Specialized Test Dates Announced

Nine major tests for both graduate and undergraduate students have been scheduled for the summer term, according to the Testing Center.

For the first time graduate students will be required to pre-register for the English test. However, they will have to show their I.D. cards before taking the test on the assigned day.

Undergraduate students are not required to pre-register but must also show their I.D. cards, a Testing Center spokesman said.

The schedule includes:
June 21 - Graduate English test (English-speaking students), 1 p.m., Furr Auditorium.
June 26 - Graduate English test (international students), 1 p.m., Studio Theatre, University School.
July 1 - Undergraduate English qualifying examination (objective part), 1 p.m., Furr Auditorium, pre-registration but bring I.D. card.
July 10 - Graduate English theme test, 1 p.m., Furr Auditorium.
July 10 - Graduate record examination, 8 a.m., Morris Library Auditorium. Students who plan to take this test must pick up an application at the Testing Center, Building T-17, and return it by Friday, July 17 - National teachers' examination, 8 a.m., Muckelroy Auditorium. Students must pick up an application at the Testing Center by July 2. July 1 - Graduate English qualifying examination theme part, 1 p.m., Furr Auditorium. No pre-registration but bring I.D. card.
July 14 - Advanced English (International students), 1 p.m., Furr Auditorium. No pre-registration but bring I.D. card.
July 20 - Advanced English (International students), 1 p.m., Furr Auditorium. No pre-registration but bring I.D. card.

Benton Banker Guy Hitt Named to Wham as Trustee

A major change in the composition of the SIU Board of Trustees was proposed Tuesday by Gov. Otto Kerner.

P. Guy Hitt of Benton has been nominated as a replacement for John Page Wham of Carbondale, who has been chair- man of the board. Hitt is a Democrat and his approval by the Senate further changes the political composition of the board from its present four Republicans and three Democrats, to four Democrats and three Republicans.

But Key Republican state senators predicted the nomination would not be confirmed by the State Senate, and Wham, chairman of the Senate Executive Committee, said, "The governor's failure to reappoint Mr. Wham to the board was unexpected in light of his years of dedicated service to the University and the welfare of the University of Illinois System.

The Executive Committee, with votes on nominations by the governor, is controlled by Republicans.

Wham declined comment on the governor's nomination of Hitt as his successor on the SIU Board of Trustees.

"The welfare of the University is worth more than the personalities," Wham said, "I can only wish the best for my successor."

Hitt, an attorney, has been a member of the SIU Board since its formation in 1949. He has been chairman for the last 10 years and the Board recently re-elected him for another term.

The governor nominated Hitt for a term expiring in January, 1971. Hitt is a Democrat, and Wham, a Republican.

The governor nominated two incumbent Republican members of the Board for new terms which will expire January, 1971. They are Melvin C. Lockard of Murphysboro and Linwood W. Sturgis of Metropolis.

Hitt is president and chairman of the board of the Bank of Ziegler, and chairman of the board of the Bank of Benton.

Hitt was born in DuQuoin on June 11, 1890, and is an alumnus of the Carbondale School of Banking of Rutgers University. In the course of his career, he has been assistant postmaster at DuQuoin, a director of Southern Illinois, Inc.; a director of the State Bank of Southern Illinois, Inc.; a director of the Shurtleff College; a district governor of the American Bar Association, and a member of the Marion County Bar Association.

Camel is an alumnus of the University of Illinois in Springfield. He is a member of the Board of Trustees of Southern Illinois University, Inc., the Illinois State University in Carbondale, Illinois; a member of the Illinois State Bar Association, and a member of the Marion County Bar Association.

The nomination of Hitt to succeed Wham on the Board drew a comment from State Sen. John G. Gilbert, R-Carbondale, He said he considered the proposed replacement of Wham "most inopportune at this time. Mrs. Wham has long been associated with and (Continued on Page 8)

Council Picks Davis Chairman; Meetings Set Through Summer

John Paul Davis, recently elected vice president of the student body on the Carbondale campus, has been named temporary chairman of the Student Senate.

Davis was picked at a recent meeting of the newly elected members of the University Student Council which re-elected the temporary chairman of the Carbondale campus.

A major change in the composition of the Student Council occurred in January, this year, when the Board of Trustees voted to replace the temporary chairman until October, when a permanent chairman will be elected. The temporary chairman of the Council from the Carbondale campus asked that a temporary chairman be named until the Carbondale
Extra Alarms, Roomies, Even Lady Clairl Can’t Roust Sleepy-Eyed Joe Colleges

The irritating, quiet-shattering ring of an alarm clock causes a slight stirring from a slow-moving form in a darkened room. The ringing continues...until it wakes abruptly as it began.

The toll has been taken—another student sleeps through a morning class.

This scene is repeated again and again during the early morning hours of each class day. Students manage to work up enough energy to flick off the alarm, intending to catch just five more minutes of sleep.

Before they know it, a roommate jostles them out of deep slumber, and the expressionless face of the clock records noon.

A number of instructors feel that students are not concerned at all about good attendance.

"If they were," remarked one, "they’d have a better chance for making a good grade in my course."

The same professors of late-comers: "As far as I’m concerned, if a student is going to be late, he’s just as well not show up at all. As the guy in the commercial says, ‘that makes me mad.’"

Students have developed some ingenious and intricate means for getting themselves up in the morning. Methods range from using two alarm clocks set to go off five minutes apart, to a request for spraying a room with hair spray.

Ronald S. Cholak, a junior from Chicago, finds the two-alarm clock system the only workable solution. The first has a soft, pleasant, almost musical tone, while the other blares out an incessant buzz that gets louder as it goes.

"Sometimes the plan back-fires, though," he said.

The scene is repeated during other classes. Woody Hall I used to have my roommate spray hair spray over everything as I slept. Staff smelled so awful, it never failed to get me up. I hated to get dressed, though, so I would just slip on a t-shirt over my pajamas."

A freshman from Chicago said he has a rough time getting adjusted to dorm life.

"Back home, my mom would start calling me 45 minutes beforehand, so I’d be sure to get up. Down here, there is no such noise."

In the morning, I’ve started stuffing a cot cover in my ear. It really works, too. The only problem is that sometimes I forget to take the cot cover out in class and I can’t hear what my instructor’s saying."

According to a spokesman from the Registrar’s Office, the scheduling of morning classes is consistent throughout the school year. An unofficial poll of the instructors showed that attendance was consistent, too.

Bad weather ranks high as a deterrent, and so does late-hour cramming and a lack of “no-cut” regulations.

A sophomore from Park Ridge, remembered the time he missed an early morning test and made arrangements to make it up at 4 p.m. the next day.

The professor had prepared a special test and had stayed on campus to administer it.

At 4:35 p.m., the student came running into the room. He had overslept.

"I get so mad listening to those stupid clocks! I rip the cords out of the wall to show ’em up. Then, when I finally do get up, who knows what time it really is?"

Karen Karr, a senior from A number of students feel that they’d have a better chance for making a good grade in my course."

Karen Karr, a senior from Enterprise letter Tuesday was his first day working on the brand new locomotive. He worked on the model all night for the first few weeks. The locomotive was built by ALCO in Schenectady, N.Y., where Menefee was once a machine operator. He worked with the Goodyear group to design the model. The group was able to create a replica of the actual locomotive.

Menefee’s assignment was to create a model that would look like the actual locomotive. He worked with the Florida Railway Museum and the Florida-Georgia Railroad to create the model. The model has been displayed at several events, including the Florida Railroad Museum, and the Florida-Georgia Railroad.

Menefee’s work was recognized by the American Society of Mechanical Engineers. The Society recognized his work by awarding him the highest honor. Menefee received the award for his work on the model.

Menefee plans to continue his work on the model and will be looking for more opportunities to display it. He is currently working on a model of the second generation of the locomotive.

Baptist Foundation Thespians
Return From Three-State Tour

The SIU Baptist Student Foundation's dramatic group and Chapel Singers returned to campus Monday after a series of performances in Indiana, Tennessee and North Carolina.

The drama group presented the contemporary religious drama "Christ in the Concrete City" during Foreign Missions Week at the Baptist Conference Grounds, Ridgecrest, N.C.

The 12-voice Chapel Singers, directed by Charles Gray, also presented a program of anthems, spirituals and hymns.

Enroute to Ridgecrest, the group stopped at the Calvary Baptist Church, Evansville, Ind., and Broadway Baptist Church, Knoxville, Tenn.

On the way home they appeared at the First Baptist Church, Kingsport, Tenn., and the Springfield Baptist Church, Springfield, Tenn.

Students on the tour included:

Margaret Ann Bartels, soprano; Kenneth W. Bynum, tenor; Merrett L. Ginter, lighting technician; John H. Crenshaw, bass; and Frost Croslin, drama.

Norma J. Meyer, soprano; John W. Hargraves, bass; Mary Lou Miller, alto; Marcha L. Purcell, alto; Paula R. Smith, soprano; Nadine C. Kempfer, soprano; Cathy F. Dunn, alto; Eleanor Harper, soprano; Terry G. Peterson, drama.

Don M. Syfer, tenor; Vickie S. Cates, soprano; Jerry R. Anderson, drama; Jane H. Ritchey, alto; Gary L. Martin, tenor; Leonard B. Larry, bass; Princess A. Henshaw and Stan W. Hill, both in the dramatic group; Larry J. McWard, bass.

Norma M. Barrow, soprano; Sherry Edwards, soprano; Karen D. Bohlen, alto; Jesse W. Garrison, bass; Edward W. Kammers, soprano;

Karen D. Richardson, soprano; Matta L. Quick, soprano; Gay L. Grigg and Harold E. Kellett, both tenors; Steve Edwards, bass; Bill Whitchlock, tenor; Tom S. Green, bass; Janice R. Simpson, soprano; Jackie White, alto; Lydia L. Elam, alto; Darlene McReaken, alto; Robert M. Knight, tenor; and Charles B. Harris, drama.

ENGLISH SCHOLARSHIPS — Robert D. Faner (left), chairman of the Department of English, has received a $23,800 grant from the National Science Foundation to finance his study of the ancient Aztec Empire.

Armillas will use the money to support a two-year project of mapping an aerial photograph of the lakes area of the Federal District and the State of Mexico to locate ancient irrigation ditches, aqueducts and agricultural terraces.

Montezuma's lakes at one time covered four or five times as much territory as they do now," Armillas said.

"And the intensely cultivated lands in the lakes were known as Montezuma's floating gardens," Armillas objective is to reconstruct a picture of the Space Lectures and Movie Fill Schedule.

The Department of English will sponsor a public lecture at 4 p.m. in the Studio Theater of University School.

An Iota Lambda Sigma lecture will be held at 7:30 p.m. in Moritz Library Auditorium.

The Movie Hour will present "Little Alpine?" at 9 p.m. in the Studio Theater. Because of rain, the wowie will be shown in Brown Auditorium.

region as it was at the time of the Spanish Conquest in 1519, although his investigations may yield information on agricultural practices of the Aztec's going back 1,000 to 1,500 years before the arrival of Cortez.

Armillas will leave shortly for Mexico and expects to spend three months in the field this summer and another three or four months in the summer of 1966.

In September he will return to a nine-month appointment as a visiting faculty member in the anthropology department at the University of Chicago, for which he has been granted a leave from SIU.

Some of the seminars he will conduct at Chicago will embrace results of his previous study of land use and settlement patterns in Central Mexico.

Armillas, a native of San Sebastian, Spain, joined the SIU Museum staff as associate professor of anthropology and curator of Mesopotamian archaeology in 1960, coming to a visiting lecturership at the University of Michigan.

For 10 years Armillas was an archaeologist with Mexico's National Institute of Anthropology and History, and taught for a number of years in the National School of Anthropology and in Mexico City College.

The Daily Egyptian Book Scene:

Wastebasket Material Tells High School Teacher's Story

Up the Down Staircase, by Bell Kaufman. Review by: Fre- 

Up the Down Staircase is a satirical novel about the mis-adventures of a high school teacher in a big me-

more an educational reality. The story is told completely through the discarded matter found in the teacher's wastebasket—notes from the principal, memos, letters, students' themes and student suggestions.

Sylvia Barrett starts her teaching career at the Calvin Coolidge High School. The first of her students encounters many problems. First she has more students than chairs. Then she turns to the book. The book makes her feel like a part of the story. After a huge accident, she is told completely differently. What will she say? Who will she be?

The cleverest of these is "The Greek Under-
ground," in answer to the question, "Why do we study The Myths and The Greek Under-
ground?" "It helps increase our esteem for the golden age with all the value we can get from the Odysseus is ridiculous, I don't want to hear about some of the things we should have a quiz on it so I didn't know they were the novel's been on the "Best Seller" List. This reviewer fails to find amusing many of the escapades, notes from Josephine and the belief that Kaufman described.

Four years of being on the faculty of a big metropolitan school, the teacher supplies the reviewer with pictures of real happenings— the student body, the rattle of a thousand steel buttons, and the high-pitched voices, the yellow leaf that went to the policeman and the "It isn't my beat." The book makes the reviewer thank that her ideas in Schweitzer's writings are explained in Schweitzer's works.

Hans Hardt Department of Journalism

Analysis Tarnishes Glory of Schweitzer

"The Motorcycle: An Eraser For Things to Be Forgotten"

The Motorcycle, by Andre Frero, is translated by Richard How-

Rebecca Nut in a French, motorcyclist. A typical motor-

cyclist, many would say, in that the drives much too fast, disobeys almost every traffic law. Basically, an entirely discontourous driv-

er. Yes, typical, many would say, and right. If a person could say that a 19-year-old man is a motorcyclist, they could easily read an article in his newspaper, brand new, enameled black except for the following code, the most brilliant of which was the exhaust pipe with its flexible muffler.

Rebecca really loved this motorcycle. It was what she meant to her (not even a French citizen being able to love). And, like Reuben's bicycle, the most brilliant of which was the exhaust pipe with its flexible muffler.

Rebecca really loved this motorcycle. It was what she meant to her (not even a French citizen being able to love). And, like Reuben's bicycle, the most brilliant of which was the exhaust pipe with its flexible muffler.

The story is told through a montage of Rebecca's experiences, aided by frequent flashbacks and not always dearly handled symbolism. Rebecca dresses in an all-black uniform for her trips, wearing a black face mask and a black leather, fur-lined pair of coveralls. However, Rebecca's coveralls didn't cover much of anything since she enjoyed wearing only panties and a couple of t-shirts, mainly for the pleasure of feeling the fur tickling her body. She wore panties to prevent chafing.

The book ends with the end of the motorcycle, which should please many motorists. However, not to displease motorcyclists, Rebecca's end comes through her own actions but through the actions of a non-motorcyclist, who also might please many motorists. And in all, it is a delightful book which pedestrian to pilot can enjoy.

Fred Holley

Significance of Chinese History Is Ambiguous

Confucian China and Its Modern Contemporaries, by James C.

What is the relationship between Confucian China and Communist China? Is Confucianism compatible with Com-
munism? Or is it that the Com-
munists are trying to inter-
pret Confucianism from the standpoint and for their purposes?

In seeking the answers, we can't only rely upon the analy-

sis of what has happened in China today. We should dig into the problem more deeply through historical study. Even if we can't ever get the under-

standing of it, perhaps we should not dwell too seriously on treads pro and con, so fore-shortened in the foreground of our age.

We can't pass off Leven-
son's work without considering it as a contribution toward a better insight into the de-

bated subject. It certainly sheds light to students or en-
thusiasts in the approaching study.

**U.S. Jets Stage Attack
80 Miles From China**

SAIGON, South Viet Nam (AP)—U.S. Air Force planes today attacked a barracks and an ammunition depot above the border line and within 80 miles of Red China's border Tuesday in the deepest penetration to date of North Viet Nam ever announced by American authorities.

Targets were the Son La army barracks, 110 miles west-northwest of Hanoi, and the Van Nuoc Chieu ammunition depot, 70 miles west-northwest of Ho Chi Minh's Communist capital.

A U.S. military spokesman announced these details:

Eight F-105 Thunderchief fighter-bombers with a 20-plane escort made the strike across the 21st Parallel at the Son La barracks, situated within 40 miles of Red China's frontier.

The eight dropped 17 tons of 500-pound bombs. They destroyed nine buildings and damaged 20 in a 30-minute attack. Anti-aircraft fire was light to moderate. No enemy planes were sighted.

Another group of eight Thunderchiefs, with a 20-craft escort craft struck the Van Nuoc Chieu depot. Opposition was again confined to antiaircraft fire. The depot was moderately damaged. There was no report of secondary explosions, such as might be expected from a direct hit on stored munitions.

Son La, capital of a province of the same name, is 55 miles east of Dien Bien Phu, where France lost the Indochina war in 1954.

Radio Hanoi reported June 15 that Thunderchiefs based in the south had strafed the Moc Chau area of Son La Province the previous day and that one was shot down and its pilot captured. There has been no U.S. air or other confirmation of this report.

Accompanying these and other strikes on the border were air attacks on the Viet Cong and their installations in the South.

**Air Attacks on Reds
 Hint of Bigger Steps**

By Malcolm W. Browne

SAIGON, South Viet Nam (AP)—U.S. air power escalated the war in Viet Nam by two notches this week. Both hinted at vastly bigger steps to come.

U.S. Air Force jets ventured for the first attack missions yet made north of Hanoi Tuesday, thus shattering any assumptions that American planes were keeping south of the North Vietnamese capital.

The implication was clear: U.S. planes were for the first time free to bomb any part of North Viet Nam in which there were suitable targets. A viable target so far has not been interpreted to mean a city.

The other notch came Friday, when 27 Strategic Air Command B-52 heavy bombers dumped loads into the jungles of "D Zone," 25 miles north of Saigon.

In itself, the raid was apparently a failure. The big concentration of Viet Cong troops that had been reported in the area these days earlier apparently was gone. But the point was that for the first time, high-altitude heavy bombers had made an attack mission on Viet Nam.

The initial use of the B-52 seemed a clear warning that such planes could just as easily be flown over Hanoi and other North Vietnamese cities as over the South Vietnamese jungles. One pattern bombing had become part of the Vietnamese repertory.

**NEW YORK (AP)—Mer­chants looked Tuesday for a buying spurt to follow President Johnson's signing of the excise tax cut.

In some cases it started.

**High Lobbying Cost
 Is Revealed by AMA**

WASHINGTON (AP)—The American Medical Association, which has opposed the administration's program for health care for older people, was reported spending $951,520 on lobbying between the first three months of this year.

A spokesman Tuesday said, however, that more than $200,000 of the $951,520 was spent on radio, television and newspaper advertising. He said it was listed in the quarterly report to the House because the advertising suggested writing letters to congressmen.

The law requires periodic reporting by registered lobbyists of spending "in connection with legislative interests."

In Championship Play

Three SIU Coeds Make Our Prospects In Tennis and Golf Bright This Week

After breaking into the national limelight two years ago in women's gymnastics, Southern is hoping for similar results this week in two other sports, golf and tennis.

Two SIU coeds, Margaret L. Stagner of Murphysboro and Beverly J. Rusick of Granite City will be entered in a women's national tennis championship, and a third coed, Paula L. Smith of Belleville will be participating in a women's golf championship.

Miss Stagner and Miss Rusick begin their tennis tournament play today in the Women's National Intercollegiate Tennis Tournament at Greensboro, N.C. The tournament runs through Sunday.

Miss Stagner, who started playing tennis with her mother in her younger teen years, has had limited tournament experience except in sectional meets when she has represented SIU's Women's Recreational Association.

She received words of praise last year from Mary Hardwick, former world champion in women's tennis. Miss Hardwick rated her a potential champion when she saw the SIU coed perform last year at Stephens College.

Miss Stagner has brains to go along with her tennis ability. She is currently enrolled in Plan A for students with superior scholastic ability.

Miss Rusick has been playing tennis since she was 12 years old, when she used to practice on the tennis courts across from her home in Granite City.

Miss Rusick has played in the Granite City park tournaments, the Granite City Open, and other Illinois and Missouri openers. She has won some dozen trophies, mostly in singles play.

Miss Smith, who prefers the golf club to the tennis racket, started play Monday in the National Collegiate Golf Tournament at Gainville, Fla.

With the help of her parents, who are golf enthusiasts, she started playing when she was only 10.

She won the 1963 and 1964 St. Louis District Junior Girls Tournament and was runner-up in the 1962 meet. She also has won the Southern Illinois Women's Golf Tournament.

Miss Smith usually shoots in the high 70's and low 80's with her best 18-hole score a 73.

Noon Workouts Resume Today

The men's faculty-staff noon physical education program will resume at noon today in the SIU Arena.

The class will meet every Monday, Wednesday and Friday at noon for a series of planned workouts and exercises.

New members are invited to join the group. Additional information is available through Ronald G. Knowlton, assistant professor of physical education for men, at 453-2573.

City Plans to Lend Sports Equipment

The Carbondale Park District is offering two new services this summer. Residents of the Park District may check out such sports equipment as bats, softballs, badminton sets and horseshoes from the Park District Office at 208 W. Elm St.

Intramural Softball, Tennis, Golf During Summer Quarter

Anyone for an exciting game of softball, a tennis match, or perhaps a round of golf? These sports will be offered.

Sports Car Club

Plans Autocross

The Grand Touring Auto Club of Carbondale is planning an autocross Saturday, June 2, at the Murdale Shopping Center. The event is open to the public, with trophies to be awarded in five classes.

The club is composed mainly of SIU students and faculty members, who throughout the school year conduct at least one event a month. Events include rallies, gymkhanas and autocrosses. A spokes­man for the club indicated that plans for the summer are indefinite and will depend on the success of Sunday’s autocross, the first event this quarter.

In addition to holding its own events this summer, members of the club plan to enter a number of events staged by clubs in St. Louis, Belleville, and Evansville, Ind.

Further information on the club’s activities may be obtained by calling Mrs. Frances Walker, activity chairman, at 244-2448.

Kerner Names Hitt To Replace Wham

(Continued from Page 1)

Deeply interested in the University, Gilbert said. "I am chairman of the SIU Board of Trustees, where my main responsibility is in the formulation and organization of the Board of Higher Education.

"I believe that just as the Legislature is in the implementation of the master plan of education and a state-wide system of junior colleges, so also the Board of Higher Education in the same manner."

"I believe that just as the Legislature is in the implementation of the master plan of education and a state-wide system of junior colleges recommended by the Higher Education Board, Mr. Wham’s services are too valuable to lose," Gilbert said.

Hamblen Resigns, Goes to Atlanta

John W. Hamblen has resigned as director of the Southern Illinois University Data Processing and Computer Center. He has accepted a post with the Southern Regional Education Board in Atlanta.

Beginning July 1, Hamblen will act as assistant director for a regional development program for computer centers and computer scientists. The program is designed to promote better use of computer facilities in institutions of higher education throughout the South, and to ensure in the planning and growth of high quality training programs in computer sciences.

Before coming to SIU in 1961, Hamblen served as director of computing centers at the University of Kentucky and Oklahoma State University. He holds a bachelor’s degree in mathematics from Indiana University and master’s and doctoral degrees in mathematics-statistics from Purdue University.

Davis Named Council Head

(Continued from Page 1)

campus election is completed next October.

Senators representing living areas, and a student body president and vice president, were elected on both campuses earlier this month. However, senators representing the academic units on the Carbondale campus will not be elected until October.

Davis said a 10-member executive committee of the University Student Council, which is made up of 24 Carbondale and 16 Edwardsville representatives, has been named. The executive committee has no immediate plans for summer meetings.

However, Davis said the Carbondale Council plans a regular weekly meeting throughout the summer. The first one is scheduled for 9 p.m. Thursday in Room E of the Activities Area in the University Center.

He urged all Council members who are on the campus to attend the meetings.

In the past, the Student Council on the Carbondale campus did not function during the summer months.
