Cancelling Draws Censure

The proposal to hold a demonstration in a bill submitted by J Oey Finney, Thompson Point senator, for Lenzi. The bill also condemns the University for the decision not to show the film.

During discussion on the bill, William Moulton, dean of students, urged caution on the part of the Senate, but stated, "The decision not to show the film was a very bad decision."

Robert L. Gold, assistant professor of history, told the Senate that a group of faculty was upset with the decision not to show the film. "If it comes to some type of display, we'll be with you," Gold said.

A resolution recommending that University President Delyte W. Morris, they were student body president Ray Lenzi, and student senators Steve Antonacci, Paul Wheeler and Sara Kiss.

The students reported that discussion took place while they were in attendance centered around football and problems in deciding on and building a new stadium. The students said that it was their impression that the Council considered football the key to the decision on the entire future of athletics. The difficulty in obtaining permission from the Illinois Board of Higher Education to build a stadium, and the difficulty in selling bonds to pay for it, were cited as problems should football expansion be decided on, according to the students.

Lenzi told the Council that he believes the student body is in favor of football expansion, especially the personal reservations and called for any increased emphasis on academics to be followed by more emphasis on athletics.

Antonacci, chairman of the Student Senate committee which endorsed expansion, backed the committee report in his comments to the Council.

Miss Kiss and Wheeler both spoke in opposition to expansion. Wheeler said he does not feel that the two referendum on the matter was representative of the opinion of the student body.

Wage Hikes for Students

January by the university. The maximum wage rate was hiked from $1.75 to $1.85 for undergraduates and from $2 to $2.50 for graduates. Because of the raise and insufficent funds, however, in some departments to meet the wage demands, some students will be forced to work fewer hours per week and others will be laid off. Frank C. Adams, director of Student Work and Financial Aid, said the money shortage in most departments won't have much effect until about April when the new wage program is well underway. Adams also said that he did not believe the program will create a big problem this year. He said there are still job openings on campus, and students are displaced in some departments, the Student Work Office will assist in placing them in other jobs.

Complaints Cancel Showing

AAUP to Issue Statement on Film

A spokesperson for the American Association of University Professors said Wednesday that a statement has been drafted concerning WSIU-TV's programming of a controversial film which had been labeled "an unacceptably coarse film."

Jo Ann Boydston, chapter president, said the statement will be delivered to Ralph Ruffner, vice president for area and student services. The text of the statement will be available for publication Thursday afternoon, she said.

"Inside North Vietnam," a National Education Television documentary, was to be shown Monday and Tuesday evening but was cancelled by the SIU's professional faculty, the American Association of University Professors. A spokesman for the group said the film was "meaningless." The student pay rate was increased through the investigating and insistence of a Student Senate committee, Ray Lenzi, student body president, said. "We're against students having their hours cut but we have to look at this further."

"Gus Bode" says "Inside North Vietnam" probably isn't half as interesting as inserting the Front Page Story of Why the Film Wasn't Shown on WSIU-TV."
Mayoral Aid Hits Hiring Practices

By George M. Killenberg

The Carbondale Rotarians were told Wednesday that last summer's racial unrest may repeat itself unless more jobs are provided for the city's unemployed Negroes.

"The town is quiet during the winter when the young men go back to school," said John Holmes, an SIU graduate assistant on assignment as an aide to Mayor David Keene. "But come summer," he said, "they're going to want jobs. And in the summer, people become more volatile."

Holmes, an articulate spokesman for the young people of Carbondale's Negro community, met with city officials and local leaders last summer, and told them then what had to be done to keep the lid on racial violence in the community.

"The situation was close to exploding in August," said Holmes, and it could boil over this summer unless more employment opportunities are made available.

"I'm here to appeal to you," Holmes told the Rotarians, "the influential people of this town, to help the poverty stricken people of Carbondale."

Holmes commended the businessmen of Carbondale for offering to find work for skilled Negroes but pointed out that the Employment and Resources Center at city hall has a list of over 300 persons who are not skilled but who desperately need employment.

"These people have families to support and they need proper shelter and clothing. They may not be able to fill out an application or carry on a conversation but they're able bodied and willing to work," Holmes said.

"We have state and federal welfare programs," he said, "but I feel it is up to a city to solve its own problems."

One big step to a solution, Holmes said, is a "new approach of looking at job qualifications." Elaborating, Holmes explained that many Negroes are eliminated from jobs because they have difficulty completing and passing employment tests.

The place to go when you're feeling low is Speedy's the SCARABS are Playing tonight 9:30 p.m. to 1:30 a.m.

5 miles North at Desoto on Hwy. 51

During the last eight minutes of this picture the theatre will be darkened to the legal limit to heighten the terror of the breathtaking climax. Of course, no one will be seated at this time.
Activities

**City Manager Conducts Seminar**

Department of Economics will sponsor a lecture entitled "The Poverty Program in a War Economy" by James Smith from 7:30 to 9:30 p.m. today in Lawson Hall, Room 101. Convocation series will present Henry Morgan, lecturer and television personality, at 10 a.m. and at 1 p.m. in Shroyer Auditorium. Adult Education Lecture Series will be from 7 to 10 p.m. in the University School Studio Theater.

**Egyptian Dinner Club** will have a dinner and meeting at 7 p.m. in the University Center Gallery Lounge. Egyptian Dinner Club will have a dinner and meeting at 7 p.m. in the University Center, Ballroom B.

Department of Music will have a faculty recital from 6 to 11 p.m. in Home Economics Auditorium, 140B.

Department of History will sponsor a lecture from 7 to 10 p.m. in Home Economics Family Living Laboratory.

Jackson County Stamp Society meeting will meet from 7:15 to 10 p.m. at the Latin American Institute.

Block and Bridge Club will meet at 7:30 p.m. in the Agriculture Seminar Room. A wrestling meet between SIU and Oklahoma will be at 7:30 p.m. at the SIU Arena. Sailing Club will meet at 9 p.m. in Room 102 of the Home Economics Building.

Forestry Wives' Club will meet from 7:30 to 10:30 p.m. in Morris Library Lounge and Kitchen. Pi Sigma Epsilon pledges will meet at 9 p.m. in the Agriculture Seminar Room and Kitchen. School of Agriculture will hold a Student Council and Faculty Conference from 9 to 11:30 a.m. in the Agriculture Seminar Room and Kitchen.

Department of Music will present a concert by the Illinois String Quartet at 8 p.m. at the Illinois Student Foundation. Region of Opportunity Lecture Series will present "The Anatomy and Future of Southern Illinois Economy" conducted by David J. Lack at 7 p.m. in the Studio Theater of University School.

Probe presents "A Time for Burning" at 8 p.m. in the Morris Library Auditorium. Southern Players will present "The Man Who Lived the River" at 8 p.m. at the Communications Building Theater. School of Technology will hold a seminar entitled "The Technical Man as an Administrator" conducted by William Norman, city manager of Carbondale at 4 p.m. at the Technology Building, Room A-122. International Relations Club will sell tickets for "The Collector" from 1 to 5 p.m. in Room H of the University Center. Southern Illinois Peace Committee will meet from 9 a.m. to 5 p.m. in University Center, Room H.

**Ag Seminar Set For February 23**

The Agricultural Seminar Committee will sponsor a seminar/lecture on the School of Agriculture objectives from 1 to 5 p.m. Feb. 23 in the Agriculture Building Seminar Room.

This is Benjamin. He's a little worried about his future.
What Price Calm?

As a boy we enjoyed stories in which the young, prince put on old clothes, and wandered through the city learning more about his people than was possible back in the palace where he was surrounded by courtiers eager to protect him from unpleasant facts. Maybe it is impossible today for royalty-elected or hereditary-to go slumming, but we find hard to share the nearly universal dis­ may when someone breaks through the communications shield that surrounds the White House.

When a Virginia senator addresses a question to Lyndon Johnson from the pulp it is condemned widely for poor taste, but this should not be allowed to obscure the fact that the question is a very real one to many Americans. It was asked so publicly and so eminently that the President to the scope of the doubts that confuse the nation.

When Fartha Kitt told Mrs. John­son the other day that America's youth are angry and rebellious over the war in Vietnam, high taxes and lack of opportunity, it just could be that here was the most honest statement ever made at that Washington luncheon. Find­ ing out whether or not Miss Kitt spoke the truth is more important than reporting that Mrs. Johnson's eyes welled up with tears.

Miss Kitt has prompted a lot of talk about whether or not the U.S. is losing another's property. These may be good reasons why people should not riot, but they are not very helpful in answering the real ques­tion of the moment. The reaction to Miss Kitt's out­burst has demonstrated the depth of our unwillingness to face the issue squarely.

The news of Watts, Detroit and Newark is muted by the time it reaches New Hampshire. It takes real effort to listen. It is easier to dismiss Miss Kitt as a Negro rabble rouser, and blame the Pacifism Congressional agitators. This way we can pass responsibility along to others and the FBI, and join the Pres­ident and Mrs. Johnson in avoid­ing the truth that disturbs the pleasant tenor of our lives.

From the Millford Cabinet, N.H.

Letter

Sportsmanship

To the Daily Egyptian:

As we stand at the threshold of whether or not to become more proficient in our athletic program there is one pertinent matter one should consider.

In our sports endeavors, one always considers sportsmanship as one of the values desired for participation. In the game of basketball, where two officials control most of the tempo of the game, it is usually normal to have less of a difference between the officials' decisions and the fans' viewpoint.

If one of the visiting teams' members is in the act of shooting a free throw, it is very unimportant to attempt to help him in any manner.

In that case, some of the visiting teams' members had any comment to make about the free throw at SIU, this would be mentioned.

Therefore, we don't why we act like good sports and remain si­lent when the opposing team is in the act of shooting a free throw because we want to become a first class athletic institution, this is one step in becoming a first class student, citizen, and spectator.

Norman C. Kaiser

Letters Welcome

It is the policy of the Daily Egyp­tian to encourage free discussion of controversial issues. Mem­bers of the University Community are invited to participate with mem­bers of the Daily Egyptian. Please confirm the following statements for this page with the understanding that acceptance for publication of the same article, on the part of any editor, does not indicate the will pacificism lead to destruc­tion? The only answer can be "No." Pacifism and non-violent techniques seem to offer more gen­uine hope for the future than any method that is not available for de­fending human values.

The pacific position is one that at this crucial period in history and in our war to save the human race are the only options possible for de­fending human values. We must be available for defend­ing human values. We must be available for de­fending human values.

We all know the satisfaction of constructive activity, feelings of love and companionship. We desire a better world and a re­sponsibility to kill. The demand of the nation is to make yourself available for military service, and in order to become a better person or to do good work, you must be able to kill or destroy if so ordered. The three women also claim that "the interest of the individ­ual must be subordinate to . . . society." I would only advise them to become familiar with Title I of the Universal Military Train­ing and Service Act.

An Editor's Outlook

Wages of Greed--'Baloney Money'

By Jenkin Lloyd Jones
General Feature Corp.

If most of us keep insisting on a lifetime as the root of all conse-
quences, we're all going to get it--in the neck. We can wreck this broad, beauti-
ful and rich country. We have all made a pretty good start at it.

The dollar is in trouble. Washing-
ton is at last alarmed at the draining away of our gold reserves. The Presi-
dent has urged Congress to pass legislation that would dis-
courage trade outside the Western Hemisphere, dry up foreign in-
vestment by American cor-
porations and multiply our subsidiaries abroad immediately taxable. These measures would help--a little.

But almost simultaneously, Vice President Humphrey was making a speech to African nations in Addis Ababa, extolling Ameri-
can sacrifices in the war to cut back foreign aid. Was he saying the private spending abroad is less because of the conse-
quences? We're in it so because it gives their children a better education. It is so because it gives them a better education. Education is a good thing. It will be expected to rally round the usual forces that have just been.repeatedly weakened, it is the same reason: loss of con-

The failure of the schools to render other people's children harmless to society is then likely to be explained by the alleged weakness or softness or permiss-
iveness prevalent in the educational system. More and more repressive measures, extending over wider and wider fields, will be demanded. The slogan will be: "We can't print money. So when the rest begins exceeding income it has to be done. But government can't print money. It can sustain def-
cit s for a long time by simply creating its own credit.

Yet both can go broke, and for the same reason: loss of con-

What Kind of World

Education--Leg Up the Ladder

By Robert M. Hutchins
Los Angeles Times

Most Americans are convinced that education is a good thing. It is so because it gives their children a leg up the ladder.

This reason seems certain to lose its appeal as the world changes before our eyes. Training for the work there is, as Gilbert and Sullivan re-
mark with an amazement that is somebody's, nobody's anybody's. Of course, training is likely to become the object of our attention. They are fairly dis-
orderly. They are even rude. The more education they have, the more disorderly they seem to be. The doctrine that education makes no difference but so is the graduate student leading a hunger demonstration against the university administration or the draft.

When we hear education the sys-
tem is ineffective in rendering the youth who have not gone to school use-
ful. The danger is that the educa-
tional system will become frankly cus-
dodial, for which we have already been too long afloat. The nation is losing confidence.

Two stories concerning the bat-
tle to save Lake Michigan appeared in this newspaper recently, and their headlines made an intriguing contrast. One read, "City to Close Schools." The other was, "U.S. Pollutes Without Warning: Else, U.S. Tolls 4 States." Reasoning was to the effect that federal government was sternly de-
manding action from the states while the federal government was doing nothing for action. And you'd be right. Federal experts have warned a state conference on controlling lake pollution have pained a grim picture of what an infected lake means for the future of Lake Michigan. They have said the lake is in a state of near collapse. They have said that the lake has leared to deteriorate, and that the process will go on speeding up unless it is reversed; that sections of inshore waters have already run an appalling course of degradation; that the endless dumping of pollutants into the lake is throwing its life-system out of kilter and literally killing it as a precious natural resource.

The warnings were not even an added punch by Walter Kiechel, a member of the United States attorney general's Legal Air Force. He made it clear that if the four states surrounding Lake Michigan do not enact laws to clean up the lake, the federal government will take action to control the pollution.

All this sounds encouraging--a promise of strong federal sup-
port for efforts to save the lake. But the airy speculator points out that the federal government has not made any promise of action yet. That is the issue of the future of Lake Michigan. They have said the lake is in a state of near collapse. Two-Week Argentina Assignment

Dean Acts as Consultant

Wendell E. Keepper, dean of the School of Agriculture, will go to Argentina Sunday for the SIU President's Office on a two-week assignment as an agricultural consultant to Universidad Catolica de Salta.

Established by the American Jesuits about two years ago, the new university at Salta in northwestern Argentina plans to establish a school of agriculture for developing leadership and improving the agricultural resources in that part of the country. The institution also is emphasizing educational programs in mining engineering, business education and community services.

Keepper will devote the two weeks to observing the agriculture in northwestern Argentina and in advising the university at Salta in developing suitable teaching and research programs which will apply best to that part of South America. Keepper's assignment is the result of a visit by Edward F. Justen, recrrent of the new university, to the Carbondale campus last August. The visit and conference here by Justen was part of a month's trip to the United States to seek help of various kinds for developing the new institution.

Keepper has received numerous foreign assignments as an adviser for evaluating agricultural education and development programs. These have included two trips to Venezuela and one to Bolivia in South America, two trips to Costa Rica in Central America, one visit to Iran, and a two-year assignment with the United Nations Food and Agricultural Organization's office in Italy.

Prison Farm Director To Address Officers

Thomas Munro, new super-, incident of the scandal-ridden Arkansas prison system, will address students in a correctional training course at SIU Thursday.

Munro, a former staff member in SIU's Center for the Study of Crime, Delinquency and Corrections, will speak to the class at 6:30 p.m. by the long-distance "tele-lecture" method. The system will enable two-way conversations between the Center and Munro at the Cummins Prison Farm in Arkansas.

The class is made up of 79 penal officers attending an eight-weeks staff training institute at SIU. The institute is one of a series offered by the Center under a Law Enforcement Assistance Act grant.

Robert Brooks, lecturer in the crime center, said Munro will talk about upgrading training and education in a "primitive prison environment."

Munro went to Arkansas in 1967 to take over the Tucker Prison Farm in a prison reform move by Gov. Winthrop Rockefeller. After taking over the entire system, he was sent to Cummins Prison Farm which made headlines this winter with the discovery of bodies buried on prison grounds. Munro and Arkansas State Police are pressing the Cummins investigation.

Says Vietnam Not

Akin to Freedom

"The Vietnam war is a defense of the vital interest of big business," Socialist Worker's Party Candidate Fred Halstead told a campus audience Tuesday.

Halstead was one of a series of "controversial speakers" to appear this school year. He was sponsored by the Philosophy Club and the Free University Center.

declaring that "nothing could be more against the interest of this nation than the war in Vietnam," Halstead said the American effort there "has nothing to do with human freedom, only the right of big business to invest."

Halstead added that there are "crooks" in the labor movement who appear to be supporting the war effort.

Instructor Improves

Melvin L. Siener, assistant professor of music, is a patient in the Intensive Care Unit of Doctors Memorial Hospital following hospitalization Thursday.

Mrs. Siener reported Tuesday that he is "much better" and "is improving." after what was described as a heart ailment.

Green Beret Installation Falls to Viet Cong Tanks

SAIGON (AP)—The Lang Vei Special Forces camp was reportedly overrun by North Vietnamese troops supported by Soviet-built tanks. South Vietnamese headquarters reported Thursday, but it said 76 defenders, including 12 Americans, escaped.

A government spokesman said the camp, astride the invasion route from Laos in South Vietnam's northwest corner, was overrun about 6 a.m., Saigon time. The camp had been under siege for 18 hours by infantry, rockets, flame throwers and, for the first reported time, Reagan-made tanks.

The spokesman said 316 defenders, most of them civilians, were killed or wounded or missing. He said the survivors escaped to the Marine combat base at Khe Sanh, about three miles to the east. He also said 26 civilians, four South Vietnamese Special Forces troops and 12 U.S. and Green Beret volunteers, were captured.

A focus of the latest Communist offensive shifted to the northern frontier, the U.S. command said, as a quarter of the enemy had been killed in the last nine days of fighting throughout the country.

On the allied side, 2,043 troops—including 703 Americans—were killed since the Communists opened the way's biggest offensive against South Vietnam's cities. The wounded included 3,729 Americans, 4,493 South Vietnamese troops and 154 other allies.

It was the second frontier Special Forces camp to fall to the Communists in the last two years. A Shau, about 80 miles to the south, was seized in March 1966, and was never retaken.

The Vietnamese command had announced Wednesday evening that the Lang Vei camp had been overrun and that an aerial observer reported seeing enemy soldiers swarming through the perimeter.

The U.S., Command later retracted the statement, but observers held it unlikely that defenders were holding out in bunkers and that they had reported radio reports from the embattled defenders as late as 4 p.m., Wednesday.

Kerner Will Not Run

SPRINGFIELD (AP)—Illinois Gov. Otto Kerner decided Wednesday not to seek an unprecedented third consecutive term, opening the door to a shuffling of the 1968 Democratic state ticket.

Speculation immediately centered on three or four potential candidates to replace him, picketed by the Democratic Central Committee.

One of them is R. Sargent Shriver, director of the federal antipoverty program and a resident of Illinois.

Other widely discussed possibilities include State Treasurer Adlai E. Stevenson III, son of the late ambassador to the United Nations, State Auditor Michael J. Howlett and Atty Gen. William G. Clark.

Kerner, 59, told a news conference, "I choose not to run." He added: "My reasons are personal."

Kerner's wife, Helena, has been in ill health for several years.

Although Kerner disclaimed it, reports have persisted he would be tapped for a high federal post if he did not run again.

The Illinois governor has been mentioned as a possibility for secretary of health, education and welfare, and for a federal judgeship.

Sanitation Workers Receive Ultimatum From Lindsay

NEW YORK (AP)—Republican Mayor John V. Lindsay ordered 10,000 striking city sanitation men Wednesday night to return to their jobs by sundown. Implied but not specifically said was an alternative of their duties by the National Guard.

The mayor's back-to-work ultimatum was issued as an estimated 50,000 tons of garbage littered the city's streets, and as a predicted snowstorm posed a threat of municipal paralysis.

The city's snow-removal plows and trucks are immobilized by the six-day-old strike.

Lindsay told a news conference he intended to "fight lawlessness with every lawful resource we have." He did not mention the National Guard. But he announced that the city's Emergency, Control Board and the Board of Health will meet at 6 a.m. Thursday to "make a recommendation on whether a city-wide emergency should be declared."

Such a recommendation would be a necessary prelude to any Guard call-up, Lindsay's deadline for the return to work was 8 a.m. Thursday.

The European Union: An Economy In Trouble

The European Union is facing a growing economic crisis, with several member states struggling to meet their fiscal targets. The situation has been exacerbated by the recent surge in energy prices, leading to higher inflation rates and a slowdown in economic growth.

The Union has taken steps to address the crisis, including the establishment of a €1-trillion recovery fund. However, some experts warn that more needs to be done to ensure the long-term stability of the region.

The Future of the Eurozone

The future of the Eurozone remains uncertain, with some predicting a deepening of the current economic downturn. Others see hope in the potential for greater fiscal coordination among the member states.

The Role of Monetary Policy

The European Central Bank (ECB) has been under pressure to implement more aggressive measures to stimulate the economy. The ECB has already lowered interest rates to record lows, but some believe more needs to be done to support the region.

The EU's Response

The EU has been proactive in its response to the crisis, with the establishment of a number of new initiatives to support member states. These include the recovery fund, which aims to provide €1 trillion in emergency aid over the next decade.

The Future Outlook

The outlook for the EU is mixed, with some predicting a slow and painful recovery, while others see brighter prospects for the future. The key will be the ability of the region to adapt and innovate in response to the challenges it faces.

Soil Specialist To Discuss Food and Man

Joe H. Jones, SIU associate professor of plant industries, will be the speaker at the annual meeting of the Monroe County Soil and Water Conservation District in Waterloo Monday evening.

Jones will be talking on the topic, "Conservation: Food and Man." The meeting will begin at 7:30 p.m. in the Farm Bureau meeting hall. Refreshments will be served at the end of the program.

Jones came to SIU in 1964 as a specialist in soil physics, coming from Ohio State University where he held a research position. He received his doctorate at Ohio State, specializing in the structure and composition of soil. Earlier he was with the U.S. Public Health Service in Ohio, working out of Cincinnati. He is a native of Marshall County, Ky., and was a graduate of Murray State College.

Besides his teaching duties in the SIU School of Agriculture, Jones has been conducting research on soil moisture problems in the area.

OEO Researcher To Address Group

A seminar featuring economists from four universities will be held Friday in the River Rooms of the University Center.

Participating in "The Joint Seminar in Theoretical and Applied Economics" will be SIU and the universities of Missouri, Kansas and Iowa.

Four papers will be presented, including one by Charles G. Staloh, assistant professor of economics at SIU, entitled "The Role of Monopoly Power in the Initiation and Propagation of Price Level Changes."

Featured speaker will be James D. Smith of the research division of the U.S. Office of Economic Opportunity. He will speak on "An Estimate of the Income of the Very Rich."

Activities Board to Schedule St. Louis, Marion Bus Trips

The Student Activities Programming Board has scheduled several activities for the coming weekend.

The Campus Folk Art Society will host a folk sing at 8 p.m. Friday in Morris Auditorium.

The Recreation Committee of the Activities Programming Board will provide a free bus Saturday to Joe's Skating Rink in Marion. The bus will leave the University Center at 9 p.m. and will return at approximately 12:30 a.m. Interested persons should sign up for the trip before Friday noon in the Student Activities Office. Cost for skating time and skate rental is $0.50 per person.

A trip to the St. Louis Blues-Philadelphia Hockey Game in St. Louis will leave the University Center at 4:30 p.m. Saturday. Interested seniors should sign up for the trip before Friday noon in the Activities Office. Total cost per person is $5.

Artist-Physician Exhibits In Two-man Delaware Show

A former art student at SIU who deserted art for medicine and continued to paint in whatever spare time an M.D. can find, has had his work shown in a two-man exhibition at the Newark Gallery in Newark, Del., Jan. 7-Feb. 1, according to Burnett H. Shryock, S.S., dean of the School of Fine Arts at SIU's Carbonate Campus.

Dr. Arnold Chanin was a graduate art student in 1957-58 after obtaining his bachelor's degree from Antioch College, and has also studied at Carnegie-Mellon Institute and the Sculpture Center of New York. He holds the M.A. degree from California State College at Los Angeles, and completed his medical training at California College of Medicine.

He has had both one-man and group shows of his work in Ohio, Los Angeles and Dover, Del., and has taught at Antioch College, SRI, Eastern Michigan, National Music Camp, Pembroke/Country Day School in Kansas City and Sao Gabriel Adult School in California.

Chanin at present lives at 3528-A High Street, Dover, Del., where he is currently serving a two-year tour of duty with the U.S. Air Force. A native of Pittsburgh, he formerly made his home in Los Angeles.

Meet At The Moo Open til 2

Friday & Saturday

other days til 12:30

... NO CARS ... NO MOTORCYCLES ... NO GUNS ... NO GIRLS ... PHEW! AT LEAST, THERE'S NO RULE AGAINST MOO-BURGERS.

The Moo's Manager

Jack Baird

SIU Alumnus
Olympic hopeful Donna Schaeenzer is a leading candidate from the SIU Women's gymnastics team to make the summer Olympics in Mexico City. She will lead her team in a split dual meet against the University of Washington and Michigan State University Friday night at 7:30 in the Arena.

Team's Shooting Declines Slightly

Since the 67-62 loss to Southwest Missouri State five games ago, SIU's opponents have outscored the Salukis in the season's total points column.

Going into tonight's action against Duke at Madison Square Garden, Saluki opponents have scored 1,077 points for a 63.4 average while SIU has scored 1,073 for a 63.1 points-per-game clip.

Oddly enough both the Salukis and their opponents have scored at a .43 percentage from the floor.

At the free throw line Coach Jack Hartman's cagers have been somewhat humbled as they've been successful on only .64 percent of their charity tosses while the opponents have a percentage of .70.

Dick Garrett, despite the fact his scoring average has dipped 0.2 points, continues to hold a solid lead in the team scoring race. Garrett is averaging 18.9 compared to runner-up Chuck Benson with 12.1 points.

Willie Griffin, still suffering from a scoring slump, saw his scoring average dip from 11.3 points per game to 10.8 p.p.g.

Intramural Cage Games Scheduled

Eleven games have been scheduled for today's intramural basketball action.

The scheduled is as follows; 6:45 p.m. - Indians vs. Lentz Loufers, U. School. 8 p.m. - The Jet Set vs. The Guns. 8:15 p.m. - ROTC vs. Rim Rammers, Chicago Bears vs. The Blades, Sopwith Camels vs. The Gunners, The Aphrodite's vs. Sands II, Arena.

Injuries Plague American Olympic Team

GRINNELL, France (AP) — Peggy Fleming's artistic skating leg got the United States off to an exhilarating start Wednesday, but the ankles of skaters Billy Kidd and Monday forward Craig Fulkman soon turned the Americans' Olympic cheer into gloom.

After Italy's Franco Nonnes stumbled, France's Claude L. Carlier followed with a bad left ankle.

The 19-year-old world champion from Golden Valley, Minn., was off to an exhilarating partisans had deserted.

Bob Beattie, coach of the U.S. skiers, wasn't certain about Kidd's presence for Thursday's downhill.

"Billy's all but out of it," Beattie said after examination disclosed the 24-year-old Stone Valley, W.Va., had suffered a sprain.

Kidd himself preferred to look at his situation optimistically, saying: "It's okay. There was no break, and I hope to be able to race in the downhill."

Kidd, who injured the same ankle and broke his left leg in 1966, fell at about the third check gate when he thought Fulkman had closed his left leg and a binding opened accidentally.

Fulkman's mishap came at 8:33 of the second period just after he returned to the ice following a tripping penalty.

He was chasing the puck into Swedish territory when he slipped and crashed feet first into the boards.

Dr. Daniel Hanley, head of the U.S. medical team, said Fulkman's leg will be in a cast for 10 days.

The U.S. team lost to Canada 1-0 Tuesday. The Americans take Thurs- day off but the next day must face the powerful Russians, who are favored to repeat as the gold medalists.

On the brighter side was Miss Fleming, a pretty brunet who was as picturesquc in her sky blue dress with white lace collar as she was in her figure skating.

"I think I'm doing all right," she said after she had completed her day's work. She will perform the remaining three school figures Thursday and the freeskating segment of the competition Saturday.

Albertina Noyes, 19, of Arling-

ton, Mass., stood in fourth place with 332.5 points when Janet Lynn, 14, of Rockford, Ill., was left with 295.5.

Duke Threatens Cagers With Untimely Contest

By Dave Palermo

The Saluki cagers return to the scene of their greatest triumph tonight at 6 o'clock when they take on the Duke Blue Devils in Madison Square Garden. It was a little less than a year ago that SIU invaded New York with a 20-2 record and raked the champions of college division basketball by both the UPI and AP. The short but quick Salukis returned four games later sporting the championship.

Duke was one of the four teams to fall to Southern during the NIT. The Blue Devils met their fate in the quarterfinals losing, 72-65.

However, this season is a different story. Southern returns to the Garden with a mediocre 9-8 record against Duke's 12-3 slate.

Coach Jack Hartman's cagers will be facing their biggest test of the season and it may be coming at the worst possible time.

The Salukis are struggling along on a four game losing streak, their worst since the 1963-64 season when they lost four straight.

On the other hand, the Blue Devils have been bowling over their opponents all season and are rated among the top 20 teams in the nation.

The two teams have played one common opponent, Maryland, and the results leave Southern in no comfort. Duke swamped the Terrapins twice, 84-52 and 85-64, while the Salukis had their hands full in winning 73-72 in an overtime contest during the Sun Bowl Tournament at El Paso, Texas.

The Blue Devils also sport an All-American candidate at center in Mike Lewis. The 6-7 senior is leading the team in scoring and rebounding. He is averaging 23.6 points and 15.2 rebounds a contest.

Forward Steve Vandenberg is next in scoring with 13.3 points per game while guard Dave Golden, a scorer of Pekin, and forward Joe Kennedy follow with 14.1 and 13.4 respectively.

Starting at the other guard spot will be Ron Wendelin, who is averaging only 6.4 points a game.

Vandenberg stands 6-7, while Kennedy measures in at 6-6. Golden is 6 feet even and Wendelin is 6-1.

The Salukis lineup is somewhat of a question mark with the 22-point performance of center Howard Keene, who subbed for Bruce Burchak, and the surprise insertion of Craig Taylor at a guard spot in the Kansas State game Saturday.

Duke Stalwart--Steve Vandenberg, Duke University's fine forward, is one of the reasons the Blue Devils have accumulated a 12-3 record and ranking among the top 20 teams in the nation. Vandenberg is averaging 15 points and 9 rebounds per game.
