Enrollment Drops 700 From Fall

* Percy Attacks 'Vague' Ideas For Peace

CHICAGO (AP) - Sen. Charles H. Percy, R-Ill., said Wednesday that the administration should cease its "vague pronouncements" on U.S. willingness to negotiate the Vietnam war and instead offer specific invitation to all parties concerned in the war.

"Such an invitation may truly open the door to peace," Percy told the Chicago Headline Club.

Percy said that if the Ad­ ministration would offer to open negotiations as of a specific date, perhaps March Percy and the Senate would both prove our own genuine desire to negotiate and to test the enemy's interest in negoti­ ation.

"The prospects for negotia­ tion would be better if we would offer to open negotiations in the bombing of North Vietnam as soon as negotiations began," Percy said.

"This cessation would not be unconditional but would continue only as long as the North Vietnamese and the Viet Cong nego­ tiate in good faith.

"Without a precise, defined invitation to open negotiations, the Senate would have no ex­ pect no precise, defined re­ sponse. We would be left without a specific invitation to talk can the administration administer the world of our determination to end this war.

The senator said that the Viet Cong must be a party to the negotiations "for, like it or not, the fact remains that the Viet Cong control large regions of South Vietnam."

Student on Bicycle Hurt in Accident

An SIU student was hurt when another person hit the car-bicycle accident in SIU parking lot number five by the President's Office.

The student was identified as Paul Freed, a 27 year old freshman from Dubuque, Iowa.

The car was driven by Richard N. Hugun, a fresh­ man from Glenview.

Freed was taken to the Health Service where X-rays were taken. They said he was not seriously injured.

Freed is being held at the Health Service overnight for observation.

Operation Costs Doubles

Senate Reconsiders Student Bus Service; Expense Looms as Factor in Bid Renewal

By Kevin Cole

Campus Senate will consider
not renewing the contract with West Bus Service in the fall.

The student bus service costs student government about $13,000 a year for operation and maintenance, SIU administration puts up more than $20,000 as its part of the annual bill.

Bob Dinman, student body president, urged senators to look at the value of the bus service in light of this cost.

He said it costs 62 cents a mile to operate the three bus routes this year. Last year the cost was 37 cents a mile.

By planning now for the fall, the Senate might prompt ad­ ministration or the Board of Trustees into actions on the transportation situation.

The action might take the form of a reconsidered Board decision on motor vehicle regulations, or of a different administrative interpretation of those rules, Dinman said.

The SIU Vehicle, Traffic and Safety Committee is in­ vestigating ways in which the problems may be solved. It is studying transportation sys­ tems of other large univer­ sities and considering their feasibility at SIU.

The Senate also adopted a resolution asking for a delay on the decision of the site proposed for the new stadium.

It suggested that the decision be held off until alternative sites have been subject to student comment.

The resolution further urged that the decision on relocation be made only after the re­ sults of the Intercollegiate Athletics Study Commission questionnaires have been made public.

Given the task of recom­ mending the future status of the intercollegiate athletics at SIU, the Commission has sent out about 65,000 questionnaires to students, faculty and staff on the Carbondale and Edwardsville campuses. The questionnaires will probe public opinion on the athletic issue.

Doyle Vines, senator from Thompson Point, reported that some progress had been made on the living quarters of over­ assinage in University resi­ dence halls.

Vines noted that the Housing Office has made plans to paint the walls, fix pipes and install mirrors and doors by spring term in the areas in which over-assinage live.

Freed improvements are planned for these areas by fall, Vines said.

Charles Cutrell Starts Air Training

By Kevin Cole

Charles R. Cutrell, who was commissioned in the U. S. Air Force after completing ROTC training at SIU in 1966, has entered a civil engineering course under the Air Force Institute of Technology.

Upon completion of the course, Lt. Cutrell will return to his duty station at Kincheloe AFB, Mich., where he is a construction engineer.

The program provides Air Force members with resident training in science, engineer­ ing, and other areas of study at various military and civil­ ian institutions.
Negotiations
Now Scheduled
In Paper Strike

No new negotiations are scheduled between the members of the striking printers' union and the Southern Illinoisan newspaper.

William Duncan, secretary of the 24th District of the national Typographical Union, said the group represents how the paper at this time will call future negotiations meetings.

Duncan said he believes the next session will be called by a federal mediator. One earlier session was called by an attorney.

The strike against Lindsay-S南方 Illinoisan Southern Illinois is now in its fourth month. A pressmen's union struck the paper Nov. 1 and the printers' union struck two days later.

Bobby's Plans
Don't Deter
Local Group

Sen. Robert Kennedy's intentions concerning whether to run for the 1968 presidential nomination apparently had little impact upon the Citizens for Kennedy-Fulbright.

"This organization is not sponsored by Senator Kennedy. Its primary objective is to influence the national convention to nominate him or, if he chooses not to run, to influence the nomination of his choice," David Wilson, spokesman for the group, said Wednesday.

Wilson's comments came in reply to a story in Tuesday's Daily Egyptian in which a Washington "Kennedy" had said th... the senator had no intentions of seeking the presidency in 1968 on a Kennedy-Fulbright ticket.

Wilson said, "The organization is not sponsored to show the Democratic power structure that the people are going to show the party they want Kennedy on the 1968 ticket."

Nationally the CKF was formed under the leadership of Dr. Martin Shephard, a New York psychologist. According to a news release issued by the organization, there are over 2,000 members in 42 states.

The last available word from the architect's Office is that almost all of the obstacles standing in the way of the long awaited overpass across the railroad tracks are almost eliminated. Construction should begin at any time.

City-University Plan Sound

To their credit, the Carbondale City Council and the University administration have agreed on a good plan to provide added fire protection.

The fire station, an all-purpose building to be built on the south edge of the campus, and the new fire truck, both to be financed by the state, will bring needed protection to the campus and part of the city.

The financing is more than suitable to the city, which is fast becoming short of money in the face of pressing major projects.

The options for future negotiations which might allow construction of a station in a more advantageous location for the city are good.

The city and University have worked well together to fill a need shared by both. This is the cooperation which always should exist between the two groups. The officials who negotiate the agreement are to be congratulated.

John Epperheimer

But Where's the Sign?

When President Johnson calls on Hanoi to offer "just almost any step" in exchange for a suspension of the bombing of North Vietnam, he is rather obviously asking for something to save American face. His extensive discussion of peace-talk rumors at his press conference Thursday makes it fairly clear that consistence have indeed been made; consequently, some change in the situation may have occurred. Yet, because Hanoi will not promise to do this or that in order to purchase the suspension of the bombing as the precondition of peace-talks, he says there is no evidence that Hanoi "seriously" wants to stop the war.

Is it really necessary for the strongest nation in the world to be given "almost any" face-saving gesture in order to do what the conscience of the world asks it to do—end the bombings unconditionally?

Mr. Johnson is to be commended for going farther than he sometimes goes in receptivity towards a compromise settlement. He emphasized respect for the Geneva Accords, which call for withdrawal of all foreign troops. He repeated that he would go more than halfway to the other side's position. He spoke wisely and with restraint of the need for understanding and concessions on both sides if negotiations are to be successful. Secretary Rusk, meanwhile, has come closer than ever before to acceptance of the National Liberation Front as a direct party to negotiation.

In view of all this, there is something incongruous in the insistence on a gesture from the North Vietnamese to prove that they are "serious." It is like refusing to enter the conference room unless the other side goes first. If we would be prepared to make concessions in negotiation, what prevents us from making a universally advised concession in order to get negotiations started?

St. Louis Post-Dispatch

Johnson's Viet Peace Appeals

Merely Face-Saving Attempt

The opinion of the United States Court of Appeals in the case of two University of Michigan students reclassified after participation in an antiwar rally bars use of the draft to stifle dissent. The decision makes it plain that draft potentials cannot be stripped of the protections of the Bill of Rights—a principle that should never have been in question.

The decision also establishes the right of a draftee to make an appeal to the courts outside the closed system of Selective Service. The system is thus restored to its proper place in a democratic society. The draft is around to select qualified men to serve in a honorable calling. To use the armed services as a penalty is an insult to all those in uniform.

The court's ruling is a reminder of the urgency of the current re-examination of military manpower policies. The minimal necessity is for national guidelines to keep the draft from being a hit-and-miss matter, varying from state to state and board to board.

HEADQUARTERS U.S. FOURTH INFANTRY DIVISION NEAR PLEIKU, Vietnam.—Just east of the Montagnard (mountain people) village of Poo Ngo as the wire begins. The first fence runs nearly up to Dragon Mountain, curves around Signal Hill and runs a short-cut of perhaps three miles.

The second fence is concrete wire, great loops of barbs higher than a man’s head. Then you come to the apron barrier, a bewildering maze of barbed wire stapled and braces. An order is repeated through a depth of 200 meters. In between are the mines and the spires where the three men liming points hide out at night. Back of the wire are the forward bunkers, spaced 100 feet apart and heavily sandbagged. All over camp, the 105mm Howitzers have their fields of fire carefully predetermined. Radar can catch the arc of fields as it is established. A sweep of the Montagnard (mountain people) village of Poo Ngo as the wire begins.

Annual Swine Day Planned Here Friday

The Department of Animal Industries of the School of Agriculture, in cooperation with the Division of University Extension, will sponsor the programming for Friday's 16th annual Swine Day at 8:25 a.m. W. E. Keppler, dean of the school of agriculture, will open the morning session in Mckelroy Auditorium of the Agriculture Building, with a welcoming address.

Joseph Burnside of the Department of Animal Industries will begin the scheduled session of talks at 9:30 a.m. Burnside will discuss plans for the "Bacon Bin," a double deck, environmentally controlled, mechanized confinement system.

The rest of the program will include discussion on scientific analysis feeding programs, artificial insemination possibilities for swine and artificial swine production systems for large producers. The afternoon session, to be conducted by Alex Flew, chairman of the Department of Animal Industries, will finish up with a tour of the swine facilities.

Machine Ignites

Carbondale firemen were called at 8:25 a.m. Wednesday to extinguish a fire in the Technical Tape Corp. Building at 420 N. Illinois Ave. The fire was limited to a machine.

Maoists Alarmed to Possible 'Peace Coup'

TOKYO (AP)—Radio Peking alerted the followers of Mao Tse-tung Wednesday to be ready for a "peace armistice" "armed coup" in Red China's power struggle.

The official People's Daily also asserted the "class enemy"—presumably President Liu Shao-chi and his supporters—were plotting "a new counterattack" to the farms, possibly to delay the spring sowing.

Shootings Dot Holiday Truce in Vietnam

SAIGON, South Vietnam (AP)—Shooting incidents dotted the Viet truce at a rate of nearly two a day in South Vietnam on the eve of the lunar new year Thursday. Admiral authority blamed the Maoists for the shooting inspired by American Ambassador G. Harlow, who said the Saigon regime had been "talking up" the peace

While U.S. and South Vietnamese planes were grounded, an RP01 reconnaissance plane was downed on a photo mission over North Vietnam. Underfiring the plane, officially Selective Service will tell the pilot bailed out for a lottery and the draft is determined to stay with the president.

After the 13th day, Yugoslavia's and Romania is neutral in the Soviet-Chinese dispute.

Committee on Draft Must Be Changed

WASHINGTON (AP)—The National Commission on Selective Service will tell President Johnson next week that the nation's draft laws must be revised to provide for a lottery and the drafting of youngest men first, the sources said commission members believe these changes, if implemented, would revolutionize the present system.

Captions dot the Foo-chow People's broadcasting station in Fukien Province. Radio Peking broadcast an article from the Peking newspaper Kwangming Daily saying Maoist have been "tweaking one after another the positions of power held by a handful of party people taking the capitalist road." But it warned that such victories would arouse attempts at a "counter seizure of power by the bourgeoisie."

The blockade of the Soviet Embassy in Peking went into its 13th day. Yugoslavia's news agency said Soviet leaders were burned in effigy.

UF LEADERS HONORED—Carbondale United Fund campaign leaders were honored Tuesday night for their efforts in surpassing the city’s fund goal of $52,300. Holding the congratulatory cake are (left to right) Rex Kanne, SIU chairman; James A. Cheney, campaign chairman, and William J. McKeefry, dean of academic affairs at SIU and United Fund board president.

Noncommercial Station

**Television Change Could Benefit SIU**

By Jim Munger

A new system of noncommercial television stations—"if accepted upon by Congress," will have a significant effect on WSUI-TV.

John Kurtz, assistant director of WSUI-TV, said the "public television" idea would result in expanded programming and possible expansion of broadcasting facilities.

As recommended in a report by the Carnegie Commission on Educational Television, the system would be under the private, non-profit control of a corporation, with participating stations integrated nationwide but subject to local control.

Kurtz, noting WSUI-TV's membership in National Educational Television, said that during daytime hours, the station is used for instruction in primary and secondary schools. Out of a possible audience of 175,000 pupils in 117 school districts, 35,000 students use it daily, he said.

"Should Congress act upon the noncommercial television project, evening programming would be more profoundly affected than daytime, with better quality, he continued.

Kurtz said the Carnegie report, though in general agreement with an earlier finding of a Ford Foundation study, is not as narrow as restrained in many of its proposals.

In attempting to present programs of culture, news, public affairs and entertainment, WSUI-TV’s format displays the goals of the proposed public television system, he said.

WSUI-TV has been on the air since Nov. 6, 1961. Kurtz expressed hope that Congress would act upon the proposal, or a similar one, in the very near future.

Don’t read this ad unless you mean business

If you're looking for a job to tide you over until you decide what you really want to do with your life...forget us. We're in a hurry, we're growing fast, and we promote from within our own organization.

That means we're highly selective. That means we'll settle for just 150 college men who appreciate the difference between contributing as an individual to a team effort, or working for an organization big enough to hide in, where their mistakes won't be noticed. If you are an individual, and want to remain one, you should be talking to us soon.

Here are a few facts that may help you determine your future:

Hyster people are different because their business life is purposeful. Every member of the Hyster top management team has earned his promotion through the Company ranks. All Hyster products are sold through dealers, and most of these are independent businessmen. They are free to choose the manufacturer and the products they want. In the U.S. these same businessmen have been Hyster dealers for an average of 16 years.

Hyster markets a complete line of fork lift trucks, earth compactors, heavy-duty trailers, and logging equipment in principal cities throughout the free world. These products are manufactured in 12 company-owned plants around the globe. From our start as a one-market company, we are today reporting sales in practically all industrial market classifications. Some 75 per cent of our sales volume is currently spread over 15 major industries. Total sales for 1965 amounted to more than $127-million, an increase of 28 per cent over 1964. Profits rose 30 per cent over 1964, to $8.8-million.

For all these reasons, Hyster is interested in you. If you are an Engineer or a major in Business Administration, Marketing, Accounting, Liberal Arts... and feel you are ready for this kind of challenge. Contact your placement officer for an interview, or write directly to Jim Chapman at the address below. We'll take it from there.

Faculty Contributes Antiques
To Homemakers' Collection

More than 75 costumes, accessories and homemaking items - ranging from an 1876 maternity skirt to a gasoline-fired iron - have been presented in the last three years to the historic collections of the School of Home Economics.

Latest inventory of the collections show approximately 200 items, according to Phyllis Bubnas, assistant dean of the school.

Among the more recent acquisitions are wedding dresses, a man’s black derby hat, red lace panties, jewelry, a sewing machine, baby clothes of the early 1900s, a white linen driving duster worn when automobiles were novel, women’s high laced shoes, and a pair of 1896 opera gloves.

Jacob Bach to Sing
In ‘St. Olaf’ Concert

Jacob G. Bach, Jr., of Carbondale is a member of the 60-voice St. Olaf Choir that will sing in Carbondale Feb. 15.

Bach, whose father is chairman of the department of educational administration and supervision at SIU, is studying education, with a major in history, at St. Olaf College in Northfield, Minn.

The famed choir will present its concert in Carbondale Community High School gymnasium. Young Bach is in the base section.

A number of early books, brochures and magazines dealing with dressmaking, table setting and other phases of homemaking and family life have also been received.

Wilkinson Changes Lineup for Oklahoma

By Bill Kindt

The Saluki wrestling squad will invade Stillwater, Okla., the home of the defending NCAA champion Oklahoma State, tomorrow with a completely changed lineup.

Coach Jim Wilkinson has changed his entire starting lineup for the meet with the Cowboys in hopes of improving on the Saluki record which is an impressive 8-1. The Salukis are strong with the top three E li Carr will step in at 123 pounds on the Saluki record which down from the 123-pound class. Carr and Brown have

---

Wilkinson commented he hopes the Salukis will win four or five matches against the Cowboys. He mentioned this season in the NCAA finals to replace Magoon, who will face the defending NCAA champion Gene Davia at 145.

The Salukis will have an extended rest following the trip to Stillwater. The next dual meet for the Salukis will be Feb. 23 at Southeast Missouri State.

Orange Bowl to Get Facelift

MIAMI, Fla. (AP) - The Orange Bowl, where big football games and other events are staged, will have a $1,650,000 facelift. It will get 5,500 new seats, raising its spectator capacity to 75,000. Parking facilities will be provided for 1,000 additional cars, bringing the capacity to 3,800. There also will be improved press facilities.

Vogel and Crew to Invade Familiar Territory

By Tom Wood

It will be a homecoming of sorts when Herb Vogel takes his women gymnasts to Flint, Mich., for the Class A National Gymnastics Championship Saturday.

Vogel founded this particular meet near ten years ago when he directed the Flint gymnastic program. Three of Vogel's gymnasts are products of the Flint program, which once included over 2,200 gymnasts. Mary Ellen Toth, Janie Dunham and Donna Schaenzer will be returning to their early training grounds.

The Flint meet promises to be Southern's biggest rest of the season thus far, according to Vogel. He explained that the meet is in a sense a preview of the National AAU Championships held at the end of the season.

Southern's women gymnasts will compete with several present and past AAU champions. Vogel said, "We will not face the caliber of competition we confront in Flint again until May when we go to the 1967 National AAU Championships."

Vogel pointed out that, unlike the AAU meet, the Flint Championships will not include the tumbling or trampoline events, in which Southern has world champions in Judy Willis, Nancy Smith and Miss Schaenzer. This is definitely to SUU's disadvantage.

Another detrimental rule for Vogel's team is the restriction of team points to those persons competing in all events. This could eliminate Judy Willis' score in the vaulting event, one in which she is particularly strong.

In an effort for the team to benefit from Miss Willis' vaulting Vogel has been working her into the other exercises which constitute the all-around and he has expressed pleasure with her progress.

Vogel presently plans to enter five-all-around performers in an effort to secure Southern's 34th consecutive women's gymnastic victory. Four of these starters are present All-Americans, Miss Schaenzer, Toth and Dunham and sophomore Linda Scott. Freshman Jo Hoshimoto, Vogel's 85-pound bundle of energy, who has shown good progress, will fill out the first five.

Miss Schaenzer won the all-around competition against the Oklahoma Twisters, and Miss Gleason, of Buffalo, both members of the past World Games Team; and Vera Goverters, two-time Olympian from Belgium, who is the defending AAU vaulting champion.

Southern's reserves will get their first taste of competition at Flint. Competing in the Class A competition will be Criati Barkheimer, a sophomore from Indianapolis; Lori Wesa, sophomore from Palm Beach, Fla.; Sue Eichhorn, Nancy Tkac, Mary Dehnert, Penny Kane and Carol Nowosijki, all freshmen. This team of reserves will compete against Class A teams from Central Michigan, Ohio State, Michigan State and the University of Michigan.

Drivers Get Tips

O Gimmick Rally

The Grand Touring Auto Club advises: (1) a good night's sleep and (2) a larger supply of pencils and scratch paper than you would normally carry. This advice is for those students participating in the Gimmic Car Rally to be held noon Sunday.

The rally, open to all cars, not just the sport models, will begin at Engle VWD in Royalton, less than 90 miles. The gimmicks will be a series of "tricks" such as Highway Bingo, Schizophrenic's Delight, Multiple Guess, and many others.

Speeds will not exceed 50 miles per hour and registration begins at 12 noon.

For all beginners there will be an inside look at a Rally School held by the rallymaster to inform newsmen of general techniques and tips of rallying.

There will be a drivers' meeting at 12:30 and the first car departs at 1:00. Everyone will finish before 5 p.m.
