Voting Shows Students Prefer Elective ROTC

Proposers of elective ROTC won a victory in last week’s balloting on the issue, and SIU, like most of the other student sagets, showed 2,105 students favoring electOR DC, with 363 preferring a compulsory training program. Of 530 faculty mem­bers voting 457 chose an elective program and 73 a compulsory program.

I. Clark Davis, chairman of the Military Policies Committee, said final tabulation, in­cluding figures showing the voting as broken down by classes, should be completed today.

Davis said the results will mean a step-up in SIU’s negot­iation with the Board of Education and Defense of establishing an entirely voluntary military program on the Carbondale campus and a year program on the Edwardsville campus.

“The next step is to receive the official position of the Department of Defense from the Assistant for Re­serve Training of the Board of Education and Defense, said Davis.

‘It is hoped determination can be received from him early next week.

Consulting with Marrs, the Military Policies Committee will prepare a re­port which will be submitted to the next meeting of the Board of Trustees, which is scheduled for Apr. 23.

Romantic Love

Is Speech Topic

The development of romantic love during the middle ages was discussed Monday night by John W. Drakeford, pro­fessor of history and English Literature, in the first of a series of Throgmorton Lecture­maters in the Imancy called ‘Love,’ sponsored by the Public Relations Department.

Drakeford will continue these talks tonight when he speaks on the subject in the Student Union on ‘Scopiothology, or the Love Affair of a 3rd Century Student.’ After that he will continue every evening he will speak on ‘Sex and Love,’ followed Thursday evenings by a discussion of ‘Why is Marriage?’

The two lectures, both at 7:30 p.m. in the Baptist Student Union, will consider the aspects of love in its many relationships and the current morals revolution.

Crash Near Sparta Injures

SIU Work Office Assistant

Alice Rector, assistant di­rector of the SIU Student Work Office, is in satisfactory con­dition in Doctors Hospital re­ceived injuries resulting from a two-car accident near Sparta Sunday night.

Mrs. Rector’s doctor said she suffered “severe fractures and multiple injuries,” according to friends, Mrs. Rector was on route to St. Louis to catch a plane for Minneapolis where she was to attend the American Per­sonnel and Guidance Association Convention.

Dr. J. C. Fenny of Sparta treated her immediately after the accident, about 5:30 a.m. Sunday, said police told him Mrs. Rector’s car ap­parently skidded on a curve in the path of an oncoming car. The driver of the other car apparently tried to avoid the accident, but they collided at the e. c. of the road.

Mrs. Rector was thrown from the car and hit the pave­ment. She was treated at a Sparta hospital and then brought to Doctors Hospital.

SCHOLARLY JOURNAL — Robert D. Faner (left), chairman of the English Department, looks over the first issue of Pell, SIU’s new scholarly quarterly, with Robert P. Marrs, chairman of the Department of Language and Literature at the launching of the new scholarly quarterly, with Robert Partlow, associate profes­sor of English and Robert P. Marrs, chairman of the Department of Language and Literature at the University of Southern Illinois.

Pell (Papers on English Lan­guage and Literature) will be issued quarterly, with Robert D. Faner, chairman (Edwardsville campus); Robert P. Marrs, chairman (Carbondale campus) and Edwardsville campus) and Robert D. Faner, chairman (Carbondale campus). The current issue includes articles by the American Historical Association; the American Psychological Association; and the American Sociological Association.

The first issue of Pell, a new University-sponsored scholarly journal in the gen­eral field of humanities, has been published.

Developed by the English Department on the Carbondale and Edwardsville campuses, Pell (Papers on English Lan­guage and Literature) will be issued quarterly, written for and by scholars and critics of language and English and American liter­ature, it includes essays and studies devoted to literary history, analysis, stylistics and evaluation.

It also occasionally will print material relating to belles lettres: previously un­published letters, journals, notebooks and the like, by, as es­tablished authors.

The current issue includes articles on Fanny Burney’s ‘Evelina’ by Kemp Malone, former visiting distinguished professor of English; on ‘W. B. Yeats’ by Cyril Daulton, of Win­ton College; on Charles Lamb by John Aden; and on Faulkner by Vernon Horne­back of Sacramento State College.

Included also are studies of Edward Albee by Marlon Taylor, of Charles University; of ‘The Murders of Mungo’ by Du Bell by J. C. Arena, of Crane by William Gom, and of ‘Arms and the Man’ by James C. Austin, all of the Edwardsville campus.

The Pell advisory board includes Thomas W. Baldwin, professor; Robert P. Marrs, professor; J. F. McDermott, professor; Gordon St. Wood, professor (Edward­sville), Nicholas T. Jenos, prof­essor (Edwardsville campus), is editor, and Robert B. Parrish, associate profes­sor, is associate editor.

The format and printing are by Central Publications, di­rected by Earl E. Parkhill, Albert B. Mifflin and Miss Nina K. Spiter.

SIOU Senior Killed in Collision Near Salem; 4 Others Injured

Earl Michael Carson Dies

After Car-Truck Accident

A car-truck collision at 4:50 p.m. Sunday killed one SIU student and injured three others. Dead is Earl Michael Carson, Jr., of Washington, D.C., a senior in the last quarter of school. Carson’s major was marketing.

He was pronounced dead at 6:08 a.m. Monday, 1/2 hour after the accident occurred.

SIU to Exchange

Profs and Students

At Winston-Salem

Winston-Salem State College, Winston-Salem, N.C., a predominantly black institution, will begin a cooperative ex­change program with SIU this summer. Mrs. Rector, according to Robert V. MacVicar, vice president of academic affairs, the exchange will involve the shifting of professors and students between the two institutions.

In the first step of the ex­change, Orville Alexander, chairman of the Department of Foreign Languages, will teach at Winston-Salem.

G. Ross Johnson, dean of liberal arts at Winston-Salem, and a Harvard University dec­tionary, will teach at Win­ston-Salem.

In June five faculty mem­bers of the North Carolina School and five faculty members will meet in Car­bondale to set up additional exchange programs.

The exchange plan is de­scribed by Robert L. Jones, dean of academic affairs, as a means of co­operation between a pair of schools in contrasting cultural traditions.

Winston-Salem is a state­operated school with a student body of nearly 1,300 students enrolled. It has been pri­marily a teacher-training school, but has recently taken on a program of liberal arts and sciences.

Joint applications for feder­al and private foundation grants will probably be made by the two schools to further the cooperative program, Keefery said.

He added that the program is an outgrowth of recommenda­tions made by a study com­mittee of which he is chairman.

Degree Application

Deadline Is May 12

Students who plan to re­ceive a degree at the June 1965 regular Commencement ceremo­nies will complete a formal application for graduation as soon as possible.

The forms may be obtained at the Registrar’s Office be­fore the May 12 deadline,
Mu Phi Epsilon Music Sorority Elects Officers, Outlines Duties

The Epsilon Kappa chapter of Mu Phi Epsilon, international professional music sorority, recently installed officers during a meeting at the home of its sponsor, Mrs. Charles Taylor. The officers are Cheryl J. Biscontini, president; Lynda G. Houghland, vice president; Mary K. Gornatti, treasurer; Katherine E. Grimmer, recording secretary; Kathy Miller, chorister; Deanna M. Downing, chaplain; Marilyn M. McBride, warden; Patricia A. Bitter, historian; Sharon L. Marlow, alumnae secretary; and Judy Dunn, corresponding secretary.

After the installation, the new officers met with Miss Marian F. Davidson, district director, who told them what their duties would be.

100 Movies Since 1938

Conried's Favorite Characters Are His 'Bullwinkle' Voices

By Maggie Perez

Hans Conried, one of the most versatile motion picture and TV personalities in America today, has been many things, but to him the most enjoyable of his experiences was to play voices on the popular TV cartoon program, "The Bullwinkle Show."

Perhaps Conried looked a little like an animated Bullwinkle character as he arrived here Sunday to make his first appearance on this campus. He was dressed in a wild combination of an orange-and-black checked suit and red-and-white checked shirt.

The strongly-built character actor fingered a flashy yellow-and-black paisley print handkerchief in his suit coat pocket as he chatted informally with a group of students Sunday afternoon prior to his performance at Shroyer Sunday evening.

Since he started acting professionally at the age of 18, Conried has enjoyed a career spanning several theatrical media. In addition to performing in a host of long-term radio roles, the adept actor has appeared in over 100 motion pictures since 1938.

Conried recently watched his old films on the TV late shows because, as he put it, "It's little disheartening to see that handsome young man with the chestnut brown hair bouncing around adorably."

However, alter his many years of relentless entertaining, Conried is, by no means, lacking in vitality. Conried is as active now (perhaps even more so) as he was in his earlier years. His many-faceted talents are much in demand by college students and video producers. He visits from 50 to 90 universities a year in addition to appearing periodically as a guest on TV programs.

Conried admitted that at times he regrets his heavy schedule of engagements, primarily because he has never been at home with his wife and four children more than eleven days in the last three years. Being constantly on the road is tiring as well as inconvenient.

"I'm now attempting to play 30 colleges in 30 days," says Conried, "and you're number 25. If you're quick and by now my drip-dry shirts are getting pretty gray."

When asked whether he preferred to perform before a live or a TV audience, Conried commented that both have disadvantages and shortcomings, but that TV, in some respects, is more gratifying. The TV viewer, "sitting there in undershorts and socks and in front of the crystal set, is more appreciative, than the audience at the theater, who is being entertained by the stars and the stars are being entertained by the audience."

Photography Institute Scheduled for Today

There will be a photography institute from 8 a.m. until 10 p.m. in the Agriculture Building Arena. The Saluki Photographic Club will be selling plate reservations.

Cal State College Interviewing Set

Representatives of the California State College at Hayward, will be on the SIU campus Thursday for job interviews.

They are seeking biological science majors in plant ecology, general zoology, invertebrate zoology, mycology and comparative animal physiology.

A Ph.D. is preferred and a master's degree in the teaching field is the minimum.

Those interested may contact the Placement Service Office in Anthony Hall to set an appointment time.

Pappelis, Sherwood
To Conduct Seminar

On Corn Disease

The Departments of Botany and Plant Industries will present a joint seminar at 7:30 p.m. today in Room 209 of the Agriculture Building. Topic of the seminar will be by Bert H. Schlair, professor of botany, and Lloyd V. Sherwood, professor of plant industries, will conduct the seminar.

Pappelis said, the disease reached epidemic proportions in Ohio last year and reduced the corn yield by 5 million bushels. There were 2,000 acres infected in Illinois last year with a loss ranging from 10 per cent to a total loss in the infected acres, he said.

Pappelis added, virus-infected Johnson grass is apparently the cause of the disease and one solution would be to eradicate this infected grass.

American immigration in the 1900s.

7:30 p.m.

Bold Journey: "Under Western Skies" is a discovery of the true West in America, Indian lore, wild animals and rough country.

8:30 p.m.

Pacem in Terris: Hutchins, Tillich, and Pauling examine the nature of the problem of peace.

PARKING TICKET

That's Honda. Just the ticket for parking on crowded campus lots and, in fact, anywhere at all. Ride your Honda right up to class, if you like. If the teacher gives you a funny look, it's probably because he'd like to have one, too.

See all the Honda models at

Prejudice at Turn of Century
To Be Traced on TV Tonight

"The Glory Trail," a 30-minute program, traces the growth of transportation and communications methods and their influences upon the West at 8 p.m. on WSIU-TV.

Other highlights:

7:30 p.m.

Turn of the Century: Prejudice against minority groups in the story of the Management Club to Meet Tonight

The Society for the Advancement of Management will meet at 7:30 p.m. today in Room 302 of the Wham Education Building.

Fremont A. Shull, associate professor of management, will speak on "Horrors in Management."

Following the speech, the club will discuss a field trip to the Old Ben coal mine in West Franklin.
Artificial Student

By Robert M. Hutchins

The standard method of preserving human self-respect in the face of the wonder of modern technology is to say that what comes out of a machine is only as good as the input. In this confounding view man is always held responsible for the actions of the machine. Man is the master; the machine is a slave.

But what happens when man builds into a machine the human capacity to learn, to solve problems, to be spontaneous and original?

A system of machines of this type is now undergoing tests at Columbia University in the Engineering & Science.

The effort is to manufacture an artificial student. He, she or it has been given the name Gaku. His entire course of study is his own word for learning.

His designer, Alko Hormann of the School of Commerce and is described in the current issue of the magazine "Business Science."

The effort is to manufacture an artificial student. He, she or it has been given the name Gaku. His entire course of study is his own word for learning.

Hormann, it turns out, is a human learner who has little information about a particular problem. At first his behavior looks like the behavior of a human who makes mistakes. As the problem unfolds, he becomes more selective, directing the machine to find information that is correct in the present state of knowledge. He is discovering that of the rules for making decisions that he selects and corrects. Then he becomes more selective. His immediate self-interest, examine the student's responsibility for handling information. He can determine the feasibility and reasonableness of his decisions and appraise his understanding of the material on which he is working.

Gaku is equipped with the problem-solving device to suit it. It is free to do what it thinks it can do. It can determine the feasibility and reasonableness of its decisions and appraise its understanding of the material on which it is working.

The Problem of Cheating—II

Who's Responsible?

By Charles Keely

The How to the person on your right, look to the person on your left, two of you have examination must share the responsibility in greater detail and discuss the feasibility of an honor code.

The Radicans, who polled 28 per cent of the recent vote, must seek widespread support from other radical factions that have gone their separate ways since the downfall of Peron a decade ago. Ilia must win the backing, or at least the consent of the conservative front that has been highly critical of his radical economic policies. Even with the support of this conservative front, Peronists who have not Peronists who have not won the movement firmed up their support for "Peronistas without Peron," the movement tallied only 6.3 per cent in the November 10 elections. On the other hand, 5,691,902 Argentines, or 62.2 per cent, voted against the Peronistas.

The results clearly re- vealed the return of a two-party system in Argentina against the Peronistas. Together, the two forces polled 60 per cent of the vote.

The Peronistas and Radicals will control 52 and 70 seats, respectively, out of 192 in the lower house of Congress. Through proportional representation, the two movements picked up 58 per cent of the 99 seats up for election. The remaining half of Congress, along with the governorships, will be up in 1967. With the Peronistas, it appears that only a strong democratic union can stop them from winning two years from now. The Peronistas, who have won the victories in Buenos Aires province, compiling a half million more votes than the Radicals against the Peronistas.

Argentine Revives 2-Party System

By Charles Keely

Copley News Service

Buenos Aires — The smoke of the Ar gentina's fiery mid-March congressional elections and the die-hard followers of ex-President Juan Peron can claim either victory or defeat. The measure of the move ment's real power will be decided in the critical 24 months between now and the general elections for provincial governorships in 1967.

On the one hand, Peronists and President Arturo Illia's Pro- Radical Party gave their work cut out for them the 1967 elections could see a return of the 2-party politics in Latin America's second largest country for years to come.

The Radicans, who polled 28 per cent of the recent vote, must seek widespread support from other radical factions that have gone their separate ways since the downfall of Peron a decade ago. Ilia must win the backing, or at least the consent of the conservative front that has been highly critical of his radical economic policies. Even with the support of this conservative front, Peronists who have not Peronists who have not won the movement firmed up their support for "Peronistas without Peron," the movement tallied only 6.3 per cent in the November 10 elections. On the other hand, 5,691,902 Argentines, or 62.2 per cent, voted against the Peronistas.

The results clearly revealed the return of a two-party system in Argentina against the Peronistas. Together, the two forces polled 60 per cent of the vote.

The Peronistas and Radicals will control 52 and 70 seats, respectively, out of 192 in the lower house of Congress. With the Peronistas, it appears that only a strong democratic union can stop them from winning two years from now. The Peronistas, who have won the victories in Buenos Aires province, compiling a half million more votes than the Radicals against the Peronistas.
Meeting of Faculty Planned Saturday

The SIU faculty will hold its spring meeting Saturday at 10:30 a.m. Bus transportation will be provided for faculty members from the Edwardsville campus. The program includes a luncheon from noon to 1:30 p.m.

These plans were outlined in a letter to the faculty from the office of the president. The report also contains information on actions of the University Council, Faculty Council, and Board of Trustees.

This includes a revision of the faculty policies examination. "Upon passing a proficiency examination in a course with a credit of "passing," a student will be granted regular credit toward graduation or toward any other legitimate academic goal. The report will show the name of the course, the hours of credit granted, and the number of credits granted by examination. The credit will be neutral in the calculation of grade-point average. Following passing a proficiency examination, the report will show nothing, but the student will be granted the appropriately.

A University Council recommendation on revision of policy on sabbatical leave was also approved by the president, the report continued. The plan would allow faculty members (and equivalent staff members) to be eligible for sabbatical leave at the end of five years of service. Leaves shall not exceed one calendar year at half-pay, or two quarters with full pay, and may not be given at the end of a seven-year period.

The policy contains a provision for an agreement of two years' additional service on the SIU faculty.

A change in minimum enrollment for courses has also been approved by the president, according to the report. The new rule on minimum enrollments for a course was set at 10.4, for junior and senior level, and 10 for freshmen and sophomore classes. Beginning with the fall term in 1965, the 10.4 rule will be changed to 10.5, the report states.

Another University Council recommendation approved by the president calls for establishment of a standing committee on teaching. It will be designed to provide a mechanism for the development of university-wide policies and procedures in teacher-education programs.

The report outlined recommendations for termination of the Committee on Council, reconstitution of the Intercollegiate Athletics Council, and reorganization of the Educational Audit Committee.

Another section of the report concerns Faculty Council recommendations on salary schedules. The subject was the figures from the report that SIU is not now competitive in salaries at any rank. If we are to hold our present staff members of quality and attract top-quality persons in today's short academic marketplace, we must make sharp adjustment upward," a committee report on the subject stated. The following recommendations have been forwarded to the president for his consideration, and to the University Council for information.

Salaries of professors should be increased 14 percent, those of associate professors 12 percent, assistant professors 10 percent and instructors' salaries 9 percent.

The recommendation to the University Council calls for simplification of baccalaureate degree titles. The report noted a trend toward separate academic identification of the degree; it recommended that the separate designations "B. A." be dropped.

Foreign Students

State Farm Tour

The International Student Center at SIU sponsored a tour of Southern Illinois' farms and beauty spots April 14, 1964, as a trip to St. Louis as was listed in the Thursday Egyptian.

The farm tours, which will be open to all students, including those at the English Language Service, Inc., will be conducted by Eldon Stark, Jackson County Farm Adviser. Students who wish to make the trip should register at the University Center Student at 1012 S. Gore. Charge for the tour will be $1.

CAPT. J. E. JOHNSON

ROTC Captain

Is 'Outstanding' Squadron Adviser

Capt. J. E. Johnson of SIU's AFROTC faculty has recently been selected as the outstanding faculty adviser to the Arnold Air Society for a four-year period, 13 university area.

Johnson, a native of Mt. Vernon, Ill., was a member of the Society while he was a student here at SIU, as well as a member of the SIU basketball team. Upon returning to SIU's campus last year, Johnson assumed the duties of Arnold Air Society Adviser for Southern Illinois' "Harper" Squadron.

As a result of his selection, Johnson is in Washington, D.C., this week for the National Arnold Air Society Conclave. At the meeting in Washington he will be placed in nomination for the nation's outstanding Arnold Air Society faculty advisers.

The Arnold Air Society is an Air Force Association-sponsored student group actively interested in promoting the ideals and objectives of the AFROTC program.

DON'S JEWELRY

DAILY EGYPTIAN

April 13, 1965

DAILY EGYPTIAN
A stunned Midwest counted its tornado dead at 232 Monday, and expected the toll of a vicious Palm Sunday weather onslaught to rise further. Still cradled were communications, utilities and normal services of half a hundred communities. Water shortage and health perils were specters of the aftermath.

The death list from five battered states included 117 in Indiana, 54 in Ohio, 42 in Michigan, 7 in Illinois and 3 in Wisconsin.

The juggernaut of tornadoes, starting in Iowa, which was relatively unscathed, smashed a path eastward across a heavily populated region to Ohio before easing its punishment.

Indiana reported 117 dead, Ohio 54, Michigan 42, Illinois 7, and Wisconsin 3.

In Iowa, a rural tornado injured a farmer and disrupted power for 350,000 users.

Those injured, the American Red Cross said, numbered more than 1,500. More than 1,200 homes were destroyed or damaged in 41 counties, and business loss to damaged stores and factories was heavy. At least 53 communities reported damage.

Damage was expected, on the basis of preliminary reports, to run into millions of dollars, but insurance sources said they were waiting for reports from several hundred other communities.

The Palm Sunday disaster was the worst since a tornado on March 18, 1925 killed 689 persons in Missouri. In 1952, an overnight series of tornadoes which hit St. Louis among other communities, took 208 lives in Arkansas and Missouri.

Twister Kills Six In Crystal Lake

CRISTAL LAKE, IL (AP) - There was devastation and heartache in tornado-stricken McHenry County Monday as the community of Crystal Lake went about its cleanup chores a day after Sunday's tornado.

The tornado killed seven persons in Illinois, six in the Crystal Lake area and one in Chicago.

Sheriff Edward Dowd of McHenry County estimated damage at $10 million.

Monday, Gov. Otto Kerner said 63 state troopers from six sections of Illinois were assigned to the ravaged county. Police from Crystal Lake, Barrington, Cary and other volunteer patrols aided the troopers in guarding against looting.

I've seen death, destruction and inconsolable grief in the path of the Palm Sunday tornado between Lebanon and Greenpoint, Ind. I saw a little girl reading a magazine in the waiting room of a hospital in Lebanon, not knowing that her father, mother and two brothers lay in the morgue.

I saw farmwomen looking with sagging shoulders at piles of junk that represented a lifetime of hard labor.

I saw a woman placed under heavy sedation at Greenpoint after the tornado snatched her 2-week-old baby from her arms as she ran to a neighbor's house. The baby was dashed to death against a wall.

I saw piles of scrap lumber at Kokomo where there had been new homes in an expensive subdivision.

Inside the door of a smashed City Hall, a National Guardsman stood at parade rest. He was wearing sunglasses, and tears were trickling from under the amber lenses.
Saw Him Beaten
Two White Ministers Testify In Investigation of Reeb Slaying

SELMA, Ala. (AP) — Two companions of the Rev. James J. Reeb of Boston on the night he was fatally beaten testified Monday before a grand jury considering evidence against four white men charged in Reeb's slaying.

Testifying before the Dallas County grand jury were the Rev. Orloff F. Miller, 25, Boston and the Rev. Clark Olson, 32, Berkeley, Calif. Both are white.

The ministers, who with Reeb, were beaten March 9.

Truman Calls King
"A Troublemaker"

NEW YORK (AP) — Former President Harry S. Truman Monday called Dr. Martin Luther King Jr. "a troublemaker."

As for King's recent receipt of the Nobel Peace Prize, Truman said: "I didn't give it to him."

At the suggestion that his remarks might stir up controversy, Truman replied: "What the hell do I care?"

His remarks were made to Dr. Jonas Salk Honored

BERLIN (AP) — The U.S. Army said Monday an American officer was physically bashed by East German police from helping two fellow officers involved in an accident on the Berlin autobahn during Communist harassment of traffic last week. Other sources said the American was messed up by the East Germans.

An Army spokesman said the incident was "vigorously protested" to a Soviet official later. The officer was identified as Lt. Peter A. Manion of Buffalo, N.Y. He commanded a 22-vehicle Army convoy riding the autobahn to West Berlin Thursday.

The army said Manion came upon the scene of the accident in which one car carrying two officers of the U.S. mission was smashed by Soviet headquarters at

Dr. Salk Honored
For Polio Vaccine

WASHINGTON (AP) — Congress, through its leaders, expressed to Dr. Jonas Salk Monday the nation's gratitude for his development of polio vaccine.

Smiling shyly, and responding in an almost inaudible voice at a Capitol Hill ceremony, Dr. Salk received a copy of a measure passed by the Senate and House. It was 10 years ago Monday, April 12, 1953, that the vaccine was pronounced "safe, potent and effective," opening a new era in the fight against the disease.

U.S. Army Officer Roughed Up In Scruffle With East Germans

BERLIN (AP) — The U.S. Army Monday an American officer was physically bashed by East German police from helping two fellow officers involved in an accident on the Berlin autobahn during Communist harassment of traffic last week. Other sources said the American was messed up by the East Germans.

An Army spokesman said the incident was "vigorously protested" to a Soviet official later. The officer was identified as Lt. Peter A. Manion of Buffalo, N.Y. He commanded a 22-vehicle Army convoy riding the autobahn to West Berlin Thursday.

The army said Manion came upon the scene of the accident in which one car carrying two officers of the U.S. mission was smashed by Soviet headquarters at

Dr. Salk Honored
For Polio Vaccine

WASHINGTON (AP) — Congress, through its leaders, expressed to Dr. Jonas Salk Monday the nation's gratitude for his development of polio vaccine.

Smiling shyly, and responding in an almost inaudible voice at a Capitol Hill ceremony, Dr. Salk received a copy of a measure passed by the Senate and House. It was 10 years ago Monday, April 12, 1953, that the vaccine was pronounced "safe, potent and effective," opening a new era in the fight against the disease.

Compulsory ROTC at SIU Is Disfavored

Given a chance, would you vote for or against compulsory ROTC?

That question was put to a number of students last week before it was generally known that students would be asked to express their opinions in a general campus referendum.

Results of the referendum are expected to be tabulated today. And if the answers given by students below are any indication, it appears that the vote went against compulsory ROTC.

Thomas Herodores, Rockford, said that he opposed the ROTC program, since "It is too much of a waste of taxpayer's money."

Dean Homer Chicago Heights felt that the program "antagonized students since they were forced into it. It's not the American way," he added.

Some students felt that the ROTC program took their time with the program, especially since they turned out to be a "waste of time for all concerned, and people take against their wish don't benefit from it," was the sentiment expressed by Thomas Lyle, Nokomis.

Joseph Seiter, one of many students, Thomas Simpson, Peoria, said, the program "doesn't offer sufficient return for the time invested in it." And the program "compulsory ROTC has no place in the university," he added.

Roger Knigge, Rankin, felt that a non-compulsory program "would be better for all concerned, "If it were non-compulsory students existing would benefit. As it is now a lot of us simply waste our time and theirs."

Carolyn Thode, Villa Groves, said, when asked for her opinion of the Program, "What difference does it make to us?" She continued, however, by saying that "the administration doesn't seem to be considering the wishes of the students involved."

John Hawn, Webster Groves, Mo., stated that he "didn't have to attend the ROTC program since he was a transfer student. "I'm glad of it, too," he added. "The program is distasteful because of its compulsory nature, and full participation can't be expected.

Most students interviewed mentioned they believed the ROTC program asBell as it stands now, to be wasted time and effort for all concerned. A few were against the program simply because it is compulsory, rather than voluntary. The prevailing student sentiment seemed to be one of opposition.

Baptist Students To Present Play

A religious play, sponsored by Carbondale Ministers Alliance, will be presented on Good Friday, (April 19), at 7:30 p.m. at the Walnut Street Baptist Church.

"Christ in the Concrete City," written by P. R. Turner, an English minister, will be performed by members of Southern Illinois University's Baptist Student Union, according to Mr. Gray, director of the union.

Turner is one of the most prolific contemporary writers of religious drama and his plays have aroused a new interest in theatricals in American churches, Gray said.

In this play he presents three different viewpoints, the statement of the historical fact of the trial and crucifixion, comments of universal significance, and the modern individual and personal impact, Gray added.

Members of the cast are Stan Hill, Marion; Frosti Creslin, Carbondale; Priscilla Henshaw, Marion; Charles Harris, Virden; Jerry Anderson, Herrin, and Terry Peterson, Alton.

The public is invited. There is no admission charge.

Forms Available For Student Week

Students wishing to serve on a Student/Week for next fall are asked to pick up an application blank at the information desk in the University Center.

Any student wishing to serve as chairman of New Student Week is asked to contact the Student Activities Office.

Applications are due next Monday.

AERIAL VIEW SHOWS CONSTRUCTION IN PROGRESS OF FIVE EDWARDSVILLE CAMPUS BUILDINGS

Edwardsville Campus Nearing Completion; Two Buildings Ready for Opening Next Fall

The first two buildings on the Edwardsville campus are scheduled to be completed by July 15. The buildings are the John Mason Peck classroom and faculty office building and the Elijah P. Lovejoy Memorial Library.

In a progress report on the new campus, John Randall, associate University architect, said that when school opens next fall part of the science laboratory building should also be ready for use. Two other buildings are included in the first phase of academic core.

The reinforced concrete structural work of the communications building and the University Center are rising above ground, supported by concrete caissons which extend about 80 feet into the ground.

"The piers, of two and one-half to five feet in diameter, have been constructed under very difficult circumstances and are a significant reason for the buildings not being more advanced," Randall said.

The communications building, with its theater and broadcasting facilities, will be ready in the spring of this year. The University Center, which will include meeting rooms, townes, a bookstore, recreation area and cafeteria, will be ready in the fall of next year.

Other projects under construction include a heating and refrigeration plant and the adjoining 88-acre lake which will serve in lieu of cooling towers for furnishing air conditioning to all academic facilities. A 500,000-gal. water tower, a 350,000-gal. clear water reservoir and related water supply facilities are in progress.

The sewage treatment plant is nearing completion. Installation of extensive services for gas, electricity and tele­phone is underway, because of the emphasis on evening instruction, significant headway on outside lighting will have been made by next fall.

A complex underground utilities distribution system is virtually complete and an appreciable amount of the entrance road is installed. The first portion of the road system, including a parking area for 2,200 cars, will be finished this spring.

At present the Peck classroom building and the Love­ joy library give the best picture of future campus charac­ter. The deep plum brick towers, with their theater and broad­enment of extensive services

Gail Daley Wins 2 Seconds

South All-Stars Beat North
In California Gymnast Meet

Two second-place finishes by Southern's Gail Daley in vaulting and uneven parallel bars helped the South All-Stars to a 41-38 gymnastic victory over the North All-Stars at the North-South All-Star meet in Long Beach, Calif., this weekend.

Dale McClements, who used to compete for SIU before transferring to the University of Washington, also competed for the South All-Stars and finished ahead of Miss Daley in both events.

Southern's other entry, Donna Schaezner, competed for the North All-Stars and finished second on the balance beam and third on the uneven parallel bars.

Miss Daley and Miss Schaezner will be in action this weekend when they compete in the United States Gymnastics Federation Open Championship Meet for women at Nashville, Tenn., April 16 and 17.

Thirteen other SIU woman gymnasts will also make the trip south.

According to women's gymnastics Coach North Vogel, the meet will be divided into two classes, the elite group and the class A group.

The performers on the women's team will be competing for the national championship with girls without varsity experience also being competing in the class A group.

Auto Team Gets Egg, Sample Of Big Muddy to Win Rallye

The driver-navigator team of Joel F. Crowe, 939 N. Oakwood St., Carbondale, and Frances B. Walker, 416 North St., Murphyboro, placed first in the Grand Touring Auto Club's "April Astinuity" gimmick rallye Sunday.

The five-hour rallye began at the Epps Motor Co. on Route 13 and ended at the Little Egypt Smorgasbord near Marion.

In addition to maintaining precise average speeds, the competing teams were required to come up with an egg and a sample of Big Muddy River water in the course of running the rallye. They also had to obtain autographs of as many of the other drivers as possible and check in with the date of death of an impossible-sounding Russian name.

Seventeen cars were entered in the event, ranging from Volkswagens to Austin-Healey and American sedans. Second place went to Neil L. Hansen, 201/2 W. College St., and John P. Zipay, 669 E. Park St. Taking third were Richard C. Bokoven and Donald Horn, both of the Milton Dormitory.

The club meets on the first Monday of each month at 8 p.m. at Epps Motor Co.

Golfers Victorious Over Cincinnati U.

Losing the opportunity to be host to Purdue University, but gaining a victory over Cincinnati University this week-end stretched the SIU golf team's record to 6-3.

Purdue defeated the Salukis by a 24-15 match score, but the golfers rebounded to defeat Cincinnati 21-15.

Purdue's six-man team trial in the 36-hole match was 873. Southern was second with 922 and Cincinnati third with a 973.

Leon McNair shot the low round of 74 for the Salukis which gave him a 36-hole total of 153.

Other Saluki scores found Jim Phelps with a 157, Bill Mead with a 194, John Krugger and Jerry Kirby with a 160 and Tom Muehlemann with a 165.

"Firebugs" Tryouts

To Be in Old Main

Tryouts for "The Firebugs," directed by Moredecal Gorelik, research profes sor of theater, will be held at 3:30 p.m. today and Wednesday in Room 310 Old Main. It had been announced earlier that the tryouts would be in the Southern Playhouse.
Three More Chances

Saluki Track Club Wins Meet;
Mile Relay Record Eludes SIU

SIU’s hopes for a stadium record in the mile relay didn’t materialize Friday but it appears the Salukis will have three more chances now that the Saluki trackmen are scheduled to make three more appearances at the Midwest Stadium track this spring.

The group’s first effort Friday fell 3-1/4 seconds short of one of the fouroume’s didn’t compete and a second run despite a sore leg although it wasn’t apparent.

John Fendrich lined up with a sore throat while anchor man Gary Carr was just recovering from a leg injury. Nevertheless, the team turned in a 3:16.5 effort with hurdler Herb Walker filling in for Fendrich.

Despite the absence of a record in the relay, the other stadium marks fell as the Celts Need One

To Take Playoff

BOSTON (AP) — A Philadelphia coach who refused to "bang around" the Celts more has included Boston to fever pitch for an attempt at national Basketball Association playoff kill points.

The Celts invade the 76ers home court which Coach Red Auerbach called "The Snake Pit." They need one victory to win the first round Eastern Division crown. They moved ahead 3-2 in the best-of-seven series with a 114-108 decision Sunday.

Salukis Meet Ohio State Today After Baffling Kentucky 7-0, 2-1

SIU's baseball Salukis invaded Columbus, Ohio, this afternoon for a single game with Big Ten Conference foe Ohio State. The Salukis took an unblemished regular season record into the encounter, after stopping Kentucky Wesleyan twice Saturday.

While SIU was knocking off the Panthers 7-0 and 2-1, Ohio State was taking two of three games from the University of Cincinnati. Southern's opponent April 24. The victory raised the Buckeyes' record (6-7) over the .300 mark, with the Salukis' 3-0 record in regular season play and 3-4 overall mark.

Although this afternoon's game figures to be one of the biggest tests of the young season, the Salukis appear to be equal to the challenge.

The Salukis have fastballer Gene Vincent well-rested to throw at the Buckeyes, considering a leading contender in the Big Ten race.

The 5-foot, 165-pound right-hander was the distance in the Salukis' opening 1-8 shutout. But the Salukis couldn't come through in the third when its lead-off man Mike Chinn doubled home Kentucky hurler Dick Romer.

The Salukis came right back, though, in the fourth to score twice on a sacrifice fly. Then after Gib Snyder connected, hot-hitting Vincent doubled home the southpaw hurler with his second of three hits for the afternoon. Another dangerous man with a stick, Kent Collins, the Salukis' leading bat man (33-35, .429), singled home Vincent.

The versatile Vincent played right field in the first game and center in the second game decision, 2-1, getting stronger as he went.

The junior from Rockport, Ind., went 2-3 in the Saluki opener against Illinois College and kept pace Saturday with a doubleheader against Arkansas State.

**NAME**

This is the week to do something about your future!

We're interested in engineering, business and liberal arts seniors who have done well and who expect to keep on doing well.

We want people who are acquiring the habit of success. We can strengthen it.

The Bell System is where people find solutions to exciting problems. Bell System companies are equal opportunity employers.

This week the Bell System recruiting team will be on your campus. They're here to talk to people who want to put their educations to work in the fast-growing, fast-moving communications business.

This is the week to talk to our representatives. Sign up now at the Placement Office for an appointment with our representatives.

This might be the week your future comes into focus.

**BELL SYSTEM**

American Telephone and Telegraph Co. and Associated Companies

**Deadline April 19**

**For 'Brain Game'**

Deadline for applications for the "Brain Game," SIU's version of the "College Bowl," has been extended to April 19.

Applications may be picked up and returned to the Campus Housing Office from 8 a.m. to 5 p.m. weekdays and from 8:30 a.m. to noon on Saturdays.

Teams similar to those that compete on the "College Bowl" will represent the Carbondale and Edwardsville campuses. The finals between the top team from each campus will be televised by WSIU.

Playoffs will be held late this month and early in May.
