MAXINE STEINER JAMES GRAY ARE MARRIED JUNE 4
Both Former Students of S.I.T. C Gray
Star Athlete
Mr. and Mrs. James R. Gray, of Blackfoot, Idaho, were married in the First Methodist Church in Blackfoot on Saturday, June 4th.

The couple were married by Rev. E. H. Johnson, pastor of the First Methodist Church.

The bride was a native of Blackfoot, Idaho, and the groom was born in Pennsylvania.

The couple left for a trip to the west coast, where they will reside.

SUMMER SESSION CHAPEL SYSTEM TO BE CHANGED
More Varied Program Will Be Offered By Departments
ATTENDANCE IS TWICE WEEKLY
Presence At Added Meetings Will Be Optional To All
By increasing an experimental pro- gram on a year-round basis, the Church of the Brethren is making a step toward a more comprehensive and varied program of education.

The Church of the Brethren, with headquarters in Elgin, III., has been conducting a year-round program of education since 1880. The program was expanded in 1910 to include a four-year degree course.

The program was further expanded in 1935 to include a two-year degree course.

The program was expanded again in 1945 to include a three-year degree course.

LET'S HAVE A GOOD LIBRARY

In the words of the Republicans for three long years (and how many before that, no one knows), students at S.J. T. C. have been complaining about Waverly Library. Complaints have been on record grounds—justifiable, some exaggerated, and some basically false. A few of the complaints have attracted the attention of both the public and the administration of the college.

During the past year a great deal has been done to correct the lack of working space in Waverly Library. Although the lower reading rooms are at a premium, the list of books is now almost as large as it can be, and the circulation department has approached its maximum. This adjustment was made possible, however, not through any action on the part of the board of trustees in the manner of the library or the decennial budget, and rather from various activities of the business and the president's office. Still more improvement is expected in the near future.

Among the most frequent complaints about the library, however, is one of hours at which the library is closed, and the closing policy of the library. The policy of closing at 6 p.m. is not observed, and in the evening of December 8 the library was closed at 6 p.m. During the winter months, however, the hours are usually reduced to 5 p.m., and the library is usually open on Sunday afternoons. In the summer months, the library is usually open from 9 a.m. to 9 p.m., with the exception of Fridays, when it is closed at 5 p.m.

We recognize the fact that it is infeasible to remain open until 9 p.m., but believe, however, that the addition of a new library with an increased number of books and with a more extended collection of books of a larger size would meet the needs of the students.

This is a frequently mentioned complaint, and it is hoped that this will be corrected in the near future.

We suggest that the library be open from 8 a.m. to 9 p.m., with the exception of Fridays, when it is closed at 5 p.m.

S. I. T. C. History To Be Printed By The Egyptian In Serial Form; First Chapter To Be This Week

Beginning this week, the Egyptian will publish the history of this college, written by Mr. John M. Pierce, in serial form. The week's issue will contain the first chapter, a history of the college's founding.

Chapter I

Sixty years ago a group of visionaries realized their dream in the establishment of the college. On March 9, 1884, the first issue of the school's newspaper, the Citizens' Advocate, was printed. The college was founded in a small town by the name of "The City," later to become known as "The City of the Future." The college's first president, Dr. John M. Pierce, delivered the commencement address at the college's first graduation ceremony in 1914.

The act specified that the new college was to be located within six miles of the Atlantic coast, and the site chosen was a small town by the name of "The City." The town was founded in 1879 by a group of visionaries who saw the potential for a new city to be built on the coast. The town was named "The City," and the college was named "The Institute of Technology." The college's first president, Dr. John M. Pierce, delivered the commencement address at the college's first graduation ceremony in 1914.

I'lllinois College

A recommendation that "The Lone Star Cafe" be included in the college's history is one of the many suggestions that have been made for the inclusion of the college's history in the college's yearbook. The recommendation was made by a group of students who felt that the college's history should be more prominently featured in the yearbook.

The Lone Star Cafe

The Lone Star Cafe is a popular restaurant in downtown Chicago. It has been a favorite spot for many years, and its history is well documented. The cafe was founded in 1914 by a group of visionaries who saw the potential for a new restaurant to be built on the corner of State and Lake streets. The cafe was named "The Lone Star Cafe," and it quickly became a favorite spot for many years.

John M. Pierce, Former S. I. T. C. Instructor, Talks Of The Early Physical Education Here

The following is an interview with Mr. John M. Pierce, a former S. I. T. C. instructor, who spoke about the history of physical education at the college. Mr. Pierce was a professor of physical education at the college for over 30 years.

"The field of physical education has come a long way since I first taught here," said Mr. Pierce. "When I first began teaching here in 1954, physical education was a very different field. It was more focused on the development of athletic ability and the enhancement of physical prowess."

"Today, physical education is much more focused on the development of a healthy lifestyle and the promotion of wellness," said Mr. Pierce. "It's not just about winning games and setting records, but about promoting a healthy lifestyle.

FRED CAGELE WINS SCHOLARSHIP FROM TENTENNSA CADE OF SCIENCE FOR THIS SUMMER

Amid Great Difficulties, Egyptian Reporter Obtains Details of How Science Was Awarded Cagelle

INTERESTING how Fred Cagelle, in his eal of his studies, has managed, by his own efforts, to obtain a scholarship from the Tennessee Academy of Science for this summer. It is a fitting recognition of the progress he has made in his studies of science.

Cagelle is a native of Egypt, but he came to the United States when he was a boy and has been here ever since. He is a clever boy and has always been interested in science.

He has had to work hard to get his education, but he has never given up. He has worked in factories and on farms, but he has always found time to read and study.

When he heard about the scholarship, he was very pleased. He had always wanted to go to the United States and learn more about science.

The scholarship will enable him to go to the United States and study at the Tennessee Academy of Science. He is very much looking forward to this experience.

Cagelle is very grateful to the Academy of Science for giving him this scholarship. He will work hard to make the most of the opportunity it offers him.

Do you know of anyone who is interested in science and who could benefit from a scholarship like this? If so, please let us know. We would be happy to help spread the word about this wonderful opportunity.

TOPIKU

OPENING OF THREE WEEK SPECIAL CONVENTION TO BE THIS MORNING

(Based on the original) 19th Annual Convention, May 1977, Y. T. C. 1977

The building of the new high powered convention hall is scheduled to begin on the afternoon of May 19th.

The building will be used for the 19th Annual Convention, May 1977, and for other conventions in the future.

The building will be located on the west side of the street, between the new hotel and the old convention hall.

The building will be used for conventions, banquets, receptions, and other social events.

The building will be equipped with all the latest equipment, including sound systems, projectors, and light systems.

The building will be open to the public for conventions and other events.

The building will be a great asset to the city and will be a great place for people to come together and enjoy themselves.

The building will be a beautiful addition to the city and will be a source of pride for all the citizens.

The building will be a great success and will be enjoyed by all who come to use it.

TODAY AND TOMORROW

HARLEM RHYTHM PRIZE "BEHIND THE BLACK CURTAIN" 

HARMON has no reputation as easy to come by, nowhere more so than in Harlem. The atmosphere is thick with the scent of jazz, and the streets are alive with the sound of music. In Harlem, every corner has its own special rhythm, and each one tells a story of its own. From the old-time gospel choirs to the modern day rhythm and blues groups, Harlem is always on the move.

BEHIND THE BLACK CURTAIN is a musical that captures the spirit of Harlem. It tells the story of a young man who moves to Harlem from the South to pursue his dream of becoming a musician. Along the way, he meets a variety of characters who help him learn about the rhythms of Harlem.

The show features an all-star cast, including some of the best musicians and dancers in the country. The music is a blend of jazz, blues, and gospel, and it's sure to get your feet moving.

BEHIND THE BLACK CURTAIN is a must-see for anyone who loves music and wants to experience the rhythm of Harlem. Don't miss it!
