A representation from a protest movement on campus housing will attempt to confer with SIU officials today. If they are successful, a closer view from the protest meeting plan on campus in a show of support for the negotiations.

A committee of two students and two landlords to meet with officials was to be appointed after the meeting at City Hall Tuesday night, said the group that they should be concerned with two problems.

The most immediate is the position of the student for move from unsubsidized housing by the stricter enforcement of off-campus housing and the status of their landlords.

The long-range problem is the role of the smaller landlords.

Among the propensals that were put forth by students and landlords alike was that students 21 years or older should be allowed to move out if they want to live without University regulation.

Peter Malone, a student, suggested that contracts and agreements should be limited to only one quarter rather than for the full academic year or other periods of time.

Many of the landlords felt that the firms owning the large private dormitories were to blame for the current problem. They felt the large concerns probably were pressing the University to create rules that were detrimental to the small housing unit.

Wayne Severa, a landlord, said, "I didn't believe a student should be forced into a dorm owned by out of town people. I don't believe the University should help big business force out the little man."

Lannin said students are being forced to break the contracts they made for unapproved housing. He said a number of landlords are not pressuring the students from these contracts if the University forces them to live with students.

One student asked Lannin if he would hold a student to a contract or bring suit against him if the university forced a student to break the contract.

Lannin replied, "I am hoping this isn't going to come about. I think the university will act to avoid these suits against the students."
Registrar's Office Changes Advisement Appointment Schedule

The Registrar’s Office has revised the schedule for making advisement appointments for winter term, according to Herbert W. Woldwand, assistant registrar.

The revised schedule provides for General Studies students with last names Aaron through Harris to make appointments Oct. 3, Harrill through Ozmint, Oct. 4, and Pa through 29th, Oct. 5. Seniors in all other units may make appointments later.

Junior in other units may make appointments Thursday, the appointment schedule for students attending the Vocational-Technical Institute will be announced later.

Winter advisement will begin Oct. 5.

Miller Selected For Seminar

Kenneth R. Miller, executive director of the SIU Foundation, has been selected to participate in the Bell System Business Communications Seminar Oct. 6 and 7 in Chicago.

The seminar will demonstrate the latest types of communication equipment to the delegates.

Journalism Workshop Planned

Here for High School Editors

The 12th annual Fall Editor-Advisor Workshop for high school students working on newspapers or yearbooks and their faculty advisers will be held here Saturday.

The workshop is sponsored by the Southern Illinois School Press Association and the Department of Journalism. Also assisting in the workshop are members of the Department of Printing and Photography.

W. Manon Rice, director of the Journalism Service Center, is director of the workshop.

Year around students from the workshop school attend the workshop. More than 50 schools have already preregistered for this fall’s meeting.

Programs for students working on high school newspapers include news writing for beginners, a section on “Advanced News Writing and Topics,” copy checking and features groups, features on editorial, sports and column content, as well as advertising and discussions on page make-up and picture arrangements.

Students working on yearbooks will discuss picture layout and copy.

The workshop will begin at 9 a.m. and end at 3 p.m. It will be conducted in the Agriculture Building.

Advisers and three students from each school publication or each school are invited to attend.

So far schools from as far away as Flat River, Mo., Raymond and Olney, III., and Paducah, Ky., have registered for the sessions.

In a Hurry? The snappiest service is yours at Sudsy-Dudy, 606 S. Illinois. (The quality Laundramat with efficient personnel)

Area School Choruses to Perform Here

Participants in the Southern Illinois University Choral Clinic will perform in concert with the University Choir and the University Male Glee Club at 6:30 p.m., Oct. 8 in Shryock Auditorium.

Students from 20 Southern Illinois high schools will perform. Guest conductor will be Myron Housewright.

Participating in the clinic chorus are students from Anna-Jonesboro, Ashley, Bridgeport, Cairo, Carterville, Du Quoin, Fairfield, Highland, Madison, Marion, Nokomis, North City, RIDGEWAY, Salem, Sesser and Sparta.

Also singing will be students from University School, Egyptian High School and Shane High School.

The clinic chorus will sing Svechtakov’s “Bird of Youth,” “Ferri,” “The Falconry” and Kolovský’s “On the Mountain, On the Hill.”

The University Male Glee Club will sing “The God Who Gave Us Life and the Joy of Risa’s Death.”

A faculty recital will be presented at 4 p.m. Oct. 16 in Shryock Auditorium. An electronic music concert will be presented at 6 p.m. Oct. 19 in Davis Auditorium of the Thames Building.

Pitkin Will Help Plan Celebration

William A. Pitkin, associate professor of history, will represent SIU at a meeting of the Illinois Sesquicentennial Commission Oct. 2 and 3 in Freeport.

The commission is schedule to convene in Freeport to celebrate the 150th anniversary of Illinois.

Pitkin, chairman of the commissions board, said stress will be placed on promoting a publications program to increase the number of books, maps and pamphlets on Illinois history for use by educators and tourists.

He will preside at a meeting of the board of directors of the Illinois State Historical Society Friday to Sunday, also in Freeport.
National Educational Television Review to Be Shown Tonight

What's new this season in National Educational Television will be shown at 9:30 p.m. today on "Wednesday Showcase" on WSIU-TV.

Other programs:
12:45 p.m.
Art and You.

Meetings, Hockey
Listed for Today

Women's Recreation Association hockey will be played at 4 p.m. today on the Wall and Park field.
The Little Egypt Student Grotto will meet at 9 p.m., in Room C of the University Center.
The Pre-Med and Pre-Dental Society will meet at 7 p.m., in the Family Living Lounge in the Home Economics Building.
Kappa Omicron Phi will meet at 7 p.m., in Room 105 of the Home Economics Building.
The Campus Senate will meet at 7:45 p.m., in Ballroom A of the University Center.

Students Told to File
Teaching Scholarships

Students who are attending school under a teaching scholarship for the first quarter must have their scholarship on file at the Enrollment Center in the Registrar's Office.

Those who do not file their scholarships will be billed for tuition and fees this fall.

Regional News

Ed. Note: About two years ago Craig Samet, then Editor of KA, and L.E.G., S.L.U.'s student newspaper, got together one evening over a few bottles of Golden Bre...10, 000 girl scouts softly hummed the melodric strains of "Viva la Victor, Southe...to thee...", they began writing the first of a long series of improbable news stories.

In news stories, due to Southern's ever increasing international importance, are often referred to as the Regional News regardless of... stains might be the subject for these Jounistic fantasies. A far away place with the strange sounding names that are quite familiar, Marissa, Ill., is always the dateline, or origin of these news releases. This is due to the ever increasing importance of the Southern Illinois University "Regional News" Myth- that bit of administrative fantasy that adv...sions that the Carbondale and Ed...ville campuses of S.L.U. are but one flaky giant of academic unity, one campus under you-know-who's rule, governed by only 120 miles, and with Marissa being half way in between, is the one true University Center.

Well, for those of you who remember the Regional News of days gone by, this is meaningless history. For those who do not remember, it will be nonetheless meaningless.

Nevertheless, here again is the Regional News of the past. A story from Marissa, Illinois, and completed with Ricky Ticky, Whacky Tacky and all the other characters that help to explain life at dear old S.L.U.

Marissa, Ill., (KA) - Officials of the Southern Illinois University Activities Office have announced today that "in keeping with the Foundations' record of providing the University with nautical tradi... of change, it will provide funds for the golden plating of the frame building, the Activities Office, and improve the University Health Service as close as man's gross inefficiency."

In the past the Foundation has funded projects notable good as a gold plated disposal container, trap (1946-48) and a soon-to-be erected bronze dog for the soon entraped students. When questioned about the dog, Mr. D. Roy (Heidelberg, School of Music, Ex '07) who is spokesman of the Foundation and was once now located on Greek Row, said "they might have, as their money, as the present health service is a satisfactory tribute in itself..."

Marissa, Ill., (KA) - Whacky Tacky, S.L.U. architect, held his quarterly press conference today explaining the aesthetic appeal of the Neely Hall Highrise.

Mr. Tacky was unable to come up with an explanation, so the student painters and decorators got together and organized a "Paint the Duck" movement.

Once again the students of S.L.U. have returned from a summer vacation to find that the university has arbitrarily imposed unreasonable restrictions upon their liberties. Once again the editors of KA must affirm the proper extent of those liberties and protest their denial.

Every individual is possessed of certain rights which are inherent and inalienable. The government grants recognition of such rights subject to their selective abrogation. Such rights may not be subject to the arbitrary decision of those who would deny them to others.

In discerning that each right is accompanied by a corresponding responsibility, we cannot accept the contention that, due to the irresponsible actions of some students last spring, such rights are the choice of place and manner of residence and possession of personal property in accordance with Illinois law may be denied. Even though many S.L.U. students participated, they have been punished, and their actions did not constitute a violation of the altruistic thinking of those who are the students at large.

A person of collegiate age and maturity is well equipped to discern and, without supervision and to select for himself where he shall live. Those few who are unable to assume such responsibilities will not and perhaps should not be granted the pressures of academia.

At any rate, what is important here is that advocates of student rights must, it seems, play second fiddle to those who deal in eternal verities as contracts, bonds and buildings.

Students are horded into dormitories to satisfy bond requirements; cycles are banned to maintain PR which cannot contact... or stand to listen to them) and the legislation (which believes it can impose武装 atoms into the S.L.U. cannot afford them). Of course, rather than admit to such motives, administrators cloak the cloaking maneuvers in the very finest of the eden immortals' shields in which Port Whamb abounds.

Nevertheless, while Thom... have a much much higher rent. For my own good the rules increase with the impending... While housing judgment becomes capricious.

It is not true S.U. is like a riot... a riot has a leader.
New Educational Game
To Replace Guide Book

DIRECTIONS FOR PLAYING CARBONPOLY

1. Admission is unlimited. ... all Illinois high school dropouts and University of Illinois students will be given special preference.

2. Each player will choose a token from the following list: a Honda, an unauthorized car; a rock, a cockroach; or a piece of charred wood from Lee's. Each player will receive $1500, no more than half of which may come from parents, nor more than 1/150th of which may come from student work; and the rest may come from athletic supporters. Players' fate is entirely determined by computers.

3. Students may not acquire monopolies, but must suffer at the hands of those who already have.

4. Houses for students are constructed in Southern Illinois Gothic with Carbondale provincial furniture. No move may be made without approval by the Dean of Undergraduate Motor Vehicles.

5. The game will begin when the University Center clock strikes the hour, and end when the Old Main clock strikes the same hour. Losers will move tokens to Salgoopolony board for a game of Escalation.

6. All rules will be strictly enforced — "If we make one exception, we wouldn't know where to stop."

---

L. E. J.'s Column

A conversation between two S.L.U. V.P.'s walking through the University (Student) Center a few days before school starts.

1st. V.P.: "A lot of students are back already."

2nd. V.P.: "They never left."

"We're talking to old style pers,". And the above exchange of frustrated vaudevillians is real. The administration has already banned motorbikes for new students and those unregistered before August 8th, 2nd beginning removal of motorbikes parking lots inside the campus, 3rd started tightening the rules on unsupervised housing and 4th allowed an increase in the cost of food at the University (Student) Center without a similar raise in student wages.

No doubt there are reasons for all of these actions — some, perhaps, that even that member of the university known by a number and the classification 'student' would approve, still the mind boggles at the consistency with which students and often students alone bear the brunt of the solutions to most problems affecting dear old Southern.

Well, I think I've said enough for the first column of the new year and now I'm going off the loose self in the type of consumption that made it possible to survive 'the year of the student' because, if that was the students' year from here on everything will be down-hill and it appears that this may be the case. Nonetheless, I'll be back next week unless... unless I'm taken out to V.T.I. and shot to solve the problem of grumpy discontents at S.L.U. Of course, I'm only kidding, if I really thought the administration were working on a "final solution to the student problem", I wouldn't say so here and now. And if I'm lulling you into a false feeling of security let me be carried off by the bat-winged Dean of Evil Goings On before I can say "Jack Rob."

Inn Nixes Students' Partying

The party's over, the manager of the Holiday Inn told a student group Tuesday night.

Stan Hoye, manager of the inn and Thomas E. Cassidy, resident counselor for Bailey Hall, outlined in depth the policy that would be followed concerning student parties at the inn.

The meeting resulted from an incident Sept. 24 which involved the students and a party they attended at the motel.

Two of the students were charged with underage acceptance of alcohol and destruction of property.

Their case has been continued until Friday in Jackson County Court.

"There have been hundreds of incidents over a period of time," Hoye said. "The situation became so bad in the past year that we had to hire a security officer to be on duty Friday and Saturday nights," he said.

"I'm not unsympathetic to the students," he added, but we must enforce our policy.

"I want the word to get around to the students that we won't tolerate such incidents any longer," said Hoye.

"I'm not mad at the students," he said. "They look like a nice bunch of kids. But I don't rent rooms to students to have parties."

"Each one of our rooms costs on the average of $10-00 to build. Renting a room for one night does not give the person the privilege to tear it up," Hoye told the students.

"My patience is short and I'm serving notice to all of the students that future incidents of this kind will be prosecuted to the fullest extent of the law," Hoye added.

'Digets' Features Marjorie Lawrence

The Australian edition of Reader's Digest devoted one article to SIU's Marjorie Lawrence.

Accompanying the story was a picture in color of Miss Lawrence, a native Australian described as "World-famous dramatic soprano; former star of the Metropolitan Opera Association, New York; research professor of music and director of the Opera Workshop, Southern Illinois University."

The article, which appeared in the July issue, revealed her pleasure at the ovation she received from 100,000 fellow Australians at a concert in Melbourne last March 27.

Plochmann Papers on Symposium Are Published

Symposium papers written by George K. Plochmann, professor of philosophy, for the annual meeting of the American Philosophical Association in 1964 were published last summer by the State University of New York at Buffalo.

The study entitled "Science, Philosophy and Our Educational Tasks" was included in a collection of papers of which Plochmann was co-editor.

Plochmann, organizer of the symposium, is the author of "The Ordeal of Southern Illinois University" and the editor of the "Philosophical Explorations Series" for SIU Press.

'COME BLOW YOUR HORN'
FIRST PATIENT—Robert George, a freshman from Evergreen Park, was the first patient admitted to the University's new 12-bed infirmary that was opened at the start of this quarter. George is being checked by Dr. Richard V. Lee and Mrs. Arlette Roach. The Health Service infirmary is expected to ease the student-patient load in area hospitals.

Program Changes Still Made Today

Students who have appointments to make program changes today may do so. It was previously reported in the Daily Egyptian that Tuesday would be the last day to make program changes. Instead, Tuesday was the last day students could get an appointment to make a program change.

Any program changes made after today require the signature of the student's dean, according to Martin D. Snyder, assistant supervisor of the Registrar's Office. Program changes are made in the Sectioning and Admissions Center located on the second floor of the University Center.

Johnson to Meet with Asian Leaders
For Conference on Viet Nam War

WASHINGTON (AP)—President Johnson will fly to the Philippines in about three weeks for a seven-nation summit conference on the Vietnamese war. A major aim will be to press an allied peace offensive.

Announcement of the 10,000-mile trip immediately stirred Johnson might visit embattled Saigon and the land where more than $10,000 American troops are involved in increasingly violent conflict with Communist-led forces.

That the trip has great domestic political importance for the President seems obvious. It will be the first transoceanic journey as chief executive to a foreign capital in the midst of this fall's congressional election campaigns.

The conference was publicly called Monday night by President Ferdinand E. Marcos of the Philippines to include all countries with military forces engaged on the allied side in the conflict. The first White House reaction was to describe Johnson as interested.

The matter had been talked about by Johnson and Marcos when the Philippines leader visited Washington within the last two weeks—Sept. 14-16. The project was kept secret, and the White House dropped its coy reaction Tuesday and announced: “President Johnson is glad to agree to this invitation and will visit the Philippines on or about Oct. 18.”

The other participating nations include the Philippines, with 200 troops in South Viet Nam, and 2,000 going there; Australia, with 500; New Zealand, 200; Thailand, fewer than 100; and South Viet Nam itself, with 707,000, including 330,000 regular forces.

Chuan J. W. Fulbright, D-Ark., of the Senate Foreign Relations Committee said this makeup sounds to him like “an expanded Honolulu meeting” — a reference to Johnson’s Hawaii talks with the top South Vietnamese leaders, the Arkansan a critic of U.S. policy in Viet Nam, said the Manila meeting might be more useful if such nations as Japan, India and Pakistan took part in it. Marcos, announcing the conference in Honolulu, said the military situation would be reviewed but that the emphasis would be on political, economic and diplomatic aspects of the Vietnamese conflict.

The projected conference, which other invited government chiefs also quickly accepted, coincides with designations by Pope Paul VI of Oct. 20 as a month of prayer for peace. Johnson is known to be responsive to such a move by the pontiff.
Hurricane Tears Into Caribbean

MIAMI, Fla. (AP)—Hurricane Inez, one of the most powerful storms of the season with 120-mile winds, crashed through the tropic islands of Guadeloupe Tuesday and headed for the open Caribbean.

For hours, howling winds, slatting rains and pounding surf battered the French possessions, where 295,000 people live.

Communications were shaky; there were no immediate reports of damage to the fishing fleets and sugar and coffee plantations.

The Weather Bureau said the highest winds recorded were 80 miles an hour but the peak winds surely gusted higher.

As the tightly wound storm burst into the Caribbean, where it cannot escape without striking land again, the thickly populated tourist centers of the Virgin Islands and Puerto Rico were put under a hurricane watch.

If the storm held to its 15 m.p.h. westerly course, its dead-calm center will move 50 miles south of St. Croix on the Virgin Islands during the night, the Weather Bureau said.

At midafternoon, the center of the hurricane churned about 330 miles east-southeast of San Juan, 400 miles east of Guadeloupe Tuesday and 1,000 miles east-southeast of Miami.

Fan American World Air­ways canceled flights to the British West Indies.

Hurricane Cleo, which two years ago raked the entire eastern coast of Florida, inflicting millions of dollars in damage, now moves through Guadeloupe on Aug. 22, 1966, wiping out many sugar and coffee plantations. In addition to killing 14, 40 persons were injured. Cleo’s peak winds were clocked at 81 m.p.h.

Humphrey Tells California Democrats
To Get Off ‘Fat Seats of Complacency’

SAN DIEGO, Calif. (AP)—Vice President Hubert H. Humphrey snapped at Demo­cratic Gov. Edmund G. Brown Jr. in a California Republican stronghold Tuesday, warning Democrats to “get off your fat seats of complacency.”

Brown, in a tight race with Republican Ronald Reagan, appeared with the vice pres­i­dent at an airport rally. Then they toured an ocean research center where they fed squid to a whale and a porpoise.

Humphrey put his hand in the mouth of the five-foot-long whale while named “baby jaws,” and tickled her palate. “They like that,” Humphrey said.

The trip wound up Hum­phrey’s three-day visit to Cal­ifornia. His next stop was Los Angeles.

Brown and Humphrey even pitched for votes when they were briefed on scientific achieve­ments of the Scripps Institution of Oceanography. They toasted each other with glasses of desalinated sea water and Humphrey said: “To your victory, Pat. May it be as deep and as wide as the depths of the ocean.”

About 250 greeted them at the airport as they arrived in this southern California county that went Republican in 1952, in the presidential race and supported former Vice President Richard M. Nixon in his unsuccessful 1960 govern­orship race against Brown.

This year, Brown said, San Diego and the rest of southern California “is the battle­ground” in his race against Reagan. Reagan won heavy support here in the June nom­i­nating primary.

Brown said he expected to carry northern California by 250,000 votes, but will still have to make a good showing in the more populous south to win.

John R. Zimmerman Named To Head Physics Department

John R. Zimmerman has been named chairman of the Department of Physics, one of five new faculty members added to the staff.

Zimmerman comes from Dallas, Tex., where he headed the combined chemical physics and petroleum geochemistry research for Mobil Oil Corp. He has published papers in his specialization, molecular interactions in liquid-liquid and liquid-solid systems.

Also named to the department are:

John J. O'Dwyer, professor, who received his Ph.D. from the University of Liverpool in England. He is recognized as an international expert in his area of specialization—

Newman Center Discussion Series
Starts Next Week

The Newman Center, Roman Catholic student center at SIU, will sponsor a series of open forums.

Robert E. Bryant, director of the Jackson County Legal Service Bureau, will discuss "What You Should Know About Your Driver's License," at 8:15 p.m., Oct. 5 in the Center Lounge.

All students, irrespective of religious affiliation, are welcome at these discussions, the Rev. Cletus Henzschel, director of the Center, said. The Newman Center is located on Washington Avenue near Grand Avenue.

Stevenson Arms offers an ideal setup. It's location right next to campus saves the student many valuable minutes. The food is superb. The air-conditioning makes it possible to live and dine in comfort.

These ideal features are yours at a most modest rate!

Southern's #1 address for young men!

Stevenson Arms offers a congenial atmosphere. Pleasant evenings can be spent in any of four luxurious lounges with continental decor.

Stevenson Arms offers spacious, beautifully furnished, and sound-proof rooms which are conducive to good study habits.

Stevenson Arms offers extensive recreational facilities.
State Industrial Safety Seminar To Be Held Here Next Week

An Industrial Safety Seminar will be conducted Monday and Tuesday at the University Center. About 40 representatives from area industries and SIU representatives will participate.

The sessions will begin at 9 a.m. and end at 4 p.m. in Ballroom A. A luncheon will be held in Ballroom C at noon both days.

The seminar is designed to instruct safety directors, supervisors, foremen and workers in safe work practices, and is one of several such meetings held throughout Illinois.

The program will include discussion of such subjects as, "Superiority Responsibility for Safety" and "Accident Causes."

The seminar is sponsored by the Illinois Division of Safety Inspection and Education, Department of Labor.

New Official Joins SIU From Post in East Africa

The new head of the Community Development Institute at SIU is an educator who recently returned here after more than two years in East Africa.

He is Richard M. Thomas, who was appointed assistant director of Community Development Services by the Board of Trustees. Thomas helped the governments of Kenya and Rhodesia in their community development efforts from October, 1963, to February, 1966, while with the U. S. Agency for International Development.

Thomas was program consultant and senior training specialist for the Center for Community Education and Development, University of California Extension, before joining the SIU staff. He is directing Southern's Community Development academic program, succeeding Richard Franklin, who resigned.

Thomas has a doctor of education degree from the University of California, Los Angeles. He was born in Colorado but considers White-tier, Calif., his home town.

AT

HOLIDAY INN

HUNT ROOM

HUNTSVILLE,

DOES IT HAVE PROVEN RESULTS?

Results have been reported in Time, Newsweek, Business Week, and Esquire. Demonstrations have appeared on television with Jack Paar, Gary Moore, and Art Linkletter.

Describing Reading Dynamics' impact on some of our nation's legislators, Time said, "Washington has seen the days when Teddy Roosevelt read three books a day and ran the country at the same time."

SENIOR TALMADGE

Georgie Wisconsin

"I must say that this is one of the greatest educational experiences I have ever had. It certainly compares favorably with the experience I've had at Yale and Harvard."

Conventional rapid reading courses aspire to 450-600 words per minute. Next Reading Dynamics graduates can read between 1,500 and 3,000 words per minute, and many go even higher.

MONEY BACK GUARANTEE

We guarantee to increase the reading efficiency of any student who, after completing minimum class and study requirements, does not at least triple his reading efficiency as measured by our beginning and subsequent tests.

250,000 GRADUATES
Group Insurance Available for Faculty, Staff

The Personnel Office has announced that permanent and full-time members of the faculty and Civil Service staff will again have the opportunity to enroll in the SIU GroupLife Insurance Plan.

This is the last opportunity to re-enroll in the plan for former or continuing members. An insurance agent will be on campus to discuss the coverage and enroll those desiring the policy.

The agent will be available from 10 a.m. to 1 p.m. and from 2 p.m. to 4 p.m. Monday, Thursday and Friday in the Missieastpi Room of the University Center.

Employees of the Physical Plant will be able to discuss the policy with the representative Wednesday. Details on how to enroll through the representative will be available from their immediate supervisors.

The agent will also be able from 10 a.m. to 1 p.m. in the same place on Saturday.

Dorm Willing To Comply
With Rules

University officials and Wall Street Quadrangles owners are working to clear up conditions which have delayed SIU certification of the residence complex as an accepted living center.

Jack W. Graham, dean of students, said he is confident that the problems can be worked out.

Mel Skolnik, an owner of the complex, said he believes that it is necessary for the Quad to become an accepted living center, even if residents must be shifted to other rooms in the complex.

Chief stumbling block to acceptance seems to be that both men and women are living in one of the buildings. The U-shaped building in question, however, has walls separating the sections. There are no doors in the walls, Skolnik said.

Graham said SIU rules require that an accepted residence be a separate building housing either men or women but not both.

Skolnik said that he has received opinions from architects stating that the U-shaped part of the complex, located at the south end of Wall Street, should be considered three separate buildings.

"The entrances of the buildings are at least 200 feet apart," Skolnik said. "We have to move tenants into different buildings.

"But we will go along with the University," Skolnik said. "A letter concerning the Quadrangles' problem was sent from the office of President Delyte W. Morris to Skolnik over the weekend."

Skolnik said Tuesday he will reply to the administration's letter by Oct. 1.

SIU Power Control—James Bailey, central power control panel operator, works at his desk. The room in the Physical Plant where the panel is located was a busy place Saturday night when a line in McAndrew Stadium shorted out and put circuit breakers in operation. The game was delayed for about an hour. Workmen were busy Tuesday repairing the line. A spokesman at the Physical Plant said it was not known just what work would have to be done, or if the line would be replaced.

Fewer Than Last Year

346 Cycle Permits Issued

The Parking Section announced that as of 3 p.m. Tuesday, 346 students had picked up their cycle permits. This number is relatively small compared to last year’s figures, although there are many processed applications that have not been picked up by students, a spokesman said. The Housing Office will start tonight to process applications made by students to live in unsupervised housing.

Egyptian hieroglyphics will probably not be recorded in the '67 Obelisk.

But count on lots of SIU news and sports and activities and gossip and other info from one of the country's best yearbooks.

The Egyptians used Obelisks (tall sloping four-sided pillars) to record the triumphs and achievements of kings. But your 1967 Obelisk will not be filled with hieroglyphics. Being an "All-American" yearbook, the Obelisk can't risk people not being able to read it. And not learning the important aspects of their new college culture. The Obelisk is not a number two yearbook. But it costs like one. It's only two dollars. About what you'd spend on a pizza. Order one today. Now. From the guy at the Obelisk table.

After Two Games
Saluki Statistical Leaders Are Agnew, Massey, Kuba

Wally Agnew, Tom Massey and Roger Kuba have dominated the offensive punch for the football Salukis in their first two games. Agnew, a junior college transfer who seemingly came from nowhere to grab the starting quarterback chores, has completed 27 of 48 passing attempts, good for 355 yards and a .562 completion percentage. He has also thrown for two touchdowns.

Senior end Tom Massey, target for both scoring throws, is far out in front in the pass catching department.

He has caught 13, good for 196 yards, Roger Kuba and John Ference have each caught five passes, good for 80 and 70 yards respectively.

Kuba, running from the halfback spot, has rushed for 96 yards in 25 carries for a 3.8 average. Kuba is followed by fullback Hill Williams and halfback Eddie Richards with 48 and 15 yards respectively.

The Salukis show one interpretation good for a touchdown, with Bill Hobs picking off a Wichita toss and rambling 25 yards for the score.

Tim Kelley has booted three conversions in as many attempts and has a 24-yard field goal for six points.

PASS RECEIVING LEADER—Tom Massey (80), Saluki end, grabs one of 13 passes he has caught in the first two games for a total of 196 yards and two touchdowns. Massey is the team's leading pass receiver and the leading scorer. This catch was made in the Louisville game.

Flag Football Meetings Set
For Officials and Managers

Meetings for flag football officials and team managers have been announced by Glenn Martin, head of Intramural Athletics.

The meeting for officials will be 4:15 p.m. Thursdays at the Arena.

Managers of all teams interested in flag football will meet at 4:30 p.m. Tuesday in Muckelroy Auditorium in the Agriculture Building.

All teams must be represented by a manager at the meeting to be eligible for play. Team rosters and a $2 entry fee are due at noon Tuesday.

Martin also announced that the weight room, Room 103 of McAndrew Stadium, will be open to students from 1-3 p.m. and from 6-9 p.m. Monday through Friday and from 1:30-5 p.m. Saturday and Sunday.

Students will be allowed to use the swimming pool at the University School free of charge on presentation of their SIU identification card, Martin said.

The times for the free swim are Friday from 7-10:30 p.m. and Saturday and Sunday from 1-5 p.m.

Martin also announced that basketball, handballs and handball gloves can be checked out at the Intramural Office, Room 128 of the Arena.

Recreation equipment also may be checked out at the boat dock shed located on the east side of the Lake-on-the-Campus. The shed is open from 1-5 p.m. daily.

Blackout Had Little Effect on Game

SIU Quarterback Impressive, Completes 18 of 31 Passes

Louisville's Benny Russell put on quite a show Saturday night, hitting on 23 of 30 pass attempts for 245 yards, however the biggest story of the game are Southern quarterback Wally Agnew's statistics for the night. The Agnew in 31 attempts for 258 yards and one touchdown, Agnew completed 9 of 11 attempts the first half.

Coach Ellis Rainsberger believes that the limited lighting available after the blackout Saturday had very little, if any, effect on the game. He said, "There was the possibility that the kids would cool off and lose their enthusiasm, but they didn't."

The Salukis sustained no serious injuries last week and should be in good physical condition for this week's game against Drake at Des Moines.

An improvement is evident in the Saluki punting game already. The average punt for the first game against Wichita was an even 50 yards. Against Louisville, the average was upped to an impressive 45.4 yards per punt.

That parachute you may have seen descending in front of University Park between halves of Saturday's game was supposed to be part of the halftime entertainment. Gordon Cunningham, president of the SIU Skydiving Club, planned on hiring the football field, but didn't quite make the scene.

Although the Saluki football scene was dimmed by both the field lights and the final score of Saturday's game, Coach Ellis Rainberger's optimistic outlook was not dimmed by SIU's performance against Louisville.

Rainberger expressed no disappointment in the team's performance. He was, as the course, disappointed in the outcome.

Rainberger said, "I hate to see a team play that hard and that enthusiastically and lose, but if we keep playing this way we certainly will win our share."

Rainberger said that the team would need to show steady improvement throughout the season, especially in their, and perhaps 120 of the game. He expressed a great deal of satisfaction with the performance of the defensive secondary which faced an outstanding quarterback in Louisville's Benny Wells. Russell completed 23 of 39 passes against the Salukis.

Rainberger pointed out that Salute, has faced two of the finest passers in the area in their first two games. Although the Salukis have passed 71 times, there has been only one touchdown, pass thrown against the Saluki secondary.

Part of the credit must go to the defensive backs, Rainberger said. Russell showed why he is rated so highly by this coach's opponents in scrambling for a possible yardage. It looked as if he would be tossed for losses by the Saluki line-

me, be added.

One of the encouraging things about the Salukis' performance thus far, according to Rainberger, is the increasing leadership from within the team. He pointed out that this comes from the starters, per cent, and the enthusiasm and leadership is really becoming a team affair more than being left up to individuals.

The Salukis instituted the 1-formation Saturday, running about six times from that formation. Rainberger said Sailing Club to Eichner Thursday

The SUI Sailing Club will meet at 9 p.m. Thursday in Room 208 of the Home Economics Building. Committee chairmen for the fall term will be elected.

they would continue to use it. The 1-formation gives South-

ern Illinois, a strong side blocking,

he said. One thing that stood out in Saturday's game was the 147 yards in penalties assessed against the Salukis.

Rainberger attributed this to the overagerness of the team. The penalty situation is not uncommon when there are several freshmen and sophomores playing.
