Frosh Urged To Register
By Aug. 27

Due to the rapid closing of general studies classes and the filling of classroom space, the Registrar’s Office is urging freshmen to advance register before the Aug. 27 deadline.

Herbert W. Wohlwend, assistant registrar, said there is no assurance that additional freshmen will be registered on Sept. 2, the beginning of the fall term, regardless of whether they are new or returning students.

Should registration get to the point where there is an open or no classroom space is available, the student will not be allowed to register. Should these people be enrolled, restrictions may be placed upon what courses could be taken during the term.

Therefore, a freshman student might not be able to enroll in the necessary general studies courses.

The last day of advance registration for graduate students is Friday.

Students who have been admitted to the University since July 13, but who have not as yet registered for courses, have received letters from the Enrollment Center telling them that they may register at one of the Edwardsville centers of the center if they wish to do so, or may register at the Carbondale campus on September 20.

Talk on Morocco Slated

Kurt Shaffer will discuss his experience as an irrigation engineer during his two years with the Peace Corps in Morocco, at the main picnic dome just north of the baseball–field–on–the–Campus boat docks.

Fuller Geodesic Dome to House SIU Exhibit at Du Quoin Fair

The SIU display at the Du Quoin State Fair will be housed in a Fuller geodesic dome designed by Buckminster Fuller. The dome was constructed of 100-square-foot wood–en panels dealing with the fields of study, the student activities and the enrollment situation at SIU. A scale model of the dome will also be on display. One area of the dome will be used for an exhibit on moveable parts by the School of Technology. The benches that will be used in the dome are being made by the Woodwork Pilot Plant at VTL.

Astronauts Set For 8-Day Trip
CAPE KENNEDY, Fla. (AP) — With their spacecraft at the ready, the two Gemini 5 astronauts were set Wednesday night for today's blast-off and eight-day trip in space.

A worrisome power system problem that appeared to threaten the mission Tuesday night faded away to a mere ghost in the morning light.

Space agency officials pronounced all systems ready for lift-off and "the crew is ready to go," according to Astronauts L. Gordon Cooper Jr. and Charles P. "Pete" Conrad Jr., who fly through the last-minute routine Wednesday day as flight officials cleared the last barrier to their flight.

Things looked dark for a while when engineers found a problem with a power system at the St. Louis, Mo., plant where the Gemini 5 spacecraft was built — a duplicate of the one in Gemini 4 — and there were some immediate worries that perhaps the capsule’s system might be going sour too.

Involved was some deeply–frozen helium that powers the new and tricky fuel cell system. The fuel cells are being used for the first time in Gemini to produce electricity, replacing much heavier batteries.

In the fuel cells, oxygen and hydrogen are combined, producing water, and allowing a harvest of electricity from surplus electrons in the chemical reaction. Both the oxygen and hydrogen are stored in well–insulated tanks in a sort of slushy snow at

Anti-Poverty Plan Directed by Rea

James F. Rea of Christopher, councilman with the Community Development Service, has obtained a leave of absence until March 1 to serve as area director of a multi-county anti-poverty program. Rea will direct activities of the nine-county West Central West Virginia Community Action Association. He said he would develop various types of programs on a regional approach under provisions of the Anti-Poverty Act. He will have a program director, assistant director and secretary in each county. Rea will reside at Parkersburg.

With Community Development Service since 1963, Rea has assisted with the Saline, Gallatin counties, Goreville, Smithton, and Enfield community action programs in Southern Illinois.

Another Community Development consultant, Bailey Williams of Carthage, is spending 12 weeks this summer at Northern Michigan University, Marquette, teaching VISTA trainees. VISTA (Volunteers in Service to America) is a civilian project based on the program of the Peace Corps.

Prior to going to Michigan, Williams was engaged in a five-county pilot program in Edwards, Richland, Wabash, Lawrence and Wayne counties.

KENNEY HONORED — David T. Kenney (center), chairman of the Board and professor of government after a year as acting dean of the Graduate School, was honored at a recent luncheon by his colleagues.

C. Addison Hickman (right), professor of economics and served as acting dean of the Graduate School for a year, and Charles Tenney, vice president for planning and review, are shown chatting with Kenney before the luncheon.

Hands Behind the Scenes

Seamstresses, Costumers Stitch Together

Fast Changes for ‘Sound of Music’ Troupe

A needle and thread, in the hands of an expert, can perform wonders. In "The Sound of Music," this weekend's Summer Music Theater production, many needles, spools of thread and working hands have created a wardrobe for a stage family.

The seven Trapp children in this Rodgers and Hammerstein musical will have no less than seven changes of clothing, with seven people backstage to help them in and out of their various outfits. Sailor suits, wedding dresses and play suits are just a few of the costumes that have been designed by Robert Christensen and Richard Boss.

"These children have enough clothes to carry them through any occasion," Miss Christensen said.

Boss, a graduate student in the Department of Theater, has designed a wedding dress for Maria Trapp. In addition to a wardrobe of dresses for the Baroness Elsa Schraeder, Boss recently received second-place honors in costume design in a nationwide contest sponsored by the Lyric Opera Company of Chicago.

In addition to designing and making the wardrobe for the lead characters, the costume crew is also responsible for 25 nuns' habits and dresses. The cast for "The Sound of Music" numbers approximately 65 and each member has been outfitted by the crew.

"The Sound of Music," running Friday through Sunday at 8 p.m., in Shryock Auditorium, also features several settings which have been designed by Darwin Payne and Robert Pevitta. The convent backdrop will be seen with a 9-foot statue of the Madonna. A bedroom scene has an elaborately bed with ruffling around the spread to match the huge backdrop.

Thirty backstage crew members have been working for three weeks on painting, hammering and nailing—all the jobs, required to put a stage setting together. Although they won't be seen on opening night, the make-up director, prop director, costume director and all the others who work "behind the scenes" are an integral part of this musical.

Tickets are available at $1 and $1.50 in the Summer Music Theater office in Shryock Auditorium.

Today’s Weather

Considerable clouds with several periods of showers and thunderstorms. Locally cooler with showers, otherwisie, a little temperature change, and a high between 85 and 90 degrees. Record high for the day is 106 degrees, set in 1936, and record low is 52 degrees, set in 1943, according to the SIU Climatology Laboratory.

Dewey Research

Is Seminar Topic

Mrs. Jo Ann Boydston, assistant director of the cooperative research on Dewey Publications will lead a seminar discussing the Dewey Research Project at the Faculty Club luncheon and seminar today. The luncheon will be held in the River Rooms of the University Center. No reservations are required.

Marx Brothers

In Movie Friday

The Marx Brothers star in the Cinema Classics film "At the Circus," a 1939 production illustrating the comedy style of the times. The movie will be shown at 8 p.m. Friday in Browne Auditorium. Admission is free without activity cards, 50 cents without.

Excursion Planned

To Muny Opera

An excursion to see the Lorimer and Loewe musical "Camelot" at the St. Louis Muny Opera is scheduled Saturday.

Cost of the trip is $3.00, which includes transportation and ticket. The bus will leave at 4 p.m. from the University Center.

Those interested in attending must sign up in the Student Activities Office in the Center before noon Friday. "Camelot" will mark the end of the summer session of the Muny Opera.

Miller Will Judge

Mississippi Hogs

Howard W. Miller, assistant professor of animal industries, in judging the Mississippi State Market Hog Show at Jackson today.

Miller, a swine production specialist, joined Southern's faculty in 1961, and received his doctorate in animal nutrition from the University of Kentucky in 1960. He also served on the University of Tennessee faculty. He is a native of Moline, Ill.
Was Mars 'Hospitable'?

By Frank Macomber

Copley News Service

SAN DIEGO, Calif.—While the Mariner IV pictures discourage the hope of finding life on Mars, we won't be certain until men land on the red planet. Dr. Krafft Ehricke, a member who has made Mars one of his chief study missions, said his chief study missions, said his chief study missions, said his chief study missions.

The scientist is Krafft Ehricke, director of advanced projects, a member of the General Dynamics Divion of the General Dynamics Corp. Here he couldn't be counted out on the Martian life concept by the Mariner IV pictures, even though he praises them highly.

"If there are no little green men with orange noses lurking up there," Ehricke said in an interview, "but let's not rule out the fact that there still might be life on Mars.

"The atmospheric and humidity conditions of Mars, as we know them now from the Mariner IV pictures, aren't conducive to any proof that life exists there."

However, Ehricke said, life may have been prevalent on Mars a million years ago and be there now.

"Conditions on Mars might well have been different a million years ago, or certain until men land on the red planet.

"Some pictures, aren't conducive to any proof that life exists there."

However, Ehricke said, life may have been prevalent on Mars a million years ago and be there now.

"Conditions on Mars might well have been different a million years ago, or certain until men land on the red planet."

Yet it might just be true that something of an important action of all was the defeat of an amendment to the bill to designate the period from Aug. 31 thru Sept. 9 as "National American Legion Baseball week."

If that seems an uneventful statement, just keep in mind that the matter had nothing to do with baseball, the American Legion. It was the first week in September, or any other sport, veterans organization, or week of the year.

Six Dirksen Move

That amendment was merely the slick maneuver of Sen. Dirksen, to defer the Senate Judiciary committee, which was scheduled to hear his request, for a legislative interpretation of the Supreme court's "man, one, vote" decision.

Counting in the three senators who were paired and who therefore also declared their positions, the Senate division was 47 to 48 on the issue. Tire court's "man, one, vote" decision.

Counting in the three senators who were paired and who therefore also declared their positions, the Senate division was 47 to 48 on the issue.

One of the strangest aspects of the voting was the lineup of the two parties. The Democratic senators voted by a ratio of 10 to 1 against the decision handed down by Chief Justice Warren. Only three Republican senators—Javits (N. Y., I), Case (N. J.), and Boggs (Del.)—voted for the "man, one, vote" basis of representation. That is a strange way for the Republicans, who themselves needed favor in the populous metropolitan areas!

Beaten by Douglas

The entire nation owes a debt of gratitude to the leading of the Senate's 'man, one, vote' decision. The vote of the Dirksen amendment came from southern or other rural states like Kansas, Nebraska, and Iowa.

Ten states, including many of the most populous, had the distinction and satisfaction of seeing both their senators vote to uphold the Supreme court's interpretation of the Constitution that people, not acres and trees, should be the basis for legislative representation.

Miner on Night Shift
To Get SIU Degree

More than 20 years ago, Russell W. Rose of Harrisburg, dropped out of high school to work in the mines. Today Rose is a candidate for a bachelor's degree from SIU, earned while he worked the night shift at a coal mine and attended classes by day.

"It has been tough, real tough," said a 42-year-old grandfather of twin boys. Rose presently is working the second shift at Orient No. 4 mine between Johnston City and Pittsburg in Williamson county.

"If really didn't love to go to school and learn, I don't believe I could have made it," he said. "I needed the encouragement of my family, my employers, my fellow workers, and my teachers." Despite the tough schedule Rose's grades have been outstanding. He has maintained an approximate 4.75 grade average in college studies.

Rose, 4 feet 5 inches tall and weighing 235 pounds, is slated to receive his bachelor of science degree in education at Summer Commencement Aug. 27, a night he'll take off from work. His area of specialization is secondary education with a minor in English. He plans to continue graduate work toward a master's degree, "but I'll teach when the right opportunity comes along."

A coal miner for more than 20 years, Rose was employed at Sahara, Derbing, and Peabody coal mines around Harrisburg before going to Orient No. 4, where he works underground as a machinist's helper.

Rose was born in Harrisburg and reared south of Car- rier Mills. After three years in Carrier Mills high school he headed the call of "good money" and quit in 1941 to work in the mines.

"Three weeks after I quit I knew I had done the wrong thing," he said. "But it was easily in World War II the money they were paying looked good. Like all kids reared during the depression I wanted the material things."

Rose married in 1943, and when the baby son, now the father of twin boys, was born, any ideas of a college degree would have been cast aside by the average working man. But Rose decided he wanted a college education and began studying. In 1958 he received a GED (General Education Development) high school diploma from SIU's University College and began taking Southern Illinois University extension courses taught in Harrisburg.

When Southeastern Illinois College, a two-year community college, was started in Harrisburg four years ago, Rose was one of the first to enroll, taking regular day classes and keeping his coal mine job at night.

After two years at Southeastern he transferred his credits to SIU, where he has been taking a lighter than average load of approximately 12 hours a term and going four terms a year to classes while working.

His 93-mile a day schedule calls for him to drive to Carbondale about 8 a.m. each day for classes, then leave SIU by 3 p.m. to get to work on time. Starting at 4 p.m. he works until midnight and gets home around 1:30 the next day to arrive in time to leave around 8 a.m. for Southern once more.

"I bet I'm the only college student who takes a midnight lunch to school with him, only I don't eat it there," Rose commented. He puts his lunch in an iced cooler and brings it to Carbondale. Then he takes it to the mine, where he eats it at 8 p.m. on a break from his work.
DA NANG, South Viet Nam (AP)—U.S. Marine war and aircraft sought Thursday to wipe out an entrenched Viet Cong regiment already bloodied in a pinball battle that, an American briefing officer termed "the biggest thing we've ever had" in Viet Nam.

U.S. 7th Fleet warships patrolled in the night in airlifts to prevent the guerrillas from escaping by sea. Ashore, Marines kept watch against any move of Viet Cong in hills to the west to reinforce their beleaguered associates.

"We predict we'll have some tough fighting," said Maj. Gen. Lewis W. Walt, the commander of Marines in Viet Nam.

Walt told newsmen Wednesday night that Viet Cong casualties from heavy contact during opening American assault on the Red-occupied Van Tuong peninsula, about 60 miles south of Da Nang, will run into the hundreds.

"We're not through counting yet," the general said.

"I have never seen a better coordinated attack." American casualties officially were described as light, both figures were disclosed and unofficial sources in Da Nang said the Marines took substantial losses.

Walt himself witnessed the fall of two million rounds of calming craft. Helicopters brought in other Marines and a dozen of these machines were damaged by Viet Cong fire. In all, the Leathernecks made up a full regimental landing force to cope with a Red enemy estimated up to 2,000 men. In many places, the Viet Cong waited in camouflaged concrete bunkers and opened up on advancing Marines and other them.

"Seventy-five per cent of our casualties were people who got shot in the back," Walt said. "It is very, very treacherous terrain."

Unofficial sources said the Viet Cong, well-armed with mortars and recoilless artillery, as well as rifles and machine guns, knocked out two Marine tanks and a truck, killing one crewman and wounding three others.

"a Flotilla from the 7th Fleet, including the cruiser Galves­ton and a helicopter carrying assault ship Jima, backed up the operation," Walt said.

"The Marines have made great efforts to keep all craft afloat," the briefing officer said.

Walt reported the Galves-ton's guns wiped out two Viet Cong batteries in an attempt to free a village. Two companies might mean 200 men. The general said he counted 17 Viet Cong bodies, all in uniform.

In Washington, Gen. Wallace M. Greene Jr., the Marine Corps commandant, commented that "this is really a full-scale battle."

**Fighting in Kashmir Halts Peace Efforts**

NEW DELHI, India (AP)—Prime Minister Lal Bahadur Shastri's trip to New Delhi from under pressure from members of his own Congress party and Indian political groups de­manding stern action against the guerrillas in Kashmir. In Parliament, Shastri said India had been asked not to expand the Kashmir talks because of the serious situation in India-Pakistan relations. "Our army will take any further step just as necessary to defend our borders," he warned.

Shastri defended the attack by Indian troops Sunday across the 17-year-old cease-fire line in divided Kashmir as essential to India's security. The Indian Defense Ministry said the fighting had cost at least 332 lives—230 guerrillas, 67 Indian soldiers and 55 Kashmiri civilians and police­men.

Bharlo had been invited to New Delhi to discuss the cease-fire agreement for the Rann of Kutch, a border wasteland 800 miles southwest of the disputed Kashmir where Indian and Pakistani soldiers have been fighting in April and May. The cancellation eliminates any possibility of expanding the Kashmir talks to cover the I-Kashmir fighting.

The Indian Defense Ministry said the fighting had cost at least 332 lives—230 guerrillas, 67 Indian soldiers and 55 Kashmiri civilians and policemen.

**Gemini 5 Ready for Launch**

Police in this central Greek town said he collapsed Tuesday while laughing at a
Police Raid Muslim Headquarters
In South Los Angeles Riot Area

LOS ANGELES (AP)—Police gunfire riddled Black Muslim headquarters and shattered a uneasy quiet early Wednesday in South Los Angeles where six days of Negro riots have left 54 dead.

Sixty Negroes were arrested in the police raid. All readily admitted they belonged to the black supremacy cult.

Some said they had come in response to calls to help defend their mosque against police attacks.

No one was shot. But nine Muslims were cut by flying glass.

Inside the mosque, police found wall maps, shortwave radios and stacks of Muslim literature. Among them were the black supremacy sect's paper, "Muhammad Speaks," with a big black banner line claiming "Our day is near at hand."

A rumor circulated in police circles that Elijah Muhammad, leader of the Negro group, was in Los Angeles. His headquarters are in Chicago, but he has a home in Phoenix, Ariz.

The police at 56th Street, and Broadway was the scene of a plot in April 1965, in which one Black Muslim died and several police were beaten. The mosque is in the riot sector.

The battle at the mosque came during the first night in four without a curfew.

Fifty police, sheriff's and Veterans Social Club. Police responded with heavy fire.

Officers were stationed on rooftops. Guards were placed at the doors of the riddled mosque. National Guardsmen sealed off four blocks around the mosque.

Germ King Constantine Asks
Tsirimokos to Form Cabinet

ATHENS, Greece (AP)—Elias Tsirimokos, former left-wing Socialist, accepted a mandate Wednesday night from King Constantine to form a new government.

The king chose Tsirimokos in a 2 1/2-hour meeting with him and another independent, Stephanos Stephanopoulos.

They apparently assured the monarch they had enough deputies to claim a majority in parliament.

Chaiago (AP)—The U.S. Navy sent superbucco detection devices to work Wednesday in the search for the wreckage of a lost airliner in which 30 persons died in Lake Michigan.

A helicopter, two planes and a helicopter resumed their search amid frequent showers and low visibility in an area about 30 miles southeast of Chicago.

The hunt was started Monday night, when a United Air Lines jet plummeted into Lake, killing all 24 passengers and crew members. The plane, a new 727, was approaching the end of a routine flight from New York.

"Our whole focus now is on finding the wreckage and bodies," said a spokesman for the Civil Aeronautics Board.

"All we have had is floating debris," he said the lake is 550 to 600 feet deep in the area where the search is in progress.

Many possibilities have been suggested. Among them have been a sudden loss of control, a fire in an engine, even a bomb.

Search for Wreckage Of Jetliner Continues

Tulsa, Cincinnati

**Grid Foes Include MVC Title Favorites**

By Joe Cook

Southern will play three Missouri Valley Conference teams in football this season, and two of them are favorites for the conference championship.

The University of Tulsa, Southern’s Homecoming opponent Oct. 30, and defending champion University of Cincinnati, are the pre-season favorites.

Wichita State University, a team Southern will play Oct. 23, and North Texas State University are also highly rated and are expected to cause conference trouble for Cincinnati and Tulsa if they don’t solve their backfield problems.

Tulsa’s problem is the knee injury suffered by tailback Bob Daugherty, who broke two national passing records, and a nine-run seventh, to put the game out of reach.

Dan Maga said the game’s only home run, a line drive down the right-field line, was a result of the injury suffered by tailback Williams.

Jimmie Johnson, a seven-run third and Tom McGuire, a nine-run seventh, put the game out of reach.

Coach Doll Shroyer has hinted that he would like to see Southern in a conference. "It creates rivalries and gives the team a little more incentive," Shroyer said.
