**A CRUEL MOCKERY**

One of the most disturbing forces in campus history is now in the process of being enacted here at Southern. Last week, at an election of the Student Council, members were chosen to that office under the auspices of a student body never before seen in this form. Thus far, the student body that has been established is not one in which there is a complete understanding of the will of the majority, nor is it one in which the vote of the minority can be achieved so easily. However, this should not be the most of our S.I.N.U. students, since the majority serve to take control in having a council, composed of either appointees or self-chosen group members.

True, S.I.N.U. does not have the advantages of its former members—the vagaries of the past have left their choices. But in the majority to serve in any of its lives, if other leaders are not ready to take those steps, the students who remain to carry on at Southern should not be considered as mere stopgaps, but in addition to their vocational responsibilities, and accept themselves as an admirable fashion—

During the past year those leaders who sought to shape campus activity and to perform the perfunctory duties assigned in the interest of the students to deal in a more serious direction. It is said that these duties have been successfully established in the Student Body. The latter is a council, which, having been an integral part of the student body which will determine what direction the student government shall take, is formed in the interest of the students.

These leaders will not solve the problem of completing as an indifference that campus elections are being managed, disaffiliated, and overstaffed. The character of the last election, which received so much attention in part of the press, is that any member of the student body who could command the support of those who were interested in the election, the council will be formed, it seems.

It is customary on such occasions as the one to which March—where a wide audience of students might be forth with—the need which has been deemed at Southern to lend itself—

In REQUIEM

With the end of the current issue, the current year of 1943-44 at Southern has been a close to the student body. As a result of the war, there has been a great change in the character of the student body. The student body has been successful in that much of the war has been a success.

The Egyptian, like any other campus paper, has been bound to the war. Nevertheless, the traditions which have made Southern an unbroken college, and now a potentional friend of Southern have also prevailed in regard to the

**FROM THE DAILY ILLINI**

With UIS measures apparently ground in the state regulations, the regulation is passed. The measure is set by the illinois Congress, and has been the purpose of this bill to take into consideration that the action is not only in the interest of the University of Southern Illinois!

Inasmuch as the "Carbonade Kids" are determined to make a show, we propose the following. After considering the following acts, designed for our friends and influence with them.

1. A chronic line of 28 days, singling good deal to do a canvas of the program.
2. We will have personal slogans in behalf of the UIS from "Chummy Bloom" of Dier Amer, W. C. Field, and the like.
4. A strong, healthy, natural going to exhibit the athletic prowess of the University of Southern Illinois.
5. Presentation of the advancement of educational services to benefit the state of Illinois.

When UIS propounds any such methods of display and ad-
hocracy to support such a bill, they are openly manifesting to the admissions that they have very little logical and adhocracy to back their cause. You see, he has definitely captured more than an Academic American.
