Soviets Make Soft Lunar Landing

**Senate Tables Cycle Rules**
The Student Senate voted to hold for further study the Senate Welfare Committee's recommendations against motorcycle proposals set forth by the Southern Riders Association.

The committee's recommendations advised against the association's proposal that students be required to wear helmets and opposed passage of a proposed law in Carbondale banning side-saddle riding by cycle passengers.

The senate committee based its recommendations on the welfare and safety of students without restricting their freedom, according to Ray Lenzi, committee spokesman.

"We don't think it necessary to put such restrictions on the students," Lenzi said, "but a student wishing the cycle noise was found by the committee spokesman. A rating system that would establish standards to judge cycle rules could only issue a formal suggestion as a proposal to the students.

The senate voted to ask the committee to draw a formal recommendation to senators could study the proposals before the next meeting.

**25 Cycle Riders Injured in Week**
Dr. Walter H. Clarke, acting director of the University Health Service, said about 25 SIU cyclists have been treated by the service in the past week. While Less frequent than earlier this year, injuries resulting from cycle accidents have been more severe.

Two of the cases involved broken clavicles, and at least three students were treated for fractured legs.

REMEMBER WAY BACK-In the good old summertime when the temperature stayed in the 80s and often the 90s and campus cuties such as the above made a trip to the beach well worth the effort even if you didn't plan to go in swimming? We thought the summer scene would be a welcome change from all the snow we've been seeing lately.

**Reception Will Follow**

**30-Voice Norman Luboff Choir to Give Concert at 8 p.m. Today in the Arena**
The 30-voice Norman Luboff choir will perform at 8 p.m. today in the SIU Arena. The choir, directed by the bearded Luboff, will be backed by four instrumentalists. The program is being sponsored by the University Center Programming Board and the Male Glee Club.

The choir, which began its concert tours in 1963, has recorded about 30 songs, each of which has the distinction of being a best-seller.

Luboff began his music career teaching the-ory and singing "peops" on the radio in Chicago, He moved to Hollywood where he composed and arranged the music for more than 80 films. Among them are "Giant," "Island in the Sun," "Search for Paradise," "Chinama South Seas," and "The Miracle." "Highland Fling," a musical fantasy about Robert Burns, was written by Luboff last year as his first attempt at writing musical shows.

An informal reception will be held for the choir in the University Center following the concert. The reception is open to the public.

Tickets for the concert may be obtained at the University Center. All seats are reserved. Prices are $1.50, $1.25 and $1.

**First U.S. Try Not Before May**

MOSCOW (AP) - A Soviet space station made history's first soft landing on the moon Thursday, Moscow announced.

British scientists in England said the unmanned capsule, Luna 2, sent pictures back to earth from the moon's surface.

A Tass announcement said the landing was made at 9:45:30 p.m. Moscow time - 1:45:30 p.m. EST - after the ship, launched Jan. 31, had hurtled through space for more than three days.

Sir Bernard Lovell, director of the radiotelescopic observatory at Jodrell Bank, England, said the feat "puts the Russians ahead in the space race."

The first American attempt at a soft landing, a key step in putting a man on the moon, is not expected before May.

A soft landing means bringing an instrument package down on the surface slowly enough so that there is no crash and resultant destruction.

Lovell said the information Luna 9 was relaying back to the Russians makes a manned landing on the moon a possibility within this decade.
International Students Council
To Discuss Activities Sunday

The Council of International Student Club Presidents will meet at 2 p.m. Sunday in the International Student Center at 1012 S. Forest Ave. All club presidents are asked to attend. Each should have a list of dates for his club's activities for the remainder of the quarter.

At this meeting an attempt will be made to set up a foreign student activities calendar to prevent conflicts in the scheduling of events.

A discussion of last year's activities and a study of this year's program will also be conducted.

Heart Operation

'B' Blood Sought

Barnes Hospital, St. Louis, has requested a minimum of 16 pints of blood for Harold M. Banks Jr., area head of Thompson Point, who will have open heart surgery Monday. Banks, who has been hospitalized for the past three months, needs a B positive blood type.

Anyone wishing to donate blood must meet the following requirements:

Must have B positive blood type; age 21 or have written parental permission; cannot currently have a cold or flu; cannot have had or been in close contact with hepatitis, jaundice or mononucleosis within the past six months.

Men may not have donated blood within the past two months, women within the past three months. The donor must weigh over 110 pounds.

If in question as to his type of blood, a donor may be checked at the University Health Service at no cost. A bus will be leaving from L. O. Hall at 10 a.m. Sunday to drive blood donors to St. Louis.

Prospective donors should contact the Thompson Point Office (3-2471), the office hours Monday, and 5 p.m. or the Thompson Point service desk (3-2744) after office hours.

What's an acceptable excuse for missing an academic appointment?

Some will insist that there isn't any, but not John E. Seiler, a freshman from Edinburgh.

He had an appointment for 8:30 a.m. Dec. 1 but he couldn't make it, and the Admissions Center was only too happy to accept his excuse.

After all, the students have written from Berlin, Germany, saying they couldn't keep their appointment because the crisis in Viet Nam delayed their release from service.

Usually, the excuse is that "My grandmother just died," or "I had to rush home to donate one of my kidneys to my ailing father."

Seiler, who had made his appointment by mail after he had been accepted as a student by SIU, sent a second letter on Nov. 1 explaining why he couldn't make it. It said in part:

"Due to circumstances beyond my control I will not be able to keep my appointment. However, I will receive my discharge from the Army in time to register for classes on Jan. 3..."

Seiler, who said he felt fortunate to be stationed in Intramurals Canceled

INTIMAURAL basketball games scheduled for 11:30 a.m. and 2:15 p.m. Saturday in the Arena have been cancelled, according to a spokesman from the Intramural Office.

Germany "considering the present state of affairs in Viet Nam," evidently found a soft spot in Academic Advisement Center's heart and was allowed to register in January, and he is now in school.

Debaters Compete In Virginia Meet

Four varsity debaters from SIU are participating in the Marshall-Wythe Debate Tournament at William and Mary College in Williamsburg, Va., this week.

Making the trip are Karen Kendall of Tacoma, Wash., Kathy O'Connell of Florence, Mo., Ron Hrebenar of Rock Island and John Patterson of Carbondale.

At the Ohio State University Invitational Debate Tournament held at Columbus, Hrebenar and Patterson teamed together to win five matches and lose three. The girls debaters split even in six matches.

Today's Weather

SUNNY

SUNNY, and just a little chilly with winds blowing in from the east. The record high for this day was 71° set in 1931, and the record low was 12° set in 1892, according to the SIU Climatological Laboratory.

Meetings, Play, Dance, Films Top List Today

Counseling and Testing will give the general educational development test at 8 a.m. today in Morris Library Auditorium.

Inter-Varsity Christian Fellowship will meet today from noon to 12:30 p.m. and 7 to 9 p.m. in Room C of the University Center. The Academic Students Association will meet at 2 p.m. in Room E of the University Center.

Women's Recreation Association house basketball will begin at 4 p.m. in the Large Gym.

Alpha Delta Sigma, advertising fraternity, will meet at 5 p.m. in Morris Library Auditorium.

Opera Workshop rehearsal will begin at 5:30 p.m. in Shryock Auditorium.

The Aquaeetas will meet at 5:45 p.m. in the Lincoln School Pool.

Movie Hour will feature "The Reluctant Saint" at 6, 8 and 10 p.m. in Furr Auditorium in the University School.

The Faculty Playreading Group will meet at 7 p.m. in Morris Library Auditorium.

Interfraternity coeducational swimming will begin at 7 p.m. in the University School Pool.

The Sociology Club will meet at 7 p.m. in the Seminar Room of the Agriculture Building.

The International Relations Club will meet at 7 p.m. in French Auditorium in the Life Science Building.

The international Relations Club will meet at 7 p.m. in French Auditorium in the Life Science Building.

Interpreters Theater will meet at 7 p.m. in the Southern Playhouse.

Probe will present "Secrets of Life" at 8 p.m. in the Southern Playhouse.

The Normal Luboff Choir will perform at 8 p.m. in the Arena.

Interpreters Theater will meet at 8 p.m. in the Agriculture Building Auditorium and Arena.

A University Center Program Board-sponsored record dance will begin at 8:30 p.m. in the Roman Room in the University Center.

The UCPB educational and cultural committee will give the reception for the Luboff Choir at 9:30 p.m. in Ballrooms A, B and C in the University Center.

Talks To Perform Tonight

"Don Juan in Hell," a portion of "Man and Superman" by George Bernard Shaw, will be presented by the faculty play reading group at 8 p.m. today in Morris Library Auditorium.

The cast members are Jean King, instructor in English, as Don Juan; Hellmut A. Hartwig, professor of foreign languages, as the Statue; and Edward Oldfield, instructor in English, as the Devil. The production is directed by Collin Leon Bennett, instructor in English.

Refreshments will be served by Myrtle Lee after the program.

Opera ‘Giovanni’

Will Be Telecast

Filmed during Austria’s Salzburg Festival, the opera "Don Giovanni" will be telecast by WSIU-TV on "Festival of the Arts" at 9:30 p.m. today.

The production stars Cesare Siepi in the title role.

- 2 - SHOWS 6:30 AND 8:30 P.M.
Good, Bad Guys Show Up in Winter

Snow, ice and rain can cause a lot of traffic problems, but to drivers in Carbondale they are more of a threat than themselves.

First, heavily traveled streets have become more congested. The traffic wears ruts for two lanes, but on hillsides the ruts are still stick and traffic must move at a crawl. SIU's less traveled residential streets in town are also experiencing the spring thaw. It sometimes takes weeks for traffic and that of the snowplows to clear from them.

In the meantime pedestrians and students cycle and slip and slide to work or school the best way possible.

Visitation Issue

Stirs Wildcats

The burning question on the Northwestern University campus these days is whether male and female students should be allowed to visit each other in their dormitory rooms.

The student senate has unanimously approved a new visitation plan, and the Council on Undergraduate Life, composed of 12 faculty members and students, will vote its views on the visitation regulations.

The Daily Northwestern, student newspaper, answering criticism that students might encourageimized, said in an editorial:

"Don't for a moment think students are weird because in the pedestrian's eye, the only thing that they ask in return is a simple invitation for a coffee.

So for them, (the helpful ones, not the human blockheads) from all of us, thank you. Maybe we can do the same for you sometimes.

Pam Cleator

Today's Quotes

My friend Harry Lives in the charming apartment over the rent. —J. R. Nowling.

... About works are most beautiful without ornament.—Walt Whitman.

In public we say the race is to the strongest, in private we know that a toped man runs, and would also use the little side-hills of success.—Frank M. Colby.

Line Cutting Eliminated With Addition of Stand?

To the editor:

I would like to commend Frank Mesersmith for his article in the Daily Egyptian on Jan. 27, concerning cutting into the lines in the cafeteria.

I think that everyone would rather deal with Frank Mesersmith on this point. Certainly no one likes to be处罚 of cutting into the line, but that is too long to be waited in. (In reference to the lines in the cafeteria, I am referring to cutting in for a cup of coffee.)

A better approach may be taken concerning this problem than the one Mr. Mesersmith has suggested.

One point to be considered is when dealing with the "coffee-cutters-in" that many people come to the union, eat, and still others are merely coming for a quick, in-between-class cup of coffee.

This brings a shame and a waste of time to have to stand and wait for others to get lemonade or hamburgers when one simply wants a cup of coffee. In this way, one can readily sympathize with Mr. Mesersmith that he and his students in the dining halls are tired of waiting for the coffee drinkers.

Wouldn't much of this problem be solved by placing a coffee stand somewhere else in the cafeteria? (The coffee stand serving only coffee in the morning rush.) I believe that this would eliminate much of the waiting time, and would also increase the business somewhat in the Oasis.

Arthur L. Sobey

SLU Seeks Better Sex Education; Present Courses Lacking in Depth

To the editor:

In view of recent criticism concerning the General Studies program at SLU, I would like to offer an observation on one aspect of the program which has been neglected.

Sex education in the General Studies program is virtually non-existent except for a brief interest in the instruction of sex roles, not the human blockheads.

Does this University have any responsibility to its students in this area? If so, will it continue its "orthodox-like"

premarriage relationships, and proper sex roles, among other things, is the ultimate causal factor behind many of today's divorces, murders, sexual violations and illegitimate births.

Salukis, Spartans Share Woe Of Where to Park That Car

A parking permit at MSU is little more than a hunting permit. This year 12,000 cars are registered at MSU. But the number of available parking space is not keeping up with the increase of vehicles.

Recently the Alumni-University Traffic Committee proposed a temporary solution to the parking dilemma on the north campus. Faculty and staff members holding reserved spaces were asked either to give up their reservation, or pay a fee of $10 to park their cars. More permanent measures are needed, they said, to provide additional parking spaces.

To make matters worse, the present parking situation is causing minor problems for future prospects. Within the next few years, the full impact will be felt of the additions to Kado, the Library, the Language- Mathematics building, and the Administration Building.

The best solution to the impending crisis, and indeed, for nothing is done it will be a crisis—is the construction of more parking facilities. The administration has proposed the construction of two new parking ramps. The Board of Trustees is considering this proposal.

We urge that these two new parking ramps be built as soon as possible, for adequate parking is essential. Inadequate facilities can cause traffic jams, general chaos, and make students late for classes. In short, a parking problem is now taking shape that could disrupt the basic purpose of this institution, that of education, and facilities, classrooms and other necessary facilities. Parking spaces are needed. We believe it is the University's obligation to provide parking spaces to meet both present and future needs.

Michigan State News

Avaricious Few

Disrupt Majority

The University may again feel the impact largely absent since Korean War days.

In a recent poll, those who do not pass the dusted-off Selective Service test and/or do not have enough in college bills may be drafted. The draft, of course, was made with reluctance. The value placed on education in comparison to the proverbial coin. Recognized by the decision—make or break, will take "less successful" students first and who will pass another GI bill to cover their interrupted educations.

That is why war is sad. The children of the many are sacrificed to the avaricious few. The value of education by few is still in Berlin with Hitler or in Peking with Mao Tse-tung.

Next fall, the Daily may well be printing features on how the draft has affected enrollment or how soldiers-turned-students are "readjusting." It all still sound to dreadfully familiar.

Unspoiled Natural Parks

Tanzania Mania Forecast

As Tourist Lodges Rise

By Malcolm C. Payne
Copley News Service

DAR ES SALAAM, Tanzania—the opening of the $3 million, 244-room Kilimanjaro Hotel here can be likened to the sudden appearance of an oasis in a desert.

For the first time, Tanzania can handle large tourist groups without splitting them up among three or more of the capital's smaller hotels. The shortage of hotels has depressed Tanzanian tourism more than anything else can be gauged by the sudden emergence of interest in the country, especially the capital, by large U.S. and Canadian tourist organizations. The Kilimanjaro has advance bookings stretching into 1967.

But the Kilimanjaro is only the first stop in a master plan to boost Tanzania to the top of the tourist world. Three new lodges are to be built at the Serenora, Ngorongoro and Mikumi game parks. A new beach hotel is planned for Dar es Salaam and a tourist hotel in Zanzibar. Discussions also are in progress with the Hilton organization for an additional hotel in the capital.

At present about 24,000 visitors come here each year. It is hoped to increase this to 80,000 in 1968, whether the country could cope with that number is debatable. Lack of an experienced staff in the hotel field is a sore point here.

The Kilimanjaro has had more than its share of teething troubles but some of the top executives expect matters to settle down in time for the main tourist season.

For example a license to shoot an elephant would cover the cost of the trip. The best season for fishing is between October and March.

There are nine game reserves covering a total area of 27,300 square miles where all wildlife is protected. The best known of the national parks is Serengeti, the only area left in Africa where the great migration of the animals can still be seen.

There are more than 280,000 wildebeests, 600,000 gazelles, 150,000 zebras, 700 elephants, 18,000 impalas and other large game animals living in the park. The accommodation for the park is at Seronera, 60 miles south of the town of Arusha, and 70 miles west of Arusha.

The best season for fishing is between October and March.

Lions and many other large predators are in the park. There are more than 250,000 lions in Tanzania.

Objective English Exam Set For Undergraduates Saturday

The objective portion of the undergraduate English qualifying examination will be given at 9 a.m. Saturday in Furr Auditorium in University School.

All students who plan to graduate from the College of Liberal Arts and Science, the College of Education, the School of Business, the School of Technology and all students who plan to practice teaching must pass the examination.

Exceptions from the exam will be made for students who have a 4.0 average or better in Freshman English Composition (English 101, 102 and 103, or GSD 101A and 101B), or their equivalent for transfer students.

Students in the College of Liberal Arts and Sciences and the School of Technology may satisfy this requirement by substituting a grade of "C" or better in English 300, 390 or 391.

Students in the College of Education and all students who plan to practice teaching may substitute a passing grade on the objective portion of the exam for students who have a 4.0 average in Freshman English Composition.

GSA 110-115, is open to any student who has had chemistry in high school. Students electing GSA 110A spring must complete the sequence by taking GSA 110B by the summer quarter of 1969. Spring and summer will be the only terms these courses will be offered. Each course is worth four credit hours.

The hours of credit received from these courses are sufficient to meet the GSA requirements in the 100 level. GSA 101A, b and c will not be needed.

Earth Science Is New GSA Series

Experimental Earth Science, a new two-term course in General Studies Area A, level, has been approved. The course, GSA 110A&b, is open to any student who has had chemistry in high school.

Students electing GSA 110A spring must complete the sequence by taking GSA 110B by the summer quarter of 1969. Spring and summer will be the only terms these courses will be offered. Each course is worth four credit hours.

The hours of credit received from these courses are sufficient to meet the GSA requirements in the 100 level. GSA 101A, b and c will not be needed.

GRADUATE PROMOTED—James D. Handley (left), first graduate of the Alton Box Board cooperative education program and presently supervisor of personnel of the company, discusses a personnel assignment with Thomas H. Young, manager, industrial relations, of the company.

Alton Firm's Education Program Lauded by Former SIU Student

The first graduate of Alton Box Board Company's cooperative education program was appointed the firm's coordinator of personnel three months after his graduation and supervisor of personnel four months later.

James D. Handley, who graduated from SIU in 1964, is the company's personnel supervisor.

Established in 1962, the company's cooperative education program allows students to work full time during the year and continue their education the remainder of the school year.

Students participating in the program are carried as full-time employees and placed on an educational leave of absence without pay when they return to school. The program is usually completed in five years, depending on the university's system of quarters or semesters.

Handley, a former resident of Carlin, now lives in Alton. He joined the cooperative program at the end of his sophomore year and was assigned to the quality control laboratory.

Of his first training phase, Handley said, "A student interested in sales, personnel, engineering or any other area in the company receives invaluable basic knowledge of its operations during his initial training. The student advances in employment according to the company's needs and the student's ability."

Any student with a minimum average of 2.5 on a 4-point system may enroll after completion of his freshman or sophomore year in college.

After graduation, the student is given a brief training period before he meets the company's executives who decide on the area in which he will work. The company is not obligated to employ the student and he is not obligated to accept the job. "Whether or not a student is employed," Handley said, "the program gives him invaluable experience.

Any students majoring in English, liberal arts, business administration or the sciences is welcome to join the program.

This term there are 10 SIU students participating in the program and five who are attending school after working in Alton.

Besides Handley, one other student, Gary Aubey, is now permanently employed by the company. According to Bruno W. Bierman, supervisor in student work, three to five students will be finishing the program in the spring and may decide to work for the company permanently.

Approximately 80 SIU students have participated or are now participating in the program. Three to eight students are added to the program each term.

The program has attracted students from other universities and colleges. They are University of Cincinnati, University of Illinois, University of Missouri at Columbia, University of Missouri at Rolla, Northwestern University, Purdue University, and Rockhurst College at Kansas City, Missouri.

Of 26 students currently enrolled in the program, 16 are working at Alton Box Board while the rest pursue their studies on their respective campuses.

Jobs Available

For Camp Work

Interviews for sophomore, junior, senior or graduating female students interested in summer camp work will be conducted Wednesday on campus by Mr. and Mrs. Jerry Black.

The interviews are for positions with the Birch Trail Camp located in Minnig, Wis. The camp caters to girls between the ages of 10 and 16. Counselors are needed in the following areas: tennis, sailing, gymastics, camping and waterfront.

Interested students should contact Bruno W. Bierman, Leonard L. Lukash of Robert D. Julius at the Office of Student Work and Financial Assistance before Tuesday.
Hill Is Named To Advisory Council Post

Robert E. Hill, dean of the School of Business, was recently appointed to the Illinois State University’s Advisory Council of the American Management Association.

The council is composed of 24 delegates representing schools of business in the United States.

Dean Hill said the main involvement of the council will be to "operation dialogue." This program relates research and practice in the field of management to academic programs in an attempt to achieve better understanding of various viewpoints in management.

Meetings are held at the association headquarters in New York City quarterly.

Hill said a special meeting of the deans of collegiate schools of Business will be held Feb. 16-19 in Chicago.

Elmer J. Clark, dean of the College of Education, and president of the society, will preside.

The purpose of this meeting is to clarify the new regulations of the association and to implement certain requirements of membership.

SIU Employes Credit Union Elects Officers, New Directors

M. M. Sappenfield was elected president and Elmer J. Spiker was named vice-president of the board of directors of the SIU Employes Credit Union at its annual meeting.

Allen Jones was named secretary, and Carlton Sisk was elected treasurer.

New members of the board are William W. Rice of woodworking technology, Jack E. Simmons, assistant controller, and Carlton Sisk, credit union office manager.

Reelected directors are Ralph Bedwell of the Small Business Institute, D. L. Cochran of data processing, Allen Jones of the President’s Office, Edith S. Krappe, associate professor of English; Delo Langman, assistant professor in machine tool and design at VTI, W. G. Blake, Daniel, professor of mathematics; M. M. Sappenfield, associate professor of government, Virgil Schwegenman, foreman carpenter at the Physical Plant, and Sina E. Spiker, Central Publications.

Members adopted amendments to the bylaws of the local union into conformity with recent changes in the Illinois Credit Union Act.

Claro to Be Chairman At Education Meeting

The annual meeting of the National Society of Teachers of Education will be held Feb. 16-19 in Chicago.

Elmer J. Clark, dean of the College of Education, and president of the society, will preside.

This theme of this year’s meeting, which will be broken into three general sections and nine section groups, is "The Role of Teachers of Education in International Education."

Clark will preside over the opening of the Feb. 17 session, and will introduce the main speaker, E. Freeman Butler, associate dean of international studies at Columbia University.

Dorothy S. Ainsworth, president of the International Council of Health, Physical Education and Recreation, will be the speaker at the second session. Edward J. Shea, chairman of SIU's Department of Physical Education for Men, will preside over the session.

Shea has also prepared a special program, "Rhythmic Physical Activities Around the World," which will be presented by 80 children of Chicago public schools.

The third session will be held Feb. 19 in cooperation with the John Dewey Society. The speaker will be Robert Schaefer, dean of Teachers College at Columbia University.

Five hundred professors of education from all sections of the United States, including 35 SIU faculty members and graduate students, will be in attendance at the meeting.

Spanish, French

Offered Faculty

The English Language Center is prepared to offer French or Spanish instruction to members of the faculty, faculty wives, and staff members on both the Carbondale and Edwardsville campuses.

Alfred J. Jenz, assistant dean in the Division of International Services, said students may set up their own flexible schedule of courses, and they may proceed at their own pace. The centers are open Monday through Friday, 8 a.m. to 4:30 p.m., and Saturday mornings.

Interested persons at Carbondale will meet at 7:30 p.m. Monday in the FLI Laboratory, when questions on the programmed instruction will be answered and other information given.

Geologists to Hear Crime Discussion

Joseph Nicol, Joliet, super­intendent of the Illinois State Bureau of Criminal Identification and Investigation, will speak at a geology meeting at SIU Feb. 11, according to Frank Dell, SIU geology seminar program chairman.

The meeting, open to all interested persons, will be at 8 p.m. in the University Center River Rooms.

Nicol will discuss how techniques in mineralogy are applied to investigating crimes, such as using X-ray and other instruments utilized in geology for identifying samples of broken glass, mud, or other substances connected with a criminal act.

Kraft Publishes Article On Student Teaching

Leonard E. Kraft, assistant director of student teaching in the College of Education, has published an article in the January issue of the National Elementary Principal quarterly publication.

Entitled, "You're Getting a Student Teacher," the article discusses the principal's role in working with the student teacher.
WASHINGTON (AP) — Permanent education and loan benefits for men and women who serve in the armed forces would be provided under a bill approved Thursday by the House Veterans Committee.

The Johnson administration has proposed that such benefits be limited to veterans who served in dangerous areas. It objects to the cost of the House committee bill, estimated at $335 million during the first year of operation.

About 31,200 nonveterans would be affected immediately, since it would cover servicemen who were in uniform since early in 1953, when the Korean War GI benefits program ended.

The Senate last year passed an even more costly version, estimated at $400 million in its first year.

First U.S. Try Not Before May

Soviet Luna 9 Sending Back Pictures From the Moon

WASHINGTON — The education benefits on their stamina and persistence in attaining this lunar goal.

Four previous soviet attempts at a soft landing had failed. Jodrell observatory scientists said Luna 9 had sent facsimile pictures back to earth from the moon’s surface. This aspect was not immediately announced in Moscow.

The brief Tass announcement on the landing—the first official word on the progress of the flight since it was launched Monday—gave only scanty details.

Nothing was said about the size, shape, construction or weight of the scientific instrument package. It is thought likely to be more than 3,000 pounds. Nothing was said immediately about the kind of data being radioed back to earth.

Soviet commentators soon praised the landing in all its aspects. This was the first to land a rocket to another heavenly body."

At Cape Kennedy, Fla., U.S. officials conceded that the landing gives Russia a lead in this important phase of the moon race, but does not necessarily give it the over-all edge.

The United States has had manned flights, but has never sent a man to a moon orbit in the case of men already dead. Soviet spacemen have yet to rendezvous in space. Since Leonov’s flight the Russians have been concentrating—at least as far as their announcements are concerned—on a soft landing near a manned flight to the moon, for which there is an even more costly version.

The Russians have had more luck with their moon probes than the Americans. They were the first to land a rocket on the moon in September 1959. The next attempt began in January 1960. The Russians sent a space station around the moon that sent back photographs for several days before being lost. The Russians have not had even a successful attempt by the Russians crashed on the moon. A fourth attempt occurred on the South Side.

On November 14, two children were stabbed in another grade school and a teacher was shot. On Tuesday a 15-year-old boy shot and killed a rival gang in a high school cafeteria.

Police said the violence has been mostly among Negroes and some white children have been involved.

Michael R. Fortino, superintendent of school district 21, and a group of teachers met with Capt. Harold Miles, commander of Englewood District police. Fortino said the cafeteria shooting was the first of its kind in the history of Englewood High School, on the South Side, in 90 years.

The bill’s major provisions:

—All servicemen who were on duty for at least 180 days after Jan. 31, 1955, would be entitled to one month of education or training for each month spent in uniform, with a maximum of 36 months. Payments for full-time students would be $100 monthly for men without dependents, $125 a month for those with one dependent, and $130 for those with more than one. The scale in the Senate bill is $10 a month higher in each category. Unlike the program in effect in World War II, tuition would not be paid.

—The education benefits would become effective on June 1 and would have to be completed within eight years of the date of discharge. In the case of men already discharged, the time limit would be eight years from June 1.

—The Veterans Administration would guarantee private loans up to a maximum guarantee of $2,000 andcould make direct loans up to $17,500 if private financing is not available.

The loan benefits would become effective upon enactment of the bill.

Would Provide School, Home Loan Aid

Veterans Committee Approves New GI Bill

Private Talks Open on U.S. Bid
For U.N. Debate on Viet Nam War

UNITED NATIONS, N.Y. (AP) — After two days of debate on Viet Nam, U.N. diplomats Thursday began a round of intensive private talks that the United States regards as part of a new peace offensive.

The public debate may be resumed later, but informed quarters said President Johnson's primary objective in bringing the Viet Nam problem before the U.N. Security Council was to help stimulate further peace moves. The informed sources said this has been achieved.

The president was understood to have acted on a recommendation by Ambassador Arthur J. Goldberg and Secretary of State Dean Rusk after the administration had concluded last weekend that North Viet Nam's President Ho Gi Minh had slammed the door on the December-January peace offensive.

There are indications that the United States may be content to keep the U.N. negotiations on a private basis— at least for the present.

Future public debate in the Security Council, however, has not been ruled out, if agreement can be reached, for example, council members might decide it was desirable to formalize the accord.

Goldberg himself is participating in a round of consultations with members of the 15-nation council. He expects to talk with each member, including Soviet Ambassador Nikolai T. Fedorenko, informed quarters said he took it for granted that the talks certainly will lead to new contacts with North Viet Nam and Red China.

A U.N. spokesman said Secretary-General U Thant also is engaged in private discussions. The spokesman said Thant "will feel sure that the nonaligned countries could contribute significantly toward a peaceful settlement" of the Viet Nam conflict.

Goldberg was reported to see at least a few signs that things are moving in the right direction, informed sources said. He had noted with interest Thursday's statement that a new Geneva conference is the proper agency for dealing with the Viet Nam problem.

Some U.N. diplomats, including French Ambassador Roger Sainieux, have placed stress on the competence of the Geneva group to deal with the issue. If agreement could be reached on convening the conference again, the United States would be satisfied.

Blaze Sweeps Historic Hotel
METROPOLIS (AP) — Flames swept through the upper floors of a historic Illinois hotel Thursday forcing evacuation of about 20 families to a three-degree winter. The three-story Julian Hotel is a brick and frame structure made popular in the late 19th century by riverboat passengers traveling the Ohio River.

Closed Spurs Lewd Nude Raid
ROME (AP) — Enemies of the nude and allegedly lewd paintings seized from a sedate Rome art gallery hit paintings and drawings of unclothed ladies by two modern masters. Seizure of the works, by the late Austrian painters Egon Schiele and Gustav Klimt, left the directors of the Marlborough Art Gallery gasping in astonishment.

The drawings and watercolors seized in Rome depicted no gambling or classical fun and games. They were paintings of the nude, more shocking to the seasoned eye than the countless thousands of unclothed ladies, ancient and modern, adorning other galleries, museums or palaces in culture-rich Italy.

But, some officials of culture-rich Italy occasionally display strangely un-Italian blue notes. Carla Panicali, co-director of the gallery, said the 11 Austrian works had been shown at New York's Guggenheim Museum and at the London branch of the Marlborough Gallery without anyone turning a hair. "These are two of Austria's greatest painters," she said. "How can anyone consider such paintings obscene?"

A customs officer who saw the works as they cleared customs said he took it for granted that the talks definitely will lead to new contacts with North Viet Nam and Red China.

A U.N. spokesman said Secretary-General U Thant also is engaged in private discussions. The spokesman said Thant "will feel sure that the nonaligned countries could contribute significantly toward a peaceful settlement" of the Viet Nam conflict.

Open House Visits Replace Coeducational Living at SIU

By Margaret Perez

(Related editorial on Page 4)

It doesn’t look like SIU will yet get coeducational housing, at least in the near future, as students are attempting the next best thing—coeducational visits to dormitory rooms.

The attempt so far has been on a small scale in a form residents call “open houses.” These open houses consist of a two to four-hour period, usually on a Saturday or Sunday afternoon, when students can make supervised visits to rooms of members of the opposite sex.

Northwestern University (Evanston) deans disagreed recently on whether students should be allowed to make the same type of visits, but on a regular basis, on that Illi­nois campus.

James C. McLeod, dean of students at Northwestern, said rooms are for studying and sleeping. “The rooms are bedrooms with desks, completely unsuitable for girls to visit,” McLeod said.

The dean, who is also a Presbyterian minister, argued that Northwestern has adequate lounges for dating.

Taking a different viewpoint was Otto L. Walter, dean of men at Northwestern.

“It’s nonsense to think these visits would turn into furtive sex trysts,” Walter said. “Northwestern has no student union, so it’s very hard for the students to find a private room where they can study and talk.”

Walter would much prefer it if they were alone in univer­sity housing than in cars or bars, he added.

The proposal was brought before the Northwestern Student Senate and a modified arrangement, similar to SIU’s open house system, was adopted.

Thompson Point residence halls have been participating in the open house for several years, according to Thomas Dardis, assistant to the area head.

The open houses are initiated by the individual halls and then cleared through the Student Activities Office. Exact rules and restrictions governing the conduct of the open houses have been left up to the discretion of the hall. At Warren Hall the residents are on the honor system, according to Michael G. Peck, president of Thompson Point.

“If a girl is in a guy’s room, the door must be opened and the resident fellow must be somewhere on the floor,” Peck said.

“Most of the guys enjoy the open houses and they don’t get out of hand,” he said. “In fact, at the last open house the girls all wound up in the R.F.’s room playing monopoly.”

In other halls the door to the room does not have to be opened all the way. The original rule set up by the hall said that an object must be placed in the door. The rule was revised after male students began using match sticks and toothpicks as wedges.

Some female residents of Thompson Point take a dim view of these visits.

When a proposal to have an open house for Valentine’s Day came up at a floor meeting, one coed voiced her disap­proval by saying, “Now don’t get me wrong, it’s not my guy that I’m worried about, it’s those characters, my roommate will bring in.”

Marion Trip Set

For Skating Party

A roller skating party will be held Feb. 19 at Pool’s Skate Inn in Marion.

The party, sponsored by the recreation committee of the University Center Pro­gramming Board, is open to all students and staff.

A bus will leave the Uni­versity Center at 7 p.m. and arrive in the rink at 9 p.m. Anyone wishing to go must sign up in the Activities Office before noon Feb. 18. Cost for the trip is 50 cents.

Student Pleads Guilty

To Intoxication Charge

Sam M. Jones, a student from Nashville, Ill., pleaded guilty before Magis­trate Robert Schwartz, on a charge of public intoxication.

Carbondale police arrested him about 1:20 p.m. Jan. 22. Jones has been given a reprimand by University officials.
Two Major Housing Projects Await Board Action Feb. 24

Transactions involving two major campus housing projects are scheduled for the agenda of SIU's Board of Trustees when it meets in Chicago Feb. 24.

One will be a contract decision on a multiple-unit apartment project for married students and staff members. The other will be $12 million revenue bond sale covering construction of two 17-story residence halls and a commons building for 1,500 single students.

Bids were received Tuesday on the apartment project, which is to be funded through a $4 million loan to the SIU Foundation from the Federal Housing Administration. It was the second call on proposals, earlier ones having been withdrawn because of limitations.

Willard Hart, associate university architect, said four bids received will be analyzed on the apartment project.

Three recruiters for VISTA (Volunteers in Service to America), or the domestic Peace Corps, which has been an often ignored program, will be on campus through this after­noon and tomorrow. They will hold a recruiting session in the 400 building.

VISTA to Wind Up Recruiting;
Response Here Called Good

Three recruiters for VISTA (Volunteers in Service to America), or the domestic Peace Corps, which has been an often ignored program, will be on campus through this afternoon and tomorrow. They will hold a recruiting session in the 400 building.

VISTA does work in many areas. Among them are urban projects in places like the D.C. area, where they are called for. It does not send money with its volunteers. Communities or areas using VISTA volunteers must apply for funds under one of several programs.

SIU Tops Both Polls Six Straight Weeks

The Salukis remained on top of both small college basketball polls of both wire services this week for the sixth straight time.

The Salukis got 31 of a possible 33 first-place votes and finished only eight points short of a perfect 350 points in the United Press International poll. The Associated Press, meanwhile, gave Southern eight of a possible 15 first-place votes.

North Dakota, which suffered its third loss in 19 games last week, is still in second.

Senator Election Postponed a Week

A Campus Senate election to pick three senators has been postponed until Feb. 16. A new deadline for submitting petitions in Feb. 11. So far no petitions have been turned in for the offices of Liberal Arts and Sciences senator. The two other posts, General Studies senator and Small Group Housing men's senator, have been applied for.

Reason for the postponement was difficulty in making arrangements for the election.

Steve Whitlock will replace Williams in free exercise. While performing for exhibition only last week, Whitlock recorded a 9.1 score.

Another change will be on rings where Jack Hultz will replace Joe Polizzo.

Back had also planned to use sophomore Paul Mayer in the all-around, but anticipating a close meet with Arizona, has passed him up in favor of more experienced Lindauer.

According to Meade, Mayer will work all-around next week against Indiana State.
Salukis to Face Ogletorpe Saturday Night

Stormy Petrels Ranked 10th in Nation by United Press Poll

The Salukis close out the current three-game home stretch today at 8 p.m. Saturday night when they meet highly ranked Ogletorpe College. It will be Southern's last home engagement before taking to the road Monday against Tennessee State. The home series started earlier this week with an upset 83-73 victory over Central Missouri, followed by a 71-67 squeaker Wednesday over Southwest Missouri.

These two victories inched Southern's home string to nine in a row this year and 24 straight going into the Arena a year ago. The only loss was to Evansville in the last regular game last season.

The Salukis could need all their home-court luck against Ogletorpe. The Stormy Petrels of Georgia are the number one team in the country this week by United Press International after dropping three of four last week.

The reason for the drop is two straight losses in Athens to Georgia (Ga.) State and Centenary (La.) College. However, the Petrels had won its first 15 games in a row.

Freshmen Hit 100-Point Mark

In Defeating Junior Billikens

It was homecoming for St. Louis University's Tommy Thomas, but the SIU-freshmen did most of the celebrating, handing the junior Billikens a 100-79 loss.

The freshman game was preliminary to the SIU-Southwest Missouri State varsity game Wednesday night in the Arena.

Thomas, who starred for nearby Carbondale High School, had his own cheering section, but in the end it was Southern's Rich Hacker, who was getting the cheers.

With 57 seconds left in the game Hacker converted the second free throw, putting the Salukis freshman at 100 for the first time this season.

Six Salukis scored double figures in front of guard Willie Griffin leading the way with 18. Griffin was followed by guard Creston Hacker, who was getting the cheers.

Other scorers in double figures for SIU were Elmo Colan with 12 and Leon Holston with 10. Bennett was Carbondale Riders Association of Notes.

To Draw Schedule

'Southern Riders' Association will meet at 2 p.m., Sunday in Room 202, Southern Illinois University College of Education.

The schedule will be in a draft stage and will be open to suggestions from the student membership.

Roger LitteLL

Winning has got to be quite a habit at the little Atlanta, Ga., college of fewer than 700 students. Last year's 11-14 finish was one of the few losing seasons the Petrels have had in the last decade. Their best year was 1963 when they finished third in the NCAA college-division with an overtime victory over Southern.

One of the main reasons for Ogletorpe's rise to prominence in small college ranks has been Coach Garland Pinholster. When he came to Ogletorpe 10 years ago, the team had been beaten the year before by the Atlanta YMCA team. Since then, however, his teams have won 173 and lost only 63 games to place them 18th in the nation for the best won-lost percentage among active coaches.

Pinholster has forged this year's team from a roster dominated by freshmen and sophomores, although he has seven lettermen back from last year. Three of those lettermen, however, are sophomores.

The Petrels will probably go with either Walker Heard, Bill Phillips or Paul O'Shields at pivot. Heard, a muscular 6-7, 210-pounder, is one of the returning lettermen from last year when he averaged 11 points a game. O'Shields and Phillips are both 6-7 freshmen.

The starting forwards will probably be Jerry Same and Pasco Tilton, both 6-3 lettermen. Same, a sophomore, averaged five points a game last season as a reserve. Tilton in a junior returning after a year in the service.

The starters at guard positions will probably be Doug Alexander, a 6-1 sophomore, and either 5-11 Bill Garrigan or 5-9 Wayne Johnson. These three are back in action, but Earl Blair, a highly touted 6-1 freshman, could also have a shot at starting.
**Counseling and Testing Ties For 1st— in Bowling League**

The Counseling and Testing bowling team gained four points Monday to tie Housing for first place in the Faculty-Staff League. Chemistry is in second place with a 6-2 record, followed by four teams tied for third with 5-3 records.

**THE STANDINGS:**

- **W L**
  - Housing
  - Chemistry
  - Relab
  - Dutch Masters
  - Grad A's
  - VT1

- **5 3 3 3 2**

**Education Sessions To Begin Monday**

The World Book complete educational plan, a two-week session which was scheduled for this week and next, has been postponed until Monday because of bad weather.

**Salukis to Take On Birds in Track**

A javahawks is a fictitious bird with a big beak used as an emblem in Kansas, but there's nothing fictitious about the powerful Jayhawks that the SIU track squad will be meeting today in Lawrence, Kan.

A 19-man squad from SIU will travel to the University of Kansas, but Coach Lew Hartzog feels that only one man, shotputter George Woods, has a sure chance of winning.

Wood's sets a mark of 60 feet, 3 inches at the Illinois Open meet last week.

Oscar Moore also set a record at that meet, which was dominated by SIU, but he will be in Philadelphia, Pa., Saturday for the Inquirer Games.

Moore will be running against a select group of six international distance runners.

Last season in a triangular indoor meet, the Jayhawks outscored the second-place Salukis 90-26.

**SIU**

- **W L**
  - Pole vault: Rich Ellison
  - Long jump: Jarnath John Vernon and Darrell Steen.
  - High jump: Tom Ashman and Mitch Livingston.
  - Shot put: George Woods, Joe Janacek and Ralph Galloway.
  - 600-yard run: Jerry Fendrich and Janacek.
  - 440-yard dash: Larry Carr, Mackenzie and Robin Coventry.
  - 880-yard run: Ackman and Fendrich.
  - 2-mile run: John Trowbridge.
  - 100-yard run: Dernier.
  - 880-yard run: Ackman and Dale Gardner.

**Advanced Study in Reading Provided in $52,000 Grant**

A $52,000 grant has been awarded to the SIU Reading Center to support an institute for advanced study in reading for elementary school teachers, June 27 to Aug. 5.

The grant was provided under the National Defense Education Act, according to Margaret Keyser Hill, professor of education and director of the Reading Center.

Enrollment for the institute will be limited to 30 participants who are teachers of reading in elementary grades in either public or private nonprofit schools. Graduate credit will be offered.

Southern received the grant by submitting a proposal to the U.S. Office of Education. Experts in reading judged the proposal and Southern was selected as one of five American schools to establish a reading institute.

Mrs. Hill, director of the institute, will be assisted by I. Lawrence E. Hafner, assistant professor of education. Coordinators are Phyllis W. Smith, SIU doctoral candidate, and Alberta Hazel, reading consultant in the Clinton (Iowa) Community Schools.

Wilma Boswell and Shirley Woodrome, elementary teachers from Dr. Andy Hall School in Mount Vernon, will be demonstration teachers and resource consultants.

Final applications for participants must be submitted to the director by March 21.

**SIU Group Aids Chapter at WIU**

Seven members of SIU beta chapter of Alpha Zeta, national agricultural honorary fraternity, recently took part in the installation of an Alpha Zeta chapter at Western Illinois University, Macomb.

The Alpha Zeta Chapter was established at SIU five years ago.

The seven members were Brian E. Bremer, Metropolis; Donald L. Paulson, Caledonia; Raymond R. Fossecker, Mount Carmel; Bernard K. Kohvis, Chester; Donald L. Knepp, Washington; John M. Houghton, Atlanta; and Robert Miller, Oregon.

Walter J. Wilks, chairman of the Department of Agricultural Industries, accompanied the student delegation.
