Students Celebrate Saluki's Win

A mixture of final week pressure and spring-like temperatures tempted by SIU's 72-63 NIT victory over Duke Monday night brought out an enthusiastic crowd of celebrants on the碳酸dale campus.

"We're number one," the crowd between 200 and 300 shouted as they raced across campus and down Illinois Ave. toward the business district. Saluki patrons and Carbondale police officers watched attentively as the crowd progressed through the streets.

Women's dormitories at Thompson Point, Neely Hall, University Park and several off-campus locations were visited by one of the jubilant crowds as they chanted the slogan, "Saluki!"

Another crowd formed at Greek Row and moved toward Thompson Point, through the campus, down Illinois Ave. and eventually to Neely Hall where they stayed for half an hour.

The sound of firecrackers bursting in the night brought back the memories of spring disturbances last year though no real problems appeared to exist Monday night. Monday marked the beginning of finals week for the winter term at SIU. Contrast this with last Monday's brief snow flurry, more temperature in the 70's Saturday, Sunday and Monday.

High Sunday 83 Degrees

Sun Bathers, Convertibles Appear

As Record Warm Weather Hits Area

Record heat continued Monday in Carbondale. The temperatures climbed to 83 degrees by 2 p.m. to tie the March 13 record set in 1933.

The reading was from the Southern Illinois Airport where a temperature of 83 was recorded Sunday to break the old record of 73 set on March 12, 1941. The high temperature recorded Saturday was 80 degrees; the record, 84 degrees, was set in 1911.

The record high temperatures for the month were 93 degrees recorded on March 23 and 90 degrees for the month is now below zero set on March 5, 1960.

The record low for March 11 is 20 degrees set in 1954, and for March 12, 17 degrees set in 1960. The record low for March 13 is 12 degrees, also set in 1960.

As a result of the warm weather students could be spotted lying on roof tops gathering in the sun's rays. Many students broke out spring clothes and sported cutoffs. Convertibles abounded in downtown traffic.

Air conditioners were turned on in many parts of the city Sunday and were pressed into service throughout the area.

The weather station at the Southern Illinois Airport reported 1.17 inches of calcium and wind gusts of up to 25 mph during Sunday's storm. However, average wind velocity for the day was five miles per hour from the southeast.

The U.S. Weather Bureau station at Cairo, Ill., reported a record high of 80 degrees for Sunday.

The Cairo weather station reported 0.14 inch of rainfall and winds up to 16 mph during the Sunday's thunderstorms. No hail was reported.

The only damage by the storm in the Carbondale area was reported by Central Illinois Public Service. A transformer was damaged by lightning at Makodka.

Four Noted Architects Named Planning Consultants to SIU

Four noted U.S. architects have been appointed as consultants to SIU for campus building design and master-planning.

While the group will be concerned primarily with "design solutions for problems on the growing Carbondale Campus," according to University Architect Charles Pulley, it will also be kept abreast of developments at the Edwardsville Campus. Architects Gyo Obata and Hideo Saiaki previously were named consultants for Edwardsville.

They make up a Board of Architectural Consultation, They are Charles Moore, chair of the department of architecture at Yale University; Joseph P.2. Johnson of Washington University School of Architecture (St. Louis); and Lawrence B. Anderson, dean of the School of Architecture and Planning at Massachusetts Institute of Technology.

St. Louis Architect George Anguloievic has been named campus planning and design consultant for the Carbondale Campus. He will work with Pulley and the three-man board.

Southern Hands Duke 9 Point Defeat

Johnson, Frazier and Garrett

Lead Second Saluki NIT Win

By Tom Wood

NEW YORK CITY - The best made plans of mice and men are often put to rest. That was the story for Duke's scoring against the Blue Devils, who threw a zone defense at SIU Monday night in hopes that Southern wouldn't find the range from outside.

But the Salukis, playing the most balanced game of the season, sealed Duke's Vic Bubas by hitting the big baskets from outside and grabbing the key rebounds to hand Coach Jack Hartman his 100th win of his career. SIU has advanced further than any small college ever in the National Invitation Tournament.

A New York cabbie couldn't have driven on Duke's 6-7, 6-9, 6-5 front line in the first half. The Salukis settled for the outside shot, but didn't often get more than one shot inside the Blue Devils' perimeter defense.

The biggest lead of the first half was four points! The lead sawared four times and the intermission score was 37-37.

The second period mirrored the initial stanza for 15 minutes, but Duke's deadly All-American Bob Verga missed a couple of late jumpers and the Salukis rang up nine of the next 11 points starting with Johnson's jump shot at the 4:02 mark.

Five of the 6-7 center's 17 points came in these final moments. The Salukis hit 11 of their 22 points in the last 2:18 to seal Duke's fate.

The Blue Devil's patterned offense was kept away from the basket for much of the night by the Saluki tight man-to-man defense. Zastrow and his backcourt mates, Roger Verga and Verga had few good chances, but the little sharpshooter kept the game close to the end with some remarkable moves to score 24 points--12 each half.

Amazingly the Salukis manned inside to few around Duke by 10 in the second half. This was the vital difference, as the Saluki outsiders got a reprieve on several long shots late in the game and put down the big ones. Southern shot 382 compared to Duke's .460.

Balance was the key in scoring and rebounding for SIU. Garrett, the Saluki high scorer again, had 18 points and 11 rebounds. Frazier had 17 points, nine rebounds; Johnson, eight points, eight rebounds; Smith, five points, two rebounds; Zastrow, nine points, three rebounds; Verga, 15 points, eight rebounds.

Duke lost the services of 6-6 Bob Biedy late in the game when the forward fouled out after scoring eight points and getting eight rebounds.

The victory was the 17th straight and 22nd this year for the Salukis, who are favored to meet Providence in the finals Saturday. Southern was a three and a half favorite in tonight's ballgame. The Salukis will face another big front line no matter who they meet Thursday night. Bob Riedy and New Mexico, who play tonight for the right to meet Southern in the semifinals, have shown good defense through the season.

Both teams won two points verdicts Saturday, Rutgers 78-76 over Utah State and New Mexico 66-64 over Syracuse. The time of Southern's third game has not yet been set. The Salukis will either play at 9 p.m. or 8 p.m. Thursday Carbondale time.

Gus Bode

Gus says any unidentified flying objects observed this week will be SIU students bugging out of Carbondale for the spring break.
Radio to Start Music Course On April 3rd

WSIU-Radio will begin broadcasting the GSC 100 music understanding course on Monday, April 3. The course will be broadcast three days a week, Monday, Wednesday and Friday at 8 p.m. This is the first time that a SIU course will be presented on radio. It is being done through the cooperation of the SIU Broadcasting Service and the Department of Music.

William Betterton, associate professor of Music and coordinator of music in the General Studies program, will be the instructor.

The broadcasts will cover essentially the same things that we have taught in regular classes," Betterton said. The course examines music in terms of rhythm, melody, texture, timbre and form. The primary purpose is to enhance the sensitivity of the student to the organization of sound in music.

"This is an experiment to see the amount of interest that such a program will generate. It's conceivable that such a course might be offered in the future for credit," E. Walter Richer of SIU Broadcasting Service said.

A brief outline of the broadcasts may be obtained by writing Music Understanding, WSIU-Radio.

Physiologist Receives Cancer Research Grant

George H. Gass, of the Department of Physiology, received a $2,277 grant from the National Cancer Institute, National Institutes of Health, to continue his cancer research.

He has been studying the affect of female sex hormones in the development of breast cancer for the past seven years.

Employee Dies at 57

Charles E. Clark, 57, of 506 Davie St. Carbondale died at 2:15 p.m. Sunday in Veterans Hospital in Marion.

The body will lie in state at 4 p.m. today at the Van Natta Funeral Home.

The funeral will be at 2 p.m. Wednesday at Van Natta Chapel. Burial will be at Oaklawn Cemetery, with the Rev. Willard Poone officiating.

He is survived by his wife, Edna; his mother, Mrs. Maggie Clark; a brother, Fred; and his sister, Mrs. Katherine Eaton, all of Carbondale.

Clark was a maintenance employee at SIU. He was a member of the Carbondale Christian Church, a World War II veteran and member of the American Legion.

Alumnus Writes Russian Textbook

Edward C. Swick, an alumnus of SIU, has written a Russian language textbook. The text is designed as an outside reader for students of Russian, rather than as a textbook for classroom use. It will be available in the University Bookstore shortly.

Swick received his B.S. in German and Russian from SIU in 1959. During the academic year 1959-1960 he was an exchange student at the University of Hamburg, Germany. While in Europe he spent a month in the Soviet Union as a tourist and student. He received his M.A. in German and Russian from SIU in 1964. Swick is the editor of a second Russian language textbook, "Stories by Chekhov," designed for the intermediate level of study. A third text, still unpublished, will be a beginner's Russian book for audio-lingual use.

Swick is currently teaching German and Russian at Prospect High School in Mount Prospect, Ill. He recently became a member of a Modern Language Association Bibliography Committee.

Donald Pleassence to Discuss Acting Roles on WSIU-FM

Actor Donald Pleasence will talk of his recent roles on "The London Echo" at 7:45 p.m. today on WSIU-Radio. The talk will also feature scenes and a partial score of Beethoven's "Tenth Symphony" and "The Blood Knot," a new play.

Other programs:
- 9:55 a.m., Morning Show News.
- 10:00 a.m., Pop Concert.
- 12:30 p.m., News Report.
- 3:30 p.m., This Week at the U.N.
- 3 p.m., News.
- 4:18 p.m., Concert Hall: Bloch's "Concerto for Violin and Orchestra," Beethoven's Sonata in G Major; Stravinsky's "The Firebird."
- 5 p.m., Storyland.
- 6:30 p.m., News Report.
- 7 p.m., BBC Science Magazine: The moon's surface and Kenneth Bentley's work on pain-killing drugs will be discussed.
- 8:35 p.m., News Report.
- 10:00 p.m., Moonlight serenade.

Campus Displays Set for May 13th

The third Outdoor Living and Camp Show, which features exhibits and entertain-
ment, will be held May 13-14 at Pirat Cove at Crab Orchard Lake.

Sponsors invite the public to attend and see several families engaged in real-life camping to demonstrate different methods of living in a variety of tent and trailer equipment. Suppliers will be available to answer questions of camping methods and places to camp.

The event is sponsored by the Southern Illinois Recreation Council and Region 9 of the Illinois Tourism Promotion Council with the Pirate Cove management as host.

SIU Merits Big-Time Status

Only during the past few months has SIU become so well known because of its basketball teams. The impressive record of the Salukis has been repeatedly recorded and game by game in nearly every major newspaper in the state and area. Southern also has had write-ups in Time magazine and Sports Illustrated. Time Magazine, which has a circulation of more than three million, went so far as to footnote the meaning of the word "Saluki.

Southern is fast becoming a major university in many things. It is already one of the 20 largest in the nation and ranks third in the number of students enrolled each year. Now it is producing major teams in athletics, not only in basketball.

The Salukis were NCAA champions in both men's and women's gymnastics last year and are now playing college sports at SIU also have racked up good records.

It is abundantly clear that Southern merits major university rating. The Salukis have produced a major university when it comes to athletics, and they are fast becoming a major university when it comes to education.

Southern's enrollment exceeds that of many major-ranked schools. Consistently high performances show that SIU is just not lucky in turning out triumphant athletic teams. It is evidence of the prominence of the school and its being a major university.

The time is coming when everyone will know what a Saluki is.

Ron Sereg

Son Home From College Study Takes Final Exam in Woodshead

A young college lad came home for a weekend visit. Of course his parents want to know how he is doing in school so they ask him what he has learned.

"I have learned a lot about true love," said the boy. "What else," smirks the old man.

"Now I am getting to be a good prophet. In fact, I'm one of the best prophets at SIU. Protesting is an important subject these days, you know."

"You may be getting good grades in protesting because your grades are a perfect ten too, and like you," suggested the lad's father.

"Now that we are taking a marching class, Dad, I'll be good at that too."

"You could learn that in the army, Dad reminded. "Yes, but if I get good grades in college I don't have to go to the army to march."

"Last weekend we had a real good class in marching," explained the boy. "There were 10,000 marchers and for Governor Pecau, the boy said proudly.

We are taking up signing and painting, you know the kind Dad, that you carry when you march, with those real intelligent signs. You really earn a lot in college, Dad."

"What about other subjects," continued the father.

"Well, we are taking up booting. We did that at Sacram­ento too, and I'm really going to enjoy that subject, and I'll probably get good grades there too."

"My spelling is improving too Dad, as you know I never was any good at it in high school. Now I can spell four­ letter words.

"By the way, Dad," continued the boy, "I need some more money for that bank account for college. And I sure hope they don't raise the tuition fee so you and Mom more money for your contribution."

"Son," said the father, "I think we will continue this conversation in the woodshed.

End of story. They always have a happy end­ ing.

"Well, I'll continue this conversation in the woodshed.

"Arroyo Grande (Calif.) Herald-Recorder.

No Whistling Here

The Carbondale Police have struck another blow at big-city whistling. According to one of its officers, no one is allowed to use the term "whistling" because the term "whistling" has no meaning in Carbondale.

One school official stopped a couple walking down East College.

"The fellow had been whistling long enough.

He was lucky this time, though. The officer let him off with an order to stop whistling.

Carbondale residents, sleep with your doors on and your boots locked, Your lawmen are on the loose."

Kevin Cole

Letters to the Editor

Description Wrong

To the Editor,

I feel that attention should be brought to a description of the Liberal Arts and Science Student Advisory Committee which appeared in the Egyptian March 2, 1967.

In the paragraph, committee members were chosen from a list of students who had been recommended by department chairmen. Recent additions to the list are not necessarily members, and also by department chair­ men. Recent additions to the list are not necessarily members, and also by department chair­ men.

In an effort to help carry the work of the committee to next year, most of the new members are juniors.

Alan Ackman Chairman of Liberal Arts and Science Student Advisory Committee

No Brain Machine

To the editor,

In the United States today, as well as in most of the developed countries of the world, an individual is continuously affected by the use of electronic computers. Credit card accounts, bank accounts, income tax returns, pay­ roll checks, student records, police records, birth, death, and marriage certificates, census reports, driver's licenses, all are now or will be eventually coded, recorded, and processed by electronic computers.

Large scale production and transportation systems, vital components of our economic system, are unmanageable without the assistance of ele­ tronic computers in preparing production schedules, sales, costs and performance analyses, etc.

An Editor's Viewpoint

Joining Gangs: Not Teacher's Answer

By Jenkins Lloyd Jones (General Features Corp.)

A few weeks ago there appeared in both The Chicago Daily News and The Washington Star an article by an author who described as "difficult schools" in each city.

The situation is now so chronic in Chicago's affluent South Side schools, according to a Chicago News reporter, Norman Mark, that the teacher describes the conditions as "hard to describe." In one high school 41 of 85 teachers are in their first year.

A school official called the Center for Inner City Social Development, the idea was that the school would have a dollar federal grant in a program to "send" five teachers to the classroom to "nurse" it back to health.

Education is seen in Chicago as "flicker of interest in Shakespeare's Othello by a slum youth who said, "I wish I could string out over a blood and her.

"If I had to give this kind of a synopsis, obviously the class isn't ready for any degree on "Othello." He didn't write in basic English.

"I am among those who have a home and want to buy a house. This is a sale against a drunken black or religious groups have that right.

"But why not turn the school over to the "gousters" and let them teach Shakespeare. In Washington, John Stacks, reporter for the Star, describes the openings of class in a slum junior high school. It took ten minutes to establish enough order to start the discussion. He was not to introduce the subject. Then a drunken boy pushed a girl and the class fell apart. Nothing was done about the boy. He finally wandered out.

The new principal of this school has, according to Stacks, "tried not to add to the heavy burden of hostility the children bring into the building.

Jenkins Lloyd Jones

The classroom and responds with obscene language, his reputation is built on violence and teachers must be careful not to rile him.

"My lunch would be," said Newman, "that almost every time we read in the paper that a teacher got hit it was because she 'put down' the gouster in her class. His only resort to protect his "rep" is violence."

"According to one report, the Center teaches that when a boy is asked to remove his hat in

She has tried to change harsh, authoritarian methods to "more open, reasoning methods."

But her teachers say her efforts have increased the chaos and deprived them of the classroom order they need.

In a survey, a national study of school that tries to smother hoodlumism with love is bound to fail. The kid who pulls a knife on a teacher is not an aberration of the process."

A two-session short course in Lawn and Garden Care will be offered March 29-30 at 8:30 a.m., by the Division of Technical and Adult Education in cooperation with the School of Agriculture.

Faculty members and area nurserymen will conduct the sessions from 7 to 10 p.m. Wednesday and Thursday evenings in the Family Living Laboratory of the Home Economics Building on the Carbondale Campus.

Dean W.A. Keppel of the School of Agriculture will open the short course.

On Wednesday evening, Associate Professor Jess Rawson will discuss "Landscaping Features of the Home Grounds," Agronomist Joseph Yavera will discuss "Soil Problems and Practical Solutions for the Homeowner," and Herman Bie of Illinois Florists, Murphybusho, will cover "Flowers for Access.

Thursday evening sessions will include "Selecting and Caring for Trees and Shrubs," by Harvey Hartline Jr. of Hartline Nurseries, Carbondale; "Establishing and Maintaining a Lawn," by Assistant Professor James Tweddy, and "Weed Killers and Other Pesticides for the Homeowner," by J.K. Lea.

For more information, contact the dean of the School of Agriculture.

House Speaker Authors Bill

Legislature May Limit Book Store Fare

By Mike Nauer

SPRINGFIELD—SIU's campus "department store" concept for the Edwardsville campus book store has met stiff opposition in the State Legislature.

Ralph T. Smith Jr., Alton, speaker of the House, has announced that the line of goods a campus book store might sell. An Egyptian interviewed him recently about this bill.

It was written in the wake of a cry sent out by the Edwardsville Chamber of Commerce, claiming that the University would create unfair competition, with the line of merchandise the book store planned to sell.

The new University Center at the Edwardsville campus will have a 10,000 square-foot store. Initially, University officials had planned to sell such items as appliances, wearing apparel, sporting goods and cosmetics along with the regular line of goods.

Smith said, "The University is way off base on this one. As a result, we are going to have a bill cut out for us by the University for what a university can and cannot sell in its book store.

However, the bill, House Bill 195, is fairly open-minded insofar as outlining specific items which may be sold. It states, "... a State institute...

Article Published

D.W. Slocum, assistant professor of Chemistry recently had an article published in the Journal of Organic Chemistry. The article is entitled "Reactions of Certain Ferrocene Compounds leading to a Ferrocenyl Ethyl Ether."

The publication of higher learning may not be permitted or authorized to carry a line of general merchandise which would be in direct competition with private retail merchants in the community.

This is further qualified, though, by allowing colleges to sell merchandise that was sold prior to Jan. 1, 1967. Smith said the intent of this bill was to prevent the introduction of new merchandise in the store's lines that normally do contribute to the needs of the academic community.

"We can't allow a state-operated university to run a department store. This places unfair competition on the local businesses.

"We realize the need for campus bookstores, and the line of merchandise that is presently carried, but is it really the University's place to sell a toaster or underwear?" Smith asked.

Following the action in the Illinois Legislature, the SIU Board of Trustees in a meeting Feb. 17, passed a resolution stating the University would not sell any line of merchandise not necessary to the academic community.

Smith's bill was passed by the House Tuesday and has been sent to the Senate for consideration. At the present, it has not been assigned to committees.

One other source of possible irritation between the business community and the University remains to be decided by the Board of Trustees.

The number of University-operated guest rooms still available would create a petition for area merchants, with department store. This places unfair competition on the local businesses.

One other source of possible irritation between the business community and the University remains to be decided by the Board of Trustees.

WASHINGTON (AP) — Sen. Thomas J. Dodd acknowledged Monday that $150,785.29 from a series of fund-raising events went into his personal bank account—and a former aide quoted the embattled Democrat as saying he expected no more than a gold watch.

And Dodd acknowledged that money from his Senate campaign bank account was used in part by the Teamsters Union to pay for political events and meetings.

He conceded that funds produced by testimonial dinners helped to pay for liquor, football tickets and improvements to his North Stonington, Conn., home.

Dodd was pictured by a former assistant as a major organizer of testimonial affairs held in his own honor. Dodd’s dossier of expense accounts was neither tabulated nor evaluated. Nor were Dodd’s financial affairs reviewed by the Senate Ethics Committee.

The document was read into the record as the committee chairman, said that will come later, as witnesses testify about the transactions involved.

But the stipulated evidence showed that money produced by testimonial dinners and money raised for political campaigning was blended in a single bank account at the Connecticut Bank and Trust Co. of Hartford.

Dodd smoked his pipe, talked to his lawyer, and took notes on a yellow pad as Benjamin B. Fers, committee counsel read these stipulations. It took 90 minutes. The senator from Connecticut already had reshuffled his defense—with a press release insisting he used virtually all of these funds for political rather than personal purposes.

And he contended once again that the four testimonial dinners held in Washington and in Connecticut raised money “intended as personal gifts” which he could spend as he saw fit.

AWOL Cases Climbing

WASHINGTON (AP) — Pentagon figures showed Monday the number of soldiers going AWOL—absent without leave—has climbed steadily in the Army’s buildup for Vietnam during the mid-1960’s.

Last year the Army logged 55,190 instances of servicemen falling to report back to their post on time, a rate of 31 per 1,000 based on the million-man-plus force at the start of 1966. This was a slight statistical decline from 31.4 per 1,000 recorded in 1965 but constituted sharply with 1960’s 40 AWOLs per 1,000 or fewer recent years: 45 per 1,000 in 1961 and 49 per 1,000 in 1962, 1963 and 1964.

The men in Vietnam have a far better record. Pentagon figures indicated about 7,000 soldiers went AWOL in Vietnam last year.

Based on the Army’s year-end strength of 250,000 in the war zone, this is a rate of about 28 per 1,000 — far below the worldwide level.

Gen. Earle G. Wheeler, chairman of the Joint Chiefs of Staff, brushed off a question about Vietnam AWOLs during congressional questioning late last month. “No problem at all,” he declared.

Defense spokesman theorized fewer men go AWOL in Southeast Asia because there are relatively few desirable places to go AWOL to.

IMPORTANT ANNOUNCEMENT!

Discontinuance Of Train Service

Pursuant to an order of Interstate Commerce Commission on Finance Docket 24348 discontinuing its investigation into the IC’s notice of intention to discontinue certain passenger service, the following changes will become effective on March 10, 1967.

• Train No. 25, “The Southern Express,” will operate from Chicago to Carbondale, Ill., instead of to New Orleans. The train will be renamed “The Campus,” southbound.

• Train No. 8, “The Creole,” will be discontinued from Memphis to Carbondale, but continue to serve the line from Carbondale to Chicago as the northbound “Campus.”

• Train No. 15 & 16, “The Chickasaw,” will be consolidated with train No. 3 & 4, “The Louisiana,” between Carbondale and Memphis. Through coaches will be handled as at present between St. Louis and Memphis.

Your continued patronage is sincerely appreciated.

Chinese Asked To Continue Crop Planting

TOKYO (AP)—Amid reports of a bloody peasant uprising in south China, Radio Peking called on farmers Monday to halt the power struggle and get on with the spring planting.

Travelers reaching Hong Kong said soldiers opened fire on peasants and farmers who refused to go back to work in various areas of Kwangtung Province. One arrival said "bodies were scattered along the Fatshan highway" and "casualties could run into thousands."

According to their stories in the Hong Kong New Life Evening Post, the most severe fighting occurred in the area of Fatshan, 10 miles southwest of Canton, and Nagarh farther south.

The paper estimated 300,000 soldiers were in Kwangtung Province to "put down the rebellious workers and peasants," The travelers were quoted as saying: "Many workers at Fatshan shouted 'Go home, northern troops!'"

They said for a halt in the struggle between Communist party Chairman Mao Tse-tung and the backers of President Liu Shao-chi was carried in the official People's Daily and broadcast by Radio Peking.

It was a Chinese-language broadcast designed for home consumption saying victory in the "great proletarian cultural revolution" depends on agricultural production.

Stalin's Daughter Asks Swiss Aid

In Seeking Peace

BERN, Switzerland (AP) -- Joseph V. Stalin's daughter Svetlana wants to be left alone and the hideaway under heavy protective shield and the hundreds of newsmen and photographers scouring the area of Reeds.

She arrived in Geneva Saturday with a three-month Swiss tourist visa and is in a hideout under heavy protective guard, Von Moos said the Swiss are prepared to extend her visa indefinitely but added: "We think three months will be sufficient for her stay." He did not indicate where she might go after that.

In London, a Labor party member of Parliament, Margaret McKay, urged the British government to recognize her permanent asylum.

Illinois to Seek Death For Negro Slayers

CHICAGO (AP)—The state announced Monday it will seek the death penalty for three of four white youths charged with murdering a Negro in suburban Cicero last year.

The fourth youth is expected to testify for the state.

James Klein, assistant state's attorney, informed the Circuit Court of his intentions at the start of choosing a jury for the trial of Arthur Larzon, 19, Martin Kracht, 19, and Frank J. Hough, 18, Dominick Mazzone, 17, the fourth defendant, is expected to be a state witness.

SAIGON (AP)—U.S. troops are scouring 100 square miles of swamplands along Cambodia's border in a new operation to deprive the Viet Cong of a stronghold threatening Saigon, the U.S. Command reported Monday.

Military sources said a 5,000-man enemy force, skirped into Cambodia ahead of the operation and fighting was at a minimum, officials reported five Viet Cong killed in scattered skirmishes. One American was killed and 17 wounded, many by boobytraps and mines.

In the operation, involving U.S. 25th Division and U.S. 1st Division, began last Wednesday under the code name Waibai, after a town in Hawaii, former base of the division. The location is the northern Plain of Reeds, an area that starts 30 miles west of Saigon.

Col. Marvin Fuller, commander of a brigade in the operation, said anyone living in the operational area is presumed to be Viet Cong. Inhabitants were being evacuated to government-controlled areas. Fuller said water buffalo, ducks, chickens and pigs were being slaughtered to deny fresh meat to enemy battalions.

University Park's Second Year Looks Settled

By Dan Van Atta

A year ago, the residents of University Park were only beginning to enjoy the quiet, informal atmosphere that made it a peaceful and stimulating environment. They were finding that the usual comfort of desks, chairs, drawers, and acoustic cells was comforting.

This year, however, a tremendous change has taken place within this area. University Park has transformed its atmosphere, and is emerging as a mature residence hall complex.

The most obvious change that has taken place in University Park is the completion of its physical facilities. The area office has been completed, modernized, and filled with a skilled staff. The halls have been equipped with furnished lounges, quiet study areas, and other finishing touches that contribute to the total comfort of the area.

The Carousel Room, which has been accepted by most residents, is the chairman of the Social Programming Committee. Amphitheaters, quiet study lounges, and other finishing touches that contribute to the total ambiance of the area have been completed, making it more physically inviting.

Barb Mandernack, a sophomore majoring in elementary education, who has spent two years at University Park and is the chairman of the Social Programming Committee, said, "The atmosphere was more friendly last year because everyone had common problems. Everything was new and most of the residents were freshmen, and we all had a lot in common. There were only one quarter of the residents who have been accepted by most of the students, but there was not a gap between residents, and the student council and staff.

Wright Hall opened the lines of communication between residents and the student council and staff. "The freshmen at University Park (70 percent) should have a greater exposure to academic atmosphere. We are inviting faculty members and administrators to 'bull sessions' in an effort to improve this atmosphere," said John S. Evans Jr., the head resident at University Park, commenting on the atmosphere at University Park.

"We need to develop a greater 'esprit de corps' in the area. Our new newspaper (The Park Prima) has done a good job of relating the area together. The University Park library, which is in the making, will also serve to unite the area.

Although the Brush Towers Complex, to be opened in the fall of 1968, will be operated separately from University Park, Evans described some of the changes that are planned at Brush. "The commons building at Brush Towers will be identical to Trueblood Hall," he said, "except that in place of a smoking room, the hall will have an extensive vending machine room, and it will not have a glassed-in dining room." Evans added that all present plans for Brush are subject to change.

"The big disciplinary problem in the halls is drinking and excessive noise," he said, "The only real problem is Nasty Hall is girls taking illegal overnight sleepovers.

University Park has changed a great deal in the last year, and it will continue to progress in the future. The residents hope that work will soon begin on the overpass, which will cross the Illinois Central tracks and Illinois Avenue, making the campus more accessible. Basketball courts will go up in the Park's parking lot next term. An athletic field is being planned for the space to the southeast of the area, and a program of weekly movies has been instituted on a weekly basis.
Golf Team Boasts Nucleus of Four Lettermen

By David Palermo

Hoping to better last season's showing of 64 strokes, the experienced golf team consisting of four lettermen will attempt to extend its success to the courses this year for SU!

Coach Lynn Houlder, beginning his 21st year as golf coach, has improved both his team and confidence and will lead the team to a better record in the coming season.

The four lettermen are Gary Robinson, scorer from Flem­ ing; Jim Schoffott, a junior from Quincy; Jack Dowdley, a junior from Marion, Ill.; and Steve Hecker, a junior from Carbondale.

Robinson, who captured the Irving S. Cobb Amateur Golf Tournament held at Paducah, Ky., last year, posted a 75.2 average as of March 7 and is second in the nation in golfing under the name for Coach Houlder.

Houlder's expectations are to battle it out with Robinson for the number one spot this year, along with Jack Dowdley, who shot a 77.2 average last year and checked a 77-13-4-1 and 13-5 records, res­ pectively.

Houlder, who captained the NCAA College Division Championship in 1964 and was runner up in 1965, will have another tough schedule this year beginning with Tulane University at New Orleans March 14-15, followed by a charity golf tourney to lightening this year's slate are matches against the University and Notre Dame. Steve Coole, a junior from Cape Girardeau, a sophomore from Stesaret, will round out the eight-man lineup. Coole worked his way into the starting lineup late last season posting a 75.3 average and 4-0 record.

Every even and eighth spot will be filled by either Mike Johnson, Dennis Kortemp, Terry Tash, or Robb Cofield. All are sophomores.

The linkmen, who have been victorious in 64 of 65 matches, will play two matches at Crab Orchard. Starting time for the two matches will be at 1:30 p.m.

Lincoln Goes to Bills

With Lincoln, halfback for the Sand Diego Chargers, has been traded to the Buffalo Bills in an American Football League deal, Lincoln will play a different style player with the Cleveland Browns, receiving defensive end Tom Day.

The Saluki swimming team, after what Coach Ray Essick called "a great weekend of trials", headed into the bidding for the NCAA championships March 23-25. Essick feels SIU will do better in the finals than in the past.

1,000 Student Tickets Available If SIU Wins

SIU was allotted 1,000 student tickets for the semi-final SIU Trackmen Take 5 Points in NCAA Meet

Five NCAA records were set and three more were tied at the NCAA Indoor Track Meet in Detroit, Mich., over the weekend.

The Salukis managed five points in the meet which put them in the tie for 23rd place. Oscar Moore finished third in the 2-mile run which was won by Gerry Lindgren in Washington in record-breaking time. Lindgren ran the event in 3:34.7, which broke his old record of 3:34.7 set in 1965.

Gerry Pearson, a senior from Rockford, will swim in the 200-yard breaststroke with Kimo Mitchell, a senior from Honolulu, entered in the 200-yard butterfly. Both have been National finalists in the past.

Ed Mossotti, a junior from St. Louis, will swim the 50 and 100-yard freestyle.

Also entered in the NCAA meet are the SIU's 400 and 800-yard freestyle relay teams, consisting of Mossotti, Scott Cook, Don Shaffer and Rich Everett. The 400-yard team broke the school record this weekend in practice with a time of 3:15.3, breaking the old record of 3:16.7 set in 1965.

Over the weekend prior to the time trials, SIU was victorious in the 1967 Senior Men's Central AAU Championships held at Deerfield. Scoring 111 1/2 points, the Salukis set five meet records.

Campus Lake Off Limits For Swimming

Swimming is not yet permitted on Lake-on-the-Campus, according to the Student Activities Office. The office said that due to recent warm weather, some students were swimming at the beach.

The beach is scheduled to open Monday, May 1. Swimming is not permitted at the beach unless a lifeguard is on duty.
