COUNCILS’ NEW ROLE UNCERTAIN

What will be the role of the Student Councils at the Carbondale and Edwardsville campuses now that a higher body, the University Student Council, has been organized? The Carbondale council will hold its first meeting Thursday night to try to find the answer. The effort met with little success.

Even William H. Murphy, chairman of the “upper council,” which is composed of eight representatives, four from the Carbondale campus and four from Edwardsville, could not answer the question.

Purposes of the University Student Council, according to Murphy, is to represent the SIU students in matters pertaining to student welfare, activities, participation in University affairs, participation in University planning and administration and student opinion.

This outline of purposes was the result of a two-day meeting between Murphy, President Delyte W. Morris and several administrative heads.

Council senators had many questions on the actual powers of the present council.

How much student representation should there be under the new system of government? How about the technical makeup of the University Student Council?

These questions were left unanswered.

Murphy hopes that by next spring the new system will have a constitution, or working outline. (Continued on Page 6)

Murphy to Attend President’s Meeting

William H. Murphy, Student Council chairman, is in Washington, D.C., today attending the President’s conference of college leaders from universities across the nation.

According to a letter received by President Delyte W. Morris, Murphy, President Lyndon B. Johnson is to talk to the “young leaders” who are emerging from our colleges and to get to know them and their thinking.

The occasion begins this evening at a reception, at 5:30, by President and Mrs. Johnson; some remarks by the President; talks by Secretary of Defense Robert S. McNamara, Secretary of Labor William J. Green and Amb. Adlai E. Stevenson, do daughter, Lynda, will be hostess at a buffet dinner.

1,000 Men Is Goal

All in Retraining Class Get Jobs Before Course Ends

All nine men in a class of welders, the first in a program to retrain 1,000 unemployed in Southern Illinois, have found jobs even before the end of their 12-week training course at VTI.

E.J. Simon, dean of SIU’s Division of Technical and Adult Education, said eight of the men were to go to work Monday in Granite City; seven will be employed by the A.O. Smith Co., and one at the U.S. Steel plant. Another man left in the seventh week of training to take a job as a welder with Allen Industries, Herrin.

Walter Matthews, job development specialist with the Office of Research and Development in West Frankfort, initiated the contact with A.O. Smith Co., through the agency office of the Illinois State Employment Service, and arranged for members of the welding class to go to Granite City Wednesday and Thursday for testing and physicals.

All eight men passed the practical application tests and made perfect scores on written examinations. They had completed ten weeks of training in a 12-weeks course, the first in a state-aided under area Manpower Development and Training Act program.

Red China: History's 'Most Successful Failure'
Regime Appraised on 15th Anniversary

By Edward Nellan
Copley News Service

HONG KONG—The Communist Chinese regime's 15th anniversary Thursday as one of history's most successful failures, as led by aged Mao Tse-tung (71), the regime can look back on 15 years of successfully regimenting the world's largest population and of imposing, at least to outward appearances, a Communist society over Chinese traditions that have existed for centuries.

But the regime must also face up to some shattering failures:
1. Failure to modernize and industrialize.
2. Failure to improve agricultural standards.
3. Failure to improve living standards in general.

Red China's massive population—more than 700 million and increasing at 2 percent yearly—has been fed on a diet that is long on Communist slogans and short on calories.

Several things are on the minds of the Communist Chinese leaders as they light their 15th candle.

Among these are the sharp ideological disagreements with the Soviet Union, the slowly escalating conflict in Southeast Asia, tense border situations with Russia and India, possibilities of improving trade and enlarging relations with "intermediate zone" Western nations and development of an atomic bomb.

The most important program for Mao himself, however, has been the one to insure "carrying the revolution through to the end" by socialist education and careful cultivation of "revolutionary heirs.'

This sudden persecution with the next generation of leaders has been occupying most of Chairman Mao's time of late. It is able, as though the old veteran of the Long March feels his days are numbered. During the past year, Mao has conveyed the impression of concentrating almost exclusively on the ideological offensive against the Soviet Union and, more recently, the grooming of sound leadership to "carry on.''

Other affairs of party and state have been left increasingly in the hands of a younger group centered around Liu Shao-chi, Teng Hsiao-ping and Peng Chen.

Formation, conduct and policies of foreign affairs are handled mostly by Premier Chou-En-lai and Foreign Minister Chen Yi.

Mao's concern over the cultivation of revolutionary successors culminated in a major editorial in the People's Daily of Aug. 3. It called upon the "military and political cadres, at all levels," to select and train qualified younger talent for positions of greater responsibility and to provide the ideological guidance of the older generation.

Thus Mao is falling back on military, political methods, perhaps a subtle admission that his other attempts at administration have failed.

De Gaulle Wins 'Vivas!' but Fails to Shake Pan-Am Unity

By Jack Harrison

Charles de Gaulle's trip through South America isn't dimming Latin American friendship for the United States.

Warm Latin welcomeBACKS
the 74-year-old French president, but officials he meets are making it plain that friendship with France is not to cooperation with the U.S.

Eric, Atlantic Journal
France can offer technical and cultural cooperation, but her lack of financial resources makes large-scale economic aid impossible.

De Gaulle has visited Colombia, Venezuela, Ecuador, Peru, Bolivia and Chile. His 11-nation journey is taking him also to Argentina, Paraguay, Uruguay and Brazil.

Everywhere he has been, he says, Latin Americans are expanding ties with Europe, and in particular with France, and that the United States must move closer to Latin America.

PHOTO NEWS

De Gaulle's talk of a "Latin bloc" in the United Nations has aroused no enthusiasm among his hosts, who, in terms of America and Latin "togetherness." The South Americans have conveyed this message to de Gaulle in several ways.

Colombian President Guilleremo Leon Valencia spoke right up in public, praising the United States at a recent address, "you have never been a true Marxist-internationalist! You're always been an isolationist!

De Gaulle has basked in the pleasant atmosphere of "Viva la France!

But he has had little effect on the U.S.-South American solidarity.
Hilda Nears Coast; 50,000 Flee Inland

NEW ORLEANS, La.--Hurricane Hilda hurled her screaming 150-mile winds toward the deserted mainlands of the Louisiana Gulf coast Friday night. More than 50,000 residents moved inland in safety.

National Guardsmen rushed to aid in the mass evacuation as the season's most powerful hurricane began a slow and ominous turn toward New Orleans and the central Louisiana coast.

Although Hilda's center was still more than 150 miles offshore at Gulfport, Miss., heavy rains and squalls were buffeting the coastal regions late Friday.

"There have been 50,000 evacuated already," said Frank G. Speas, acting state Civil Defense director. "There will be more if this thing keeps coming in this way."

The Weather Bureau said Hilda was south-southwest of New Orleans. The eye was moving northward about 7 m.p.h.

The Weather Bureau forecasters said Hilda was still too far offshore to predict where she would strike the coast.

Remembering killer hurricanes of the past, thousands fled their homes, leaving virtual ghost towns behind them.

The thriving seaport of Morgan City--a shore-based headquarters for much of the billion-dollar oil drilling operations in the Gulf--was almost deserted, Many commercial fishing boats call Morgan City, which has a population of 14,000, their home port.

A 23-mile long stretch in the western section of St. Mary Parish was ordered evacuated and school buses were put into service to shuttle evacuees to Opelousas, nearly 80 miles to the north. The Red Cross flew in 10,000 cots to Opelousas for the hurricane refugees.

Civil Defense authorities said U.S. 90, west of Morgan City was covered by rising tides.

Rain-deluged highways leading out of the St. Mary Parish area were clogged with automobiles.

Store owners boarded up the fronts of their establishments. Some used masking tape to crisscross their windows, making them resemble giant spider webs.

Hurricane warning flags were hoisted all along the Louisiana coast west of the mouth of the Mississippi River. A hurricane watch extended eastward to Mobile, Ala., and westward to Galveston, Tex.

Cal Students Stage Near-Riot, Protest Political Activity Ban

BERKELEY, Calif.--A mob of 3,500 students continued to defy University of California officials Friday in a wild demonstration that included the wrecking of a police car.

The demonstration, which started Thursday morning, was in protest of a university edict banning on-campus solicitation of funds for off-campus political projects.

Expulsion of eight students Tuesday for disregarding the university rule touched off the demonstration, which several times threatened to turn into a full-scale riot.

The crowd began forming shortly after police took into custody a non-student, Jack Weinberg, 24, and prepared to take him to police headquarters on charges of trees passing.

Police said Weinberg refused to stop soliciting funds despite several warnings.

During the demonstration, university officials said, some 2,000 other students remained in classes or away from the demonstration.

Judge Orders Longshoremen To Halt Strike for 10 Days

NEW YORK -- The International Longshoremen's Association, AFL-CIO, ordered its 60,000 striking dockworkers to return to work at Atlantic and Gulf Coast ports Friday.

The move complied with a federal court restraining order Thursday night halting the strike for 10 days in the national interest.

Before the meeting of union officials to set in motion the machinery for obeying U.S. District Judge Frederick Van-Pelt Bryan's order, ILA President Thomas W. Gleason said: "We all went out together and we'll all sit down together."

The judge acted on a declaration of national emergency by President Johnson.

The order was signed after the customary 3 p.m. hour of "shaping it" the dock gang for the following day's work.

Some pickets showed up at New York docks Friday morning, saying they had not received orders from their union shop stewards to pull down picket lines.

NFO Calls a Halt To 'Holding Action'

DES MOINES, Iowa--The National Farmers Organization which had been arriving for 43 days to halt the marketing of livestock in a drive for higher prices, ended its holding action Friday.

But Gren Lee Staley ofREA, Mo., the NFO president, said that it was only a recess.

Sen. Goldwater's Stand on Draft Draws Cheers From Students in Whistle-Stop Crowd of 6,000

(Continued from Page 1)

Committee, and a few scattered LBJ posters, Goldwater received an exuberant and orderly welcome from the partisan crowd. Two students were seen carrying a sign that read, "We don't like anyone very much." Another sign read: "Goldwater in '64."

Making the most of the opposition among the spectators, Goldwater said that he was happy to see members of both parties present, because, he said, the way to solve the country's problems is for the two parties to discuss them.

After a 15-minute talk, which included slams at his political opponent, the GOP hoped introduced his wife, Peggy, who was presented a bouquet of yellow carnations which she then tossed among the spectators.

Many of the overflow crowd roosted on a nearby roof, while some even climbed telephone poles to catch a glimpse of the controversial candidate.

Goldwater's brief stop in Carbondale has completed at least 75 hours by the end of summer quarter is in the works to discuss them.

After a 15-minute talk, which included slams at his political opponent, the GOP hopeful introduced his wife, Peggy, who was presented a bouquet of yellow carnations which she then tossed among the spectators.

Many of the overflow crowd roosted on a nearby roof, while some even climbed telephone poles to catch a glimpse of the controversial candidate.

Goldwater's brief stop in Carbondale was part of a day which began with a stop in Cairo and was climaxend with an appearance Friday night in Peoria.

Deadline Tuesday For Tuition, Fees

Tuesday is the deadline for deferred payment of tuition and fees, according to a reminder issued by the Registrar's Office.

Herbert W. Wohlwend, assistant registrar, announced that the practice of mailing individual reminders to students who deferred part of their fees has been discontinued.

Students who fail to clear their fee accounts by Tuesday will have their registrations cancelled and will be withdrawn from school, Wohlwend said.

De Sica Portrays Martyred Swindler

Continental Cinema presents "General Della Rovere," Monday at 8:30, as part of the University Film Society program. The film, directed by De Sica, portrays a swindler forced by Nazis to become a martyr for his country. Other Monday highlights are:

5 p.m., What's New—The exploits of a young Canadian who outdoes the feats of Paul Bunyan.

6:30 p.m., What's New—The story of the struggle of the Eskimos to make a living in the cold Eastern Arctic.

7 p.m., "Your Sports Mart"—"Near the Campus"
Buried in the sixth paragraph of a Tulsa news release Friday was the following: "Robert Good, the Southern Illinois' great quarterback, Jerry Rhome, played in the Salukis' two-header at Skelly Stadium tonight at 9 p.m. Carbondale time. But Rhome, according to the release, may not be at full strength. Illinois newsmen are trying to make the Salukis relax or Tulsa officials may be trying to play their star product's apparent apparent skill.

Following the Arkansas game last week, the report said, Rhome was limping and could not throw well due to a bruised shoulder. How severe the injury to Rhome may be, the Hurricanes are apparently worried, Rhome is expected to be able to go by game time, but if he is not 100 per cent recovered, coach Glenn Dobbs will start sophomore Glenn II, his son, rather than risk further injury to Rhome.

Rhome, who is probably three quarters of Tulsa's offensive attack, seems to be the only threat to the Hurricanes last year. Rhome rushed for 41 yards in 12 carries in that encounter. However, Rhine will get the most out of the Tulsa threat.

Up front for the Salukis will be Massesy at split end, Bill Lepley (235) and Joe Brooks (245) at the tackles; Dick Tenney, Ernie Bieric (209) at the guards; John Oomand (206) at center; and Mark Muddot at right end.

Along with either Rhome or Dobbs (who goes 6-6 but weighs only 190) at quarterback, Bob Duaphery at tailback, Bill Good at fullback and Jeff Jordan at the wingback, the game will be broadcast on WSSI and WZFP at 8:30 p.m.
Illinois Allows Nonresidents
To Vote for President, Veep

On Nov. 3, 1964, the political choices of the voting public will be specified by writing the letter X in a small square on a ballot. For many this will be the first election they have ever participated in, and some may be confused about residential qualifications and voter registration.

The basic rules and laws of voting are determined by the individual states, consequently the procedures are varied in the 50 states.

In Illinois, in order to establish residency, a person must have lived in the state for one year, in the county for 90 days and in the precinct for 30 days.

These requirements disqualify most SIU students, and all returning students for the fall quarter.

There is another exception however, and that is the new Illinois state law that allows special requirements for voting for the president and vice president of the United States.

Out of state voters who have lived in their Illinois precinct for at least 60 days as of the election day Nov. 3, but do not meet other residential requirements, and that includes many SIU students, will qualify for the special ballot if they were listed as registered voters in their home state.

Persons in this category should file an application with the office of Jackson County Clerk, delmar Ward. The deadline is today.

The county clerk's office will then check the applicants registration in their home state to determine his eligibility to vote on the special ballot.

Students who meet the requirements to establish residence in Carbondale must register on or before Monday in order to retain voting eligibility for the Nov. 3 election.

Monday is also the last date for persons to make address changes.

The county clerk's office is now operating a booth in the Carbondale City Hall to handle voter registration and address changes.

In-state students, who are eligible to vote and are registered to vote in their home counties, are cautioned to cast their ballot by Monday, Oct. 29 for their absentee ballot, which will be their only method of voting registration.

Freshman Grid Team to Open Monday Against SE Missouri

Perhaps the best freshman football season in SIU history will open its season here Monday night, meeting Southeast Missouri State in Engineering Field at 8 p.m., in McAndrew Stadium.

Facing Southeast Missouri's junior varsity squad will be a crop of talented Salukis, led by six all-state performers. All-staters expected to gain action against the experienced Indians (the junior varsity members play in varsity games) are tackles Jim Krulak (255) of Spring Valley; Al Jenkins (236) of New Orleans; and Ralph Galloway (227) of East Aurora, guards Joe Fwan (493) of Canton and Ron McCarron (494) of Rock
