The American girl has become a fashion conscious unit. Girls of all ages, Italian, Spanish and English know the details of the latest fashions. They, too, follow the pages of fashion magazines. The Japanese girl, too, has become interested in the latest styles. Her fashion magazine, in foreign language, is shown on the streets.

Matchmaking agencies, both in Europe and America, have become popular among young girls and boys. The Japanese are quick to embrace modern styles, as they do in other areas of life.
