The Daily Egyptian, July 15, 1965

Daily Egyptian Staff
Editors to Hear New York Newman

A speech by the former chief of the Berlin Bureau of The Associated Press will highlight this year's annual Golden Quill award for excellence in editorial writing presented by Sigma Delta Chi.

Today's program at the Pere Marquette State Park near Grafton, Ill., includes a discussion of current press news coverage by Judge James O. Anderson of Collinsville, and a discussion of the population explosion by Ray E. Waterkey, visiting scientist at SIU.

The meeting ends Friday evening at a reception hosted by Richard Friedman of "Editor and Publisher," weekly newsletter which sponsors Thursday's meeting. Editors from Illinois and Wisconsin will join Newman at the meeting. The conference has its headquarters at the SIU campus. Howard R. Long, department head, is its executive secretary.

Stevenson Dies on London Street

Collapses in Grosvenor Square
After Diplomatic Conference

LONDON (AP)—Adlai E. Stevenson, the voice of the United States at the United Nations since 1946, collapsed on London street Wednesday and died. He was 65.

First indications were that he had suffered a stroke or a heart attack, but neither the U.S. Embassy nor St. George's Hospital, where he was pronounced dead, was prepared to give the cause of death immediately.

His death saddened much of the Western world, which had regarded Stevenson as its foremost voice in debates at the United Nations who had clashed often with the Soviet Union spokesmen.

President Johnson, in a letter to the government flags to fly at half staff, commented:

"The world of freedom and human dignity has lost its most articulate champion."

Our Finest Voice Is Lost, Johnson Says of Stevenson

WASHINGTON (AP)—President Johnson, near tears over the death of Adlai E. Stevenson, said Wednesday that the former governor's eloquent spirit, its finest work, "the world of freedom and human dignity that he has lost its most articulate champion."

He ordered that the flags of the United States flown at half staff at all government buildings and installations and on naval ships, at home and abroad until after Stevenson's funeral.

Johnson was near tears as he received the news at the White House.

At the United Nations, Secretary General U Thant said Stevenson had earned the respect and admiration of all who had seen his "extraordinary human qualities."

"Former President Harry S. Truman said Stevenson's quest for peace will be long remembered by the United Nations and his friends throughout the world."

Stevenson had attended U.N. meetings in Geneva and in the United States, and had been in Geneva.

Mrs. Trec, a friend of Stevenson's, was found lying on her hands and knees and tried to revive him with mouth-to-mouth resuscitation.

James Yates, doorman at the Sportmen's Club, rushed out.

Mrs. Tree told Yates who Stevenson was, and the door was opened.

Tall is director of the Institute of Education in Bamako and Siggare is director of a training school for teachers. He is a brother of Abdoulaye Siggare, Mali's Minister of Education who was granted an honorary Doctor of Laws degree by Southern Illinois University. Tall and Siggare were in that area, then departed for the United States to visit African States International Services universities. They will then fly to Washington for conferences with members of the Agency for International Development before leaving July 23 for Paris.

Eric Sturley of SIU heads a team of educators that will set up the institute to train teachers in Mali under a contract between Southern and AID, which is a division of the U.S. Department of State.

Theater Display, Band Concert, Arabic Lessons Scheduled Today

The Department of Theater will have a display starting at 8 a.m. in Room H of the University Center.

The Judicial Board will meet at 1:30 p.m. in Room C of the University Center. The Organization of Arab Students will give Arabic lessons from 6 until 7 p.m. in Room 102 of the Home Economics Building. The Baptist Student Union will meet at 7 p.m. at the Baptist Foundation.

There will be a University Band Concert from 7 until 8 p.m. on the patio of the University Center.

Other activities planned by the Summer Programming Board for Friday night are a band dance and a movie. The dance, with music furnished by the House Rockers, will begin at 8 p.m. at the Dome. At 9:30 p.m. intermission, entertainment will be provided by the cast of "Little Mary Sunshine." The 3 Barrymores, in Movie Tonight: "Rasputin and the Empress," the only film in which the three Barrymores appear together, will be shown on Film Classics today at 8:30 p.m. on WSIU-TV.

Other programs:

6:30 p.m.
Industry on Parade.

5 p.m.
What's New: Films of a log drive that takes timber from mountain lakes to the sawmills.

7:00 p.m.
Bold Journey: "Choco Jungle" shows life among the primitive Choco Indians.

8 p.m.
Jazz Casual: This week's feature is the vocal trio of Dave Lambert, John Hendricks and Yolande Bavan.

Adams Singers, Concert Hall Featured on WSIU Tonight

The Adams Singers will sing familiar songs on "Sing Something Simple!" at 7:30 p.m. today on WSIU Radio. Other programs:

10:05 a.m.
Pop Concert.

2 p.m.
Page Two: Editorials from leading American newspapers.

8 p.m.
Concert Hall: Suite No. 3 in D major by Bach; Concerto No. 1 in E flat for Piano and Orchestra by Livan, and "Variations on a Hungarian Folksong" by Kodaly will be played.

8:30 p.m.
Chamber Concert: Chamber music of all periods performed by the world's leading chamber groups.

11 p.m.
Moonlight Serenade.

Little Man on Campus

LITTLE MAN ON CAMPUS

The Barrymores appear together, will be shown on Film Classics today at 8:30 p.m. on WSIU-TV.

A 'Gag Law' Is a Bad Law

It isn’t enough that the South must endure the humiliation of the death sentence, one of the brutal “patriotism” of the Klan. Another horror comes to hand at the North Carolina Legislature, which casually voted away a big piece of Article I of the Bill of Rights—Freedom of Speech. The First Amendment exists to protect the Communists, whose right to speak is the only free speech that is protected. How can one “abuse” a Communist? Quite easily, if he happens to be an American citizen. Here’s the story.

Previously, in the 1963 session, the North Carolina Legislature required but an hour to pass a law which prohibits Communists or anyone who has pleaded the Fifth Amendment during a hearing from speaking before a state-sponsored university committee. This is not being used to its potential, but half an hour to pass a law which could play at home. It would also provide easy rec­

On campus we have a large and beautiful building known as the University Center. This building is not being used to its full potential. There is space available for more billiard tables, card rooms, tv rooms, lounges and other facilities. Assistant Provost Mr. W. S. has advertised that we have a large, adequate ballroom where many formal events are sponsored by state-supported schools. There is space available for more billiard tables, card room, tv room, lounges and other facilities. Assistant Provost Mr. W. S. has advertised that we have a large, adequate ballroom where many formal events are sponsored by state-supported schools.

I have just returned from a trip to North Carolina. Among several things I wish to say. After all. The North Carolina House stands charged with a law which the 50-member committee of the North Carolina Legislature, chaired by Governor Moore says that the bill was not debated in the legislature. The vote on the specimen of university officials and minis­

Get your memories straight. Here’s Ed Rapen's editorial answer to the train wreck of Nixon and Stenger in the wake of the Vietnam War.

Let's Bomb Hanoi, Mrs. Mesta

By Arthur Hoge
San Francisco Chronicle

Herewith is another chapter in that hitherto unpublished textbook, "World History, 1959-1965."

By the last half of the 20th century, the world had made remarkable strides in industrialization and modernization. But the world had also experienced incredible destruction and suffering. The Vietnam War was one of the most tragic events in the history of the world. The war had a profound impact on the political, social, and economic landscape of the world. The war also had a significant impact on the American society and culture.

In favor of unqualified free­

time, we have a large and beautiful building known as the University Center. This building is not being used to its full potential. Stevenson, U.N. Ambassador, Collapses and Dies in London

(Continued from Page 1)

man ran to the U.S. Embassy.

Yates told newsmen: "I saw him collapse. He was with a woman. She rushed up to me and said, "Quick, comix Could you come at once and help?"

A doctor from the Sportsmen's Club gave Stevenson an injection and administered heart massage.

An embassy spokesman said he did not know where Stevenson was going when he collapsed.

The death certificate was timed at 5:35 p.m.

John Farr, superintendent of a nearby building, said he saw Mrs. Tree, dressed in a turquoise blue suit, comforting Stevenson on the sidewalk.

Yates meanwhile propelled a crock under Stevenson's head. When an ambulance arrived, the crew brought out an oxygen cylinder and gave oxygen to Stevenson for about five minutes.

"He was put on a stretcher and carried into the ambulance," Farr said.

"The lady in blue went with him. I did not know until later that it was Adlai Stevenson."

Although Stevenson was on a private visit, he was staying with U.S. Ambassador David K. E. Bruce at the ambassador's residence.

Wealthy from family businesses, Stevenson had served in governmental jobs for more than 20 years and was active in preliminaries leading to formation of the United Nations.

He won the Illinois governorship in 1948 by an unprecedented majority, sweeping a state that had chosen only three other Democratic governors since the Civil War.

He went on to become the Democratic nominee for president in both 1952 and 1960 losing both elections to Dwight D. Eisenhower.

As one of his first acts in office, President John F. Kennedy appointed Stevenson as the chief U.S. delegate to the United Nations. That was Jan. 23, 1961.

Kerner Okays $1,182,000,000 for 61 Agencies

SPRINGFIELD, ILL. (AP) - Gov. Otto Kerner signed Wednesday appropriations totaling more than $1,182,000,000 for operating 61 state agencies and departments in the current two-year fiscal period.

His action paved the way for state Auditor Michael J. Howlett to issue warrants to pay thousands of state employees whose mid-July paychecks were threatened with delay.

The biggest appropriation signed by Kerner was more than $1 billion for the Public Works Department and Division of Highways.

Kerner also approved $217 million for pay of judges and court employees and $41 million for pay of legislators and state officials.

Other large appropriations signed by Kerner included:
- Department of Agriculture, $28.7 million; aeronautics, $14.5 million; attorney general, $4.4 million; revenue, $70.4 million.
- Insurance, $3.4 million; military and naval, $46.9 million; state treasurer, $17.1 million; state school superintendent, $19.1 million.

U.S. Jets Strike Point Nearest China Border

SAIGON, South Viet Nam (AP) - U.S. jet fighter-bombers made their deepest official announced strike into North Viet Nam Wednesday, ranging to a point less than 40 miles from Red China's frontier in one of a series of raids.

A spokesman said four U.S. Air Force F105 Thunderchucks were shot up two trucks they spotted 37 miles north-northeast of Dien Bien Phu, the one-time French stronghold that is 78 miles from the Chinese border.

Stevenson's Death Saddens U.N.

UNITED NATIONS N.Y. (AP) - Shock and sorrow spread quickly through the United Nations on Wednesday on the sudden death of Adlai E. Stevenson in London.

One of the first to get word was Secretary-General U Thant, who conferred with Stevenson last Thursday in Geneva on the Viet Nam crisis.

Both were attending the sessions on the U.N. Economic and Social Council there.

Thant dispatched a message to President Johnson expressing his personal shock and grief. He said Stevenson had earned the respect, admiration and affection of all his colleagues at the United Nations "for his extraordinary human qualities."

Equally stunned was the news wire Stevenson's staff at the U.S. mission offices.

McNamara Warns

Estimate of Red's Manpower Sharpens Need for U.S. Draft

WASHINGTON (AP) — The prospect of an expanded draft and Reserve call-up sharpened into a warning Monday by Secretary of Defense McNamara of an halted Communist strength in Viet Nam.

It was learned that the Army, Navy, Air Force and Marine Corps have submitted, for planning purposes, tentative estimates for Reserve and National Guard call-ups totaling more than 200,000 men.

Whether a decision will be made on this number, lower or more will depend on developments.

A rare warning from McNamara put it this way: "What decisions will be based on this review, I can't say.

"I do draw your attention to the fact that the Viet Cong are increasing their forces in South Viet Nam; that we have reported to you on previous occasions that they currently have in that country forces not yet assigned to combat; that the level of combat and the intensity of operation during the summer has increased as we predicted it would; that we can expect further increases in the Viet Cong operations.

"There is another development during the day to indicate that the impact of a jungle war being fought half a world away might weigh heavier at home, showing up in a dollar outlay.

"On Capitol Hill, senators began a drive to increase the $4.5 billion outlay in the military appropriation bill for fiscal 1966, which began two weeks ago.

"Sen. John Stennis, D-Miss., acting chairman of the Senate Appropriations subcommittee considering the bill, said there were no serious deficiencies in the program but that "the time for action is now.

"And Sen. Albert Gore, D-Tenn., thought $1 billion or $2 billion should be added to the appropriation measure in Congress.

"However, McNamara was quoted as urging delay until he and his colleagues complete their mission to Viet Nam a week hence and make their estimates.

"The defense chief and congressional leaders met in a hurriedly called breakfast session Wednesday morning.

"Informed sources said the Army has listed needs for 120,000 guardsmen and reservists including six independent battalions, the Navy 40,000 individual reservists.

"The Marine Corps said it had proposed a call-up of the 4th Marine Division and its air wing which totals about 44,000 men.

Hint of Trouble in Mariner 4's Recorder

FARES, Calif. (AP) — Mariner 4 radioed a hint of trouble today night while it was peering into Mars on what was supposed to be a historic closeup photographic mission.

A few minutes after announcing that all was going well, scientists said they were concerned about the operation of the recorder designed to store pictures for later playback.

"If the examining signals sent back from the recorder is concerned over whether it is running and stopping properly," said Jack Johnson, planetary expert for the Jet Propulsion Laboratory.

"We don't know yet whether we have a problem or not," James told a news conference.

"But if there is any difficulty in stepping the tape recorder up and down, the tape might play through again and record unwanted pictures on the ones we want." Up until the moment of the announcement, there had been no indication that all was not going perfectly with the spacecraft, now moving at 81,233 miles per hour.

"Mariner 4's mission was to record up to 21 photographs, each of which contains more than 32 times better than earth telescopes can make, picking out details as small as 1/2 mile across.

"The craft began its flyby, 300 laboratory personnel broke into applause as word came that signals indicated the camera apparently was on and operating as planned.

"But how it did won't be known until sometime after 2:30 p.m. PDT Thursday when the pictures are to be transmitted, the first picture will be ready for processing here.

"The Jet Propulsion Laboratory, 405 S. Arizona, Pasadena, Calif. (AP) —

"A hint of trouble in Mariner 4's Recorder Fails to Mar Other Nearby Perfect Flight PASADENA, Calif. (AP) — Mariner 4 radioed a hint of trouble today night when it flew past Mars on what was supposed to be a historic closeup photographic mission.

A few minutes after announcing that all was going well, scientists said they were concerned about the operation of the recorder designed to store pictures for later playback.

"If the examining signals sent back from the recorder is concerned over whether it is running and stopping properly," said Jack Johnson, planetary expert for the Jet Propulsion Laboratory.

Hitch in Pitch Hurts Prospects of Career

By Joe Cook

It's been two separate and distinct baseball careers in one for SIU pitcher Ed Walter, who has experienced the joy of success, but more recently the agonizing feeling of failure.

For Walter, who started baseball at age 8, the first 10 years were marked by a series of record-breaking performances, including setting an SIU strikeout record of 19 in a game against St. Louis University as a freshman.

Now, two years later at age 20, Walter's glory days are behind him and he faces the possibility of sports obscurity.

In his junior year, Walter was a catcher, but in his senior year he was switched to pitcher. Walter's pitching career is behind him, but he faces the possibility of sports obscurity.

It's been two separate and distinct baseball careers in one for SIU pitcher Ed Walter, who has experienced the joy of success, but more recently the agonizing feeling of failure.

For Walter, who started baseball at age 8, the first 10 years were marked by a series of record-breaking performances, including setting an SIU strikeout record of 19 in a game against St. Louis University as a freshman.

Now, two years later at age 20, Walter's glory days are behind him and he faces the possibility of sports obscurity.

In his junior year, Walter was a catcher, but in his senior year he was switched to pitcher. Walter's pitching career is behind him, but he faces the possibility of sports obscurity.
