SIU Opera Workshop To Present 'Madam Butterfly' Feb. 16, 17

SIU Opera Workshop will present 'Madam Butterfly' on February 16 and 17 under the direction of Marjorie Lawrence. Two sopranos, Ruth Adele Bate of West Frankfort, Ill., and Carol Lambert of Par­ sons, West Va., teacher at University School, will sing the title role, Cleo-Clo-San. Gene Horner of Carbondale, Ill., tenor, will sing the role of B. F. Pinkerton, the Navy Lieutenant who falls in love with Cleo-Clo-San.

Variety Tryouts Begin Feb. 12

Tryouts for the Theta Xi Variety Show will start Feb. 12 in the Recreation Center. Larry Baldwin and Kent Sprague, co-chairmen of the show, announced yesterday.

Acts which make the show will appear in Shryock Auditorium on March 1 and 2. This year there will be another judging category covering acts of not less than five nor more than eight partici­ pants. In the past awards were given only for individual and group acts.

Margaret Boyadston, Juliet, III., Deanna Spain, Olean­ dale, Ill., will share the role of Madame Butterfly with her servant of Cleo-Clo-San.

Jim McHenry of West Franklin, Ill., will sing the role of Sharpless. U.S. Consul at Nagasaki, Japan, and Phillip Falcone of Bethlehem, Penn., will appear as Goro.

Three-year-old Clark Canedy, the youngest son of Don Canedy, SIU Marching Band director, will play the role of Trouble, the son of Sharpless.

Members of SIU Oratorio Chorus will sing the choruses under the direction of Robert Kingsbury who serves as pro­ duction coordinator for this opera.

The full performance of three acts will be staged in Shryock Auditorium at 8 p.m. on January 14th and at 3 p.m. the following afternoon. Tick­ ets, 50 cents, $1.00, and $1.50, may be purchased at the University Center after January 20.

University Cafeteria To Offer 'Meals On Ticket, Contract Basis

The University Cafeteria next week will start offering meals on a contract or weekly meal ticket basis.

First meal tickets will go on sale Thursday and will be honored henceforth called "Mea­ mata Monday morning break­ fast, two meals and lunch at the University of Cincin­ nati, will present two lectures on campus Wednesday.

Peter H. Nash, chairman of the Department of Geo­ graphy and regional planning at the University of Cincin­ nati, will present two lectures on campus Wednesday.

The campus radio station, WSUI-FM, was able to resume regular programming Thursday afternoon after being plagued with transmitting difficulties during the week.

A spokesman for the station said they managed to get back on the air just prior to the SIU-Austin Peay basketball game. Bad weather, causing icing on the transmitting tower, was blamed for the trouble.

Individual acts can consist of one to five persons with an act that can be made up of nine or more individuals. These numbers do not in­ clude company acts.

Applications for the show will be made available in the near future, Baldwin and Sprague said.

Signs Sigma and Delta Chi won the group award for the second year in a row last year with the "Showboat" act. Top individual award was won by the Jan Gudde Dancers.

FUTURE TEACHERS - Students planning to student teach during the 1963-64 school year met at Mcklelrey Auditorium yesterday and reflected the seriousness they feel about their fu­ tures. Students whose names begin with "M" through "Z" will meet tomorrow at 12:00 noon in the same place.

Said. "It was very interesting and pleasant to tour the various parts of the city. We were able to see many interesting buildings and places of interest. The students were very knowledgeable about the history and culture of the city.

President Delyte W. Morris, SIU director of business af­ airs, who also attended the meeting said it appeared the proposed cuts for SIU were not out of line with the other universities. He said Presi­ dent David D. Henry of the University of Illinois did make a plea for adequate funds to increase base salaries at both institutions.

Last biennium operating budget for SIU amounted to $42,283,696. This amount rep­ resented an approximate 10 per cent cut made on the request by the Legislature. Enrollment at SIU has shown a substantial increase since the last biennium.

Other SIU administrators attending the meeting of the state board were trustees, Hohn Page Wham of Centralia and Melvin C. Lockard of Maton.

Cuts recommended for the other universities were Illi­ nois Normal University, 2.3 per cent, Western Illinois Uni­ versity, 1.2 per cent and Northern Illinois University, 0.9 per cent.

Action was not taken on the budget for the schools for construction for the board.

Richard G. Brown, executive director of the Board of Education recommended which were approved by a 7 to 0 vote.

Geography Talks To Be Held Today

Peter H. Nash, chairman of the Department of Geo­ graphy and regional planning at the University of Cincin­ nati, will present two lectures on campus Wednesday.

Good News For Guys- More Girls On Campus

The man-to-woman ratio at Southern Illinois University has been increasing -- proportionately greater than men's -- in the past few years. Women accounted for 30.3 percent of the total in 1959 and have been narrowing the imbalance since then. The worst recent year for the men, that is, was in 1956, when only 27 percent of the student body were coeds.

The Registrar's office sees nothing unusual about the increase, just that college is becoming "more the thing" for young women these days. To the eligibles among SIU's 10,584 men on two campuses this year, it's a heartening sign.

Completion of the Wesley Foundation building near campus is in progress as the interior of the north wing is being finished and equipped, according to the Rev. Ronald Seibert, foundation director. First stage of the $310,000 Foundation saw completion of the shell of the building and about 75 percent of the interior in 1959.

The local chapter of Phi Delta Phi is having "The World is a Larger Place to Live In" at 2 p.m. Sunday in the University Center. The Chapter also voted to distribute off-campus sweatshirts from 8:30 a.m. to 5 p.m. Saturday in the University Center. Frank Heiligenstein, president of the Council, said off-campus students will be urged to pay their social dues at this time.

The off-campus sweatshirts bear the insignia Gamma Delta lots.

Hang On To Your Library Card

Anyone finding a library card and wishing to do so, can use it to obtain almost any facility of the library or University, he added.

Last year 977 library cards were lost or stolen. If each had been found and used, enormous bills might have been made and charged to the real owners, or finally fallen to the University.

Library cards can be replaced by $1 and some inconvenience, but chances of illegal use and the resulting problems are fate tempting.

Paterson Receives 3-Year Agriculture Committee Position

J.J. Paterson, associate professor of agricultural engineering, has been granted a three-year term on the American Society of Agricultural Engineers committee on Vocational Agriculture Teacher Education. Paterson, Milton Shute and K.A. Thomson, SIU agricultural engineers, were among more than 1,900 from the United States and several foreign countries at the meeting.

Off-Campus Council Reports

Sweetheart Dance Scheduled Feb. 16

The Off-Campus President's Council has announced that its annual Sweetheart Dance will be held Feb. 16 in the University Center Ballroom.

Tickets for the dance will be sold on the near future. In other action, the Council discussed plans for the Spring dance at the Council's regular Monday night meeting.

The Off-Campus President's Council will take orders and distribute off-campus sweatshirts from 8:30 a.m. to 5 p.m. Saturday in the University Center.

The Council also voted to encourage students to support the Four Propes stage show scheduled Saturday in Shroyer Auditorium "in an attempt to encourage similar programs in the future.

It was also announced by John Rose, treasurer, that membership cards will be distributed in the near future to off-campus students who have paid their social dues.

RINO BIANCHI
Bianchi Elected PA Society Head

Rino Bianchi, administrative assistant in the President's office, is the new president of the Southern Illinois chapter, American Society for Public Administration. He was elected last Thursday at a luncheon meeting in the University Center.

The local chapter is one of more than 60 representing 6,000 Americans interested in advancing the science, processes and arts of public administration.

Named vice-president was Marilyn E. Alexander, director of SIU's Center for the Study of Crime, Delinquency and Corrections.

EGYPTIAN

RINO BIANCHI
Bianchi Elected PA Society Head

Rino Bianchi, administrative assistant in the Vice-President's office, is the new president of the Southern Illinois chapter, American Society for Public Administration. He was elected last Thursday at a luncheon meeting in the University Center.

The local chapter is one of more than 60 representing 6,000 Americans interested in advancing the science, processes and arts of public administration.

Named vice-president was Marilyn E. Alexander, director of SIU's Center for the Study of Crime, Delinquency and Corrections.

Report:

If a bigger audience wanted to see an endorsed blank check."

EGYPTIAN

Published in the Department of Journalism on Thursday, Wednesday and Friday during the regular school year under the direction of Miss Mary A. Thomas, University of Illinois. Second class privilege paid at the University of Illinois, Illinois. Second class privilege paid at Carbondale, Illinois. Entered at the post office of Carbondale, Illinois, as second class matter under the Act of March 3, 1879.

Off-Campus University:

The Council also voted to encourage students to support the Four Propes stage show scheduled Saturday in Shroyer Auditorium "in an attempt to encourage similar programs in the future.

It was also announced by John Rose, treasurer, that membership cards will be distributed in the near future to off-campus students who have paid their social dues.

GDI Sweatshirts

To Be Distributed

Off-Campus President's Council will take orders and distribute off-campus sweatshirts from 8:30 a.m. to 5 p.m. Saturday in the University Center.

Frank Heiligenstein, president of the Council, said off-campus students will be urged to pay their social dues at this time.

The off-campus sweatshirts bear the insignia Gamma Delta lots.
Activities:

Forester To Speak At All-Ag Banquet

Richard Lane, director of the Central States Forest Experiment Station, Columbus, Ohio, will speak at the All-Agriculture banquet Saturday.

Sponsored by the Agriculture Student Advisory Council, the banquet will begin at 6:30 p.m. in the University Center Ballroom.

A feature of the program will be the presentation of the annual achievement awards by the School of Agriculture. An alumnus and a non-alumnus who have excelled in the field of agriculture will be honored.

The Young Republicans will meet Thursday, at 8:30 in the Home Economics Lounge.

Alpha Zeta, honorary agriculture fraternity, will meet at 10 a.m. Thursday in the Agriculture Building Seminar Room.

Milton T. Edelman, associate professor of economics, will discuss labor-management relations, at a meeting of the Society for the Advancement of Management at 10 a.m. Thursday.

The meeting in Room E of the University Center will be open to the public.

The Association of Child­hood Education will meet Thursday at 7:30 p.m. in the kindergarten room of the University School.

New York Show

Picks Painting

By Art Secretary

An oil painting by Thelma Arwood Mathis, art department secretary at Southern Illinois University, has been selected for the quarterly group showing of the Art Directions Gallery and Madison Gallery in New York City. The show opens Jan. 19.

Mrs. Mathis' pastel painting, "West," will be included with paintings, drawings, sculptures and prints gathered from throughout the U.S. by the two galleries. Purchase prizes totaling $1,500 will be given.

Mrs. Mathis received a master of fine arts degree from SIU and has studied in Mexico. A native of Pinkneyville, she exhibited last summer in the national Old Testament art competition in St. Louis.

PLANNING AHEAD — Charles J. Carlsen, assistant dean, and Donald J. Lawyer, student supervisor in the student work office, explain some of the planning for the summer work center.

Summer Jobs Available:

300 Find It's June In January

You can't tell it by the weather but for some 300 SIU students it's June in January.

They are the ones who have already used the facilities of the Summer Work Center in an effort to line up jobs for this summer.

Charles J. Carlsen, assistant supervisor in the Student Work Office, said that the 300 students have been processed since the Summer Work Center opened Nov. 1.

He added that last year the Center only processed a total of 400 students.

According to Carlsen, the Center has information from 600 to 700 different organizations who are seeking summer employment.

"The most of them are for the out of doors type jobs," Carlsen said, "but there are requests from practically every type organization you can think of."

He listed camp work, retail sales, national parke, and summer lodges as the major summer opportunities. But he added that industry and government also offer many summer jobs for college students.

Dear Boater, Camper, and Fisherman:

We extend to you an invitation to attend a "sneak preview" of PIRATE'S COVE.

The preview will be held Friday, January 11, Saturday, January 12, and Sunday, January 13-9:30 a.m. - 8:00 p.m.

PIRATE'S COVE is located on Route 13, east of Carbondale, on beautiful Crab Orchard Lake.

You will find the latest in boating equipment and facilities--docks that float on styrofoam--new 1963 Lone Star boats and Evinrude motors plus all the trimmings.

The Best in Boating,

Don Raines, Manager

PIRATE'S COVE, INC.

P.S. Now is the time to make your boat dock reservation.

Institute To Be Offered For German Teachers

A language institute for teachers of German will be held at Southern Illinois University at Carbondale this summer. Sponsored by the U.S. Office of Education under the language development program of the National Defense Education Act of 1958, the institute will run from June 24 to Aug. 9. A similar institute was held on campus last summer.

Participants will study and live in a native atmosphere, conversing entirely in German, singing German songs, dancing German dances and attending German movies. The seven-week session will offer opportunities to increase audio-language proficiency in German and to become better acquainted with the latest techniques and materials of instruction, according to the director of the institute, Helmut Liedloff, assistant professor in foreign languages at SIU.

The faculty will include Otto Subling, culture specialist from the University of Marburg, Germany; Joe K. Fugate of Kewanee (Ill.) College, again serving as associate director for the institute; Henry Goren and Adolph Weinberger, both of Syracuse University; Howard French, visiting professor at SIU; and Warren Born of Maine Township High School, East, Park Ridge, Ill., a superior student at last summer’s institute.

School teachers accepted into the institute will receive $75 per week, plus $15 per week for each dependent while attending the institute. Applications may be obtained by writing Helmut Liedloff, NDEA Summer German Institute, 310 S. Illinois 102 E., Jacksonville.

\[\text{HELMAN LANTZ AND ELOISE SNYDER CONFERENCE ON BOOK} \]

\[\text{BOOK VIEWS MARRIAGE BEST For ‘Real’ People} \]

Real people, not frauds, are the best candidates for happy marriages. It may sound fundamental, but that—in simple terms—is the formula agreed upon by the authors of a book on marriage, a collaboration between two sociologists at SIU, published by John Wiley and Sons of New York. “Marriage” brings the domestic scene into a sharp psychological focus. Say they are being exploited by the other in courtship relations, and that the problem of “sinisterness” or “seriousness” is one of the personal and social problems of college daters.

She has a pat answer when asked, how an unmarried person can be an authority on marriage: “I have a friend who is a criminal, you know? I don’t think he’s ever been arrested.”

\[\text{Debate Team Takes Trophy In Tourney} \]

Jeff Barlow and Bob Allinson won a third place trophy for SIU in the championship division of the Illinois State Normal Invitational Tournament last Saturday.

The meet was first of five invitational meets for SIU. The meet was won by Western Illinois University, while Eastern Illinois University took second. Both teams were defeated by Illinois State University, which took the championship.

Allinson and Barlow went into the quarterfinals by virtue of winners over Evansville, the University of Illinois at Navy Pier, Northern Illinois, and the University of Illinois at Chicago. They beat Bradley in the quarterfinals but lost to Wayne State in the semifinals.

A second SIU championship team of Pat Mikes and Charles Zeckler posted a 5-1 record in the preliminaries.

In sub-championship competition, Mike Jones of Eastern Illinois defeated Carol Williams of a 4-3 mark, while John Patterson and Calvin Radcliffe finished 3-3.

Thomas Isbell was one of three superior winners in a field of 26 in oral interpretation competition.

\[\text{Researcher Proves Rats Get Ulcers Too} \]

A Southern Illinois University researcher reports he has induced ulcers in rats by giving them doses of caffeine amounting to about half that in cup of coffee.

George Gasas, associate professor of physiology, administered caffeine to the laboratory rats through stomach tubes. The laboratory animals were intoxicated with coffee. Chased their tails and became so excited they chewed on their own hind feet.

Gasas described his studies in the Canadian Journal of Biochemistry in a research article co-authored with Carl E. Miller, a graduate student in physiology at SIU. Gasas' endocrinological physiology research laboratory, Gasas has been studying the ulcer-provoking effects of adrenal corticoids in combination with other drugs.

Earlier research with guinea pigs and cats showed that some drugs are occasioned after concentrated doses of caffeine alkaloids.

Hail To The Hawks:

St. Louis Trip To Honor Gallatin

The recreation and service committees of the University Center Programming Board are sponsoring a student trip to St. Louis to attend a professional basketball game Jan. 20.

Harry Gallatin, former basketball coach of SIU, now the manager of the St. Louis Hawks and Charles Vaughan, a player and a former SIU star, will be honored at this game. A block of seats for the SIU students will be reserved. Reduced prices for tickets and round trip bus transportation will make a package price of $2.25.

Students wishing to make the trip and see the game must sign up and pay in advance according to the co-chairmen of the recreation committee, Carol Feirich and Al Kramer. The bus will leave the University Center at noon and return to campus about 8 p.m.

Student rush A Graphic Arts Center has been established at the University of Southern Illinois. The center will be open to students, faculty and staff at the Recreation and Service Center.

A Graphic Arts Center has been established at the University of Southern Illinois. The center will be open to students, faculty and staff at the Recreation and Service Center.

JOIN THE RUSH - The Olympic Room in the University Center was packed early as students rushed to get appointments for spring basketball. In case you couldn't fight the crowd yesterday, you can sign up again today and tomorrow from 8 to 11:30 a.m. and from 1 to 4 p.m.

Traffic Safety Meeting Here Draws 60 Area Officials

About 60 persons attended an all-day Traffic Safety Conference on campus yesterday. Sessions were held in the Seminar Room of the Agriculture Building.

Police chiefs and officers, magistrates, judges, state police, sheriffs, mayors and other city officials from throughout Southern Illinois were invited to the meeting.

The conference was to encourage more effective traffic control and safety programs in municipalities.

James E. Aaron, coordinator of the SIU Safety Center, was chairman of the meeting. Frank Davin, secretary of the Governor's Traffic Safety Coordinating Committee, and John Fleming of the National Safety Council were among the featured speakers.

1. Clark Davis, director of student affairs, has been elected to the executive committee of Phi Eta Sigma, national scholastic honorary fraternity for freshman men. Re-elected grand president of the society at its annual convention at Indiana University was C. M. Thompson, former school of commerce dean at the University of Illinois. He was the winner of SIU's Distinguished Service Award in 1959.

Davin said the state is encouraging municipal agencies to set up traffic programs, inventory their local needs and try to meet those needs. State officials are attempting to draw up a model traffic ordinance that municipalities would be permitted, but not required, to adopt, he said.

Yesterday's meeting at Southern was the first of three to be held in the state. Similar meetings will be held at Pere Marquette State Park Jan. 15 and at Park Ridge on Jan. 17.

Graphic Arts Ready For Faculty

A Graphic Arts Center has been developed by the Audio-Visual Aid Service to provide University faculty and staff members with any kind of illustrative teaching material needed for classroom, off-campus or television purposes or for publications.

Microphotography, charts, transparencies, tape recordings—in fact, any kind of photo or graphic art—can be furnished, according to Donald A. Logan, director of the service.

The center is supervised by Zuleiman D. Zalatimo, lecturer in audio-visual aids.

get Lots More from L&M

more body in the blend
more flavor in the smoke
more taste through the filter

It's the rich-flavor leaf that does it! Among L&M's choice tobaccos there's more longer-aged, extra-cured leaf than even in some unfiltered cigarettes. And L&M's filter is the modern filter—all white, inside and outside—so only pure white touches your lips. L&M's the filter cigarette for people who really like to smoke.
Voigt Says Program 'Aims At First Rate Education' 

Answers Critics Questions About General Studies Goals

General Studies Creates Campus Controversy

Students, Faculty Praise And Condemn

New Freshman Program

O ne controversial item in the mind of new students at Southern Illinois University is the voicing more comments and verbalized opinions than such traditionally-discussed matters as shortened coed home- lines and Gary Miller novels. That item: The new General Studies Program, initiated this fall and required for all freshmen.

As many freshmen as possible ....

To these criticisms, Voigt said it has been an interesting year, "good idea on the whole" he said, "but it's a very good program. It causes a great deal of trouble to the student as well as to his advisor."

He said, "Being told what courses I have to take gives me a pseudo college. It's no different than high school, I like responsibility, I don't like to be told to choose my courses."

In regard to view points from the other side of the teaching fence, as well as comments on General Studies were as follows.

Associate Professor R. J. Filgor, an academic adviser for the College of Education, said, "The theory of the program is to broaden the individual or not it will function at our institution we'll have to wait and see." Filgor, who has witnessed the General Studies Program at Michigan State University, said there is a genuine need for such a program. He gave merit to the previous sanctions offered by the new SIU program, and pointed out that students who have a standard curriculum will not be required to take the course.

"I don't think a lot of those complaining realize this," he said. "The whole purpose of the program, as I see it, is to get away from sociology as a profession and to try to educate a whole program."

Sally Folden, one of the instructors of a General Studies curriculum, said, "I think it is a good very program. It gives a student a chance to look at the whole and to what they are going into." General Studies chemistry instructor, M. D. Joesten believes the new "Energy and Particles" course will have a major impact. "A student is going to obtain a better basic background in the sciences will get a better awareness of the technology of the age," he said.

Voigt said he believes problems will arise because of students' wide background. "I'm not part of nursing. I'll say the student be- in answering the drama or music major required to take the sequence is, "We hope to show him that it's an important part of the general program."

Professor of chemistry Bora Musulun said, "The new General Studies Program changes college curriculum programs. Because the courses which a student will take won't be the same and students will suffer." He also commented that there wouldn't be room or time in the new General Studies Program for courses that are vital to students majoring in physiology, chemistry, physics and medicine.

Mrs. Judith Hall, lecturer in the Art Department and a General Studies instructor, said the program "gives the student a chance to look at the humanistic disciplines. Many students who forget that the curriculum will be of use to them as a foundation." Many students come to college with the idea of getting a degree to make money instead of continuing their education, she believes educationally, she added.

Jorge Garson, assistant professor of zoology, is optimistic about results of the General Studies Program in his area, basic biology, but is unsure of the comment on the overall scheme.

He said he was confident the college faculty, and even the whole year, are "much better, for the general student be- ing a well- rounded view of places, give and all life pro- cesses."

Voigt says program 'Aims At First Rate Education'

Answers Critics Questions About General Studies Goals

In this fall's General Studies Program, students must select a major field of study and be required to take courses in that area. The program is designed to provide such courses to all students, regardless of their field of study.

"We must educate better students in general studies but this is not enough. . . . we must also cultivate a wide- spread interest in the arts, a desire to learn in all fields and the public and the experts," said Voigt.

And of this academic liberal, Voigt added, "judgement that the General Studies Program requires the student to take courses he does not need or like reveals a lack of serious, lack of moral discipline, lack of awareness and concern for the development of an educational curriculum."

In regard to the first year, students must be required to take courses in the general education program.

Second year courses pro- vise broadened re- quirements and give the student a chance to choose his courses. Students are required to choose their courses in the general education program.

Major curriculum fits into the General Studies Program.

For objections that the General Studies Program is to de-populate the University by flunking out freshmen.

Voigt said, "I'm not going to bring about department, Voigt said the program is to professional counseling and toward carrying on research work with those who are in scholastic diffic-

General freshmen who had selected their majors, said the General Studies Program from them taking academic subjects in their chosen fields.

The first year, students were required to take courses in the general education program and their major field of study.

"I see no clash with professional programs," he said. The General Studies Program aims toward increasing the number of students who will graduate as SIU graduates.

In answer to the question of whether or not it will function at our institution we'll have to wait and see." Filgor, who has witnessed the General Studies Program at Michigan State University, said there is a genuine need for such a program. He gave merit to the previous sanctions offered by the new SIU program, and pointed out that students who have a standard curriculum will not be required to take the course.

"I don't think a lot of those complaining realize this," he said. "The whole purpose of the program, as I see it, is to get away from sociology as a profession and to try to educate a whole program."

Sally Folden, one of the instructors of a General Studies curriculum, said, "I think it is a good very program. It gives a student a chance to look at the whole and to what they are going into." General Studies chemistry instructor, M. D. Joesten believes the new "Energy and Particles" course will have a major impact. "A student is going to obtain a better basic background in the sciences will get a better awareness of the technology of the age," he said.

Voigt said he believes problems will arise because of students' wide background. "I'm not part of nursing. I'll say the student be- in answering the drama or music major required to take the sequence is, "We hope to show him that it's an important part of the general program."

Professor of chemistry Bora Musulun said, "The new General Studies Program changes college curriculum programs. Because the courses which a student will take won't be the same and students will suffer." He also commented that there wouldn't be room or time in the new General Studies Program for courses that are vital to students majoring in physiology, chemistry, physics and medicine.

Mrs. Judith Hall, lecturer in the Art Department and a General Studies instructor, said the program "gives the student a chance to look at the humanistic disciplines. Many students who forget that the curriculum will be of use to them as a foundation." Many students come to college with the idea of getting a degree to make money instead of continuing their education, she believes educationally, she added.

Jorge Garson, assistant professor of zoology, is optimistic about results of the General Studies Program in his area, basic biology, but is unsure of the comment on the overall scheme.

He said he was confident the college faculty, and even the whole year, are "much better, for the general student be- ing a well- rounded view of places, give and all life pro- cesses."
Wolf In Gymnast's Clothing May Liven Up Friday's Meet

Dennis Wolf of SIU and Iowa's Glen Gallis, both sopho-
morers, are expected to pro-
vide the excitement in Friday afternoon's 4 o'clock gymnastic
meet with Iowa in Men's Gymnastics.
Both Wolf and Gallis com-
peted in the East-West gymnastic
meet at Tucson (Ariz.) with the two boys tying for first place in the still rings event.
They are expected to renew
their friendly feud Friday in

Winter Sports Athletes
Clear Grades Hurdle

SIU's winter sports of gymna-
stics, swimming and basketball
and wrestling did not lose any
athletes because of scholastic
ineligibility fall quarter.
It was the first time that the
winter sports coaches can
remember that a team did not
lose a man because of scholastic
troubles.
Bill Simms, who is believed to
be the only Negro gymnast in
the country, regained his
eligibility after missing the
fall quarter gymnastic season.
Simms will be a valuable
addition to Bill Meade's gymna-
sitic squad this spring when the
NCAA Championships will be
held in Pittsburgh.
Several athletes, however,
lost their scholarships or tu-
ition grants because of passing
out poor grades. The names of
these boys, however, were not
disclosed.

Galleries Book
Gorelik Exhibit

"The Scene Design of
Mordka Gorelik," a
spectacular exhibit of stage and
film designs, has been
booked by four more galleries.
The SIU prepared exhibit
contains 200 items covering
the professional work of the
former Broadway designer. It
is now at Washington State
Museum in Seattle, but will
soon travel to Brigham Young
University, the University of
Alberta, Canada, and Antioch
(Ohio) College.

Gallis was the still rings
champion in Illinois two years
ago and is continuing his out-
standing record at Iowa. He
prepared exhibit for the meet.
Meade, SIU's gymnastic coach,
says Iowa will be the toughest
opponent Southern will face this
season.

Wolf in Gymnast's Clothing
May Liven Up Friday's Meet

Wolf was one of several all-
around men Bill Meade has on
the SIU squad this season. In
addition to competing in the
still rings, Wolf will partici-
pate in the free exercise, side
horse and high bar events.

Wolf will also compete in the
side horse event. Gallis is regarded as a little stronger in the side horse
than Wolf.

**Fellowships Awarded SIU**

**3-Year Loan Available To Graduate Students**

Graduate fellowship loans created by the National Defense Education Act are available to beginning graduate students desiring three-year study for doctorate degrees. Southern Illinois University has been awarded ten fellowships out of 1500 given throughout the United States. Of the 623 total programs, Southern Illinois University will add two new programs and keep the one it had.

**Two Councils Set Retreat With President**

President Deily W. Morris will host the student council of the Carbondale and Edwardsville campus at a joint retreat at Little Grassy Lake Jan. 25 and 26. All council members will have the opportunity to discuss with President Morris anything of joint interest to the campuses, according to Bill Fitness, student body president.

The two-day retreat is held annually and the two campuses alternate as hosts. John Resnick is chairman of the program planning committee for the retreat and the student body vice president from each campus is also on the committee.

**From Riveting To Modern Art With Iron, Steel**

An exhibition of sculpture by David Smith, a pioneer in welded iron and steel constructions, is on public display in Mitchell Gallery in the College of Education building. Some of the works on display include: Untitled, 1949; Untitled, 1950; Two Column, 1952; Untitled, 1953; Untitled, 1954.

Assembled by the Museum of Modern Art in New York with a grant from the CBS Foundation, the show includes 46 sculptures, spanning Smith's output from 1933 to 1960. The exhibition will continue through Jan. 24.

One of the important innovators in contemporary American sculpture, Smith worked as a riveter and welder in the midwest before beginning his career as an artist in 1926. He received his first one-man sculpture show in 1945 and has exhibited extensively in the U.S. and Europe since then.

Benjamin Watkins, acting curator of exhibits at the SIU Galleries, said the show "is one of the most important exhibitions we have obtained for S.I.U.

**Graduate Grants Awarded To Three**

Graduate fellowships have been granted to three students for the winter and spring terms David Kenney, assistant dean of the Graduate School announced.

The fellowships, which are granted for high scholarship, carry a stipend of $150 a month and remission of tuition fees. Kenney said the three were chosen among about 40 other SIU fellowship winners presently doing graduate work.

Recipients of the grants include: William F. Gale, zoology major; Dayton L. Thomas, agricultural industries major; and Andrew R. Slack, agricultural industries major.

The three programs granted to SIU will include loans in English, psychology, and elementary education.

The loans include stipends of $2,000 the first year, $2,200 the second year, and $2,400 the third year plus $400.00 for each dependent.

**SIU Develops New Programs**

Three new cooperative programs have been established at Southern Illinois University recently. According to the SIU publication, the Research and projects Review, a report will be given on how these programs are as they are developed.

Now being formed is a cooperative program in Research in Animal Industries, under J. E. Burnside; one on cooperative Research in Plant Industries, under A. B. Caster and a third, Cooperative Research in Chemistry under James Necker.

Sixteen other cooperative programs in research are now going on at the university, according to the Review.
