U.S. Steel, Jones & Laughlin Hike Prices

Seven Steel Producers Set New Price Trend

By The Associated Press

NEW YORK

U.S. Steel, the nation's number one steel producer, yesterday joined the growing number of steel firms raising their steel prices. It announced a hike of $4.85 a ton on certain of its flat rolled steel products.

The U.S. Steel announcement was sandwiched between similar increases by Arco Steel, the sixth-ranking producer, and Jones-Lauderhill Steel, the seventh-ranking producer. This brought to seven the number of mill operators to post higher prices.

The pattern of selective price increases by individual producers has taken definite form. With the U.S. Steel increase, it appears likely that most other producers will fall in line. Several other producers saw increases could have held up if U.S. Steel did not go along.

Fees Due Friday

Seven Coeds Are Seeking Miss TP Title

Nine coeds have entered the competition for the Miss Thompson Point Contest. The queen will be crowned in coronation ceremonies at Lentz Hall Friday night.

The Miss Thompson Point Contest opens tonight with a clinic from 8 p.m. to 10 p.m. The pageant will begin from 8 p.m. to 10 p.m. The contestants will be judged by five judges from the coast. The winner will be presented a trophy at the coronation Friday.

Helen Rossi and Barb Barber were in charge of the contest. The contest tickets will sell for 50 cents. However, the prizes accumulated in the talent contest will be weighted along with votes of Thompson Point residents in determining the queen.

The nine contestants are Patricia Nelson, Carol Johnson, Carol Lott, Lynn Metzger, Jacque Pluzynski, Cheryl Schwade, Sue Johnson, Jan Walendy and Ellie Zilmer. They are all seniors.

The bating suit and formal review of the candidates is scheduled for 8 p.m. Thursday at Lentz Hall. At this time the residents of Thompson Point will vote for a candidate. Voting will be done by meal tickets, the co-chairman said. The winner will be announced at 8 p.m. Friday, Miss Thompson Point will be crowned by the queen, Miss Sandy Horning.

Coniglio Brothers List Complaints

Wrestlers Frank and Patrick Coniglio, brothers, have signed statements complaining that the Athletic Department did not consider their academic progress, had implied they would receive NCAA scholarships, and told of threats made by them fellow wrestlers.

Coach Jim Wilkinson, who replied to their complaints said he had never implied to any person that the department gives NCAA scholarships. On their academic progress, he said that Frank carried a very light load of his own volition.

Frank Coniglio complained that he was told he would receive a full scholarship, but that his receiving it was dependent on his getting his brother, Pat, to attend SIU. Wilkinson replied, "Frank would have received a scholarship whether or not his brother came." By scholarship, Wilkinson said he meant one which paid fees, not the NCAA scholarship.

One of the complaints was that Frank had received injuries during training because of conditions at the quonset hut, where the temperature sometimes drops to the thirties, and that he has strained ligaments because of crowded conditions.

Wilkinson agreed that the quonset hut wasn't perfect, but improvements, such as wall heaters, had been added.

Both Frank and Patrick said they felt they had been told to lose so much weight that they might endanger their health. Pat said he had been told to reduce to 260 pounds below his normal weight.

Wilkinson said it was not at all unreasonable to ask Par to go from 137, at which he was wrestling, to 130. Pat maintained, however, that his normal weight was 156.

The two brothers said they had been threatened on different occasions by other wrestlers. Pat said he was just off crutches one time when he was told if he didn't wrestle at a meet, he would get a suspension.

Another time, Frank said the captain of the team threatened him for being late for practice. Frank explained that he had to take time to tape his hands, both of which were sprained.

Wilkinson didn't take this seriously, "it's just an attempt to get off the mat," he said. He knew of no one who has ever been beat up. Some boys have been given a rough time in practice, however.

SIU Microbiologist Receives 7th Cancer Research Grant

For the seventh consecutive year, Carl Lindegren, SIU microbiologist, has received a research grant from the Damon Runyon Cancer Fund. Bringing his total from this source to $63,400.

The new grant for 1963-64 amounts to $10,000.

During the past six years, Lindegren, who heads the University's Health Research Laboratory as well as the department of microbiology, has published some two dozen scientific papers as an outgrowth of his research, financed in part by the Runyon grants.

In general a study of gene mutations or changes as revealed in laboratory experiments, the current project during the next year will focus on adaptive enzyme formation and the mechanism by which this formation takes place, Lindegren said.

Carl Lindegren

Trackman's Complaints

Trackman Jim Dupree, who has signed complaints against the Athletic Department, held a heated discussion about his complaints with Coach Lew Hartzog and Athletic Director Donald Boydston Monday night.

Several student council members and others waited outside while the discussion went on. Frequently loud words could be heard inside the office in the stadium.

After the meeting, Dupree said that he was angry because his statement had been read to the coach and Boydston. He admitted that some of his complaints had been made earlier and that most of the problems had been worked out. He added that he didn't want his statement printed.

Hartzog said, however, that Dupree said he had nothing to hide. He was very angry when I confirmed all the accusations.

Coach Hartzog was unavailable for comment yesterday. He was in Red Bud, III., with Ray Brandt, council members and athlete who was seriously injured in an automobile collision.

Hartzog had earlier agreed to meet with reporters Tuesday night to get together with Dupree and hear his complaints and to reply to them. While Dupree and Hartzog were disputing, Senator George Graham called Dean of Student Affairs I. Clark Johnson that Hartzog may have been applying pressure to make Dupree change his statement.

Dupree said no pressure had been applied.

Davis went to the stadium and chatted informally with several athletes and coaches. But he left without speaking to Dupree or Hartzog.

Davis declined to comment on the situation. He noted, however, that a coach has a right to have a conference with an athlete if he so desires.
Novelist To Visit: Creative Writing Is Topic Of Matrix Table Speaker

Marie L. Nowinsao, author of the award winning book, "The Legacy of Gabriel Mar­
tel," will be guest speaker at this year's Matrix Table banquet.

The subject of her speech will be "The Creative Part of Creative Writing."

Miss Nowinsao, currently editor of the language arts department of Pollen Publishing
Company of Chicago, has served as associate editor of "The Republican," and on the
editorial staff of "Compson's Priced Encyclopedia."

Awards won by Miss Nowinsao include the Christopher award from the Catholic Lit­
erary Foundation for her book; first prize in a contest con­ducted by the National League
of American Penwomen for a collection of four short stories; and second place in a
novellette contest sponsored by the same group.

Matrix Table is the main event of Theta Sigma Phi, na­
tional fraternity for women in jour­nialism. This year the an­
nual banquet will be held on May 1 in the University Cen­
ter Ballroom.

Area Editors To Hear Prof From Britain

Herbert R. Davies, former
director of the Newspaper
Society of Great Britain, will
address members of the
Southern Illinois Editorial As­
sociation when the SIEA has
its spring meeting on campus
Friday. He is a visiting pro­
fessor of journalism at SIIU.

Russe Hoffman, SIEA presi­
dent and publisher of the
Highland News-Journal, said other speakers will be W. Paisley of Houston, Tex., head of ad­
vertising and consumer re­
search for the Procter & Gam­
ble Co; Arthur C. Schofield,
of WKYB, Paducah, Ky.; and
Charles Thimlia, editor of the
Vandalia Leader and Union.

Biographical demonstra­
tions will be presented by
Robert Stokes and Walter
Paisley's father is Oldham
Paisley, publisher of the
Marlon Daily Republican.

Robert Mueller, Ramsay
News-Journal, will preside at
the past presidents' dinner
at the Giant City State Park
lodge Thursday evening.
The program participants will be
Peter Mollman, Millstadt
Enterprise; Grover Shipton,
University of Illinois; and Ed
Kaminska, The McLeansboro
Times-Leader.

WSIU-TV Plays Bach To Ragtime

Music, from concert inter­
pretations of Bach to the
swing songs of the early
1900's, highlights tonight's
presentations of WSIU-TV.

7 p.m.

TECHNIQUE features a
pandit portrait of famous Can­
dadian pianist Lyle Menuh in
a musical examination on
the rote learning and the
memorization which were so
much a part of education dur­ing
the early years of the
century.

8 p.m.

THE LIGHT SHOW is the
happy sound of the turn of the
century. Tonight's show, "Yesterday's Homework," gives a musical examination on
the rote learning and the
memorization which were so
much a part of education dur­ing
the early years of the
century.

8:30 p.m.

THE PLAY OF THE WEEK
repeats Tuesday's tragic
story of the "Wingless Vic­
tory" starring Hugh O'Brian
and Eartha Kitt in a tale about
the reaction of a seafarer's
family when he returns home
a Malayan princess as his bride.

WSIU TV To Add Local Flavor To 'Bold Journey' Series

WSIU-TV's real life adven­
ture series, "Bald Journey," will
soon take on a new at­
traction with a distinct sou­
thern Illinois flavor, according
to Richard Uray, operations
manager of the station.

A series of 24 local films of
four and a half minutes
each will become a part of the
regular presentations. These
short films will par­
allel the world-wide adven­
tures of Americans in "Bold
Journey" with sequences
portraying some of the adven­
tures that people in southern
Illinois can have practically
in their own backyards.

The movie footage and slides
will be used in this southern
Illinois addition have been the
project of two SUU students,
Robert Schimmel and Steve
Postor.

They have traveled all over
the southern part of the state
shooting pictures of outstand­
ing historical, geographic, and
residential points.

"If this series is success­
ful," Uray commented, "we will
start a second one."

Eventually the station hopes
to have films of every out­
standing spot in the area.

Wednesday Activities
Show Signs Of Spring

Intramural shuffleboard is starting today. A 3 p.m. to 8 p.m. session has been called in the gymnasm.

Other intramural events today include softball at the Thompson Point and Chautauqua fields from 4 p.m. to 5:30 p.m.

Tennis practice will be held on the Old Courts from 3 p.m. to 7:30 p.m.

Wellwishing will be in session at the Quonset Hut from 7 p.m. to 10 p.m.

Spring weather is bringing the hamlets and the dormitory loungers into planning sessions for outings soon to follow.

The Egyptian Apanants will meet in Room E of the Center tonight at 7:30, and the Sleep-Linking Club will meet in the Center Snack Bar at 9 p.m.

Interfraternity Council will meet in Room D of the Center at 10 a.m. and the Special Events Committee will also meet this morning, 10 o'clock in Room C of the Center.

Kappa Phi, a Methodist Women's Service Organization, is having a "contact Party" tonight in the Bailey Foundation, starting at 8:30.

Alpha Kappa Phi, business fraternity, is planning a court of honor to be held tonight, 8 o'clock in the Agriculture Building.

The Education and Culture Committee of the University Programming Board will meet in Room C of the Center at 9 p.m.

The Special Events Committee of the same organization will meet at 10 in the morning in the Center, Room C.

The Interfraternity Council has called a meeting in Room C of the Center for 7 p.m.

Women's Recreation Association activities today will include volleyball, class and varsity, in the Women's Gym from 4-5 p.m.; huskie volleyball, same place, 5:45 to 7:30 p.m.; Modern Dance, same place, 7:30 to 9 p.m.; and tennis, new courts, from 4-5 p.m.

On Friday, Phi Beta Lambdas will hold an installation of officers for next year. A "meet the mob" get together will follow immediately complete with refreshments. The affair starts at 7:30 p.m. in Room D of the Center.

The Future Farmers of America Public Speaking Contest for area high schools will attract about 20 speakers to the District Five contest finals at 7 p.m., next Wednesday in the Agriculture Building.

Parachute Club

Meets Tonight

Sgt. First Class Mike Kremer will be on hand to introduce an SIU Sport Parachute Club meeting tonight. The meeting will be at 7:30 p.m. in Room River in the University Center.

He will give an orientation on parachuting, and also show films which should be familiar to all members of the club who want to jump. Anyone interested in parachuting, or in joining the club, is invited to attend.

Applications Are Available

For Key Student Activities

This is the season of applying for key spots in Student Activities. The appointments for the 1963-64 academic year will be made soon.

Applications sheets are available at the Information Desk of the University Center. Most of them have rapidly approaching deadline dates.

Applications can be made for membership on the University Center Programming Board or as chairman of any of the existing committees.

Another student committee performing a service unique at Southern and typical of successful hospitality is New Student Week Leadership. Applications to work on this committee are now being taken.

Application blanks for nomination of Miss Southern candidates and for Most Popular Faculty Member are also available now. These two will be named during Spring Festival May 9, 10, 11 and 12.

EVA VENTURA

Foreign Student Advisors To Attend National Meeting

Eva Ventura, a foreign student advisor here on a study leave from the University of the Philippines, has been invited to attend the annual conference of the National Association of Foreign Student Advisors, in San Diego, Calif., April 22-27.

Mrs. Ventura will be on a panel discussion with a group of other advisors from various parts of the world at the conference.

She received the invitation through the recommendation of Mrs. Mary Wakeland, foreign student advisor, and Willis C. Swartz, dean of the Graduate School, both of whom will also attend the conference.

Head of the staff of foreign student advisors at the University of the Philippines, Mrs. Ventura is here on a fellowship in political science and plans to continue her work until she receives her Ph. D.

Revolutionary Faces Deportation,
If Anti-U.S. Policy Letter Is Released

CARDONA was advised that if the document was made pub.
lic, "no Cuban exile would ever again be admitted inside
a U.S. government office." The letter is said to contain
a detailed account of meetings and talks between Miro, Atty.
Gen. Robert F. Kennedy and several high-ranking U.S.
civilian and military officials. The United States has pub-
licly rebuffed Miro for a purported bitter denunciation of U.S.
policy toward Cuba in the letter, which Miro read to a
closed meeting of the council last week. The State Depart-
ment was sent a copy.

WASHINGTON
Rep. Frank T. Bow, R-Ohio, chairman of a Repub-
lican budget-cutting group, said today the people of the United
States flunked the test on whether they really favor
economy in government, "Americans will pay dearly
for the $450 million worth of public works the House voted
last week," Bow said in a statement.

NEW CITY ORDINANCE WILL LET CARBONDALE ZONE OUTSIDE CITY
The Carbondale Plan Com-
mission expects to have an
ordinance which would zone
areas immediately outside
city limits ready for presenta-
tion to the city by June or July.
The Illinois Legislature last
year gave approval to a law
permitting cities to zone property within 1/2-miles
of their city limits. Carbondale’s Plan Commission is
currently attempting to de-
velop an ordinance providing
this zoning power to the city.
In the development of this plan, the commission is work-
ing with the Greater Egypt
Regional Plan Commission, a
consulting service.

Purpose of the ordinance
would be to prevent unattrac-
tive buildings, structures and
businesses from being located
in new residential sub-di-
visions outside the city. De-
preciation of property values
often occurs when unre-
stricted development is al-
lowed, officials said.

Psych Personnel
To Present Works
A total of nine research
papers authored by SIU psy-
chologists and psychology stu-
dents will be presented at the
annual meeting of the Mid-
wester Psychological Asso-
ciation in Chicago, May 2 to 4.

David Ehrenfreund, Psy-
chology Department chair-
man, said the large number of
papers accepted was unusual
for a single institution and
that the four papers to be read
by SUU students "is a real
tribute to the University’s
program.”

Faculty members who will
present papers are Neil Carr-
rier, James Mitchell, William
Wagman and Alfred Lit. Car-
rier’s work was co-authored
with Kenneth Orton of the
guidance department and
McHose collaborated with W.
LaBeuf of Carnegie Insti-
tute of Technology.

Students describing their
research will be J. Keith Ma-
teny, West Frankfort; Gerald
Pieters, Newark, N.Y.; Rich-
ard Peckham, Carbondale;
and Barbara Oliver, Carbon-
dale. Matheny is a junior; the
others are graduate students.

It’s Sign-Up Time For
Off-Campus Odd Jobs

The Student Work Office
today reminds students who
are interested in off-campus
odd jobs to come to that of-
fice and fill out application
forms.

These forms must be re-
newed at the beginning of each
term.

Off-campus odd jobs consist
of cutting lawns, painting, baby
sitting and short term

CARBONDALE

Assignment:
build a sports car
to rank with
the world’s best!

Result: The experimental Ford Mustang,
lively 2-seater loaded with
significant engineering features

Just under 13 feet long—weight, 1544 pounds, 400 to 700 pounds
less than comparable models of popular imported sports cars—
the Mustang is representative of the interesting design chal-
lenge at Ford Motor Company. Unique ways of reducing weight
without sacrificing strength, to improve performance and
economy, may stem from its design.

For example, seats are an integral part of the Mustang's body,
adding structural rigidity. Brake, clutch and accelerator are
mounted on a movable assembly which can be adjusted fore
and aft (as can the steering wheel) to suit varying sizes of drivers.

Other important features: low-drag, aerodynamic shape proven
in the wind tunnel; independent front and rear suspension; disc
front brakes; roll bar built as an integral part of the body/frame
structure; hot V-4 engine mounted forward of the rear axle in
unit with a 4-speed manual transmission.

The Mustang is another example of how challenging assign-
ments met by our engineers and stylists help Ford Motor
Company maintain engineering leadership and provide new
ideas for the American Road.
Council Of 100 Promotes Teaching Career Month

Importance of recruiting, preparing and retaining high quality teachers is being emphasized during April, which is Teaching Career Month, according to Russell D. Rendleman, executive director of the Educational Council of 100. He said the council and SIU are joining with the National Education Association to encourage qualified students to become teachers and remain topnotch teachers.

Although more than 2,175,000 people are now employed in the teaching profession in the United States, the fact there are not enough qualified teachers available to staff all necessary positions will not surprise many people, Rendleman said. The Education Council of 100 is an area organization concerned with southern Illinois problems such as school district organization, state aid, school construction, special education, conservation, industrial development and transportation.

Composed of two lay people and one professional person from each of the 31 southernmost counties and the presidents of three divisions of the Illinois Education Association, with the remainder from Southern, the council, explained Rendleman, is a liaison between various levels of education—public and parochial schools, SIU, adult education, and programs of community development. It was formed in 1949 by President Deleye W. Morris.

Duft Receives $500 Scholarship From Alpha Zeta

Kenneth D. Duft, retiring president of the SIU chapter of Alpha Zeta, honorary scholastic fraternity in agriculture, has been selected by the national organization for a $500 graduate scholarship award for 1963-64.

Duft, as agriculture student from Highland, is one of only four in the nation chosen by the National Alpha Zeta Foundation of America for the graduate scholarships. Other winners were from AZ chapters in South Carolina, Kansas and area educators. Members predominately are lay leaders. J. C. McCormick of Pulaski County is president, Norman Beck of Monroe County is first vice president and George Dodds of Williamson County is second vice president.

The council is holding its 14th semi-annual meeting at 3 p.m., Sunday, April 28, in the University Center ballroom on the SIU campus. Those to appear on the program include President Morris, Dean Arthur E. Lean of the College of Education, Professor George S. Counts of the College of Education and Grace Duft of Alexander County.

Student Arrested For Drunk Driving

Robert Teuscher, 21, a junior from Chicago, has been placed in a status of suspension from the University, according to disciplinary officials.

He was arrested about 6:30 a.m. Friday, officers said, and charged with driving while intoxicated and possessing an illegal car for which he had falsified registration.

Teuscher appeared in Jackson County Court on the drunken driving charge yesterday and was granted a continuance of the case until May 15. Authorities said final disposition of the disciplinary action will follow the outcome of the case in court.

Teuscher was arrested by campus police while driving near Lake on the Campus early Friday.

4 Students Accept Summer Fellowships

Four SIU students have accepted National Science Foundation summer fellowships. They are John R. Meyers, chemistry; Donald Jewell, psychology; Martha Strawn, zoology and Kenneth Weik, botany. These students will spend their summer months doing research in their respective fields.

They receive from $50 to $75 a week depending on the number of dependents they have.

Keeper Announces Four Assistantships

W.E. Keeper, dean of the SIU School of Agriculture, has announced the awarding of assistantships to four more graduate students studying for masters' degrees.

They are William D. Beldon of Windsor, Gary Elamstrom of LaGrange, Ralph Gann of Raleigh and Jerry Neubert of Ridgefarm.

Super Salesmen - When former newsboys take to the streets tomorrow to raise funds for the campus chapel, the Jaycees will be prominent among them. Jaycee chairmen demonstrated their sales style are (left to right) Leo Dingendon, Marion; Bob Hurdcastle, Herrin; and Bob Nolsey, Carbondale.
Is Automation The Answer?

First In A Series:

Students will soon be able to get out of bed in the morning, sit in a high chair with a cup of coffee in one hand and a newspaper in the other, and turn on the television. The reason for the invention of automation is that it brings what one student calls "the essential businesses" to the home. Yet, at last the student can go unnoticed by his professor when he does off to dreamland.

Convenient as it may be, the question arises, "Does educational television really an asset to the student and an improvement over what we are now doing?" Perhaps, it is the solution to overcrowded school rooms, increased enrollment and teacher shortages confronting public schools today. If so it's good, but the product and result is unfinished and unfulfilled.

Today's education problems are the result of an enlarged enrollment, a dearth of classroom space, shortage of teachers and second-rate instruction. It is also important that they have chosen to be colleagues, musicians, scientists, geologists, biologists, artists, chemists, etc., but they have also been asked to be full time educators concerned, and we are inspired to have a hand in, the general education of your young people. This implies, then, that a graduate of a university, who in his major subjects has a working knowledge of educational principles.

I suspect that one reason for public school teacher failures (admitted or not) is not because of a lack of sufficient knowledge in the subject matter area, but because of a lack of understanding of, valid principles of education.

Overlooking slams at the teachers for not teaching particular individuals in the aforementioned previous articles, and considering only the general indictment against professors by law, we can consider that the student is concerned with what he is gaining from a classroom experience at the college level. There is a good deal to be learned from these courses, but no one has to have one to have an approach with them in an open mind—no one can be forced to learn on the contrary, he refuses to learn if he so desires.

Teachers would be interesting to see a mouse in the corner when they are not needed. Why all the fuss? If one is right, his example will mean more than a pieced statement if the indep- endents persuaded everyone to be independent, there would be no independents left to set a good example. The satisfied Greeks compromised their study time by participating in too many they consider them necessary) social activities. But they are proud to be "mixers" and "accepted." The Independents are apparently quite proud of their (sometimes insincere and misguided) way, or they would not be raising such a fuss. Pride is an extravagance, a waste of precious time.

The undeniable pride of these two factions, coupled, social alienation of one and the shameful insincerity of the other, excuses my condemning them both.

On top of the fence, D. Boyd, Donald W. Boyd

Letter To The Editor:

Teacher Must Know Educational Principles

Teachers Must Know Educational Principles

There is a widely accepted axiom in education that says, basically, that the results of an endeavor are out of proportion with the effort and comprehension applied to it by the educator. Another way of saying the same thing is that you shall not judge a book by its cover.

It seems that previous articles concerned with educational television (April 4, April 10) were written by people who lack an understanding of learning about education. To say that a future teacher should not be able to construct a high school curriculum in his first year is to line the educator up against an impossible task. This is a great leap for the university student. The reasons behind such a statement. This was going to be his job for years to come!

No one can draw a circle to include all the interests of a particular individual, and say that it will neither effect or be effected by the remainder of the school program. It is going to improve good education that our future educational television leaves much to be desired. Admittedly, there is a great aid to the education of Americans, but it is not in the teaching situation on the college level arouses much controversy. Some educators argue that educational television short changes the student, among other things, one of the most important tools for the preservation of ideas and ideals.

In education, there are a result of enlarged enrollment, a dearth of classroom space, shortage of teachers and second-rate instruction. It is also important that they have chosen to be colleagues, musicians, scientists, geologists, biologists, artists, chemists, etc., but they have also been asked to be full time educators concerned, and we are inspired to have a hand in, the general education of your young people. This implies, then, that a graduate of a university, who in his major subjects has a working knowledge of educational principles.

I suspect that one reason for public school teacher failures (admitted or not) is not because of a lack of sufficient knowledge in the subject matter area, but because of a lack of understanding of, valid principles of education.

Overlooking slams at the teachers for not teaching particular individuals in the aforementioned previous articles, and considering only the general indictment against professors by law, we can consider that the student is concerned with what he is gaining from a classroom experience at the college level. There is a good deal to be learned from these courses, but no one has to have one to have an approach with them in an open mind—no one can be forced to learn on the contrary, he refuses to learn if he so desires.

Teachers would be interesting to see a mouse in the corner when they are not needed. Why all the fuss? If one is right, his example will mean more than a pieced statement if the indep- endents persuaded everyone to be independent, there would be no independents left to set a good example. The satisfied Greeks compromised their study time by participating in too many they consider them necessary) social activities. But they are proud to be "mixers" and "accepted." The Independents are apparently quite proud of their (sometimes insincere and misguided) way, or they would not be raising such a fuss. Pride is an extravagance, a waste of precious time.

Letter To The Editor:

Writer Observes Greek-Independent Issue From Spot On Top Of Fence

The Independents' attitude is that the Greek's social life is more parasitic than beneficial. But the Greeks believe that life is indeed dull and never quite as full when socializing is excluded or even minimized. Who is right? Both could be right! They are just on opposite sides of the fence. They have both made their choice and are trying to follow the dictates of their beliefs.

The degree to which one can do without those things that most people hold as common (or maybe even necessary) is the degree to which one is independent. Now, the Greeks do "with," and the Independents can't do "without," but the Greeks think they are covered advanced to social involvement and remain "joiners," "mixers," and "belongers." The Independents also foster social exchanges and some "joiners," or they would not constantly print their views in this paper. They seem much less sincere

Sunday Closing' Issue Faces Legislature

By Paul Simon

Illinois State Senator

The issue that is drawing the greatest amount of mail is the "Sunday Closing" law. The mail is almost solidly in support of Sunday closing. Of perhaps 300 or 400 letters I have received on the issue, all but half a dozen have been in support of the proposed measures.

There can be little dispute about the general proposition that the Sunday closing law would have to have a day of rest, an opportunity to meditate, and an opportunity to worship God according to the dictates of his conscience.

Beyond that generalized statement you get into controversy.

Some say this is an area where the individual merchant and homeowner are free to do what things out on their own and that government should not be in the business of contending with the trend toward opening on Sunday. But this is the wrong answer to the ports of the bill claim. They see government interference as a greater evil.

Some groups support the idea of the bill, but feel that taverns should not be one of the essential businesses allowed to remain open on Sunday; this is part of the present bill.

Others say the idea of one day a week closing is good, but it should not be done in the manner of the bill. My personal opinion is that the rights of those who do not hold Sunday as their day of rest should be protected.

Two facts should be kept in mind:

1. The move was started by a group of responsible business people who were concerned by the business they are losing through Sunday closing.

2. Many personal opinion is that the trend toward being open seven days a week is likely to continue unless there is some kind of legislative action, which will do nothing more about the legislation as it is currently drafted is that it violates the rights of the Orthodox Jew and the Seventh Day Adventist. It is true that these are a small percentage of our total population, but our country was founded on respect for the rights of minorities.

If it is amended to call for closing "one day a week" or closing on "Saturday or Sunday," I will support it. Such an amendment was supported by the K. J. C. where I have explained that I cannot in good conscience vote for the legislation if the Sunday closing is not protected, I am occasionally told: "Under any circum- stances, Sunday closing is objectionable."

My response has been: "I favor Sunday closing, but I do not object to Sunday closing if it is not protected, I am occasionally told: "Under any circum- stances, Sunday closing is objectionable."

My response has been: "I favor Sunday closing, but I do not object to Sunday closing if it is not protected.

"I favor Sunday closing, but I do not object to a Sunday closing if it is not protected, I am occasional- ly told: "Under any circum- stances, Sunday closing is objectionable."

My response has been: "I favor Sunday closing, but I do not object to Sunday closing if it is not protected."

30 Opponents:

SIU Distance Medley Team will Defend Title In Kansas

SIU will be among some 30 schools trying to set new records at the Texas Relays Friday and Saturday.

At least 13 meet records will be in danger of being broken by track squads from Southern, Texas Southern, Drake, Nebraska, Iowa State, Kansas State, Oklahoma, Oklahoma State and many others.

The field will include at least five defending individual champions plus Texas Southern and many teams.

A highlight will be the efforts of little Tom O'Hara and his teammates to prevent another sweep of the college band events by Texas Southern.

The Texas school scored an unprecedented slam of all six college relay events last year and took 15 of 17 at the Texas, Kansas and Drake Relays, losing only to Florida A & M at the Drake meet.

This year Texas Southern started the grand circuit by winning all six college band events at Drake Relays by more than 30 points last Saturday.

TheMightyHorse,masstredbyTexasSouthern,winntedthreebandevents -- mile relay with 6:07 seconds, the mile relay with 3:10, and the distance medley with 14:44.

Lew Hartzog, SIU's track coach, said that Texas Southern is in the college division instead of the university division that the Salukis will be competing.

Hartzog plans to enter his coach, said that Combs was Houston, Al Pulliam or Jim Stewart, Jim Dupree and Bill Corner.

The university class band records are among the nation's best and surpass the college division marks in every event. None is likely to fall this time, although SIU has the best shot at breaking them.

Willie, Crowder and Brian Turner - returning from last year's winning distance medley team - will also be in action.

Seven individual marks will be in danger, and an eighth -- the 100-yard dash, could be tied in the two-day extravaganza at Lawrence.

Persian lessons sponsored by the Iranian-American Association will be offered.

Spring quarter on Thursday evenings from 7 to 8:30 p.m. in Room F of the Student Center.

SIU's Pitching Staff Routed By Two Recent Opponents

SIU's pitching which had been responsible for four consecutive baseball victories this spring is trying to recover from Saturday and Monday's assaults by opposing hitters.

The assault on Saturday began Saturday at St. Louis and carried through Monday's double header against Central Michigan.

Central Michigan won both ends of the twin-bill by scores of 8-1 and 8-4. In the two games the Chippewas slammed out 22 hits for the 16 runs off seven Saluki pitchers.

The visiting Chippewas scored seven runs in the eighth inning of a regulation seven inning game to take the first game win. Four SIU pitchers were involved in the outcome of runs including the losing pitcher, Rich Beve.

In the second game Keith Bicker started and was the losing pitcher.

Football Player Suffers Neck Injury In Spring Practice

Bob Combs, SIU student, is in the St. Anthony Hospital in Carbondale pending further x-rays of his neck. He was injured Monday afternoon in the University's first spring football practice.

Combs, who was recently discharged from the Marines, was running a block and a block- ing drill. When he couldn't squeeze anything with his right hand, he was taken to the hospital by a SIU trainer, sent to him to the hospital.

After x-rays Monday night doctors said there appeared to be no fracture, and that he had regained the strength in the left hand.

Doctor's expect to take further x-rays today.

GLASSES

with highest degree of nearsightedness and your tele- phones of hottest styles.

Carmen Piccone, football, said that Combs was here on a "make- it-or-else" basis. If he made the team, then he would be asked to practice next fall.

Combs was the first injury of the spring football team which has 30 days to get in 20 days of practice according to NCAA rules.

Tennis Team Faces Weekend Foes

SIU's tennis team will see action Thursday, Friday and Saturday at the tennis courts located behind the Physical Plant buildings.

Wisconsin and Lamar Tech will be the opponents. Lamar Tech bear the Salukis in two matches last season. This year, Dick LeFevre's netmen figure to give the visiting Lamar Tech squad a tough time.

Lamar Tech is located at Beaumont-Texas.

HOW TO GET EDUCATED ALTHOUGH ATTENDING COLLEGE

In your quest for a college degree, are you becoming a narrow specialist or are you being broadened in your education, which is a key sense of the word?

This must be asked today by many serious observers — including my barber, my roofer, and my little dog Spot — and it would be well to seek an answer.

Are we making the most of the confined area of our majors, or does our knowledge range far and wide?

Do we, for example, the pilot who fought in the Battle of Jennico's Ear, or Kant's epistemology, or Planck's constant, or Valvula's manneuvers, or Chico from Worthington was doing ten or the other at Temple Allegy?

If we do not, we are turning, alas, into specialists. How then can we broaden our visions, lengthen our horizons — become more liberal?

Well sir, the first thing we must do is throw away our curricula. Tomorrow, instead of going to the same old classes, let us try something new. Let us think of each class as a form of discipline, but as kind of vast academic smorgasbord, with all kinds of different tempting intellectual tidbits to savour. Let's start sampling tomorrow.

FRED ORLOFSKY

GAR O'QUINN

LARRY TUCKER

Dupree To Skip Pan Am Games, Other SIU Athletes To Compete

SIU has three men in Brazil for the Pan-Am Games. Fred Orlofsky, Garland O'Quinn and Larry Tucker will be competing for the U.S. in the meet which starts Saturday.

A crowd of 60,000 is expected to jam Pacaembu stadium for the opening ceremonies and watch the 2,945 athletes from two nations of the Western Hemisphere march in the traditional colorful parade around the 400-meter track.

The number of athletes dominated by the host nation's huge entry list and the star-studded, 372-member U.S. delegation, is the most since the games began in Buenos Aires in 1951. The third games in Chicago in 1959 attracted a record 2,161 competitors.

U.S. is expected to capture most of the gold medals even though many outstanding stars such as Olympic and Pan-American champions Al Oerter, discus, and Parry O'Brien, shot put, and collegians like shot putter Gary Kubner and high-jumper John Thomas spurned bids for the team.

Jim Dupree, SIU's middle distance runner, decided not to make the trip because he would miss too much school. Many of the top collegians and other athletes are looking forward to the 1964 Olympics in Tokyo in October and can't take time off from school work and business for both competitions.

The same holds true for some other nations, including Canada. The Canadians will not be represented by their two leading runners, Bruce Kidd and Bill Crothers; Jamaica's George Kerr, winner of the 400, second in the 800 and a member of the victorious 1600-meter relay team, will not run either. Lance Lumaden, SIU tennis player from Jamaica, wanted to compete for his native country but couldn't because of school work.

In Chicago four years ago U.S. swept 120 first places out of a possible 163, 73 seconds and 53 thirds in 25 sports. They completely monopolized 15 sports and shared the honors in five others.

Music, 'Slums And Suburbs'

Are WSIU Radio Attractions

The exploration of "Slums and Suburbs" as presented on the "World of the Paperback" will be featured on WSIU radio this week.

Wednesday
1:30 p.m. France on the Move featuring "The Novel!"
