State School Head To Visit SIU Thursday

Ray Page, state superintendent of public instruction, will keynote the second annual Southern Illinois Conference on Mentally Retarded. County superintendents of schools from the south half of the state will attend the meeting.

Up to sixty county superintendents are expected at the conference, sponsored jointly by the Illinois Association of County Superintendents of Schools and the Illinois State Office of Public Instruction. The meeting will be held all day in Ballroom A of the University Center.

There will be panel discussions on responsibilities for recognition and supervision of school systems and on National Education Act topics related to testing and guidance, mathematics, science and modern foreign language.

Nine or more members of Page's staff will come with him from Springfield to take part in the program. The group will be welcomed to the campus by President Dolyte W. Morris.

School Materials To Be Exhibited

Everything the school needs in the classroom and office will be on display and will be shown June 25-27 when the annual Educational Materials Exhibit is staged by the Division of University Extension in cooperation with the Illinois Bookmen's Association.

The 1963 exhibit will be held all day from 8 a.m. to 4 p.m. on June 25 and 26 and from 8 a.m. until noon on June 27.

Two Special Sessions Set For Unclassified Students

Most persons dropped for poor scholarship are being advised not to attend summer school, according to Jack W. Gilchrist, supervisor of Unclassified Students.

 Persons who were approved as unclassified the spring quarter and who failed to make satisfactory progress in the fall quarter are encouraged to try new work, work or self-study, for six months before re-entering Graham said.

Graham met with unclassified students Tuesday afternoon and has scheduled two more make-up sessions to be held in the University Center Ballroom Friday and Saturday. At these times, information about future educational and vocational opportunities will be explained.

The Friday meeting will be held from 1-5 p.m. and the Saturday meeting, from 9-12 a.m.

At this time information about future educational and vocational opportunities will be explained.

Students who are not on campus but who were interested in knowing about their status for Fall Quarter may inquire at the Office of Student Affairs after July 1 or at a special meeting to be held July 27 at 9 a.m., or on Sept. 25 at 8:30 a.m.

Davidson Gets Lead In 'Music Man' Production

Dave Davidson, a theater major from Carbondale, has been cast as Prof. Harold Hill in the SIU Summer Opera Workshop production of "The Music Man." Davidson will fill the role created by Robert Preston on Broadway and in the film version of the prize-winning musical which will be presented in Shryock Auditorium Aug. 2, 3 and 4 and again Oct. 11, 12 and 13.

He has been featured in numerous Southern Players productions including the "Born Yesterday" company tour which included U.S. bases in Iceland and Greenland last year. He also appeared in last season's production of "Showboat."

- Denice Joston from Lrete, Ill., will play Marian Paroo, the librarian Prof. Hill woes and wins while fast talk ing an entire town into buying musical instruments for a band.

William Taylor, associate professor of music and musical director of "The Music Man," said future roles cast to date include:

Loran Cocking, a lecturer in the Film Production Department of Southern Illinois University at Carbondale, will be the Mayor's wife.

- Richard Smith and Albert Helms will play the musicals of Marcellus, Prof. Hill's buddy.

Buck Feldman will play Charlie, a bandleader who exposes Prof. Hill as a fraud.

Dennis Parkhill, son of Gene Parkhill, director of General Publications, will play the role of winthrop. Marion Paroo's little brother.

Gene Horner, Wayne Stevens and Donald Peake have been picked for the barbershop quartet and another singer will be cast Thursday.

Taylor said auditions were held again last night and will be continued again tonight in an effort to complete the cast.

We hope to have the cast completed by the end of the week," he added.

According to Taylor, a company of some 60 actors, dancers, singers, musicians and stage crew will be needed to produce the show.

This is the first time that the summer musical will be staged after the fall term begins.

Summer Grads Info Needed

Students who expect to be granted their summer should fill out graduate information slips at the Registrar's office to be eligible to vote, a spokesman for the Registrar said yesterday.

Formal application for graduation will be made at a later date.

Those who will complete their degree requirements at the end of the 12-week session and who wish to participate in the graduation at the end of the eight-week session.

Given To Library:

Need A Horse Colic Cure?

Doctor's Notes Reveal Secret

A scrapbook containing the wit and the wisdom of a southern Illinois county doctor has been presented to the Morris Library.

The book belonged to the late Dr. Robert F. Freeberg, director of the Illinois State Board of Health. Dr. Rendleman was born in 1889 and died in 1954, Rendleman returned to and graduated from Jefferson Medical College.

Dr. Rendleman returned to southern Illinois and started practicing in Cairo in 1889, talking an entire town into buying musical instruments for a band.

William Taylor, associate professor of music and musical director of "The Music Man," said future roles cast to date include:

Loran Cocking, a lecturer in the Film Production Department of Southern Illinois University at Carbondale, will be the Mayor's wife.

Soviets Examine Visitor’s Notes Page By Page Then Hit Him Go

David J. Fox, visiting lecturer in geography, feared his professional involvement would cause trouble on a recent 5,000-mile automobile tour through the Soviet Union.

Fox, who came to SIU from the University of Manchester in England, made an unusual trip to the southern Soviet Union in the summer of 1961 with two other Englishmen. His companions were specialists on the Soviet Union, one a linguist, the other an economist.

The geographical tour, in a public talk and color slide presentation on the Caucasus Mountains, told of a problem faced by most Western travelers in the Soviet Union, one a linguistic, the other an economist.

The professional geographer, however, faces another problem, Fox said, for "the kind of persistent exploration which has shown that will yield raw materials for a professional report may well be countermanded by the powers that be."

"Geographers no less than spies," he said, "are interested in industrial plants and their locations, port installations and their functions, and the like."

His worries over official Soviet reaction proved needless.

BY ANNE TURNER SPURBECK

Mrs. Spurbeck is a graduate of the University of Miami and has done graduate work at the University of Indiana. Mrs. Spurbeck has studied at Mary Manse College in Toledo, Ohio, and at Ohio University.

Spurbeck is a graduate of Indiana University. All are members of the SIU School of Music faculty.

Plan A Students

Meet Wednesdays

E.C. Coleman, director of SIU’s Plan A study program, announced today informal discussion sessions will be held at the Plan A House from 7-10 a.m. Wednesday during the summer.

Coleman said a discussion topic will be presented and that visitors are welcome. He said minimal refreshments will be served.

Twentieth Century Movies

Examined On WSIU—TV

A program examining the movies of the 20th Century will be shown on WSIU-TV today at 8 p.m.

Here are some of the program’s highlights following sign-on at 4:35 p.m.

7:00 p.m.

Heritage: Louis Armstrong. In “Jazz and the Classics,” one of the great jazz men of our times discusses the place of jazz music and classical music in his life.

7:30 p.m.

Recital, Movie Top

Today's Activities List

Tonight's the night for the first of the summer movies. "Fiesta" will be on the screen, starring Hiram Williams and Ricardo Montalban.

The show begins, and each succeeding Wednesday will be shown at McAndrew Stadium's Browne Auditorium in case of rain—and there will be no admission charge. Screening of the program which runs through Wednesday, July 31, are Audio-Visual Service and Special Meetings and Speakers.

"Fiesta," features bullfighting, romance, music and dancing in modern Mexico. The daughter of a famous matador steps into the arena to save the family honor.

12 SIU Students Study

In Guanajuato, Mexico

Twelve SIU students are enrolled in this summer's nine-week travel and study course in the picturesque city of Guanajuato, Mexico. The course started Monday.

Sponsored by the SIU Latin American Institute, the course offers class work at the University of Guanajuato, with side trips to nearby places of historic and artistic interest. Students also will be encouraged to attend regular cultural activities of the Mexican community.

Those enrolled in the course may earn up to 12 quarter-hours of credit. Classes offered are in Spanish language, literature and history. Six weeks will be spent in residence at Guanajuato, with three weeks allowed for orientation and travel. A week will be spent in the Mexico City area.

Basil C. Hedrick, assistant director of the Latin American Institute, will serve as director of the course. Hedrick is accompanying the students.

Student enrolled in the course include Cheryl Brown, Hans Glide, Pat Smith, Marion Campione, Janice Thornton, Lloyd Alvers, Lois Becker, Judy Colvin, Mary Ellen Swanson, Marjorie Mylius, Sharon Nortell and Marjorie White.

There will be a faculty recital at Shroyer Auditorium tonight at 8 p.m., which is open to everyone at no charge.

Also today, there will be a seminar on the School Lunch program, held at the Family Living Lounge from 8 a.m. to 5 p.m.

The Good Luck Glove Company is having a day-long meeting in the University Center Mississippi Room starting at 8 a.m.

A Public Health Nurse Short course re-convenes at 8 a.m. today in Muckelroy Auditorium. It opened here yesterday under the sponsorship of Interorganization Committee on Tuberculosis Nursing and the SIU Division of Technical and Adult Education.

Fiesta Opens

Summer Movie Series Tonight

The first of a series of free movies to be shown this summer at McAndrew Stadium opens tonight at 9 p.m. Esther Williams and Ricardo Montalban head the cast of "Fiesta," a story of bullfighting, romance, music and dancing in modern Mexico.

Scheduled at the same time every Wednesday night through July 31, the movies are sponsored by Audio-Visual Service. In case of rain they will be shown in Browne Auditorium.

Other offerings follow:

"Please Don't Eat the Daisies," with Doris Day and David Niven, June 26.

"Seven Brides for Seven Brothers," with Jane Powell and Howard Keel, July 31.

Californian Takes 1st Place

In SIU Stage Design Contest

Winners of the national Intercollegiate Scenic Design Competition held at Shroyer Auditorium tonight have been announced by Christian Nes, chairman of the Department of Theatre.

First prize for the undergraduate division of the competition was awarded to Diane Delual of Long Beach State College, Long Beach, Calif., for her design for "Richard III."

First prize in the graduate division of the competition went to Margaret L. Villam from the State University of Buffalo, Buffalo, N.Y., for her design for Rice's "The Adding Machine."

Four entries received honorable mention. Theodore Crain of Vanderbilt University in Nashville, Tenn., for his design for "Comus;" Star Moore of the State College of Buffalo for her design for "The Diary of Anne Frank;" Dahl Delu from the University of Minnesota, Minneapolis, for his design for "Candide;" and Ivan A. Crossland, Brigham Young University, Salt Lake City, Utah, for his design for "Medea."

Judges for the national competition, which forty-nine students from twenty-seven colleges and universities entered, were Mordecai Gorelik, American Scenic-designer and research professor in theater at SIU; Claude Shaver, visiting professor in theater at SIU from Louisiana State University; Davis Pratt, acting chairman of the Design Department at SIU; Herbert L. Fink, chairman of the Art Department; and Benjamin Wade, acting curator of the SIU Galleries.

Delta Zeta Sorority Names Pledges

The Gamma Omega Chapter of Delta Zeta sorority recently pledged seven new girls during spring rush.

They are: Mary Jo Birch, Sandy Carlson, Donna Holt, Susan Renda, Sharon Symons and Carolyn Ward.

In addition to this activity the chapter celebrated its 10th birthday on the campus of SIU June 2. Gamma Omega was first founded May 30, 1933.

Special guests for the anniversary luncheon included Mrs. Ann Ingold, the first president of Gamma Omega, and four charter members, Mrs. Dianne Johnson, Mrs. Imogene Bockemeyer, Mrs. Joyce Muscick and the Gamma Omegas chapter Director, Mrs. Betty Bunsiside.
VATICAN CITY

The process of selecting the 159 Pope of the Roman Catholi was initiated in Rome yesterday.

The 80 cardinals of the church gathered for the conclave in the Pauline Chapel, working behind the sealed doors, they are staying in apartments in adjoining apostolic palaces, the conclave area also includes the Stitute Chapel.

A small brass bell was rung to summon the cardinals from their rooms to the Stitute Chapel each time a voting session is scheduled. An internal telephone network was installed so the cardinals can talk with the conclave secretary, Archbishop Francesco Carpin, without breaking the secrecy of the process.

The clergy and laymen who will assist the cardinals were sworn to secrecy also, and that they would not try to influence the vote of the princes of the church, Radio transmitters and cameras were banned.

The conclave is martial in Italian Prince Patschig, 68, is married to the former Marianne Berry, a member of a pioneer family of Rome, Ga. As martial, his function is to make sure that one door into the sealed area is locked behind the cardinals and their aides. Prince Patschig stands outside it, and keeps all the keys.

Vatican officials decline to estimate the cost of the election of the popes. Italian newspapers figured the 1958 conclave cost over $300,000.

PITTSBURGH

The United Steelworkers Union and the International Steel Workers talks have failed to bring a contract agreement with the basic steel industry. But the union took no action to re-open the contracts, which would pose a strike threat.

WASHINGTON

$1,556,000 Appropriation For Marion Prison Discussed

The House yesterday took up an appropriation bill containing an additional $1,556,000 for a new maximum security federal prison at Marion, Ill.

The money, for personnel and expenses, would be for use in the year beginning next July 1.

At a hearing in February on the appropriation bill for the Justice Department, of which the bureau is a part, chairman John H. Rooney, D-N.Y., of a House Appropriations subcommittee, questioned the bureau’s request for the $1,556,000.

“We thought when we gave you $10 million, we had a complete prison in Marion, III.,” Rooney told Attorney General V. Bennett, bureau director.

The cost of the prison was estimated originally at $10 million.

Committee officials said that a bureau requested $500,000 for housing in connection with the institution that was not in the bill.

BIRMINGHAM, Ala.

Negro comedian Doo Doo rough is free on a $2,500 appeal bond today after being convicted yesterday of indecent exposure in a public place.

Gregory was sentenced to 10 years in jail and fined $100 and court costs.

IBM To Conduct Job Interviews Here July 2, 17

Personnel from International Business Machines Corporation will be on hand on Monday, July 2 and Tuesday, July 3, between 9 a.m. and 4 p.m. at the IBM and interview interested seniors and graduate students.

IBM will answer questions concerning educational programs, career opportunities, job responsibilities, etc.

Appointments will be arranged in the lobby of the IBM building on South State Street. IBM will conduct interviews in three centers: the first floor conference room of the building, the second floor conference room of the White House and the third floor conference room of the Midwest Convention Center.

DEAN I. CLARK DAVIS WELCOMES STUDENTS

RAYMOND DYE SUMMER SCHOOL DIRECTOR SAMPLER STUDENT OPINION
Students who are enrolled in the 12-week summer session at SIU were attended classes for the first time Tuesday but before the day was over they had the advantage of Lake-On-Campus for swimming and sunbathing. Undergraduate and graduate students alike probably will continue the habit during their afternoons at the campus lake.

Freshmen and sophomores are enrolled in the 12-week session while juniors, seniors and graduate students who are in the above 4 groups are in the full 12-week session. Students are scheduled to attend the high school, which is located in the first time that sophomores are included in the full 12-week session.

The various categories included:
1. Percentage of 8th years in 1958 who finished high school or more.
2) the amount a state spends on each pupil.
3) average teacher salary.
4) proportion of teachers holding a bachelor's degree.

A recent article from wire services indicates that IllinOis is one of four states which were placed on the bottom because of the passing of a test of a good public education system. Illinois has fewer children of 10 and 14, 10.6 per cent as opposed to 10.5, 10.4, and 10.2 per cent as high as the states which were placed on the bottom.

Illinois State Board of Education. The building has been the main building of the residence halls division.

Students are urged to take advantage of the many curricular activities available but at the same time should keep the ultimate goal of a college education in sight. Each student should make sure that the facilities and space available to them are used. Students should not neglect the education for the swimming and sunbathing.

In 1962 Illinois public schools graduated 48,5 per cent of the population as there had been in the eighth grade of the public schools of Illinois, which gave it a rank of 5. This was a greater per cent than any other state in 1962.

No doubt the extraordinary showing of Illinois public schools was due to the large number of teachers in the public schools from high private and parochial schools, which in 1957-58. which was shown by the above statistics. The public schools had a greater number of pupils as there were many students who attended classes for the first time Tuesday but before the day was over they had the advantage of Lake-On-Campus for swimming and sunbathing. Undergraduate and graduate students alike probably will continue the habit during their afternoons at the campus lake.

The various categories included:
1. Average length of school term in the state. The average length of school term in the state.
2) the amount a state spends on each pupil.
3) average teacher salary.
4) proportion of teachers holding a bachelor's degree.

In the above 4 categories, Illinois has fewer children of 10 and 14, 10.6 per cent as opposed to 10.5, 10.4, and 10.2 per cent as high as the states which were placed on the bottom. It is with regard to elementary and secondary education.

Since the per capita income of Illinois is 17 per cent higher than that of the nation it appears that Illinois is probably as far down among the states in the percent of personal income devoted to the public school education as it is with regard to elementary and secondary education.

In Illinois the percent of personal income absorbed by the public school education was 7.3 per cent of net income for 1963.

The major objection of the Illinois public school education is that it is with regard to elementary and secondary education. In Illinois the percent of personal income absorbed by the public school education was 7.3 per cent of net income for 1963.

Since the per capita income of Illinois is 17 per cent higher than that of the nation it appears that Illinois is probably as far down among the states in the percent of personal income devoted to the public school education as it is with regard to elementary and secondary education.

The above facts, it should be obvious that much can be done to improve the public school education in Illinois and that some popular ratings are somewhat high, 19.8 per cent as opposed to 19.4 per cent for the nation, 10.6 per cent as opposed to 10.5, 10.4, and 10.2 per cent as high as the states which were placed on the bottom.

The chief executive would be visiting Europe at this time, he would be trying to visit Europe this summer. It is in fact, it wouldn't surprise me if, by the time these words are printed, the chief executive will have canceled the President's trip.

At this writing, an overwhelming consensus is developing in the Congress, that Kennedy has more to lose than to gain by leaving the country at this time.

Originally, the European tour was planned as an attempt to regain the initiative in the old conflict with France when President de Gaulle vetoed Britain's admission to the European Common Market and three Mr. Kennedy's so-called "grand design" for an Atlantic community.

The feeling among administration leaders was that, by putting his prestige on the line for this purpose, the President could demonstrate the superiority of the American approach to the European political and economic situation.

Racial Tension Unforsens

When the original plans were announced, it wasn't foreseen that the United Nations would be caught up in this summer is a turning point in the relationship between the United States and other nations of the world. The new administration has a great opportunity to demonstrate that it is capable of handling the problems that arise from the different racial tensions that exist in the world.
It Made Me Feel Good,
Green Says Of Title

Bob Green, NCAA 120-yard high hurdles champion, won the title by posting a time of 15.9 seconds in the preliminary heat.

"I really wanted to do well in the meet," the new champ said this week. "It took a lot of time and hard work during the season but it was worth every bit of it now that I've won the title."

Green said he knew he had the hurdles won after he reached the seventh hurdle and saw no one around.

"It made me feel real good," he said, "and it gave me a lot of confidence for the remaining distance."

There was a brisk wind blowing but it didn't seem to bother the 19-year-old product of Illinois, who is from Washington, D.C. "From times I felt the wind and it did result in a slower time," he said.

Four Southern Sign Professional Contracts

Four SIU athletes turned professional during the past school year.

Jerry Qualls is the most recent athlete to sign a professional contract. Qualls signed a major-league bonus contract with the Detroit Tigers of the American League.

Qualls led SIU's baseball team in hitting this spring with a .419 batting average. He also led the team in home runs, runs-batted-in and doubles.

He was named SIU's Most Valuable Player in baseball. Sam Silas, Jim Battle and Dennis Harmon all signed professional football contracts. Silas signed with the St. Louis Cardinals of the Eastern Division while Battle signed with the Minnesota Vikings and Harmon inked a Chicago Bears contract.

The Vikings and Bears are in the Western Division of the National Football League. Battle and Harmon were named the co-Most Valuable Players on last year's football team which posted a 6-5 record.

Battle played left end for Carmen Piccone's football squad and Harmon played corner linebacker on the right side.

Silas was SIU's starting right tackle.

WSIU-TV Wants Student Help

WSIU-TV is urgently in need of student assistance for program production during the summer, according to Eugene Dybvig, acting operations manager.

Students interested in any phase of television production can be trained in a few hours to "perform meaningful jobs," Dybvig said.

The station will be on the air throughout the summer. Two sessions also are planned each morning and afternoon.

College Of Education Office In U. School

The dean's office of the College of Education has been moved from the temporary building on Grand Avenue to Room 1-17 of University School. The telephone number remains the same as before -- 453-2415.

Intramural Softball Rosters

A softball league has been started by SIU's intramural department, according to Glenn Martin, director of intramurals.

Martin said Tuesday that all managers are encouraged to return their rosters to the intramural office no later than June 27. Play is scheduled to begin July 1.

Martin also said several basketball goals have been added near the Thompson Point Boat Dock for those students interested in basketball.

Softball games will be played in the late afternoon on the Thompson Point fields.

Students interested in tennis, badminton and volleyball are encouraged to contact the intramural office.

"If there is enough students interested in these sports," Martin said, "we will have a tournament in each."

"We are anxious to provide the activities which will satisfy the needs and wants of each student," Martin added.

"The intramural department is always ready to work with the students in providing sports of interest to them."

Athletes

Green's victory was considered an upset to many in track and field. It is a good sign the trend will continue in coming championships held in Albuquerque, N.M. He won the high hurdles at the U.S. Track and Field Federation meet one week earlier with a 15.9 seconds time.

Green was a high school star in the hurdles and many track authorities considered him the U.S. future hurdle star.

"He has the potential to really be great," Lew Harlow, SIU track coach, said. "I believe the victory of his at the NCAA will give him added confidence now and who knows what will happen."

Hayes Jones, one of the U.S. finest hurdlers now, said two years ago that Green was the best young hurdler in the country. Jones and Green might tangle this weekend at the AAU track and field championships in St. Louis. It could be quite a race.

Green holds both the SIU school and stadium records in the high hurdles. The school record is 15.9 set by him with his winning time at the Federation meet. But the stadium record is two-tenths of a second slower: 14.1 seconds.

He worked all spring in an attempt to break 14 seconds but failed to do it until the big Federation meet. "I really wanted to break 14 seconds but it was just as well that I did it at the Federation meet."

EUGENIAN CLASSIFIED ADS

The classified reader advertising rate is five cents (5c) per word with a minimum of cost $1.00, payable in advance of publishing deadlines.

Classified display rates will be furnished on request by calling 453-2626.

Page 7
Scientists at SIU are studying an event occurring this year for the first time since George Washington was in knee-pants. Before it happens again, man may have traveled beyond the reaches of the presently-known Universe.

For the first time since 1742, one of the two largest broods of the 13-year cicada emerged this spring at the same time as a large brood of the 17-year cicada. Scientists say the two broods will not emerge simultaneously again until 2384.

A major comparative study of the two, supported by a three-year $47,400 grant from the National Science Foundation, is underway at SIU's Pine Hills Field Station. Heading the study are Monte Lloyd, assistant professor of zoology at the University of California, Los Angeles, and Henry S. Dybas, Associate curator of the Chicago Natural History Museum's insect division.

Lloyd and Dybas hope to discover, among other things, whether the two broods may be cross-mated and, if so, whether such mating will produce fertile offspring and how long it will take them to mature.

One of the prime factors in periodical cicadas' continued existence, according to Lloyd, is the fact that their emergence always "surprises" birds and other predators which are accustomed to living on other food. The insects overwhelm their predators at each emergence and are able to survive in large numbers.

Lloyd described SIU's Pine Hills station as ideally situated to serve as a base for the study. The 13-year brood ranges up the Mississippi valley into southern Illinois, while the brood of 17-year cicadas is spread over much of southeast Iowa.

In the SIU study, virgin, female cicadas of the 13-year variety were placed in large cages draped over young trees at Pine Hills. Male 17-year cicadas were transported from Iowa and placed in the cages.

Ever since 1957, is retiring in the industrial education department. John H. Erickson, department chairman, said industrial education teachers and others interested may register for any one of all four courses. Two quarter-hours credit is offered for each course.

The initial course, "Program Development and Improvement Through State and Local Cooperation," will be taught June 18-29. Instructor will be Merton Wheeler, director of industrial education for the Missouri education department.

Beginning July 1, a course on "Improvement of Instruction Through Curriculum Development" will be offered, Estell Curry, assistant director of vocational education in the Detroit public schools, is scheduled to teach.

The third course, starting July 16, is "The Most Rapidly Expanding Phase of Education—Research." Instructor will be R.J. Evans, associate dean of administration for the University College of Education.

A course on "Power Mechanics" is scheduled to begin July 30, with Pat Atteberry, chairman of industrial arts at Western Washington State College, as teacher.

**Industrial Ed Is Offering Four 2-Week Courses**

Four intensive two-week courses in latest developments in industrial education will be offered this summer by the industrial education department.

John H. Erickson, department chairman, said industrial education teachers and others interested may register for any one of all four courses. Two quarter-hours credit is offered for each course.

The initial course, "Program Development and Improvement Through State and Local Cooperation," will be taught June 18-29. Instructor will be Merton Wheeler, director of industrial education for the Missouri education department.

Beginning July 1, a course on "Improvement of Instruction Through Curriculum Development" will be offered, Estell Curry, assistant director of vocational education in the Detroit public schools, is scheduled to teach.

The third course, starting July 16, is "The Most Rapidly Expanding Phase of Education—Research." Instructor will be R.J. Evans, associate dean of administration for the University College of Education.

A course on "Power Mechanics" is scheduled to begin July 30, with Pat Atteberry, chairman of industrial arts at Western Washington State College, as teacher.

**Forestry Lecturer Co-Authors Article**

M.L. McCormack, forestry lecturer, is co-author with two Duke University foresters of an article in Radiation Botany in international journal published in Great Britain. The article, "Methyl Bromide for Increasing Jodine-131 Uptake by Pine Trees," details research McCormack performed with Frank W. Woods and Mitchell D. Ferrill while completing advanced studies at Duke.

**Industrial Ed Is Offering Four 2-Week Courses**

Four intensive two-week courses in latest developments in industrial education will be offered this summer by the industrial education department.

John H. Erickson, department chairman, said industrial education teachers and others interested may register for any one of all four courses. Two quarter-hours credit is offered for each course.

The initial course, "Program Development and Improvement Through State and Local Cooperation," will be taught June 18-29. Instructor will be Merton Wheeler, director of industrial education for the Missouri education department.

Beginning July 1, a course on "Improvement of Instruction Through Curriculum Development" will be offered, Estell Curry, assistant director of vocational education in the Detroit public schools, is scheduled to teach.

The third course, starting July 16, is "The Most Rapidly Expanding Phase of Education—Research." Instructor will be R.J. Evans, associate dean of administration for the University College of Education.

A course on "Power Mechanics" is scheduled to begin July 30, with Pat Atteberry, chairman of industrial arts at Western Washington State College, as teacher.
