Two more escaped convicts captured

By Pat Cercoran
Daily Egyptian Staff Writer

SALEM - Two more convicts who escaped from the Marion Federal Penitentiary, were captured near Salem Monday night.

They have been identified as Maurice Joseph Philion, 40, of Oakland, Calif. and Edward Terrance Roche, 39, of Katonah, N.Y.

The two men were captured within an hour of each other. Roche was captured by FBI agents and Clinton County Sheriff Gerald Dall of Carlyle at 600 S. Marion St. in Salem about one mile east of the spot where Philion was arrested earlier.

Philion and Roche were among five convicts who escaped from the maximum security prison Friday night. Another, Arthur Mankins, was captured Sunday, and two are still at large.

Roche was apprehended within minutes following the FBI agents caught him.

Larry Sill of Kimm, a volunteer of the Marion County Sheriff's Department, apprehended Philion at about 8:30 p.m. Marion County Sheriff Norman Rose assisted in the capture.

The capture took place one-half mile east of Salem on the Hallice Lewis Highway.

"He (Philion) had walked up to two houses and had tried to get water. Residents at both houses called the police," Salem Patrolman Michael Murphy said.

Neither of the two men were armed, police said.

Marion County Sheriff Jeff Sanders said Marion prison authorities are on their way to pick the men back up to the Marion prison. Two convicts as yet unidentified and police said they may be armed with a 22 caliber rifle.

Philion had not said Monday night where the other two convicts were. Before the escape, Philion was serving 50 years for bank robbery.

Police have been continuing to search for the men, as yet unidentified, who may have been transformed into an armed camp, since Sunday afternoon.

Buck said that said that church services were canceled Sunday morning.

Buck said he was awakened by the noise of gunfire shortly after 4 a.m. Sunday.

Buck said when he first heard the noise he grabbed his .22 caliber rifle and checked the doors of his house.

"When the Marion County Deputy Sheriffs pulled up in the driveway, I went out to see them. They got the drop on me and told me to drop my weapons," Buck said.

"It was just happy to see the law," Buck said.

Five convicts escaped the prison, but one was captured Sunday morning after their stolen car ran into a ditch near Salem, about 75 miles east of the penitentiary.

According to an Associated Press report, a Salem policeman, pursuing the car when it crashed, believed he had injured one of the four convicts with a shotgun blast as they fled the car. But police are now discounting that report.

The convicts captured Sunday was identified as Arthur T. Mankins, 37, of Germantown, N.C. He was serving a life term for murder. His leg was injured when the car crashed.

The convicts used an electronic beeper, made by one of the escapes in a prison workshop, to open the electric locks on the prison gates Friday night.

Illinois state police have roadblocks at all major intersections and interchanges on Interstate 57.

The two other escapes are Henry Gaggans, 40, of Chicago, sentenced to 199 years for bank robbery and murder, and Dennis D. Hunter, 36, of Salem, Ohio, serving a 25-year sentence for kidnapping, assaulting a federal officer and escape.
Collective bargaining votes still unrecorded

By Louise Sobota
Daily Egyptian Staff Writer

Herbert Donow, Faculty Senate president, said it would be difficult to count to a conclusion in the next week or two, because of the results of the senate referendum.

Donow said it will still report the number of ballots which are in the Senate box, but when the Senate meets at 3:30 p.m. in the Student Center Theses Room, but the final tally on the collective bargaining vote will not be available until Thursday.

"Undoubtedly someone will ask the question, "How do we know what the vote is now," Donow said. "I don't know what the direction the senate will take."

Donow said the senate may hold a special meeting after the ballots are counted, but does not expect the senate to take any action then.

Ballots were mailed to the faculty Oct. 6, asking whether they agree or disagree with collective bargaining.

The Faculty Senate is also expected to discuss an equity model for SIU designed to equate salaries for faculty members based on a rank, title, degree and time at the University.

The equity model was discussed at last month's meeting, but senators requested that it be replaced on the types of persons receiving equity raises before taking any action.

Swinburne considers van scheduling transfer

By Ray Urech
Daily Egyptian Staff Writer

Bruce Swinburne, vice president for student affairs, said Monday that he has considered the possibility of allowing the SIU Transit Service schedule the two Specialized Student Services centers, but it was not discussed with Travel Service officials.

He said that since Transit Service already has the base two-way radius it would take longer to make the switch for the two departments receptors in the vans.

Bruce Bosser, coordinator of specialized student services, said there is "a strong argument" for Transit Service to operate in the two areas in the business, and they have the experience needed.

"I guess my attitude is that the van service is, in some respects, a duplication of service," Bosser said.

"I don't know if Transit Service would be interested in taking the additional load on," Swinburne said.

He explained that Specialized Student Services also schedules the vans to make evening and weekend stops and a transfer to Transit Service "would not still relate that problem."

"I won't say that we have reached a decision not to use the Transit Service," he added.

Harry Wirth, manager of the transit service, could not reach for comment.

Bosser said operating costs for the two vans last year were $43,082. That figure includes approximately $12,000 in student driver wages and repairs.

"I think inflation has made it difficult to operate the vans with the same profit and repairs budget it has this year.

Swinburne said an agreement has been reached that will enable hands-on students living off campus to be picked up in a Campus Transit car.

He said the agreement makes the Campus Transit cars an extension of the Specialized Student Services operation.

An experimental plan to provide transportation for visually impaired and physically handicapped students on campus, begun last week, is being tried as an alternative to the van.

The experiment, which will end Dec. 20, is being funded with a $2700 allocation from the vice president for student affairs, transportation office.

Students must obtain the transit tickets from specialized student services.

U of I to use tuition income to pay university's employs

CHAMPAIGN- (AP) - Several thousand U of I employees will be paid next Wednesday from a special fund, President John E. Corbally Jr. said Monday.

A U of I to take some money to pay the university's payroll. The fund is made up of tuition income paid to the university by students who are not employed at the university.

"We are taking the money and putting it in the payroll," Corbally said.

"I think it's a program that would tax the wealthy hardly it would tax poor people," Corbally said. "And it would mean that the people who pay the taxes that support the university is not being eroded in quality."

Corbally said the federal government cannot be expected to provide more money.

Sarinbourn considers van scheduling transfer

Panamanian crew questioned about mutiny

WEST PALM BEACH, Fla. (AP) - U.S. immigration officials interrogated five survivors of a sudden Panamanian ship Monday trying to piece together details of a mutiny and death at sea.

Meanwhile, three nations tried to resolve the question of who has jurisdiction in the incident, which claimed the lives of five Americans and a Panamanian officer.

Louis Gidel, deputy regional director of the Immigration and Naturalization Service in Miami, interrogated three of the survivors - four of the survivors - four Indonesian seamen and a Filipino cook - as the suspected mutineers of the M/T Love, a Panamanian Armed Forces patrol boat. The crew of the M/T Love, a Panamanian Armed Forces patrol boat.

"No one has been charged," he said.

The five survivors were identified as Indonesians Malik Abdul, Paulus Heyman, Syamsul Hidayat, Syamsul Hidayat and a Filipino cook.

The cargo ship M/T Love sank northeast of Cuba on Saturday, and the five crewmen were later spotted by a U.S. Coast Guard search plane and rescued. The vessel's four West German officers were never found despite an extensive search.

News Roundup

Three right-wing Peronists shot in Argentina

BUENOS AIRES, Argentina (AP) - Five youths walked into a restaurant and machine gunned a woman and two union bodyguards to death Monday in the latest in a series of political violence which has claimed at least 113 lives in eight days.

The woman and the bodyguards from the powerful Metalworkers Union, a right-wing Peronist union, were killed in a restaurant about 20 miles south of Buenos Aires.

The army released a communiqué saying two more guerrillas were shot dead Sunday in mountain warfare against the People's Revolutionary Army near Reconquista.

Leaders of the Peronist movement, meanwhile, finished plans for a massive rally to show support for Isabel Peron, expected to resume her presidential campaign on Thursday.

Ford approves Sinai warning stations

WASHINGTON (AP) - With little advance notice, President Ford signed Monday a congressional resolution authorizing American civilians to man early warning stations on the Sinai Peninsula.

In putting his signature on the document that cleared Congress last week, Ford declared, "I reaffirm that today we will not accept stagnation or stalemats in the Middle East."

With photographers and reporters as his only witnesses, Ford said the United States must continue its diplomatic efforts with the nations of the Middle East "in order to prevent the momentum toward peace generated by the Sinai agreement.

"Regrettably, the film and recorded for later use in news broadcasts.

"Ford calls the Sinai accord between Israel and Egypt "a significant step toward an overall settlement in the Middle East."

But, said Ford, "the nations must use this event as an end in itself."

He said there remains a "pressing need for a just settlement of the problems which lie under tension and much unrest in the area."

Philadelphia refinery fire under control

PHILADELPHIA (AP) - An explosive oil refinery fire was declared under control Monday afternoon, but flames still licked into the air and more than 200 firemen continued to pour water and foam onto nearby storage tanks.

The flames at the Atlantic Richfield Co. (ARCO) refinery on the Schuylkill River were confined to an eight-foot trench filled with pipelines that carry oil away from the refinery to 40 storage tanks.

Officials said they did not know the cause of the blaze, which began last Friday and was set to clear up by the middle of April, after the date the rioting started.

Only one serious injury was reported. Mayor Frank R. Rizzo, who had gone to the scene Saturday night, was thrown to the ground by a broken right thigh when he dropped to the ground by a fireman or one of his bodyguards as they rushed to escape one of numerous thundering explosions.

Soyuz crew says space flights worth expense

WASHINGTON (AP) - Crew members of the historic Apollo-Soyuz joint space mission began Monday, after a flight of 58 days, "a second generation" Soyuz spacecraft.

Alexei Leonov telling a Columbus Day audience that the benefits gained from space flight far outweigh the costs.

Leonov told a news conference.

"Whatever expense has been made to accomplish these flights has been brought back many, many times by the profits in knowledge the industries and the country have received," Leonov said.

Leonov, Valerii Kubasov and American astronauts Thomas Stafford, Vance D. Brand and Donald Slayton began their second week tour of the United States by holding a news conference, meeting with President Ford and touring the Washington area sights.

They were feted at a reception at the Soviet embassy Monday night before flying to Chicago Tuesday.

Suez canal to open for Israeli freight

JERUSALEM (AP) - A foreign-registered freighter will steam from an Israeli port next week in the first step toward the resumption of Israeli cargo down the Suez Canal since the 1973 Mideast War, government officials said Monday.

The officials, who are close to Prime Minister Yitzhak Rabin, said the date was for passage of a bill set for April that will permit Israeli-Egyptian contacts undisturbed by the United States.

They did not specify what vessel the route would be opened. The eyes of the Israeli and the cargo would be non-military.

The ship is to disembark from one of Israel's Mediterranean ports - either Haifa or Ashdod - and sail for the Red Sea, bound for an East African harbor, officials said.

The naval route away from Israel was intentional, they said. It was to reassure the Egyptians that the freighter was carrying only non-military cargo.

In both the first Israeli-Egyptian interim agreement, signed in January last year, and the second stage agreement, signed in March, Israel was assured of non-military rights of passage for non-military Israeli cargo through the Suez Canal on third-nation ship flags. The provisions in the first agreement, however, were
Committee to study possible port in area

By Tom Chesser
Student Writer

A three-person Port District Feasibility Committee has been set up to study the possibility of opening a port on the Mississippi River in either Jackson or Union Counties, City Manager Carroll Fry said Monday.

The study will be conducted by Robert J. Ellis Jr., associate professor of economics at SIU, and by Abraham, Moshman and Associates of Rockford.

Ellis said SIU's involvement in the study will include an examination of Southern Illinois industries, demographics of the river area, a study of river wage scale, possible industries and the overall impact of the establishment of a port district.

David Abraham, Moshman and Associates said they will charge with implementation of the study.

A statewide campaign to override Gov. Daniel Walker's veto of two economic relief bills reached Carbondale Monday.

Rep. Wynvetter Young, D-East St. Louis, police to black faculty staff, student... community representatives at a luncheon in an effort to gain support to override the governor's veto of House Bills 1996 and 396 which he sponsored:

House Bill 1996 would appropriate $1.8 million for development of an industrial park in East St. Louis. Support tram that the new park would create at least 3,000 jobs.

The second bill, House Bill 396, would create an authority that would have the responsibility to plan and implement long-range economic development plans in distressed areas in Illinois.

Young described Walker's veto of the bills as being "totally callous" to the needs of the poor.

She said she presented the two bills to do something about the economic plight of the poor in Illinois. The idea of the statewide campaign is to motivate constituents to contact their legislative representatives in the General Assembly to vote to override the veto.

She also asked that all interested parties show support by meeting with her at 10 a.m. Oct. 22 in Springfield when the General Assembly reconvenes.

A three states veto override panel planned to pass the legislation in a decision which will be made by the general assembly by Nov. 3. Young said she is optimistic they will recognize the need for such campaign in the most underdeveloped area in the state.

Speaker advocates Walker veto override

Woman charged with assault

Car driver reports gun threat, loses job

By Scott Bandle
Daily Egyptian Staff Writer

It was a rough Saturday morning for one of Carbondale's Yellow Cab drivers who when allegedly he found himself threatened by a woman with a gun, and after the incident, he repeatedly found himself without a job.

The weather

Mostly sunny Tuesday and very warm. High 86 to 91. Increasing cloudiness Tuesday night and continued warm. Low in the mid-60s.

Daily Egyptian

Published in the Journal-Courier of the University of Illinois, Carbondale.

By John Betts

Venus Manley, 44, 300 E. Elm St., was arrested after she allegedly threatened John S. Menton, 28, 104 E. Jackson St. with a pistol.

Menton was taken to Doctors Memorial Hospital for a broken thumb she reportedly received during a scuffle with Manley for the gun.

She is scheduled to appear in Jackson County Court Nov. 6 to answer the charges of aggravated assault against her.

Menton said after he picked Manley up at the Club Manhattan, 212 N. Washington St., and drove her to her residence, she began to hit him on the head with her hand.

He said he radioed the station and asked the night dispatcher, Tom Betts, to call for the police. Betts reportedly did so.

Another cabbie, who reportedly knew Manley, was also sent to the site to give assistance. Menton said the second cabbie was able to get Manley into her residence, but said she rushed out and grabbed on to the cab's grill.

Menton said they were able to get the woman back into the house. The second cab drove away, but Manley reportedly rushed out again and hung on to the grill work of Menton's cab. Menton said she did not want to leave for fear of hurting her, and he did not drive away.

Mentor later allegedly pulled out a gun and threatened Menton.

By Ron Davis

He said he "called Betts a second time and told him that Betts was too shaken to drive. Menton said he held him at bay for 10 minutes with the gun. She reportedly took off and aimed it at him through the window. He said she grabbed it and broke her thumb getting it away. The police arrived soon afterwards, and Manley was taken into custody.

Menton said when he drove back to the cab station, Betts told him to go out again.

Menton reportedly said no, because the police asked him to wait and give a statement. Menton also said he was too shaken to drive. Betts fired on, "Menton said, for not going out and letting people over the radio during the incident.

However, Ed James, manager of Yellow Cab in Carbondale, said that Menton came in and quit after the incident.

James also said Menton called Betts a name and when Betts got out of his chair pushed him down. Betts then reportedly arrested for assault and taken to the police station. James said Menton called him at home and asked him to have Betts drop charges, which he did.

Menton Monday that he is considering filing a civil suit against the management of Yellow Cab. He said he has suffered "positive damages and mental strain."

James said he doesn't care if Menton stays or goes, because he has two witnesses who could corroborate his story.

Two charged on illegal drug delivery counts

A Grand Tower man and a Lake County man were arrested over the weekend on charges of illegal delivery of a controlled substance, bringing to 31 the number of those arrested in drug raids since Friday morning.

Roger Cameron, 35, of Grand Tower was arrested Friday night by Jackson County Deputy Sheriff Gregg Gillen. Gillen said the arrest warrant was served on Cameron at his Grand Tower residence.

Paul Schranz, 19, of Lake County surrendered to local authorities there Sunday night after being arrested for carrying illegal drugs in a car.

Schranz is a former SIU student, Parmer said, and allegedly said MDA, an hallucinogenic, to MEG agents.

Jackson County Sheriff Don White said all the Jackson County arrest warrants had been served.
No death penalty

By Joanne Hollister

In 1972 the Supreme Court ruled in Furman v. Georgia that "the imposition and carrying out of the death penalty...constitutes cruel and unusual punishment...and...is unconstitutional." The Court's reasoning was based on "freedom" and "selective," "capriciously random" fashion with which the death penalty was actually imposed.

The Supreme Court ruled on laws and procedures for inflicting capital punishment where the courts had "no discretion" to bring in a sentence of life or death.

The eight amendment to the Constitution provides that cruel and unusual punishments shall not be inflicted. Certainly death by hanging, the electric chair or gas chamber is not only cruel and unusual, but immoral as well. The Constitution provides that such punishment is illegal. For any state to enforce such a sentence would be unconstitutional.

Supreme Court Justice Potter Stewart said the death penalty is imposed "not in degree but in kind...It is a renunciation of civilized process of humanity. It is also irreversible. What if one or two persons after an execution is carried out and the real criminal confessed?" If a life imprisonment sentence had been handed down, an innocent person could be set free because the sentence was not imposed.

Science has not yet found a way to return the dead to the living. Families would suffer greatly as well. Not only is capital punishment illegal; it is a partial denial in the selection of its recipients. In Fowler v. North Carolina, criminal procedure can be found to not allow to but to encourage "arbitrary" and "selective" use of the death penalty. For this reason it was found unconstitutional.

In North Carolina, blacks received the death penalty for the same crime as whites according to the Justice Department, whites commit 30 per cent more rapes, murders and armed robberies. Blacks constitute only 21 per cent of North Carolina's population, but 65 per cent of those on death row are black.

The Washington Research Council reported that 42 per cent of blue collar workers convicted of murder were black. If capital punishment were to be removed, the percentage would decrease.

Although an individual's socio status diminishes. The rich have the resources to hire the best legal talent in the nation. The poor don't. Mandatory death penalties are not self-enforcing nor self-administered. They depend for their effect on the dexterity of others who administer the system. They are, therefore, subjective.

Besides the legal aspects of capital punishment, there is something wrong when one person because he murdered someone does not rectify the offense. A life imprisonment sentence has been handed down, an innocent person could be set free because the sentence was not imposed.

No jury or judge has the right to decide if a fellow human being should die. No matter what the crime. Life imprisonment is not a sufficient punishment. Death might be more welcome than having all prison privileges available. 

Rep. Ronald D. Dellums, (D-Calif.) said "We must begin to treat the cause and not the symptoms of crime in our society. We must realize that we will not solve our crime problems through expedient post facts measures and we must begin to attack those factors which perpetuate crime." Racism, injustice and economic inequality must be overcome to combat crime in society.

There can be no condonal death penalty. Mass murderers and presidential assassins, no matter how repulsive their crimes may be, should not be put to death. Mental illness is the prime cause of most of these cases. No one should be sentenced to death because of mental instability. He should be given medical help.

The Supreme Court to this point has left untouched statutes which place the recognition of the death penalty mandatory once an accused person has been convicted of a "capital" crime. The sooner the Court rules on the "death penalty warrants" issue, the more humane and moral we can declare our society to be.

By Jim Ridings

Unless a large amount of money is released from some unforeseen state source, which seems unlikely, it would appear that tuition at Illinois state schools will be going up soon. Some estimates put the increase at as much as 100 per cent by 1968.

A report sent to the Illinois Board of Higher Education (IBHE) by its Master Plan IV committee recommends that tuition for undergraduate students be increased to one-third of instructional costs by 1968. The committee also recommends that tuition for graduate students be one-third higher than tuition for undergraduates.

The actual dollar figure for tuition would be determined according to instructional costs at each college system. Students would then pay one-third the amount arrived upon as their tuition costs. This increase would be staggered up to 1960, when it is expected to peak anywhere from 50 to 100 per cent higher than it presently is.

SIU has a lower tuition rate that the University of Illinois, Northern Illinois University, Eastern Illinois University of Illinois State University. If SIU's tuition rises to an equal level with the large Northern universities, SIU will suffer a drastic enrollment loss. And with tuition at all the state schools at astronomical levels, the notion of elitist education will return. At that point, not only the poor but the middle class as well will be priced out of higher education. Only the rich will be able to attend a university.

In dollars and cents language, just how much more will SIU students be getting for the extra money they are paying? If it can be argued that the tuition increase will only cover the cost of living rise, then it can also be argued that the cost of living increase could be handled by cutting back a few of the more ambitious programs the University has been undertaking. Construction of parking garages, refurbished football stadiums, the co-ree building and presidential homes that cost millions might have to be cut back in these tough financial times, but it's the least the University could do in order to save its student body. After all, the University exists for the benefit of the student, doesn't it? Or is that the other way around?

There are many other ways that full instructional costs can be met without increasing tuition.

Why not cut administrators' salaries? SIU already has a tremendous glut of over-priced administrators in the $25-30,000 a year category for what purpose only God knows. A little financial bloodletting for some of them (and a little financial hara-kiri for a good number of others) would be far better than anything else they could do.

Another place where University monies could be tapped is in the area of fees. The outrageous amount of compulsory fees that is extracted from students could be reallocated towards instructional costs. Fees, for the most part, are presently being spent irresponsibly. SIU's worthless student government, activities committees and enamased football team are just a few examples.

In any event, the mere prospect of any of these suggestions coming to pass should motivate those concerned into advising the IBHE not to approve Master Plan IV.

IBHE has not yet voted on the recommendation of the committee. If the board should vote in favor of the one-third plan, universities within the state would have to make some drastic readjustments in order to pay the bills. Technically, the IBHE cannot force SIU or any other state school to hike tuition.

However, they can coerce the universities within Illinois by granting only enough funds to cover two-thirds of the systems' instructional costs, thus forcing the universities to increase tuition to bridge the gap. The IBHE is reported to be evenly divided on whether to approve or reject the proposal. However, this one-fifth of the money that the IBHE can disperse becomes a total recommendation approval to the plan at its November meeting in Champaign and will then begin a series of public hearings across the state. The final approval of the plan would then come next January.

The IBHE has asked for input from the academic community to be presented at the November meeting. Letters can be sent to Donald Prince, IBHE chairman, Bache Bldg., 118 S. Fifth Ave., Springfield, Ill. Everyone who plans to be in school anytime during the next few years and everyone who is interested in keeping higher education available to the masses at a reasonable cost should express their opinions to the IBHE before their final recommendation is approved.

Alternatives are needed to raising tuition

Only tight security can save Ford's life

By Arthur Hoppe

A knife-wielding, brown-haired, middle-aged woman was arrested at 8 a.m. within six feet of the President before alert Secret Service agents overpowered her and took her to the White House. The woman said her name was "Betty." Asked why she was brandishing the 12-inch-long lethal weapon, she said, "I'm going to try and slice Jerry's English muffin." The Secret Service Agent Home T. Pettibone, "We can't be too careful, you know." The President said he hoped they would release the woman soon. "I'm not used to sleeping in our double bed alone," he said. The Secret Service's new-found alertness was first demonstrated in Chicago last week. A young man tried to catch a glimpse of the President at the Hilton Hotel entrance declined to remove his hands from his pockets. Thomas Weber, 23, was, of course, immediately thrown face down on the pavement, handcuffed and dragged off in a police car. All that was found in Mr. Weber's pockets were his hands. But as Agent Pettibone put it later, "We can't be too careful. In the hands of a deranged, stranger hands could be a lethal weapon." The next dramatic incident, it can now be reported, occurred on the President's return to Washington. An attractive, blonde young woman among the crowd of greeters was jumped on and overpowered by six agents singly-handedly. She gave her name as "Susan Ford." "We can't be too careful," said Agent Pettibone. This young woman was observed pointing an instrument at the President and saying, "Don't take the portrait." Hold still, I've got two shots left, Daddy."

Among the numerous arrests the following day was that of a short, stout man who tried to barge into the White House claiming he was one "Henry Kissinger." "We know this man," said Pettibone. "In the past he's had secret meetings in Paris with North Viet Quando prescribing only and only last year conferred with Communist masterminds in Moscow and Peking."

Besides, you should have heard the language he used when we knocked him down and put him in a straight jacket."

But the closest call came when agents seized a man holding a razor to the President's throat. The man claimed he was the President, it was his throat and he was slicing—all to no avail. "As long as we keep this man in jail," explained Pettibone, "we know the President is safe."

Criminology class survey results reported wrong

To the Daily Egyptian:

The article in the Sept. 16 edition of the Daily Egyptian titled, "Crime class admits to illegal indulgence," by Debbie Absher, student editor-in-chief, inaccurately reported the results of a survey conducted in one of my Sociology 372, criminology classes.

First of all, the purpose of the survey was not mentioned. On page 32 of "Crime in America" in Chicago and Harper's "Delinquents' Crime and Social Process," N.Y.: Harper & Row, 1969, it states that the "study population consists of a large group of law-abiding people and a small body of criminals." However, students feel that most people, when they are asked, remember having committed offenses for which they were not sentenced if they had been apprehended.

After reading this statement, it is felt that because two percent of students can test if they can tell it in their own situation. Consequently, an anonymous analysis was conducted in both my criminology classes. The criminology course, then, among other things, is concerned with explanations of a major problem in criminology, of why certain individuals are more likely than others to encounter the police, courts and prison.

In addition, it was alleged in the article that I stated "I wouldn't want to meet any of you in a dark alley." I do not recall making such a statement in any of my criminology classes. Making it would be inconsistent with the results of the "Crime in America" report mentioned above and our own class surveys anonymously conducted. I would have to spend an entire lifetime avoiding everyone. That is obvious nonsense and the statement is an insult to my students. In fact, the first class criminology class where one of the surveys was conducted, I have walked down many a dark "alley" or "pathway" with students, since meeting "Liberty" or dangerous terms disguised as a golden retriever named "Liberty." "Liberty" can't be too careful," said Pettibone. "Whatever it was, it was definitely wagging its tail in a suspicious manner."

Gun laws can't halt crime

To the Daily Egyptian:

Referring to the editorial about handgun laws in the Oct. 1 edition of the Daily, the writer's opinions are shared. An opinion and the opinion of many Americans that handgun legislation would be a wasted effort on the part of the government.

Any person who attempts to kill another is menaced by the gun laws. These people would obtain handguns if they were legal or not. They have no respect for the law, and banning guns would make no difference to them. They would still use them.

The threat of banning handguns is in many ways similar to the prohibition policy of the 1920's. Liquor was banned, but people still got it. Gun prohibition would be nonsense, as was liquor prohibition. This type of law cannot prevent you from using the channels by which the illegal goods would probably be purchased. The more you increase the price of the channel, the more you increase the price of the channels by which the illegal goods would probably be purchased. The more you increase the price of the channels by which the illegal goods would probably be purchased.

Eastside campus worth covering

To the Daily Egyptian:

I really enjoyed Mike Springfield's stirring account of the 1975-76 East Campus Resident Affairs Council (ECRAC) budget hearings. The article was concise, clear, interesting, well-written and informative. It was, in short, a true journalistic gem. In fact, it was so good that I would say that I couldn't have done it myself--that is!! I hadn't done so over a week earlier on the front page of the East Side Story. If the Daily-Egyptian wants a correspondent on the East Campus outpost, an area so remote from the normal DE news stream that the editors haven't seen fit to cover it until recently, I would be most happy to provide for you at little above the standard wire service fee.

Frankly, I don't know whether to be thrilled or appalled at the turn of events in the Daily Egyptian with another writer's name above it. Perhaps this fimmoc rewrite in an indication that the dear press--the journalistic minor leagues at S1U--is not entirely unnoticed by the powers that be in S1U news. In addition, I feel deeply honored that the assignment of rewriting the East Side Story article of Sept. 22 was given to a staff writer rather than to a student writer who could have messed up some of the quotes. This would mean the appearance of this ECRAC article will indicate the possibility of increased communication between our two publications in the future. Perhaps an exchange of some sort could be worked out between us—an exchange beneficial to us all. For example, we can provide you with copy concerning East campus, and you, in return, can give us something that we could use. I mean, Gus Bede isn't doing anything on Mondays, is he?

Tom Casey

Editor's Note--Staff writer Mike Springfield, said he did get information for his story from Casey's article in the East Side Story. However, the stories aren't identical. Springfield's story is a rewrite—something that is done all the time in journalism. Due to a misunderstanding he was a given a byline when he shouldn't have been given one.

Daily Egyptian, October 14, 1975, Page 5
Cow eyes provide retinas for research

Paul A. Hargrave, an SIU research scientist, has turned to cow eyes to find out such things as how to preserve the glare of a summer afternoon.

A protein called rhodopsin, a pigment of the retina, is exposed to light—an enzyme in the retina converts it into a light-sensitive pigment in the rod cell.

Hargrave studies the chemical nature of the rods of the retina; the process, he says, is related to the fact that rhodopsin becomes "photorehydrated" when exposed to light. The enzyme is a principal substance in the visual purple. Hargrave's research is the fact that rhodopsin bleaches out in the presence of light, and the visual purple is changed to a dull yellow.

Speech Pathology sets talks

The Department of Speech Pathology and Audiology is sponsoring two lectures this week by Herbert Koep-Baker, professor emeritus. The lectures will be at 7:30 p.m. Nov. 20 and Nov. 27 in the auditorium of the Education Department.

WISIU-TV & FM

The following programs are scheduled Tuesday on WISIU-TV:

9:30 a.m. — Educational Programming, 10:30 a.m. — "Gettin' Over," 3:30 p.m. — "Sesame Street," 5:30 p.m. — "Misterogers Neighborhood," 6 p.m. — "Our Story," 6:30 p.m. — "The Best of the Week".

WIDB

The following programs are scheduled Tuesday on WIDB-Stereo 104 on Cable FM-900 AM.

6 a.m. — "Today's the Day," 11 a.m. — "Take a Music Break," 11:30 a.m. — "Open Eleven," 12:30 p.m. — "WSIU Expanded News," 1 p.m. — "Al l Things Considered," 2 p.m. — "Music in the Air," 3:30 p.m. — "WSIU Expanded News," 7 p.m. — "State of the Union," 8 p.m. — "The Vocal Scene," 9 p.m. — "Beehume," 10 p.m. — "Music From Germany," 11 p.m. — "Nightlight."
Symphony debuts Thursday in Shryock

By Bob Root

Student Writer

The SIU Symphony Orchestra will begin its 1975-76 season with a concert Thursday night at 8 p.m. in the Shryock Auditorium. Robert Bergd, director of the orchestra, will conduct the 73-piece group.

The program will include many symphonic favorites. Among them will be Schubert's Symphony No. 8, "The Unfinished Symphony," which Karl Martin, principal tubist, described as "mystic and molto grande.

The opening piece will be an overture to the opera "Russian and Ludmilla" by Glinka. Bergd said the work was the antecedent force which established opera in Russia in the mid-1800s.

The orchestra, composed of seven non-music faculty members and a number of community people, will speak on agencies

Consumer advocate Ralph Nader will speak on public agencies and how they can be made more responsive to public needs at 7 p.m. Wednesday in the Student Center Nader, the country's leading consumer crusader, is the featured speaker for the Illinois Association of Community Mental Health Agencies fall conference. Tickets will be $3 at the door.

Public campaigns against the automobile, food processing and packaging, pesticides and defense industries established Nader as America's foremost consumer advocate.

Harry Cecil, administrator with the Jackson County Community Mental Health Center and coordinator of the conference, said Nader was invited to deliver the keynote address of his reputation as a consumer advocate.

Cecil said that inviting Nader to speak was an attempt to focus attention on the services available to all people through the mental health center.

Cultural Affairs: Meeting, 5 to 6 p.m., Student Center Room A.

Brass: Ralph Nader, 7 to 9 p.m.

SUR Bridge Club: Meeting, 7 p.m., Student Center Ballrooms A, B, C.

SUR Bridge Club: Meeting, 7 p.m., Student Center Room B.

M.O.V.E.: Meeting: 7 p.m., Student Center Room A.
Committee nears completion of schedule for Homecoming

By Linda Jeans
Daily Egyptian Staff Writer

The SCAG Homecoming Committee has arranged most of the Homecoming plans for SCAG's three-day celebration Oct. 23, 24 and 25. Now the biggest question is "who will come together," Bob Seig, adviser for the committee, said.

"Southern's Circus Spectacular--A Three-Wing Flying Ring" is the theme of Homecoming '67. The committee has "The Two Penny Circus" a group of 10 professional clowns and 30 performers coming to illustrate the theme. The Two Penny Circus will perform a mock football game during halftime of the Homecoming football game against Wichita State Saturday, Oct. 24. The circus wants the Homecoming Committee to build a huge football to be used in a surprise during their act. The Two Penny Circus clowns will probably judge the Zaniest Circus Acts, Seig said. The Zaniest Circus Acts are being cosponsored by WDRB Radio and Ringling Brothers Circus. This activity will give students a chance to test their ability at being a clown.

Students who want to compete in the Zaniest Circus Acts will perform at 9 p.m., Friday, Oct. 23, in Student Center Ballroom D. The first 50 students who apply for a place will be selected to appear in a matinee Thursday, the day after. All students who compete in the Friday competition will receive tickets to Ringling Brothers and Barnum and Bailey Circus. The winner of the acts will be chosen at the matinee by applause. The winner will then appear in Clown Alley, the beginning ceremony when the clowns march into the ring, at the Ringling Brothers and Barnum and Bailey Circus, Tuesday night.

"This Zaniest Circus Acts competition is something that could put you into the circus if you win," Seig said. "The acts should not be musical though. The winners receive top prize tickets to the circus.

The committee is checking to see if Crosby and Nash could be the grand marshall for the Homecoming Parade scheduled for 1 p.m., Saturday, Oct. 25. The parade will start at the corner of Walnut Street and University Avenue and then go south on U.S. 31 to Campus Drive and then end at the Student Center.

The winners of the decorated cars and floats will receive large trophies. Seig said. Only two Troops and three decorated cars had entered the competition as of the committee meeting last Thursday afternoon. The committee said it expects more to enter.

Total usage of the facilities at the Student Center belongs to Homecoming activities during Homecoming weekend, Seig said. Three movies, three bands, and several performances by The Two Penny Circus are scheduled in the Center.

A Homecoming House Decorations competition is being reinstated at this year. The last year that residence halls were judged, their decorations for Homecoming were 1960. Entries for the judging should be in three areas: on-campus single groups, off-campus single groups, and combined group. Applications can be obtained at the Student Activities Office in the Student Center.

Frisbee fliers display feats, finesse

By Cathy Tabor
Daily Egyptian Staff Writer

Frisbee enthusiasts got a chance to display their styles and skills Saturday in a frisbee tournament held at the Carbondale Junior High School. The tournament, co-sponsored by the Free School and the Carbondale Park District, was divided into three categories, open, girls and boys, each of which was divided into five skill levels. The winners were awarded $2 in candy money and certificates of participation. The tournament was conducted in order to promote frisbee and to raise money for the park district. The tournament was won by Norm Wolko of Carbondale, with a score of 36. The girls division was won by Lynda Taylor of Carbondale, with a score of 24. The boys division was won by Tim Johnson of Carbondale, with a score of 30. The tournament was judged by Mrs. John Morgan and Mr. David Morgan of Carbondale.

Police report store burglary

By Scott G. Biddle
Daily Egyptian Staff Writer

The Eastgate Liquor Store, Illinois 13, was burglarized early Saturday morning. Carbondale police reported.

Steve Hoffman, manager of the store, reported that some thieves entered the building by chopping a hole through the roof. After entry was gained, the burglars reportedly searched the store and took some of its contents. The exact amount stolen has reportedly not yet been determined.

The thieves evidently escaped the same way they entered, since no burglar alarms were set off, police said.

The police said that between 11 p.m. Friday and 10 a.m. Saturday, the store was burglarized.

Wheelchair students missing from Lawson

Wheelchair students have temporarily lost access to a response box in Lawson Hall's student response system.

Clifford said he noticed the box was missing two or three weeks ago.

The student response system allows push button response to in-class questions. The push button box is attached to each seat. When an instructor asks a question, a student can answer by pushing one of six black buttons or a red one. The answers are automatically printed out of a teletype machine or displayed on a central board.

The system is used in giving tests and surveys. Clifford said, "It is used quite extensively by instructors in this room."

Clifford said the box is equipped with 58 respondent boxes, two of which are for wheelchair students. The missing box is from the wheelchair area.

Clifford said the system will work with the box missing but will not work as well. The box is made of silver sheet metal, five by seven inches with a two foot electrical connection. Clifford said the system will work as long as it is not tampered with and the chair is not moved.

Clifford said the system was designed for wheelchair students.

Briefs
Richard VonMart., will address the Biochem Journal Club on “Site of Synthesis of Membrane and Non-membrane Proteins of Vesicular Stomatitis Virus” at 4 p.m. Tuesday in Neckers 218.

The Kennel Club will meet at 7:30 p.m. Tuesday at Carbondale Savings and Loan, Main and Poplar. Visitors are invited to hear a speaker from the University of Illinois discuss veterinary school aid.

Prana will play a benefit at Merlins tuesday night. All proceeds will go to NORML.

Students in the College of Science should make advisement appointments immediately to pre-register for spring in Room 160 Necker A.

The Royal Lichtenstein Circus will appear at noon Wednesday in front of the Home Economics Building. Admission is free.

The Green Study Group of the Department of Chemistry and Biochemistry will meet at 4 p.m. Wednesday in Necker 218.

The Department of Chemistry and Biochemistry will hold a departmental seminar at 4 p.m. Friday in Neckers 218. Dr. Lenny Maroun, SIU-Springfield, will speak on “Isolation and Transcription of Chromosome No. 21 from Down Syndrome Fibroblasts.”

HEW gives grant of $16,580 to Social Welfare
The Department of Social Welfare has been awarded a $16,580 pre-service training grant by the U.S. Department of Health, Education, and Welfare.

“The grant is for ten social welfare majors interested in professional practice in the field of child welfare,” said Professor A.J. Auerbach, department director. Each recipient will receive an approximate $1000, which includes tuition and fees, for the semester.

Students interested should pick up an application for spring semester 1976 at the social welfare office.

'Opera Revue' captivates audience

By Keith Taylor
Daily Egyptian Staff Writer

Artistic history and something for every mood—that's what was presented Sunday afternoon as the Macarrie Lawrence Opera Theater opened its season with 'Opera Revue 1776-BK.'

A half-filled Shryock Auditorium audience was captivated by the variety of the lengthy two-and-a-half hour show. The selections ranged from the tranquil sound of Carmen to the dramatic mood of the French knot-tying art, said Marcie Dachik, center program coordinator. Most of the members of the cast are graduate voice majors, from SIU and may have appeared here in other presentations. David Freeman, is sponsoring a two session course on macrame from 7:30 to 9:30 p.m. Tuesday and Oct. 21.

The course will be taught by Betsy Giles, who has been doing macrame for several months, and will focus on basic techniques and individual instruction. Macrame is the French knot-tying art, said Marcie Dachik, center program coordinator.

No materials will be needed for the first session, she said. Both sessions are free and open to all interested women in the Carbondale area.

Beg your pardon

It was incorrectly reported in Saturday’s Daily Egyptian that Cynthia Lash Lindsey of Cartherville, a member of the Williamson County Grand Jury, was allegedly delivering a controlled substance charged with illegal delivery of cannabis.

Community Development Public Hearings

For Carbondale

The Carbondale Citizen's Community Development Steering Committee is holding a series of public hearings to gather citizen's comments about housing and community development needs in Carbondale. In particular, the committee is interested in your comments concerning needs that might be addressed under the Housing and Community Development Act of 1974. The committee also is seeking community opinions on programs to meet needs and Community Development programs that are underway.

The Final Two Hearings Will Be At:

St. Andrew's Epis. Church Bsmi.

404 West Mill Street

C'dale Sav. and Loan Corp. Room

500 West Main St.

Your comments and attendance at one or more of these hearings is urged. If you are unable to make your comments at one of the hearings but have comments to make concerning community developments and housing needs, call or write Community Development at City Hall, 549-3203 East College Street, and your comments will be relayed to the Steering Committee.

Also, if your group or organization wishes to have Committee members appear at one of your meetings in the coming month to discuss Community Development needs, contact the Community Development office at City Hall.
Two hand touch?

Detroit win over Bears a ‘laugher’

CHICAGO AP — Coach Jack Pardee of the Chicago Bears apologized and issued a “next time” warning to the laughing Detroit Lions Monday at his weekly press conference.

Pardee said “I want to apologize for our performance” in the wake of Sunday’s 27-7 loss to the Lions.

After a loss like that it is difficult to come out on Monday and it is also difficult to go home and face your family,” he said.

Pardee was still occupied over the Lion’s reactions which included laughing at his team.

“The players on the field and on the sidelines were laughing at our play and our execution,” said Pardee. “We’ll remember it the next time I guess that’s the fun a winning team gets out of the game.

They had it going for them but our time will come.”

In addition to numerous mistakes and a ground attack which netted only 41 yards rushing Pardee also blamed much of the Bears’ problems on not knowing that Bill Munson would be the starting quarterback instead of Creg Landry.

“Landry is good at getting a team to jump offside but he’s a piker compared to Munson,” said Pardee.

Time after time the Bears were jumping offside, unable to adjust to Munson’s motions and cadence. But that wasn’t all that troubled the Bears.

“They intimidated us,” said Pardee. “Charlie Sanders knocked two of our guys out and Charlie Weaver played a tough physical game. It’s too bad that we couldn’t play with that kind of intensity.”

Defense highlights

Carbondale victory

By Scott Barmide
Daily Egyptian Sports Writer

Halfback Willie Morgan shared scoring honors Friday with linebacker Marty Pulley, as the Carbondale Community High School Terriers blanked West Frankfurt, 26-0, at Breyer Field before a homecoming football crowd.

Once again, the defense provided much of the offense for Carbondale, as the Terriers used West Frankfurt mistakes to score touchdowns.

Both Pulley and Morgan scored two touchdowns each. Pulley crossed the end zone on 21-yard and 7-yard punt returns, while Morgan ran back a 60-yard second half kickoff return and scored on a two-yard effort.

Pulley’s 70-yarder could have come out of a teenage fiction novel.

The play before, Pulley grabbed a fumble at midfield and ran 10 yards to the end zone, before he was called back by officials.

On the next play, fellow linebacker John Laster received the punt, was going down on a tackle and managed to pitch out to Pulley who ran for the score.

Morgan also had a 73-yard scoring run called back on a Carbondale penalty.

The Terrier defense gained its fourth straight shutout, as it sacked Redbird quarterback Hugh Moore six times.

West Frankfurt’s only scoring threat, junior halfback Scott Giles, was removed from the game in the second quarter with a broken collarbone.

On Friday, Carbondale will travel to Harrisburg for another South Seven Conference game.

ISU tight end Mark Austin just crosses the STU 10-yard before Salukis Vawdrew Rogers (left) and Carlton span (right) bring him down in Saturday’s 17-17 tie in Normal, Matt Bailey (99) ready to help out.

A second-place finish scored Thursday by SIU in the third place round in the Bogeys Hills Intercollegiate Golf Tournament, held at Bogeys Hills Golf Course in Carbondale. SIU also finished third in the tournament.

Early in the season, Indiana State's match with SIU was called due to fog. SIU later won the match, but the score was 1-0. SIU was leading 1-0 and the match was called due to fog.

In the tournament, the SIU's match against Indiana State was scoreless through 18 holes. However, SIU was leading 1-0 at 19 holes when the match was called due to fog. SIU was leading 1-0 at the time the match was called due to fog.

"I'm not sure if we're playing in the rain or what, but I don't know if I've ever played in the rain before," SIU's Taylor Burris said. "It was pretty cold, and I don't know if I've ever played in the rain before."
By Mark Kasowski
Daily Egyptian Sports Writer
If football were played like draw poker and teams could discard two worst quarters, SIU and Illinois State would be two of the best teams in the state instead of two of the worst.

The Salukis put together scoring drives in the first five minutes of the first quarter and the last five minutes of the final period to defeat the Redbirds a 17-17 tie in ISU's homecoming contest Saturday.

ISU which was supposed to be a passing team using a pair of jacks in the backfield Jo-name of Rich Koehler and Bill Vocius to ground out 88 yards for touchdowns in both the second and third quarters.

The two touchdowns along with a Bruce Hoernagel 25-yard field goal in the second quarter gave ISU a 17-lead going into the final quarter.

Vocius' touchdown dives of three and five yards along with a Bruce Hoernagel field goal gave ISU a 17-lead going into the final quarter.

The field goal came at 4:45 in the third quarter after the only fumble of the game on a bad pitch by SIU quarterback Leon Hopkins at the SIU 14.

Hopkins engineered an eight-play, 80-yard drive with Vocius remaining in the game to put the Salukis within three.

Hopkins was stymied on Aaron Byas from the one in the first quarter for the Salukis' first score, but Hopkins determined to add the four yards himself on the fourth quarter drive.

The Salukis put all three SIU defense held to b'dbirds to four plays after the kickoff, three on a 3-yard drive, and the Salukos took over on their own 31.

With the reliability of a riverboat gambler, Hopkins crossed to SIU downfield with a series of short passes running back to new wide receivers Shorty and Ivy Moore.

Henry radioed around the left end for 10 yards before Hopkins zipped a six-yard pass to Moore near the sideline to put ball on the one and the two.

It was then that SIU coach Doug Weaver sent in the kicking crew and Ken Seaman booted a 12-yarder for the tie.

Seaman had missed tries of 32 and 21 yards in the second quarter. The 23 yard attempt was partially blocked and the 21-yarder was wide to the right.

"We went for the tie because we fought back in the fourth quarter and wanted to come away with something," Weaver said.

"I would make the same decision tomorrow, 10 years from now, 20 years from now. It came here or win, and we didn't. But we didn't lose.

"The decision whether to go for the field goal or six points depends on how the game goes, what I know about goal line defenses, our team and what happens inside the 10-yard line.

"As in the case after tie games, neither coach was too boisterous.

"We needed a win badly and so did coach Weaver," ISU mentor Gerry Hart said outside his quiet locker room.

"Southern came out of the hole two times in the last quarter. You have to hand it to Hopkins and their receivers.

"Hart, a graduate of SIU, said the defense didn't break down when Hopkins completed eight of eight passes to end the game."

Hart said, "They're just tougher than they were on the first two days. They Londoned us this time.

"They attacked us and didn't worry about the score. They pushed us back."

"I was throwing dunks out there. It was a good thing it wasn't duck season because the fans could have kicked 'em off the stands," Hopkins said.

"The receivers—especially Ivy Moore—did a super job. They deserve the credit.

"Hopkins and Moore combined for SIU's best aerial attack of the season. Hopkins completed 11 of 13 passes for 174 yards. Moore was on the receiving end of five of those 109 yards.

"It was also the Salukis leading rusher with 64 of SIU's 290 yards.

"SIU-Byas 15 run (Seaman kick) ISU-Yocius 3 run (Hoernagel kick) ISU-Hoernagel 25 field goal ISU-Yocius 5 run (Hoernagel kick) SIU-Hopkins 4 run (Seaman kick) SIU-Seaman 22 field goal"

Flanker John Pendleton wastes no time in putting a shoulder into Saluki Ivy Moore after the SIU receiver fumbled a punt. Moore is held to a gain of three yards in the last two series.

"We had the man covered," Hart said. "Hopkins threw it well. Maybe I didn't play as aggressively as we could have.

"Hopkins wasn't quite as enthusiastic about his passing.

"I was throwing dunks out there. It was a good thing it wasn't duck season because the fans could have kicked 'em off the stands," Hopkins said.

"The receivers—especially Ivy Moore—did a super job. They deserve the credit.

"Hopkins and Moore combined for SIU's best aerial attack of the season. Hopkins completed 11 of 13 passes for 174 yards. Moore was on the receiving end of five of those 109 yards.

"It was also the Salukis leading rusher with 64 of SIU's 290 yards.

"SIU-Byas 15 run (Seaman kick) ISU-Yocius 3 run (Hoernagel kick) ISU-Hoernagel 25 field goal ISU-Yocius 5 run (Hoernagel kick) SIU-Hopkins 4 run (Seaman kick) SIU-Seaman 22 field goal"

"Tied score means that the sequence of the Boston's Rick Wise will face when he opposes Cincinnati's Gary Nolan Tuesday night.

"In the opening game of the Series, Anderson had gone with Morgan batting second, Beech third, Foster fifth, Con- efion sixth and Griffithy seventh - the same lineup the Reds had used to sweep the National League playoffs against Pittsburgh.

"I have to admit, superstition got me before that game," said Anderson, whose club tied the best-of-seven series at 1-1 with a dramatic ninth-inning comeback Sunday.

Daily Egyptian Sports Writer
"There's no hill like this in our section of Kentucky."

There was no doubt of Kentucky women's cross country coach Harold Barnett's sentiment Saturday upon seeing the Midland Hills Golf Course. But his team adjusted well enough later to beat SIU in the duel meet.

Crossing the finish line first, while holding hands were UK runners Lisa Moore and Janna Anderson. The first place time was 20:25, the fastest finish clocked by women runners on the Midland course this year.

The high point of the Saluki finisher was Jean Ohly in third place with a 20:50 closing. Three runners later, Linda Blodholm challenged seventh place for SIU with a 22:30 time.

Kentucky came into the meet without a defeat on its record, winning over Eastern Kentucky and the University of Tennessee.

Barnett said his No. 1 runner from last year, Denise Smith, is out with a bad case of asthma.

Before the race Barnett said his team was running a good 2:4 mile at this point in the season, but the last 800 yards "were not as good as the first 2:4"

Co-winner Moore said the course was a good challenge, but she thought she would have been able to beat it more weekend.

Barnett said, "She was good but got tired."

Kentucky was using the race to become accustomed to the course before its invitational meet Saturday night.

After the race, Kentucky runners jogged the mile course before returning to Lexington.

Jean Ohly

"There's no hill like this in our section of Kentucky."

Tired Saluki harriers finish in last

Harting said the runners will hit Millard Hills hard three times this week and will run on the track the other days.

"The runners will not run in competition again until the Illinois Intercollegiates at Charleston Oct. 25."

"We will start easing off before the Illinois Intercollegiates. They'll be as sharp as a tack," Harting claimed.

By Nov. 1, Harting said his men should be at peak form. He said all the teams have not shown improved improvement since the season began.

"11-Jack St. John (22:17); 12-Mike Sawyer (22:19); 13-Jerry George (22:20); 14-Hall (22:21); 15-Brian Bauer (27:34); 20-Tom Patton (23:37); 24-Dennis Moore (28:46)"

"Next time: John Roseman, Kansas (25:13)"
