Egyptian Staff
TERM OF RURAL SCHOOLS ENDS WITH PICNIC

THIRTY-FIVE GRADUATES FROM THE FIVE PRACTICE SCHOOLS

The five rural practice schools, under the supervision of Mr. W. O. Brown of the college faculty, closed Saturday, April 23, with a picnic dinner and an entertainment at each school.

The practice teachers and the pupils took part in the programs which consisted of dialogues, recitations, songs, and games. The patrons of the respective communities brought old-fashioned basket dinners which were served al fresco. The guests remained in the afternoon to hear the program.

The annual eighth-grade commencement was held in the Pleasant Hill School Monday night, April 25. Mr. A. L. Whittemberg, secretary of the special state Examining Board to confer the teachers' certificates, gave the address. County Superintendent Etherton presented the diplomas to the pupils. The rural schools are to be used next year for practice work. The schools which were used this year were Buckles, Pleasant Hill, Freedom Grove, Wagner and Rock Springs. Besides these five, three others have been sold or are to be used as practice schools. They are the Bridge, Freer, in Williamson County, and Burrombe, which is seven miles south on the big road.

The eighth grade graduates of the five rural practice schools of this year are as follows:

Buckles School
Neoma Louise Robinson.
Ray Elizabeth.
Garland Barrett.
Marine Weller.
Claude Wayne Brown.
Ivella Anna Weatherford.
Golda Mae Freeman.
William Raymond Paul.
Rabbi Barner Leslie.
Pleasant Hill School
Ruth Halliday.

C. OF C. ST. LOUIS TOUR WILL BE DEFINITELY SETTLED THURSDAY

The S. I. T. C. Chamber of Commerce will hold its regular meeting Thursday night, April 28. At this meeting the plans for the C. of C. St. Louis Tour will be discussed and definitely settled.

At the present time the group taking the tour is being discussed. It is planned to visit the Federal Reserve Bank, Ford Assembly Plant, Jefferson Memorial, Shaw's Garden, Forest Park, Armes Plant, Arena, the Fox Theatre, and various other important and interesting places.

While no definite date has been set for the trip, it is assumed that this excursion will take place sometime within the next two weeks.

Delta Sigma Theta
Enrollment is for Officers for Year

Following the regular meeting Monday night, the officers for the coming year were formally installed in their offices. Helb Crisp, the retiring president installed the new officers who will serve the remainder of this term and during the next college year.

Maureen Webb, of West Frankfort, is the new president. Rita Braun of Belleville, is the vice president. Min Braun will also act as captain.

Kathryn Cavelia of Pinckneyville will serve as secretary. Miss Cavelia has been sergeant of the chapter for the past year.

The women's Athletic Association successfully carried out its third annual "Play Day." The program consisted of the best held in previous meetings and included some of the best known events.

Recently a contest was held between the boys and girls of the junior high school to determine if the team had agreed to entertain the boys at a picnic and welcome road. Mr. Norman Lovelette's practice class in hygiene made a series of health posters which are considered so good by Miss Florence Derzeny, the Health Education department, that the team has placed them on display in the Main Building. The health posters were made by Miss Frances Marvin and Ethel Eaton. This class also competed in an essay contest, which was won by Betty Joe.

Plans are being made now for the annual basketball trip to be given to the last year's senior high band from the church. The guests of honor will be the members of this year's Junior High basketball team.

S.I.T.C. MID-SPRING TERM OFFICIALLY OPENED MONDAY

At least one course is offered in each department

Monday, April 25, the Mid-Spring term was officially opened at this college. Though the enrollment at this time usually approaches the three hundred mark, because the beginning has been set earlier this year, a noticeable increase is expected. Nevertheless, a variety of classes is offered, and at least one course is open to mid-spring students in practically every department.

Courses in sciences which were opened Monday are: Botany 101, Biology 101, Chemistry 101, Astronom 201, Boomer; Astronomy 301, Differential Equations. The senior college Astronomy course, including recitations and evening observation, is particularly valuable in presenting programs of mathematical geography and vitally nature study work.

Miss Denzy is teaching a class in English, with emphasis on composition, in which the development of an individual style is emphasized. Dr. Tensaw, an addition to the college faculty since last spring, will teach the class. His previous work at K.U.B. is being taught by Miss Barbour.

Two senior college History courses are offered this term. The first course is a special writing course for program for six weeks. Mr. George Brackwell and Miss Gladys Smith, critics in rural teaching schools, will offer new classes in History 106, 107, 110, and 111.

Dr. Bruce Marquardt, supervisor of student teaching is offering a class in Educational Sociology. Mr. W. O. Brown is teaching the other classes. The classes in English, History and Psychology are being taught by Dr. Tensaw.

VAN LENTE PUBLISHES TWO ARTICLES IN JOURNAL

The April issue of the Journal of the American Chemical Society contains two articles by Dr. Kenneth Van Lente of the Chemistry department.

One of these articles is entitled, "Reproducible Static Liquid Junctions Constant in Potential Over Long Period of Time," and is a "more accurate" comparison of static and flowing junctions.

The second article is by the American Journal of the American Chemical Society and is one of the highest publications of its type; its circulation is of International

(Continued on Page Six)
MARATH’ IS WELL RECEIVED BY AUDIENCE

UNUSUAL SUCCESS IS SCORED BY PRINCIPALS AND CHORUSES

BY RUTH MERZ

A performance approaching the finest ever presented at S. L. T. C. was that of Martha which took place at the Shypek Auditorium on the morning of April 21.

From the initial hoot to the final curtain of the Richmond Falls opera was a well sung and drawn scene. In 12th, to conclude the best, the audience was so unquesstioned that it can be attributed only to the musical and dramatic talents of the cast that were shown to advantage by the combined efforts of the various organs of the campus.

Though the whole presentation was received, it is possible that in certain parts of the auditorium the efforts of the students were not heard by all. Revolutionary" was given a warm welcome, but in the other parts of the audience the performance seemed to be enjoyed by everyone.

In spite of the fact that the role of Martha was well received, the role of "Lady Barrister" frequently appeared too heavy for the college students. Though Mr. Fitzer's musical interpretation of Lionel's song left nothing to be desired, the music of the opera seemed to be the main attraction.

Dr. Kelly, playing Nanny, found popularity in her part. Mr. Bailey, playing Mr. Trist, was a lively character. Harold Bailey as Sir Tristan gave a faultless rendition of the role. His voice was clear and well sung. The audience seemed to enjoy every scene of the opera. As Green, in the brief appearance displayed remarkable vocal ability and proved worthy of his part. Mr.Margrave, the penal Plunket, was excellent both in vocal renditions and in his conduct toward Nanny.

The final scene of the opera, "The Last Rose of Summer," was not as well received as the rest of the opera. It appeared to be too long and dragged on.

Mrs. Daniel McIntosh, singing the first, did her best work on it. Mr. Fitzer, tenor, in the lovely "Together," won the applause granted for his performance.

The performance was well received by the audience and praised as being one of the finest ever given at S. L. T. C. The opera was well conducted, the orchestra was well played, and the performance was an excellent one.

Delta Sig

Emotionally Delta Sigma Epilson's spring formal dance, given Saturday night at the chapter house, was one of the most attractive and most successful affairs on the Delta Sig's schedule. Approximately thirty-five couples attended the dance.

The rooms used for dancing were cleverly decorated to represent an ancient garden scene. Clouds of dark blue paper, with gold and silver stars, covered the ceiling. A huge yellow crescent moon was extended above the orchestra.

In keeping with the atmosphere of the dance, the orchestra featured "Stars and Stripes Forever" and other appropriate numbers. The music was furnished by Paul Meyer, chapter drum major.

Mrs. Halsted Smith, the former Jean Anderson, visited at the Delta Sig house Friday. Mrs. Smith attended S. L. T. C. last year.

Several alumni returned for the Delta Sigma formal, among them being Mark and Florence (Thomas) Coors, Mrs. Gladys Brown, of Springfield; Helen Shurley and Janet Evans of Chicago.

Mrs. Flora McEachern of Vincennes and Norma Brown of Belleville have enrolled at S. L. T. C. for the coming term.

Gertrude Clark was called to her home in East St. Louis last Thursday because of the death of her grandmother.

Virginia Scott and Margaret Greer of Delta Sigma Epsilon were formally initiated last Sunday into Gamma Nu chapter of Delta Theta Tau.

Tri Sigma News

Alpha Xi of Sigma Sigma Sigma formally initiated four members Monday night. The inductees are Florence Crossman of Du Quoin, Mildred Conaway of Carlinville, Lucile Ehrman of Centralia, and Margaret Kelly of Sesser.

With the initiation of these four girls, Alpha Xi's active membership role totals twenty-four.

Practically all the Tri Sigma girls spent the evening with friends, in a style show sponsored by Johnson's and presented at the Chapter house last Tuesday evening from 6:30 until 9:00 o'clock.

Karen Hallsburg sent in movies from Carbondaleig.

Mildred Conaway visited at her home in Virdon last week end.

Margaret Kelly spent the week end in Carbondale.

Margaret Hallsburg sent in movies from Carbondaleig.

Kathleen Coffee spent the week end at her home in Harrisburg.

Betty Farr, retiring president, was chosen to sharpener a theme at a bridge tea last Saturday afternoon.

The Tri Sigma will hold its fall initiation Tuesday, Oct. 11.
Faculty Research

On hearing that the faculty of one college is to do research work concentrating the daily programs and time tables of students, we helpfully suggest that they are liable to find such plans, if any, decidedly varied. The faculty plan most in favor seems to run thusly:

8:29—Lecture.
9:29—Chapel and coffee.
10:00—Baseball practice.
11:00—Clas (dram it).
12:00—Sandwich and baseball practice.

The above is only a partial account, but the order repeats itself with the utmost consistency through the day.

There is, of course, this sort of schedule. That is, we've heard of this sort:

Monday: if he be well.
7:29—Class—special report.
8:29—Library-readings for next week.
9:30—Chapel—let me have a music: this w.eek's readings.
9:45—Te my third hour class to review the lesson.
11:00—F. E.—and library on my off days to read in Univer.
12:00—Lunch and study, etc.

And then, the most popular program:

9:00—Let.
10:00—the.
11:00—future.
12:00—take.
1:00—care.
2:00—self.
3:00—itself.

Also, we know of an efficiency expert who works with apparent success on this plan. For variety we present her afternoon schedule:

1:00—Class and ask Dr. be close if he won't address the Women's League.
2:00—Meet with the committee for entertainment at next society meet.

2:20—Run to see Beh and tell him I can't go to the matinee.
2:40—Ask Min — if i may report on "Soul of an Antilridge" for this week's readings.
3:00—Play ping-pong at gym.

These are scarce for the representative.

Though haphazard statistics, however one may account for each of the students twenty-four hours in a common sort of way:

5 hours—joking—Cafe and Entertainer's.
6 hours—sleeping—baring lecture nape.
4 hours—Class.
3 hours—Eating, including meals.
2 hours—Show or ordinary date.
2 hours—Dressing, including facial retouches.
1 hour—Studying, if i can't find anyone with whom to jolly.

If these professors are looking for the ideal schedule, we fear their discomfiting—unless, of course, the first quarter measures up to their standards of proper living.

WHAT IS THIS MAGIC SPELL?
Each year an innumerable number of poets and authors become supposedly inspired by the warmth of spring days and the golden beauty of spring nights. This borne seemingly have but one process for giving vent to their pent-up inspirations, and this process invariably culminates in their formulating poetry—odes, limericks and the like.

"Sensuks" A companion turned and advised him to purchase a Notebook instead. Well, to be brief, the student's joy was all because he had found written in the margin of a book, in the following extractor: "Away with overcoats and gloves, spring hath come and I'm in love." This in itself was an astounding find. It was the first time that the words "spring" and "love" were known to be associated together. In view of the fact that Fowler, too, realized the association of the two words, the modern trend is to believe that spring and love are fast becoming inseparable.

Students who are making an extensive research to ascertain just what it is that causes spring to affect everyone so oddly are inclined to believe that love is the most potent influence. However, another school of thought holds that not love, but birds, flowers, and moonlight combined, create the atmosphere that is always associated with spring.

Personally, I'm inclined to believe that the scent of violets has a great deal of influence in causing spring to be what it is.

Still, the question of what creates the magic spell of spring goes unanswered. Surely with such rare compelling of love with spring, it cannot be attributed to love. Then what is it? I feel that I am prepared to answer the question. Naturally, you and the world are astounded at this statement, but shall be even more so when the answer of the query is revealed.

I have taken legislation to have my solution registered in the Siberian Patent Office. Anyone who has it without my authority shall suffer the penalty as prescribed by the Supreme Court of Siberia.

To the world in general, and to students of S. T. C. specifically, I now announce my solution. Let us all be happy because it makes a tremendous effort not to be overcome. Fellow students, my solution to the query to what causes the spring and makes one wax poetical, is simply the following: This is due to the fact that spring is spring.

The new Egyptian staff is perhaps the most experienced group ever to serve the campus. They have had the benefit of reading the past year's work and are determined not to make the same mistakes. The new staff has been working hard to make the paper better and more interesting. They are determined to make it a success.

The new policy of paper is an important step in the right direction. The old policy was too rigid and inflexible. The new policy allows for more flexibility and creativity. The new staff is determined to make the paper as good as possible. They are determined to make it a success.

Let us be prudent. The increasing use of automobiles by faculty and students is a serious problem. The traffic congestion is becoming worse and worse. We must all be careful and courteous on the road. We must all be careful and courteous on the road. We must all be careful and courteous on the road. We must all be careful and courteous on the road.

URGED TO PLANT TREES

As a living memorial to the memory of George Washington, The American Tree Association is urging every school to plant at least one tree in observance of the Bicentennial. They reported over fourteen million tree plantings. These registrations include those of many outstanding notables including Mrs. Hoover, Mrs. Hobart of the D. A. Sippel of the American Women's Clubs, and several American ambassadors in foreign countries.

Schools, as well as individuals, may be registered as units. Each tree planter, whether a school unit or an individual, is urged to write the American Tree Association, 1214 3rd Street, Washington, D.C., and report to them their plans and planting, and they shall receive a national certificate of their membership in the tree planting army.
BROWN PLACES SECOND IN JAVELIN AT KANSAS MEET

HIppo FAILED TO EQUAL HIS MARK SET AT THE CAPE IN SEASON OPENER

Paul (Hippo) Brown splashed through a sea of Kansas slush and mud Saturday to get off a heave of 196 feet, 2 inches with the javelin, and placed second in a field of champions in this feature event at the Kansas relays. Hill Hodges, University of Texas star, was the only man to better "Hippo's" distance, and his mark of 199 feet, 2 inches, was almost four feet behind the mark set by Carbondale's Forrest Athlete in the first meet of the season down in Cape Girardeau. Since the trials at the Kansas relays were made in the face of a driving rain, and on a muddy field, the results could not be considered as representative of what the men would be capable of doing under capable weather conditions.

"Hippo's" mark of 196 feet 2 in., while in no way surpassing a record shot, shot him in the top flight of this country's Olympic candi-

sates in this event. While the Kansas relays were not a try-out meet for the Olympic trials, the results of this track classic will probably form a basis for selection for the Olympic team.

There were fifteen major colleges and universities entered in the Kansas relays, and the event for the first time featured such un-

iversities as the University of Northern Iowa, Minnesota, Iowa, Indiana, and Oklahoma, and as "Hippo" says, "A flock of Teachers Colleges."

Linifty Strikes and Greyhounds Lead

In Intramurals

Several upset were registered during the week in the intramural baseball league. Hiller's Hangovers, after several bad games, showed unexpected strength in bunting one on Winx Thoms, Sunday afternoon, for a base hit of 10 or 15. It is thought generally that Winx Thoms outwitted their batter, while they were notable for their lack of speed. As a result, at least they are inconsistent.

The Lucky Strikes and the Greyhounds continue to be the best in the league. The Lucky Strikes beat the Yanks 15-12 and the Goobers 26-4 to make a total of four wins since the start of the season. The Greyhounds equalized this record by beating the Big Johns 13-0, bringing their total wins in the season thus far to six. The faculty, after a bad game a week ago, when they lost by the close score of 7-5, the Greyhounds came back to beat the 504 Sluggers last Tuesday 12-10. If they stay in the winning habit, they still have an outstanding chance for the pennant.

This next week promises some very interesting games. Good teams that have been kept out of the race by hard luck and absence of star players will come back in full strength to threaten the leaders.

The result of games played the week of April 15-22 are as follows:

**Monday**
- Big Johns 9, Roel Hogs 0
- Lucky Strikes 15, Yanks 12

**Tuesday**
- Hiller's Hangovers 19, Winx Thoms 3
- Faculty 19, 504 Sluggers 13

**Wednesday**
- Battling Pyrobes 14, Road Hog's 0
- Lucky Strikes 26, Goobers 3
- Yanks 31, Flying Irish 8
- Greyhounds 15, Big Johns 0

S.I.T.C. Sponsors the First District Intellectual Contest

Sixteen high schools in the southern districts of the Illinois Intellectual and Musical Association were represented in contests at the Southern Illinois Teachers' College last Friday and Saturday.

The district contest held here this year is the first which has been held at S. I. T. C. However, similar district contests have been held in the past at other teachers' colleges. Miss Mary Crawford, a member of the English department staff of the college, was manager of the contest.

Events in which students took part were: Extemporaneous speaking, contralto solos, baritone solos, soprano solos, orations, girls' glee club, orchestras of classes A, B, C, piano solos, violin solos, cello solos, tenor solos, dramatic and humorous readings.

In the literary events, Granite City won first place; East St. Louis, second, and Mascoutah, third. In the solo events, Centralia was awarded first place, Anna Jonesboro, second and Mound City third. In the group events Anna-Jonesboro won honors for group B, and Mounds City with Grayville for first place in group C.

The debate was Friday afternoon on the subject, "Resolved, That legislation should be enacted providing for compulsory unemployment insurance." The schools in the debate were Du Quoin, Granite City, Du Quoin, and Ridgeway. Du Quoin won first place and Granite City second.

The winners of the different contests will go to Normal, Illinois, for the state contest to be held on May 11, 12, 13, and 14.

At noon the English staff entertained the coaches and visiting high school teachers at the YMCA. Luncheon was also set for the debaters, with Miss Scott and Miss Wells as hostesses.

Senior H. S. Girls Attend Banquet

On Monday evening, April 18, the senior girls of the University High School and Community High School were entertained at a banquet held at the Methodist church. Their hosts were Mr. and Mrs. Frank Hallagan.

A program of songs and dances was presented by the senior girls of the University High School and Community High School. The program included a variety of numbers, including solos by Charlotte Fraley, a reading by Virginia Brown, and a piano solo by Barbara Jane Scott. All the girls joined in singing their Alma Mater song. Since this was the first time the girls from University High had been invited they were especially appreciative.

NEW STAFF TAKES OVER EDITING OF THE EGYPTIAN

(Continued from Page One)

Mr. Vernon has had wide experience in newspaper writing, and his editing of the college paper promises to be one of the most improved features of the paper.

Elizabeth Dill, a freshman, has been appointed to do alumni reporting. Miss Dill contributed to the "Manus," the Carbondale High School paper, during her four years in high school.

Jack Taylor, also a freshman, has been added to the staff of reporters. Although Mr. Taylor has had little experience in writing, he has been recommended as being capable of doing the work.

Maurice Taylor is also a new-comer to the paper. Her work, which has covered the writings of women's athletics, gives promise of her being a valuable addition to the Egyptian staff.

No changes have been made in faculty advisors, Miss Esther Power and Dr. Richard L. Boyer, having been retained to serve in a helpful and advisory capacity. Dr. T. W. Abbott will continue as faculty advisor of the business organization of the paper.

SIGMA SIGMA SIGMA

OBSERVES FOUNDER'S DAY

(Continued from Page One)

Whitely, Mrs. Fred Hallagan, Mrs. B. Dick, Mrs. W. L. Lynn, Mrs. B. F. Smith, patrician, and Mrs. Alice Taylor, house chaplains.

Betty Furr, retiring president, was the toastmistress of the affair. Toasts were made by Frances Matthews, the future president, Evelyn Bonham, Ruth Schifferdecker, Sara Dickie, Jane Ponder, Juanita Richardson, Zorn Moore, Lucille Edgar, and Kathleen Coffee.

Other numbers on the program included a song by Jane Rose Whitely, and a song by a quartet composed of Lucille Lynn, Lucille Edgar, Jane Rose Whitely, and Florence Crossman. The program was concluded with the Tri Sigma song, "The Founder's Day program was under the supervision of Lucille Edgar."

TEN HIGH SCHOOLS PARTICIPATE IN W. A. A. PLAY DAY

(Continued from Page One)

met every other team at least once. The plans for next year's Play Day will include in addition to the game used this year, tennis, baseball, and several track events.

The ten high schools represented at the Play Day were Zeigler, Harrisburg, Du Quoin, Elkhorn, Christopher, Murphysboro, Valier, West Frankfort, University and Community High School. Anna Jonesboro, Herrin and Grand Tower were unable to be present.

Alumni News

Henry Utter of Harrisburg was a visitor on the campus Thursday, April 21. Mr. Utter attended S. I. T. C. last year, and he plans to enroll again this summer.

Theodore Thompson, who teaches school at Dongola, played in the orchestra at the Sophomore dance. Mr. Thompson was graduated from S. I. T. C. last year.

Cliff Andison, who attended S. I. T. C. last year, will complete his work at the University of Illinois. He is specializing in Genetics.

Wendy has been received that Samuel How has passed the Chicago examination for High School Science in Chicago.

Mrs. Nez McMan has been moved from the Hotel to the home of her parents in Alto Pass, where she will spend the summer.
