Jane Crusius Represents SIU in Illinois Contest

Miss Southern Displays Talents At Mt. Vernon

Jane Crusius, the official hostess and prize winner at the annual Chicago fair, won an $185 trip in the Illini contest.

Next week, she plans to head for the Mid-Western fair, where she will be the hostess and prize winner. The fair is scheduled for Thursday and Friday, and several events will be held there.

"I was crossing the Illinois River when I saw the sun setting," said the hostess. "It was a beautiful sight, and I knew I had to get there on time to take part in the events."
I believe that suppression of the news, for any occasion, is intolerable. I define the news as a marketable commodity, a journal which would not stay a day as a gazette; that by every other pocketbook is as much to be avoided as by every other pocketbook of another; that individual responsibility cannot be escaped by placing another’s assumption or another’s disability.

Death RIDes TONIGHT

An extra passenger will be riding with us this weekend. We won’t see him, though, and you won’t either; he’ll be sitting there... a silent, ghastly companion... all the way. We’ll be hoping to take one of his little known, but we’re hoping to catch a glimpse of him... if we can. He’s been on the road so long, we’re sure we’ll find him somewhere. But we’ll be hoping that a young life will be ripped off, then, and that some crime will be avenged. It’s all that will be left of us, and the only thing we can do to the dark... and death. And... we’ll all have to live and love in a world without him.

Reflections on Newspaper

The newspaper is an essential part of society, providing a platform for the dissemination of information, opinions, and news. It serves as a critical tool for democratic participation, allowing citizens to stay informed and engage in public discourse. Newspapers also play a role in shaping public opinion and influencing political decisions. However, the rise of digital media has led to a decline in traditional print newspapers, with many facing financial challenges and declining circulation. This has raised questions about the future of journalism and the role of newspapers in a rapidly changing media landscape. It is important to support local newspapers and encourage diversity in media ownership to ensure a healthy and vibrant democratic society.

A Look At Youth Corps

The Point Four Youth Corps, which currently serves as an extension of the U.S. Congress, has some definite advantages which students might take into account. Basically, the program would enable qualified graduates to undeveloped countries to work on special service projects, directly with the people. Most useful fields would be agriculture and industry, but practically all other fields would be involved. This is a great opportunity for students—ideally—would serve as ambassadors of the Youth Corps and help to spread the message of the program. In addition, the program would provide students with valuable experience and skills that can be applied in their future careers.

Communist Move

While the article discusses the potential for a communist move, it is important to remember the historical context and the reasons behind such actions. The article raises questions about the potential for a communist move, but it is crucial to consider the motivations and the implications for the country. It is essential to have a clear understanding of the issues and the potential consequences before making decisions that could impact the future of the country.

**Lucky Strike's Dr. Fredro declares:**

**Graduation is all a matter of degree**

**Dear Doctor Fredro:**

I am about to graduate top girl in my class. I have decided to take up a career, rather than squander my intellectual endowments in the drab, tame, unexciting, and uninteresting occupation of a man. Your help is needed. Please give me some advice.

Concerning The Outdoors
by Larry Myers

The ONE'S THAT GET AWAY
Catching fish can be a very exciting sport when you experience nothing better than the joy of catching the one that got away. When you catch a fish, you feel a rush of adrenaline and excitement. But when you release the fish and it swims away, you may feel a sense of disappointment and frustration.

One must be cautious when it comes to releasing fish. In some cases, releasing a fish back into the water can be beneficial for both the fish and the ecosystem. However, in other cases, it can be harmful to the fish and the environment. It is important to understand the proper techniques and guidelines when releasing fish.

One of the most important aspects of releasing fish is to ensure that the fish is returned to the water in good condition. This includes making sure that the fish is not injured or damaged in any way. It is also important to ensure that the water quality is suitable for the fish to survive.

Another important aspect is to ensure that the fish is released into a suitable habitat. This includes making sure that the water is free from pollution and other harmful substances. It is also important to ensure that the water temperature is appropriate for the fish.

In conclusion, releasing fish can be a very rewarding experience. However, it is important to ensure that the fish is released back into the water in good condition and the appropriate habitat. By following proper techniques and guidelines, we can ensure that our actions have a positive impact on the environment and the fish.

A word to the student
When you come to SUNY, you will get a social education as well as a formal education. A big part of your social education will involve the clothes you wear and how you present yourself. At SUNY, it is important to be confident in the way you look and dress. It is also important to be respectful of others and to be aware of the social norms and expectations.

Music Group Celebrates Tenth Birthday

The tenth birthday of the local music group was celebrated Saturday night at the Tenth Birthday. The group was formed in 1918 and has been in continuous operation since then.

I. j. Youness was chosen White Rose queen by the group. The group's founders, Karen Herkis, Bette Schraeder, and Sister Mary Hanigan, were also present at the event.

The group has a long history of musical achievements, including performances at various events and competitions. The group is one of the oldest in the area and continues to be active today.

Missouri Alums Hold Meeting

The Missouri Alums held their annual meeting on Saturday evening at the Missouri Alumnae House. The meeting was attended by many local alumni who gathered to discuss the future of the organization.
