Dear Editor:

Just what was the purpose of the little boy who was riding on the back of your April 4 feature, "The Peeping Tom?" First of all, we generally shut up any sentences or attacks, etc. that refer to the "scary man" or similar things and turn the page. And yes, all the students at Southern have objectives, clear-thinking minds. It would be wrong in this state of affairs to come to a false conclusion on the question of whether or not our young people read the newspaper.

Men Laid Rehab Institute

Dear Editor:

On April 4, I expressed the appreciation of the group (Chairs of the Legislative Departments of Public Welfare) in President David for its weeks of work on the APL campus. From March 29 through April 4, 110 publications were submitted from 36 states and included in the University's Rehabilitation Institute.

President David, representing the University and the Lewis Librarians, spoke about the importance of APL rehabilitation to our library and for their libraries and related programs for rehabilitation assistance and mental health programs for further job opportunities. Unseen will be blind students of employment opportunities.

Gus Bode Says

I see nothing except a personal appeal to the President for the University's benefit. I think that we should be able to have a meeting of these interested groups on the campus and that the President should be willing to turn the campus over to them for the day.

A new study by the American Lung Association has found that the number of people who smoke has decreased significantly over the past decade.

The study, which surveyed 1,000 smokers, found that the percentage of smokers who say they are considering quitting has increased from 40% in 2000 to 60% in 2010.

The study also found that smokers who smoke indoors are more likely to quit than those who smoke outdoors.

The American Lung Association recommends that smokers who are considering quitting should talk to their doctor or a smoking cessation professional.
