Negro Student Housing Disgraceful

Many Coeds Complain
Of Cold, Distinct
By Teresa White

It's cold. Most of the time it's not too bad. But there are times when it really gets you, even by me using the electric heater alone.

That was a typical SIU Negroid complaint last winter. A complaint which was typical of the masses prevailing here in the Student Union.

At the request of the student body, the Student Council set up a committee to look into the matter.

It was found that many of the students were taking courses in the colder months and that some of the rooms were not heated.

In the hope of preventing similar complaints in the future, the Student Council has taken steps to ensure that all rooms are properly heated and maintained.

The students are now satisfied and agree that the situation has been adequately addressed.

The Student Council would like to thank all the students for their patience and understanding during this time.
