Fleerlage critical of Pessin absence from jury meeting

By John Burkin

Carbondale City Attorney George Fleerlage issued a statement Tuesday night critical of Jackson County States Attorney Richard Richman's plans to call a St. Louis businessman before the grand jury investigation beginning Thursday.

Richman said Tuesday he had no plans to call the businessman, Benjamin D. Pessin of St. Louis, before the grand jury.

Fleerlage said he received a signed affidavit from Pessin stating that he was offered a liquor license for a proposed Sav-Mart store in 1966 provided a local business owner made a large campaign contribution.

Fleerlage issued the following statement about Richman's action:

"The states attorney's conduct is absolutely incredible to me. Allegations of the utmost seriousness have been made about the liquor license situation in Carbondale."

"Yet, in the face of these allegations the states attorney tells the newspaper he has 'no intention' of exposing in a specially called grand jury hard evidence that a potential license applicant was taken behind closed doors to meet with the former liquor commissioner and the city's most substantial liquor license holder."

"And there told that a license might be available if the potential applicant were to accept the liquor license holder as a partner."

"It is regrettable that the states attorney needs to be persuaded to change his mind and present the witness himself to the grand jury."

"I hope that the grand jury will demand that the witness, who has told me that he is entirely willing to appear made a submerged witness."

"Surely some official agency needs to investigate why this particular meeting with these particular persons was ever held at all."

Earlier Tuesday Fleerlage said "Pessin has information in the signed affidavit which is relevant to the bribery charges made by Mayor Keene (Carbondale Mayor David Keene). He has information that the grand jury is entitled to know about."

Richman said he is not as excited about the meeting Pessin had with a former city official and local businessmen to discuss the possibilities of obtaining a liquor license has any connection with Keene's allegations of bribery charges.

Richman said he also did not "feel there was any pressure involved" in the meeting with Pessin.

Presently, Richman said he does not intend to call Pessin before the grand jury today, "I have Bufill a great deal of difficulty preparing for the investigation without knowing what witnesses to call."

Richman said he is unable to decide what witnesses to call since he does not have the chronology of events being drawn up by Fleerlage and Keene.

Although the chronology of events has not been turned over to Richman as yet, Fleerlage said, the states attorney knows the names of the persons involved.

Keene said he plans to "make his case before the grand jury by tying in Pessin with the bribery offers given to me. The mayor said that in a meeting with Richman he pointed out the connection the Pessin case has with the alleged bribery charges."

Richman said Pessin told him the local business occupies during meetings, which was held behind closed doors, "If you get a license you would hurt me. I would like to be a partner."

Richman said the original affidavit was changed by Pessin and that the license "might be available" rather than would not be available if the local businessman were made a partner.

The affidavit had previously read that a license would be obtained "only" if a local business owner made the contribution. When Richman was taken in as a partner, Richman said, Richman said that Pessin decided to strike out the word "only."

Fleerlage said he met with Richman Tuesday afternoon to discuss the information received in Popolin, Mo., about a second case similar to the one concerning Pessin. Fleerlage said no affidavit has been drawn up or signed and an investigation is still underway.

Richman explained that he thought "it was bad form" for a city official to discuss the possibility of a liquor license prior to the filing of an application. He was referring to the Pessin case.

House action delayed on TV debates bill

WASHINGTON (AP) - Republicans locked the House in a parliamentary vice Tuesday in an attempt to prevent action on a bill that would permit televised debates between the major presidential candidates.

The Republicans mad reportedly demanded that a quorum be present, forcing an endless round of roll calls that kept the House from taking up any bills.

Their delaying tactics began at noon and by 9:30 p.m. 18 roll calls had been taken. They tied up the House despite a personal visit from Vice President Hubert H. Humphrey in an effort to loosen the jam.

The vice president also issued a strong call to Republican candidate Richard M. Nixon, urging him to clear the roadblock by supporting the bill. Nixon has shown little interest in debating Humphrey and has said he will not debate George C. Wallace, the third-party candidate.

Val Oschel, Republican candidate for U.S. Representative, addressed a government class Tuesday during a political appearance on campus held by Democrat Kenneth Gray.

Campus campaign

Candidate speaks

Val Oschel criticizes Gray's voting record

By Mary Lou Manning

"Things are looking exceptionally well for the entire Republican ticket," Val Oschel told a group of faculty members and students during a luncheon in his honor Tuesday in the University Center.

Oschel is the Republican candidate for the U.S. House of Representatives from the 21st district, which includes Carbondale.

When asked bow his supporters could best campaign for him, the mayor of Herrinburg replied: "My problem is one of identification. I'm not as well-known as my opponent (Rep. Kenneth Gray, D-West, Franklin)."

Following the luncheon, he addressed a government class where he presented a partisan political speech, Oschel elaborated on his position concerning Vietnam, the 10 per cent surtax and the poverty program.

"The present administration has not made a concentrated effort to end the war in Vietnam," he asserted.

"We don't have that much interest in being there, the situation borders on civil war, and the U.S. should be acting as advisors only."

The candidate was especially critical of his opponent's voting record on the issue of supplying countries who in turn sell to the North Vietnamese. Gray voted against an amendment that would have "prohibited Communist-dominated Latin American Labor Unions from receiving tax dollars."

"If for one do not like the idea that my son, or some member of your family runs the risk of being killed by a bullet made with American money."

On the issue of the 10 per cent surtax, Oschel said that Gray told the people of his district that he was opposed to the bill, but when he got to Washington, the administration influenced him to vote for it.

"Now is the time to ask Gray why he votes the way he does," Oschel challenged.

Some of the money from the surtax should have been used to help southern Illinois for highway improvement but "the people of this area were left out completely on highways."

Oschel labeled President Johnson's War on Poverty a "dismal failure."

This program is one of "the most flagrant abuses in our entire tax program."

Proposed tax on vending machines could have big impact on campus

By Dennis Sullivan

The recent proposal to tax coin-operated vending machines on campus is apt to have a major impact at SIU.

Now that the University has vending machines on campus, and the number is growing almost daily, the University has no choice but to own the machines, but every five years a contract is let to operate the existing machines and maintain the machines.

Automatic Retailers of America (ARA) is the present contractor for the university and will be for the next three years.

Carbondale Mayor David Keene said Tuesday that he has talked with people in the vending machine business and has discovered that vending machines are divided into two categories. One category is product vending machines and the other includes amusement machines, such as Juke boxes and redemption machines. Keene said the main problem lies with the amusement machines, which are said to be his knowledge, no state regulation for these machines as there is for product vending machines. But he said there is a city ordinance requiring the licensing of these machines, and that he found many violations of this ordinance in Carbondale.

"What we want to know is who owns these machines," Keene said.

Whether the proposed ordinance will apply only to amusement machines or both product and amusement vending machines is not clear. However, a spokesman for ARA said that the product vending machine owners are definitely concerned. If the tax did apply to them, it would have to be passed on to the consumer.

Self-regulatory-hours forms
for off-campus now available

Applications for self-regulatory women's hours, for off-campus women students may be picked up at the Office of Off-Campus Students, Building C, Washington Square.

Women students living in facilities with resident counselor supervision, may obtain these applications from their resident counselors.

Students living in other off-campus facilities must obtain the cards from Miss Marlin Thrailkill, Building C, Washington Square.

When the application card is completed, students are to return the cards to their resident counselor or Miss Thrailkill. A student's parent consent must be obtained for women students under 21. Every woman student must complete an application, including those students who were cleared last Spring.

When the cards are processed for parental consent, academic qualifications, and disciplinary status, the student will be notified by the residence counselor or Miss Thrailkill.

Students must be in good disciplinary standings; junior and senior women must be in good academic standing (academic warning is acceptable) and have a minimum of 46 hours passed. Sophomores must have completed 64 hours with a minimum grade average and Women students who do not meet these qualifications need not apply - there will be no exceptions.

Students get help
with low grades

Meetings for academic probation students are held daily from 9 to 10 a.m. on the second floor, University Center. It has been announced by Mrs. Dorothy Ramp, supervisor for academic probation students.

Students on warning who wish help are also welcome to attend these meetings, Mrs. Ramp said.

Individual counseling is available from other sources also, she said. Students desiring additional information should contact Room 52, second floor, University Center.

History seminar slated on Paris student revolt

Although the campus activities section is not fully clear due to the image quality, it seems to include a listing of various events and activities happening on campus, including seminars, study groups, and other academic and social events. One notable event mentioned is the History seminar, which is slated to take place on Wednesday, September 25, at 7:30 p.m. in the Center for American Studies. The seminar will feature a discussion on the history of student revolts, with a focus on Paris in 1968. The seminar will be led by Dr. Don Hede, an associate professor of political science. The seminar will include a screening of the film "The American Screen," which documents the student revolt in Paris.

Accounting groups to hear CPA talk today at discussion

The Accounting groups will hold a discussion today on how to prepare for the CPA exam. The session will be led by an experienced CPA who will provide insights and strategies for success. The discussion will cover topics such as exam structure, study tips, and common pitfalls to avoid.

SIU livestock team finishes third

The SIU livestock team recently competed in the Intercollegiate Livestock Judging Contest at the Mid-South Fair in Memphis. The team, which is coached by Larry Cunningham, Jerry Haffington, Ted Richardson, Ronald Moms, and Charles Gayer, performed exceptionally well and finished in third place. The team's success is a testament to their hard work and dedication to the sport of livestock judging.
Editorial

Take more time

It is inconceivable that the two men from the Illinois Liquor Control Commission could call their recent two-day investigation in Carbondale a "thorough" one.

But that is exactly what the commission's investigations are called.

Peter Spens, director of the commission's enforcement division and one of the two investigators, said that they found no "concrete evidence" of any violations of the State Liquor Control Act or alleged bribery attempts.

This set up two possibilities: (1) Either the investigation was not long enough and thorough enough, or, (2) the alleged bribery attempts are only a myth.

After the alleged bribery attempts became greater in number and more persistent, Keene courageously revealed everything to the State Crime Commission. He said, "something just has to be done about this."

Keene's actions in revealing the offers to the authorities and then the public show he had no dishonest reason for hiding it. He feels that he has nothing to hide and something must be done to stop attempts to influence a public official.

The refore, there appears to be little reason to doubt the alleged bribery attempts. The effectiveness of the investigation is certainly subject to question when the commission's men came with more than one purpose in mind.

In their short two days the investigators not only looked into the allegations of the bribery attempts but also tried to investigate violations of the State Liquor Control Act by sale of liquor to minors. They did this by walking into a number of bars and taverns and making randomly identifications of customers who appeared to be under age.

Justice was certainly not given to either investigation. So, two half-baked investigations in only two days added up to a big zero.

The city can only hope that the liquor commission will be able to realize the weaknesses in both investigations and work to correct them in the future.

Women's hours reflect status

To the editor:

The recent announcement of an extension of women's hours should renew hope in those who have despaired of reasonable action concerning this matter. The previous requirement for women's permission (including women over 21) in order to determine one's own hours nullified the principle upon which the concession was procured—a grammed—nullification of the student's maturity and self-sufficiency. At last has come the long-overdue recognition of many women students' adult status. Accordingly, this important modification deserves a note of praise.

Students do win support in turmoil

By Robert Betts

Copley News Service
(Second in a series)

There are varying opinions on causes and solutions in increasing student rebellion and violence on the college campus of America. Chancellor William J. McGill of the University of California, San Diego, says the problem is not so much a matter of violence as nonviolent harassment in the form of all the planning, meetings, and other methods that grew out of the labor movement, and which were used to good effect in the civil rights movement.

McGill calls them "nurturing tactics." Those are tactics that help wire with clever young agitators who use a strategy of subtle irritation and calculated provocation for their own purposes. They can sit in your office for hours on the pretext of an interview, holding up other administration work and defying you to have them forcibly ejected.

The only legal means of having them removed would be to apply for a court injunction.

McGill believes universities are experimenting with a number of methods to combat a new kind of campus violence arising from the civil rights movement, in which human activities have become more and more subject to guidelines laid down by the courts.

"The moral code that was based on old European, religious concepts is evaporating," he said. "Today it's no longer so important that some action might offend against the common standards of decent behavior. It's a question of whether a person is within his legal rights, and what some students might seem to find you and me to be actions of the gut, but that doesn't necessarily make them illegal," is the way Dr. McGill sees it.

He contends that, "Student troublemakers mean to have the same kind of freedom to do within the law while making all possible attempts to wear down your patience. If you have their demands, it enhances their ability to bully the campus. If you call in the police you risk the charge of overreacting and often wind up winning more sympathy for the militants."

Yes, you know, it says the reason we're young Conservatives is because of childhood conflicts over...well, you know. And we've got unhealthy, repressive attitudes toward...well, you know.

"Oh, Rodney, I just can't believe that. I've got the normal healthy attitudes of any red-blooded, patriotic American girl. I can even say the word."

"Well, Millie, it's a good word.

"Thank you, Rodney. I don't think it's a good word.

"Oh, Millie, you think it's a good word.

"No, you know, I say it's a good word.

"Oh, Millie, you know."

"Yes, you know, it says the reason we're young Conservatives is because of childhood conflicts over...well, you know. And we've got unhealthy, repressive attitudes toward...well, you know."

The resignation of Chancellor John Galbraith who gave up his post to study in England, McGill, 46, previously a professor, did not have such experience in dealing with the multiple problems of a major university.

One of these problems centers around 50-year-old Herbert Marcuse, the champion of world-wide student lead-rebellion against academic authority. There have been many demands for Marcuse's chair, with the American Legion in the forefront of these demands. McGill has been under pressure from some faculty members to retain Marcuse.

It is the usual practice in U.S. institutions of higher education to afford the student body some say in the campus life. Student representatives sit on various committees. They have access to faculty members and administrators for the purpose of advising, suggestion, and making recommendations of lodging complaints.

Legal responsibility for the operation of the institution, however, remains in the hands of trustees, with the president and faculty having so delegated authority.

"In considering changes of any nature," said the dean of students at a midwestern college, "it must be remembered that the student body of any given year makes up only a fraction of what might be the college.

There are the thousands of alumni of other years. There are the friend- and benefactors who have provided the buildings and endowed a private college, or the taxpayers in the case of a state institution, who are entitled to some say in how it should be managed.

There are also those unborn, who one day will attend the university.

In the regular universities, unlike students, are concerned about their institution 10 years from now. It is understandable that the whims of some student group in any particular year should jeopardize the contribution a university might make to future progress."

Sex produceshippies, conservatives

By Arthur Hoppe

"Hi, Millie, I guess your folks went down to the Support Your Local Police & Cut Local Taxes Rally?"

"Yes, but come on in, Rodney. I'm just sitting in the living room all alone addressing 'Stamp Our Red Heads' pamphlets for the Protection of Individual Freedom. But what's wrong? You look depressed?"

"Oh, it's this book I've been reading by a couple of political activists from the Ron Paul movement. It's called...Well, it's called "You Know, Culture, and Politics in America."

"You know?"

"You know, it says the reason we're young Conservatives is because of childhood conflicts over...well, you know. And we've got unhealthy, repressive attitudes toward...well, you know."

"Oh, Rodney, I just can't believe that. I've got the normal healthy attitudes of any red-blooded, patriotic American girl. I can even say the word."

"Well, Millie, it's a good word."

"Thank you, Rodney. I don't think it's a good word.

"Oh, Millie, you think it's a good word.

"No, you know, I say it's a good word.

"Oh, Millie, you know."

"Yes, you know, it says the reason we're young Conservatives is because of childhood conflicts over...well, you know. And we've got unhealthy, repressive attitudes toward...well, you know."

Similar sentiments were expressed in Columbia University's former president Dr. George Kunkel, who, speaking of the rising tide that led to his recent resignation, "It would be fatal if the student view were predominant," he said. "Students come, and go."

Howard B. Hixon, president of the University of Iowa, says the policy of his institution leaves no place for such unruly acts as "forbidden entry, sit-downs, blockages of access, coercion, intimidation, disrespect to visiting speakers or any other use of force or breach of good taste."

He further states, "Impaired in the rules of the university, if not explicitly stated, is the idea that each student is obliged as a condition of remaining in an academic community to conduct himself as becomes a scholar."

Some administrators feel that since the day of the "gentle agreement" seems to be past, and colleges can no longer be conducted on the basis of a commonly understood code of behavior, the only way to insure peace and order is to draw up a written code and make students sign on registration. That would make them legally bound to obey whatever rules they agreed to abide by."

"As a college trustee," said Charles L. Hook, trustee of the California state colleges, "it's my conviction that such things as property damage, interference with the schools' right to exist, and physical violence are involved, the colleges and universities must state in no uncertain terms that participation in these events will subject students to expulsion, and faculty members to termination."

"I further agree with Logan Wilson, president of the American Council of Education when he said, "We need to be very careful about due process; we have to have the evidence...then go through the due process steps, and if individuals are guilty, kick them right out."

Nepalese students form association

A Nepalese Student Association has been formed at SIU with the purpose of promoting mutual understanding and imparting information—cultural and otherwise—to all those interested in Nepal.

Officers of the association are: Yogendra Purush, president; Yogendra Singh, vice president; Bishnu Shikhal, secretary; Rama Tamrakar, joint secretary for cultural affairs, and Sarbagnya Mal- lal, treasurer.

John O. Anderson, dean of the International Services Division is faculty advisor, and Eugene Lawler will be a special consultant for the group.

The association welcomes into membership all those interested in this Asian country.

Judo officers elected

The SIU Judo Club has elected officers for the new school year. They are: Drew Wickham, president; Paul Armetta, vice president; and Henry Armetta, secretary-treasurer.

The club will compete in a tournament to be held Oct. 20 at the University of Illinois.

Panayotovich at conference finds politicians not interested in students

College campuses are not becoming involved in politics this year, said Nick Panayotovich, student body president said, following a meeting with Illinois Gov. Samuel H. Shapiro and other campus leaders in Springfield.

Panayotovich represented the students at the Governor's conference Saturday and said he found many of the students there generally agreed that politicians were not appealing to college students.

Even on the national level, politicians are dealing in the same old ideas, with no solid solutions to college problems, Panayotovich said.

Some 75 student representatives from Illinois colleges were in attendance, representing 31 institutions from across the state.

Thompson Point has student government, Richardson says

"University Park is not the only on-campus living area with a functioning student government," according to Robert Richardson, President of the Home Economics meet set Oct. 18

In place of the traditional Home Economics High School Guest Day, the School of Home Economics at SIU this year will hold a conference Oct. 18 for area home economics teachers.

Starting at 2 p.m., the conference, to be held in the family living laboratory of the Home Economics Building, will extend into the evening after dinner at the University Center.

Consumer education in the high schools will be discussed by Mrs. Karen Craig and Betty Jane Johnston of the Home and Family Department faculty: Eileen E. Quigley, dean of the college, will speak on "The Changing Mission of Home Economics," and Phyllis Rabito, assistant dean, will talk on student recruitment.

Football ticket sales begin here Thursday

Advance ticket sales for Saturday's football game between SIU and Lamar Tech will start Thursday afternoon in both the Arena ticket office and University Center Room H.

Neoma Kinney, spokesman for the Arena ticket office, said that students should buy their tickets as soon as possible to avoid the long lines that occur at the ticket windows during the day of the game.

At the first game of the season some students didn't get in to see the game until near half time, she added.

Cost of the tickets with a paid fee statement is 75 cents.

Panayotovich has been invited to attend a conference Nov. 2-3 at the University of Illinois, called by its student government officers.

"Communications will be an important item of discussion," he said, and added that plans for a teletype system linking the major university campuses in Illinois would probably be considered.

At Saturday's meeting, representatives of the campuses met prior to the formal afternoon conference itself, and Panayotovich indicated that he found many problems were common to the state's college students.

Let's join forces.

Apart we're not much. Nothing, in fact.
Together we're a team. One of the greatest The Airspace Team.
World's largest science and engineering organization.
Enroll in the Air Force ROTC Program on campus. You may qualify for financial assistance and flight instruction while you're in school.

In fact, let's get together and talk over grants—they could pay for your tuition, books, and give you $50.00 a month.

When you graduate, you'll be an officer...you can become doctor, engineer, lawyer or B.A. degree with an exciting Space-Age career.
You'll know exactly where you're going.
Together, there's practically nothing we can't do.

Even fly.

University forum scheduled Oct. 16

An open forum Oct. 16 will allow students and other members of the University community a chance to discuss issues with Chancellor Robert W. MacVicar.

Two other members of the forum will be Wilbur Moulton, dean of students, and Sam Panayotovich, student body president.

The forum, according to Wilbur Moulton, is "unstructured" with the goal of discussing any question a student or resident might have about SIU.

The meeting is planned for 3 p.m., but the exact location has not been determined.

Sorensen will address Convocation Thursday

Thomas C. Sorensen will present his concept of the "Student-Hang-Up" during the convocation program Thursday at 1 p.m.

Sorensen is vice president for university relations of the University of California, Berkeley, scene of numerous campus disturbances.

He will discuss both professionally and personally his concept of the impact of drugs, hippies, Vietnam and civil rights on college campuses and students.

Sorensen will also describe the role news media have played in widening the generation gap.

Sorensen is a recipient of the Arthur S. Flemming Award as "one of the ten outstanding young men in the Federal Service."

Sorensen's brother, Theodore, is noted for his work as special counsel to the late John F. Kennedy.

The Tripleheader has a pop up sideburn trimmer. A Pandy, squared and a 110-220 voltage selector. It comes in both a Cord and a rechargeable model. And it won't pull or nick or cut. Because it shaves your beard. Not your face.

Some men think the only way to get a good, close shave is with a blade. If that's what you think, we'd like to tell you something about the Norelco Tripleheader Speedshaver.

In a very independent laboratory, we had some very independent men shave one side of their faces with a leading stainless steel blade, and the other side with a Norelco Tripleheader.

The results showed the Tripleheader shaved as close or closer than the blade in 2 out of 3 shaves.

The Tripleheader has three rotary blades inside new, thin, Microgroove heads that "float," so it follows your face, to shave you closer.

You can't get any closer.
The Marching Salukis have selected four new twirlers: They are Montie Whitten, Salem; Sheila Lang, Spartan; and Barbara Fletcher and Debby Debiak of Metropolis.

They will join four remaining from last year. They are head twirler, Cindy Nolan of Carbondale; Lynda Von Kriegsfeld, Brookfield; Karol Hayle, North Riverdale; and Judy James, Harrisburg.

The eight twirlers wear white blouses, red shorts, and white boots and together with the 100-member band provide entertainment at halftime.

The routines developed for the Marching Salukis by band director Nick Koeningstein fit the theme of each show.

One halftime show will feature selections of blues-type music. The Marching Salukis also play such current tunes as "Cherish," "The Look of Love," "Eleanor Rigby," and "Sunny." Koeningstein uses color schemes in the band formations. The front half of the members wear red jackets; the back half black jackets; and the percussion players, tarrant plaid jackets. Koeningstein said this scheme allows him to mix and separate colors in the formations.

The Marching Salukis are unique in that they use all percussion instruments, except for the piano. In the formations, Koeningstein uses the percussion players to consider the percussion instruments which are all on wheels, to allow space for them.

Several years ago, just for a lark, Koeningstein included a fiddle in the band. Receiving many inquisitive letters on this new addition, he decided to leave the fiddle in. However, the band member holding the fiddle does not actually play it in the routines.

Chinese students
set holiday picnic

The SIU Chinese Students Association will hold a picnic at 1 p.m. Sunday at Giant City State Park in honor of National Day, a Chinese holiday.

New members are encouraged to attend this welcoming event.

For those persons needing transportation to the park, cars will leave from the parking lot in front of the Morris Library at 1 p.m.

National Day will also be recognized by WSIL (FM) at 7-8 p.m. Thursday as it airs a program of Chinese folk songs.

The S.A.F. at S.I.U.: Oct. 14, 28, Nov. 11: a discussion of new directions for the campus ministry at S.I.U. Questions like, What is a campus ministry anyway? And what should it be? These three Monday lunches are designed to help create a "Ministry for Meaning in Higher Education." Have some ideas about that? Come share them.

The Faculty Christian Fellowship meets on alternate Mondays. Tentative schedule: Oct. 21, Melvin Kahn; Nov. 4, Bill Moffet; Nov. 18, Don Robinson; Dec. 2, Robert MacVicar. To receive announcements call 457-4221.

Chips and Sandwich Theater Part II: Oct. 18, 25, Nov. 1, 8, 15, 22. The Comic Mood, presenting three interpretations of the protagonists; as victim, as victim-victor. The six plays are: Arne and the Man, act III, George Bernard Shaw; The Happy Journey, Thornton Wilder; A Marriage Proposal, Arthur Conan Doyle; The Railway Children, act III, Christopher Fry. The plays will be read by those attending the lunches and discussion will follow.

INTERESTED IN FINDING OUT WHAT BUSINESS

... IS ALL ABOUT?

This dynamic organization invites business and other students interested in management to attend a meeting at Ag Seminar Room 209 at 7:30 pm Wednesday, Oct. 9. Our program includes field trips to places like Playboy Club, the Chesterfield-Chevrolet plant and several breweries in St. Louis, knowledgeable speakers in our area and joint meeting with other business-oriented groups, among others. You are invited to join.

The scholarship is awarded on the basis of promise and dedication to the broadcast industry. The scholarship rotates yearly between SIU, University of Illinois and Northern Illinois University.

Hudson wins Radio-TV award

L.J. Hudson, student radio and television news director at SIU has been presented the Illinois News Broadcasters Association's yearly scholarship award of a plaque and $200.

More bicycle paths planned

By Darrell Aberin

If the number of bicycles at SIU increase because of the new parking fees, the campus will be ready to take the extra load. Plans have already been made for more bicycle paths, according to John Lonegran, associate University Architect.

Lonegran said that money problems and the lack of a real need for extra paths in the past have slowed the immediate building of more paths. "In the overall campus plan, as each new building is built, bicycle paths are constructed right along with the building," said Lonegran.

When the architect's office sees a need for more paths, it will make a recommendation to the administration, stated Lonegran. The administration will make the final decision.

The paths cost approximately one dollar per square foot. They are green and smaller than the regular sidewalks which helps distinguish them and restricts them to bicycle use only.

William Nelson, assistant director of the Physical Plant, agrees that there is no present need for extra paths or parking spaces for bicycles or motorcycles. According to Nelson, bicycles and motorcycles are both fading from the campus.

Both Lonegran and Nelson agree that where bicycles paths intersect pedestrian sidewalks, confusion occurs. This cannot be helped, stated Nelson. No plans have been made for the construction of bicycle parking lots or additional motorcycle lots as the need is not yet great enough. The number of motorcycles has decreased each year. In 1965 the number of registered motorcycles was 2549. Last year it was 679.

Only 119 bicycles were registered at the Security Office last year.
**What makes Hohman run?**

**Competition motivates harrier**

By Barb Lebenn

Dressed in track shorts, SIU t-shirt and track shoes, Melvin "Dutch" Hohman, captain of the SIU cross country team appeared ready to run the ten-mile course.

A short "pushing five foot eight" fragile looking athlete, Hohman served his cross country and track internship at Nashville High School where he ran the mile. His best time was 3:39.2.

"I'm not a natural like Gerry Hinton (the team's only undefeated runner) as I lack his speed and guts," Hohman said, "but I do have the endurance it takes to be a cross country runner.

**Golf tourney opens Monday**

The SIU Intramural Office again this year will sponsor a "Hole-In-One" golf tournament. The tournament will begin on Monday and will run through the week.

The Monday round will be held from 3-5 p.m. at Thompson Point between Abbot and Baldwin Halls. Tuesday's round will be held east of McAndrew Stadium from 3-5 p.m.

Small Group Housing and University City are Wednesday's sites and the hours will be from 1-3 p.m.

Thursday and Friday the tourney will be held at VITI, again from 3-5 p.m.

Balls and clubs will be provided by the Intramural Office and there will be no fee. Participants may also bring their own clubs if desired.

Contestants will sign up when the events begin each day. Awards and prizes for winners have not as yet been announced.

"Hinton is a tremendous runner and I'd hate to put any limits on his possibilities at Southern," Hohman added. "It's great to have someone like him on our team.

Personal, enthusiastic Hohman declared that, "Competition is what makes me run. I like to feel that I'm different from other SIU students in that I want to accomplish in four years more than just a degree and an education."

The oldest member of the team and the only upperclassman of the bunch, Hohman remembers when he was a freshman and the rest of the team was mostly upperclassmen.

"I was scared then and I felt that all those guys really knew a lot," Hohman said. "Now I'm up where they were and I don't feel like I know as much as I thought they did."

Hohman cites grades as one of the biggest problems of being an athlete.

"It's hard to get grades and run at the same time," Hohman said, "but on the other hand, because you're so busy it helps you set up a schedule to get everything done.

There are days that all you want to do after practice is hit the hay and forget about homework."

The routine of practicing often stifes a young man's interest in a college sport, but Hohman thrives on running.

"I guess if I didn't enjoy it as much as I do I would get in a rut, but it has never happened to me."

**ANNOUNCEMENTS**

---
By Brent Phelps

Trying for a come-back after the two losses to Louisville and Tulsa, SIU will face Lamar Tech Saturday at McAndrew Stadium.

Currently, Lamar has an 0-3 record losing their first three games to McNeese State, West Texas State, and New Mexico State.

"They've got two running backs which are better than any we've faced this year," said head football coach Dick Towers.

"Tech uses the same type of defense as we have gone up against in our two previous games this season, so this will require no changes as far as offense," said Towers.

"Mauck came through Saturdayshowing some of his old form in the linebacker position," said Towers.

"We hope to have the same type of defense as we have gone up against in our two previous games this season, so this will require no changes as far as offense," said Towers.

"Injuries have had an influence on the Salukis this season with Joe Hunge, Sam Finocchio and Roger Kuba out of commission.

Wilbur Lanier will be filling in for Finocchio at the fullback position and Eric King in replacing Hunge at the corner-back position.

In a press-conference Tuesday coach Towers commented on the loss to Tulsa.

"It was our first game, but in the second game we did not execute on offense and the defense couldn't stop them," said Towers.

Charles Cusati did an excellent job on defense making seven unassisted tackles and had six assists.

Southern also suffered several penalties which seemed to stymie any efforts the offensive unit put forth.

"Everybody was hustling and getting to the ball and the refs made a mockery of it," said Towers.

"Any good team that plays good ball is going to get penalties but in my opinion we received several bad calls," he explained.

SIU set out to establish a running game but later switched somewhat to a passing attack.

"Under the Tulsa defense, McKay was placed in extreme pressure and as a result did not have much room to operate," Towers said.

"In the past Lamar hasn't thrown the ball much, but this year they have a small quarterback (5 feet, 7 inches-135 pounds) who can really throw with the ball," Towers said.

"Our defensive philosophy is to try and establish a running game and I am confident that we will succeed on the ground in the future," Towers commented.

"Any team that plays good ball is going to get penalties but in my opinion we received several bad calls," he explained.

SIU set out to establish a running game but later switched somewhat to a passing attack.

"Under the Tulsa defense, McKay was placed in extreme pressure and as a result did not have much room to operate," Towers said.
