Mrs. David Reeves, who was invited to combine the two squads and pick a combination junior and senior team, as the number was sufficient. The upperclass may be able to furnish two teams, but will probably have only one.

The tournament in which all girls who have reported to practice will probably be held about the week of the New Year. This will include all school, especially juniors and seniors, eligible for teams, whether or not they have signed up for basketball before.

Freshman practices are at 4:10 on Monday and Wednesday afternoons.

The Wailing Wall

"The Wailing Wall" offers the student an opportunity to voice his opinions of various things concerning college life. The feature is undergoing a slight change in policy entirely independent of the newspaper staff. All letters must be signed when they are sent to the Egyptian office, although the signature will be withheld upon special request.

Dear Editor:

The members of the Sorority of Sigma Live have been busy this year being successful that they have had little time to waste. But now, the extra hour that they feel justified in wasting is just a little.

Along with the query as to whether or not Morgan is going on to Sophomore, or Junior comes a record and more important one for the Sophomore as to whether he should go to Petet.

The Sophomore have openly announced that they didn't mind lending their talents, in fact, they are proud that they have it lend but they like to have it understood that it is only a loan. Members of the Zetetic Society have appeared on the Societarian Program this year but it was made difficult by several omissions when Societarian talent (Robert Bryan, Hilt, Grubin, and John Thacker) appeared, but the Zetetic program was indicated in the announcements and in the Zetetic bulletin zawar 9.

The Sophates are merely crying for recognition.

Miss Stella Scruggs, the Y. W. C. A. secretary for the Rocky Mount Conference, discussed the problems of the modern girl and the way she is to cope with them. She took her text from the book "Two Years A-Growing." Miss Scruggs continued this general theme in her conference with individual members of the Association, the cabinet, and the sponsors.

Miss Scruggs entertained the sponsors at a tea in honor of the Y. W. C. A.'s guest. A pot-luck supper was given by the organization in honor of Miss Scruggs. Thursday evening. About forty members attended this affair.

Forum to Debate At Rotarian Dinner

On February 13

On invitation extended last Friday, two teams of Forum debaters will attend an awards banquet at the annual dinner at which members of the Carbondale Rotary Club will entertain their guests. The occasion is the success of the Forum's debate on transportation before the Business Meeting of the Rotary Club. The results of the recent arguments were made, and excepting a musical number, the debate will come as the sole entertainment of the evening.

The topic debated at this affair will be the one that the Forum is using for the City of Murphysboro. That the power of the president shall be substantially increased.

The Forum is pleased with the opportunity to argue the question here, particularly because ten days later it will appear in the City of Murphysboro. Then it will take the negative side, but since other arrangements will call for an affirmative stand the 12 members are partner material on both sides of the question. The positions on the two sides will be held open.

A debate that has been recently closed in Murphysboro, Kentucky, for March 28-30. Mrs. W. H. Cogswell, corresponding secretary is winding up negotiations with Mr. W. H. Cogswell and McKeon and intends to fix on dates soon.

Through the interval-late debates both for the Forum and the Illinois will be arranged for out of town presentation, the spring debaters enrolling for an office and the Illinois as usual will be campus offerings.

A large attendance, especially of team-mates, is expected because of the increased interest that the Forum's appearances before downtown business groups has aroused.

Stella Scurluck, Student Secretary, Explains Aim of Y.W.C.A.

"I never know what to say to reporters," murmured Stella Scurluck from her comfortable position on the one leg she had left and which never looked the same in print.

"Just forget that I am a reporter," I begged, but she would not listen and soft-spoken Miss Scurluck was much more at ease than I.

Miss Scurluck is the National Student Secretary of the Y.W.C.A. groups on various campuses, plans district and state conferences, and compiles reports of the Y.W.C.A. cabinets may draw.

"You see," continued Miss Scurluck, "the Y.W.C.A. is a group of girls wishing to give something to others and to extend its influence. Girls of twenty are in a transition stage. They are leaving a dependent life and entering an independent life, where they will have the responsibility of making their own decision. Up to this time a girl's religion, political and moral point of view is that of her parents. If un instructed, she may lean harder on her family, or throw away all restrictions and abandon herself to smoking and things like that."

Miss Scurluck continued to explain the central theme of the Y.W.C.A. as fellowship. The Y.W.C.A. wishes to give every girl who becomes a member a chance to adjust herself to her own life, to meet her new problems.

Throughout the whole interview Miss Scurluck kept bringing up the question of the couch, but her expressive eyes and hands had echoed the depth of her interest in her work."

"The whole idea is to give the girls the tools with which to work," she finished suddenly, sitting very erect. "It is incumbent upon them to learn the way to do things and what to expect from them."

For Scurluck's aim is to make them independent and responsible."

AMONG NEW BOOKS

A PHOTOGRAPHIC HISTORY OF THE FIRST WORLD WAR

Laurence Stallings, Simon and Schuster, New York City.

A Photographic History of the First World War is one of the most remarkable and fascinating books of the year. It presents a vivid picture of the world war from its primary causes up to its results in the ghastly manner in which it ended. Laurence Stallings, says in its preface, it will disappoint those who expect a book of sentimental passages, although the gruesome pictures are not lacking. They couldn't be in any history of war. The book will probably displease the military student, too, because no attempt has been made to show modern military tactics. It is simply "a photographic history."

Laurence Stallings' powerful captions produce an intense feeling of reality. A study of the pictures and the captions reveals clearly what a destructive misfortune of energy war is. It shows the conditions of war better than any textbook or any orator ever that existed.

The photographs are given here. 300,000 soldiers, with gory bodies, the sight of fragments of shell victims, of women with broken limbs and shot-up cars, of men with their faces covered with disease-stricken flesh covered with open sores, are enough to dampen the ardor of the boldest of the real students of history, the book is fascinating. The captions are sometimes shocking and pitiful, but they are an integral part of the most vivid of the pictures that is that a German youth curled up in a mass of frozen fragments of shell victims, is employed as a teacher in the Farina High School.

One of history, the book is entertaining. Many complications are developing in Miss Power's English 300 course. The students have been advised to attend movies and write reports of them. Some of Miss Crawford's girls can't quite see the reason for a number of shows.

The cardboard knee-drape that are furnished students. The en­ gineering building are very interesting subjects for conjecture. Look at the ones who are thinned by the crazy, the crazy, and some of the classic remarks writ­ ten therein. Bits of frozen uncons­ ciousness - these are pencil wanderings.

Harrison Eaton is Photo Most Photographed Student at S.I.T.C.

BY MARY ELLEN WOODS

Harrison Eaton, of the junior class, has recently attained the distinction of being the most photographed student in the 1948 Obelisk. Such a chap I thought would surely be good for a real heartbreaker. And as it turned out I was right. When we met and asked him when I could talk to him, he "I'm free from three to four today," and after promising to consult a mental list of available appointments.

Harrison arrived at the Obelisk office shortly after three o'clock, in exactly on time. As, in fact, I hurried there from my class, I was there before the third bell, and was able to enter through the door. When I came in, the distinguished Mr. Eaton, member of Chi Delta Chi, Mu Tau Pi, Sigma Phi Mu, the Egyptian staff, the Science Club, the Sorority Literary Society, and the Student Council, was still in the chair, looking at some class pictures.

After we had talked for a while, Harrison told me the story of his life, which he enjoyed and Ma Tau Pi and working on the Egyptian.

"It is nothing in that world. The only way to manage is to organize your time efficiently and actually do everything at a time. When the people have met in the afternoon and that gives all evening to study. Among other interesting facts which I discovered about Harrison was that he believed in the idea of school. The idea of being a great doctor; hence his interest in Sigma Phi Mu, the pre-medical club. Mr. Eaton believes in balancing his scientific pursuits with the cultural benefits of the University. His friends and associates give him as his reason for belonging to many of the clubs only that he enjoys associating with congenial and thoughtful people. The Poultry Club and the Science Club were good ones."

He told me to leave, saying that he had another appointment, and I asked him if he really believed that all these clubs were good. He helped me after he got out of college.

"Well, at least," he said, "if I ever broke up, I could make some money by getting a job in one of these clubs."

You don't think you'd make a good match, do you?"

"Dear L. F.:"

"Such a romantic little letter, L. F., but I don't blame you. He does have a certain pull, I suppose."

"If you did see him play basketball any last year was he one of the team?"

"No, I just saw him play once, and he had a few strings on his shoes."

"I'd advise you to get an introduction immediately—or maybe you already know him."

Best of luck.

And oh it made me happy. To make it worse, I looked out the window, and there I saw my friend, the sky was all clear except for a few clouds. I was so lonely, I sat there and just blushed and blushed at some of the things I was thinking, because I had just been to the basketball game—and you know he thinks Hill has an adorable smile."

I'm pretty tall and my hair's black.
SHURTLEFF LOSES IN SATURDAY GAME BY 37 TO 27 SCORE

HOLDER, EMERY AND HALL SCORE POINTS FOR MAROONS

Getting off to a bad start in the first 31 minutes of play, the Carbondale Teachers finally hit their stride and buried the Shurtleff Pioneers under a 37-27 score at Alton last Saturday.

In meeting Shurtleff in their first road game of the season, the Maroons chalked up their third conference win in a row.

Paced by the brilliant work of Emery, guard, the Southerners overcame the loss of Donaldson and were able to hold the Shurtleff five and range a 15-18 lead at the half. Coming back strong in the final period, the Maroons were never threatened and played throughout the contest.

The scoring honors of the evening were shared by three Carbondale lads, Emery, Emery and Hall, each garnering eight points. The big guns of the Pioneers’ attack were Mensie and Hansbury who counted seven spots apiece.

On the performances of Harshany, Bremen, and Campbell, the Pioneers tallied nine counters before the Maroons’ offense could click. Field goals by Emery and Gray, followed by a fast break from Dave Bricker, brought the Southerners back in the running. A two-pointer by Mensie gave the Pioneers a 15-9 lead.

Successive field goals by Emery and Holder netted six more points for the Carbondale lads and placed the score at 21-14.

At the start of the second half, Harshany dynamited in two form goals, while Gray tallied a point by the same method. Holder then broke out for two more field goals to put the Carbondale lead up to 25-14.

Playing on even terms for the next few minutes the Maroons finally contested for some more tallies and gained a 30-15 lead with only about five minutes to play. Gray, Bricker, and Mensie entered the contest and the Maroons played mainly a defensive game. In the last two minutes, the Pioneers broke the Southerners in seven more points before the game ended. Hal substituted for the lads who led the reserves in making eight points in the final minutes of the contest.

Playing on the small Shurtleff court, the Teachers were forced to shoot long shots. Making total shots (9) and five with 16 minutes of the contest, the Maroons’ average was a trifl e better than 250 percent.

The Maroons, who were ranked seventh in the Conference, now stand second in the American League, behind the Maroons, with three games left.
