**Playhouse Means Work to Shirley**

*BY HARRY COULTER*

**EXPLANATION**

To explain with grace (safety) to the mother in the home, the purpose of the playhouse means work to Shirley, that the stage, set, costumes, and the actors in the playhouse are all necessary for the success of the production. This helps her understand the importance of her role in the playhouse.

**MISUNDERSTANDING**

Shirley believes that her only job is to work on the stage and doesn't understand the other responsibilities she has. She feels that other students are not as busy as she is, and this is a common misunderstanding among theater students.

**INSPIRATIONS**

Shirley dreams of becoming a famous actress and wants to work hard to achieve her goal. However, she is not sure how to make this dream a reality.

**COMING TO AYRE**

Shirley is determined to work hard and make her dream a reality. She knows that she has to keep practicing and working hard to achieve her goal.

AROUND WASHINGTON
BY MARVIN COX
WASHINGTON, D.C. College students were
among the first to be the targets of new
civil rights agitation. When, in 1960, the
全国人民 of the United States were
enrolled in colleges and universities, the
movement for civil rights was just begin-
ing to gain momentum. The situation was
particularly challenging for African Ameri-
cans, who were facing discrimination in
many aspects of life, including education.

The University of Maryland's student
council was one of the first to issue a
statement condemning segregation in the
unsafe buildings that were being used by
African American students. The council
also called for the integration of the uni-
city's dining facilities.

In response, the university administration
announced that it would begin using new
facilities that were being built specifically
for African American students. The new
facilities were located on the campus and
were designed to accommodate the needs of
African American students.

The situation at the University of Mary-
land was not unique. Similar problems
were being faced by students at other
universities across the country. The
movement for civil rights was growing
stronger and more determined, and students
were playing a key role in the struggle for
equality.

As the movement continued to gain
momentum, it became clear that the only
way to truly address the issues faced by
African American students was through
the adoption of comprehensive policies
and practices that were designed to create
a more equitable and inclusive campus envi-
ronment. The struggle for civil rights was
far from over, but it was clear that students
were committed to making a difference.
