The '57 Chevy can give anyone on taking curves and holding the road to just about any car going. Few cars at any price are so beautifully balanced and so smooth, sure and solid in action.

Chevrolet has a special kind of build and balance to keep curves under control. And nobody beats Chevrolet in that department! It "owens" with all the solid assurance of an honest-to-goodness sports car. Chevy's don't throw its weight around on turns because it carries its pounds in the right places.

And if the road should turn upward, Chevy keeps its head—till up to 265 h.p.—Climbs in on and take a turn at the wheel of a new Chevrolet.
