Workers Queried by Reformers
For Possible Recommendations

Approximately 3,500 questionnaires were distributed with student paychecks Friday by the Senate Special Committee on Student Work Reform.

John Foose, head of the committee, explained that the questionnaires dealt with present working conditions. He said the results would be used to make recommendations to the Student Work Office.

Colford Named Commissioner for Election Thursday

Three candidates are running for the lone senatorial position at Thompson Point. They are Robert Richardson, Independent; Jana Ogg, Independent; and Darrel L. Colford, Action Party.

Of the six candidates for the East Side dormitories area, three will be chosen. The nominees are: Michael Huneke, Independent; Thomas Winke, Independent; and Darrell Vandersmuehle, Independent; John Ha­ney, Independent; David Haasmann, Independent, and Sara Kirs, Action Party.

Two senatorial positions at University Park will be selected from the three candidates. Candidates are Mike DeDoncker, Action Party; Scott Ratter, Independent, and Donald Keen, Independent.

The four candidates for the East Side non-dormitories area are Bill Gaa, Action Party; Stuart Unger, Independent; Robert Bangle, Independent; and Chuck Mufich, Independent. Only one candidate will be elected.

The West Side dormitory area has eight candidates seeking six senatorial positions. The candidates are Bob Blanchard, Action Party; Cheryi Lammy, Action Party; Dale Boaright, Action Party; Campbell McHugh, Action Party; Jerry Collard, Independent; Tommy Collier, Action Party; Russ Cowles, Independent; and Steve Collier, Independent.

Jim Baker, Action Party; Jerry Paluch, Action Party; and John Singletery, Independent, are the three candidates for the West Side non-dormitory area. Two of the three candidates will be chosen for positions in the senate.

Of the eight candidates running for the positions of Com­muter senator, six will be elected. They are: Robert Dar­tie, Tim Gorman, Virgil Nie­man, John Nystedt, Jim Sel­ber and Paul Wheeler, Action Party; Dennis W. Nix, Independent, and Louis Sauer, Independent.

Jazz Unlimited Confusion Results
Saturday From Location Conflict

The complaint underlying the confusion was that the workshop interfered with the scheduling of the opening of the Oasis dinner Inc.

The workshop, which started three hours after 6 p.m. and was to be held in the cafeteria tentatively, is scheduled to last from 2 to 4 p.m. The dinner line in the cafeteria opens at 4:30 p.m. Because of the crowd at the workshop, according to Dougherty, the program is beginning to cause management problems.

Pope explained that one of the managers at the center inter­rupted the program last fall quarter and complained that the çalışmalar were un­authorized.

Gus Bode

Gus says he is not sure he wants to help close down the University with a strike. After all, it's no fun to cut a class that is not meeting.
America in Over-Sensitive Era, Says Women's Air Force Head

The national director of Women in the Air Force (WAF) feels that the country is going through a strange period in which we are afflicted with self-doubt. We are over-sensitive. We are too critical," she said.

"I believe we are beginning to feel that America in the LSD era and the Vietnam war is an era of the greatest contribution to the social, moral and economic growth of this country," she said. "I believe that the college women are the "ones who are going to be making the greatest contribution to the social, moral and economic growth of this country.""

Opportunities for women are challenging," she said, "and the future belongs to the man or woman who knows how to meet these challenges. It is not for the woman who cries for help when there is a problem.

"Opportunities for women are challenging," she said, "and the future belongs to the man or woman who knows how to meet these challenges. It is not for the woman who cries for help when there is a problem.

Train Accident Strands 600 Passengers for Three Hours

Approximately 600 Illinois Central passengers were stranded in Carbondale for three hours Monday when a train mishap at Marissa, Ill. brought IC rail traffic to a halt. Harry Koonce, IC district superintendent, said the City of New Orleans and the City of Miami trains were delayed between 12:40 and 3:30 Monday afternoon due to a train-truck accident at Marissa.

According to Koonce, the IC’s No. (10) train from St. Louis, one of which the IC announced last week that it plans to discontinue, collided with a truck at a railroad crossing. The truck driver died in the accident, Koonce said.

Koonce said that the stranded trains were cut at Walnut Street in order to prevent traffic congestion at the crossing. Monday’s delay was the second lengthy tie-up to hit the railroad in less than 24 hours. Early Sunday morning IC trains operating between Chicago and New Orleans were held up for as long as nine hours when the railroad’s Panama Limited jumped the tracks near Dyersburg, Tenn., injuring seven persons.

Art Show Opens

Selections from the permanent arts collection of SIU are now on exhibit at Mitchell Gallery until December 15. The exhibit is composed of approximately 35 pieces of art in various art media. Displays range from art in the 1800’s to modern art.

Hours for the display are: 10 a.m. until 4 p.m. on weekdays, 9 a.m. until noon on Saturday, and 1-9:30 p.m. on Tuesday.

IC Poll Set By Chamber

The Carbondale Chamber of Commerce will conduct a poll among its membership to determine reaction to a new report on the Illinois Central’s plans to cancel all passenger service between St. Louis and Carbondale.

Harry Weav, executive director of the organization, said a questionnaire will be drawn up at the Chamber’s board meeting Thursday. Weekes said the questionnaire will be administered as soon afterwards as possible.

Chamber President Harry Koonce said that the Chamber has received little reaction from the general public concerning the IC’s decision. The IC’s district superintendent in Carbondale, Harry Koonce, also said that he has received few opinions, "either good or bad locally" concerning the railroad’s move.

Stevenson to Lecture, Workshops Scheduled

Adlai E. Stevenson III will deliver a lecture in memory of his late father at the Young Democrats meeting at 8 p.m., in Ballroom A, Bldg. 466 of the University Center.

Department of Chemistry will sponsor a seminar by William Parrish of Phillips Laboratories on "Lunar X-Ray Analysis Methods" at 4 p.m., today in Parkinson 204.

The Forestry Club will meet at 7:30 p.m., in the Agriculture Building, Room 466. The Safety Committee meeting will be held at 10:30 a.m., in the Agriculture Seminar Room.

"Rights" and "Power" meetings, an open hearing on student rights, will be held from 8:30 to 9:30 p.m., in Room E of the University Center. Presidents' Scholars will meet at 7:45 p.m., at 807 S. Oakland.

The Egyptian Area Group Motorsclers will meet from 10 a.m. to noon, in the Morris Library Auditorium.

Community Development Services will meet from 9 a.m. to 4 p.m., in Kaskaskia and Missouri Rooms of the University Center.

The University School Gym will be open for recreation from 4 to 6:30 p.m., and the University School pool will be open for recreation from 1 to 8 p.m.

The Department of Theatre play rehearsal will be held at 8 p.m., in Parker Auditorium of University School.

The Psychology Faculty will meet at 1 p.m., in the Seminar Room of the Agriculture Building.

The Department of Physics seminar on Quantum Scattering will be held from 7:30 to 9:30 p.m., in Wham Education Building Room 212.

A Dieticians Workshop will be held from 8 a.m. to 5 p.m., in Ballroom B of the University Center.

Richard Larry Miller, a visiting lecturer in Design, will speak on "Role of Tension Structures, Case Study; The German Pavilion at Expo '67" from 8 to 10 p.m., in Davis Auditorium of Wham Education Building.

The Intramural Wrestling Tournament will be held from 8 to 10:30 p.m., in the Arena.

Student Government will meet from 3 to 4 p.m., and from 8 to 10 p.m., in Ballroom B of the University Center.

The APB Development Com-
mittee will meet from 5 to 6 p.m., in Room B of the University Center. The Sailing Club will meet from 6 to 8 p.m., in Ballroom B of the University Center.

The APB Special Events Committee will meet from 6:30 to 7:30 p.m., in Room C of the University Center. The APB Educational and Cultural Committee meeting will be held from 9 to 10 p.m., in Room C of the University Center.

The International Relations Club will meet from 7:30 to 9 p.m., in Room E of the University Center.

Children, Science To Be Discussed On Radio Feature

WSIU (FM) will feature a discussion on "Why Children Are Turning Away From Science" at 7 p.m., today on BBC Science Magazine. Other programs:

8:37 a.m. Business Review: "International Trade."
12:30 p.m.
1 p.m. On Stage.
2 p.m. The V.D. Epidemic: "V.D. and the Schools."
3:10 p.m. Concert Hall.
6:30 p.m. New Report.
7:30 p.m. Vietnam Perspective.

Channel 8 Slates Interview of Poet, Profile of Konrad Adenauer Tonight

WSIU-TV, Channel 8, will televise an interview with poet W. H. Auden at 9 p.m. on "Creative Poetry." Other Programs:

5:15 p.m. Industry On Parade.
6 p.m. Big Picture.
6:30 p.m. Legacy: "Commit or De-
struct."
7 p.m. An Experiment: "Attack Patterns of Sharks."
7:30 p.m. W-Vu's New: "Viller-
Valle."
8 p.m. Passport 8: Treasure-
"Mummy's Gold."
8:30 p.m. French Chef: "The Potato Show."
9:30 p.m. Biography: "Konrad Ade-
naur."
10 p.m. The David Suskind Show.

By: Interpreter's Theatre
Satisfied Worker

To the Editor:

Generally, I just sit by and think my thoughts. I can't express them publicly; however, I feel I must express my opinion about a student worker union. If force may be used, it would be nice if the students expressed a desire for a union first. I haven't heard many signs of discontent from student workers.

I was a student worker for three years in the Daily Egyptian. Last year brought me to make comments to make about my experience. I know a good many students who have various places on campus, and I have yet to hear any real criticism about their jobs. Most students have a few gripes now and then, but nothing that would justify a union. If students don't like their present jobs, there are plenty of other jobs available.

There would be fewer jobs available, however, if wages were increased, department allocations for student workers much in the same way. Many departments are now using their maximum funds plus federal funds. To reduce this wage increase, students presently making less than $1.50 per hour will be entitled to a substantial wage increase if the minimum wage was increased to $1.00 per hour. How many departments could afford this and maintain an appropriate number of student workers?

Also, I would like to know because of the increase of many working conditions on campus are often poor. I would like to point you that unions always want more and more. They're never satisfied with wages keeping, then prices go up accordingly, then wages have to be increased again. This goes on forever, and people will wake up to the reason for increasing prices? If make no difference where these wages and prices are increased--we are going to have to pay it.

If student workers were polled, I believe it would be found that there are many satisfied students and very few disgruntled ones. I do believe that students understand has enough sense to get practical. Let students keep their jobs and wages. They can earn a higher salary. If they earn the salary, they will usually get it.

Joyce Pauketer

Cast a Ballot

On Vietnam

To the Editor:

It is a shame that someone did not think of this earlier (I hope this is not true).

In our coming election on campus why can't the students voice their opinion on the war in Vietnam for, against, or neutral.

This could be accomplished very easily. If the ballots have not been made up these three opinions could be placed on them at a very nominal cost. If this is not possible then the students could write their vantage piece of paper and drop in the box when finished voting.

I believe many of the people on campus would like to know how the students stands on the war in Vietnam.

Harvey Johnson

A Close Shave

To the Editor:

Shave up or ship out, or have a medical excuse to qualify your beard and still hold your job.

Among the many others who have to have a crew with no hair at all on their faces. This of course gives our campus one personal specialist a good chance to relax and never worry about finding a proctor when a beard is caught in the projector.

Harley Johnson
by Jodkin Lloyd Jones

Heard much about the Great Society recently? I'll bet you haven't. Sometime during the past year the excitement seemed to die out. It has become one of those unfortunate, sarcastic phrases like Wilson's "War-to-End-Wars" or Hoover's "Two-Cars-in-Every Garage." Too much of the talk we see around us is anything but great.

It is easy to blame the inventor of the Great Society slogan who lives across from the gradually emptying U.S. Treasury. But wasn't it simply expressing the grasping druthers of most of us? The late President John F. Kennedy, for all the technicolor promises in his New Frontier, at least asked us to think about what work would do for our country.

The Great Society was the pie-wagon. Nothing, really, was de-mented of us except our votes. There was a lot of high-faluting talk about education, but very little about the sweat that study and training require.

We would eliminate slums by building dozens and building contracts. But too few pointed out that if you throw empty garbage out the windows you can turn Park Avenue into a slum. We would blash poverty away. But the spirit is not cured by a government check.

We were all going to make a lot more money. Inflationary wage settlements are in advance. Skyrocketed prices have been recently hailed from the White House. You don't hear about anti-inflation wage "guidelines" any more. The Administration has now concluded that if the dam is going out it might at least have some fulminating rust.

Too many of us really didn't want opportunity to improve oursevles. The opportunity has improved, so has crime, irresponsible behavior and social commo-

Now Room on Campus for Tyranny

The forthcoming "Student Power Conference," to be held at the Uni-
versity of Missouri on March 21, points up the serious situation that exists on the nation's college cam-
puses today. Essentially, this is the question of who will run the schools, the students or the administrators.

The answer to this seems obvious. There can be no place for student power extremites in responsible college administration. But unless something is done to curb this new concept sweeping campuses it threatens to scorch the foundations of higher education.

This "new force on campus" takes many forms. The most common are protest, direct action and the gamut of irresponsibility, including anti-war, anti-draft and anti-recruitment -on-campus, to name but a few. They have been distributed among their raucosity and juvenility.

Few campuses have been immune to this plague. Across-country sampling shows the college books have been agitating student bodies from the University of California to Harvard, with demonstrations at the Universities of Illinois, Minnesota and Wisconsin and Oberlin College in Ohio in between. Closer to home there have been protests staged at the University of Missouri at Columbia and Washington University here.

The central theme of this "peaceful" violence has been to protest United States presence in Vietnam. Students have held peace marches, burned draft cards and demonstrated wildly against the right of Dow Chemical Co., manufacturer of napalm used in the Vietnam war, and the military services to recruit personnel on campus. At Oberlin a gang of unruly students held a Navy recruiter captive in his car for more than two hours.

Now comes the frosting on the students' half-baked cake. At South- ern Illinois University in Carbondale a radical element is agitating for complete student control over all disciplinary matters. These are incredible demands. What Lenin and his cohorts want is nothing short of running the school. It's an attitude more appropriate in a kindergarden than a college.

Any consideration of this student power grab is unshakable. When student conditions get to the point where they threaten responsible administration of a school, something has to give. In this case we suggest that something be Lenin and his crowd. If they don't like the situation at SIU—which has made remarkable progress in higher education in the past few years—to take its proper place with the finest academic institutions in the Midwest —let them go elsewhere, if any other school wants them.

At the first sign of Lenin calling a student labor strike, the university should seriously consider expelling him and any other ringleaders who would cripple higher education with their selfish student power play. A more reasonable attitude toward the new student militancy is that of Michael L. Hughes of St. Louis, student body president of the University of Missouri campus here.

In a letter to the head of the National Student Association, sponsor of the conference, Hughes protests the use of NSA funds for the conference, properly pointing out that it could prove harmful to a majority of students in the country. He questions that attentism by the NSA on the concept of student power are truly representative of the democratic thing to do. He feels that Hughes is right, and that the NSA should at least try to identify those of the average student. We also concur with him when he says that the NSA is "now a show of responsibility." Policy making at the university level must be left to the school administration. If students want a voice in affairs let them speak through designated representatives, not through demonstrations. There is no place in higher education or anywhere else for the tyranny of the minority over the majority.

St. Louis Globe-Democrat
**SIU Finds Hobbits Fun**

**Tolkien Play Takes Fans to Middle Earth**

By Tim Ayers

It seems to be a case of either liking hobbits, ents, elves and wizards or not liking them. For those who do like these characters of J.R.R. Tolkien, the Interpreters' Theater presented an excellent adaption of "The Lord of the Rings" trilogy.

Those who are not inclined to such creatures may have been a little bewildered at how intently the true believers followed their heroes through Rivendale, the Mines of Moria, Isengard, Rohan and the terrible Mordor.

Credit for this journey goes, of course, to the author, Tolkien. But equal credit should be given to the masterful adaptation by Mrs. Marion Kleinau, director of the Interpreter's Theater.

Mrs. Kleinau had the task of directing a cast of 1200 pages of material into a workable script. She wisely chose to stick to the important story line and did not become sidetracked on interesting but unimportant hobbit habits.

Even sticking to the bones of the story, however, the play ran for about six hours. The production was split into nine acts on three consecutive nights.

Mrs. Kleinau, who was an SIU Representative in Jewelry Show

Two SIU faculty members and four graduate art students have worked on the "Jewelry Today" national exhibit and competition in Scranton, Pa. The exhibition runs throughout the month of November.

The participants include Brent Kington, associate professor of metal smithing; Mike West, assistant professor of English; students Edna Kaufman, Sid Rennels, Mary Lee, and Marc Zelmanoff. All are studying metal working under Kington.

Miss Lee, a graduate assistant in the art department had a one-man show of her work at the Craft Alliance Gallery in St. Louis.

**Co-op Food Drive Planned for Area**

Alpha Kappa Psi and Pi Sigma Epsilon business fraternities at SIU will conduct a Christmas benefit food drive throughout Carbondale Friday to 9 p.m. today and Wednesday.

Fraternity members will solicit canned goods for distribution to needy residents in the area. The drive will be conducted with the cooperation of the county welfare board and local clergymen.

Food will be distributed after Thanksgiving from a list provided by the board members and clergymen.

**Get your bumblebee degree**

Enroll in one of three exciting classes. Charger R/T, Coronet R/T or Dart GT Sports. Each has its own distinctive sporty style, but all three have a lot in common. Like automatic transmission, wide-tread red line tires, special handling packages, and a long list of other standard and optional features.

**Dodge Charger R/T**

To help you make the grade, the standard engine for the Scat Pack include a 340-cu-in. V8 for the Dart GTS. And for Charger R/T and Coronet R/T, a 440 Magnum V8. Or for a more accelerated course, you can order the optional 426 Hemi.

**Dodge Dart GT Sport**

All three members of the Scat Pack offer distinctive glistening marks at no extra cost. Bold bumblebee stripes wrapped around the rear, or rallye stripes along the side. Or if you prefer to be a little more modest, no stripes at all. It's your choice. Ready for class? With the Scat Pack, you've got it. Why not sign up at your nearest Dodge Dealer's and get your Bumblebee Degree, today?
Weather Delaying Construction

Forest Science Laboratory
To Be Finished Next July

Bad weather has slowed construction of the new federally-financed Forest Science Laboratory somewhat, according to project superintendent Clifford LaBelle.

LaBelle said, though, that he hoped to have the building completed by July 11, 1967, the completion date set by the government.

"We've had 15 days of rain so you can figure about 30 days of lost time," LaBelle said.

"We're not progressing the way the government wants us to," he added, "but then the government doesn't make the weather."

Earl St. John, forest research director at SIU, said that the building will provide much-needed improved laboratory and office facilities, which are now housed in the Agriculture Building. The building site is adjacent to the Daily Egyptian building.

LaBelle said that he hoped the construction of the basement walls would be completed by the end of this week. After the walls are complete, the basement and then the first floors, both of concrete, will be laid.

According to Merz the first floor will be completed by June 26.

"The wood for the first floor is all pre-finished," LaBelle said, "and can be ticklish to work with."

"The plumbing and electrical constraction has already begun," the superintendent added, "and we should be able to do some work during the winter."

SIU Study Shows Importance
Of Agricultural Job Training

On-the-job training is an extremely valuable part of the two-year educational program in agriculture which is offered by five junior colleges in Illinois, as shown by a recent SIU study.

Eugene Wood, assistant dean of the SIU School of Agriculture, conducted the study. He and his colleagues are encouraging employers to offer on-the-job training stations aboard which students can earn credit for their work.

In fact, more than one-half of the 38 graduates who completed Joliet Junior College's one-year agricultural program in 1966 remained as permanent employees at their on-the-job training stations after graduation.

Starting its program in 1964, Joliet was the only school in the study which had experienced such a high rate of placement.

Wood contacted 131 students who had completed their first year in the programs at the other four schools, which are located in Canton, Chicago, Danville and Mt. Carmel. At that point, the students had completed at least one-half semester of on-the-job training and a maximum of one and one-half semesters of college work.

These students rated their on-the-job training slightly higher in value than their classroom work, but they felt that the academic training was a primary factor in their success as on-the-job workers. Student workers seemed to agree that they had the opportunity to gain a broad experience in the total operation of the training station.

The Joliet graduates also were asked to evaluate the various activities in the programs which they had completed. Like the continuing students, they rated on-the-job work experience first and classroom work in agriculture a close second.

Each junior college offers programs in at least one of the areas of agricultural supplies, mechanization, production, or ornamental horticulture.

Sample ballots
for fall Student Senate Elections
Thursday, November 16, 1967

- DIVIDING LINE for East and West Side is the Illinois Central Railroad Tracks.
- COMMUTER is defined as residing with parent or guardian, or living outside the city limits of Carbondale.

Commuter
Vote for six (6)

- Action Party
  - Harry Curtis
  - Tim Gorman
  - Virgil Nieman
  - John Nyestedt
  - Jim Seiber
  - Paul Wheeler

Unaffiliated
- Dennis W. Nix
- Louie Sauer

Eastside Dorm
Vote for four (4)

- Action Party
  - Sara Kiss

Unaffiliated
- John Haney
- Mark Victor Hansen
- David Haustmann
- Darrell Vandermeulen
- Thomas E. Winstki

Eastside Non-Dorm
Vote for one (1)

- Action Party
  - Bill Gasa

Unaffiliated
- Jana Ogg
- Robert L. Richardson

Thompson Point
Vote for one (1)

- Action Party
  - Jack Seum

Unaffiliated
- Stuart Unger

University Park
Vote for two (2)

- Action Party
  - Mike DeDonker

Unaffiliated

- Russell F. Davis
- Kathleen Jarema

West Side Non-Dorm
Vote for two (2)

- Action Party
  - Jim Baker
  - Jerry Paluch

Unaffiliated
- John Lee Singleton

If there should be any change or alteration of these sample ballots, please contact the Student Government office immediately in Room G, University Center, or phone 3-2002 or 3-2625.

Darrel L. Colford
Election Commissioner
Richard Karr
Chairman-Student Senate
In U.N. Debate

UNITED NATIONS, N.Y. (The Associated Press) — The state of Israel was being tried again Monday for the second time in a week in an International Court following charges of violating international law.

Israel's Foreign Minister, Abba Eban, said that if the court found Israel guilty of violating international law, it would be a just punishment.

He said, "It is an important and necessary step in the process of bringing us closer to peace."

Israel's withdrawal from the occupied territories would be a clear indication of its commitment to the terms of the peace agreement.

Edward B. Johnson of Seattle, Calif., who was the American representative at the court, said, "The United Nations is a court of law, not a court of public opinion."

The court is expected to deliberate for several weeks before reaching a decision.

---

Prisoners of War Return

NEW YORK (AP) — Three U.S. Army sergeants returned to their homeland Monday night after long months of Communist captivity in Vietnam. One of them had been a prisoner of war for more than four years.

The Viet Cong released the trio over the weekend and they were flown to Beirut, Rome and Paris before arriving at Kennedy airport.

The three, S. Sgt. Edward B. Johnson, S. Sgt. James E. Jackson of Talbotton, Ga., and M. Sgt. Daniel Lee Fitzger of Spring Lake, N.C., were one such group, the justice system had been unable to free them.

---

Right to Counsel Expanded

In Supreme Court Ruling

WASHINGTON (AP) — The Supreme Court has rejected another appeal Monday in a case involving the right to counsel in criminal proceedings.

The court ruled that the accused was entitled to counsel at every stage of a criminal proceeding, but that the right was not absolute due to the interests of the state.

In a decision in the case of United States v. Wade, the court held that the accused was entitled to counsel at all stages of the proceeding where substantial rights of the accused may be affected.

Justice Thurgood Marshall wrote in his first opinion for the court.

"The right to counsel in criminal proceedings is a fundamental right," he wrote.

"It is a right that cannot be denied to the accused without violating the principles of due process of law."
Viet Cong May Seek Coalition Government

SONG (AP) — There are signs that hardpressed Viet Cong leaders may be preparing to seek negotiations with the Saigon regime with the aim of setting up a coalition government.

Newly recovered Communist documents indicate the Viet Cong are trying to seize strategy for themselves in the South, and that they have put themselves in a stronger bargaining position.

All these intelligence reports appear to bear out this strategy, a classic Communist maneuver.

So, according to reports, Vietnamese Maj. Gen. Nguyen Van Manh, talking with a reporter, predicted: "The Viet Cong will start negotiations soon."

Manh is commander of the 16th Division in the 4th Corps, which embraces the Mekong Delta, long considered a strong Viet Cong stronghold.

Manh said his prediction was based on documents recently centrally seized by South Vietnamese troops.

One document disclosed the Viet Cong plans to isolate and capture two provinces north of the capital, on the border of Cambodia.

The document was a directive issued by the Viet Cong's high command, known as COSVN, Central Office of South Vietnam, based in Tay Ninh Province.

This directive disclosed plans to launch largescale attacks in Phouc Long and Binh Long provinces by Communist troops infiltrating from Cambodia.

The provinces would be occupied, the directive stated, for the purpose of entering into negotiations with South Vietnamese leaders in the later stages of negotiations, according to the plan, the troop buildup would continue in both provinces.

If the negotiations failed, Viet Cong troops in the two provinces would be ordered to occupy Saigon, 60 to 80 miles to the south.

As far as could be learned, the communists have approached, either official or clandestine, for talks.
Thursday's Convocation to Feature French Singer Charles Aznavour

French singer and song-writer Charles Aznavour, who Newweek says is the friend of the sentimentalists while the foe of the overly respectable, will perform in the University Convocation, scheduled Thursday at 10 a.m. and 1 p.m. in Shryock Auditorium.

Aznavour, who won the critics' acclaim recently by his song "She and He's," will be presented during a two day, three-performance weekend at Carnegie Hall, will present a medley of songs, all of which he wrote himself.

Singing in both English and French, Aznavour has developed a style which sets him off among the modern romantic lyricists. "He is never a seducer, never a promiser of thrill or secret, sophisticated pleasures..."

Action Party Parade Set

The "She and He's" will play for the Action Party parade at 7 p.m. today as part of the fall election activities.

Beginning in the Technology Building parking lot, the parade will visit off-campus living areas as well as university housing.

In case of rain, the parade will take place at 7 p.m. Wednesday.

Geologists to Present Paper At New Orleans Conference

SIU geologist J.H. Fang and Paul Robinson are joint authors of a paper that Fang will present at meetings of the Geological Society of America in New Orleans Nov. 20-22.

The paper deals with "Direct Determination of the Crystal Structure of Tamarugite."

The material is a non-commercial mineral substance composed of the elements aluminum, sodium, sulphur, hydrogen and oxygen. The discussion will be concerned with the processes the authors used in finding the material's crystal structure in the geology department's X-ray crystallographic laboratory.

Accompanying the two will be geology faculty members George Fraunfelter and John Uggard, and graduate student James Cerven of Pana.

Pair of Experts on Top

Seminar on Justice Featured Thursday

A discussion of "Justice and Punishment in a Free Society" will be presented at SIU Thursday Nov. 30 under the joint sponsorship of the Department of Government and the Center for the Study of Crime, Delinquency and Corrections.

Presenting the topic will be Randall H. Nelson, professor of government at SIU and a member of the Cardonald City Council, and Anthony Platt, a member of the Center for Studies in Criminal Justice, University of Chicago law school.

Nelson, who joined the SIU faculty in 1955, received his bachelor's, master's and doctor's degrees in political science at the University of Michigan. He is the author of a book, "Primary Sources of American Government," as well as articles in professional journals and currently is preparing a new text on constitutional government.

Platt received his law degree from Oxford University in England and his doctorate in sociology and criminology at the University of California. He is the author of numerous articles dealing with criminal responsibility and mental illness as a defense in criminal trials.

Following the talks by Nelson and Platt, an open discussion will be moderated by Robert H. Dreher, an attorney and professor in the SIU Department of Government and a member of the Crime Center faculty.

The event will be held in Ballroom A of the University Center beginning at 7 p.m. Interested faculty members and graduate students are invited.

Geologists to Present Paper At New Orleans Conference

SIU geologist J.H. Fang and Paul Robinson are joint authors of a paper that Fang will present at meetings of the Geological Society of America in New Orleans Nov. 20-22.

The paper deals with "Direct Determination of the Crystal Structure of Tamarugite."

The material is a non-commercial mineral substance composed of the elements aluminum, sodium, sulphur, hydrogen and oxygen. The discussion will be concerned with the processes the authors used in finding the material's crystal structure in the geology department's X-ray crystallographic laboratory.

Accompanying the two will be geology faculty members George Fraunfelter and John Uggard, and graduate student James Cerven of Pana.

Worked on Expo '67 Pavilion

Architect Medlin to Talk Tonight

Richard L. Medlin, an architect who worked on the German Pavilion which appeared at Expo '67, will be featured tonight in a lecture sponsored by the Department of Design.

Medlin's topic will be "The Future of Light Weight Structures," based on a case study of the German Pavilion. The lecture will begin at 8 p.m. in Davis Auditorium in the Wham Education Building and will include slides along with exhibits of experimental models.

Medlin, project architect in charge of the design and development of the steel cablenet and lattice shell auditorium of the German Pavilion, studied with Frei Otto at the Institute for Light Weight Surface Structures at the Technical University in Stuttgart, Germany.

He is now a visiting lecturer with the SIU Department of Design, working with the senior class on the design and production of a pre-stressed membrane auditorium.

Commenting on the future role of these structures, Medlin says, "In the evolution of urban form, generally progression of sociological and economic institutions has exceeded the physical development of cities.

"Causes include conceptual

Marketmen Attend National Meeting

Dr. John Lowry and Andrew Powell of the SIU marketing department were among the 20 faculty advisers from all over the country who attended a briefing session on marketing management held recently in Lansing, Michigan.

The session was held in preparation for the upcoming marketing team competition sponsored by the Michigan State University Marketing Club.

Imparity of material and non-material aspects of constructed structures and design of great mass and permanence, Continuance of these in today's megalopolitan world of increasing densities and perpetual variation is retrogressive. Waste must be discarded and greater economies of material, work, and time achieved.

"...Nature often exhibits splendid examples of minimum energy expenditure in the performance of a given task. Such a case is the phenomenon of least area and equal surface tension in soap films. Knowledge obtained from soap film configurations can be applied to the design of structures, that approach the limits of current materials and may be variable, expandable, relocatable, and/or mobile...." Slides of Expo '67, taken by other members of the Department of Design, will also be shown at the lecture.

UNIVERSITY CENTER BOOKSTORE

Tuesday, Nov. 14, through Friday, Nov. 17.
Public Exhibit Scheduled for New SIU Museum

Pan American, SIU Museum

To Host Touring Exhibit

The Pan American Organization and the Southern Illinois University Museum will host IBM's touring exhibition entitled "The Bold Tradition-The Art of Mexico" at 8 p.m., Thursday in Room 102 of Old Main.

The exhibition is composed of painting, original prints and Pre-Columbian sculpture from the IBM collection which includes the actual works of Mexico's most famous artists. Included in the exhibition are two colonial works which illustrate an important link between the Pre-Columbian and contemporary Mexican art. The artist's work reflects an influence of the early Post-Conquest Mexico, with a strong flavoring with the modern artists. This period was illustrated by the works of Miguel Najera, Diego Rivera and Rufino Tamayo. The paintings and sculptures are pre-Columbian.

This exhibit features the art of ancient, colonial and Modern Mexico. Pre-Columbian sculptures, drawn from four ancient Indian cultures, illustrate the heritage from which the modern artists developed their bold designs and concepts. Paintings of the coloni al period are regarded as important links between the contemporary and ancient example. The Earth Science Area will contain a center floor or center island display. It is a composite model of geologic features made of paper-mache and painted.

Along the walls of the room will be smaller exhibits showing sections of the composite model out of context. An Earth Science mural will be displayed in the foyer. Special invitations for the reception have been sent to all SIU faculty members and those Carbondale citizens who have shown prior interest in Museum exhibits.

Entrance and exits to the Museum will be at the west side of Old Main across from Shryock Auditorium.

The New University Museum will be open Monday through Friday, 8:30 a.m. to 4:30 p.m., and Saturdays, 2:30 p.m. to 4:30 p.m. The Museum will not be open on Saturdays.

Symposium Scheduled

Education Team Visits SIU Today

A Vietnamese higher education team is visiting SIU through Thursday to discuss educational programs and meet Vietnamese students on the campus.

Do Thanh Nhon, director of overseas studies of the Vietnamese Ministry of Education, Vu Quoc Thong, president of the National Council of Education, Department of Education in Saigon, and Tran Van Tan, dean of Saigon Pedagogy College, will arrive here this afternoon.

A symposium on "What Difference Will Education Make in Vietnam?" will feature these three visitors (tonight) in Morris Auditorium. Alex Reed, chairman of the SIU Animal Industry Department and an original member of the team in Saigon, will moderate the discussion, which is sponsored by the University's Asian Studies Committee. Faculty, students and citizens of local communities are invited.

The Vietnamese educators will meet with Dean Elmer Clark of SIU College of Education and chairman of Departments of Education in Saigon Monday morning. They will visit classrooms of "all living accommodations, physical plant and special projects. Discussion with SIU faculty will involve modifying course content to fit the needs of Vietnam.

Building Boards Used Overseas

Century Board, a dense-wood sheet developed in 1963 by Ali Moslesi, SIU assistant professor of forestry, is not being considered for possible mass production in Switzerland, Italy and India in addition to Tokyo, according to recent magazine reports.

Moslesi developed the board while he was a project leader at El mendorf Research, Inc., of Palo Alto, California, a plywood manufacturer. The company has a license acquired from the research firm for production of Century Board.

Production of Century Board involves pressing a mixture of woodflakes and cement into building materials which are low in cost and durable.

Moslesi joined the SIU faculty staff in 1965.

SOUTHERN DANCERS: A new group at SIU, by W. Grant Grey of the Theater Department. The Southern Dancers, performed Saturday The company will present a major production for a high school classic at the women's gymnasium in February. The 50-member group is directed by Frank Hume.

Blue Cross Blue Shield

Annual Insurance Plan Available

Voluntary Blue Cross and Blue Shield Hospitalization Insurance for SIU students will be available on an annual basis beginning winter quarter, according to Dr. Walter Clarke, director of the Carbondale campus health service.

The present plan allows students to enroll for coverage any quarter they prefer at $3.50 per quarter for single students or $14.70 per quarter for family membership.

The winter quarter plan will cover students from the first day of the 1968 year until the end of the summer quarter, 1968. If students are not on campus for the summer, they will still be covered during the three-month summer quarter. The three-quarters plan calls for a $16.80 charge for the four-quarter coverage.

Family membership covers the husband, wife and dependents except for maternity expenses. The newborn child is then covered from the first day of birth.

The Blue Cross plan helps cover hospital bills while the Blue Shield plan helps pay doctor bills. Blue Cross will give 120 days of full hospital coverage for unrelated illnesses or accidents including rooms, meals, drugs, oxygen, x-rays, radio isotopes, lab work, operating room, physical therapy, basal metabolism, electrocardiogram and electroencephalogram checks.

The Blue Cross plan covers a maximum of $3,000 for doctor's operation charges plus $6 per daily doctor visit for the first five days of hospitalization and $4 per daily visit for the next 115 days. If additional in-hospital medical care is required, the policy holder becomes eligible for an additional 120 daily visits for the same condition after the patient has been out of the hospital 90 days.

A "Florida clause" provides an allowance of $100 for the replacement of sound natural teeth at $100 per tooth up to $1,000 per accident.
Potent Frosh Swimmers to Test Varsity

Friday night is a big one for SIU swimming coach Ray Essick. At 8 p.m. he'll get to see just how good his recent recruiting season was when the Saluki varsity squad takes on the freshmen in an intra-squad meet.

Essick is excited over the prospects of the meet, and with good reason. Only four schools in the United States, Stanford, Harvard, Southern California and Michigan State, recruited more high school All-Americans than did Southern.

Numbered among SIU's choice recruits are Vern Dasch, Florida state trialist, and Steve Hays of Thornridge. Of Friday's meet. He feels Tom Brown's running will bode good for the future of the meet.

The varsity swimmers will suffer from lack of depth throughout the year but will embarrass no one with their performances, according to their coach.

How They Fared

Southern's [football opponents took note of the chin this weekend as only two of them could muster victories while six went down to defeat.

The score of the games, with SIU's future and past opponents in capitals, are as follows:

Southwest Missouri State 20, NORTHEASTERN 13
Cincinnati 13, LOUISVILLE 0, New York State 37, NEW ENGLAND 27
Dayton 7, Miami (O.) 6
Northern Texas 20, Wichita State 14
Wake Forest 31, Tulsa 24
Southern Kentucky 27, Youngstown 11
South Dakota 37, Drake 35

The Lincoln University score was unavailable.

Southern opponents have won 49, lost 32 and tied two this year. The opponents have scored 1,743 points while giving up 1,134. The opposition averages 19.8 points on defense and 13.7 on defense.

The individual breakdown of Southern's opponents as far as won-loss records go is as follows:

North Texas State 6-0-1
East Carolina 2-0-0
Ball State 3-0-0

In the 200 and 400-yard freestyle; Bruce Steiner, Illinois state 400-yard champion from Peoria; Richwoods' High School; Bob Schoo, runner-up to Steiner in the Illinois meet from Niles North; Brad Glenn, one of the country's top prep swimmers from Boca Raton, Fla.; Jim McNaughton of Carl Sandburg High;

Cary Burke, a breast-stroker from Thornton Ridge; Dolton; John Curran, captain of Loyola's Academy's National Catholic Invitational, and Henry Hays of Thornridge.

Although the Salukis were hit hard by graduation last season, the squad still contains some of the best SIU tankers ever.

Ed Mossotti, SIU 500-yard record holder, "is performing as well as ever," Essick said.

Phil Tracy joins this pair in the sprint. Ron Coghlin is back in the butterfly and Bill Noyes will swim the distance events. John Holben in Essick's only breast-stroker.

Jerry Hutton, another butterfly, will also swim the individual medley. Sophomore Tom Ulrich is SIU's lone back-stroker.

The 200-yard free event will get a big lift from Gar- Schloesser, of Miami, Fla., another former high school All-American. He holds the record for 200 yard.

The Salukis will be weak in the backstroke, individual medley and breaststroke and Essick has no eligible divers. Due to loss of points in these events, through lack of competitors, Essick said the Salukis will face some problems in dual competition.

But with the quality we have, particularly in the freestyle events, we should be a good multiple meet team," he said.

"I'm sure—we'll get a good indication Friday night of how good we'll be. The kids are really excited about this meet. They've been looking forward to it since the first practice at the beginning of fall quarter.

The meet will be held at the University Swimming pool.

Alley Cats Control Top Spot

In Bowling League Standings

The Alley Cats took three points from University Center to take the lead in the Faculty-Staff Bowling League. Relub moved into a second place tie with a four-point sweep over Chemistry.

Team honors went to the Dutch Masters with the high average of 2,890 and to Mathematics with the high game of 1,026.

Robert Stokes of the Alley Cats recorded the high individual game with a 234 score and high individual series with a 756.

Current league standings are as follows:

Alley Cats 18
Allied 16
University Center 16

Rehab 16
Dutch Masters 12.5

Jazz Sessions Go On

(Continued from Page 1)

the attendance was growing too large to be accommodated by the cafeteria and it may be necessary to set up a time for the workers to set up better facilities for the meal time for the workers to set up the cafeteria for dinner.

Rogers added that he too felt that the workshop was beginning to outgrow the cafeteria facilities. He said the difficulty is making a transition from the program to the opening of the dinner line. "They (customers) were getting their trays and complaining into a situation that wasn't very appetizing," Rogers said.

Again this year, Pope said, the Southern Illinois University staff and was told to end the workshops as early as possible to allow the workers to set up the cafeteria for dinner.

Pope alleged that the cafeteria staff was upset this year by the irregular scheduling of the workshop during homecoming week. He stressed, however, that this particular workshop, which was scheduled from 4 to 6 p.m., was approved by Dougherty, the Activities Programming Board and Student Affairs prior to its presentation.

Nevertheless, Pope said, because the complaint has been registered and the group has been unfairly barred from further use of the cafeteria, he will meet with Dougherty in hope of making arrangements to continue the workshop in some location.

Ron Rogers, food service manager at the center, said, "I don't think the program is a good program and I think there is a need for it." He said he had some suggestion as to where it could be held.

**Luckless Salukis Collared by Ball State, 24-6**

If you wonder why the Saluki football team may be afraid of flying objects, it may be because five of the team's seven losses have come at the hands of teams which use other flying objects for nicknames.

The latest defeat came at the hands of the Ball State Cardinals, who defeated the Salukis Saturday by a 24-6 score at Muncie, Ind.

Other "flying" defeats have come at the hands of the Louisiana State Cajuns, the Dayton Flyers, North Texas State Eagles, and the Youngstown Penguins.

The loss to Ball State puts the Salukis' record at 3-7 for the season remaining, against Drake University.

While the Salukis rolled up 297 yards in total offense, the Cardinals rolled the Saluki defense for 393 yards, three touchdowns and a field goal.

Of the 393 yards Ball State rolled up, 325 were on the ground. The Cardinals carried the 63 times, with an average gain of 3.3 yards per carry. Ball State threw the ball only eight times.

The only bright spot in the Saluki's attack was the fine job done by sophomore quarterback Jim McKay, who completed 12 of 18 passes good for 146 yards and a touchdown. He had two interceptions.

The TD pass was the first of the season for McKay, who comes from the same high school as St. Louis Cardinal quarterback Jim Hart, and on the second of the season for the Salukis. Tim Kelley threw the other touchdown. The touchdown pass, which accounted for the only Cardinal tally, was a 14-yard toss to Charlie Spallone. The two-point conversion attempt failed, but the score came with about five minutes left in the fourth quarter.

Barry Store handled the real of the Saluki passing and completed three of 10 tosses for 39 yards and one interception. Spallone was the leading pass receiver for the Salukis, as he caught five, good for 72 yards.

John Ference caught four passes for 53 yards. Southern's rushing attack, usually the strong suit of the Salukis, could muster only 112 yards for the game.

Charlie Pemberton was the leading rusher for SU, with 41 yards in 10 carries. The Salukis rushed a total of only 35 times during the contest, as compared to their average of carrying the ball 47 times coming in to the Ball State contest.

The Salukis did not fumble the ball during the contest, the first time this year that they have done. They did recover three Cardinal fumbles, but could not turn them into scores.

**Soccer Club Downs Sycamores**

Junior forward Ali Mozafarian scored two goals as SU's Soccer Club coasted to a 4-0 victory over the Indiana State Sycamores Saturday on a rainy-soaked turf.

Both Mozafarian's goals came in the third quarter and propelled the Salukis to a 3-0 lead which the visitors never threatened. The scores were his fourth and fifth of the season, tops on the club.

Utilizing a 4-2-4 formation, similar to the one used in the victory over St. Louis earlier in the season, the Salukis maintained almost constant ball control leading to their eighth victory and eleventh straight match with no defeats.

It was also the Salukis' and goalie Wally Halama's fourth consecutive shutout, a club record. The club has not been scored on since their season opener against St. Louis.

The muddy field was a major factor throughout the match. Indiana found the field at the half when a second Jud Schaenzer were co-winners of the award.

The match was tied 0-0 at the half when a second Jud Schaenzer were co-winners of the award.
