Burglary Attempt Fails As 2 Students Seek Exam In Economics Office

Two freshmen who were caught inside the Economics Department office, 701 W. Mill, early yesterday have confessed they were trying to get copies of a final exam.

Don Ragdale, assistant SIU security officer, said they had pried open a window with tools in their possession when Security Police caught them in the office, he added.

The students, William Mur­phy, 19, of Dwight, and William Weibeler, 20, Joliet, were charged with burglary. They waived preliminary hearing in Jackson County court yester­day and were bound over to the Grand Jury.

Ragdale said they were released after posting $1,000 bond each.

Charles Goss, chairman of the Carbondale Plan Commis­sion, said that SIU Chancellor W. Morris told city officials that it will be recommended that any major proposed de­velopments in the area be stopped. If not, it would be necessary for the University to condemn the property and purchase it, he said.

President Morris met for three and 30 minutes Monday with members of the City Council, Plan Commis­sion, and the Community Conserva­tion Board (urban renewal), the city building official and the fire chief.

Asked what the land included in the expansion plan would be used for, Morris said he does not know specifically at this time. Franklin Island units such as Southern Hills apartments might be con­structed, he said. Or the land might be used for educational buildings.

No specific date has been set for the University to begin acquiring the new land in Carbondale, he said. This will depend on the formation of the University's expansion plan.

Carbondale Mayor D. Blasney Miller said the city may postpone or drop plans for a $100,000 widening and improvement project on Grand Avenue from Illinois Avenue to Main Street. The idea was to extend the line of the University's expansion plans.

Miller said the City would hesitate to spend the money unless the halls of residence in the area eventually become part of the University.

When asked in the meeting why the University is seeking new land in Carbondale, Morris replied that the plans had go back 20 years ago when it was agreed that SIU would expand around the "heart of the campus." This "heart" would be a large area of existing and other early campus buildings.

Prof Says Impersonal University System Aids Cheating

Second of A Series

By Sandra Karraker

"I think kids are enormous­ly ingenious in beating the game," said Ward M. Morrison, professor of Government, in a recent interview concerning his views on cheating.

They figure up ways you never even know they have thought of. This so-called disciplinary machine of a large university will always be behind the kids.

Morrison feels that the more modernized education becomes, the more students there will be attempting to cheat or "beat the game."

"Not only are they learning more and more about the subject, they are learning more and more that they can get away with cheating. This makes it more difficult for a teacher who wants to catch them, he added.

"The reason for this, he says, is the "disciplinary council," of which both faculty and students participate.

"Students have no choice but to spend the money, unless the halls of residence in the area eventually become part of the University.

When asked in the meeting why the University is seeking new land in Carbondale, Morris replied that the plans had go back 20 years ago when it was agreed that SIU would expand around the "heart of the campus." This "heart" would be a large area of existing and other early campus buildings.

Skimpy Skirts, Slacks In Class
Give Girl 'I Don't Care' Look

Just because you like certain fashions and colors is no reason you should wear them, Ritta Whitesel, clothing specialist in the School of Home Economics, advised SIU coeds this week.

"Enjoy them on other people, was her cryptic but professional advice.

Miss Whitesel also stressed individuality in dress. For example, she said if a color is 'big' for a certain season a coed shouldn't wear it if it 'its not for you.'

Spring is one of the main seasons for supplementing wardrobes, Miss Whitesel said. Fall is the other. And she recommended that coeds read the fashion magazines ahead of time to get ideas of what will be popular and what to look forward too in the way of new clothes.

"This year's popular garment will be the classic shirtwaist," Miss Whitesel said. "The only modification is a slightly fuller skirt and longer sleeves."

"This dress is good because it can either dress up or dress down," she added.

Miss Whitesel said she feels that coeds at SIU are quite well dressed but she did have some sage observations with which many students will agree.

"A plump girl should not wear short, tight skirts," she said.

"Great shirts this year's popular garb," Miss Whitesel also stressed.

"They should be avoided on campus for the extreme styles that are found on some campuses. "Most girls on campus are, at least partly, working their way through college and it would be impractical for them to try to keep up with high fashion," she said.

Business Review

7:00 p.m.
"Great White Way," "Oh, Captain"

Saturday
1:00 p.m.
Metropolitan Opera, Verdii's "La Traviata"
Over Spring Break:  

Need A Ride? Check At Information Desk

Travel arrangements to leave the SIU campus for spring vacation are still going on at the Ridge Gray Office, the Information Desk at the University Center. The "Share-A-Ride" service provided by the Service and Campus Committee at the Center Programming Board changes from day to day as students complete arrangements to go to every part of the United States.

Since only nine cards in the "share-a-ride" notebook are de­signed to go to Florida and five to New Orleans, it appears the students are greatly needing home. "Florida has nothing to of­fer students on Spring Break," observed one student.

But 30 as of today are trying for rides to New York; 21 are expected to arrive and 55 to points in Illinois. The "share-a-ride" notebook is rapidly filling up.

7 SIU Professors Publish Secondary Education Text

Clarence D. Samford, chair­man of the College of Education, has announced the publication of a new secondary education text entitled "Secondary Education." The Samford committee is made up of authors of the book and included Clarence D., two Clark, J. Dyson, Troy W. Edwards, Ross A. F. Pilger, Herbert F. A. Smith and W. W. Stephenson, all of the Education Department, made equal contribu­tions to the text.

"Secondary Education" is a text primarily written for use by students in Education 310, Samford said, although other aspects of the book might be useful "as a part of in Student Finds Insults To Residence Life

An incident at the Carbondale Police Department has cost an SIU student $10. Robert Vanderveer, 19, of Gorvelville, pleaded guilty to a criminal defamatory charge before Police Magistrate Robert Schmaltz. Police, said Vanderveer, wrote an obscene note insulting the police department over a parking ticket.

The student apologized to police, Schwartz said.

Tryouts Begin March 27th

For 'Look Homeward Angel'

Tryouts for "Look Homeward, Angel!" won the Pulitzer Prize in 1958 and, in that same year, won the New York Critic's Award. It is the story of Eugene Gant, a young boy growing up in a small Pennsylvania town.

Copies of the play are available on reserve at the University Library. All University students are eligible for tryouts.

Nuclear Seaborne Force Plan
Receiving Little Enthusiasm

LONDON

The U.S. plan for a nuclear surface fleet manned by the North Atlantic Treaty Organization ran into rough sailing Tuesday in Britain.

Among the difficulties, in the British view, is the $84 million a year expense for the next 10 years as Britain's share of the surface fleet's cost. Britain also wants a multinational force based on the assignment of individual national nuclear forces to NATO.

Washington views the spread of nuclear weapons as adding to the danger of an atomic war without materially strengthening the West's defense.

NEW YORK

Novelist J. F. Powers, biographer Leon Edel and poet William E. Stafford today won the three $1,000 prizes of the National Book Awards for the most distinguished American books of 1962.

Powers, 45, a native of Jacksonville, Ill., won the fiction prize with his first novel, "Morte D'Urban."

The novel is about an imaginary religious order of the Roman Catholic faith, and particularly about Father Urban Edel, 56, a professor of English at New York University, took the nonfiction prize with the second and third volumes of his four-volume work, "Henry James."

Stafford, 49, who teaches English at Lewis and Clark College, Portland, Ore., won the poetry prize with "Traveling Through the Park."

CHICAGO

Mayor Richard J. Daley of Chicago has come out in support of a bill to limit the aid of birth control aid to married couples living together who are on relief.

The Illinois Public Aid Commission plans to start a program April 1 to provide free birth control information and devices to all mothers on relief, whether or not married or living with their lawfully espoused.

Dr. Rajendra Vyas (left) "inspects" equipment at VTI while Lou Viecelli, director of VSI projects looks on.

Blind Indian Educator
Taking Course At SIU

Rajendra T. Vyas plays frisbee to most people when it comes to seeing. He's been blind since age 11.

"In several ways, he's the first 'violinst' in India."

"He has been the first and only blind lawyer of the Bombay High Court."

At the University of Bombay he was the first and only blind student to earn a doctorate degree.

In 1959 he began lecturing in law at Bombay's Law College, the first and only blind lecturer in a University of Bombay affiliated college.

With his wife, Vyas is spending five weeks at SIU as a student in the only training course for job-placement of blind counselors to the blind in the U.S.

He is visiting this country of United Nations Fellow to study the education, rehabilitation, and employment of the blind.

He spent one year in the United Kingdom on a similar program before coming here.

He is dressed in a dark brown American business suit of latest fashion, white shirt, black four-in-hand tie, black shoes, and wearing sunglasses. Vyas sat with his wife in their Chautauqua apartment discussing his unusual life and career.

Vyas helped found and is a developmental officer for India's National Association for the Blind. His job is to organize and execute schemes effecting the education and rehabilitation of the blind. He edits the NAB journal, "Blind Welfare," and supervises a braille press which prints material for the blind in three Indian languages.

Vyas also produces the tape-recorded "Talking Magazine for the Blind" for the Blind Mens' Association of which he is honorary general secretary.

When asked if his blindness caused any special problems, he said, "No, my mobility is good." His business card reflects his active life. It reads: "Dr. Rajendra T. Vyas, M.A., L.L.B., Ph.D."

That's quite an accomplishment for any man only 31 years old.

Applications For Scholarships Due

Applications for scholarships and awards for the 1965-1966 academic year must be submitted to the Financial Assistance Center on or before March 15. The United States full consideration, Arthur Swanson, coordinator of financial assistance said today.

Academic achievement and financial need are the primary considerations in selecting recipients, he said. Grades during spring quarter will be considered before final decisions are made.

Missed A.F.R.O.T.C.? Where's the Drill?

These letters stand for Air Force Officer Training School—a three-month course for those who realize they want to become Air Force officers, but don’t have enough schooling to qualify.

We prefer our officers to start their training as freshmen, so we can commission them directly upon graduation. But right now we’re accepting incoming sophomores who want to become an Air Force officer—OTS. We can’t guarantee that this program will still be open a year or so from now.

As an Air Force officer, you’ll be a leader on the Aerospace Team, serving your country while you get a flying headstart on the technology of the future. The U.S. Air Force sponsors one of the world’s most advanced research and development programs—and you can be part of it.

If you’re within 210 days of graduation, get more information on OTS from the Professor of Air Science.

U.S. Air Force
This is the time of the year when the students give extra grade conscious. So for the proud, as well as the olduğunu student in the undergraduate student who named the Dean's List fall quarter with a 5-.straight A average. 

James Smith Named Alumnus Of Week

James Morton Smith, author, editor and teacher who grew up in Franklin county and is a Franklin county girl, has been named Alumnus of the Week by the SIU Alumni Association.

Smith, currently editor of publications at the Institute of Early American History and Culture at Washburne, Va., and lecturer in colonial history at the College of William and Mary, will receive a salute on a portion of the SIU News Review over WSIU-TV (Ch. 8) at 8 p.m. Thursday.

He is author of "Freedom's Fetter," and co-author of "Liberty and Justice, a Historical Record of American Constitutional Development."

His articles and reviews have appeared in many scholarly journals.

Reared in West Frankfort, he was graduated from Frankfort Community High School in 1936 and was named the former Kathryn Heger of Benton.

Smith received his bachelor's degree from SIU in 1941, his master's degree from the University of Illinois in 1946 and his Ph.D. from Cornell University in 1951. During World War II, he served in the Coast Guard, He has taught at St. Louis University and the University of Ohio State University.

His "Freedom's Fetter" was a selection of the American Historical Association's "Liberty and Justice" Award competition in 1967.

James Smith Named Alumnus of Week.
The coloring book fad which is sweeping the nation has given the American people the opportunity to laugh at itself and its leaders. The thought occurred that possibly the students of SIU should have the same opportunity. What follows is The Egyptian's offering for an SIU Coloring Book.

**Number One:**
See the pretty university. See all the nice foliage and the boulders. Color them always moving. Be sure to color over the dollar signs on them.

**Number Two:**
This one is the spacious sectioning center. See the line of statues standing in front of the sectioning center. Those are not statues. Those are students. They are frozen. Color them tolerant.

**Number Three:**
See the university buying Carbondale land. Color the land grabbed. Color Carbondale angry.

**Number Four:**
Look at the streets around campus. They look crowded. Now look at the nice cars coming down the street. But why are they all smashed up? They tried to get in one parking place. Students are not supposed to have cars. Color the cars not here.

**Number Five:**
Look at the funny students. They are taking a 50-mile hike. Color their feet sore.

**Number Six:**
This is the Student Council. They are tearing at something. It looks like the activity fee study. They are embarrassed. Color their mickey mouse ears red.

**Number Seven:**
See the big University Center. See all the students running, gouging, fighting to get into the cafeteria. Color the chairs piled high with coats and books. The coats and books are reserving tables for the students. Now color the students. But don't color them too bright. They don't like it when someone else saves a table.

**Number Eight:**
This picture shows a group of buildings. Greeks live here. They are not from Greece. See their grades. Color them questionable. Now color the Greeks outflanked. Don't forget the gun in their backs. Color it loaded.

**Number Nine:**
This is the Health Service. See the students lying out on the front lawn. There was no room for them inside. Color the students too late.

**Number Ten:**
Look at the pretty cannon. Color it fleecy. Now look at the students plucking the cannon's feathers. Don't laugh too hard. They feel ashamed. Color them ashamed.

**Number Eleven:**
See the pretty picture. That is an instructor's examination. Finals are fun. Finals are lots of fun. Now look at the students leaving the university. They laughed too long at examinations. Color them long gone.
Purple Aces Handed Salukis
Worst Defeat Of The Season

SIU will try to avenge its worst defeat of the season tonight when the cagers tangle Evansville College's fourth-ranked Purple Aces in the last quarter-final game of the NCAA College-Division basketball tournament.

Other schools entered in the tournament are Northwest (Pa.), Philadelphia (Pa.) Temple (Ga.), Wittenberg (Ohio), South Dakota State and Fresno (Calif.).

Wittenberg is the number one ranked team by the Associated Press in the College-Division poll. SIU is tied for seventh.

Evansville dropped the Salukis 79-60 during the Christmas tournament at Robert Stadium.

Evansville is led by its two honorable mention All-Americans Jerry Sloan and Buster Briley. Sloan was named to the honorable mention major-college All-American team. Evansville is a college-division team. Briley received honorable mention All-American on the college-division squad.

Other stalwarts in the Purple Aces lineup include 6-7 Ed Zausch, Paul Bullard, Mary Frueyt and Wayne Bouldinghouse.

The Aces-SIU game highlights the opening round of the tournament which is regarded as the best field of teams ever in the seven-year history of the tournament.

Evansville won the college-division tournament back-to-back in 1959 and 1960. Wittenberg won the tourney in 1961 and last year Mount St. Mary's (Calif.) won it. Mount St. Mary's lost its opening round game of the regional tournament last Friday night.

Coach Jack Hartman's Salukis face a tough road tonight if they are to win the tournament. If SIU beats Evansville tonight it will meet the winner of the South Dakota State-Fresno State at nine o'clock Thursday night.

If the Salukis get by Thursday night's game they will probably run into Wittenberg for the championship.

Hartman is expected to go with the same starting lineup which won the Southeast Regional. Dave Henson, team captain and leading scorer, Jim Dupree will be going at forwards. Frank Lenfster will get the center starting position. Paul Henry and Harold Hood will start at guards.

One Loss This Season:

Wittenberg Top Defensive Squad
To Play In Evansville Tournament

Wittenberg (Ohio) carries the best defensive average into the NCAA College-Division basketball tournament finals and is the favorite in the tourney.

Evansville was seeded second with SIU third. The championship is expected to go to Wittenberg for the championship according to the form chart drawn up by the NCAA. If the championship game is expected to go to Wittenberg Evansville, the game is expected to go to Wittenberg for the championship according to the form chart drawn up by the NCAA. The championship game is expected to go to Wittenberg for the championship according to the form chart drawn up by the NCAA.

Wittenberg and Evansville square off at 7 o'clock tonight and will be followed by the SIU-Evansville game. Wittenberg (24-1) will take the nation's top defensive average (46.5) into action against Northeastern (21-5), Al Threbar, a 6-2 junior with an 18.7 scoring average in the mainstay of the walking Wittenberg Talking Tigers. Wittenberg is noted for its slow deliberate type of offense. Its only loss of the season was to Eastern Kentucky in three overtimes.

Northeastern has a veteran team and balanced scoring with four starters in double figures.

Ogletorpe will enter its game a slight favorite over Philadelphia Textile because of superior height. The Petrels smallest starter is 6-3 1/2 while Textile's tallest man is 6-6.

Ogletorpe is the fifth best defensive team in the land with a 49-point game. Philadelphia Textile is the highest scoring team in the tournament with an 85-plus mark.

Fresno State is paced by 6-9 Ron Neff while South Dakota State's big gun is 6-10 Tom Black. Both have size and verve in mid-season to win its respective conference championship.

FACULTY Bowling Lead Widened By Athletics

Athletics increased its lead in the SIU faculty men's bowling league to three points. Athletics now has 54 points with Chemistry II hanging on doggystyle (39) and Phi Sigma Chi (35) in third place with 49 points.

Industrial education is next with 41. Forest Service and Economics have been eliminated as factors in the individual high game and high series. High series total was 566. The individual high game was 225.

Agriculture rolled up the team high series with 2,837 points. The team high game of 993 was rolled by the Air Force pin.
High School Principals Meet Here Friday

One of nine regional meetings for Illinois elementary school principals to be conducted at major institutions throughout the state will be held at Southern Friday.

Subject of all Illinois meetings is "Improving In-Service Education for Principals."

Hanna J. Hichka, director of the division of instruction and curriculum, Indiana University, will be main speaker at the SIU meeting in the Morris Library auditorium.

The meeting is in charge of Harold Hathaway, principal of Lincoln School, Mt. Vernon.

Discussion leaders and recorders are Don Wittenbrink of Centralia, Martin Crab-tree of Cairo, Howard Abraham of Murphyboro, Roy Shaw of Fairfield, John Led-better of Marion, Harold L. Crowell of Carbondale, Lawrence Lip of Chester, Dorothy McKennie of Benton, Ted Manis of Carmi, George Kee of Johnston City, James McAnally of West Frankfort and Kenneth Rushing of Herrin.

ROBERT JACOBS

Jacobs' Survey Aids Syrians To Teach English

Robert Jacobs, coordinator of International Programs at SIU, has recently proposed an improved program for English teacher training at the University of Damascus in Syria.

Jacobs was in Syria for a month studying Syria's program of instruction on the English language. His research was financed by the Ford Foundation.

Syria has had difficulty in teaching the English language, he said. They found that after six years of instruction in English the majority of students completing secondary schooling cannot use English effectively.

The main purpose of the survey was to identify principal deficiencies and to devise a program to overcome them, he added.

Jacobs served as a consultant to three Syrian educators, representatives of the University of Damascus, University of Aleppo and the Ministry of Education.

He commented that Syria's public education system in general is considerably better than many of the newly-independent countries.

Eighty-five percent of the children of school age start school, he said, the average of such countries is around 60 percent with some falling as low as 10 to 15 percent.

Female Cagers Finish Season

With Four Wins

Girls' basketball teams from SIU closed out their 1963 season with four victories at a Sports Day held last Saturday at Principia College, according to Jeannine Thorne, instructor in physical education for women and basketball coach.

Wins were scored over the SIU Alton Center 53-25, over Carthage College (Carthage, Ill.) 30-6, Principia 43-18 and Greenville College 30-10, Saturday's victories brought the season's scoring record to eight wins vs. two losses.

High scorers among the SIU girls were Gloria Dungo of Prairie du Rocher, who scored 14 points against Alton and 18 against Greenville; Charlene Sommers of East Alton and Jane Hucklebridge of Shipman, each scoring 14 points against Alton; Beverly Selliger of St. Louis, who scored 12 points against Carthage; and Mary Ellen McEvoy of Granite City, 21 points against Principia.
