Humorous Pianist Will Perform

Marshall Izen, pianist and humorist, will appear at both Convocation Center shows Thursday, Jan. 21.

Izen uses his one-man show, "The Musical Satire of Marshall Izen," to make pointed commentaries and challenge the foibles of the concert and operatic world.

Some of his sketches use puppets who aim their barbs at the audience.

Using the top of the piano as a stage, Izen works the "actors" with one hand, provides the music with the other, and sometimes sings the tenor lead.

He is currently host on his own weekly television show in Philadelphia. Recently his one-man show was broadcast over NBC's Reptoreto Workshop.

Izen holds a bachelor's degree in music from DePaul University in Chicago and studied at the Juilliard School of Music in New York City.

Southern grabbed a firmer hold on the top spot in the United Press International poll of small college basketball teams this week.

The Salukis, holding a 6-1 record for this season, received 26 of the 35 first-place votes from coaches on the UPI's rating board. Second-ranked Evansville got eight first-place votes.

In first-place voting last week, Southern played the 11th-ranked team of the Indiana University of Pennsylvania.

This marks the second consecutive week the Salukis have topped Evansville in the poll. Evansville previously had been first for two straight years.

The Aces won their own holiday tournament, but have already lost more games this year than they lost in the two previous seasons. They dropped their opener to Iowa, 73-61, were defeated by Mount St. Mary's College of Maryland, 79-78, then lost to Wesleyan College, 80-74 last Saturday.

Southern plays the 11th-ranked team of the Indiana University of Pennsylvania this coming Wednesday night.

Secretary of Southern's other opponents also made UPI's top 20. Tennessee State, unranked last week, fell five places down seventh place. Southern defeated Tennessee State in a one-game series this coming Jan. 22 and Feb. 7. Oglethorpe University, Southern's opponent of Feb. 1, was the 10th spot with its 9-0 season. Oglethorpe is a member of the Southland Conference and is allowed to be in the UPI poll.

The top 10 with records in parentheses:

1. SOUTHERN ILLINOIS (8-1)
2. Evansville (7-3)
3. Central State (Ohio) (7-1)
4. Grambling (10-0)
5. North Dakota (9-2)
6. Akron (9-2)
7. Tennessee State (5-0)
8. Seattle Pacific (9-0)
9. Stoufferburg (7-2)
10. Oglethorpe (9-0)

Senate Reorganization Sought

The first move towards reorganization of representation in the Campus Senate will be made soon by student government leaders.

General Ian Richman, student body president, plans to meet in the near future with off-campus housing leaders and plan the campus housing leaders for the spring term.

Paluch said he would meet with these leaders because he thought the city of Carbondale should eventually be divided into equal representation districts.

Thompson Point, Small Grading Housing, University Park and Woody Hall are the on-campus housing areas that are represented in the Campus Senate.

Married family housing, off-campus men's organized, off-campus women's organized, out-in-town, and Southern Acres are the off-campus areas represented.

Other student government programs planned over the holidays include:

A group sensitivity training program to be held at Park Muehlese State Park Lodge Jan. 14, 15 and 16. The laboratory will be conducted by the Midwest Group for Human Resources, an affiliate of the National Training Laboratory. Objectives of the laboratory are personal growth of individual participants, leading to a material improvement in the quality of communication among students, faculty and student leaders.

A free tutorial service will be offered to students. Volunteer tutors will be paid transportation allowances. Students interested in being tutors should sign up in the Student Government office in the University Center.

The Salukis held a 6-1 record for this season, received 26 of the 35 first-place votes from coaches on the UPI's rating board. Second-ranked Evansville got eight first-place votes.

In first-place voting last week, Southern played the 11th-ranked team of the Indiana University of Pennsylvania. Southern defeated Tennessee State in a one-game series this coming Jan. 22 and Feb. 7.

The top 10 with records in parentheses:

1. SOUTHERN ILLINOIS (8-1)
2. Evansville (7-3)
3. Central State (Ohio) (7-1)
4. Grambling (10-0)
5. North Dakota (9-2)
6. Akron (9-2)
7. Tennessee State (5-0)
8. Seattle Pacific (9-0)
9. Stoufferburg (7-2)
10. Oglethorpe (9-0)

Students' Plans for Game Direction Areas
Create Novel Display in Magnolia Lounge

Projects of 26 students in a game management class have gone on display in the Magnolia Lounge in the University Center, a space usually reserved for such things as art shows and photo exhibits.

The exhibit consists of detailed drawings of wildlife management areas, as planned by each student for a specific animal.

Students whose management plans are on display are:

Paul H. Gurn, a plan for the Roosevelt elk.
Harold Riley, white tail deer.
Mickey Kimberlin, American woodcock.
Lawrence Fromm, the Hungarian partridge.

Paul Heinz, moose and elk.
Keith R. Hogan, the desert bighorn sheep.
May Alice Mething, the striped skunk.
John Ludwig, the cottontail rabbit.
Tom Drda, mink.

Robert Raines, bobwhite quail.
Guy E. Beauford, mourning dove.
Harold Riley, white tail deer.
Mickey Kimberlin, American woodcock.
Glen R. Campbell, river otter.

Robert Benjamin, ruffed grouse.
Donald Bjerke, mallard duck.

Male Eyes Score Sights
As Coeds Cross Campus

By Barbara Bozich

If you wear a skirt and have a wiggle of some rhythm, you're a victim of the "trou­

sers wearers anonymous.

In other words, you are a girl student being scanned by very normal boy students who are gathered in groups throughout the campus of SIU. One group may be the men under the 10-point system located in the University Center's Oasis Room.

Under this system, if a coed has proper dimensions, she may rate a seven or an eight. If, on the other hand, she is bulging in what should be attractive spots, her score is low-one and a half at the most.

Anyway, even a gorgeous creature could never merit a full scale 10. To these men of SIU, the perfect female does not exist.

Another group is the coffee sippers residing at the Agriculture Building. All discussion of tractors and cows is dropped, as the widening eyes judge a fair or unfair damsel.

Their system is a mystery- perhaps a conversion of the stock-market report to the girl-market report-up three points, down two.

Encountering the file of men voluntarily filed between Shryock Auditorium and Old Main in another experience. The girls of some awareness usually avoid this by detouring via the Altgeld Building.

Their systems of judgment may vary from the musical E-G-B-D-F or just the old American head-to-foot and foot-to-head scale.

Anyway, no matter what watching techniques or rating scales are practiced, the "trousers wearers anonymous" seems certain to stay as long as eyes can focus and heads can turn.

Kelly Will Speak
To Faculty Club

Noble H. Kelley, professor of psychology, will speak as the first Faculty Club seminar of the winter term at noon in Morris Library. He will discuss "Humanistic Psychology."

Television Show to Re-enact
Tweed Ring Scandal of 1871

New York City in 1871 and the overthrow of the Tweed Ring will be featured on "You Are There" at 9 o'clock tonight on WSIU-TV.

Other programs:

10:40 a.m. Your Western World
1:55 p.m. This Week in the News
5:30 p.m. Ask Me About: High school students question foreign students.

9:30 p.m. Film Classics: "Ann of Green Gables," a childhood classic of an orphan in a strange household, starring Ann Shirley, Tom Brown and Helen Westley.

Winterfest Committee

Applicants Sought

Spring Festival steering committee applications will be available starting this week at the information desk in the University Center. To be eligible, students must have a 3.0 grade point average. Applications must be returned to the Activities Office by Jan. 28.

Technology Has Benefits, But...

By Frank Macomber

**NASA Studies 'Mars Car'**

By Robert M. Hutchins

Thirty distinguished scholars from France, Germany, Israel and the United States met with the staff of the Center for the Study of Democratic Institutions to try to figure out the future of our technological society.

Everybody agreed that technology and social control, with their benefits upon mankind and opened the way to benefits previously unimagined. At the same time, technology has made the world in many respects a more depressing and dangerous place. If we are not destroyed by the hydrogen bomb, we may be suffocated by the pollution of our atmosphere. If our enemies do not trample us to death, our neighbors will run us down.

The enormous difficulty of affecting any improvement is indicated by the thinking of the first steps, and only the first, that would have to be taken. The use of technology in the unrestrained pursuit of profit and personal power would have to be stopped. This would mean social control of the economy and an international organization strong enough to make sure that business incentives in one nation could not be used to attack another.

**NASA Studies 'Mars Car'**

By Frank Macomber

Military-Aerospace Writer Poses Possibilities

The National Aeronautics and Space Administration has called for a research study to develop a space-vehicle-like vehicle to explore the surface of the planet Mars.

The vehicle would be called ROMAR (Rotocraft for Mars). The Kaman Aircraft Corp. of Bloomfield, Conn., first pro­duced the ROMAR concept to NASA.

Mars is expected to be the next target for U.S. manned exploration after the Apollo manned moon expeditions. Under certain conditions, surface roving vehicles would have a limited capacity for wide explora­tion of the red planet's rough surfaces, but a flying "inspector," with hovering vertical takeoff and landing ability, would have advantages. A preliminary analysis by Kaman's research and development staff indicated a helicopter carrying two men would weigh about 100 pounds, including fuel.

A key to Kaman's original proposal is the use of expanded plastic to provide rigid, light­weight rotating wings of perhaps 100-foot diameter, re­quired to support a man and the Martian atmosphere. The atmosphere on Mars is estimated to be the equivalent of 100,000 feet above sea level.

ROMAR would have a forward speed of 100 miles an hour for 40 miles at 25 miles per minute of hover time. Unlike many space systems, ROMAR could be tested prior to a manned Mars launch. Kaman engineers claim it is capable of carrying a vehicle to 100,000 feet from the sea and a balloon or rocket for testing.

Since there is no oxygen on Mars, ROMAR's rotors would be driven by small rockets at their tips. NASA and Kaman estimate it would require a 10-month study to analyze the mission requirements of ROMAR and design the best design and performance characteristic for a two-man Martian vehicle.

NASA also believes the con­tainer would be a larger-diameter rotor and a power system independent of the earth's atmosphere that would allow unmanned or manned rotor wing devices operating at the edge of the atmosphere as an astronaut platform.
U.S. Finds Cambodian Courtship Tough

By Edward Nollan
Copley News Service

PHNOM PENH, Cambodia—The former U.S. Embassy building here is now occupied by a Chinese high school.

Across the street, a Chinese primary school has moved into the former U.S. Information Service office and library building.

In one of the picturesque avenues of the old embassy building are several canvas sacks which the United States left behind when Cambodia severed official ties last May.

The canvas sacks are stenciled in black ink: "U.S. Department of State—Diplomatic Pouch." The sacks were stuffed with trash.

As much as any other, the scene is illustrative of the sad state of relations between Cambodia and the United States.

An attempt was made to repair the strained relationship at talks in New Delhi late in 1964. But the United States found it impossible to accept demands which the Cambodians thought were reasonable.

Prince Norodom Sihanouk, Cambodian chief of state, refuses to see the East-West confrontation in the same way Washington views it. He is concerned only with the continued independence of his country.

Being friends with the Communists, he feels, is a better way to succeed at this than fighting them. While he has been talking in favor of the Communists increasingly, he also admits that his country could be in trouble if the Communists move in.

Sihanouk, quite naturally, views such threats with "profound indignation."

So far the United States is not believed to be seriously considering bombing Cambodian territory. Experts feel this would only drive Cambodia further, and perhaps irreversibly, into the arms of Peking. As it is, many in Washington feel Sihanouk will at some future stage become disenchanted with Peking as much the same as did Indonesia.

The Western reporter gains the impression, after talking with a cross section of Cambodians, that there are members of Sihanouk's palace entourage who would like to speed the country's marriage to Red China.

There are even suggestions volunteered by shopkeepers, cycle drivers and hotel clerks, that some "bad men" around the energetic and very popular prince are not telling him all that goes on.

This again provides a contradiction in terms of the United States, which has spent millions trying to prop up leaders who have no real base of popularity.

Sihanouk is popular with Cambodians and works at it. He travels extensively throughout the provinces, shaking hands, opening bridges and schools, and joining in manual labor.

Thus, however, causes him to be absent from the palace for long periods.

During these absences, the country is run by a 36-year-old leftist named Chao Seng, who reads Sihanouk's personal cabinet.

Principally, Seng also heads the Jeunesse Socialisthe Khmer youth group (which participated in the sacking of the U.S. Information Service) and is a director of the left-wing French-language "La Depeche" newspaper.

Sihanouk cites among his successes the fact that his people are not at war and are not threatened by a Communist adventurist movement. South Viet Nam, Laos and Thailand are all under varying Communist threats.

The prince's success in statesmanship is all the more improbable because of his background.

"The pened heir to a puppet throne in a bizarre Oriental court," as one observer described him, has established a good working relationship with former ruler Franco. The Philippines is the only other colonized Asian nation to make the transition to independence so smoothly.

Because it is a sick, financially agricultural country, the cutoof of $30 million per year in U.S. aid has left no major scars on the economy, except in Phnom Penh.

Today there are only 12 Americans living in Cambodia.

Another three are American women who have married Cambodians but retained their U.S. citizenship.

Australia represents the United States in Phnom Penh, handling any communications that are required and performing special tasks.

One of the last Americans to transfer to Cambodia another American, was Chealsee Smith, of Chester, Va.

The Australian position in Cambodia is another contradiction. Cambodia claims to support the Viet Cong cause but has never criticized the presence in Viet Nam of Australian troops.

Sihanouk is a highly sensitive person and reads and reacts strongly to Western press reports.

He called "the final straw" a American newspaper report in 1964 that hired the then-mother owned a brothel on the outskirts of Phnom Penh. The break in relations with the United States came soon after.

In reply to my question about precautions for the restoration of normal ties with the United States, the prince said there was little hope.

"We have little interest unless the normalization is accompanied by a fundamental change in the position of American leaders toward Cambodia."

He said Cambodia had three conditions for normalizing relations with the United States:

1. Stop aggression and air attacks by American and South Vietnamese forces on Cambodian soil and cease unjust accusations that Cambodia is an accomplice of the Viet Cong.

2. Make payment for human and material losses caused by the United States and South Vietnamese in aggression against Cambodians along the border.

3. (The most important point) Grant official recognition of the territorial integrity of Cambodia's borders.

Sihanouk, as it becomes obvious to anyone who talks to him, is not a Communist.

He is looking for Cambodians in the way he thinks best. He is a position shaped not in a small way by an intense national and personal pride.

Communists externally, and certain persons within Cambodia, cited to this pride and to Sihanouk's enormous vanity and have had some results.

All of this becomes increasingly important as the stakes become higher in next-door South Viet Nam.
Prof. Ashby Will Take Part In Argonne Study Program

William G. Ashby, associate professor of botany, will spend the winter and spring quarters at the Argonne National Laboratory in resident research-study. He will be the second SIU faculty member to take part in the Argonne program of Professional Activities for Continuing Education, commonly known as PACE.

The PACE project is a cooperative arrangement in which university faculty members spend half-time on direct research activities with staff members of Argonne scientific divisions and half in lectures and seminars.

Gerald Alldredge, SIU physicist, recently spent six months at Argonne under the PACE program.

Southern's participation in Argonne research was enhanced by the formation last July of Central States Universities, Inc., a cooperative organization of which SIU was a founding member.

The Central States group has headquarters at argonne, a major research and development installation of the Atomic Energy Commission near Chicago. It was planned to help students and faculty members of member institutions take advantage of talent and facilities at Argonne.

Ashby, a native of Dalih, Mo., who came to SIU in 1946, holds a doctoral degree from the University of Chi-

TILLIAM ASHBY cago. He did post-doctoral research at the California Institute of Technology, and previously worked with the U.S. Forest Service.

Highly Successful

SIU Design Seminar Unites Classroom, Private Industry

After a year's trial, SIU officials have labeled as highly successful a project uniting private industry and classroom through on-site work of students in industrial design, and American Magnetics, but no other, assistance. In 11 weeks he had a working model.

Couch was so impressed with Frank's work that he offered him a job as industrial design engineer upon graduation. Frank accepted.

Other area industries have since joined SIU in the program's success.

"The importance of the program to us is that it gives the student an industrial maturity which he could not get in the classroom alone," Pollock said.

Lauchner, a founding member of the American Association of Professional Designers, said that the program created a better look at prospective employees, and at the same time provided many of the smaller firms with an economical way of doing needed development work.

Lauchner Wins Director Position

Julian H. Lauchner, dean of the School of Technology, has been named to the Illinois Association of the Profession's board of directors as an engineering representative.

Lauchner was elected by IAP members to fill a board vacancy to be filled from the professions of medicine, law, engineering, dentistry and veterinary medicine. Other directors named represented architecture, pharmacy and accounting.

Larry N. Spiller, executive director of the Illinois Society of Professional Engineers, said he felt Lauchner's nomination was especially significant since the ballots included such a wide professions range.

"We are quite proud," he said, "that our engineers saw fit to elect the only engineer on the ballot."

The association has as its main goal the providing of organizational machinery to combine the strength of the professions represented in advancing their ideals and welfare.

Lauchner, a native of Centralia, came to SIU in 1942. From Mississippi State University he received a B.S. degree in 1945, and a M.S. degree in 1946.
Prep 'Scientists' Grant Awarded

Fortnight high-ability prep students will study at SIU next summer in National Science Foundation-sponsored program combining science-study and research.

The Foundation announced a $19,900 grant to SIU to support the program, eight consecutive years that such an award has been made to the University.

Names of selected students will be announced April 13, according to Richard Ruch, assistant professor of chemistry, who will be project director.

The program will run for eight weeks starting June 21. Work will be offered by the College of Liberal Arts and Sciences, School of Technology and School of Business in areas ranging from computer technology to electro-physicochemistry.

Students, who in the past have represented the cream of the nation's high school science crop, will have a chance to assist faculty members in junior research patterns.

NSF previously announced a $71,550 grant to the University for a summer training program for secondary school mathematics teachers.

Faculty Parking Asked for Lot

The University Vehicle and Safety Committee gave unanimous approval at its last meeting to a proposal that additional faculty parking be provided in the Harwood U.S. I area.

The recommendation was directed to John S. Rendleman, vice president for business affairs. He was asked to consider that lot west of the Illinois Central tracks adjacent to U.S. 51 be reserved for faculty parking and that others be directed to the Arena lot.

SIU Music Major Will Give Recital

Edwin C. Breeze, music student from Benton, will be featured in an organ recital at 3 p.m. today in Shryock Auditorium.

His program will include selections from J. S. Bach, Johannes Brahms, Pachelbel, Dietrich Buxtehude, Per Perserra and Jean Langlais.

The recital, free to the public, is in partial fulfillment of requirements for the bachelor of music education degree from SIU.

Republican Club To Present Film

The Young Republican Club will present a short film, "Accepting the Challenge," at 7:30 p.m. today in Morris Library Auditorium.

Members attending the meeting may sign up for the state convention to be held Feb. 11, 12 and 13 in Decatur. The meeting is open to all students.

Advanced Study Grant Announced

An SIU student has been awarded a National Science Foundation Science Faculty Fellowship. The fellow, in his fourth year at SIU, will be next year at Stanford University in California.

The fellowship was awarded by the Graduate School that Jerome J. Hollenhorst, assistant professor in the Department of Economics, is one of 326 college and university teachers awarded these fellowships. Designed, designed to enhance their effectiveness as teachers.

The fellowships were chosen from 1,078 applicants on the basis of ability as evidence by professional and academic records and other indications of promise and attainment. Applicants were evaluated by panels appointed by the Association of American Colleges, with selection being made by the National Science Foundation.

Hollenhorst, who will begin his 12 months at Stanford in September, 1966, is in his fourth year at SIU.

U.S. Jets Take Heavy Toll in Viet Cong Retreat

SAIGON, South Viet Nam (AP)—The Viet Cong fell back Wednesday in the face of Operation Jefferson and six Skyraider fighter-bombers caught one fleeing column in the open.

Do Not Want China's Aid

CONG PRISONERS SAY
NORTH TIRED OF WAR

VIETNAM, Laos (AP)—Communist North Viet Nam objects to Red Chinese help in the war and as far as is known there are no Chinese military advisers there, two captured North Vietnamese officers said Wednesday.

The two are Le Huy Lanh, 37, and Pham Dinh, 30. Le said the only Chinese Communists he had seen in North Viet Nam were army engineers who were repairing bridges damaged by U.S. bombings.

In an interview, both said the people of the North are sick of the bombings, sick of the war, and only want peace.

"The people are angry in their hearts with their leaders," Pham said, "but they are too frightened to oppose them."

They often meet at night to curse the government, he said.

"The American bombs have caused too much damage and taken too many lives," Pham continued. "The people of North Viet Nam want the bombings to end. They want peace. Everyone has had enough."

Le admitted that U.S. bombings in August and early September destroyed many military installations, but those installations now are hidden away in the forests and mountains, he said.

Pham and Dinh destroyed many military installations, through Ambasan tunnels into the jungle war. 1965, a year that saw the American force in Viet Nam rise from 23,000 to 175,000.

The toll since 1961 reached 200,000.

Economical tolls were reflected in an announcement by Director David Bell of the U.S. Agency for International Development that food shipments to South Viet Nam, once agriculturally self-sufficient, will be doubled to $400 million in 1966.

In Viet Nam an inspection tour, Bell said financial aid for other imports such as fertilizer and construction material will be considerably higher, and probably twice the $150 million allocated in 1965.

Pham said the only Chinese help he has been in contact with financial crimes spanning 1965.

The two are Le Huy Linh, Pham and Dinh.

Grand Jury Indicts Bobby Baker on Tax Evasion, Fraud Counts

WASHINGTON (AP)—Bobby Baker, the quiet country boy who became one of the U.S. Senate's most intimate associates, was charged by a federal grand jury Wednesday with a nine-count, 30-page indictment of tax evasion, theft and conspiracies.

WASHINGTON (AP)—Robert C. Baker, who became one of the U.S. Senate's most intimate associates, was charged by a federal grand jury Wednesday with a nine-count, 30-page indictment of tax evasion, theft and conspiracies.

The indictment, which was handed down Wednesday in the District Court in Washington, alleges that Baker evaded $150,000 in federal income taxes for the years 1959 through 1965.

The indictment charges that Baker, who is the son of former U.S. Steel Corporation President Robert C. Baker, evaded $150,000 in federal income taxes for the years 1959 through 1965.

The indictment further charges that Baker, who is the son of former U.S. Steel Corporation President Robert C. Baker, evaded $150,000 in federal income taxes for the years 1959 through 1965.

The indictment charges that Baker, who is the son of former U.S. Steel Corporation President Robert C. Baker, evaded $150,000 in federal income taxes for the years 1959 through 1965.
Despite Federal Action
Blumberg Tells Investigators
Klan Still is Strong in South

WASHINGTON (AP)—The Ku Klux Klan has not been dislodged from its powerful stance in Bogalusa, La., despite federal court action and a dogged fight by some residents, a veteran of the struggle said Wednesday.

Ralph Blumberg gave this estimate to the House Committee on Un-American Activities. He said he endured threats of death and violence to himself and his family, his windows and tires were ruined, and equipment fired on, sent his wife and children out of town on FBI advice, but finally was forced by a Klan-run boycott of advertisers to sell radio station WBOX.

Blumberg said he hopes the resistance the Klan encountered in Bogalusa may make it "think twice before hitting another community," but he said the solution to problems of free speech, race relations and many others, in the South and elsewhere can only come when "good people, educated people, people who know better" lose their reluctance to become involved and make common cause.

For this reason, Blumberg told the committee chairman, Edwin C.万一, D-La., he had no suggestions to make other than a federal statute similar to those normally used to protect the kind of legislation the city's economy as much as the five-day transit crisis.

Nearly five million passengers normally use the 800 miles of city-owned subway and bus lines daily. Highway and commuter rail arteries continued clogged as millions sought means of getting about the nation's largest city. Many businesses suffered new paralyzation when employees and customers simply stayed at home.

State Supreme Court Justice Abraham N. Geller postponed for 24 hours a scheduled afternoon hearing to determine if the Transport Workers Union should be fined for calling the strike in violation of a court injunction against it.

Geller granted the delay at the request of a three-man panel of strike mediators, who asked time "to continue efforts to mediate, looking forward to settling this dispute."

"I was prepared to go forward," Geller declared.

It was Geller who Tuesday sent union chief Michael J. Quill to jail—from which he promptly was transferred to Bellevue Hospital after suffering a heart attack. Quill was the target of a barrage of nasty calls from irate New Yorkers, but they were intercepted at the hospital switchboard.

Lindsay took office at the midnight stroke of the New Year and five hours later found himself embroiled in the worst transit labor crisis in New York history.
Cyke Safety Suggestions
Reviewed for SIU Trustees

A number of suggestions for the use of motorcycles on campus has been agreed to by the SIU Vehicle and Traffic Safety Committee from a list of proposals submitted to the committee by Larry R. Lindauer, president of the Southern Riders Association.

The proposals, passed at the committee's December meeting, will be reviewed by John S. Rendleman, vice president for business affairs, before being sent to the Board of Trustees for its consideration.

A motorcycle training and education area, a series of forums, clinics and cycle rider education courses are among the recommendations. The areas are to be developed by the Southern Riders Association with University supervision and a student traffic appeals board.

Also recommended are signs to be erected at the city limits alerting motorists of the concentration of cycles in the city.

The compulsory use of helmets by campus cycle riders was suggested as well as establishing an acceptable level of exhaust noise to be created by decibels.

A ban on the "side-saddle" riding technique was also recommended, along with a proposal that students applying for cycle parking permits be required to produce valid drivers licenses, proof of liability insurance and, if the student is under 21 years old, parental consent to operate a motorcycle.

The committee plans to initiate representatives of cycle manufacturing firms to campus for conferences to discuss the proposed program.

‘Stink Hall’ Is Haven to Foxes and Rats, While Students Hurry by Holding Noses

The perfumes of nature coming from the small red brick Animal House behind the Life Science Building are there for some other reason than to make students turn up their noses.

"Stink Hall," as the building is called by some, is the home of animals and fish used in experiments by the Departments of Physiology and Zoology.

Foxes, the strongest of offenders, rats, fish, rabbits, mice, opossums and guinea pigs are housed in the building. By members of the Department of Zoology, are fed a strict diet of pellets, resembling dry dog food, by students working in the building.

William M. Lewis, professor of zoology, and some zoology graduate students are using the fish to study temperature in relation to disease and how different species of fish withstand sudden changes in external temperature.

Lewis, assisted by Gene Ulrich, a graduate assistant, is also studying methods of fish transportation. Some of the fish they use are from local streams and some are raised by Lewis, who is also director of the Cooperative Research Fisheries here. The rest of the fish are shipped in from their native regions for use in the experiments.

Jan Martan, assistant professor of zoology, is using the opossums, guinea pigs and rats in an experiment studying the aging of the genitalia of the males. The rats and some rabbits and mice he uses are bred in the Animal House, and Martan catches his opossums right on campus.

He keeps the animals on a strict diet of canned dry food except for the guinea pigs and opossums which are treated to eggs, cheese, carrots and hay.

Contrary to popular opinion, there are no skunks in the Animal House. The unpleasant odor comes from the pretty little red foxes caged up inside.

Weekend Athletics Will Begin Friday

The Women's Recreation Association has announced a new weekend activity program for all interested students.

The program will be held Fridays from 8 to 10 p.m., and Sundays from 2 to 5 p.m. Activities including basketball, volleyball, badminton and table tennis will be offered at the Women's Gym.

There will be no charge for the recreation. Women's dressing rooms will be open, but men should come dressed for their desired activity. Gym shoes are required.

Behavior Expert To Speak Friday

Columbia University psychologist H. S. Terrace will speak on "The Implications of Discrimination Learning" Friday in a public lecture.

The talk, at 4 p.m. in the Seminar Room of the Agriculture Building, will be co-sponsored by the Department of psychology and rehabilitation Institute at SIU.
Department of Music to Present 31 Musical Programs in Winter

The Department of Music has scheduled a list of 31 musical events which it will present during winter term. The programs will include student, faculty and guest talent, and will range from solo recitals through the operas "Gianni Schicchi" and "The Medium."

The complete schedule is as follows:

January:
- Mu Phi Epsilon Pledge Recital, 8 p.m., Davis Auditorium.
- Student Recital: Edwin C. Breeze, organ, 8 p.m., Shryock Auditorium.
- Guest Recital: Anna Spurbeck, violoncello and Lois Palet, cello.
- Martin Oil Appointments Shifted to T-65
- The location for making appointments for spring term advice has been changed for three academic units. Appointments for the School of Law, College of Education and School of Fine Arts will be made in the reading room of T-65 at the west end of the University Center instead of the locations previously listed.

February:
- Faculty Recital: Peter Lorus Spurbeck, cello and Robert E. Mueller, piano, 4 p.m., Shryock Auditorium.
- Electronic Music Concert, 8 p.m., Davis Auditorium.
- Opera: "Gianni Schicchi" and "The Medium.", 2 p.m., Shryock Auditorium.
- Opera: "Gianni Schicchi" and "The Medium." 8 p.m., Shryock Auditorium.
- Opera: "Gianni Schicchi" and "The Medium.", 3 p.m., Shryock Auditorium.
- Graduate Recital: Nancy L. Swadv, pianist, 8 p.m., Shryock Auditorium.
- Small Ensemble Clinic: Vocal and Instrumental Percussion Clinic: 1 p.m., Shryock Auditorium.
- Faculty Recital: Iraa Schultz, 4 p.m., Shryock Auditorium.
- Student Recital: Wanda Lee Honon, bassoon and David H. Pence, alto saxophone, 6 p.m., Davis Auditorium.
- Student Recital: William R. Hines, Jr., tuba, 8 p.m., Davis Auditorium.
- Young Person's Concert: University Choir, Robert W. Kingsbury, conductor, 3 p.m., Shryock Auditorium.
- Graduate Recital: Dennis L. Cowan, soprano, and Larry Lee Franklin, trombones, 4 p.m., Shryock Auditorium.
- University Wind Ensemble: Melvin L. Shriver, conductor, 8 p.m., Shryock Auditorium.
- University Wind Ensemble: Melvin L. Shriver, soprano, and William L. Coe, soprano, 8 p.m., Davis Auditorium.
- Graduate Recital: Dennis L. Cowan, soprano, 8 p.m., Shryock Auditorium.
- Opera: "Gianni Schicchi" and "The Medium." 8 p.m., Shryock Auditorium.
- Student Recital: Leonard H. Hoffmann, organ, 8 p.m., Shryock Auditorium.
- Mu Phi Epsilon Recital, 8 p.m., Shryock Auditorium.

March:
- Student Recital: Thomas G. Kucharik, trombones and Student Woodwind Quintet, 8 p.m., Davis Auditorium.
- Faculty Recital: Tommy Wright, soloist.

During Vacation

SIU Gymnasts Compete in Florida Clinics, Women's Team Handicapped by Injuries

By John Goodrich

Both the men and women's gymnastics teams met in sunny Florida over vacation to compete in clinics.

Fred Dennis, a sustained sophomore from Waukegan, described the University of Illinois, as "nice . . . there were many rays down there."

Dennis noted an informal exhibition on the Fort Lauderdale beach for about 400 people, before the main event, the official indoor meets, which were held at night.

Coach Bill Meade, of the men's team, had organized the USGF clinic this year in its new location, Coach Dick Holzepfel of the University of Iowa was co-director with Meade.

The women's team was marred by injuries, Donna Schaezner took a bad fall from the uneven bars and had to go to the hospital after the Fort Lauderdale meet. She was unable to finish her routine, though, and placed 11th. She continued competing after the fall, and placed 3rd in free exercise.

Mary Ellen Toth had taken a 2nd in vaulting and a 4th in balance beam in balance beam in balance beam in balance beam. She was unable to compete in a later meet at Sarasota, Fla., because of a sprained ankle suffered after she tripped down the stairs of the men's gym.

The men's clinic championship had been a preliminary event for selecting the national North-South dual meet team. The North-South dual meet, held the following day.

In the results of the clinic championship, former SIU Olympian Rusty Mitchell was first in the all-round category, in Fort Lauderdale, on the long horse and on the rings.

Keith McCannel of the University of Iowa was first on the side horse, followed by teammate Ken Gordon. Mike Boegler of SIU was third, but Meade believes he can do much better now.

SIU gymnasts took the first three places on the trampoline, NCAA finalist Frank Schmitz was first, Hutch Dvorak was second and Brent Williams was third.

On the bar, Jim Curzy of Michigan State was first, and SIU's Rick Tucker tied for second with Rusty Mitchell. Jim Curzy placed first on the parallel bars, Mitchell was second, and SIU gymnast John Harstad was third.

In the north-south meet, Meade arbitrarily divided the top three placing gymnasts of each category into one team or the other, with no regard to geographic location.

The score of the meet was quite close, with the north winning by a very narrow margin, 193.750 to 193.725.

Boegler looked much better in the north-south meet, scoring 9.75 points on the side horse to win that event for the north team.

Boegler's closest competitor was Ken Gordon of the north team, who scored a 9.6, better than the score of teammate Keith McCannel, who had a 9.5.

Frank Schmitz had a high score of 9.8 to win the trampoline event for the north team, followed by Dale Hard's 9.4, and Jim Holzepfel's 9.2, Holzepfel is the University of Iowa coach's son.

Jim Curzy scored a first place for the north team on the high bar, with Rick Tucker of the south placing second, and Rusty Mitchell on the parallel bars.

Mitchell scored firsts in three other areas for the north team—tumbling, the long horse, the parallel bars and the rings were taken by the former Olympian, who is now an SIU graduate assistant.

Meade felt that the team's performance was only 20% of their potential. He also said that they really needed the competition, as the dual meet on Jan. 15 with the University of Iowa could be the toughest competition the gymnasts will face, outside of the regional competition.

The women's gymnasts went to Sarasota for an Amateur Athletic Association open meet, but they were only required to compete in the first day and not to do actual practice at the clinic.

During the course of the meet, the women's team was handicapped by injuries, as the team was the most injured of the two teams.
SMILING FACES, ALL BUT ONE—Ralph Johnson, last man on the lineup of SIU's varsity basketball squad, must have anticipated that an injury would keep him out when this shot was taken. He hopes to return to action after Saturday's game with Washington University. Two of the smiling faces belong to Bob O'Neal, (third from right), who was high scorer in the Wichita upset, and Coach Jack Hartman, (in front), whose Salukis now hold a 6-1 record, and are rated No. 1 in a UPI small college poll.

Tremendous Effort

Hustle, Hard Work Make Salukis No. 1

By Bob Reincke

What has made Southernthe No. 1 ranked small-college basketball team in the nation according to the United Press International survey?

"No, really," he started quickly, "it's been a tremendous effort and a lot of help by the boys."

The Salukis were picked for the top of the heap this week over Evansville. The UPI had a board of 35 coaches from throughout the nation in compiling the survey.

The coaches vote on a usum of awarding points to the first place team, nine to the second, eight to the third and so on. Of the 350 possible points, Southern received 337 on the strength of 26 first-place votes, second-ranked Evansville, by comparison, received eight first-place votes and a total of 278 points.

"These polls are inconsis­tent at their best," Hartman noted. "But that top spot is something you work for and we're certainly proud of the recognition it brings to the boys and the school."

"Being ranked No. 1 won't win us anything. In the first place we won't let anything on the scoreboard, but we sure appreciate the attention it has brought us," he said.

"We want the boys to be proud of being ranked No. 1, but I don't think it will go to their heads," he added. "They're not that type of boys. We haven't discussed it in practice and none of them has said anything to me, but they may have amongst themselves."

The Saluki coach, who has guided his teams to an over­ all record of 72-27 since coming here in 1962, said it would be hard to compare this year's team to last. He said there really isn't much difference between the two.

"We aren't tall, and physically we aren't impressive, but we work hard at this game, very hard," he said. "Maybe that's the difference between us and other teams." The Salukis are the only outstanding effort and a lot of hustle. But any time we get less than that from them, we're just another basket­ ball team. These players are serious about the game. If they weren't, they wouldn't be around."

In looking to future games, Hartman said he thought the top billing could make the opponents a bit more aggressive. "We're the biggest team on the schedule for many of the teams we play, and I imagine they'll really be laying for us."

Southern plays Washington University of St. Louis there Saturday and returns home to play Kentucky Wesleyan Monday night.

School Problems

To Be Discussed

At Sessions Here

Three meetings pertinent to problems of education will be held on the SIU campus this month.

Pauli D. Rendleman, executive secretary of the Educational Council of 100, Inc., said that there will be a discussion to plan for the appearance of the Illinois School Problems Commission, a conference of school dropouts with representatives of the Governor's Committee on Literacy and Learning, and the meeting of the problems commission here Jan. 21.

The council concerns itself with problems of education in the lower 31 counties of Illinois. Rendleman invites southern Illinois school administrators interested in school programs to attend the meetings.

The council to discuss topics to be presented before the problems commission will be held from 1 to 4 p.m. today in Thaw Memorial Union. Persons interested in establishing tutoring programs will be presented with information on developmental dropouts will be in the Whitlock Auditorium at 2 p.m. Jan. 21.

The problems commission will hold its next hearing from 10 to 4 p.m. Jan. 24 in Davis Auditorium.

Rehab won four points as three men rolled over 500 in three games to widen their lead in the Faculty-Staff Bowling League, according to Boris Muslin, secretary.
