ILLINOIS SYMPHONY ORCHESTRA TO BE HERE TUESDAY

Despite Illinois heat wave, both early and evening concerts will offer excellent music

The first concert of the season scheduled for the Rock River is Sept 15. It will be

held at 8:30 in the morning, as the next full evening program will not be

served until Sept 16.

The Illinois Symphony Orchestra is one of the choicest musical events of the season.

Dr. Brown, who will conduct the program, is a conductor for the symphony orchestra.

The orchestra is a well known and highly regarded organization.

INTEREST SHOWN BY LARGE NUMBER OF STUDENTS, PARENTS

The series of child guidance conferences conducted on the campus last April in conjunction with the Illinois Department of Health, will be continued this year. The aim of the conference is to bring the child and his family to better understand each other.

It was suggested that a new study on the educational opportunities of the child, the family, and the community be made. The aim was to determine the characteristics of the child that can be improved and how.

Dr. J. W. Seidman, who directed the series last year, returns to lead the sessions. The discussions were continued with a view to developing in the child a better understanding of his environment.

Two sessions were devoted to the study of the child's environment. The first was on the nature of the child's social environment, and the second on the role of the family in the development of the child.

The purpose of the study was to bring about a better understanding of the child's environment. It was suggested that the child's environment be studied in a more systematic manner and that the results be made available to the public.

ELIZABETH WALTERS, Champaign-Urbana, is the Director of the Child Guidance Clinic.

In an interview with the Editor, Miss Walters said: "We are trying to bring about a better understanding of the child's environment. The aim is to develop a better understanding of the child's social environment, and the role of the family in the development of the child."

As a result of the study, the Child Guidance Clinic will be able to better understand the child and his environment, and will be able to make better recommendations to parents.

Delegate To American Youth Congress Interviews Cuban Exile And Youth Leader

By MARIAN NICHOLS

MEXICO CITY, June 20. — The American Youth Congress delegation here today interviewed Dario Rodriguez Varela, Cuban exile, and requested him to discuss with the Congress a plan which would provide for the education of young people of all countries in the world. The Cuban exile leader has been selected as the national leader of the Youth Congress.

The Cuban exile leader, Dario Rodriguez Varela, has been selected as the national leader of the American Youth Congress. He is the son of a leading Cuban nationalist who was killed in the Cuban revolution. Rodriguez Varela has been active in the Cuban revolutionary movement and has been arrested and imprisoned several times by the Cuban government.

The Cuban government has been trying to suppress the revolutionary movement in Cuba and has been using violence and oppression to silence its opponents. The American Youth Congress delegation is hoping that Rodriguez Varela can help to bring about a change in the Cuban government and to promote peace and prosperity in Cuba.

The American Youth Congress is an organization of young people from all over the world who are working towards a better future for their countries. The organization is dedicated to promoting peace, justice, and democracy and to fighting against oppression and injustice.

The American Youth Congress delegation is planning to meet with other leaders of the Cuban revolutionary movement and to discuss ways to promote peace and prosperity in Cuba. The delegation is also planning to meet with other youth leaders from around the world and to discuss ways to promote global cooperation and understanding.

The American Youth Congress delegation is hoping that its meeting with Rodriguez Varela will be a step towards promoting peace and prosperity in Cuba and in the world.

BOOK REVIEW

The Man Who Saw the Future by Anthony Trollope

Anthony Trollope's novel, "The Man Who Saw the Future," is a classic work of fiction that explores the themes of social class, politics, and power. The novel tells the story of a young man named John Bunter, who is determined to make a name for himself in society.

In "The Man Who Saw the Future," Trollope creates a vivid and realistic depiction of Victorian society. The novel is set in the late 19th century and provides a detailed picture of the social and political landscape of the time.

"The Man Who Saw the Future" is an excellent example of Victorian fiction and is a must-read for anyone interested in the history of literature. It is a story of ambition and achievement, of success and failure, and of the struggles and triumphs of individuals in a complex and ever-changing society.

The novel is widely regarded as one of Trollope's finest works and is a classic of Victorian literature.

CHAPTER 7

The following is a list of events in the city under President Brigham Young's administration from 1850 to 1860. During this period, Utah was still a territory and did not become a state until 1896.

In 1850, the city of Salt Lake City was established as the capital of the territory. In 1852, the first telegraph line was built in the city, linking Salt Lake City to other settlements. In 1853, the Salt Lake Temple was completed, becoming the largest Mormon temple in the world.

In 1860, the city became the center of the American lands campaign, which aimed to encourage European immigration to the United States.

The following tables provide a more detailed breakdown of the events:

### Table 1: Major Events in Salt Lake City (1850-1860)

<table>
<thead>
<tr>
<th>Year</th>
<th>Event</th>
