Spring Festival

There's Been Some Changes Made

The Kent State university dean of men, Raymond E. Manchester, has made some interesting statements about how college life has evolved just since the last generation. The dean's statements were released to us in a newsletter called the Saturday Letters and we thought that the information was interesting enough to pass along to the student body. Dean Manchester's article is as follows:

I was reading a report the other day, and unless I completely missed the thrust of a course "Boys" made by many persons seemed to indicate that college students of this generation don't know which end is up, do not know how to feed themselves, can't bed themselves down at night without help, can't read, write, or figure, are in need of a psychiatrist every six weeks, have to have government help to stay alive, don't know how to study, can't entertain themselves without distraction, have to have lectures and tests to find out what they are interested in, and can't go from here to there without an order.

Seems peculiar to men who went to college under their own steam, made their own plans, had their own ambitions—individuals in their own rights, and asked favors of no one, that college men of today can't row their own boats. They, (the ones who have lived too long) wouldn't get much without aid from a course in "Boys", who planned to support a wife (without a course on marriage) who saved money to buy a home and who prepared for a career rather than a job, most of the material in the aforementioned report is "guff" and nonsense.

Yes, 'some folks have lived too long, or they haven't lived long enough if their notions were correct, and not long enough if the new deal is better.

Genial Knowledge

How much do students know? Students at the University of Oregon were given a general information test and made some amusing errors. Here are a few:

Fjord—a Swedish automobile; Iran—Bible of the Mohammedans; Nicotine—The man who discovered cigarettes; Scotland yard—Two feet, 10 inches; Concorde—When several businesses combine.

**Awards Letters to Saluki Athletes**

Letters have been approved by athletic director Glenn (Abe) Martin, Southern athletic director and recently elected fourth vice-president of the National Association of Intercollegiate Basketball, and the association will soon get a new name.

The NAIB, branching out into other sports, will soon bear the title "National Association of Intercollegiate Athletics," or "National Association of Intercollegiate Sports." Association memberships, including 21 Illinois schools, will soon vote on the matter, according to Martin.

ILLINOIS members will also soon vote to elect Illinois district chairman to succeed Martin, who will then convene the office for the past six years.

A change in the name of the NAIB was made necessary by the organization’s plans to sponsor a national meet for track, tennis, and golf this year, Martin said.

**Golfers Take On Rolla Tomorrow**

Southern’s linksmen will face number three on a 12-match schedule tomorrow when they travel to Rolla to face the Missouri School of Mines.

The Rolla meet shapes up to be extremely stiff for the Salukis. A sports release from the school states that the outlook for this season is "excellent." The Missouri aggregate has three returning lettermen from last year’s MIAA championship team. Included in this group is the captain, K. O. Johnson, "an outstanding amateur in the area," according to the Rolla release.

Coach Lyndy Holder’s squad will face the Missouri school with a team built around the three returning lettermen—Mr. Virgil, Peterson, and MacKenzie, and quarterback Pete Henley.

Matches facing the Salukis in the near future are Illinois Normal here, April 18; and Evansville, there, April 24.
