Salk Polio Shot Series Available To Some Students

Salk vaccine will be made available to the student body Monday, Jan. 31. The vaccine will be sold at the Health Service, located on the ground floor of the Student Union Building.

When making this announcement last fall, Dr. Jonas Salk, who discovered the vaccine that will prevent polio, said he was not sure when the vaccine would be available to the public.

The vaccine will be sold for $1 at the Health Service. Students who own the vaccine will receive a form to be filled out by their doctors to give them credit for the polio vaccine they have already received.

What Happened

To Dr. Salk's surprise, a letter was received by the Health Service from an anonymous person who had received the vaccine.

"This would put us in a jam," Dr. Salk said, "but I think we will be able to fill the orders of the people who have already received the vaccine.

The Health Service officials were not sure how they would handle the distribution of the vaccine.
