Your Friend Lucy

As a part of the program for the Diamond Jubilee celebration, Mrs. Marshall Smith, a member of the committee, has written a series of letters that might be of interest to you if you are interested in literature and the arts. Although the letters are fictitious, all facts are authentic, having been taken from actual records. The letters are written by a woman of medium height and are addressed to "Dear Reader." Each letter will appear with interesting stories of life when R. L. D. was S. E. N. -""sagas of social life,

Dear Reader:

Thank you for your kind and appreciative letter. I am glad to hear from you again.

We have been having a great deal of rain lately, which has made the gardens look very splendid. The flowers are in full bloom, and the air is filled with the scent of roses.

The girls are busy with their plans for the Spring Carnival, which will be held next Sunday. They are very excited about it.

Yours truly,

Lucy

From Darkroom To Blackmail

As the city's newspaper, we are always interested in the activities of the Darkroom Club, especially when they involve the use of photography.

On Wednesday evening, the members of the Darkroom Club held a meeting in the school library. The meeting was called to order by the President, who read the minutes of the last meeting and introduced the new members.

The President then announced that the club would be holding a photography contest next month. The contest would be open to all students, and the winners would be announced at the next meeting.

The members then discussed the possibility of having a photography exhibit in the school. They decided that this would be a good idea, and they would start planning for it.

The meeting adjourned at 9:30 p.m.

Yours truly,

The Darkroom Club

BIGGEST NEWS of the week is that Boucherville, known as "The French Alps," is to have its Spring Carnival danced. It seems Boucherville is really coming up in the world, as it has been able to book an engagement on campus within four months.

Speaking of dances, that naturally leads to thoughts of spring activities. They seem to be on the increase this year. The trees are coming out with leaves. It's a safe bet that the average campus male is going to be pretty busy in the next few months searching for money before the merry month of May gets very far.

We notice that great bunches of flowers are blooming everywhere. They surely make the campus look a lot better, but with several formal dances in the offing, we think it would be a good idea for the University to allow the males to pick some of the blooms for their dates.

Our slip is showing. Deadline in last week's Egyptian "May 15 Deadline, WACs." What then happens?

Last week, a student asked Alina Priant how to choose between two girls. "Well, I'll be like the women's dress a couple years ago," she said. "To choose one and short enough to make it interesting."

This column mentioned last week that the P.E. department should start giving exercise classes for girls. The classes are going to be held on campus on October 1st. Of course, they will be held in the gymnasium and will be open to all members of the campus community.

There are many reasons why one should try to attend these classes. For one thing, they will help to keep the body in shape. Another reason is that they will help to keep the mind active. And finally, they will help to keep the heart healthy.

Six Week Internship Suggested For Teachers By School Administrators

Student teachers should go through an internship period of six weeks, teaching in a public school as part of their final year of preparation, according to suggestions made by school administrators.

This was one of the recommendations made at a joint meeting of school administrators of Southern Illinois University and of the Champaign-Urbana school system. The meeting, which was held in Carbondale on April 18 in the theater of the University campus, was attended by Dr. A. W. Reber, chancellor of the University, Dr. J. M. Fagen, superintendent of the Champaign-Urbana school system, and other school officials.

Some recommendations relating to the improvement of the present system of training of teachers were adopted by the group. These recommendations called for more training of teachers in the future and for greater emphasis on the preparation of teachers to be better in the field of teaching.

The meeting heard a presentation by Dr. A. W. Reber, who spoke on the importance of the internship program in the preparation of teachers. He emphasized the need for more training of teachers to be better in the field of teaching.

It looks like the right time of the season to do this, but are we not used to playing good baseball? Maybe we are so used to playing good baseball that we do not realize the joy of the sport. Our opponents in the past few games have been great. Our players are now playing their best.

We have seen the success realized by known players and hope to see the same success realized by the unknown players. We have seen the excellence of the unknown players and hope to see the same excellence of the known players. Our opponents have been great. Our players are now playing their best.
