Look Back

At Election

Students at SIU seem to be generally satisfied with the results of Tuesday's election.

However, a number of them said they were disappointed because Charles Percy, Republican gubernatorial candidate, was defeated, but they are not unhappy.

A consensus of student feelings the day after the election seemed to indicate Percy was defeated because his name was listed on the same side of the ballot with Barry Goldwater's.

"The governor race was about as close a thing as anything," said Jack B. Avery, a senior from Knightville, Ill.

Another student who sided with Percy was Charles T. Pakulski of Oak Park, who was happy with the election of President Lyndon B. Johnson, but felt Percy lost because people wouldn't split the ballot.

Tom J. Leger, junior from Avonale, said he wasn't unhappy with the presidential election, but he didn't expect such a big landslide.

"As far as the governor race was concerned," he continued, "Illinois couldn't lose with the two candidates it had in the race.

A student operating a cash register in the University Center Oasis said, adding emphasis to her speech with a punch at the register keys, "I'm happy with everything except the election."

"I wanted LBJ and Percy to win," said Mary L. Overstreet, a senior from Carrier Mills, "but I'm not unhappy about the outcome.

"At least the Democratic part wasn't surprised or upset by the Percy defeat. Tom Wallin, senior from Rockford, said, "I had a feeling Kennedy would win because the people didn't have that much against him."

A freshman from Evergreen Park, Charles E. Barnes, said that he was happy with everything except the election of George Romney in Michigan.

Another student made no bones about the way she felt was Sally L. Smith, a senior from Olympia Fields, "I'm terribly distraught about the whole situation," she said.

The outcome of the election, so decidedly for Johnson, caused one unidentified, legendary Goldwater fan to say, "If it was a fight, they would have stopped it about 10 p.m. Tuesday.

Music-Reading Jazzmen

Mitchell-Ruff Trio Billed

for 2 Appearances Today

The Mitchell-Ruff Trio will present a program of progressive jazz at today's Convocation at 10 a.m. and 1 p.m. at Shryock Auditorium.

The group, composed of Willie Ruff, Dwayne Mitchell and Charlie Smith, has broken the "can't read music" image of a jazz artist.

Ruff studied composition under Paul Hindemith at the Yale Conservatory. Mitchell studied at the Philadelphia Academy of Music and appeared as piano soloist with the Philadelphia Orchestra. Smith, the drummer, studied music at Columbia University.

The group traveled to Russia with the Yale University Russian Choir when jazz was banned in the Soviet Union. Known as the "Undercover Cats," they staged impromptu concerts in Russia and were one of the first groups to make a successful breakthrough for modern music in Moscow.

Ruff, who plays both bass and French horn in the trio, has played first horn with the Connecticut Symphony. Mitchell, who combines classics and jazz, has been said by one critic to "play Brubeck and Barlow back-to-back."

When not touring the U.S. or some foreign country, the trio can be found at "The Playhouse", a club they own in New Haven. It was at their club that Hindemith's "Sonata for Alto Horn and Piano" was first played.

The Yale faculty string quartet and other equally different groups appear at the club when the trio is absent.

The trio appeared on an SIU convocation program last year.

Novelist Begins Lectures Tonight

James E. Seidelman, director of education and director of the Illinois Library Association, will present the William Rockhill Nelson Gallery of Art, Kansas City, Mo., a lecture at 7 p.m. at Friday's luncheon.

He will discuss "Resources for Visual Aesthetic Education." The SIU String Quartet will entertain with a concert after Seidelman's address.

"Man, Cave, A Multi-Image Production" prepared by the SIU Department of Design, will be presented at the Saturday morning session, followed by a discussion of "Experimental Films" by Frank Paine, director of film production at SIU.

For the general session Saturday afternoon, the conferences will hear an address by Professor Garnett, "The Visual Arts" by Henry N. Wieman, research professor of art at Southern.

Senators will be held at the University Center. The Department of Art is host to the event. Mrs. Judit Hall is in charge of arrangements.

Councll to Discuss Reorganizing Plan

Discussion of the University Student Council is tonight's Student Council Meeting.

The Carbondale campus Council will meet at 7:30, in Room 200, A of the University Center.

Student body president Pat Montgomery plans to discuss with Council members plans that have been drawn up for the University Council.

Both Mcken and Don Grant, vice-presidents of the student body, are on an ad hoc committee set up to present proposals for reorganizing the University Student Council.

A representative of the Peace Corps is also scheduled to talk to the Council.

A bill is scheduled to be introduced concerning the Council to investigate the possibility of having a memorial for John F. Kennedy on Nov. 22.

Steagall Hall Elects Officers;
Ann Miller Named President

Steagall Hall has elected officers for the 1964-65 school year.

Ann Miller has been elected president of the first floor. Other first floor officers are: Delores Defend, vice president; Noerita Buckles, secretary; Darlene McReaken, treasurer; Carol Weil and Rosemary Menoans, judicial board cochairmen; Ann Lloyd and Lauren Donley, social cochairmen and Vivian Millbrandt, historian.

The second floor at Steagall elected Linda Nelson as president.

Other officers include: Emily Turner, vice president; Mayann Paisley, secretary; Patricia O'Callaghan, treasur- er; Maggy May, quick, judicial board cochairman; Jane Allen Floyd, second vice president and M.网页的链接。
Council Meet Tonight, Recreation Events Set

The Illinois Art Education Association will meet at 8 p.m. in the University Center River Room and Ballroom, Soil Conservation Service meets at 5:30 p.m. in the Seminar Room at the Agriculture Building. The Mitchell-Tuff Trio will perform at today’s Convocation at 3 p.m. in Shriver Auditorium. The Inter-Varsity Christian Fellowship will meet at 7 p.m. in the Student Council.

Tickets for Trio On Sale Friday

Tickets for the Nov. 13 appearance of the Chad Mitchell-Tuff Trio will be on sale Friday at the information desk of the University Center Center.

Folk singers Debut On Radio Today

Larry Brown and Mike West, members of the Kingman Trio, will be featured on WSIU Radio’s new program, Folk Sounds, today at 7:30 p.m. They will present dramatic songs of the Civil War in the show’s premier.

Other highlights:

8 a.m. Morning Show: Dallas Thompson will present special interest stories.

12:30 p.m. A 3-minute summary of the latest news developments on the national and international scene.

2:45 p.m. Southern Illinois Business Bulletin: Produced live by SIU students for the small businessman in Southern Illinois.

3:30 p.m. Concert Hall: Features two hours of classical music.

11:00 p.m. Moonlight Serenade; Rich Marcorse will provide music to study or sleep by.

"Just off Campus"
Jumping at U. of I.

A charming cartoon concerning SIU recently appeared in the Daily Illinoisan, the University of Illinois' student newspaper.

Pictured poising on a ledge of the administration building street below was an unhappy U. of I. student who was preparing to jump. In an attempt to restrain this poor soul a University cop arrived on the scene saying, "Don't do it son, you can always go to Southern!"

Well, we said it was charming. But we must also caution how representative the cartoon might be. For instance, are the smaller state universities any better? I doubt it.

It seems to us that if you've got nothing to say, it's usually better to have the guts to stand behind it. If the name at the bottom of the letter is not your own, or if there is something none of us at all, it tends to make us think twice about what you were saying to begin with. It may sound nice, but we doubt your own confidence in it.

We do not pretend to try to print editorials at the Daily Illinoisan. We try to provide a representative selection. But we cannot consider your letter at all if it is not signed at the bottom of it.

Walt Wachscb

Sign Them

A policy is a policy and our policy at the Daily Egyptian is not to print editorials that are either unsigned or signed incorrectly.

We appreciate the recent efforts of "A SIU Citizen," "The Chig," and "The Marv," as well as those of "Two loyal Salukis," whose signatures read, "four paw prints. They were good.

We can't, and won't, touch any of them.

To have the guts to stand behind it. If the name at the bottom of the letter is not your own, or if there is something none of us at all, it tends to make us think twice about what you were saying to begin with. It may sound nice, but we doubt your own confidence in it.

We do not pretend to try to print editorials at the Daily Illinoisan. We try to provide a representative selection. But we cannot consider your letter at all if it is not signed at the bottom of it.

Laser Living on Its Potential

BY BRYANT EVANS

Copley News Service

We are used to thinking of inventions as the creation of the mind. But there are many examples of invention of the heart. One of the most celebrated invention of the heart was the Hughes Aircraft Co. Laboratory in 1960 is different. It was an invention for which scientists and engineers had to have fearlessly hunted up uses. The uses are starting to emerge in a big way. In the roughest possible terms, the laser has something to do with the relation to an ordinary light as a rifle has to a shotgun.

A flashlight or searchlight sends out light of a great frequency. The laser sends out light of just one frequency. It is like the sound that comes from a tuning fork. This quality that we laymen might call "pure" is called "coherent" by the scientists.

Why is this so good? A way to think about this is to suppose that electricity in your radio set was like the impure, incoherent light from a radio bulb. The radio could not be tuned to any station, radio is only one of the sample of electricity can be produced at coherent frequencies. This is the same way that a laser can have certain specific wave lengths.

A laser light concentrates all of its energy in one wave length. If you think of your radio set was like the flashlight or searchlight, you can see that the laser is proving a faster and more efficient way of producing light. A laser, for example, can light a cigarette. It can Unlike a flashlight or searchlight, a laser can also be used to repair detached retinae in eyes. Intense laser light is much brighter than the assassination of the wave lengths through space it spreads very little.

Use of the laser as a "death ray" occurred to many people, including comic strip artists, but so far no one has announced such a device. It is more likely that the military is evaluating it. Early, practical uses have been found in medicine. At Stanford University it is being used to repair detached retinae in eyes. Intense laser beams have been used to "cold" the retinae back to the place by small burns, but the laser is proving to be more and more precise tool.

Lasers are good for precise welding and because of their high concentration have become a workhorse that could not be welded in any other way.

For example, for uses goes on. Dr. Anthony E. Siegman, Stanford physicist, recently wrote, "Its practical applications have as yet nearly been matched by the atomic science research which have been made in laser research.

Laser Zooms Zestfully Ahead After Alliance

By Arthur Hoppe

San Francisco Chronicle

So many times lately—Chinese bombs, Cuban missiles, open talks with the Russians—that I clean forgot to welcome the Republic of Zambia to the comity of nations.

Additionally, I feel many other-wise well-intentioned people may also have overlooked the emerging new nation of Zambia.

For the pressure of various world crises, it was also easily overlooked recently among the participants.

It is true that Africa and it's got 3,350 Zambians, apassable climate and a magnificent country.

They were good.

We can't, and won't, touch any of them.

To have the guts to stand behind it. If the name at the bottom of the letter is not your own, or if there is something none of us at all, it tends to make us think twice about what you were saying to begin with. It may sound nice, but we doubt your own confidence in it.

Others Fire Unpopular Professors; He Hires, and Then Defends Them

By NEIL MORGAN

Copley News Service

ALBUQUERQUE, N.M. — It is not the vigorous look to see the smaller state universities for examples of academic courage, but sometimes smallness makes them more adventurous.

Six of his professors signed a New York newspaper ad calling for a "national faculty" to over­ take the power of the Un-American Activities Committee.

An economics professor wrote a textbook in consumer economics that was criticized by Basil Bernstein.

A history professor grew interested in the disclaimer oath in the National Education Act.

Suddenly Popejoy was in economic trouble with the Legislature. The Legion launched a newspaper campaign against the administration.

"Say, Tom," the newspaper asked, did you know your new education policy? You have been on the job in the University of New Mexico in Albuquerque for his 17th year as president, there is unsustained interest in the idea, under attack from the American Legion, was defending his administration.

"Yes," Popejoy replied. "That's the main reason we hired him.

Popejoy is a native son. He was born in Hillsboro, N.M., on Ran­ on 1902. He was a student in the University of New Mexico when he married a good girl, and today he has an extra year until my wife finished college," he said when I vised him for the other way.

We had fought for many years until onan 1982, he was named president of the University of New Mexico in Albuquerque.

He did not graduate at Illinois and California, but began teaching economics at the University of New Mexico in 1935 and has been on the faculty ever since. When he became president in 1948, he was the first native New Mexican to hold the job.

His biggest fight, early in the 1960s, was a miniature of similar fights that once made the University of Illinois a great state university.

"We have been able to ignore newspaper editorial criticism," Popejoy said. "We have been able to ignore the fact that the University of Illinois is a coed university.

We have been able to ignore newspaper editorial criticism," Popejoy said. "We have been able to ignore the fact that the University of Illinois is a coed university.

"The reason is that the University of Illinois is a coed university, and we also have faculty freedom that we can do our thing.

The university has been traditionally antipathetic to Chicago and anthropology, both fields in which its history and geography have given New Mexico obvious advantages, and in art.

Since World War II, the university has burgeoned in the arts. This has been a stimulus from Los Alamos and from the vast military-scien­ tific complex of the Sandia base at Albuquerque.

"Brainpower is the key to the postwar development of our state," Popejoy said. "Higher education is related to a major part of our future."

That is not hard to understand. The stimulus from the atomic research so recently associated with its history, has more resident Ph.D.s than M.D.s.

"DON'T DO IT, SON, YOU CAN ALWAYS GO TO SOUTHERN."

Daily Illinoisan, University of Illinois

Craig Macintosh's cartoon
GOV Loss Sparks Intra-Party Fight

WASHINGTON -- A conservative vs.-liberal battle shaped up inside the Republican party Wednesday in the aftermath of the GOP's crushing loss.

Sen. Barry Goldwater criticized by liberals in his party, declared that his loss to President Johnson does not mean that conservatism is dead. "I don't believe the conservative cause has been hurt," he said in his concession of defeat. "Twenty-five million votes is a lot of votes."

He said he has every intention of staying around to help build the party into a winning force with a philosophy that can be sold.

On the other hand, the Republican national committee man for Michigan, John Martin, called for a house-cleaning of the present 17 leader ship, starting with the disbanding of National Chairman Dean Burch.

Burch commented that the election proved "that a minority party cannot afford the luxury of distraction. Now is the time to abandon all the bicker and come together."

Martin is the Republican Governor of New York, George W. Romney, who won re-election Tuesday after refusing to support Goldwater for president.

Romney emerged as one of the relative handful of leading Republicans who survived the Democratic landslide.

Martin said the Republican National Convention that nominated Goldwater made "a terrible mistake" in supporting the party's nominee in the Democratic landslide. "Twenty-five million votes is a lot of votes," he said.

Similarly, the Republican state chairman of New York, Fred Young, said the party must now set a course of "reconstruction" and "rebuilding" after its "ill-advised, badly misguided" 1968 campaign.

"Republicans have a great record of representing the party,\" Goldwater said. \"We're going to start this morning working on that record and rebuilding.\"

Henry Cabot Lodge, another Goldwater critic, was quoted as saying that the party had no choice but to rebuild the party. Lodge said that would happen if Goldwater were nominated. "We Republicans must rebuild the party," he said.

Gov. Nelson A. Rockefeller of New York, who fought Goldwater's nomination, talked for the present about improving the party's situation in his state. He had termed Romney an "educator of the party."

"The Republican party has a great record of representing the people,\" Rockefeller said. \"We are going to start this morning working on that record and rebuilding.\"

But the Goldwater faction was not ready to give up. Sen. Barry Goldwater, carrier of his home state of Arizona plus five Deep South states -- Louisiana, Mississippi, Alabama, Georgia and South Carolina.

Johnson's Coattails Land Most Democrats In House and Senate Since 1936 Landslide

WASHINGTON--The Democrats scored a substantial victory in congressional elections to go along with the walking president's landslide victory Tuesday. The new Congress features a family name which may lead to the choice in the years ahead, through the victory of Democrat Robert F. Kennedy, brother of the slain President John F. Kennedy, over New York Republican Sen. Kenneth B. Keating, Kentucky's another brother Sen. Edward M. Kennedy, D-Mass., who won re-election.

The nomination of黄金water, carried his home state of Arizona plus five Deep South states -- Louisiana, Mississippi, Alabama, Georgia and South Carolina.

GOP Gains a Governorship; Romney Michigan Winner

WASHINGTON -- The little consolation Republicans found in the Democratic landslide was largely at the state-house level. They wound up with one more governorship than they held before the voting.

Including Goldwater, Democrats will control 33 statehouses and Republicans 17. In the 25 races Wednesday, Democrats won 16 and Republicans 9.

The featured spot in the gubernatorial contests was the Arizona race. Romney, Michigan, 56, won re-election over Democrat Neil Staebler, 51, Michigan's congressman at large.

Romney's victory put him in a position to assume a role of leadership in future rebuilding of the GOP. He had opposed the nomination of Sen. Barry Goldwater of Arizona for his party's presidential hopes. Governorships often provide presidential potentials. Republicans turned out Democratic state executives in Washington, Wisconsin and Massachusetts. But Democrats captured governorships in Arizona and Utah.

Arkansas' controversial Gov. Orval E. Faubus, 54, won an unprecedented sixth term by defeating Republican Winthrop Rockefeller, 52, and independent, Sen. Nelson A. Rockefeller of New York. But Rockefeller put up one of the strongest races a candidate of that party has ever waged in Arkansas.

Texas Gov. John B. Connally, 47, won easily over GOP candidate Jack Crichton, 48.

In Arizona, a Goldwater lieutenant, Richard Klein, 41, lost to Democrat Mr. Goldwater, 45, Harvard-educated Tucson attorney.

Johnson Accepts Voters' Mandate
With Plea For a United America

WASHINGTON — Lyndon B. Johnson summoned all Americans — Democrats and Republicans, too — to "stand united before all the world" Wednesday in the aftermath of his towering, 15-million-vote presidential election triumph. From Barry Goldwater, whose hopes for the White House he dashed in a record-shattering victory march, Johnson received congratulations and an offer of help with tasks and problems ahead.

Goldwater pointedly let it be known to newsmen that: "Being unemployed after Jan. 3, I will have a lot of time to devote to the leadership of this Republican party and to strengthening this party."

Johnson batted him down to defeat in one of the most lopsided elections in history. The Arizona senator held off a concession until about noon, Eastern time, when he read his congratulatory telegrams and an offer of help with tasks and problems from Barry Goldwater. And across the nation, he pulled 88 per cent of the vote.

The size of the Johnson sweep showed up everywhere — even in the South. He lost Alabama, Georgia, Louisiana, Mississippi and South Carolina. But he won Florida, Virginia and Tennessee, which went Republican four years ago. In addition, he carried 22 other states that voted Republican in 1960. He scooped up Vermont, never before Democratic, and Maine which had gone Democratic only once in a century, and he went on to win all the rest of New England.

The farm belt and the West, GOP strongholds in 1960 and on many other occasions, deserted to Johnson wholesale.

An electronic analysis showed that Goldwater, as expected, cashed in the South but that the white backlash against Negroes in other areas was pretty much a mirage.

Goldwater voted against the civil rights law and urged that state and local governments be left alone to solve the rights question.

A check in key precincts in something like 100 counties where there is a heavy Negro population but a light Negro registration showed the Republican nominee collected two-thirds of the vote.

Johnson ran strongly among Southern Catholics, such ethnic groups as Slavs and Italian-Americans, in big cities and states, in all income groups, in suburbia, in tiny towns and villages in New England that always before voted Republican.

This was the broad picture Wednesday, with the votes still straggling in:

Presidential: popular vote with 98 per cent of the precincts recorded, Johnson 41,513,737, Goldwater 26,162,930, Johnson margin 15,350,807, Johnson percentage 61.3.

Electoral vote: Johnson 486 from 44 states and the District of Columbia, Goldwater 52 from 6 states.

Kerner wins by 200,000 Votes, Foresees 'New Unity,' Progress

CHICAGO — Gov. Otto Kerner, swept into a second term in the Johnson landside, called upon all Illinois Wednesday to unite in support of his program for the state.

The size of the Johnson sweep showed up everywhere — even in the South. He lost Alabama, Georgia, Louisiana, Mississippi and South Carolina. But he won Florida, Virginia and Tennessee, which went Republican four years ago. In addition, he carried 22 other states that voted Republican in 1960. He scooped up Vermont, never before Democratic, and Maine which had gone Democratic only once in a century, and he went on to win all the rest of New England.

The farm belt and the West, GOP strongholds in 1960 and on many other occasions, deserted to Johnson wholesale.

An electronic analysis showed that Goldwater, as expected, cashed in the South but that the white backlash against Negroes in other areas was pretty much a mirage.

Goldwater voted against the civil rights law and urged that state and local governments be left alone to solve the rights question.

A check in key precincts in something like 100 counties where there is a heavy Negro population but a light Negro registration showed the Republican nominee collected two-thirds of the vote.

Johnson ran strongly among Southern Catholics, such ethnic groups as Slavs and Italian-Americans, in big cities and states, in all income groups, in suburbia, in tiny towns and villages in New England that always before voted Republican.

This was the broad picture Wednesday, with the votes still straggling in:

Presidential: popular vote with 98 per cent of the precincts recorded, Johnson 41,513,737, Goldwater 26,162,930, Johnson margin 15,350,807, Johnson percentage 61.3.

Electoral vote: Johnson 486 from 44 states and the District of Columbia, Goldwater 52 from 6 states.

Kerner includes among his goals: Implementation of a master plan for higher education, Constitutional tax reform, More social legislation, Expansion of the mental health programs, Investigation of the state's economy.

The voters also returned to office the entire Democratic state administration, and changed the evenly divided 12 and 11 Republican to 13 Democrats and 11 Republicans.

The sweep may also have produced a Democratic conquest of the Illinois House in the nation's only at-large election. Results of this ballooning, involving 233 candidates for 177 seats, may not be determined for days.

With more than 99 per cent of the state's voting precincts reporting, the vote was 2,343,157 for Kerner and 2,131,991 for Percy.

"The Republican party," he said in a statement congratulating Kerner, "for over a century has been an instrument for progress in our country and state. In order for us to insure the future stability of our form of government we must have two effective strong parties."

"I shall continue to work with Republican party leadership in Illinois in our building efforts."

Others in the Democratic state administration elected or returned to office were Paul Powell of Vienna, secretary of state; Lt. Gov. Samuel H. Shapiro of Kaskaskia; Atty. Gen. William G. Clark, and State Auditor Michael J. Howlett.

The Democratic University of Illinois trustees won re-election. They are Howard W. Clement of Des Plaines, Theodore A. Jones of Chicago and Howard W. Blake of Champaign.

The constitutional amendments on the Tuesday ballot were drawn up by "yes" voters than "no," but their fate was not immediately determined.
Military Overthrows Bolivian Government

LA PAZ, Bolivia — President Victor Paz Estenssoro was overthrown Wednesday and left Bolivia, leaving the reins of power in the hands of a military junta headed by the armed forces chief. Gen. Alfredo Osorio Can- dia, the armed forces com- mander, told the nation after a 24-hour military uprising: "I have assumed the respon­ sibility of the government to form a military junta that will take charge as of now."

As the news flashed through the capital, Bolivians ran into the streets shouting "Viva la armada!" This was a far cry from 1952, when Paz rode to power on a wave of popular uprising that threw out a military junta.

"Six, 37, and a party of his lieutenants were alternately reported as having flown to Chile and Peru. Shortly before Paz left, Obando had been responding to the nation, Obando said the junta will hold power as briefly as possible and will call for elections, he said, resigned to avoid further bloodshed."

Military officials said type had flown to Madrid. As news flashed through the country, Obando declared that the news of Paz's resignation was a major scandal for the armed forces. Generalsaid it was a "disgrace." But another general said the news was a "disaster" for Bolivia. General said the news was a "disgrace." But another general said the news was a "disaster" for Bolivia.

"I'm disappointed," said Gov. Edmund G. Brown, "but I do not regard the election as the end of California's fight against discrimination and segregation in housing."

"The state constitutional amendments that wipe out California's fair housing law and forbid any further legislation on the subject are a brick in the wall."

It gives property owners the absolute right to accept or reject any buyers or renters.

In another vote involving franchise, Maryland, a public-accommo­ dation law to give property service for Negroes in motels, hotels and restaurants throughout the state, it previ­ ously applied only to the city of Baltimore and half of the state's 23 counties.

Proposals to legalize gam­bling were e.ligated by voters in three states—California, Arkansas and Wash­ington.

Californians rejected a state-franchised lottery. Arkansas refused to legalize gambling houses in the resort city of Hot Springs, and Wash­ington voters said no to licensing bingo, card games, punch boards and pinball machines.

California voters in a busy day also approved a proposal to outlaw pay television and repealed a state law requir­ ing railroads to fill certain jobs on trains.

Goldwater Slams News Columnists

PHOENIX, Ariz. — Barry Goldwater said Wednesday columnists and commentators who harshly criticized him during the campaign, "should hang their heads in shame because I think they've made the whole Fourth Estate a rather sad, sorry mess."

The story of the day was a round of ap­ plause as he held a concession news conference.

Goldwater said working re­ ports who have covered him have been "right" but he said columnists tried to hurt his chances in the White House. Goldwater said they called him a coward, uneducated, ungentlemanly, a bigot.

"I've never seen or heard in my life such vitriolic un­ based attacks on one man," Goldwater said.

Chinese Reds To Moscow This Week

MOSCOW — Premier Chou En-lai of Red China is coming to Moscow for a meeting of world Communist leaders which could have far-reaching effects on the Soviet-Chinese split.

The Soviet news agency Tass said Wednesday that delegations from every Com­ munist-governed country ex­ cept Albania will gather here for the 47th anniversary on Saturday of the Bolshevik Re­ volution. Private talks on the Peking-Moscow foid are likely.

Chou will lead the Chinese delegation to the first meeting with Soviet leaders who ousted Nikita Khrushchev, the per­ sonal target of much of Peking's venom in the dispute.

Poland's Władysław Gomuł­ka, Japan's Jonas Kadar, East Germany's Walter Ul­bricht and Mongolia's Um­ zhagiin Tsedenbal are among other top Communist leaders expected to line up atop Lenin's Tomb with Soviet party chief Leonid I. Brezhnev, East German leader Erich Honecker and Mongolian President Pol Pot for the traditional parade through Red Square.

South Korea and North Viet Nam, both supporters of Peking, will also be here. Moscow-leaving delegations will come from Czechoslovakia and Bulgaria in addition to Poland, Hungary, East Ger­ many and Mongolia.

Frank C. Nall II Joins SIU Department of Sociology

Frank C., Nall II of Detroit, Mich., has joined the sociology staff as assistant professor. Before coming to SIU Nall was a research associate at the University of Texas, 1957-1960, and an assistant professor of sociology at Michigan State University. Nall, 38, served in the Navy 1944-1946 and is a member of Alpha Kappa Delta and the American Sociological Association. Nall and his wife, Elizabeth, have two children, Libby and Martha. He received his B.A. in sociology and anthropology at Michigan State College in 1950, his M.A. in 1954 and his Ph.D. in 1958.

Directors to Attend University Meeting

A five-man contingent from SIU will attend the annual meeting of the Association of Land Grant Colleges and Universities, Nov. 8-11 in Washington, D.C. Signup Ends

President Delyne W. Morris will head the group. Others attending will be Julian H. Lauchner, dean of the School of Technology; W.E. Keepper, service has culture; John Lauchner, dean of the School of Technology; and W.E. Keepper, service has culture; John Lauchner, dean of the School of Technology.

Marketing Group To Visit Industries

The American Marketing Association will tour the Allen Industries in Herrin Friday.

Transistor Analog Computer Added for Graduate Research

A transistorized analog computer has been purchased to serve graduate research and instructional needs in the School of Technology. Herbert Crosby, associate professor and electronics specialist in the technology faculty, said the new compact unit will serve needs formerly requiring a large laboratory installation.

Among other things, engineering students and others at Southern will use the new computer to do guided-missile simulation studies. The unit is designed to solve problems in such areas as electronic optics, automatic control systems, fluid flow and nuclear physics.

Crosby said the computer is so flexibly designed that it can work directly with a physical object with the same data as a mathematical equation. For example, it could measure vibrations of an aircraft wing and feed information to the machine.

The computer, bought by the University at a cost of $10,000, eventually will have added components making it a $50,000 installation.

Travelogue of Russia

Dale McLaren, a 1963 SIU graduate with a major in geography, will present tonight a slide-illustrated travelogue of his tour of Russia and several European countries.

McLaren will address the regular meeting of the Plant Industries Club at 7:30 p.m. in the Seminar Room of the Agriculture Building and will center his talk on collective farming and other subjects pertaining to agriculture.

VII Clinic Offers Cleaning of Teeth

Free to Students

The dental hygiene clinic at the Vocational-Technical Institute is planning a free tooth-cleaning service for SIU students.

The clinic will also take X-rays, which will be sent to the students own dentists upon request. It will provide "patient instruction," information on care of the teeth and mouth, Dr. Karl K. Weber, dentist.

Students should telephone 68-20 for appointments for the free service. The clinic can be made for Monday and Tuesday and Friday from 9 a.m. to noon and from 1 to 4 p.m. The clinic is also open to the general public upon payment of a $3 registration charge.

Debaters to Meet Purdue University

Northern Illinois

SIU Debate Squad members will travel to Northern Illinois University at De Kalb, Purdue University, West Lafayette, Ind., this weekend.

Karen L. Kendell, freshman, Janet E. Trapp and Ronald J. Hrebenar, sophomores; and John W. Patterson, junior, will participate in the tournament at Purdue.

Debaters traveling to De Kalb are Kathleen M. O'Connor, Keith C. Phoenix, Gary F. Strell, and Sue A. Cattan, freshman.

Both groups will debate the topic "Resolved: That the Federal Government Should Spend the Program of Public Works for the Unemployed."

Marvin D. Klein, speech major with an interest in government and political science, and Lyle M. Hamilton, graduate student in speech, will accompany the students.
Health Service Director Has Plan For New Campus Medical Facility

By Lonnie Inlow

SIU students have a growing set of health problems, and Dr. Richard Lee, the director of the Health Service, has definite ideas on how to meet the challenge.

The Health Service now has three full-time doctors on its staff. Three doctors from the Carbondale area work part-time and their combined service equals that of about one full-time man.

In January, there will be two additional men added to the staff. This makes a total of six to combat illness on SIU's constantly changing scene.

It has been established, Dr. Lee said, that one doctor is needed for a maximum of 1,000 people. It seems that the situation at Carbondale is way out of proportion.

An average day will see approximately 200 patients call upon the Health Service, according to Dr. Lee. But the doctors often have duties that call them away from the center of the daily line of patients.

Besides being available to the entire student and faculty population at Carbondale campus, the Health Service must open its doors to the nonacademic workers for their acute and chronic illnesses. The Health Service must also investigate all sicknesses and accidents claimed made by the faculty. A doctor from the Health Service must accompany the athletic teams when they travel. Also, the Health Service is responsible for its own administrative problems.

Dr. Lee said these situations generate numerous problems. The assembly-line nature of the Health Service that seems to speed up only when the patient finally sees a doctor is one cited by Dr. Lee. Another is the lack of time for medical consultation.

The most pressing problem is the limited range of service the Health Service can provide.

Dr. Lee has concrete proposals about the solution of these problems. He has hopes that these proposals will be realized in future.

As with many things, the basic problem is money. At present, the student pays $3.15 per month for hospitalization to an insurance company. The Health Service is operated by the University with no money from student tuition.

In January this will change slightly, however. The fee will be raised $4.15 per month.

The Health Service will receive $1 per student for operational expenses. The dollar is to go for paying back bills. SIU needs a staff of 14 doctors and a building to house them, Dr. Lee said.

Last spring the students voted in favor of paying an additional $4 per quarter to provide money for building a new Health Service.

If this is carried through, Dr. Lee will then be responsible for staffing it.

The most economical plan, according to Dr. Lee, would be to form a closed cooperative. Only the people who pay are entitled to its benefits, and the staff will take care of all administrative problems.

Dr. Lee said he could staff this facility with 14 doctors, provide a 24-hour-in-man-in-patient clinic, operate a student pharmacy, underwrite a student insurance program, and keep the doors of the Health Service open 24 hours a day for seven days a week if the students would pay $8 per quarter.

Once an organization reaches this proportion, it can realize a number of worthwhile programs. Dr. Lee gave a number of examples:

The School of Home Economics could provide on the job training for its students in the area of special diet problems in a cafeteria sponsored by the Health Service.

The specialists who want to teach or do research could work in conjunction with the Health Service.

Students in nursing could staff the in-patient clinic.

In Dr. Lee's opinion, this could all be possible, along with other ideas, for the cost of $8 per quarter per student.

Dr. Lee looks at this proposal with the students in mind. They could save money in the long run. Many times University students must go to Doctors Hospital for one reason or another. Most of the time it is because the Health Service either does not have the facilities to care for them or it is closed.

A call at a Carbondale hospital will usually cost at least $6 to $7. The standard fee for a simple broken wrist is somewhere between $50 to $70. Related instances run a comparable range of fees.

The most economical plan, according to Dr. Lee, would be to form a closed cooperative. Only the people who pay are entitled to its benefits, and the staff will take care of all administrative problems.

Delta Zetas Again Capture Grade Honors

The Panhellenic Council's Scholarship trophy has been awarded to Delta Zeta sorority for the second consecutive term. The Delta Zeta overall grade point average for spring term was 3.7 with the actives accumulating a 3.9 over-all average.

To celebrate the achievement, a scholarship dinner was held at the chapter house. John E. Grinnell, former vice president for operations, was the speaker.

Other guests included Mrs. John Grinnell, J. Lee Chenoweth, supervisor of Small Group Housing; Mrs. H.B. Jacobini, Delta Zeta scholarship advisor; and Mrs. J.E. Burnside Jr., Delta Zeta alumnae advisor.

The Panhellenic scholarship traveling trophy is awarded each spring term to the sorority who has maintained the highest overall grade average for the term. Any sorority who retains the trophy three consecutive terms is awarded the trophy permanently.

SCHOLARSHIP TROPHY - Carol Barteas, Delta Zeta scholarship chairman, is shown with Mr. and Mrs. John E. Grinnell and the Panhellenic Council's scholarship trophy. The sorority won the second year in a row. Grinnell is former vice president for operations on the Carbondale campus.

Keen Ear, Long Memory

Institute Trains Blind To 'See' With Senses

By Fred Beyer

The lights behind the University Center had been knocked out by a spring storm and the twisting path was impossible to see in the inky darkness.

Bill continued at a breakneck pace, however, and walked silently at his side amazed.

I saw Bill Pointer bump into a few people trying to get through the Center, but he decided to help them through the throng.

Once we reached the outside where people were few, Bill got along very well, walking with a stride more confident than many persons who are not blind.

As Bill led me through the woods, just as I had led him through the University Center, I realized that now, in the darkness, I was blind. But Bill, who is always in darkness, could "see" through his other senses much better than I. In the darkness, I was handicapped one.

Bill Pointer, a senior majoring in sociology, is one of about 14 legally blind students on campus. He was born blind and his "senses," consists of a delicate ear, sense of touch and smell, as well as an amazing power to go through the darkness and see what is around him.

Bill has gone to not specifically for the blind. "Though there is no specific program for us, our problems are understood better," Bill has said.

Since the blind are deprived of all visual study aids, any of the class assignments must be read to them. According to Majorie Earl, coordinator for disabled students for the Rehabilitation Institute, blind students need to be read to a minimum of 15 hours a week.

Also, a good many groups provide books in braille and on tape for the benefit of the blind.

Miss Earl said the Student Work Office cooperates very well in providing readers for the blind and the Rehabilitation Institute is equipped to either purchase or have tape recorders loan to blind students.

Most blind students manage to get around campus pretty much on their own but Alvin Roberts and Robert Wright, both of whom are blind, are available to orient blind students with the campus.

The New Student Week Program takes into account the blind and the Rehabilitation Institute is equipped to either purchase or have tape recorders loan to blind students.

The Student Non - Violent Freedom Committee has changed the location of its Thursday meeting from the University Center to Furr Auditorium.

The organization meets at 7 p.m. every Thursday.

A Lightless Cyclist

Lacks Funds; Fined

A student who has been driving his bicycle around the dark may help bring the light to other bike riders.

The student, whose name was not revealed, was caught three times recently by the Saluki Patrol while riding his bicycle at night with no lights.

He was given two warnings, and the third time, a summons to appear in the Office of Student Affairs.

He said he did not have money to buy the front and rear lights required by state law, according to a spokesman. He was fined $5. The fine was suspended on condition that he buy lights with the money.
Football statistics shouldn't always be taken at face value, but a number of SIU grid statistics do give somewhat of an indication why Southern's football squad is floundering with a 2-3 record this season.

Coach Don Shroyer's Salukis, still somewhat dazed from their frustrating 14-13 loss to North Texas State last week, hope to right themselves when they meet the snappy and snarling Tigers of Lincoln University next Saturday night.

After seven weeks of play, the Salukis find themselves in the throes of a two-game losing skid, and on the short end of three vital statistics—net yards gained by rushing, scoring and first downs.

Not known for their ability to gain ground consistently this season, the Salukis have been outrushed by their opponents 1,249 yards to 583. Southern has rushed 246 times, compared with 284 attempts by opposition.

In the scoring department, Southern isn't even close to the opposition. SIU's seven foes have scored an impressive 186 points, while the Salukis have managed to tally only 94—a 19.5 percent average of 13 points per game.

In addition the opposition has picked up 122 first downs (63 by rushing, 47 by passing and 12 by penalization) compared with Southern's 91—40 by rushing, 46 by passing and five by the penalty route. Penalties have been a major factor in the Salukis' all season. In fact, it was a 15-yard holding infraction which nullified the winning touchdown in the Homcoming tilt. For the season the Salukis have chalked up 59 penalties for a whopping 633 yards, while the opponents have been caught 56 times for 337 yards. Individually the picture looks much brighter for Southern. Quarterback Jim Hart has been in rare form for the past three games, and continues to assure SIU passing records.

Against North Texas State, the Morton Grove signal caller completed 11 of 20 passes for 193 yards, Hart has thrown for 1,135 yards this season, surpassing his all-time SIU record of 1,040 yards set last year.

Also, Hart will need only 11 passes against Lincoln to match the squad with 340 yards and three touchdowns.

Tom Massey continues as the Salukis' leading ground gainer on passes receptions. The sophomore, in 1963, has caught 21 passes for 285 yards, and is Southern's leading scorer with 149 points.

In the rushing department, Maurice halfback Nick Webster paces the squad with 343 yards in 41 carries, an average of 3.5 yards per carry.

Southern's young defensive backfield, which showed signs in the North Texas game that it was starting to jell, has suffered 14 enemy passes, six shy of an SIU record.

Psychologist Plans Motivation Talk

David Ehrenfreund, chairman of the Department of Psychology, will speak on "Motivation: Hunger Drive," at 4 p.m. Friday, in the Agricultural Seminar Room.

Ehrenfreund, formerly chairman of the Psychology Department at Adelphi College, will give the talk in connection with the Psychology Colloquium program in which he will also give reports on their current research.

Student Suspended After Auto Check

A 19-year-old sophomore from Cairo was placed on suspension through the fall quarter Monday for giving the University false information in connection with having an unregistered car in his possession.

The Office of Student Affairs said the student was re­corded during a recent survey of unregistered cars conducting a vehicle registration security office. He at first denied having the vehicle and had his mother send University authorities a telegram backing up his story. Later, however, he admitted that the car in question was his.

A spokesman for the Office of Student Affairs said the student would only have been fined had he not denied the accusation.

Twenty-three other students have been assessed $50 fines as a result of the Security Office survey. About 100 other cases of suspected illegal cars are being investigated.

The Office of Student Affairs said any student ineligible for University automobile privileges found possessing an automobile is subject to the $50 fine and/or disciplinary action, including suspension.

Basketball Season Tickets Available for Faculty, Staff

Season tickets for SIU's 1964-65 home basketball games are now available to staff and faculty members and members of their immediate families at $16.

All season tickets are for the chair-back section. The tickets, if purchased on a game-to-game basis, would cost $2 per game or $26 for the season.

Previous season ticket holders will receive priority. Tickets applications received now will be processed in order of receipt after last year's requests are handled.

Southern's home schedule is as follows:

- Dec. 1, Oklahoma State; Dec. 2, North Dakota; Dec. 6, Tennessee Tech; Dec. 12, State College of Iowa; Jan. 6, Washington University; Jan. 9, Indiana State; Jan. 15, Kentucky Wesleyan; Feb. 6, Ball State; Feb. 10, San Francisco State; Feb. 13, Toledo; Feb. 15, Tennessee State; Feb. 20, Ohio University; Feb. 27, Evansville.

Applications should be sent to Neoma Kinney, Athletic Dept., SIU Arena, Carbondale.

Gray's "Nay" Ends Primrose Detour

The Office of Student Affairs has placed on disciplinary probation a student who took a woman into his room at the Gray Hotel during the weekend against the orders of the hotel owner.

The young man, called police, who referred the matter to the Office of Student Affairs.

**DAILY EGYPTIAN**

**Awards 'Back of Week' Title To Rhome 'From Buffalo's Home'**

By the Associated Press

NEW YORK—Oh, give me a home from the Buffalo's home...

Almost any football coach could consider finding those plaintive words appropriate for listing and total offense statistics for Tulsa's Jerry Rhome, who played in the Big Eight Conference against the plains of Oklahoma.

Rhome was named Associated Press Back of the Week for the second time this season.

The records listed for Rhome or threatened by him, as he set the weekly individual statistics released today by the NCAA Service Bureau are hard to comprehend. Perhaps it is sufficient to say that he's No. 1 in passing and total offense by huge margins.

In six games this season Rhome, a Texas who transferred from Southern Methodist to Tulsa after his sophomore and junior years, has compiled a 14.3 to 204 pass average for 1,798 yards, a completion percentage of 70.1 against the best ever for a passer who has thrown for 1,707 yards in a season.

Rhome, a running threat, has had the ball on 287 plays for 227 yards, a plus of 158 yards on 83 plays. By contrast, the No. 2 passer, California's Craig Morton, has gained 1,465 yards in the air but only 1,332 over-all.

Against Oklahoma State last Saturday he completed 35 of 43 passes—an unprecedented percentage—gained 498 yards in the air and 504 total, passed for four touchdowes and accounted for 38 of Tulsa's points.

Among the one-game records he broke were 34 completions, Dick Norman, Stanford, 1959; air yards, 407, Larry Rakerstso, Georgia, 1963; total yards, 490, Redd Bagnell, Penn., 1950.

Other leaders listed in the offense statistics are Brian Piccolo of Wake Forest, leader in rushing for the second week with a total of 722 yards, and Frank Lambert of Mississippi with a punting average of 45.4 yards.

Ex-Giant Al Dark May Join Cubs; Shakeup Denied

CHICAGO — Al Dark, fired as manager of the San Francisco Giants, may join the Chicago Cubs next year as a coach, F. K. Wrigley, Cubs owner, has indicated.

Wrigley, denying an extensive shakeup in the Cubs' operations may be into making, said: "Talk has been in touch with us. However, if he should return to the Cubs it would be as coach. We would like to have him but he's still looking for a manager's job elsewhere."

**UNSPECTACULAR MOORE OF COLTS SETS NFL PAY DIRT RECORD**

NEW YORK (AP) — Baltimore's Lenny Moore isn't the strongest or the swiftest runner in the American Football League. He averages an unspectacular four yards each time he carries the ball. He's not among the leading pass receivers, either.

But show him the end zone just ahead and he's a hard man to stop.

"His legs are always punning," said Bob Boyd, AP. "The deception he shows you is why so many tacklers miss him."

That's why Moore, leading the AFC in scoring this season, already has set one league record and is within reach of two others.

So far he has scored 113 touchdowns in his career, more than Jim Brown of Brown of Cleveland, Associated Press Back of the Week last Sunday.

And just a few touchdowns will bring Moore up to his own franchise record of 15 in one season and the NFL record of 19, set by Jim Taylor of Green Bay in 1962.

The NFL's other record breaker, Jimmy Brown of Cleveland, is the other stand-out in the weekly individual statistics released by the league today. Brown became the first NFL player to gain more than 10,000 yards by rushing when he made 19 last Saturday against Buffalo. He has run 813 yards and 407 yards in the air, a plus of 1,016 yards, a five-yard average, and 10,135 in his career.

Johnny Unitas of Baltimore continues as the No. 1 passer, with 34 completions on 169 attempts for a 51.3 per cent and a 9.16-yard average gain. Johnny Morris and Mike Ditka of Chicago are one-two in pass receiving with 58 catches for Morris and 53 for Ditka.

AFL Expands

Rosters for '66

NEW YORK (AP) — There won't be any expansion in the American Football League until the 1966 season at least, Commissioner Joe Foss said.

Club owners in the league met here last week but details on expansion were not worked out until this week.

Foss' statement follows by two days one in which the AFL increased the player limit from 34 to 36 with two additional players on the injured deferred list. The increase becomes effective next season. The NFL has a 40-player limit.

"When the American Football League was founded, its goal was parity with the long established National Football League," said Foss in explaining the nonexpansion decision.

"Because we have only eight clubs as opposed to 14 in the NFL, parity has been more quickly obtained and now with the increase in player limit, we should be the stronger league in 1966. Then we will again consider the question of expansion."

Foss said he had received inquiries from 28 groups in 10 cities regarding a franchise in the AFL, now in its fifth year.
