Bus'h tabs 5 more for administration

WASHINGTON (UPI) - President-elect George Bush filled the remaining top economic jobs in his administration Tuesday - giving one of those posts to a woman - and asked William Webster to stay on as CIA director.

The vice president, who has not chosen a top administration member since Thanksgiving, named five people Tuesday.

In addition to Webster, he selected old friend and campaign treasurer Robert Mosbacher as commerce secretary, former Housing Secretary Carl Hills as trade representative, Stanford professor Michael Boskin as his chief economic adviser and ambassador to Israel Thomas Pickering as U.N. envoy.

Mosbacher, Hills and Boskin will join the choices of Nicholas Brady as treasury secretary and Richard Darman as budget director on the team that will advise Bush on economics after he assumes the presidency Jan. 20.

In selecting Webster and receiving Bush, two positions that he held in previous administrations. He served as U.S. ambassador under Richard Nixon and CIA director under President Reagan.

However, Bush noted Tuesday that while those two positions hold Cabinet rank under President Reagan, they would not do so in his administration.

"Both will attend Cabinet meetings as they impact on their fields of interest," Bush said Tuesday of Webster and Boskin. "It's a lot different kind of role which I'm asking them to take within my administration in making policy.

The choices of Webster and Boskin, who will serve as vice president with only one key spot to fill in the areas of national security and foreign policy - defense secretary.

Library loses fees for missing books

Unbudgeted money goes to state

By Phyllis Coon
Staff Writer

Money paid to Morris Library for missing books and magazines doesn't always go for the replacement of the materials, the head of the library's circulation department said Tuesday.

Last year the library collected $22,638 from students and faculty for missing materials, Joseph Starratt, director of library services, said. But because a lower amount was budgeted, the library received only $4,912, Starratt said.

Morris Library was unable to keep the $16,726 because the money falls under Legislature Audit Commission guidelines, Ernest Lewis, vice president for academic affairs, said.

"Money collected in excess of the budgeted amount goes to the state and becomes a part of the University's income, which can be used to cover other University budget short­comings," Lewis said.

But even money the library is budgeted for doesn't always get used.

Sometimes the money goes to replace books and magazines with money is received than was budgeted for. "The replacement money goes to the librarian in the department where the materials were missing," Linda Davis, head of the circulation department, said.

The amount each floor receives depends on the percentage of the budget that was spent.

The undergraduate floor was exempt from paying the $16,726 because the library's income went to the state and became a part of the University's income, Lewis said.

"We do give more refunds or credits to students because they have paid the replacement fee and have then found the materials," Davis said.

But "the excess from last year was unusually high," Lewis said. "I don't know what caused it. We usually send very close to zero to the state."

A lot of the library expenses and film fees for cinema and photography are some of the things the money has covered in the past, he said.

"Both but the excess from last year was unusually high," Lewis said. "I don't know what caused it. We usually send very close to zero to the state."

A lot of the library's income goes to replace books and magazines.

Walter Dosing, head of the circulation department, said.

The amount each floor receives depends on the percentage of the budget that was spent.

The undergraduate floor was exempt from paying the $16,726 because the library's income went to the state and became a part of the University's income, Lewis said.

"But we do give more refunds or credits to students because they have paid the replacement fee and have then found the materials," Davis said.

From the state-approved budget money goes to the state and becomes a part of the University's income, which can be used to cover other University budget short­comings," Lewis said.

But even money the library is budgeted for doesn't always get used.

Sometimes the money goes to replace books and magazines with money is received than was budgeted for. ECONOMY OF THIRD WORLD
could decline without trade

MONTREAL (UPI) — The plight of the world’s poorest countries will worsen if the industrialized nations fail to open their markets to poorer agricultural products, especially grains, the head of the International Monetary Fund told key international trade officials Tuesday. The IMF managing director said that even though most industrialized nations have reduced tariffs on imports, trade-distorting agricultural subsidies are multiplying, raising trade barriers for products and processed goods produced by Third World countries.

Polish authorities call Walesa a ‘partner’

WARSAW (UPI) — The Polish government Tuesday described Solidarity founder Lech Walesa as a ‘partner’ for the first time since the union was crushed seven years ago and softened its position toward the only major labor opposition movement, Government spokesman Jerzy Urban, one of Walesa’s critics until now, told a weekly government radio program Tuesday.

Arafat meets with Jewish, Swedish officials

STOCKHOLM, Sweden (UPI) — PLO Chairman Yasir Arafat met Tuesday with five Jewish leaders and Sweden’s foreign minister at the start of a two-day visit strongly criticized by Islamic countries.

S. African government starts new crackdown

JOHANNESBURG, South Africa (UPI) — Police launched a new crackdown on dissent Tuesday, raiding church offices and outlawing public meetings protesting guilty verdicts against 11 blacks on treason and terrorism charges.

Pentagon establishes computer ‘SWAT’ team

WASHINGTON (UPI) — The Pentagon announced Tuesday it has established a “SWAT” team of 100 computer experts who will be deployed in 15 security regions of the nation.

Bank money recovered to settle federal suit

WASHINGTON (UPI) — The government has recovered $229,000 from a Connecticuttel to settle a federal suit over an internal deal in which the bank allegedly obtained a federal loan guarantee improperly, the Justice Department said.

Military voyage of Atlantis has safe ending

EDWARDS AIR FORCE BASE, Calif. (UPI) — The military conference shuttle of the Space Shuttle Atlantis arrived at Edwards Thursday when the aircraft glided to a triumphant landing after a successful mission.

Court rules against foreign training of Guard

ST. PAUL, Minn. (UPI) — The 8th U.S. Circuit Court of Appeals Thursday ruled unconstitutional a law allowing the federal government to send the National Guard for foreign training without the consent of governors. The ruling contradicts a decision made by another federal appeals court on the same issue.

Daily Egyptian

Published daily in the Journalism and Egyptian Laboratory Monday through Friday during regular semesters and Tuesday through Friday during summer term by Southern Illinois University, Communications Building, Paducah, IL 62082. Second class postage paid at Carbondale, Ill. Editorial and business offices located in Communications Building, North Wing, Phone 566-3211, Walter R. Jaehnig, fiscal officer. Subscriptions rates are $40 per year in the United States and $75 for six months in all foreign countries.

Gary Heflin signed a movie contract with Columbia Pictures.

"I got my start by hosting the Miss Elbonics pageant and U.S. Comedy Competition '86. I encourage other people to get involved. There are great opportunities out there. The experience was invaluable — it far outweighs any payment I could have received," he said.

Heflin has also appeared in The Vanities spring show and recently auditioned for The TNT comedy show, where he received his first break. "I didn't get the part, but I met someone from Columbia and I gave him my number. I didn't pay too much attention to it, but he kept calling and he kept begging me until I sent him a videotape," he said.

"I got a great deal to the people at Southern. They helped me make people laugh, but it was more on a personal level," he said.

Heflin cites involvement in Alpha Phi Alpha and other campus activities, for which other reason he was able to realize a potential career in comedy. "I'm saying, not that's true

**DELIVERY MENU**

Apple pie, blueberry pie, cherry pie, lemon bars, chocolate cheesecake, and a variety of other pies.

**Beverages**

Honeymead horchata, blueberry, strawberry, cherry, orange, grapefruit, and a variety of other soft drinks.
Democrats heading back into old tricks

JUST WHEN we thought the political waters were calmed — and the candidate of choice is George Bush, love him, or leave him — the Democrats have begun “Decision ’90: The Endless Campaign.”

We’re not referring to the Democrats pledge to begin at once the 1992 race for the White House. We’re talking, inquiring minds want to know, about the Springfield District 6 supervisor. Now, there’s nothing wrong with the Benton County party leadership doing the selection in Franklin County for 1990, if that is what they are really doing.

The democraticleast-experienced in the politics that lead to Springfield — are not to suggest that the Benton County party is swayed by the support of the voters are too dumb to know any better. We simply believe that the voters are being swayed by one of Rea’s first and most favorites since Franklin and Williamson counties will be most heavily weighted in the voting. State Rep. David Cherry is the choice of Williamson County Republicans, or vice versa. We simply believe that the students are clear-headed and will not be swayed by the Benton County party on the brink of organization, confusion and a consensus of opinion.

FOR THE RECORD — we have now re-revealed that the students return from break so their young, impressionable minds won’t be exposed to the carnage — the Democrats will select a replacement.

THE DEMOCRATS, however, don’t seem to agree. Perhaps they aren’t Democrats at all but Republicans bearing a Trojan Horse like gilt designed to drive the final nails in the party’s coffin.

The ‘gilt’ is State Sen. Glenn Poshard’s seat. Poshard has vacated the seat at the urging of the Benton County party chairman, Arrington, which makes Rea and Browning the odds-on favorite for the job before.

In answer to that, we can only say that we have had arguments with the state’s Charlinջ of the students demand nonsexist environment at SIU.

Letters

Psychology students demand nonsexist environment at SIU

As a third-year graduate student in psychology, my patience has vanished last Friday with the response I and my classmates have received form faculty in our concern about sexism. For two plus a half years now, I have been patient and “nice” because I expected non sexist language to be used in classes and that sexist and racist stereotypes be challenged. These comments have been met with condescending defensiveness, ignorance and attempts to change and belittle their importance.

The American Psychological Association has developed guidelines for working with both women and minorities that place a responsibility on APA psychologists to educate themselves and the students about sexism and their experiences in society. When faculty silence or put down these critiques as being unimportant or irrelevant, they fail to educate themselves of these two forms of oppression.

A professor recently suggested that one of my comments was too negative because the example I was critiquing occurred many years ago. He suggests that things were great improved today in regards to sexism. What I have found is that sexism does not exist today, they are unknowable of women’s experience in this society. In addition, if this person is a psychologist, it is their responsibility to educate themselves about sexism. Failure to do so paints a nonsexist real life.

Converting alumina into aluminum: a new way of using waste material

The purpose of this letter is to inform the ecologically concerned readers of a great technical advance. Not surprisingly, attention at graduation normally focuses on the successful members of the graduating class. Such individuals are subjected to follow-up studies intended to glorify their parent institutions and attract new recruits to the university ball. And yet, where do the below-average graduates go? It is well known that all institutions are centers of excellence, and all graduates are fully equipped for life. How can such a system operate?

The secret, concealed until now, is that below-average graduates are assumed to be hidden processing plants, where they are recycled. This process was originally known as alumina recycling, but with increasing enrollment of female students, an ever-larger proportion of alumina has been added to give a nearly neutral material — aluminum. After grinding and compression at high temperature, it is molded into products such as cooking foil and beer cans. The technology is impressive.

A single recycled graduate can be turned into containers for a hundred gallons of beer, even though the original student could not even retain the molecular formula of alcohol. Three grades of student are used — C (for cans), D (disks) and F (foil).

Researchers at the Midwest Institute of Degrees, Graduation and Educational Technology (MIDGET) say that further developments may be expected soon. Until now, substantial faculty have joined unions to express their lack of support of an increasing demand for packing material. This has resulted in the development of polypropylene. Although still undergoing experimental stages, this novel material is expected to put to good use the ever-increasing stockpiles of substantial college teachers and education PhD's. Polypropylene is odorless, characterless, tasteless, totally inert and fills lots of space for very little weight — the ideal packing material. A local pilot plant will soon be converting a batch of unnecessary Professors (UP) and Indolent Educational Accessories (IEA) into disposable meat trays for supermarkets by the Consumer Recycling of Educationalists. Teachers and Illiterate Nonentities, or CRITIN, process.

Halloween weekend no street party

In the Dec. 5 editorial page of the Daily Egyptian, Brian Anderson offered President Guyon's attempt to ban the Halloween activities on the Strip. After a trivial and fruitless effort to demean Guyon's proposal, because of his word choices in his Nov. 29 editorial, Anderson purports that the Halloween activities are not bad for the reputation of this town. Obviously, Mr. Anderson has never been accepted as a "festival." Mr. Anderson and I must have witnessed two different strips on Halloween weekend. I observed persons passing out on the streets, urinating in the streets, defecating in alleys and vomiting on themselves. But the most atrocious act that occurred at this large gathering of "students" was the season and holiday was the stabbing of a youth. There is absolutely no excuse for this inhumane brutality. One must have been in a drunken stupor to derive these types of acts as students having fun.

I urge everyone to join together and support one of the few reasonable proposals Mr. Guyon has ever made. Next year I urge Mr. Anderson and his Spud MacKenzie cohorts, "who score ten or eleven on the ACT," to hold a Halloween weekend outside of Carbondale, preferably their own hometowns and suburbs. — George P. Hamilton, senior, political science.

Rugby team unjustly accused by Tuxhorn

I am appalled at Councilman Keith Tuxhorn's — and his minders' — groundless and undocumented accusations that the SIU Rugby team is at the heart of the Halloween problem.

Maybe Mr. Tuxhorn just does not like that sport; he's probably into ballet.

Mr. Tuxhorn should learn to use his creative mind. If he has one, to find solutions to the Halloween situation rather than finding a scapegoat. Maybe, the Rugby team should invite Mr. Tuxhorn to a scrum or two.

By the way, the Cross Country team is hosting the MVC Championships on Sat. Oct. 29, 1989.

I mean those puny people can run long and far, therefore they throw beer cans because afterward they can run and get away. Sorry, Cross Country Team. But as soon as Tuxhorn gets wind of this event, he'll be coming to get your team too. — Dave Mudrener, Carbondale.

Letters

Daily Egyptian, December 7, 1988, Page 5
Anticipation has been running high for weeks that Bush would name John Tower of Texas, the former chairman of the Senate Armed Services Committee, for the job. However, there has been some criticism of Tower for his ties to the defense industry and for his personal life.

It is believed Bush may be searching for a deputy to Tower who would have strong managerial skills and could help reform Pentagon procurement procedures.

The vice president said Tuesday he saw no reason to disqualify Tower from consideration as defense secretary.

In the five selections announced Tuesday, Bush partially made good on his promise to bring new faces into government, but he also continued to rely on names from previous Republican administrations. He said his choices were "part of a continuing effort to appoint people of talent and distinction to senior positions in government service."

The new faces are Mosbacher and Boskins. Webster served as FBI director before moving to the CIA in 1987 and Pickering is a career Foreign Service officer.

Hills, 54, secretary of housing and urban development under Ford, was the first woman Bush named to a top post in his administration.

Bush said Hills, who also was an assistant attorney general in the Ford administration, "stands for free trade and fair trade" and contended that her job, in which she would replace Clayton Yeutter, was extremely important given the new trade law and the free trade agreement with Canada.
replaces 10 percent, the humanities floor 24 percent, the social studies floor 31 percent, the education and psychology floor 16 percent and the two science floors 19 percent.

There are certain books on the science floors that have a higher theft rate and are not replaced, Black said. "Cookbooks are around about a year, if we’re lucky, and then they’re gone," Black said. "These are important books for some of the majors in the College of Education. The best books get stolen and they are the most expensive. We just can’t keep replacing the same books year after year."

Black said the science floors, given the opportunity, could spend $12,000 to $15,000 in replacement funds. "Every floor could use more money, that’s no secret," Black said. "The state begrudgingly gives us the $40,812. I don’t understand the politics in that."

The number of books floors are able to replace could rise because the library has asked for the replacement budget to be raised to the revenue level, Starratt said. Students also take advantage of the materials by checking out a textbook and keeping it the entire semester, Davis said. "Many students find it easier and cheaper to pay the $1 fee and return the book at the end of the semester then going out and buying the book," Davis said. "This type of thing happens quite a bit."

**FINANCIAL AID INFORMATION**

1989-90 ACT/FFS forms are now available.

To apply for financial aid for next school year, beginning August 1989, you should complete and mail the 1989-90 ACT/Family Financial Statement form.

The ACT/FFS will allow you to apply for the following programs:
- Pell Grant
- ISSC Monatary Award
- Student Work
- Campus-Based Aid
- Stafford Loan

Pick up a copy of the 1989-90 ACT/FFS before Christmas Break! Mail the form as soon after January 1, 1989 as possible, but before April 1, 1989 for priority consideration. ACT/FFS forms are available at:
- Financial Aid Office
- Woody Hall, B Wing, Third Floor

Paid for by the Financial Aid Office

WHAT-A-WEEK!

**TWO WEEKS OF SAVINGS FROM DOMINO’S PIZZA**

This is a special week for you and we want to give you something special. That’s why we’ve invented WHAT-A-WEEK: a whole week of savings from Domino’s Pizza. Just call and ask for the day’s special and enjoy!

- Monday Madness
- Open for Lunch

- Tuesday Treat
- Get a 12" cheese pizza for just $3.99. (tax not included).
- Offer good 12/6 and 12/13 only.

- Thursday Thrill
- Get a 12" cheese pizza for just $8.88. (tax not included).
- Offer good 12/8 and 12/15 only.

- Saturday Special
- Get a 16" unlimited pizza for just $9.95. (tax not included).
- Offer good 12/9 and 12/16 only.

Kid's book donations wanted

The Glendale Early Childhood Center PTA and The Literacy Connection based at John A. Logan College are sponsoring a Christmas "Give the Gift of Reading" children's book project.

The purpose of the project is to provide children with books to read over the holidays.

Anyone willing to share some of their early childhood books should call 457-5551 for pickup or drop them off at the Glendale Early Childhood Center located north of the Carbondale Industrial Park on Route 51.

Books will be accepted until Dec. 14. For details, call 457-6127.

Homeless find shelter at Good Samaritan House

By Kathleen Delo
Staff Writer

While most people are looking forward to parties and presents during the holidays, the homeless are not looking forward to anything. Elsie Speck, director of the Good Samaritan House, said, "Some are worrying whether they'll have any kind of Christmas. Some give up on the holidays. It's just another day."

Michelle, 19, has been homeless for about a week. She has not been homeless long enough not to feel disappointed around the holidays. "They (my family) won't have anything to do with me and there is not anything I can do for Christmas. I have no place to go. It makes me sad," she said. She got kicked out of the house after an argument with her family. She is not planning to spend the holidays with her family and is not sure if she will do anything at all.

Michelle is one of about 30 Best liberal arts teachers voting starts

The College of Liberal Arts wants to know who its best teachers are. Nominations are being accepted for the college's annual Outstanding Teacher Award. Ballots are available in the Student Center Bookstore and should be sent via campus mail to: Thomas Alexander, COLA, Department of Philosophy. Last year's winners can not be considered.

It took Galileo 16 years to master the universe. You have one night.

It seems unfair. The genius had all that time. While you have a few short hours to learn your sun spots from your satellites before the dreaded astronomy exam.

On the other hand, Vivarin gives you the definite advantage. It helps keep you awake and mentally alert for hours. Safely and conveniently.

Revive with VIVARIN.

products because of its power in the political arena.
"Tobacco companies enjoy long and established contacts with legislators," Garner said. "Right now, as judged by the brokers who have paid $2 billion for RJR, it is evident that tobacco is a great business."

Through the petition, Garner said the American Medical Association is trying to have tobacco products treated as they ought to be treated, and that is as a public health menace.

The American Medical Association's petition says, "Premier is a nicotine delivery system intended to satisfy a nicotine dependence drug," RJR has threatened to characterize Premier as a drug.

If classified as a drug, Garner said, Premier would have to be put through extensive testing by the FDA and would not be available for at least a decade. It then would have to be determined whether or not the product was beneficial to the public. Based on that, the product would not have a chance, he said.

"My feeling is that it won't be characterized as a drug," Garner said. "I never bet against the cowardice of the federal government when it comes to tobacco.

Premier works by heating rather than burning tobacco. A smoker lights a carbon heat source in the end of a cigarette.

CITIBANK

DAILY EAGLE: DECEMBER 7, 1986 - PAGE 15
cigarette. Smoke is produced when air, warmed by the heat source, passes through several elements of the product.

The elements include a tobacco roll, a flavor capsule containing a spray of tobacco extract, two food flavorings and glycerol, which is a chemical used as a food preservative and in making explosives, a tobacco paper filter and a plastic filter.

The American Medical Association petition says that Premier, by definition, cannot be classified as a cigarette since it cites a dictionary meaning of a cigarette as "a small roll of fine cut tobacco for smoking enclosed in a wrapper of thin paper." Adding to the argument that Premier's primary purpose is to deliver nicotine.

The American Medical Association petition says that the tobacco used in Premier is not essential to the functioning of the product, as it is in conventional cigarettes. Tobacco is provided merely as an insulator and to provide tobacco taste and the sensation of a cigarette.

Garner said that rather than removing Premier from the market, as the American Medical Association has proposed, he would like to see the tobacco industry regulated.

But he added that IFT has "strong feelings about including several ballots in the count."

IEA organizer Angela McGregor said IFT and the University have not challenged the decision, but IFT has issued an appeal.

University spokesman Thomas Britton, vice chancellor for administration, could not be reached for comment.

Of the 92 eligible voters, 94 percent of the faculty turned out to vote in the Nov. 16 election.

The run-off election originally scheduled for today has been postponed.

Correction

The ACTION youth program is sponsored by the Adolescent Health Center, 213 W. Main St. This information was incorrectly reported in Monday's Daily Egyptian.

Hershiser awaits contract; expects to increase salary

ATLANTA (UPI) — Orel Hershiser hinted Tuesday he doesn’t want to sit around LA and was fishing for a multi-year contract. Despite averaging 23.5 minutes per contest, he was 23-8 and was awarded a salary of $800,000. Of the Student Center and University Bookstore.

This season, Griffin is not happy with his reserve status. "I can’t have a guy tell me’s got to start and have a good team," Fogler said.

Standing tall
Wichita State is leading MVC teams with a 3-0 mark. The Shockers were named at 4-2 with Indiana State in third at 3-1. Bradley and Tulsa are both 1-1, Creighton and Illinois State are both 1-2 and Drake has gone winless through four games.

Shocking cops
It pays to get picked up by the Wichita Police Department. At least it’s worth the price of a ticket. Drivers demonstrating good safety habits and wearing seat belts will be rewarded in a “Shocking” manner. They’ll be handed a pair of tickets to Wichita State basketball games, courtesy of the Wichita Police Department and the Wichita State University Intercollegiate Athletic Association. Using a grant provided by the Kansas Coalition for Safety Belts and through the cooperation of WSU.
Basketball team to prove laughter best medicine

By Robert Baxter

It was during week two of the season that Cindy Scott's Hoosiers began to lose their cool. The players were frustrated, coach Rich Herrin was frustrated, and Scott, who had been known in the past as a laid-back coach, was becoming a bundle of nerves. The team had lost their first two games, and Scott was becoming increasingly concerned.

"I feel like we're playing better now," Scott said, "but I'm still not satisfied." Scott's concern was not unfounded. The Hoosiers were averaging just 7 points per game in their first two losses, which was not enough to overcome the strong defenses of their opponents.

Scott's team has better things to do than sit around and be depressed about some early season setbacks.

"No we're not worried right now," Scott said. "We've played some difficult teams. We played well against Purdue and could have won. We're not discouraged at all."

"Playing top teams can only help us get better. That's our main concern right now, getting better. We need to concentrate on improving each game."

Scott's attitude exemplifies the team concept her players are out to establish before the start of the conference race on Jan. 2.

"Last year we didn't play together as a team -- we were not at touch with each other," Dana Fitzpatrick said. "This year we are not only playing well together, but we really like each other too. It can only help us to get better as a team as the conference race approaches."

Fitzpatrick said that's the team's main goal right now -- to get better. If they continue to improve, Fitzpatrick said, the wins will start to happen.

Allstate has dozens of career opportunities that give you good money, great training, and terrific benefits...

...And selling insurance is only one of them.

These exciting and challenging careers include the areas of finance, communications, law, research, analysis, corporate relations, and planning, as well as sales.

And every one has its own growth potential for advancement in management.

No wonder, Allstate is a member of the Sears Financial Network, a network of fast-paced, fast-growing businesses in America.

Allstate offers the strong and continuous growth to a philosophy based on innovation, competitive drive, hard work and promotion from within.

So if you join Allstate, "The Good Hands People", you can be assured of the opportunity to grow with the company tomorrow, no matter which career opportunity you choose today.

Now this sounds like the successful future you'd like for yourself, send your resume to:

Allstate
Employee Manager
Allstate Plaza South
Chicago, Illinois
60605

Or if you are already employed and you like:

Allstate
You're in good hands.

Page 18, Daily Egyptian, December 7, 1988
PLAYERS, from Page 20

Hart’s comments at the meeting were collaborated by other players.

Preston Knauft, assistant coach for the gymnastics squad, was not pleased by the news, either.

“...I’m upset, I’m disappointed, I’m all of the above,” Knauft said. “It sounds like they’re making room for more money for baseball and football. You’d think they’d have enough after cutting...”

“I can’t believe they’re cutting the program.”

—Cathy Dahlquist

Knauft said he was surprised that women’s gymnastics was cut because it has been one of the more successful sports, winning national championships in 1964, 1966, 1967 and 1972.

Field hockey was founded in 1933. Under Filhar, the team has a 240-124-40 record and placed sixth at nationals in 1988.

The gymnastics budget for fiscal year 1989 was $28,500, down from $31,500 in fiscal year 1988. The field hockey budget for FY89 was $10,500, down from $27,500 in FY88. Those figures do not include scholarship totals and coaches’ salaries.

CUTS, from Page 20

could be retained as physical education instructors, they are more valuable as coaches.

Between them they have dedicated 53 years to the University’s athletics department — and this is how the University repays such commitment.

Let’s not forget the players. True, the University probably will honor the scholarships of those who waive tuition. But scholarships are no substitute for onfield performance, the reason many of the athletes choose this University in the first place.

For the athletes, spinning through the air in the midst of a vault routine or scoring an empty net goal at a function for the field hockey team, Hart and Associate AD Charlotte West gladly received snappy face buttons from team members that read, “Smile When You Say Field Hockey.” Thus proudly wore them on their jacket lapels.

Well, neither Hart or West are wearing their buttons, and no one’s smiling now.
