Klaus, Burnette Elected To Council

John G. Burnette has been elected fraternity senator and Bruno Klaus has been chosen as senior class president. Both will fill unexpired positions and will serve in the Student Council through spring quarter.

Burnette, a senior from Chicago, polled 76 votes in Thursday's elections. His nearest opponent, Donald Venetruolo, received 61 votes. Leonard Thies got 45 votes. Burnette is a member of Delta Chi fraternity.

Venezuelou's name was not originally slated to go on the ballot because his grade average was slightly below the prescribed minimum, election officials said. However, consent was received late on the evening prior to the election to place Venetruolo's name on the ballot, according to Chuck Novak, election commissioner.

Bruno Klaus, senior from New York, was victorious in the senior class president contest with 43 votes. Robert Griesbaum conducted an intensive write-in campaign for the office and received 24 votes.

Don Smith received two write-in votes for senior class president, and the following persons received one write-in vote each for the position: Robert Alsenburg, Charles Moore, William Simms, Don Lavelle and Larry Widrig.

A total of 262 persons voted in the election.

Compromise Reached On Activity Fee Study

Controversy Apparently Ended

The Student Activity Fee Study controversy ended apparently once and for all at the Student Council's final meeting of the spring quarter.

A compromise satisfactory to both sides in the dispute was engineered by Out-In-Town Senator Wendell O'Neal and Junior Class Senator Gerry Holle.

The compromise was made after Student President Bill Fenwick vetoed an amendment passed last week which called for the inclusion of approximate program costs at an early stage of the fee study, and exact costs later.

The disputes which delayed the Council for an entire month entered around the activity fee study, and a new committee was at an early stage of the fee study.

The study, which involves a Protests Student Council Election

Two new Council members who were seated last week are already engaged in a minor controversy.

It comes, ironically, in the wake of the Council's bickering over the Student Activity Fee Study.

The new Council members, John G. Burnette, fraternity senator, and Bruno Klaus, Senior Class President, have been protested by Ray Brandt, Senior Class President. The issue will go before the Judicial Board.

Brandt, a Phi Kappa Tau fraternity member, complained that both Burnette and Klaus were members of Delta Chi fraternity and that the votes cast had been mishandled by Delta Chi members.

Election Commissioner Chuck Novak said, "I slated the polls with competitive people with personal reasons are involved in this process.

The election of the two new Council members places a total of five Delta Chi members in Student Government.

It was satisfactory after Howe suggested a minor change.

Spring Activity Cards Distributed March 13

The Spring Quarter Activity Cards will be distributed starting March 13, the first day of Winter Quarter finals.

Elizabeth Mullins, coordinator of Student Activities, asked that all upperclassmen pick up their cards before the final examinations.

She distributed the cards on Tuesday, March 19.

Students Feel To Get An 'A' It's 'A-OK To Cheat On Exams

First Of A Series

By Sandra Karraker

"I don't believe in cheating, but I cheat," said one student.

"I believe in cheating although I know it isn't fair to fellow students," said another.

"I don't cheat, but I feel some students just have the urge to do it," said a third.

There are several of the multiple values held by 21 Southern students interviewed recently on the ancient academic art of cheating. They represent students living in 21 units which provide housing for SIU students. Included in the small-scale survey were off-campus residences and dorms, religious dormitories, and a teacher hadn't taught adequately and a student was flunking and it wasn't his fault, cheating was justified. "If someone really needs a grade," said another student, "they'll find a way to get it and there is no other way they could make it up."

Still another felt that if the teacher had not "played fair" and the student had done his best, he was all right to drop a couple of notes to help on an exam. "If he was pressed for time or carrying too heavy a load," was another saying when a student could cheat.

One student feels that the teacher should be blamed when a student cheats, if the teacher has not taken adequate precautions against cheating.

"Take heart, historians," if this article has dampened your spirits. At least cheaters can be honest. After all, 13 of the 21 students questioned admitted their guilt.
Final Exam Schedule

Wednesday, March 13
12 o'clock classes - 7:50.
GSD 100, 101, and 102 - 10:10.
Thurston's 12:50.
GSD 103 - 3:10.

Thursday, March 14
9 o'clock classes except 3-hour classes which meet one of the class sessions on Saturday - 7:50.
GSD 101, 102, and Agriculture Industries 214 - 10:10.
2 o'clock classes - 12:50.
GSC 102 and Accounting 251, 252, 253 - 3:10.

Friday, March 15
11 o'clock classes except 3-hour classes which meet one of the class sessions on Saturday - 7:50.
9 o'clock classes which meet one of the class sessions on Saturday - 10:00.
11 o'clock classes which meet one of the class sessions on Saturday - 1:00.
Clases which meet only on Saturday morning.
Examinations will start at same time as the class sessions ordinarily start.

Monday, March 18
8 o'clock classes except 3-hour classes which meet one of the class sessions on Saturday - 7:50.
10 o'clock classes - 12:50.
Mathematics 106 day sections and GSD 108, 109, 114, 3-10.

Tuesday, March 19
3 o'clock classes - 7:50.
GSC 101 - 10:10.
Make-up examination period for students.

whose petitions have been approved by their academic dean.

The University Center Program-
ning Board is planning many exciting events for the Spring Quarter. Plans for the first-week dances include a band for both Friday and Saturday nights.

"Rhapsody in Blue" is the theme of the Friday dance with the orchestra of Wendell O'Neal.

On Friday night, Southern students will "Swing Into Spring" with the Dawn Caps.

An even balance of band dances and recorded dances are tentatively planned for the whole quarter. Bands or recordings, a dance will be held every Friday and Saturday night.

For more information, contact the University Center Planning Board.
Activities Dwindle As Winter Quarter Ends

Student activities have nearly ceased for the duration of the Winter Quarter. Examinations start Wednesday.

A few events are scheduled to be held today around campus. They include:

A meeting of the Thompson Point Program Board will be held in the Thompson Point Student Government Office at 6:30 p.m. There will be a meeting of the Thornage Executive Council at 8:30 in the same place.

The Student Workers will meet in Room E of the University Center and the Inter Varsity Christian Fellowship Executive Council will meet in Room D at 11 a.m.

A meeting of the Alpha Pi Alpha Fraternity March 3 at the AKA house. Guests included: Mr. and Mrs. Ron Siebert, faculty advisor; Mr. and Mrs. Carlton Everette, alternate faculty advisor; Mr. and Mrs. J.C. Penn, fraternity sponsor; and Mrs. D. Stanton, resident advisor.

Activities

Winter 9:30 p.m.

Other new officers for the coming year are Sandy Poole, vice president; Shirley Williams, secretary; Toni Johnson, treasurer; P.M. Gardner, social chairman; Irene Edinger, judicial chair-

man; and Judy Wolfe, Tommy

Pusan representative.

They will take office at the beginning of the Spring term.

on development of nuclear weapons.

The United States is pursuing the talks in hopes of reaching at least the first step, which would "put a ceiling on the arms race," Rusk said.

Asked if he anticipates an agreement in the near future, Rusk replied, "No, I do not."

WASHINGTON

President Kennedy prodded Congress yesterday to get moving on his tax cut and other economic proposals to curb unemployment, a condition he views as a national disgrace.

Underlining the President’s message was a Labor Department report on unemployment. He added at the rate the economy is growing, unemployment will rise by 1967 to 5.5 million or 7 per cent of the work force.

Prime Minister Harold Macmillan embarked Monday on an attempt to repair the rift between France and bolster the military, economic and political strength of Western Europe.

Major aim of his move, said in its formative stage, is to prevent the initiative for shaping the future of Western Europe from falling by default to Charles de Gaulle.

WASHINGTON

The House yesterday passed 347-90 extending the draft law for another four years. Most members listening in on permanent peace draft, but conceded the country can’t get along without it now.

SAIGON, South Viet Nam

A Marine corps helicopter pilot died yesterday of injuries received Sunday when his craft crashed while conducting rescue operations.

This brought to 26 the total of American servicemen in South Viet Nam who have died because of helicopter crashes.

A total of 65 American soldiers have been killed in the country.

Commemorative Medal

Student Designs Medal For State of Montana

What started out as a competitive project in art ended in a design for a commemorative medal approved by the State of Montana for Bob Barron—and it didn't even win the contest. "Mine was chosen for rendering purposes, but not in design," said the commercial art student.

Bob, who comes from De Queen, designed the medal for Roy Small, publisher of the Alexandria Daily Register, who makes die-cuts of medals on the side. Small sends them to state agencies for interest groups. Bob sends the designs to agencies who buy the designs and then return them to Small to be remade of gold and silver medals are then made from the die-cuts.

"Roy tried to sell my design on the Mississippi-Alabama to the State of Texas," said Bob, "but they weren't interested in paying the price we were asked.

The State of Montana asked Roy to make a design in honor of the Centennial of the U.S.S. North Carolina, commemorating the anniversary of the ship. "The ship has been incorporated and used as a tourist attraction in the harbor of Wilmington, N. C., and the medals are being sold on the ship and other places," said Bob.

This medal is the official battleship North Carolina War Memorial Medal, the first official medal for the American Tokens and Medal Society.

Bob's talent has also afforded him work to help pay his way through school. He has worked for Diagraph Bradley on the outskirts of Marion doing layout work for stencil screens. "But I couldn't do this and go to school, too," said Bob.

Bob plans to leave SIU at the end of winter quarter. "I'd like to go out west and work for Lockheed Aircraft and go through the service, too, at the same time," said Bob, concerned about his future. Bob suggests that those interested in illustration see Dan Boda at VTI. "There is none more suited than this commercial art instructor. You come out as a professional illustrator suitable to step into any job you want," concluded Bob.

Fenwick Wants Standards For Recruiting New Athletes

Student President Bill Fenwick told the Council Thursday night that the Athletic Program recommendation—part of the Student Activity Fee Study—was being held back "due to certain discrepancies."

Fenwick asked the Council to request that the University's Athletic Committee set up standards in the athletic recruiting policy.

"The Intercollegiate Athletic Council is not doing its job," Fenwick said. "It has not set up a policy in recruiting athletes."

"Students put a lot of money in athletics," he continued, "and this gives them a reason for concern."

He asked that the Council request that "verbal promises" in the recruiting of athletes be considered invalid in all cases unless the promises are stated "in writing on the contract."

In other business, the Council indicated its disapproval of the fact that students have no representation on the temporary Communications Committee which last week by the SIU Board of Trustees.

The bill, passed unanimously, notes that the student body assumes the major financial burden of student publications. and that students should have some responsibility in determining policy of student publications.

An emergency request for funds by the Music Department was brought up and the Council directed its finance committee to attempt to find a means of supplying $450 to cover the cost of items needed immediately for use during the Spring quarter.

THE BELL TELEPHONE COMPANIES

SALUTE: JIM McCLUSKEY

On his very first assignment with Indiana Bell, Jim McCluskey (B.S., M.B.A., 1951) was put in charge of five Central Offices employing 65 people in the Bloomington District.—no more training assignment.

But Jim handled it well and was promoted to Assistant Traffic Engineer. On this job he planned Central Office equipment additions costing thousands of dollars, and designed Indiana University's campus telephone system. Jim's success on his many projects brought still another promotion, this time to Assistant District Traffic Manager!

Jim McCluskey and other young men like him in Bell Telephone Companies throughout the country help bring the finest communications service in the world to the homes and businesses of a growing America.

The auto-pedestrian traffic problem at the Campus Drive crossing point from Thompson Point to the Agriculture Building, and the resulting danger to students deserve attention.

Residents of Thompson Point have indicated that there is a crossing problem and a threat to safety, especially during the hours of 8, 12 and 5 o'clock. There are no lights or stop signs in the area, and a 20 mph speed limit, cars seldom observe.

There are more than one thousand students living on the point. This easily means several thousand crossings per day. The majority of these crossings come at the same time as the greatest auto traffic. Not only the safety of students, but congestion is a problem.

During the past week, the SIU Police Department has been observing traffic on the drive with radar. Thomas Lef-

Letter to the Editor:

Why Drug Name Of University
Into Crime Story, Asks Reader?

The headline on the front page of the Wednesday March 6 issue of The Southern Illinoisan had a peculiar fascination for me. "Ex-SIU Student Admits Slating"? I had to stop and puzzle a bit about it. Why not "Jew, Catholic, Protestant Admits Slating"? Why not "Ex-Humanbeing"? For all the self-confessed murderers who are frequently looked upon by many of us as inhuman or outside the pale of society. What is the editor trying to accomplish when he sets a headline like that? Certainly he must only be thinking of selling papers—and nothing else.

I noticed the St. Louis Post-Dispatch column headline on the same story read "Admits Du Quoin Slaying." I wonder

The same is true for the completion of the University Center. It is suggested that students participate in Write-a-Letter-To-Your-Student-Government-Representative-Week. Say what you think. If you aren't familiar with the issues, ask your representatives to explain the subject to you.

Student Council senators are: Marvin Weaver, South-First; Marvin Adams, foreign; George Graham, married; Jeff Barlow, temporary men's housing; Robin Carpenter, off-campus woman; Steve Carr, off-campus man; Linda Brunner, secretary; Carolyn Kruse and Ron Thomas, Thompson Point; Wendell O'Neal, out-in-town; Kay Woodruff, Woody Hall; Robert Gray, commuter; Gerry Howarth, junior class, Ray Brandt, sophomore class; Bill Carew, freshman class; John Broyer, graduate.

Letters should be sent to the Student Government Office in the University Center.

Erik Storup

Your editorial in the February 21 edition of the Egyptian, entitled "Breach Of Faith," has raised a very important question in terms of the "master plan" proposed by the city of Carbondale for the construction of "multiple story apartments and dormitories" for the students of SIU.

The presence of danger to students crossing campus drive from Thompson Point to the Agriculture Building, and in numerous near-catastrophes, many involving wheel chair persons, is an important and crucial situation which is needed with an eye toward a long-term solution.

Salukis' Two Wins Sweep Southwest Regional

Cagers Square Off Against Evansville Wednesday Night

SIU faces Evansville College Wednesday night at nine o'clock in the quarterfinal round of the NCAA Division basketball tournament. The Salukis swept the Southeast Regional NCAA College-Division basketball period after the game ended in a 80-80 tie. Lender added a basket and two free throws; Ramsey added three free throws and Henson hit two more free throws to give SIU a 93-84 win.

Southern's two victories over the weekend were team efforts all the way. "It is impossible to single out any one man," Jack Hartman said following the regional championship.

"All boys played well," our starters came through both quarters, Bigham, Rod Linder, Duane Warning and Thurman Brooks played in good performances, too. It was simply a case of everyone doing their job."

Evansville won the Great Lakes Regional at Washington University (St. Louis) with an 85-76 double overtime victory over the Blue Bears.

Jerry Sloan and Buster Briley—two of Evansville's top cagers—received honorable mention All-American honors last week.

SIU Meets Evansville:

Henson, Hood Prepare To Travel With Team Down 'Victory Road'

Paul Henry, who transferred to SIU this year after playing at Coffeyville (Kansas) Junior College, scored 20 points and played a good game as playmaker against Southeast Missouri Friday night.

Reser ved Rod Linder, Eldon Bigham and Duane Warning turned in good performances after coming off the bench both nights. Thurman Brooks came off the bench against Cape and scored four points in the win.

Henson scored 11 points and received credit for 11 rebounds.

"The boys played real well Wednesday night," Coach Jack Hartman said. But added that the team was a little flat for Saturday night's game which could be expected. We wanted to beat Cape so bad that we were ready psychologically," Hartman said, "but then Saturday night there was a little letdown but the boys will be ready for Evansville.

Cagers Seeking 2nd Tourney Win Over Evansville

SIU will be shooting for its second victory over Evansville in as many years Wednesday night when the schools square off in the last quarter-final game of the NCAA regional tournament.

Last year SIU turned back the Evansville College Purple Aces in the final game of the NCAA regional tournament. Evansville beat the Salukis (79-60) at the Christmas tournament.

SIU has a 6-2 record in games played at Evansville's Robert's Memorial Stadium.
Gymnastic Squad Makes Final Home Appearance Tonight

Southern's gymnastic squad will make its final home appearance of the year tonight, when it engages in a individual all-around meet in Men's Gym at 7:30.

Tonight's event will mark the final stage of competition before the undefeated Salukis go to Pittsburgh, Pa., for the NCAA championships on March 25-26.

The meet will also mark the last time that Fred Orlofsky, Bruce Klaus, Simms and Hugh Blaney will appear at home in their gym uniforms. All four of these outstanding athletes will be graduated soon.

Tonight's meet will not be a farewell, but each performer will compete individually for total points, Coach Bill Meade plans to pick his three top all-around performers who will compete in the nationals.

Meade expects that his squad will be in good shape tonight, with the return of Rusty Mitchell, Chuck Ehrlich and Denny Wolf. All three were out most of last week because of the flu. Chuck Woerz might be ready to go after a twisted knee kept him out of last week's intra-squad meet.

The Salukis have finished second the past two years in the NCAA championships, but Meade feels optimistic about this year's outcome. The coach expects the most trouble from Michigan, Penn State and Temple. Southern was nosed out two years ago by the Penn State Nittany Lions and were second behind Southern California last year at Albuquerque, N. Mex. The Trojans don't figure to have a strong a team as last year, Penn State finished 9th in last year's meet. The Temple Owls failed to score in last year's nationals. The Michigan Wolverines placed a strong third behind the Salukis at Albuquerque.

Here is a run down of last year's NCAA championships:

1. USC-95 1/2
2. UCLA-93 1/2
3. Michigan-55
4. Illinois-54 1/2
5. Michigan State-52 1/2
6. California-46
7. UCLA-36
8. Denver-17
9. Penn State-13 1/2
10. Nebraska-11

Matmen To Compete In NCAA College Tourney

Despite numerous cancellations this year the Saluki wrestling coach, Jim Wilkinson has planned a busy March schedule.

On March 15-16, the Saluki matmen will compete in the NCAA college division tournament in Cedar Falls, Iowa. Twenty-six schools will enter the tournament, including some outstanding college teams as: Mandato State, MacMurray, Central Missouri and Des-Pauw. The tournament is already assured of a national make with wrestlers from New York to California competing.

SIU will then travel to Kent, Ohio, where it will compete in the University division of the NCAA championships on March 17-18. Wilkinson plans to take with him three boys who were re-named All-Americans at last year's tourney.

The Salukis have finished second the past two years in the NCAA championships. But Meade feels optimistic about this year's outcome. The coach expects the most trouble from Michigan, Penn State and Temple. In many ways the story of the Thunderbird is one of the most unusual in the automobile business. The whole idea of the car was born at one of the great European automobile shows. The then president of our company pointed to some of the small, luscious sports cars that are always a center of attention at such shows and asked his companion, "Why can't we build something like this?"

The companion, who later became a vice president of the company, said, "It just so happens I have one on the boards. I'll show it to you when we get back to Detroit." Then as fast as he could discreetly get to a transatlantic telephone he placed an assistant and told him, "Remember that car we've been talking about? Find those sketches on it.

The Thunderbird became one of the few cars ever built that produced essentially the original sketches presented it. Most cars undergo countless changes in the design period. For Thunderbird, there was a natural clarity and cleanliness to the Thunderbird design that immediately captured all of us at Ford.

It was probably this clean, sharp look that won so many friends so fast when the car went into production. That first Thunderbird had its drawbacks. For example, it was too soft-spoken for true sports-car handling. But, the truth is, it was not designed in the European tradition of the last performance car. Some people called it a sports car but we never did. We called it a "personal" car, a small, fairly luxurious car that was fun to look at and fun to drive. It had its own integrity: it was one alone.

We built the Thunderbird as a bellwether car for Ford. It was our intention to test new ideas before we put them into our Fords, Fairlanes and Falcons. The new Ford ride and Swing-Away steering wheel appeared first on the Thunderbird, for instance. Ever, we never foresaw the extraordinary influence Thunderbird would have on the whole automobile world here and abroad. Almost everybody offers the Thunderbird bucket seats these days. And the Thunderbird took the most decisive styling of the 50's.

The Thunderbird is a classic, made so by a blend of magic ingredients of which we would love to know the secret. We're building cars right now which become classics, I think. But, in this, we don't make classics, we make cars. People make the car a classic. And that's the story of the Thunderbird.

Ameco's fastest, most care-free cars!
