Campus Officers Will Be Decided Today

8 To 5 Hours Set For
Four Polling Places

Students are voting today at four locations on campus in the annual spring elections. Polls will remain open until 5 p.m.

Polls are located in the University Union, the Agriculture Buildings breezeway, the Student Center, and in the Agriculture-Building breezeway.

Fox To Lecture

On Canary Islands

David J. Fox, visiting professor of geography from the University of Manchester in England, will give a lecture entitled "Stepping Stones to the Americas" in the Geography Department Seminar at 8 p.m. today in the Agricultural Seminar Room. The lecture will be open to the public.

The lecture will discuss some of the aspects of the geography of the Canary Islands, a group of volcanic islands off the Saharan coast of Africa. "An Englishman's View of the U.S.S.R.," had been the title scheduled to be given by Dr. Law will, but Fox will give this lecture at the May 28th meeting of the International Relations Club.

Joint Meeting:

Journalism Council To Discuss
Egyptian Proposals Tonight

Proposals concerning the activity fee budget allocations and the Daily Egyptian will be discussed at a meeting of the Journalism Council with Student Council members at 9 p.m. today in the University Center Mississippi Room.

George Graham, one of the three council members who worked to draw up the proposals, said if no substantial changes are recommended at tonight's meeting, the proposals will be presented at the Student Council meeting Thursday night.

In regard to the activity fee budget, the proposal states that the activity programs have outgrown the income from the $9.50 activity fee and that increases to pay for various activities and health services will soon be needed.

The proposal recommends that a budget of $342,000, financed by the $9.50 activity fee, be submitted to the Board of Trustees for the 1964-65 school year. It suggests, however, that a referendum on a fee increase be effective in 1964-65, to be submitted to the student body in the Fall of 1963.

Advisors of activity fee accounts will be asked to submit budgets for 1963-64 as soon as possible, with new or expanded programs postdated until 1964-65 whenever possible.

In regard to the recent controversy over recommending to withhold funds from the Daily Egyptian, a proposal was passed concerning the power of Student Government in determining policy for activity fee allocations.

The proposal recommends that the Student Senate and the Student Government be lifted from the Board of Trustees, which should have a policy board selected which determines the power of Student Government in determining policy for activity fee allocations. The Senate and the Student Government should make recommendations when necessary, it continues, but would operate within the policy set forth by the Board.

This setup would be dependent on the recent controversy over recommending to withhold funds from the Daily Egyptian, a proposal was passed concerning the power of Student Government in determining policy for activity fee allocations.

The proposal recommends that the Student Senate and the Student Government be lifted from the Board of Trustees, which should have a policy board selected which determines the power of Student Government in determining policy for activity fee allocations. The Senate and the Student Government should make recommendations when necessary, it continues, but would operate within the policy set forth by the Board.

Uncle Sam’s Helper Keeps Everything In Flying Order

The place looks pretty much like a men's clothing store. There are the counters, the racks, the bins, the measuring tapes. But you don't see a cash register.

There are coats and pants, shirts and shoes, ties and socks, and raincoats. Only they're all alike, almost. Some of the pants and shirts are blue; some are khaki.

You're in the supply house for the Air Force Reserve Officers Training Corps, where more than 3,000 student cadets receive their military clothing each year. The "store" is in the annex to Wheeler Building, the former location of the University book shop.

In charge of issuing all the garb and equipment is James L. Metcalf of Murphysboro. He's officially the assistant military property custodian but the work is in his hands as the business manager of the University. Metcalf is not a military man. He's a man who knows clothing, with 40 years of experience. His 2-1/2 year tenure here has seen the problem of issuing clothing and equipment to students develop into an efficient operation. What once took five weeks is now done in ten days.

"Since I've been here," he said, "I've seen lines of students 75 to 100 yards long waiting to get their clothing and equipment. But Metcalf came, placed the assignment of clothing on an appointment basis, and got things running like clockwork."

Metcalf explained he schedules 30 appointments an hour and sometimes gets ahead by running 40 through in 60 minutes.

"The boy comes in the front door," he said. "He gives us his clothing sizes if he knows them, and if not, he's measured. And I might say that three out of five can't tell us.

"Then he gets a blue coat, khaki and blue shirts, his pants and a raincoat. After that his cap, socks, belts, ties and insignias are placed in a shopping bag. He also gets shoes, which he keeps for two years. The other things come back at the end of the school year.

To get all this, the student produces a fee statement showing he has deposited five dollars for it.

Each year Metcalf's staff handles 3,800 pairs of trousers, 5,000 shirts, 3,800 coats, 3,300 raincoats, and 2,000 pairs of shoes.

Working with Metcalf are E. K. Winklemeyer and T. Sig. Tolby, provided by the Air Force to assist in interpretation of military requirements. During issue time last year, 18 SIU students work half-time.

Metcalf said his department has run into unusual requirements, such as 104 size 46 trousers and size 16-EE shoes.

"There taken care of by special order," he said. "You won't find them in stock.

A Scottish tapestry designer and weaver will spend three days at SIU this week to instruct students in the ancient craft.

Ronald Cruickshank, who was associated with Gobelins in Paris and was the only weaver outside the famous Aubusson rug-weaving center in France to weave designs created by Lurcat, noted French tapestry designer, will teach here Wednesday through Friday.

Cruickshank has been in this country since 1960 and is now teaching tapestry designing and weaving at the University of Southern California.

First apprenticed in tapestry at the Dovocote Studios in Edinburgh at the age of 15, Cruickshank became head of those studios in 1946 and began to direct their work toward contemporary designs.

In 1952 he opened his own studio in Edinburgh where he began many experiments in design, colors and techniques as well as in the use of machine-woven yarns.

His largest work, a 16 feet by 8 feet tapestry, hangs in the lounge of the Pacific & Orient liner, the SS Dixier, but he also works many "home-size" pieces, often 6 feet by 5 feet.

Cruickshank brought his own 7 feet by 8 feet loom, weighing a thousand pounds, to America, but has designed a special loom for his Louisiana college classes.

He will bring his large collection of slides on the history of tapestry to SIU, and Brelend has arranged for him to give a general lecture on "The Evolution of a Tapestry," open to all interested persons, Friday night at 8 p.m., in the Allyn Building.

Trip To Shangi-La Offered On WSIU-TV At 7:30 Tonight

Ever wonder about the real "Shangri-la"? Tonight WSIU-TV visits the scene of this famous hill from the Hilton Novel, "The Light in the Piazzia." It was the scene of Damon Runyan's "The Light in the Piazzia," a novel set in a small Italian village. In the novel, a rich American comes to the hill for the sea and a change of pace, and finds a new life.

The SIU textbook service reports more than 50,000 books per term.

Aquaettes Give Annual Water Show Tonight

Meetings

Mete are any today. They start at 10 a.m. with the Inter-Varity Christian Fellowship getting together in Room F of the Center at 10 a.m. Another meeting at 10 a.m. will be the special Events Committee meeting.

Lectures

Charles C. Clayton, professor in the Department of Journalism, will speak tonight on the subject of "Fortune, Our Pacific Ally," sponsored by the International Relations Club. Discussion and refreshments will follow the lecture.

The Geography Department is sponsoring a seminar on which David Fox, professor in the Department of Geography and editor of the Englishman Looks at the USSR." The seminar will be held in the Agriculture Seminar Room at 7:30 p.m. Dave Reeves at the organ, and John Keller, baritone, will be presented in a concert tonight by the Music Department. It will start at 7:30 p.m. in Shryock Auditorium.

Films

The Psychology Department will be showing Psychology 201 films in Muckelroy Auditorium from 7:30 to 9:30 p.m.

Sports

Intramural sports will include shuffleboard, the Gym from 3-8 p.m.; softball, Thompson Point and Chautauqua Fields, 4-5:30 p.m.; and weight lifting, Quonset Hut, 7-10 p.m.

Women's Recreation Association has scheduled several events in addition to the usual program tonight, Tennis, New University Courts, 4 p.m.; Greek softball, Thompson Point Field, 4 p.m.; other softball, Park Street Field, 4 p.m.; house volleyball, Women's Gym, 5:45 p.m.; and modern dance, Women's Gym, 7:30 p.m.

Lessons

Charcoal sketching lessons will be given in Room H of the Center Programming Board, from 7:30 to 9:30 p.m. tonight. This service to students is sponsored by the Center Programming Board.

ANGL SCENE - Rehearsal of a scene from "Look Back, Angel!" which opens Friday night at the Southern Playhouse, are (left to right) Lewis Abern, Gary Stewart and Susan Pennington. The play has two complete casts but each actor appears in both performances, first in a major role and then in a minor one. Sherwin Abrams is the director. Tickets are now on sale at the Playhouse box office.

Fluegel To Give Graduate Recital

Neal Fluegel will give a graduate percussion recital Thursday at 8 p.m. in Shryock Auditorium.

Fluegel, who is the first to seek a Master of Music degree in percussion at SIU, will play selections by Bach, Goldenberg, Muczynski, Hallaway, Bohraviana, Colgrass, Diemer, Russell, and Bozza.

Fluegel, a graduate assistant in percussion will be assisted in his recital by Sara Allen, piano, and Warren van Bronkhorst, violin.

SIU GUYS AND DOLLS

An exquisite selection of jewelry will always please your MOTHER on HER DAY ... or give her a purse to show your appreciation and love.

MOM will know you gave her special consideration when you give her her gloves and other necessities to match her spring wardrobe.

Additional information from the staff of the Daily Egyptian
Lake-On-Campus Facilities
Open For Season Saturday

Summertime with all of its recreational delights is moving into the SIU campus. The beach at Lake-On-The-Campus opens officially for the season Saturday. Swimming will be allowed daily from 1 to 7 p.m.

A full staff of 22 students and two graduate assistants will be on duty from Saturday on.

Something new has been added; a ping pong table in the pavilion. Also new to students who were not on campus during the summer last year is the diving platform.

ID cards are a must to get into Tropic Star, the pavilion. Also new to students being charged thereafter are bicycles which can be rented for $1.00 for 1 hour to six hours. A charge of $1.00 for 24 hours is made with 50 cents a day being charged thereafter.

Facilities which can be checked out at no charge include softball, volleyball, badminton, shuffleboard and picnic baskets.

Five picnic shelters with tables and grills are provided in the area. These can be reserved by scheduling their use at the Activities Office.

From Tropic Star, the pavilion and the beach as well as in baskets...

Is Tropic Star for you?

College girls seem to know what they want. We get a lot of ideas about ring styling from American campuses. If there is such a thing as a consensus, it would sound like this: conservative styling, with a difference.

That's what we've designed into Tropic Star... the newest of the beautiful Artcarved diamond engagement rings. Like all Artcarved rings, it's styled for lasting beauty... guaranteed in writing for permanent value. Is Artcarved's beautiful new Tropic Star for you? See for yourself.

Fire Damage On Marion Square
Could Amount To $1 Million

MARION, III.

Fire damage in the Marion Public Square Monday has been estimated from $550,000 to more than $1 million.

The flames ranged out of control for over four hours, destroying six business places and causing severe damage to one other building.

Three persons were injured as over 100 firemen manned equipment from at least 14 Southern Illinois towns.

Low water pressure hampered firemen, and Mayor Robert Butler has urged a full scale drive to secure federal funds to rebuild the central city water supply system.

MOSCOW

A confessed British spy and a confessed Russian traitor, gladiators of hate at each other, pleaded guilty in a Soviet court Tuesday to charges that they relayed Soviet secrets to the West through the U.S. and British embassies.

The Briton was Greville Wynne, 42, a businessman who has made about eight trips to the Soviet Union, The Russian was Oleg Penkovskiy, 45, a former official of the Soviet Committee for Coordination of Scientific Research.

NEW YORK

There is no recession in the nation's economy on the horizon, Secretary of the Treasury Douglas Dillon said Tuesday.

"On the contrary," he said, "despite our high rate of unemployment I believe that our present economic activity shows every promise of continuing on the upswing."

- Groton, Conn.

Two workers were killed and another critically injured in a flash fire on the nuclear submarine Flasher, under construction here.

The accident was reported to have happened in the shipyards of the Electric Boat Division of General Dynamics.

Lee Suspended

Pending Outcome Of Court Case

Robert Lee, 20, a freshman from Jersey City, N.J., charged last week with showing pornographic films, has been placed in a status of suspension from the University, pending the outcome of his court case.

Lee was freed on $2,000 bond after a preliminary hearing in Jackson County Court.

He was taken into custody after SIU Police interrupted a scheduled showing of what was termed "lewd movies" at a fraternity house last week.

Authorities said the movie had been shown earlier in the evening at another fraternity house. A further investigation is being conducted in an attempt to determine where the films were obtained.

WHAT'S HAPPENED TO FALCON

EVERYTHING! AND YET...

Early this year we put a 164-hp V-8 in a new kind of Falcon called the Sprint, and entered the stiffest winter road test we could find... the 2,500-mile Rallye of Europe. We didn't know what would happen... but happen it did.

First, no one dreamed all the Rallye cars would have to experience the worst winter in decades. Snow, below zero temperatures, and the most demanding terrain in Europe took their toll. Two thirds of the 296 cars that started, failed to reach Monaco.

A lot of experts told us that the Falcon V-8's, untired as they were, could not hope to finish the Rallye with the best of weather. But not only did two Falcon Sprints finish, they placed first and second in their class.

But there were more surprises (for everyone) in store. Against all competition, regardless of class, the lead Sprint went on to take first in the final six performance legs.

We honestly didn't know the Falcon Sprint would do this well. But it showed us a Falcon with our new 164-hp V-8 is a car that can perform with the best of them. So a lot has happened to Falcon, and yet...

A six-cylinder Falcon has just finished the Mobil Economy Run and finished first in its class. It had to take a lot of punishment, too. 2,500 miles from Los Angeles to Detroit over mountains, deserts, and long stretches of superhighways. But the nickel-nursing ways of the all-time Economy Champ took all comers in its class.

So you see something has happened to the Falcon. It can be what you want it to be... a V-8 that travels in the same circle as Europe's performance kings... or a Six that can travel cross-country on a budget. There's something to put into your compact.

Student Elections

We support Wendell O'Neal for Student Body President.

We cite his liberal attitude, his active participation in Student Government and his personal involvement in the function of the University as well as other organizations in the community. This experience has enabled him to feel like a member of the whole student body, not just a representative of a particular group. He has demonstrated a willingness to listen to and work with all students, regardless of their background or beliefs. This is evident in his support for the student voice in decision-making processes, which is crucial for a truly representative student government.

Foreign Students In America

I wish to make some comments about the letter of J.S. de Santa Cruz published in the Egyptian of April 28th. He is concerned about the effects of cultural differences on the integration of foreign students into the American university system.

The primary interest of many foreign students arriving on campus is to find friends with the same skin color and language. As soon as they are found, they stay together as a "foreign clique." This prevents any good intentions of American students from entering this self-segregated community.

Too many foreign students always talk of their own cultural and educational system with a nationalistic mind and as being far superior to American systems. What are they doing here then?

While it is true to a certain extent that American Students “a priori!” are not very much interested in foreign colleagues, I consider it is the responsibility of the international students to awaken their interest with their conversations and their behavior. Jean-Jacques Lambert

"Foreign Student"

Letter To The Editor:

The time has come to call everyone’s attention to the further automation and the related plight of campus. It is represented by large green containers, presumably to act as waste cans. But one must carry more than his share of responsibility and be unable to notice what has happened. The lines of the SIU landscaping and buildings have been needlessly disrupted, subtracting from the aesthetic excellence of the campus, to which has been devoted much time and expense. However, setting economica aside, beauty for beauty’s sake is in itself enough to justify efforts at removing the eyesores. (Not being content with the plainness of the buildings, one organization, in characteristic fine taste, has chosen to paint on the sides of the containers bright plea for help to keep the campus clean.

Robert Robr

EIRYING DILLIARD

Save School Drop-outs Now

Between now and the end of the school year, thousands of American boys and girls will drop out of school. Most of them will be teenagers in high school. For countless numbers of them, it will be the major tragedy of their lives. These drop-outs will accumulate over the country. Many will take place in Illinois, in Pennsylvania, in Wisconsin —in every state in the union. Wherever they occur, there will be too many, even after allowances are made for the differing elements in the population and varying aptitudes for study and learning.

Heavy Pressures

School authorities are under two pressures with respect to drop-outs. The first pressure is the proper one of trying to keep students in school. The second is the increasingly powerful pressure of the enroth of students that is coming with the post-war population bulge. The pressure of ever more and more students tends to cause many school officials, whether they would admit it or not, to welcome drop-outs here and there on the grounds that these drop-outs make it a little easier to cope with the growing school population.

The realization of more and more students tends to cause many school officials, whether they would admit it or not, to welcome drop-outs here and there on the grounds that these drop-outs make it a little easier to cope with the growing school population.

Closing Doors of Future

But that is only the short view. There is only one way to see drop-outs and that is in terms of the careers at stake 10, 15, 20, 25 years from now. That there should be many thousands of drop-outs across the nation at a time when automation is spreading thru American enterprise is little less than madness.

What do these boys and girls without high school educations expect to do in the years ahead? They will find that machines have taken job after job after job formerly held by the unskilled. They still find it hard enough to get work now that will suit them. They will be the first to fall victim before still more machines and for the society of which they are to be a part.

These are crucial weeks. Parents, school officials, teachers, members of the clergy, business and industrial leaders, all in the community are keeping the 1963 drop-out toll as low as possible. There are few things more worthwhile that any adult American can do to the weeks immediately ahead than to help persuade some thoughtless, uninformed boy or girl to finish up this school year with a good record—and a resolve to go on in September.

We Need Facts

What value is a school counseling system if it does not see boys and girls over the drop-out hurdle? What statistics can the state offices of education compile and release that would be more worth knowing than the record of the schools of the state in terms of drop-outs? Does anyone know which state has the best record in keeping boys and girls in school—ever more ever more boys and girls in school—ever more ever more boys and girls in school—
Western Michigan will be the opponent Saturday night when Lew Harrington's SIU track team opens its home season at 7:30 p.m. Saturday night's meet is the first of two dual meets which the SIU students have a chance to see.

Last year Western Michigan won both the Mid-American and Central Collegiate Conferences outdoor track titles. The Broncos won the Central Collegiate with 53 1/2 points. SIU was fourth with 31.

In the Mid-American meet Western Michigan took the team title with 83 1/2 points. Western Michigan will bring eight two-year lettermen with them Saturday. Jerry Bashaw, Floyd Cook, Dick Greene, Alonzo Littlejohn, James McNutt, Dave Underly, Cal Williams and Dennis Wright are the lettermen.

Littlejohn finished in a four-way tie for second place in the high jump at the NCAA meet last year. He jumped 6-feet 9 inches. Neil Browne ran the mile last year at the Michigan AAU meet in 4:17.4. He is expected to join teammates Bashaw and Greene in the mile event against the Saluki entry of Bill Cornell.

Last year Cornell ran the mile in 4:00.2 at the NCAA. In addition to entering the mile, Cornell probably will be entered in the half-mile event too.

Bruce Burston will run the three-mile event for Western Michigan. He will be challenging SIU's Brian Turner, who last week won the event at Kansas in 14:39.7.

George Dales is the Western Michigan track coach and has built the school into national prominence. He took over the reins in 1952 and his success has been outstanding. When his WMU track team won the Central Collegiate title it ended a six-year reign of Kansas.

Horsehoe Meeting

There will be a meeting at eight o'clock tonight in Men's Gymnasium to discuss procedure for the intramural horsehoe tournament May 13.

There will be no more softball games until May 13 because the Spring Festival will be held on the Thompson Point Fields.

Northwestern Hands Netmen First Setback In 14 Matches

Northwestern University became the first team to knock off Southern's previously undefeated tennis team, as the Wildcats beat the Salukis Monday afternoon 7-2 at Evanston.

The loss marked the first time that SIU has lost in 14 outings this year.

By winning Monday's match, the Wildcats boosted their season won-loss record to an impressive 13-1.

Coach Dick LeFevre's squad traveled to Bloomington, Ind., yesterday to meet another Big Ten Conference member, Indiana University. The results of the match with the Hoosiers were not available.

In Monday's loss, Bob Sprengelmeyer was the only Saluki to win individual honors as he defeated the Badgers' Bill Rice in a hard fought singles match. Playing at the number four singles position, Sprengelmeyer kept his undefeated string on the line with 14 singles wins this year.

The Salukis gained their second point of the afternoon when Southern's number two doubles combination of Lance Lumadred and Wilson Burge beat Ken Paulson and John Erickson in three sets 6-3, 4-6, 6-4.

As expected, Northwestern's number one and two singles players Marty Riessen and Clark Graebner had little trouble in defeating SIU's number one and two players, Lumadred and captain Pacho Castillo.

Riessen, the defending Big Ten champ, downed Lumadred in two straight sets, 6-3, 6-0. Graebner, the 1961 Wimbledon junior champ, had an even easier time with Castillo as he beat the Saluki captain, also in two straight sets, 6-0, 6-2.

The Wildcats also spoiled undefeated strings of Roy Sprengelmeyer, Burge and George Domenech, as all three Salukis lost in singles matches ending win streaks of 13, 12, 12 respectively.

All three matches were fought right down to the wire with each match going three sets. Burge just did get nipped by Art Templeton in what was probably the hardest fought match of the day. The second set between the number five singles players was taken by Templeton, 15-13.

LeFevre scratched Southern's number three doubles combination at the last minute, as Domenech's racket slipped out of his wet hands and hit his teammate Bob Sprengelmeyer in the mouth. Two teeth were broken and five stitches were taken in Sprengelmeyer's lip. It was not determined if the injury will keep him out of the line-up for any length of time.

The Results:

Riessen beat Lumadred 6-3, 6-0.
Graebner beat Castillo 6-0, 6-2.
Paulson beat R. Sprengelmeyer 6-1, 1-6, 6-3.
R. Sprengelmeyer beat Rice 6-4, 3-7, 6-4.
Templeton beat Burge 2-6, 15-13, 6-0.
Skip Cago, NW, beat Dome­ nech 1-6, 7-5, 6-4.
Riessen - Graebner beat Castil­ lo - R. Sprengelmeyer 6-0, 6-1.
Lumadred - Burge beat Paul­ son-Erickson 6-3, 4-6, 6-4.

Harry Gurlcy, former SIU pitcher from St. Louis, pitched a three-hit shutout Sunday for the Murphysboro Red Wings, an amateur baseball team. Gurlcy struck out 14 and walked two in the game. Mur­ physboro won the game 11-0.

Winston tastes good like a cigarette should!
Baseball Team Plays Tulsa Here Today

SIU's baseball team plays host to Tulsa this afternoon at the baseball game at Chautauqua field.

Tulsa is a member of the Mid-American Conference and represents the second MVC school which SIU faces this season. Today's meeting is the first between the teams since 1939.

Tulsa, however, competes against the Salukis in golf, football and basketball.

Southern's Salukis hold a 2-0 lead against MVC members this spring, SIU beat St. Louis in a double header one game.

Tulsa enters today's game the record book but has played better than its record suggests. SIU split a double header with Notre Dame, Mike Leonard rated the number one collegiate baseball team, according to the coaches poll.

Against Nebraska in a three-game series, Tulsa came away with victories in two of the games.

Salukis Lead Indians

SIU held a 6-2 lead over Southeast Missouri after one-half innings of play yesterday in the first game of a double baseball game played at Chautauqua field.

Southeast Missouri took a 1-0 lead in the second inning when Glenn Kibler singled and scored after the ball rolled through Dave Harris' legs. Glenn Kibler's single took the lead in their half of the second. Dave Leonard walked and scored the second on Mike Pratte's single and scored after the ball rolled through the Missouri left fielder's legs.

Pratte scored the second run of the inning on Jim Long's double to left-centerfield.

Southeast Missouri scored once more in the third when Dave Hawkins singled, stole second and scored on Floyd King's base hit. The Indians are the leading Tulsa outfielder's legs.

Tulsa is led by Bill Lingo who is averaging .342, He has hit safely 13 times in 38 appearances at the plate, Mike Godat is next with a .290 average on the basis of his 16 hits in 50 times at bat, Joe Burge and Richard Goin are the leading Tulsa pitchers, Burge sports a 2.0 record and Goin is 1-0 for the year.

Ed Walter, a freshman right handed from Missouri, probably will start on the mound for SIU today.

The Salukis played yesterday afternoon against Southeast Missouri.

SIU is led in hitting by Jerry Qualle, Right behind him is Gib Snyder and Ron Landreth, Qualle is a sophomore third baseman, Snyder is a shortstop and Landreth plays second base for the Salukis.

Qualle is hitting .389, Snyder .353 and Landreth .342.

Mike Pratte, SIU's junior catcher, is next scored with a .333 batting average.

Tulsa's pitching rotation includes the following items:

1. That the Communications and subsidiary councils be quickly organized and that a simple and inexpensive program be set up for musical activities.
2. That the policy boards as well as the Council or Intercollegiate Athletics formulate the length and direction of operation of their programs.
3. That these boards develop and submit budget requests to the Student Government to finance these recommendations in accordance with the student government policies.
4. That a proper response of Student Government to these recommendations in endorse-ment or recommendation of policy change--not a withholding of funds.

Jeffrey Barlow, Wendell O'Neill, and Bob Preyer prepared the proposals.

GUY RENZAGLIA

Renzaglia Chosen for Letterman's Hall Of Fame

Guy Renzaglia, director of the SIU Rehabilitation Institute, and Stanley J. Tracy, director of alumni relations at George Washington University, have been chosen to George Washington's Lettermen's Club Hall of Fame.

Both men will be honored guests, along with members of the board of governors and past presidents of Tulane's Lettermen's Club at the banquet next Tuesday.

Renzaglia is a member of the 1939 Tulane football team. He has been teaching in physical education, counseling and psychology at Minnesota after graduating from Tulane in 1941.

He has been teaching in Minnesota, Montana and Illinois for the past 25 years.

He accepted the position of associate professor and director of the Rehabilitation Institute at SIU in 1955.

The fourdimension: TIME

...stil a mysterious concept to science. Time is only an idea, an abstraction...an area of shadow, speculation and surprise
