Peace Corps Trainees Arrive Today

'Mousetrap' Is First Play Of Summer

Starting its 10th season, the SIU Summer Theater opens at 8 p.m. Wednesday at Agatha Christie's 'The Mousetrap.'

The all-conditioned Southern Playhouse will be the scene of five plays during the June 8-29 through August 2 season.

'The Mousetrap,' a mystery, begins the theatrical series, followed by dramas, comedies, and a musical. Each play will have a five-day run with opening night on a Wednesday.

The summer theater company includes students from Long Island to Kansas and from Canada to Louisiana. The group was selected from applications received from all over the United States and Canada. They were chosen according to their experience and abilities catering to the summer playwright.

Each show has a separate director, and each actor is assured of a major role. The playhouse management attempts to use each person to his maximum capacity.

A new show every week will be staged Wednesday through Sunday, 8 p.m. The series includes the following:

Members of the company include Richard Boss and Glenda Spicer, Ft. Hayes College; Gerald Goughan, SIU; Beverly Byers, Kentucky Western College; Jo.

Gus Bode...

Gus says he would threaten to make General Studies if he were not afraid some committee or another would make it an official recommendation.

Convincing Evidence

Lecturer Presents Statistics Linking Smoking, Cancer

By Robert F. Weld

There is no absolute proof of the exact relationship between lung cancer and smoking. Dr. Emmanuel Farber told an SIU audience Wednesday.

But there is strong proof that:

-- A light smoker has six times as great a chance of getting lung cancer as a nonsmoker.

-- An average smoker has nine to 10 times as great a chance of getting lung cancer as a nonsmoker.

-- A heavy smoker has 70 times as great a chance of getting lung cancer as a nonsmoker.

All smokers, the doctor added, have 13 times as great a chance of getting lung cancer as the nonsmokers. And if the smoker inhale he is more likely to contact the dread disease than if he doesn't.

When a person stops smoking, the risk of cancer decreases, the doctor said. The longer he has abstained, the less the chance of lung cancer.

Dr. Farber, one of the men selected to prepare the now famous Public Health Service report on smoking and lung cancer, opened a summer lecture series Wednesday night in Morris Library Auditorium.

Four other lectures are on the series which is being given in connection with a summer institute for high school biology teachers on campus.

He explained that absolute cause-and-effect proof cannot be obtained because it is impossible to have two large groups living under identical conditions, one smoking and the other not.

"Only a man like Hitler would conduct such an experiment," he added.

Dr. Farber said that experiments in which cigarette smoke has been blown into rats' cages have failed because the rats do not get the dosage of smoke that a human does while smoking a cigarette.

He said he believes that monkeys will be taught to smoke and will be used in further research.

Lung cancer is primarily

Africa-Bound Group of 110

Here for 12-Week Program

SIU prepared for the arrival this afternoon of a group of Peace Corps trainees.

The first arrivals are expected this afternoon at the Williamson County Airport at St. Louis. The 110 trainees are to arrive today by charter flight from St. Louis.

They will participate in 12 weeks of rigorous instruction in preparation for 21 months of Peace Corps service in the African nations of Niger and Senegal.

The SIU Peace Corps project has been established in headquarters at 111 Small

SIU Asked to Join In Street Widening

SIU has been formally asked to join in the widening of Mill Street on the northern edge of the campus.

The request was in the form of a resolution from the Carbondale City Council. The University will be asked to pay for half of the cost of the project, estimated at $44,000.

In addition, SIU will be asked to give 31 feet of additional right-of-way for the widening project along the south side of the street.

The proposal is to widen Mill Street from Illinois to Oakland Avenue. The present right-of-way is 49 feet and the widening plan calls for an 80-foot right-of-way which will allow a 56-foot street, with four traffic lanes, sidewalks, and median strip.

The Carbondale resolution has been sent to the SIU Board of Trusteess.

The council, in the resolution, stated that Mill served as an east-west arterial street and a wider belt-line is needed for this purpose.

Carbondale volunteers recently approved a $1.465,000 bond issue to finance a program of street improvements in the city. The new Mill Street widening will come from this bond issue.

The University owns most of the property on the south side of Mill Street west of Illinois.

The two countries are wondering just what about SIU and Southern Illinois in general has any relation to the two tiny 'African nations where they will serve, they need only to turn to Page 6 of today's Daily Egyptian.

P.A. Nkenke, a senior majoring in journalism who came from Tanganyika, comments on the two countries.

2 SIU Profs to Set Up Program at Aleppo U.

Two SIU faculty members are en route to Syria to help establish a science teaching staff at the University of Aleppo.

Julian H. Lauthner, dean of the School of Technology, and Harvey L. Fisher, radiology department chairman, will serve as consultants to the University under a Ford Foundation program.

Fourteen new-student leaders welcomed more than 650 students beginning their first term on the SIU campus.

The students who volunteered to be group leaders for the newcomers were Terry Smothers, Barbara Swier, Maggie Sanders, Mickey Antonioano, John Buck, Charles H. Wilson, Jerry Dulgit, Claudette Morse, Lewis Sahil, Judith Lackey, Roger Hunley, George Despins, Cora Hilliard and Robert McGuire.

Through closed-circuit TV, the newcomers saw films concerning General Studies, student behavior and student services.

After a morning with the TV sets, the leaders started Jackson County Gets $1,495 in Gas Taxes

Jackson County's townships and road districts received $1,495 as their share of the motor fuel tax paid to the state.

The afternoon with a walking tour of the campus. Getting down to business, the leaders showed new students how to get personal books and cards--library, activity, identification--necessary to student life. The new students were led through advisement and registration in the afternoon.

**Saturday Movies Scheduled in Furr**

Nine movie classics are scheduled for Saturday nights this summer in the Furr Auditorium. The films, which begin at 8 p.m., have an admission price of 40¢ for students with activity cards and 60¢ for adults.

The schedule includes:
- June 20: "It Happens Every Spring," Ray Milland and Jean Peters.
- June 22: "East Side, West Side," Peter Finch and Susan Hayward.
- July 18: "East Side, West Side," Peter Finch and Susan Hayward.
- August 15: "Cat Race," Tony Curtis and Debbie Reynolds.

THE SNOWS OF KILIMANJARO

from the short story by Ernest Hemingway. Classic tale about the life and death of one of his wasted past. A fellow dies of cancer while with a scharped leg in his hunting camp in deep Africa.

ADMISSION
ADULTS $0.50, STUDENTS 40c WITH ACTIVITY CARDS

**DAILY EGYPTIAN**

Published in the Department of Journalism, Austin. Rodney O'Kelley, president; William L. Rehm, vice president; Robert A. O'Brien, executive editor and business manager; Charles E. Brown, managing editor. Two issues published daily except Saturday. Second class postage paid at Carbondale, Ill. Printed on Tuesday and Thursday and distributed to subscribers and daily in Carbondale, Ill. under Act of March 3, 1879.

**Oct. 9 Designated As 'Wheels' Night**

Wheels Night, a traditional event during New Student Week, will not be held until October 9 this year, according to the Administration Office.

The change was made so the entire student body could participate and to give campus organizations more time to prepare their displays.

During the event, campus organizations, clubs, and publications set up displays showing their role in campus life, and invite students to take part in school programs.

Wheels Night will be held in the Agriculture Building.

**Dr. Farber Says There's Evidence**

To Establish Link Between Smoking, Cancer

(Continued from Page 1)

He says that it is easier to quit smoking than to control cancer.

Dr. Farber smoked at one time, but has quit. One of the ten men working on the report smoked a pack of cigarettes a day—eventually that report was released. On meeting him a few weeks ago, Dr. Farber learned that he had quit smoking.

Because of the difficulty of quitting smoking, Dr. Farber feels that the importance is discouraging young people from beginning. He is here to assist the public in attaching the facts to their pupils.

**Mousetrap’ Opens ‘64 Summer Theater**

(Continued from Page 1)

Announced by West Chester State College, Illinois Wesleyan University; and Ramona Hall, A.S., Louisiana State University.

Also, Marian Pudich, State University College (O.V.); Robert Pevitts, St. Mary's College; Phil Potter, Evansville College; Jerry Wade, Oklahoma State University; Marilyn Whitman and Carlston Winters, Oklahoma City University.

The summer productions will be directed by Charles Zeeckler, James Symons, Sherwin Abrams, Chris Jones, Gilbert Lazier, and Archibald McLeod. Darwin Payne will design the sets. All are with the SIU Theater Department. Season coupon books for the entire series are now available at the campus box office, open 10-12 a.m., or by mail. Season coupon books are $3,50, and single admissions are $1.25. Mail reservations will be accepted when accompanied by check or money order.
Activities

Movie Scheduled at 8; Serendipity Dance Set

Wendell Johnson and the Jaye play for a Serendipity dance at 8:30 p.m. today in the Roman Room, Frederic March plays the title role in "Anthony Adverse" in the Cinema Classic to be shown at 4 p.m. in Browne Auditorium. Film also stars Olivia de Havilland and Claude Rains.

The Rev. Malcolm Gillespie will be to Bald Knob and Papol for the summer spent the night somewhere else working on a take-home final.

Work's Not Done For June Graduate

The Office of Student Affairs allowed a 32-year-old senior from Rochester to be graduated, although she must report on 100 hours of community service because of an unauthorized overnight leave.

The office said that the senior and a 19-year-old junior from Patoka, also a woman student, signed for overnights in one place and spent the night somewhere else working on a take-home final. The senior agreed to submit the report on her community service, and the junior agreed to withdraw from the University for the summer quarter.

Saluki Safari Deadline

New today in the deadline for signing up at the Student Activities Office for the first Saluki Safari of the summer quarter.

The free Sunday bus trip will be to Bald Knob and Pomonata Natural Bridges.

Television Camera Explores Works, Life of U.S. Sculptor

WSIU - TV will feature "Alexander Calder, Engineer in Space," at 8:30 p.m. today. The camera follows the famous American sculptor Alexander Calder and the viewer has the opportunity not only to look at his works, but hear him describing his life.

Other programs:

* 4:30 p.m. Industry on Parade
* 5 p.m. What's New: This program discusses the steamboat captain who owned his own boat and acted as trader, doctor, and handyman, and the young photographer is shown how a picture should be framed.
* 5:30 p.m. Film Feature: To be announced
* 7 p.m. At Issue: This program is devoted to a study in depth of today's major issue.
* 7:30 p.m. Bold Journey: "5,000 Miles by Canoe" features four Counseling and Testing will administer the General Education Development test at 8 a.m. today in the Morris Library Auditorium.

The Orientation Steering Committee meets at 7 p.m. today in the activities area of the University Center.

Chinese Heroism Featured on Show

Tales of the Valiant will feature Kuo Ch'ien, hero of Free China, at 2 p.m. today over WSIU Radio.

Other highlights:

* 10 a.m. Listen to the Land
* 10:50 a.m. Pop Concert
* 2 p.m. Tales of the Valiant
* 3 p.m. Man and Molecule
* 3:30 p.m. Concert Hall; Delius, "Over the Hills and Far Away;" Ravel, "Piano Concertos in G Minor;" "Sonata No. 3 for Piano and Violin
* 6 p.m. Music in the Air
* 8 p.m. Concert; John Newmark, pianist, features Peter Schae, Netherlands composer
* 10 p.m. News Report

FRANK SALMO (LEFT) AND BOB MILLER ARE WORKING FOR SIX WEEKS WITH PROFESSIONAL CAMERA MEN IN NEW YORK CITY THIS SUMMER.

2 Photographers Train in New York

Two SIU students in the department of printing and photography are working with professional camera men in New York City this summer. Frank Salmo of Herrin and Robert Miller of Carterville started Monday on a six-week program set up by the American Society of Magazine Photographers.

In New York they will work with top magazine photographers and picture agencies. Salmo has been assigned to Magnum Picture Agency and Miller to Pic, Inc.

In addition to going out on assignment with the professionals, they will receive assignments on their own.

In the course of any given day, an average SIU student will climb approximately a thousand steps, give or take a hundred either way. Taken from a punster's point of view, it's just part of that climb up the ladder to educational success.
SIU Has 'Dark Continent' Heat But Not Its Rigors

Will Dormitory Living Prime Peace Corps for Jungle Wilds?

(F.L. Masha, the author of the following article, is a senior in journalism at SIU. His home is Tanganyika, on the west coast of Africa.)

By F.L. Masha

Less than a century ago, most parts of the "dark continent" were wild. "The white man's grave," the equatorial heat, insects, malaria, disease, and rugged life, they argued, were unsuited for white settlement.

Peace Corps volunteers, I suppose, manage to survive because of their superhuman qualities and the rigorous orientation programs they undergo. Well, when SIU decides to have an African Peace Corps program of its own it will not need any further orientation. In the heart of southern Illinois, SIU has been found to have ideal surroundings to train a Peace Corps for Senegal and Niger. I guess students who have been at SIU long enough should qualify without any further orientation!

The high summer temperatures at Carbondale (up to 100°) and the humidity compare with, and even exceed, the hot weather statistics in many places in tropical Africa. And even the daring whites of the 17th century—the Sahara. Of its 2.6 million people, half are illiterate and speak Hausa, and are Moslems in religion and tradition. Most of them are nomads in a land arid in vegetation and water except for the track of land along the river. The capital city, Niamey, has about 20,000 people.

Senegal's capital, Dakar, is comparable to any city of its size (375,000) anywhere in the world.

By the way, some good news for those going to Senegal: they won't have to buy mosquito netting. But they certainly will have to learn Wolof and Pular to supplement whatever French they will be able to master during their training. And of course they will have weather in Paris and acquaint themselves with taxis.

Well, that is all part of the adventure.

One surprise awaiting them is to learn that Carbondale was most unsuited for their orientation.

27 SIU Volunteers

Aiding 13 Nations

The Peace Corps has stationed 27 volunteers from SIU in 13 underdeveloped countries. The number diminished to 20 after Oct. 3 when Frederick Derlog, SIU graduate from Springfield, was killed in an automobile accident while working on a community development project in Colombia. At the same time another volunteer returned to his home in Chicago.

The SIU registrar's office reported another volunteer, Gary D. Robinson, a Spanish major, plans to return to classes at Southern for the spring quarter. Robinson is now organizing co-operative kitchens for school lunches in Colombia.

CARBONDALE
Seven Jailed In Near-Riot

ST. AUGUSTINE, Fla.—A near-riot broke out and many demonstrators were arrested Thursday in a new flareup just as this troubled city appeared to be reaching a settlement of its racial troubles.

"It can't be happening now," said a desk officer at the St. Johns County jail. "I'm too busy booking them."

The near-riot broke out when six Negro men and women jumped into a pool in which whites were swimming at the Monson Motor Lodge. A policeman leaped into the pool, grabbed one Negro around the neck and they began fighting. Club-smashing officers went up the pool hitting at the Negroes in the water.

Finally the Negroes climbed out of the water, some bruised by clubbing on backs, arms and shoulders and were taken to jail.

Soviets Warming To Bonfire Plan

GENEVA.—The Soviet Union indicated Thursday to meet the American position on a proposed "bonfire" of much Soviet nuclear material.

Soviet Deputy Foreign Minister Valerian A. Zorin told the 17-nation disarmament conference a forthcoming new Kremlin plan will modify the 17-nation disarmament which whites were swimming to be reaching a near-riot broke out and many officers Jan. 28 Soviet proposal calling the 17 - nation disarmament agreement over the two-year period. The Soviets rejected the Tulsas over at two-year period.

Kremlin plan will modify the Smiets Warming of study before entering destruction of destruction of all around the neck and they began fighting on backs, arms and shoulders and were taken to jail.

The opinion added that the...
Martin to Cast Around for Lineup For Tough ’65 Baseball Schedule

Although Southern’s successful 1964 baseball season is still fresh on the record books, Coach Glenn Martin already is planning for We have some of the coach’s efforts are expected to bring a number of new faces and faces to SIU’s baseball team. Martin’s clausy Salukis, who finished with an impressive 21-1 record and the championship in the NCAA’s Division Mid-East region playoff this spring, will face one of the toughest schedules in the school’s baseball history. In addition to the list of formidable opponents which the Salukis met this past spring, baseball powerhouses Ohio State and Toledo Uni­
