Pres. Pullum Goes into Chicago for Meeting
President Robert Pullum was on the road last week to attend the 1939 Annual Convention of the American Library Association in Chicago, this weekend. He was one of the members of this convention to address the National Library Week celebrants and to discuss the importance of libraries in the lives of people.

The weekend's activities included a visit to the Chicago Public Library, where Pullum addressed a group of students and faculty members. He also participated in a panel discussion on the role of libraries in education and society.

Zimmerschied Speaks at Delta Rho

A sportsman who is the Governor of the 40 Clubs, Pullum spoke at the annual meeting of the Sigma Pi Phi fraternity. He addressed the group on the importance of athletics in college life and the role of the Sigma Pi Phi in fostering leadership and character development.

The meeting was held at Delta Rho, Sigma Pi Phi's headquarters in Chicago. Pullum's speech was well received by the members, who appreciated his insights on the significance of athletics in the lives of students.

The Sigma Pi Phi is a national fraternity for men who are interested in athletics and leadership. The fraternity has a long history of service and education, and its values are highly respected by students and faculty members alike.

The Sigma Pi Phi is proud to have Pullum as its Governor, and we look forward to his continued leadership and guidance in the years to come.

CARBONDALE BEGINS TO CHEER FOR VICTORY
The commencement of the spring semester will bring fresh hopes and stimulation to the students of Carbondale's three colleges. With the end of the long winter, the students are ready to embark on a new academic year, filled with opportunities for growth and development.

Over-Evaluation
"At last the students of one of the leading American Universities begin to come to know the real value of extracurricular activities, no longer basking in the glow of their academic achievements alone. It is interesting to note that the problems of athletics and other leisurely pursuits are being recognized as important as the academic courses and activities. The complete personality—"which now is to lead a "full life." University and college administrations are beginning to take seriously the thought of developing the social and emotional growth of their students as well as their intellectual growth.

New Party Alignment
President Roosevelt should be commended by all progressive citizens of both parties for his recent appeal to the Democratic and Republican parties to work together for the common good. For many years, the world Democratic and Republican parties have been more or less isolated as far as actually opposing the policies of the two opposing parties. There has been a division of the two parties into two distinct schools of thought, and the line of division has been between the Democratic and Republican parties. The new party alignment seeks to change this division by bringing the two parties together in a common effort to solve the problems of the nation.

William McCracken Will Retire
From S. I. N. U. May 15

William McCracken, long-time friend of the university and a esteemed member of the faculty, will retire on May 15. His contributions to the university and the academic community have been invaluable, and his retirement will be a loss to the university and the academic community.

President Puliam Gives Film Library "O.K.
President Puliam of Puliam University recently received from the United Nations Film Institute a film library that will be of great benefit to the university. The library contains a variety of films, including educational, cultural, and entertainment films, and will be a valuable resource for the students and faculty of the university.
